The College

Mission

Juniata's mission is to provide an engaging personalized educational experience empowering our students to develop the skills, knowledge and values that lead to a fulfilling life of service and ethical leadership in the global community.

Profile

BRIEF HISTORY

Juniata is an independent, co-educational college of liberal arts and sciences, founded in 1876 by members of the Church of the Brethren to prepare individuals "for the useful occupations of life."

Juniata's first classes were held on April 17, 1876 in a cramped, second-story room over a local printing shop. Two women and one man were in attendance. Unlike the common model at the time, Juniata was co-educational from the beginning. In 1879, classes were moved to Founders Hall (completely restored in 2009) on the present Juniata campus in Huntingdon. The town is a county seat of 10,000 and lies in the scenic Central Pennsylvania

mountains, mid-way between Interstate 80 and the Pennsylvania Turnpike.

The Juniata community now has over 40 buildings on over 800 acres, including the 316-acre Baker-Henry Nature Preserve and Sparks Farm. In addition, the Raystown Field Station, located on Raystown Lake encompassing a complete watershed, consists of 365 acres for exclusive College use and a full 29,000 acres for additional research and study. The Field Station is leased from the Army Corps of Engineers and provides one of the most distinctive opportunities in environmental science in the nation.

Primarily residential (94% of degree seeking undergraduate students live in campus housing), Juniata maintains an enrollment of approximately 1,300 students. Sixty-two percent are from Pennsylvania. This year's student body represents 35 states and territories, and 30 foreign countries.

ACADEMIC PRINCIPLES

The success of students is directly linked to Juniata's strong, dedicated faculty who consider teaching and advising their primary responsibilities.

The College supports a flexible, "value-centered" curriculum, wherein students

may design their own Programs of Emphasis, which often transcend traditional majors. Programs of Emphasis may be tailored to personal goals and needs, may lead to either a B.A. or B.S. degree, and may include courses from among 19 academic departments. Each student consults with two faculty advisors and may also seek counsel from QUEST, Career Services staff and Counseling staff. Coursework takes place both on and off campus and includes such varied experiences as seminars, fieldwork, “on-the-job” internships, study abroad, independent study and research.

PRINCIPLES OF A LIBERAL ARTS LIFESTYLE:

As a community, Juniata is dedicated to providing an academically rigorous and personally enriching liberal arts education. Students have a responsibility to expand and fulfill their lifestyles to embrace the opportunities that lead to well-rounded citizenship.

The Student Government of Juniata College, as servant of the students, approves the following principles of a liberal arts lifestyle, and believes that these principles serve as the vehicle to successful life experiences.

A Juniata student who fully engages in a liberal arts lifestyle:

- Recognizes the value of being a citizen of the world in an increasingly global and diverse community.

- Seeks opportunities to serve in activities that enrich communities and give back to humanity.
- Builds meaningful and lasting relationships with academic peers, faculty, staff, and future colleagues.
- Regards healthy lifestyle choices as the keystone to success.
- Embodies a spirit of sustainability through awareness of finite resources.
- Realizes that learning is a lifelong process encompassing many disciplines.
- Questions the assumptions and truths presented in life, as embodied in Juniata’s maxim “Veritas Liberat.”
- Understands that integrity and honesty in all of life’s pursuits are virtues unto themselves.
- Assumes responsibility for choices made

Approved by Juniata College Student Government, April 14, 2006.

JUNIATA’S APPROACH TO STUDENT DEVELOPMENT

As a community that focuses on the whole person, Juniata recognizes the importance of both curricular and co-curricular aspects of student development. Juniata has bridged the traditional higher education dichotomy between academic affairs and student affairs by merging these two branches of the College, a structural move that integrates the student’s college

experience. Academic affairs and student services officers meet regularly to coordinate efforts to meet students' educational and social development.

COMMENDATIONS

Juniata is mentioned in scores of diverse guides, articles, and measures of colleges and universities. Regardless of evaluation methods, the College is consistently praised as supportive, innovative, and a model for the best that liberal arts education can be.

We are praised for our overall offerings in *The College Solution: A Guide for Everyone Looking for the Right School at the Right Price*, *Baron's Best Colleges*, *Peterson's Competitive College Guide*, *U.S. News and World Report*, *The Princeton Review*, and *The Fiske Guide*.

We are recognized for our distinctive focus on experience and excellent outcomes in *Lauren Pope's Colleges That Change Lives*, *David L. Marcus's Acceptance*, *Weinstein's Making a Difference College Guide*, *Forbes.com's* rankings of 3,200 colleges and universities in the U.S., the Teagle Foundation's study, "The Nation's 13 Best Performing Colleges," and *The Unofficial, Unbiased, Insiders Guide to the 331 Most Interesting Colleges*.

Our accessibility and openness to students from diverse economic, social, racial and ethnic backgrounds has been recognized by the Center for Student Opportunity's *College Access Guide* and

Leland Miles' Provoking Thought: What Colleges Should Do for Students.

We are lauded for our commitment to service and community in guides like *Rugg's Recommendations on Colleges*, *usnews.com's "America's Best Colleges--A+ Options for B Students,"* *Entrepreneur.com's "Colleges with an Entrepreneurship Emphasis,"* *Washington Monthly's College Rankings*, *Don Asher's Cool Colleges*, and *ELLEgirl magazine's "Top 50 Colleges that Dare to be Different."*

Our students themselves talk about the College in *Vault's College Buzz Book* and *College Prowler*.

DIVERSITY AND INCLUSION

Juniata's first class in 1876 had just three students, two of whom were female. In a time when most educational institutions were out of reach for women and people of color, Juniata held steadfast in its commitment to equity and has not looked back. Juniata is unapologetically dedicated to maintaining the sense of peace, cooperation, and service set forth by our Brethren founders. We are resolute in our work to improve multicultural understanding. Here, the Office of Equity, Diversity, & Inclusion is more than a superficial programming body. It is an extension of the President's office.

In the past decade, Juniata has increased its ALANA student population

by more than 600% and our excellence in internationalizing our campus was recognized by NAFSA's 2012 Senator Paul Simon Award. Twenty-two percent of our student body comprises (domestic and international) racial and ethnic minorities and Juniata was one of the first schools in the state of Pennsylvania to extend partner benefits to same-sex domestic partners.

In 2005, Juniata opened the Unity House, which provides a welcoming space for all and develops the partnership between Diversity & Inclusion and Campus Ministry. The House provides meeting space for organizations as well as an interfaith prayer/meditation room. Programs including the EDI series, Plexus inbound and mentoring, Bias Response Team, P.E.A.C.E Certification, and Stewards of Diversity provide infrastructure necessary to support our growing diversity as well as educate the student body as a whole about their role as engaged citizens in a global society.

Please visit the Office of Equity, Diversity, and Inclusion website at <https://www.juniata.edu/offices/diversity/>

Right to Know Policies

NON-DISCRIMINATION

Juniata is an independent, privately supported, coeducational institution committed to providing a liberal arts

education to qualified students regardless of sex, religion, race, color, national origin, ancestry, marital status, sexual orientation or disability. College policies comply with the requirements of Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and all other applicable federal, state and local statutes, regulations and guidelines. A complete affirmative action policy is available in the Office of Human Resources.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974

The Family Educational Rights and Privacy Act (FERPA) provides college students with certain rights relative to access and release of records that are personally identifiable. Juniata College's policy and procedures relating to FERPA are outlined below.

Student Records

Records that can be reviewed by students are maintained by the Registrar, the Director of Career Services, the Dean of Students, the Director of Student Financial Planning, and the Controller.

Students have the right to inspect records listed above by asking for an appointment with the appropriate administrator. Records will be produced within a 45 day period and students have the right to seek the correction of information they consider inaccurate.

Students have the right to copies of their records.

Personally identifiable information from these records will not be disclosed to a third party without written consent of the student with the exceptions listed below:

- To other Juniata College administrators and faculty with a legitimate educational need (including faculty advisors and coaches of intercollegiate athletes).
- To accrediting agencies, certain governmental agencies involved in educational research, legal officers presenting a subpoena, and in emergencies to protect the health and safety of the student or others.

Records of request and disclosure of student records will be maintained by the appropriate administrators. These records will indicate the name of the party making the request, any additional party to whom information may be re-disclosed, and the legitimate interest the party had in obtaining the information. These records are available to students.

According to FERPA students do not have the right to review the following documents:

- Confidential letters and statements of recommendation which were placed in a file before January 1, 1975.

- Letters of recommendation that students have waived their right to review.
- Personal notes of faculty members, counselors, and administrators which are written only for the use of the writer.
- Financial records and statements of parents.

Directory Information

Directory Information includes name, home and local address, home and local phone number, email address, POE, class level, co-curricular activities, dates of attendance, enrollment status, cumulative credit hours, degrees, honors and awards received, and College-sanctioned photographic imagery. College-sanctioned photographic imagery is defined as digital or photographically printed images captured and created by College-financed operations including but not limited to the Marketing Office, the Digital Media Studio, the Advancement Office, Student Services, and the Office of the Registrar. Juniata may use parents names to promote announcements of their student's activities.

Students may refuse to have the directory information listed above, or some of the categories, released to third parties by submitting a written request to the Dean of Students by the fourth week of any given semester. Juniata

has determined that College-sanctioned photographic imagery is part of directory information, and thus is covered by blanket permissions implied in the Juniata policies regarding directory information.

Parental Notification

In the interest of promoting better communication regarding students' academic and personal development, parents of dependent students may opt to receive copies of all correspondences involving violations, charges, actions, awards and citations that are sent from the Dean of Students Office to respective students unless we are asked not to send copies (hard waiver). Revealing such information is permissible under section 4.1 Disclosure of Educational Record Information – 3i, which permits colleges to share educational records or components thereof without the written consent of the student to “parents of a student who have established that student’s status as a dependent” (chapter 5.3).

The Registrar’s Office will release grades and send copies of academic actions including academic probation, suspension and dismissal, to parents of dependent students provided there is a consent on file from the respective student. If students would like parents to receive grade reports for the semester, the student must request a Final Grade Report each time the final

grades are to be sent to the parents. The Request for Final Grade Report form is available in the Office of the Registrar.

The Student Accounting Services Office will communicate with parents of dependent students about billing for course registration, room and board, and any incidental fees which are the responsibility of a registered Juniata College student. NOTE: By registering, students are obligated to pay tuition, fees and other charges associated with the registration. Failure to meet these obligations by scheduled due dates, may result in additional costs associated with collection efforts including late fees, collection agency commissions, court costs, and other collection costs that might be incurred.

ACCREDITATION

Juniata College is accredited by the Middle States Commission on Higher Education (MSCHE), 3624 Market Street, 2nd Floor West, Philadelphia, PA 19104, 267-284-5000. The Commission on Higher Education is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation activities for institutions of higher education in the region. MSCHE is also recognized by the Council on Higher Education Accreditation (CHEA) to accredit degree-granting institutions which offer one or more post-secondary educational programs of at least one academic year in length.

The College is also certified by the American Chemical Society and the Council on Social Work Education. The Education Department is authorized by Pennsylvania's Department of Education to offer teacher certification programs. The College is a member of the National

Association of Independent Colleges and Universities, the Association of Independent Colleges and Universities of Pennsylvania, and the Council of Independent Colleges, as well as other state and national professional associations.

The Campus

Main Campus

INSTRUCTIONAL FACILITIES

Carnegie Hall (1907; renovated in 1998), once the College library, is a center for the fine arts. Its Henry and Mabelle Shoemaker Gallery and Edwin and Susan (Rabinowitz) Malloy Gallery of Art, replete with original stained glass windows and skylight, are used for exhibits, lectures, and receptions.

Carnegie Hall is home to the Worth B. Stottlemeyer and Guenther Spaltmann art collections. The hall also includes studios, darkroom, and the Juniata College Museum of Art. The Sill Business Incubator (renovated 2013) was renovated to provide a spacious new home for the ceramics program.

For the musical arts, headquarters is Swigart Hall (1950), an attractive, white-brick building also on the northern side

of the campus. Purchased for the College with a gift from W. Emmert Swigart '06, it contains faculty offices, practice rooms, teaching studios, and classrooms, one of which is home to a Yamaha Piano Laboratory.

The William J. von Liebig Center for Science (2002), is a state of the art facility for biology and chemistry. The facility has strengthened Juniata's position as a premier college for undergraduate teaching and learning in biology and chemistry. For research of all kinds, von Liebig is among the best equipped undergraduate science centers in the nation. Housed there are a cell culture facility, a shared facility for light (fluorescence, laser scanning confocal and DIC) and electron microscopy, and a fully equipped laboratory for molecular biology research. Other instrumentation includes an atomic force microscope, a gas chromatograph-mass spectrometer,

a nuclear magnetic resonance spectrophotometer, a liquid chromatograph-mass spectrometer, and an x-ray diffractometer.

In the Brumbaugh Academic Center (1968), three separate wings house seven departments. The Dale Hall wing houses business/accounting/economics, communication, information technology and computer science, and mathematics; with physics, earth and environmental science, geology, and the College Academic Computer Center located in the two corresponding wings. The circular hub of BAC includes Alumni Hall, a 400-seat auditorium, and one smaller lecture hall.

In addition, the 365-acre Raystown Field Station and the Davis and Robinson residence lodges on nearby Raystown Lake provides one of the country's most distinctive opportunities in environmental studies. The Raystown Field Station, encompassing a complete watershed, consists of 365 acres for exclusive College use and a full 29,000 acres for additional research and study.

The center for the social sciences, Good Hall (1967, renovated 2008) contains more than 30 classrooms, two computer facilities, and three instructional laboratories: psychology, modern languages, and human interaction. A second facility, the Early Childhood Education Center, is located in Maude-Lesher Hall.

The world languages are currently headquartered in the former Humanities Center (1979) now called World Languages Center (2011), Carnegie Hall (1907, renovated 1998) and Founders Hall (1878, restored 2009). The buildings house faculty offices, seminar rooms, classrooms, and art galleries while the surrounding lawn and campus areas accommodate outdoor classes and art displays.

GENERAL FACILITIES

Founders Hall is the oldest building on campus. Constructed in 1879 (restored 2009) on land donated by local citizens, houses most administrative offices, including the President's Office, Provost's Office, Dean of Students, QUEST, the Registrar's Office, College Advancement Offices and the departments of English and History.

The William E. Swigart, Jr. Enrollment Center (1975 remodeled in 1996) is located on 18th Street between Good Hall and the Brumbaugh Academic Center. It should be the first stop on any campus visit. The College Public Relations Office is located in the Pennington House, adjacent to Brumbaugh Academic Center. The Alumni Relations Office is located in the Harold B. Brumbaugh Alumni House on Mifflin Street behind Good Hall. Accounting Services, Digital Communications and Administrative Information Services are housed in The Stone House on Moore St. Business

Services and Human Resources are located at 1923 Moore St.

The Oller Center for Peace and International Programs (1999) houses the offices of International Programs and Peace and Conflict Studies. The International Programs Office (IPO) coordinates Juniata's internationalization efforts. The office staff members support the College's international student population, maintain an active study abroad program, assist faculty in curricular and programmatic planning, and enhance the international environment of the College.

The Ellis Hall (1969, upgrades 2008) is noted for its imposing entrance columns, and honors Juniata's sixth and seventh presidents, Charles C. and Calvert N. Ellis. A focal point of student life, Ellis houses the Career Services Office, Public Safety Office, Information Desk, Office of Conferences and Events, Office of Student Activities, the bookstore, post office, broadcasting center for WKVR radio, and offices for Student Government, Juniata Activities Board (JAB), The Juniatian, Laughing Bush, and other student organizations. In addition, the dining hall, the 680-seat Baker Refectory (renovated 2005), Eagles Landing (renovated 2008), a ballroom, student lounge areas, and conference rooms are here.

Juniata's L.A. Beeghly Library (1963) provides the Juniata community

with a web-based online public access catalog and library system, many full-text and other electronic databases, a book collection built to support undergraduate research, an extraordinary Special Collection, the College's Archives, and a staff eager to assist patrons and to collaborate. The library's online resources are accessible throughout the campus and beyond, and by study abroad students, making the library's web page a very convenient source for academic research. Laptops are available for patron checkout at the circulation desk and the basement contains an instruction room with 15 desktops.

The first floor has many desktop computers, two high speed printers, and an Information Commons built to support comfort, technology and collaboration. The library contains some 208,000 bound volumes, microforms, government documents, audio-visual resource materials, and can offer access to over 15,000 periodicals (full-text online, microfilm and print), 200,000 e-books, as well as access to literally over a billion electronic documents, and several prominent rare book and document collections. The Library also has six collaborative areas with large screens and white boards for group study with laptops. Beeghly Library has the sixth ranked German-American rare book collection in the country. Study space can be found for over 400 patrons, including several interactive

study rooms, and many network ports for laptops, including a wireless system. Almost all books and periodicals, except some rare editions in the W. Emmert Swigart Treasure Room, are accessible on an “open-stack” basis. The library offers interlibrary loan service, reserves, and classroom instruction, and welcomes suggestions for additions to the library collection. The library also houses the Writing Center and a Curriculum Library. The Friends of the Library is an active group which provide valuable support and is a very active group on behalf of the Beeghly Library. Many librarians teach College Writing Seminar Courses, as well as in the large library instruction program.

For cultural events, the Halbritter Center for the Performing Arts (2006) includes both the Rosenberger Auditorium and the Suzanne von Liebig Theatre. The Rosenberger Auditorium (built in 1940 remodeled in 2006) seats 850 and is used by most visiting speakers and performers as well as for student and faculty productions. The auditorium's acoustics are rated highly and large proscenium stage is equipped with modern lighting and sound equipment. The Suzanne von Liebig Theatre (2006) is a 200 seat, free form state of the art flexible theatre. The Center also includes a dance/movement theatre studio, costume shop, scene shop, classroom, green room, dressing rooms, and gallery space in its lobby.

The Kennedy Sports + Recreation Center (1983) provides Juniata students with modern recreational facilities. A hub for out-of-classroom activity, the Kennedy Center contains two gymnasiums; a six-lane, 25-meter swimming pool; and the F. Samuel Brumbaugh and Martha A. Brumbaugh Strength and Fitness Center (1998); racquetball/handball courts; and three expanded locker rooms. Dedicated to those from the College who served in World War I and II, the Memorial Gym (1951) serves as the center for varsity sports activity with a seating capacity of 1,200 for basketball and volleyball.

Outdoor facilities include the Raffensperger Tennis Courts, several intramural and practice fields, Langdon/Goodale Field (baseball), the new Juniata/Huntingdon softball field, Goodman Field (2012) at Knox Stadium (football and field hockey), the Jefford F. Oller Track (2009) and the Winton Hill soccer fields.

RESIDENCE HALLS

With Juniata's residence halls and apartment facilities, the College can accommodate more than 1,200 students. Most on-campus residence halls have been completely renovated and all now include computer and cable hookups in each rooms. Residence halls also have lounges, and free laundry facilities.

Among the residence halls is The Cloister (1928; renovated in

1994) located at the center of campus. An outstanding example of Pennsylvania German architecture, it vividly recalls the heritage of the College. At the other end of the architectural spectrum are the East Houses (1970; renovated in 1999), a complex of four modern sections providing apartment-style living.

Tussey-Terrace (1966; renovated in 1997), Sunderland Hall (1955; renovated in 1992), and Sherwood Hall (1961; renovated in 1992) form part of the northern boundary of the campus. Maude-Lesher Hall (1957; renovated in 2005) is just across the street from the Ellis Hall, while South Hall (1962; renovated in 1995) overlooks College Field. Nathan Hall (2014) is the newest residence hall, located at the north end of campus next to the Winton Hill Soccer Fields. The residence hall features 77 single rooms, including suites with living rooms, as well as private and semi-private bathrooms.

College apartment buildings within convenient walking distance include the Mission House at 18th and Washington Streets, the "Pink Palace" on Moore Street, and Hess Apartments on 14th and Washington Streets. Five additional houses were added in 2004 and 2005, some of which house the Global Village, a globally themed living and learning community.

INSTRUCTIONAL TECHNOLOGY

Juniata embraces effective use of technology to strengthen the teaching-learning experience. High speed networks provide connectivity in residence halls, classrooms, laboratories and offices. All students are automatically given accounts to access technology resources. These accounts provide access to the Internet, e-mail, course materials, Microsoft 365, library resources, and many other technology systems, such as the college portal, 'the Arch', which provides students with quick and easy access to online college services such as grades, course registration, event scheduling, campus calendars and job listings.

All classrooms are fitted with computer projection equipment (or large screen LCD), laptop connections, and sound systems. All students are required to have access to a laptop. Rentals are available as a backup when personal laptops are in need of repair.

Public computing areas also provide students with access to Windows and Mac computers that are installed with both standard and specialized software.

A description of individual facilities follows:

Brumbaugh Academic Center - including Dale Hall

- Geographic Information Systems Lab (B201) is a classroom/laboratory equipped with Windows based

machines and software focused on teaching and research using GIS tools. While this lab is primarily used for GIS, the equipment is available for general student use outside of normal class hours.

- Information Technology Lab (C102) - This room is primarily used as an Information Technology and Computer Science classroom, but is available to all disciplines for daytime academic activities. This classroom has Windows-based workstations with flat panel monitors.
- The Technology Solutions Center (C107) has iMac workstations with standard software applications and can also be used for media production. Rental equipment including laptops, cameras, and more are also available for faculty, staff and student checkout.
- Technology Solutions Center is the hub of digital video production for classroom projects. The TSC is always investigating new technologies (hardware and software), making it a popular work study opportunity for students.
- In addition to the technology housed in the Technology Solutions Center, it is also home to the IT Help Desk, which provides technology support to the campus community. The TSC is responsible for the planning, deployment and maintenance of all classroom technology across campus.

In addition, sound systems and other media for special events are maintained and coordinated through TSC.

- Innovations for Industry (I4I) Lab (C229) is an area set aside for students specifically in the Innovations for Industry course sequence to gather in their respective teams to work on their client projects. Dedicated hardware, software and media presentation equipment is housed in this center specifically for the I4I course.
- Physics Labs (P200 and P201) – These labs are equipped with windows based machines and software focused on teaching and research in Physics. These labs are used almost exclusively by Physics students but are available to all students outside of scheduled class times.

Good Hall

- Psychology Lab (G107) This classroom/laboratory houses Windows based computers focused on teaching and research in Psychology. This room is dedicated to the Psychology students and faculty based on the nature of their research.

Kepple IMSA Building

- Kepple 113 and 114 house Mac based computers with digital media software and tools that mainly support IMSA students. These labs are available to all students outside of scheduled class time.

Library

- The library has a laptop checkout program that enables students to sign out laptops for use anywhere within the library. There are also numerous ports in the library for wired connection to the network.
- Within the Reference Area are computers used primarily by students and faculty for research using the library's online resources of over 100 databases and 10,000 periodicals, and access to over 200,000 e-books. The Library has six collaborative tables with large screens for group work with laptops, and two high speed printers.
- The Writing Center/Library Instruction Room in the basement of Beeghly Library is a multi-purpose facility. During the day it serves as a classroom for teaching library research techniques and resources, in the evening it serves as a writing center for peer tutoring in writing skills. The room offers the capability for hands on teaching, especially of library technology skills, with MAC workstations, video presentation equipment, and several white boards. At the same time, in the evening it can provide a quiet and private place for students to go in order to receive personal help with their writing assignments. When the room is not in use for classes or tutoring, it is available as open computer lab space for the campus.

The Raystown Field Station

The Raystown Field Station is a 365-acre reserve operated as a center for environmental research and education. Located only 20 miles south of campus, the Station provides students with access to 29,000 acres of Army Corps of Engineers property, including the 8,300-acre Raystown Lake, the largest lake in Pennsylvania. The Station has modern facilities and accommodations including Shuster Hall (2003) that features state-of-the-art green architecture. Sustainable design was a central factor in the construction of the lakefront Shuster Hall. Two lakeside lodges (2006) adjacent to Shuster Hall provide modern housing complete with internet access. The Station also provides rustic accommodations at Grove Farm, a remodeled 18th century log farmhouse. Two semester-long immersion programs are currently offered, The Environmental Field Semester in the fall, and Ecology and Organismal Biology in the spring. The Station also offers an abbreviated June semester with courses focused on wildlife biology and conservation.

Students participating in the immersion semesters take all of their courses at the Field Station and live in the lodges on the lakeshore. The Environmental Field semester provides an immersion experience into the Northern Appalachians. Course topics include

ecology, geographic information systems (GIS), water resources or forestry (alternating years), field research, and the integrating seminar, A Sense of Place. Field work is integrated with course work and local projects as key educational approaches to this unique experience. Students in environmental science and studies, environmental education, geology and other natural sciences will find this semester to be central to their learning experience. Ecology and Organismal Biology is a joint venture with St Francis University, including courses in zoology or wildlife management (alternating years), plant or fish ecology (alternating years), animal behavior or marine biology (alternating years) and geographic information systems (GIS).

Other features of the Station include full internet connectivity, a series of ground water monitoring wells, a private harbor, a boat dock with a fleet of boats including a Boston Whaler, a 26' pontoon float boat and a 36' houseboat designed for aquatic laboratory work. The station also offers canoes and kayaks for student recreation. Two 4wd vehicles and a variety of field sampling gear, including microscopes, telemetry units, data loggers, laptop computers and portable water analysis labs, equip students and faculty for a wide range of field research activities. The Station hosts course activities for several academic departments, sponsors numerous faculty and student research

projects and internships, provides community environmental education opportunities and is the home to the annual Juniata maple syrup program.

Baker-Henry Nature Preserve and Elizabeth Evans Baker Peace Chapel

In addition to the main campus and other buildings, Juniata owns the 316-acre Baker-Henry Nature Preserve on which is located the Elizabeth Evans Baker Peace Chapel. Architect and artist Maya Lin, who also designed the Vietnam Veterans' Memorial in Washington, D.C., and the Civil Rights Memorial in Montgomery, Alabama, designed the Baker Peace Chapel. The Chapel is a place for both private meditation and public celebration. A grassy path ties two hilltops together: on one, a single, polished granite circle set in a bed of moss; on the other, a forty-foot circle of rough-cut English granite.

Sill Business Incubator

The Bob & Eileen Sill Business Incubator (SBI) has 10,000 square feet of wet lab, professional office and light assembly space for undergraduate entrepreneurs, faculty members and community members.

Sparks Farm

Organization of the College

Board of Trustees

Terms are listed in parentheses.

OFFICERS

White, Mary M., '73, Chair
 Glaeser, Carl D. '77, Vice Chair
 Habecker, Gail M., '76, Treasurer
 Wisner, Karla D., '97, Assistant Treasurer
 Moyer, Bruce L., '74, Secretary
 Guise, Katie, Assistant Secretary

MEMBERS

Troha, James A., B.A., M.A., Ph.D. – Ex-Officio (2013-)

Batchelor, John L. '69, B.A., M.A., Ed.D., Retired, Director of Field Placements, Gwynedd Mercy University, Rehoboth Beach, DE (2019-2022)

Christopher, David E. '96, (2023-2026)

Close, Nicole C. '92, B.S., M.S., Ph.D., President and Principal Biostatistician, Empiristat, Mount Airy, MD (2020-2026)

Craft, Jeffrey P. '00 (2023-2026)

Deike, Randall C. '88, B.S., M.S., Ph.D, Retired, Senior Vice President for Enrollment Management and Student Success, Drexel University, Philadelphia, PA (2018-2024)

Donahue, Jayne K., '75, B.S., Retired, Executive Vice President and General Auditor, State Street Corporation, Southborough, MA (2013-2022)

Fahey, David J. '81, Principal and Managing Director, Avison Young, Wayne, PA (2015-2024)

Glaeser, Carl D. '77, B.S., Managing Partner, Palladian Capital Partners, New York, NY (2005-2026)

Hadley, Joy L. '84, B.S., M.P.A., Senior Executive Service Member, Federal Housing Administration, Alexandria, VA (2020-2026)

Habecker, Gail M. '76, B.A., E.B. A.C., Director of Research, StoneRidge PMG Advisors, LLC, Conshohocken, PA (2003-2006, 2007-2022)

Hayes, William P. B.A., President & CEO, Kish Bankcorp, Inc., State College, PA (2004-2022)

Hess, Steven J. '91, B.S., M.S., Ph.D., Senior Director of Research & Development, The Hershey Company, Hershey, PA (2019-2022)

Hevrony, Nathan B.S., Principal & Managing Partner, HIG Equity, New York, NY (2013-2022)

Holsinger, Steven J. '76, B.A., J.D., General Counsel and Secretary, A.S.K. Foods, Inc., Palmyra, PA (1999-2000, 2001-2022)

Jensen, Eric C. '77, B.S., Ph.D., Retired, Senior Research Fellow, Eli Lilly & Company, Indianapolis, IN (2009-2024)

Johnson, Michael A. L. '07, B.S., M.D., Neurologist/Physician, Colorado Neurodiagnostics, Littleton, CO (2021-2024)

Jones, Elaine V. '76, B.S., Ph.D., Retired, Vice President, Pfizer Corporation, Wayne, PA (2014-2026)

Klag, Michael J. '74, B.S., M.D., M.P.H. Dean Emeritus, Johns Hopkins University, Baltimore, MD (2019-2022)

Kochel, Randy L. '79, B.S., M.D., Managing Physician, Family Medicine County Line, Lancaster, PA (2020-2023)

Mason, Fred C. '73, B.S., M.B.A., Retired Director, Product Source Planning, Caterpillar, Inc., Greenland, New Hampshire (2008-2026)

Monger Gray, Jodie E. '88, B.S., M.S., Ph.D., Retired President & Owner, Customer Relationship Metrics, Stevensville, MD (2002-2024)

Moyer, Bruce L. '74, B.A., J.D., President, Government/Legal Affairs, Moyer Group, Takoma Park, MD (2011-2026)

Ostrowski, Colleen E. '95, B.S., M.B.A., Senior Vice President & Treasurer, Visa, Foster City, CA (2021-2024)

Pletcher, Carol A. '66, B.S., M.S., Ph.D., President, Pletcher Inc., Solana Beach, CA (2016-2022)

Shah, Parisha P. '01, B.S., Ph.D., Senior Research Investigator, University of Pennsylvania Perelman School of Medicine, Philadelphia, PA (2020-2026)

Siedzikowski, Henry F. '75, B.A., J.D., President, Attorney, Elliott Greenleaf & Siedzikowski, Blue Bell, PA (2011-2026)

BOARD OF TRUSTEES EMERITI

Date in parentheses is that of appointment to the board.

Andrews, David P. '74, B.A., J.D., Hollidaysburg, PA (1992-1995, 1999)

Baker, Anne C., B.A., B.M., M.A., J.D., New York, NY (1987)

Beachley, David C. '77, B.S., Hagerstown, MD (2005)

Brinker, John A. '69, B.S., M.B.A., Santa Barbara, CA (2000)

Statton, Timothy D. '72, B.S., Retired, Executive Vice President and Director Bechtel Group, Inc, President, Bechtel Telecommunications Global Business Unit, Member of Bechtel Corporate Board, Sonoma, CA (1998-2022)

Sterl, P. Bradford '76 (2023-2026)

Sunderland, Daniel K. '88, B.S., President, Sun Motor Cars, Inc., Mechanicsburg, PA (2018-2024)

Thompson, Christopher J. '87, B.S., Retired, Independent Consultant, Media, PA (2021-2024)

Valko, George P. B.S., M.D., Vice Chair, Department of Family & Community Medicine, Thomas Jefferson University, Collegeville, PA (2013-2022)

Van Horn, Carol L. '79, B.S., J.D., Senior Judge, Chambersburg, PA (2021-2024)

White, Mary M. '73, B.S., M.S., Vice President/Resource Management, HCA/HealthONE, Englewood, CO (1999-2026)

Wise, Charles W. III, A.B., M.B.A., Retired Vice President, Human Resources, PPG Industries, Pittsburgh, PA (2000-2024)

Wulczyn, Friedhelm '75, B.S., M.S., Ph.D., Senior Research Fellow, University of Chicago, Chicago, IL (2018-2024)

Brown, Charles C., Jr. '59, B.A., J.D., Bellefonte, PA (1976-79, 1981)

Chang-Lo, Patrick, B.S., M.S., San Rafael, CA (2011)

Cramer, John McN. '63, B.A., LL.B., Harrisburg, PA (1982)

Dale, John A. '54, B.S., M.A., L.H.D., Medford, NJ (1997)

Davis, Bruce '65, B.A., M.F.A., Los Angeles, CA (2012)

Detwiler, Donald L. '64, B.S., Hollidaysburg, PA (1994)

Endres, Richard J., B.S., Huntingdon, PA (2017)

Gibbel, Henry H. '57, B.S., Lititz, PA (1973-76, 1978)

Green, Madeleine F., B.A., M.A., Ph.D., Chevy Chase, MD (2003)

Halbritter, Barry J. '65, B.S., Duncansville, PA (1987)

Hess, Kenneth E. '75, B.S., Ephrata, PA (2000)

Hesselbein, Frances R., L.H.D., New York, NY (1988)

Hill, John, T., B.A., Pennington, NJ (2012)

Hogan, David J. '61., B.A., New York, NY (2005)

Kindig, Karl K. '72, B.S., J.D., Abingdon, VA (1994)

McDowell, Robert N. '67, B.A., M.A., Huntingdon, PA (1999)

McKonly, Linda W. '73, B.S., Hanover, PA (2005)

Michel, Harriet R. '65, B.A., L.H.D., New York, NY (1989)

Patterson, Wayne C. '60, B.S., M.S., Ph.D., Parker, CO (1986)

Paulhamus, Richard E. '70, B.S. M.S., Bonita Springs, FL (1997)

Paullin, Carol Ellis '71, B.S., M.Ed., Palm Coast, FL (2011)

Pollock, Gayle W. '68, B.S., Lewisburg, PA (2005)

Schwemmlein, Christoph '84, B.S. M.B.A., Nuremberg, Germany (2001)

Shreiner, Patricia J. '62, B.S., P.A., Chambersburg, PA (2001)

Strueber, Michael M. B.S., M.A., M.Ed., Hollidaysburg, PA (2003)

Swigart, Patricia B., B.T., A.A., Huntingdon, PA (1999)

Taylor, Maurice C., '72, B.A., M.A., Ph.D., J.D., Baltimore, MD (1993)

Wagoner, Robert E. '53, B.S., Palmyra, PA (1982)

Faculty

The date in parentheses is that of first appointment to Juniata faculty.

Adhikari, Kushal, Assistant Professor of Environmental Engineering (2022). B.S., Visveswaraya Technological University; M.S., Ph.D., Texas Tech University, 2021.

Ames, William M., Associate Professor of Chemistry (2013). B.A., Macalester College, 2004; Ph.D., The University of Iowa, 2009.

Andrew, Bradley B., Professor of Economics and International Studies (2001). Beachley Distinguished Teaching Award, 2023. B.S., Framingham State College, 1989; M.A., Ph. D., University of Connecticut, 1992, 2002.

Banini, Josiani, Assistant Professor of French (2022). B.A., University of Yaoundé II, 2006; M.A. (Master 1), University of Yaoundé II, 2007; Dual M.A.,

West Virginia University, 2014; Ph.D., Florida State University, 2022.

Baran, Peter, Professor of Chemistry (2004). B.S., M.S., Ph.D., Slovak Technical University, 1985, 1986, 1992.

Barlow, J. Jackson, Charles A. Dana Professor of Politics (1991). Junior Faculty Award, 1995; Beachley Distinguished Academic Service Award, 2006. B.A., Carleton College, 1976; M.A., Ph.D., Claremont Graduate School, 1981, 1984.

Baughman, Kathy R., Swigart Associates Professor of Business and Economics (2009). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2015. B.S., The Pennsylvania State University, 1991; M.B.A., Saint Francis University, 2009.

Beaky, Matthew M., Professor of Physics (2011). B.S., Worcester Polytechnic Institute, 1989; M.S., Ph.D., The Ohio State University, 1992, 1996.

Bellwoar, Hannah, Professor of English (2011). B.A., Temple University, 2000; M.S., Ph.D., University of Illinois, 2004, 2011.

Bennett, Randy L., Professor of Biology (2000). B.A., Western Maryland College, 1985; Ph.D., University of Wisconsin-Madison, 1993.

Benson Burns, Bethany, Professor of Art (2007). Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2013. B.F.A., University of Massachusetts, 2000; M.F.A., Southern Illinois University, 2007.

Biddle, Kathleen R., Martin G. Brumbaugh Professor of Education (2005). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2010; Beachley Distinguished Academic Service Award, 2019. B.S., Indiana University of Pennsylvania, 1976., Ph.D., Tufts University, 1996.

Blades, William, Assistant Professor of Physics and Engineering Physics (2023). B.Sc., Virginia Commonwealth University, 2014; M.Sc., Virginia Commonwealth University, 2016; Ph.D., University of Virginia, 2021.

Borgardt, James D., William W. Woolford Professor of Physics (1998). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2003; Beachley Distinguished Teaching Award, 2012; Beachley Distinguished Service Award, 2022. B.S., University of California, Santa Barbara, 1989; M.S., Ph.D., University of Arizona, 1995, 1997.

Boryk, Robert, Instructor of Art (2015). B.A., Kent State University, 2010; M.F.A., Southern Illinois University, 2014.

Bowen, Lauren L., Provost and Professor of Politics (2015). B.A., The Ohio State University, 1984; Ph.D., University of Kentucky, 1992.

Braxton, Donald M., J. Omar Good Professor of Religion (2002). B.A., Wittenberg University, 1986; A.M., Ph.D., The University of Chicago, 1987, 1993.

Bukowski, John F., Professor of Mathematics (1997). Beachley Distinguished Academic Service Award, 2013; Beachley Distinguished Teaching Award, 2018.

B.S., Carnegie Mellon University, 1991; Sc.M., Ph.D., Brown University, 1992, 1997.

Burns, Jonathan, Instructor of International Studies (2010). B.S., The Pennsylvania State University, 1993; M.S., Colorado State University, 1996; Ph.D., Temple University, 2006.

Camenga, Kristin A., Associate Professor of Mathematics (2016). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2020. B.A., St. Olaf College, 1997; M.S., Ph.D., Cornell University, 2005, 2006.

Cockett, Lynn S., Professor of Communication (2001). Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2006. B.S., Messiah College, 1989; M.L.S., Ph.D., Rutgers-The State University of New Jersey, 1993, 2000.

Cotrell, Shannon, Instructor of College Writing (2007). B.A. St. Mary's University, 1991; M.A., University of Texas at San Antonio, 2000.

Crum, John D., Assistant Professor of Criminal Justice (2022). B.A., Penn State Altoona, 2013; M.A., Indiana University Pennsylvania, 2015; Ph.D., The Pennsylvania State University, 2022.

Deshong-Cook, Lee Ann, Assistant Professor of Social Work (2020). B.S., The Pennsylvania State University, 1993; M.S.S., Bryn Mawr College School of Social Work and Social Research, 2000; Licensed Master Social Worker (New York and Pennsylvania), 2000.

Dickey, William M., Associate Professor of English (2008). B.A., Shippensburg University, 2000; M.A., University of New Orleans, 2003; Ph.D., Indiana University of Pennsylvania, 2010.

Dries, Daniel R., Associate Professor of Chemistry (2013). The Henry H. '57 & Joan R. Gibbel Award for Teaching Excellence, 2018; B.S., University of Delaware, 2000; Ph.D., University of California, San Diego, 2007.

Dunwoody, Philip T., Professor of Psychology (2004). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2010. B.A., Richard Stockton College of New Jersey, 1994; M.S., Ph.D., University of Georgia, 1998, 2000.

Escuadro, Henry, Professor of Mathematics (2007). B.S., M.S., Ateneo de Manila University, 1994, 1997; Ph.D. Western Michigan University, 2006.

Firreno, Jr., Thomas J., Assistant Professor of Biology (2023). B.S., Duquesne University, 2011; M.S., Indiana University of Pennsylvania, 2016; Ph.D., University of Texas at Arlington, 2021.

Fletcher, Alison, W. Newton and Hazel A. Long Professor of History (2007). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2011. Bryn Mawr College; M.A., Ph.D., The Johns Hopkins University, 1995, 2003.

Frazier-Yoder, Amy, Associate Professor of Spanish (2009). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2017. B.A., Washington & Lee University, 1999; M.A., Ph.D., University of Virginia, 2004, 2010.

Gallagher, Sinéad M., Assistant Professor of Accounting (2018). M.Sc, Dublin City University, Dublin, Ireland, 2001; Ph.D., Queens University Belfast, Belfast, United Kingdom, 2017. Certified Public Accountant (US), 2018. Chartered Accountant (Ireland), 1994.

Glazier, Douglas S., Professor of Biology (1980). Beachley Distinguished Academic Service Award, 2000. B.A., Oakland University, 1973; Ph.D., Cornell University, 1979.

Gould, Gabriel, Instructor of College Writing (2012). A.A., Simon's Rock College, 1992. B.A., Bard College, 1995; M.M. and D.M.A., University of Michigan, 2000.

Grajewski, Tracy L. Stough, Assistant Professor of Accounting, Business, and Economics (2023). B.A., Juniata College, 1986; M.B.A., Syracuse University, 1992.

Grant, Christopher J., Associate Professor of Biology (2019) B.S., M.S., Ph.D., The Pennsylvania State University, 2003, 2005, 2012.

Haque, Ziaul, Elizabeth Evans Baker Assistant Professor of Peace and Conflict Studies and Director of Baker Institute (2021). B.S.S., University of Dhaka, 2008; M.S.S., University of Dhaka, 2009; M.Sc. Linnaeus University, 2015; Ph.D., Kennesaw State University, 2020.

Harper, Kerry, Assistant Professor of Social Work and Director of Field Education (2022). B.S., Juniata College, 2004; M.S.W., Temple University, 2007; Licensed Clinical Social Worker.

Helsel-Ickes, Amber J., Laboratory Coordinator and Instructor of Chemistry (2010). B.A., Juniata College, 2004; Ph.D., The State University of New York at Buffalo, 2009.

Hildebrand Hoffman, Katie, Assistant Professor of Education (2021). B.A., Juniata College, 2001; Ph.D., The Pennsylvania State University, 2008.

Hirshon, Elliot, Coordinator of EAP and Instructor of ESL (2018). B.A., Tufts University, 2005. M.A., TESOL Teachers College, Columbia University, 2014.

Holsing, Mark, Assistant Professor of Accounting, Business, and Economics (2022). B.S., Penn State University, 2012; M.S., Slippery Rock University, 2019.

Hosler, Jay, David K. Goodman '74 Professor of Biology (2000). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2005; Beachley Distinguished Teaching Award, 2016. B.A., DePauw University, 1989; Ph.D., University of Notre Dame, 1995.

Hsiung, David C., Dr. Charles R. and Shirley A. Knox Professor of History (1991). Junior Faculty Award, 1995; Beachley Award for Distinguished Teaching, 2007. B.A., Yale University, 1983; M.A., Ph.D., The University of Michigan, 1985, 1991.

Innerst, Melissa, Assistant Professor of Mathematics (2019). B.S., Texas Lutheran University, 2015; M.S., Ph.D., Baylor University, 2016, 2019.

Jaquess, Kyle, Assistant Professor of Psychology and Neuroscience (2020). B.A., University of California, Riverside, 2009; M.A., California State University, San Bernardino, 2012; Ph.D. University of Maryland, College Park, 2018.

Jewett, Kathryn, Assistant Professor of Biology (2020). B.S., Washington State University, 2010. Ph.D., Washington State University, 2014.

Johanesen, Katharine, Associate Professor of Geology (2015). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2021. B.S., Beloit College, 2006; Ph.D., University of Southern California, 2011.

Johnson, Dennis L., George "Fritz" Blechschmidt '54 Professor of Environmental Science (1999). B.A., Lock Haven University, 1989; B.S., M.S., Ph.D., The Pennsylvania State University, 1989, 1992, 1995.

Jones, Kathleen M., Professor of Education (2005). B.S., M.S., Ph.D., The Pennsylvania State University, 1985, 1995, 2009.

Keeney, Jill B., Charles A. Dana Professor of Biology (1994). Junior Faculty Award, 1999; Beachley Distinguished Academic Service Award, 2011. B.S., The Pennsylvania State University, 1985; Ph.D., Washington University, 1990.

Kough, Ryan, Associate Professor of Integrated Media Arts (2018). B.A., Savannah College of Art and Design, 2008; MFA, Purdue University, 2013.

Kruse, Gerald W., John '54 and Irene '58 Dale Professor of Math and Computer Science (1999). Beachley Distinguished Academic Service Award, 2017. B.S., University of Illinois, 1985; Sc.M., Ph.D., Brown University, 1993, 1997.

Lagroue, Jared, Instructor of Communication (2017). B.A., Pepperdine University, 2012; M.A., Pepperdine University, 2017

Lamendella, Regina, George '75 and Cynthia '76 Valko Associate Professor of Biology (2012). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2016; B.S., Lafayette College, 2004; M.S., Ph.D., University of Cincinnati, College of Engineering, 2006, 2009.

Lash, John, Assistant Professor of Accounting, Business, and Economics (2019). B.S., Juniata College, 2008; M.B.A., The University of North Carolina, 2017; Ph.D., Robert Morris University, 2021.

Latten, James E., Professor of Music (2002). B.S., Mansfield University, 1986; M.S., Indiana University, 1990; Ph.D., The Pennsylvania State University, 2002.

Lauzon, Robb, Assistant Professor of Communication (2023). B.A., Oakland University, 2009; M.A., Wayne State University, 2013; Ph.D. Rensselaer Polytechnic Institute, 2018.

Li, Jou, Instructor of Chinese (2022). B.A., National Taipei University of Education, 2019; M.A., Indiana University, 2021.

Maleska, Monika, Professor of Art (2006). B.A., University of Manitoba, Canada, 1998; M.F.A., University of Texas at San Antonio, 2001.

Mansberger, Elizabeth P., Assistant Professor of Biology (2014). Eagle Advising Award, 2023. B.S., University of Maine, 1985; Ph.D., The Pennsylvania State University, 1992.

Mathur, Amy E., Associate Professor of English (2006). B.A., Juniata College, 1996; M.S., Carnegie Mellon University, 1997; Ph.D., University of Arizona, 2009.

Mathur, Ryan D., Professor of Geology (2001). B.A., Juniata College, 1996; Ph.D., University of Arizona, 2000.

Matter, John M., Associate Professor of Biology (1997). B.A., University of Missouri, 1983; M.S., Saint Louis University, 1987; Ph.D., University of Florida, 1995.

McKellop, J. Mark, Professor of Psychology (2002). Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2008. B.A., The Ohio State University, 1994; M.A., Ph.D., University of Cincinnati, 2000.

Merovich, George T., Jr., Associate Professor of Environmental Science & Studies (2015). B.S., The University of Arizona, 1994; M.S., Frostburg State University, 1998; Ph.D., West Virginia University, 2007.

Miller, Robert J., Rosenberger Professor of Christian and Religious Studies (2003). Beachley Distinguished Service Award, 2020; B.A., St. John's College, 1975; M.A., University of California, Santa Barbara, 1978; M.A., Ph.D., Claremont Graduate School, 1980, 1986.

Muth, Norris Z., Professor of Biology (2007). B.A., Brown University, 1997; M.S., Yale School of Forestry and Environmental Studies, 1999; Ph.D., State University of New York, Stony Brook, 2006.

Nagengast, Emil, Professor of Politics and International Studies (1996). Junior Faculty Award, 2000; Beachley Award for Distinguished Teaching, 2011; B.A., Middlebury College, 1984; M.A., University of Kansas, 1990; Ph.D., University of Pittsburgh, 1996.

Nagle, Roy D., Executive Director of Research Integrity and Environmental Safety, Instructor of Environmental Science and Studies (1997). B.S., The Pennsylvania

State University, 1986; M.Sc., University of South Carolina, 1997.

Neville, Elainea, Instructor of Computer Science and Information Technology (2021). B.S., Juniata College, 2016; M.S., Boston University, 2019.

Page, Amanda M., Associate Professor of English (2013). B.A., Wellesley College, 2003; M.A., Ph.D., University of North Carolina at Chapel Hill, 2005, 2011.

Pearson, Mark D., Assistant Professor of Physics and Physics Engineering (2003). B.Sc., Imperial College of Science, Technology & Medicine, 1992; Ph.D., Imperial College of Science, Technology & Medicine, 1996.

Pelkey, Neil W., Professor of Environmental Science and Studies (2002). B.A., University of California; Ph.D., University of California.

Peruso, Dominick F., Associate Provost and Harry M. Metz and Catherine Miller Metz Professor of Accounting, Business, and Economics (1999). Beachley Award for Distinguished Teaching, 2016. B.S., Saint Francis College, 1995; M.Ed., Ph.D., The Pennsylvania State University, 1999; 2012; C.P.A. in Pennsylvania.

Peters, Carol, Instructor of English and Director of the Writing Center (1991). B.A., The Pennsylvania State University, 1982; M.A., Bowling Green State University, 1990.

Plane, Dennis L., Professor of Politics (2004). B.A., Rollins College, 1993; Ph.D., University of Texas at Austin, 2002.

Poole, Territa L., Associate Professor of Psychology (2017). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2022. B.S., M.S., M.A., Ph.D., 2017, University of West Alabama.

Powell, Matthew G., Professor of Geology (2007). Henry H.'57 and Joan R. Gibbel Award for Teaching Excellence, 2013. B.S., M.S., Virginia Polytechnic Institute and State University, 1998, 2000; Ph.D., The Johns Hopkins University, 2005.

Prill, Susan E., Professor of Religion (2006). B.A., Bard College, 1996; M.A., University of Michigan, 2000; Ph.D., University of London, 2005.

Puri, Dipali, Assistant Professor of Education (2018).

Ramakrishnan, Uma, Professor of Environmental Science and Studies (2005). B.Sc., Bangalore University; M.S., Pondicherry University; Ph.D., University of California, Davis, 1999.

Ramírez Partida, Héctor R., Distinguished Visiting Professor of Politics and Fulbright-Garcia Robles Scholar in Residence (2023). Ph.D., University of Essex, U.K., 2008. Ph.D.

Roberts, Wade, I. Harvey Brumbaugh Professor of Philosophy (2008). B.A., Birmingham-Southern College, 1996; M.A., Ph.D., Duquesne University, 1997, 2007.

Rosenberger, Randy M., Professor of Economics and Business Administration (1997). B.A., Dickinson College, 1980; M.B.A., Cornell University, 1985; Ph.D., The Pennsylvania State University, 1999.

Roth, Kimberly A., Professor of Mathematics (2006). Beachley Distinguished Service Award, 2023. B.A., Oberlin College, 1996; Ph.D., The Pennsylvania State University, 2002.

Shelley, Russell K., Elma Stine Heckler Professor of Music and Director of Choral and Vocal Activities (1991). Junior Faculty Award, 1997; Beachley Distinguished Teaching Award, 2020. B.S., B.S.M., Baptist Bible College, 1985; M.S., Mansfield University, 1986; Ph.D., The Pennsylvania State University, 1997.

Shen, Li, Associate Professor of Marketing (2017). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2023. B.A., Central South University, 2005; M.S., Ph.D., Southern New Hampshire University, 2010, 2016.

Spencer, Bethany, Assistant Professor of Accounting (2022). B.S., Juniata College, 2018. MAcc., Juniata College, 2019.

Steiner, Andrew, Instructor of Professional Writing and Creative Writing (2023). B.A., Calvin University, 2011; M.F.A., University of Iowa, 2022.

Stenson, Catherine A., Professor of Mathematics (2000). Sc.B., Brown University, 1994; M.S., Cornell University, 1997; Ph.D., Cornell University, 2000.

Stiffler, Douglas A., Associate Professor of History (2002). A.B., Harvard College, 1990; M.A., University of California, 1993.

Streb, Jennifer L., Professor of Art History (2008), The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2014. B.A., Juniata College, 1993; M.A., Ph.D., The Pennsylvania State University, 1997, 2004.

Stylianides, Georgios A., Director of Exercise Science and Kinesiology and Associate Professor (2023). B.A., University of Tennessee, 1987; M.S., Illinois State University, 1997; Ph.D., University of Toledo, 1998.

Thomas, William H., John and Irene Dale Professor of Information Technology and Computer Science (2001). Beachley Distinguished Teaching Award, 2017. B.S., Lock Haven University, 1983; M.S., Shippensburg University, 1990.

Thurston-Griswold, Henry, Professor of Spanish (1992). Beachley Distinguished Teaching Award, 2003. B.A., State University of New York at Cortland, 1981; M.A., Ph.D., The University of Texas at Austin, 1983, 1989.

Tuten, Belle S., Charles A. Dana Professor of History (1997). Beachley Junior Faculty Award, 2001; Beachley Award for Distinguished Teaching, 2013. B.A., College of Charleston, 1991; M.A., Ph.D., Emory University, 1994, 1997.

Tuten, James H., Dr. Charles R. and Shirley A. Knox Professor of History (2006). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2009; Beachley Distinguished Teaching Award 2019; Eagle Advising Award, 2022. B.A. College of Charleston, 1990; M.A., Wake Forest University, 1992; Ph.D., Emory University, 2006.

Unger, John B., Associate Professor of Chemistry (2012). B.S., Hobart College; Ph.D., University of California Santa Barbara.

Utterback, Neal, Associate Professor of Theatre Arts (2012). B.S., Coastal Caroline University, 1998; MFA,

FACULTY EMERITI

Date in Parentheses is that of emeritus status.

Boyle, Michael D.P., William J. von Liebig Chair in Biomedical Sciences, Emeritus (2012). Beachley Award for Distinguished Teaching (2010). B.S.,

University of Florida, 2001; Ph.D., Indiana University, 2012.

Warrick, Tia, Director of Public Health and Assistant Professor of Biology (2023). B.S., York College of Pennsylvania, 2017; DHSc., University of Bridgeport, 2021; Certified Clinical Research Associate, 2022; Association for Clinical Research Professionals in Project Management, 2023.

Westcott, Kathryn M., Charles A. Dana Professor of Psychology, (2003). Beachley Award for Distinguished Teaching, 2014. B.A., The Ohio State University, 1994; M.Ed., Ph.D., University of Cincinnati, 1998, 2001.

White, James D., William I. and Zella B. Book Professor of Physics (1998). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2004; Beachley Award for Distinguished Teaching, 2014. B.A., Carleton College, 1985; M.Ed., Ph.D., The Pennsylvania State University, 1993, 1994.

Widman, David R., Professor of Psychology (1999). B.S., University of Wyoming, 1987; Ph.D., University of Albany, State University of New York, 1992.

Williams, Ursula, Associate Professor of Chemistry (2014). The Henry H. '57 and Joan R. Gibbel Award for Teaching Excellence, 2019. B.S., Union College, 2009; Ph.D., University of Pennsylvania, 2014.

Worley, Sarah C., Associate Professor of Communication (2004). B.A., Juniata College, 2000; M.A., The University of Colorado, 2003., Ph.D. The Pennsylvania State University, 2016.

Wright, John J., Associate Professor of Computer Science (2002). B.S., Juniata College, 1993; M.S., Villanova University, 2000.

Yohn, Sharon, Assistant Professor of Chemistry and Biochemistry (2010). B.S., Juniata College, 1999; Ph.D., Michigan State University, 2004.

University of Glasgow, Scotland, 1971; Ph.D., Chester Beatty Research Institute, England, 1974.

Burkhardt, Marlene E., Professor of Accounting, Business and Economics, Emerita (2019). B.A., Wilkes

College, 1980; M.S.W., University of Maryland, 1982; Ph.D., The Pennsylvania State University, 1990.

Cherry, Elizabeth A. Ellis, Professor of History, Emerita (1998). Beachley Distinguished Academic Service Award (1990). Beachley Distinguished Teaching Award (1998). A.B., College of Wooster, 1956; A.M., Columbia University, 1957.

Cook-Huffman, Celia B., W. Clay and Kathryn H. Burkholder Professor of Conflict Resolution (TK). Junior Faculty Award (1996). Beachley Distinguished Academic Service Award (2010). B.A., Manchester College, 1986; M.A., University of Notre Dame, 1988; Ph.D., Maxwell School of Citizenship and Public Affairs of Syracuse University, 1993.

DeHaas, Sarah J., Martin G. Brumbaugh Professor of Education (TK). B.S., Slippery Rock State College 1980. M.Ed, Providence College 1988; Ph.D., Pennsylvania State University 1991.

DeVries, Cynthia Merriwether, Professor of Sociology (TK). B.S., M.S., Ph.D. The Pennsylvania State University, 1990, 1994, 2000.

Donaldson, James R., Professor of Accounting, Business and Economics, Emeritus (2012). Beachley Distinguished Academic Service Award (1998). B.S., Juniata College, 1967; M.A., University of Akron, 1972; M.B.A., Syracuse University, 1984.

Drews, David R., Charles A. Dana Professor of Psychology, Emeritus (2004). Beachley Distinguished Teaching Award (1989). B.A., Dennison University, 1965; M.S., Ph.D., University of Delaware, 1968, 1970.

Duey, William E., Assistant Professor of Economics and Business Administration and Registrar, Emeritus (2000). B.S., The Pennsylvania State University, 1959; MBA, George Washington University, 1970; M.A., Shippensburg University, 1986.

Esch, Linda Sue, Charles A. Dana Professor of Mathematics, Emerita (2007). Lindback Distinguished Teaching Award (1979). Beachley Distinguished Teaching Award (1990). B.S., Juniata College, 1968; A.M., Ph.D., Boston University, 1970, 1974.

Fala, Grace M., Professor of Communication (1992). Junior Faculty Award (TK). A.A., Bucks County Community College, 1978; B.A., M.A., West Chester University, 1986, 1988; Ph.D., The Pennsylvania State University, 1993.

Fisher, Tom L., Professor of Chemistry, Emeritus (2013). Beachley Distinguished Academic Service Award (2002). B.S., Old Dominion University, 1964; Ph.D., Iowa State University, 1970.

Glosenger, Fay I., Dilling Professor of Early Childhood Education, Emerita (2018). Lindback Distinguished Teaching Award (1988), Beachley Distinguished Academic Service Award (1997). B.S., M.Ed., Ph.D., The Pennsylvania State University, 1971, 1977, 1984.

Goldstein, Peter M., John Downey Benedict Professor of English (TK). B.A., Harvard University, 1976; J.D., University of Southern California, 1979; Ph.D., University of California, Los Angeles, 1991.

Gustafson, Todd D., Professor of Biology, Emeritus (2007). Lindback Distinguished Teaching Award (1981). B.A., Jacksonville University, 1971; M.S., Ph.D., University of Wisconsin, 1973, 1976.

Heller, Bernice Engman, Associate Professor of Spanish, Emerita (1997). A.B., College of Wooster, 1953; A.M., University of Kansas, 1955.

Heller, Max N., Associate Professor of Mathematics and Computer Science, Emeritus (1997). B.S., M.S., The Pennsylvania State University, 1958, 1976; M.A.T., Indiana University, 1967.

Henderson, Michael S., Associate Professor of French (TK). B.A., M.A., Arizona State University, 1982, 1984; Ph.D., University of California, Santa Barbara, 1991.

Hochberg, Mark R., Charles A. Dana Professor of English, Emeritus (2017). Beachley Distinguished Teaching Award (1980). B.A., University of Pennsylvania, 1966; M.A., Ph.D., Cornell University, 1969, 1970.

Jaeger, Klaus A.G., I. Harvey Brumbaugh Professor of German, Emeritus (2008). Beachley Distinguished Teaching Award (1992); M.A., The Ohio State University, 1965; Ph.D., The Pennsylvania State University, 1989.

Kaminsky, Edward F., Professor of Economics and Business Administration, Emeritus (1997). B.S., King's College, 1996; M.B.A., Wilkes College, 1973; C.P.A. in Pennsylvania.

Katz, Judith N., Associate Professor of English, Emerita (2014). Beachley Award for Distinguished

Teaching (2006). B.A., City College of New York, 1966; M.A., Ph.D., The Pennsylvania State University, 1968, 1972.

Kipphan, Klaus P., Charles A. Dana Professor of History, Emeritus (2003). Beachley Distinguished Teaching Award (1974, 2001). A.B., Gymnasium Eberbach, Germany, 1959; A.M., Fairleigh Dickinson University, 1965; Ph.D., University of Heidelberg, 1969.

Kirchhof-Glazier, Debra A., Professor of Biology, Emerita (2017). Lindback Distinguished Teaching Award (1987). Beachley Distinguished Academic Service Award (1999) B.S., Lebanon Valley College, 1973; Ph.D., Cornell University, 1979.

Lakso, James J., Professor of Accounting, Business and Economics, Emeritus (2013). Beachley Distinguished Teaching Award (1983). Beachley Distinguished Academic Service (2005). B.A., Wittenberg University, 1967; M.A., Ph.D., University of Maryland, 1970, 1973.

Lewis, Janet R., Associate Professor of Philosophy, Emerita (2008). Sears-Roebuck Teaching Excellence and Campus Leadership Award (1991). Beachley Award for Distinguished Teaching (1999) B.A., Wilson College, 1964; M.A., Bryn Mawr College, 1968.

Masters, Henry G., Associate Professor of Psychology, Emeritus (1999). B.A., University of Rochester, 1958; M.A., Emory University, 1961; Ph.D., Kansas State University, 1968.

McBride, Alexander T., Professor of Art, Emeritus (2005). Beachley Distinguished Teaching Award (2002). B.F.A., Rhode Island School of Design, 1962; M.F.A., Cornell University, 1964.

Mitchell, Donald J., Professor of Chemistry, Emeritus (2003). Beachley Distinguished Teaching Award (1986). Beachley Distinguished Academic Service Award (1991). B.S., Westminster College, 1960; Ph.D. Vanderbilt University, 1965.

Murray, M. Andrew, Elizabeth Evans Baker Professor of Religion and Peace and Conflict Studies and Director of the Baker Institute, Emeritus (2008). L.H.D. Bridgewater College (1998). Beachley Distinguished Academic Service Award (1991). B.A., Bridgewater College, 1964; M.Div., D.Min., Bethany Theological Seminary, 1968, 1980; L.H.D., Manchester College, 1993.

Mutti, Laurence J., Professor of Geology (2015). Lindback Distinguished Teaching Award (1982). Beachley Distinguished Teaching Award (1995). B.A., Beloit College, 1971; Ph.D., Harvard University, 1978.

Norris, Wilfred G., William I. and Zella B. Book Professor of Physics, Emeritus (1998). Beachley Distinguished Academic Service Award (1993). B.S., Juniata College, 1954; Ph.D., Harvard University, 1963.

Ochiai, Ei-Ichiro, H. George Foster Chair of Chemistry, Emeritus (2005). B.S., M.S., Ph.D., University of Tokyo, 1959, 1961, 1964.

Park, Valerie G., Associate Professor of Education, Emeritus (2016). B.S., The Pennsylvania State University, 1979; M.Ed., Shippensburg State University, 1982; Ph.D., The Pennsylvania State University, 2005.

Radis, Susan T., Professor of Social Work and Sociology (TK). B.S., The Pennsylvania State University, 1969; M.S.S., Bryn Mawr College, 1973.

Reed, Ruth E., Jacob H. and Rachel Brumbaugh Professor of Chemistry, Emeritus (2012). Beachley Distinguished Teaching Award (1993). B.A., Winthrop College, 1968; Ph.D., Virginia Polytechnic Institute and State University, 1974.

Reilly, F. Robert, Charles A. Dana Professor of Social Work and Sociology, Emeritus (2012). Beachley Distinguished Teaching Award (1991). B.A., Susquehanna University, 1971; M.S.W., Marywood College School of Social Work, 1974; A.C.S.W. member.

Reingold, I. David, H. George Foster Chair of Chair of Chemistry, Emeritus (2012). Lindback Distinguished Teaching Award (1992). Beachley Distinguished Academic Service Award (2001). A.B., Dartmouth College, 1971; Ph.D., University of Oregon, 1976.

Rhodes, Loren K., John and Irene Dale Professor of Information Technology (TK). B.S., M.S., Ph.D., The Pennsylvania State University, 1979, 1980, 1991.

Richardson, Kim M., Professor of Education, Emerita (1979). Lindback Distinguished Teaching Award (1983). Beachley Distinguished Academic Service Award (1996). B.A., Duke University, 1969; M.S., Old Dominion University, 1972; Ph.D., Temple University, 1981.

Rockwell, Kenneth H., Professor of Biology, Emeritus (2000). Beachley Distinguished Teaching Award (1979). B.S., Juniata College, 1957; M.S., Brown University, 1960; Ph.D., The Pennsylvania State University, 1967.

Roney, Deborah W.

Roney, James N., I. Harvey Brumbaugh Professor of Russian (TK). B.A., Dartmouth College, 1973; M.A., Ph.D., The Ohio State University, 1975, 1981.

Rosell, Karen J., Professor of Art History, Emerita (2019). Lindback Distinguished Teaching Award (1989). Beachley Distinguished Teaching Award (1997). B.A., University of Richmond, 1980; M.A., Virginia Commonwealth University, 1982; Ph.D., Ohio University, 1986.

Russey, William E., Charles A. Dana Supported Professor of Chemistry, Emeritus (2001). Beachley Distinguished Teaching Award (1975). B.A., Kalamazoo College, 1961; M.A., Ph.D., Harvard University, 1964, 1966.

Schettler, Paul D., Jr., Charles A. Dana Professor of Chemistry, Emeritus (2017). Beachley Distinguished Teaching Award (1978). Beachley Distinguished Academic Service Award (1995). B.S., University of Utah, 1958; Ph.D., Yale University, 1964.

Siems, Norman E., William W. Woolford Professorship in Physics, Emeritus (2011). Lindback Distinguished Teaching Award (1984). Beachley Distinguished Teaching Award (1994). Beachley Distinguished Academic Service (2009). B.S., Rensselaer Polytechnic Institute, 1966; M.S., Johns Hopkins University, 1970; Ph.D., Cornell University, 1976.

Sowell, David L., Professor of History, Emeritus (2017). Junior Faculty Award (1994). Beachley Distinguished Academic Service (2007). A.B., Western Kentucky University, 1975; B.A., Grand Valley State Colleges, 1976; M.A., Ph.D., University of Florida, 1980, 1986.

Sunderland, Benjamin B., Professor of Mathematics, Emeritus (2016). Beachley Distinguished Teaching Award (2015). B.S., M.A., Ph.D., The Pennsylvania State University, 1970, 1975, 1982.

Trexler, J. Peter, Professor of Geology, Emeritus (1989). Beachley Distinguished Teaching Award (1976). A.B., M.S., Lehigh University, 1950, 1953; Ph.D., University of Michigan, 1964.

Troy, Jack G., Associate Professor of Art, Emeritus (2005). B.S., West Chester College, 1961; M.A., Kent State University, 1967.

Wagoner, Paula L., Associate Professor of Anthropology (2015). A.A., Sheridan College, 1988; A.B., Smith College, 1991; M.A., Ph.D., Indiana University, 1995, 1997.

Walker, Polly O., Associate Professor of Peace & Conflict Studies (TK). B.S., New Mexico State University; 1975, M.A., New Mexico State University, 1983, Ph.D., University of Queensland, Australia, 2001.

Wampler, Dale L., Professor of Computer Science, Emeritus (1999). Beachley Distinguished Academic Service Award (1981). A.B., Bridgewater College, 1957; Ph.D., University of Wisconsin, 1962.

Wang, Xinli, Professor of Philosophy (TK). B.S., Changchun Institute of Geology, China 1982; M.A., Huazhong University, 1988; Ph.D., University of Connecticut, 1999.

Weimer, Donna S., Colonel Sedgley and Elizabeth Bailey Thornbury Professor of Communication (1990). Lindback Distinguished Teaching Award (1993). Beachley Award for Academic Service (2003). B.A., M.A., Ph.D., The Pennsylvania State University, 1974, 1983, 1990.

Welliver, Daniel M., Professor of Sociology (TK). B.A., Juniata College, 1979; M.C.P., The Pennsylvania State University, 1990; Ph.D., Indiana University of Pennsylvania, 2011.

Woodrow, Thomas W., Martin G. Brumbaugh Professor of Education, Emeritus (1997). Beachley Distinguished Academic Service Award (1992). B.S., Juniata College, 1958; M.Ed., Indiana University of Pennsylvania, 1966; D.Ed., The Pennsylvania State University, 1976.

Wright, Dale E., Professor of Psychology, Emeritus (2002). A.B., Chico State College, 1959; B.D., Berkeley Baptist Divinity School, 1962; Ph.D., University of Vermont, 1970.

Officers of the College

Troha, James A. President. B.A., M.A., Edinboro University, 1991, 1993; Ph.D., University of Kansas, 2005.

Bowen, Lauren. Provost. B.A., The Ohio State University, 1984; M.A., Ph.D., University of Kentucky, 1987, 1992.

Damschroder, Matthew. Vice President for Student Life and Dean of Students. B.A., Drake University, 1996; M.S., Ph.D., Illinois State University, 2007, 2015.

Grajewski, Tracy. Vice President for Administration and Chief Human Resources Officer. B.S., Juniata College, 1986; M.B.A., Syracuse University, 1992.

Moran, Jason. Vice President for Enrollment. B.A., Lycoming College, 2004; M.Ed., Bucknell University, 2014.

Watt, Jim. Vice President for Advancement. B.S., Geneva College, 2010; M.H.R.D., Villanova University, 2013.

Wiser, Karla. Controller and Chief Financial Officer. B.S., Juniata College, 1997; C.P.A., 1999.

Wood, Anne. Assistant Vice President and Chief Information Officer. B.S., The Pennsylvania State University, 1997.

PRESIDENTS EMERITI

Date in parentheses is that of emeritus status.

Kepple, Jr., Thomas R., Emeritus (2013). B.A., Westminster College, 1970; M.B.A., Ed.D., Syracuse University, 1974, 1984; L.H.D., Elizabethtown College, 2011; L.H.D., Juniata College, 2013.

Neff, Robert W., President, Emeritus (1998). B.S., The Pennsylvania State University, 1958; B.D., M.A., Ph.D., Yale University, 1961, 1964, 1969; D.D., Juniata College, Manchester College, 1979; L.H.D., Bridgewater College, 1979.

Academic Calendar

FALL SEMESTER 2023	
Thursday, August 24	First Day of 23/FA Classes – Modified Schedule
	8:00 AM-11:00 AM Academic Advisor Office Hours
	11:10 AM-11:40 AM 8 AM Classes meet
	11:50 AM-12:20 PM 9 AM Classes meet
	12:30 PM-1:00 PM 10:30 AM Classes meet
	1:10 PM-1:40 PM 12:30 PM Classes meet
	1:50 PM-2:20 PM 1:30 PM Classes meet
	2:30 PM-3:00 PM 3:30 PM Classes meet
4:00 PM Opening Convocation	
August 24-September 1	23/FA Drop/Add Period
Friday, September 15	Deadline for instructors to submit grades for 23/SP incompletes
October 11-25	Midterm Notice Period
October 12-15	Fall Break – NO CLASSES
Monday, October 16	Advising Period begins
Monday, October 30	Registration opens for Seniors, Graduate Students
Wednesday, November 1	Registration opens for Juniors
Monday, November 6	Registration opens for Sophomores
Thursday, November 9	Registration opens for Freshmen
Friday, November 17	Registration closes
November 22-26	Thanksgiving Break – NO CLASSES
Friday, December 8	Last Day of 23/FA Classes <ul style="list-style-type: none"> 12:00 noon - Deadline to withdraw from 23/FA classes (<i>unless earlier deadline is specified on course syllabus</i>) 12:00 noon - Deadline to submit Pass/No Pass forms for 23/FA courses
December 11-15	23/FA Final Examinations
Tuesday, December 19	Deadline for instructors to submit 23/FA grades
SPRING SEMESTER 2024	
Tuesday, January 16	First Day of 24/SP Classes
January 16-24	24/SP Drop/Add Period
Friday, February 2	Deadline for instructors to submit grades for 23/FA incompletes
Friday, March 1	Deadline for Sophomores (<i>second-year students</i>) to submit POE forms
March 4-18	Midterm Notice Period
March 9-17	Spring Break – NO CLASSES
Monday, March 18	Advising Period begins

Wednesday, March 27	NO CLASSES
Monday, April 1	Registration opens for Seniors, Juniors, Graduate Students
Thursday, April 4	Registration opens for Sophomores
Tuesday, April 9	Registration opens for Freshmen
Thursday, April 18	Liberal Arts Symposium (<i>regular class schedule replaced by LAS events</i>)
Friday, April 19	Registration closes
Wednesday, May 1	<p>Last Day of 24/SP Classes</p> <ul style="list-style-type: none"> • 12:00 noon - Deadline to withdraw from 24/SP classes (<i>unless earlier deadline is specified on course syllabus</i>) • 12:00 noon - Deadline to submit Pass/No Pass forms for 24/SP courses • 4:00 PM - Spring Awards Convocation - CLASSES STARTING AFTER 3:20 PM ARE CANCELLED
Thursday, May 2	Reading Day – NO CLASSES OR FINAL EXAMS
May 3-8	24/SP Final Examinations (<i>No exams on Sunday</i>)
Friday, May 10	Graduation Event: Baccalaureate Service
Saturday, May 11	Graduation Event: Commencement Ceremony
Wednesday, May 15	Deadline for instructors to submit 24/SP grades

Curriculum

Undergraduate Degrees and Certificates

Bachelor's Degree Requirements

BACHELOR'S DEGREE REQUIREMENTS

- I. General Education
- II. Program of Emphasis (POE)
- III. Juniata Portfolio. All Juniata students will complete a portfolio of their work from their general education courses and from their POE capstone course. These requirements are described by the General Education Committee.
- IV. A minimum of 120 credit hours with a grade of D- or better, including the courses described above.
- V. A minimum cumulative grade point average of 2.0 on a 4.0 scale.
- VI. Policies

Residency

Students are allowed to transfer credits during their last semester within the provisions of the transfer policy. However, 30 of the last 36 credits must be taken in residence. There are degree requirements that are unique to Juniata and may not be completed elsewhere. Students participating in cooperative programs, study abroad programs, and other Juniata-approved programs are considered to be in residence.

Effective Date

Students must complete the graduation requirements in effect on the date of their matriculation.

PARTICIPATION IN COMMENCEMENT CEREMONY

There are two distinct processes that indicate completion of a student's academic career: satisfactory

completion of academic requirements and participation in the commencement ceremony. This policy is solely concerned with the ceremonial event of commencement; i.e. not the conferral of degree.

Students who have not completed all graduation requirements will be permitted to participate in the commencement ceremony under the following circumstances:

- The remaining coursework consists of not more than eight academic credits, and the student is in good academic standing, defined in 3.1.5.2 Academic Standards of Progress. Whenever possible, the student submits a request to participate to the Registrar's Office by April 1st for consideration. The request to participate must provide a specific, detailed, and realistic plan for completing the remaining credits by the end of the summer and approved by the Registrar's Office.
- Students who have studied away and are waiting for official transcripts from the external institution may participate in the commencement ceremony if verification of sufficient academic progress at the external institution is provided to the Registrar's Office.
- Partner degree students who are waiting for official transcripts from their home institution may participate in the May commencement ceremony.
- Students in 3+ programs may participate in the commencement ceremony following their fourth or fifth year if verification of sufficient academic progress at the external institution is provided to the Registrar's Office.
- 3+ programs are defined as designated programs where a student completes their final year at an external institution.

Petitions for all exceptions will be reviewed by the Student Academic Development Committee as provided in Section 1.6.1.4.B.2 of the Faculty Handbook. The committee will report decisions to the Provost.

Students who have not completed all outstanding requirements by the start of the academic semester following commencement will be charged an enrollment fee per term. Students who have not completed all outstanding requirements within three years will be administratively withdrawn and readmission will be required.

GENERAL EDUCATION REQUIREMENT

General Education Mission: General education engages students in common academic experiences that integrate learning across academic fields with

distinctive ways of knowing and develop habits of mind necessary for reflective choices and effective action in fulfilling careers, engaged citizenship, and meaningful lives. All general education courses will make contributions to a student portfolio.

A. First Year Experience

First year students take part in a two-semester course sequence (five credits in the first semester and 3 credits in the second semester) designed to help prepare them for success at Juniata.

1. First Year Foundations

First Year Foundations consists of a one-credit course in the first semester. This course provides students with the resources, skills, and information that will assist them in mastery of academic and social life at Juniata College. Along with acquisition of skills and knowledge, students will reflect on their journey at the start of their Juniata career, helping to set the path for the rest of their academic career. Students will add reflection to their portfolio to document their academic progress at Juniata College. Through thoughtful reflection of the Principles of the Liberal Arts Lifestyle, the Attributes of a Juniata Graduate, and the College's Mission Statement, students will engage with their classmates as they lay the foundations of success. This course will connect students with a wide variety of campus resources.

Students will demonstrate their ability to meet the following learning outcomes:

- substantively reflect on their own values and future goals
- substantively reflect on their place within the local and global community
- describe how a holistic and intentional approach to life fosters our collective wellbeing

Students will “think about who you are.” What does it mean for students to be in college, at this place, at this time? What are their goals for the future? Students will consider their values and goals both individually and in the context of a larger community: campus, Huntingdon, Pennsylvania, and the world. Additionally, students work to develop skills necessary for lifelong learning.

2. First Year Composition

First Year Composition is a four-credit course taken during the first semester of the first year. It focuses on developing critical reading, writing, and analytical skills. Course themes will be chosen by individual instructors. All First Year Composition courses are designated using an FYC course prefix, with the topic following the course number.

First Year Composition courses follow a process-oriented approach to college work and include peer review, individual conferences with the instructor, and revision cycles.

While course content will vary by instructor, there will be a two-week module related to diversity, organized around the instructor's selections from a common set of readings. These common readings will be determined by a learning community that includes some of those faculty members teaching the course.

The goals of the course are to introduce students to different types of reading and writing using varied models, genres, and forms (such as popular, scholarly, digital, and print). These courses build students' information literacy skills, rhetorical knowledge, critical thinking, and knowledge of appropriate genre and style conventions. First Year Composition courses will focus on developing these skills to prepare students for future academic work.

First Year Composition courses are capped at 18 students per section.

Students will demonstrate their ability to meet the following learning outcomes:

- write a persuasive argument using writing process strategies including invention, research, drafting, sharing with others, revising in response to reviews, and editing
- use a variety of credible secondary sources as evidence

3. First Year Seminar

First Year Seminar is a three-credit course taken during the second

semester of the first year. It is an introduction-by-immersion to college-level learning. Seminar topics are chosen by individual instructors and may, but need not, be interdisciplinary. All First Year Seminar courses are designated using an FYS course prefix, with the topic following the course number.

The format is primarily seminar, with the option of some lecture in support of seminar discussions. The content of the course is built on challenging reading and will include an approximately two-week module on the liberal arts, organized around the instructor's selections from a common set of readings, which gives explicit attention to such things as the role of the liberal arts, how the course topic fits into the liberal arts, and how engagement with the topic can contribute to the common good and to "thinking about who you are." Students develop the intellectual skills of analyzing evidence and arguments by examining issues such as what counts as evidence, what makes arguments strong or weak, and common errors in reasoning (what logicians call "informal fallacies").

First Year Seminars are capped at 18 students per section.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively through written and oral expression

- demonstrate analytical thinking, critical questioning, and examination of evidence
- use a variety of credible primary and secondary sources as evidence

B. Ways of Knowing

The Ways of Knowing requirement teaches students to think critically and intellectually about the world, introduces students to different epistemological perspectives, and helps students realize the benefits of interdisciplinary inquiry and a liberal arts education.

Because dialogue, debate, and active learning are central to the liberal arts tradition, Ways of Knowing courses will emphasize seminar formats or active learning and are capped at 28 students (lower caps are permissible if requested by the instructor and approved by the department chair and the Provost's Office. Each Ways of Knowing requirement may be met through a single course or through a planned sequence of courses totaling at least three credits.

To foster an awareness of how Ways of Knowing are similar or different, each course or sequence of courses must include some comparison with another Way of Knowing. Faculty and students will consider how this second Way of Knowing supplements our understanding of the course topic. All Ways of Knowing courses are thus at least partially interdisciplinary.

Instructors of Ways of Knowing courses will identify with and demonstrate expertise appropriate to the Ways of Knowing category they are teaching.

The following policies govern Ways of Knowing courses:

1. A course may have only one Way of Knowing designation and may not carry any other general education designation.
2. Each Ways of Knowing course will have First Year Composition as a prerequisite or will have First Year Composition as a corequisite, determined by the instructor of the course.
3. Ways of Knowing courses may have no prerequisites other than First Year Composition except that in the case of a planned sequence of courses that satisfy the Ways of Knowing requirement, advanced courses in the sequence may require earlier courses in the sequence as prerequisites.
4. An individual student must satisfy the Ways of Knowing requirement with courses that each have a different course prefix.
5. Any Ways of Knowing course may simultaneously satisfy the Ways of Knowing general education requirement and count toward a Program of Emphasis, a Secondary Emphasis, or a Certificate.

6. Students must complete Ways of Knowing courses in at least two categories by the end of their second year.
7. With the approval of their advisors, students may waive one Ways of Knowing course that corresponds to a way of knowing inherent in their Program of Emphasis. Students whose Program of Emphasis embodies more than one way of knowing must choose which Ways of Knowing course to waive.

A course or planned sequence of courses totaling at least three credits is required in each of the following categories:

1. Creative Expression

Students explore their own potential to produce creative work through the study of the creative process and the practice of creativity and self-expression.

Students will acquire the requisite skills to produce or perform a work of art and will explore the role of artistic expression in society.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively as appropriate for the audience (e.g., through written, oral, visual, or artistic expression)
- create or perform a work of art

- reflect on art as a vehicle for self-reflection, expression, or as a way of addressing issues that face society

2. Formal Reasoning

Students learn to think with rigor and precision through the study of formal systems and the application of deductive reasoning. Students will develop critical thinking and reasoning skills; use formal systems to identify, analyze, and solve problems; and critique current practices, structures, or claims through the application of formal reasoning.

Students will demonstrate their ability to meet the following learning outcomes:

- articulate the purpose of a formal language and give examples of its utility
- use deductive reasoning correctly
- represent a context in the formal language and manipulate the symbols of the language to analyze or draw conclusions

3. Humanistic Thought

Students learn to engage in theoretical, historical, or critical analysis of texts, art works, cultural artifacts, or cultural practices. Students develop the analytic techniques and interpretive skills to appreciate human experiences and their representations and will be prepared to ask fundamental questions of value, purpose, and meaning.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively through written and oral expression
- use analytic techniques and interpretive skills to appreciate human experiences and their representations
- ask and explore fundamental questions of value, purpose, and meaning

4. Social Inquiry

Students will learn to synthesize and apply qualitative or quantitative research to analyze human behavior, social organization, and the capacities that make society possible. Students will use reason and evidence to recognize and analyze distinctive forms of human behavior and social organization. Students will reflect on how social processes influence understanding of self, interactions with others, or access to power and resources. Students will explore ethical questions raised by social inquiry and consider its role in relevant public practices, policies, or popular media.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively through written and/or oral expression
- synthesize and apply qualitative or quantitative research to analyze human behavior, social organization, or social institutions

- consider the role of social inquiry in relevant public practices, policies, or popular media

5. Scientific Process

Students gain an understanding of what is known or can be known about the world through the study and practice of developing hypotheses, making observations, analyzing quantitative data, and drawing evidence-based conclusions. Students will explore ethical questions raised by scientific inquiry and consider its role in relevant public practices, policies, or popular media.

Students will demonstrate their ability to meet the following learning outcomes:

- manipulate and interpret quantitative information to draw appropriate conclusions
- engage in scientific reasoning through the use of theories, hypotheses, data, and conclusions
- consider the role of science in relevant public practices, policies, or popular media

C. Connections

Taken in the third or fourth year, Connections courses are team-taught by two or more instructors who bring different disciplinary perspectives to address a common topic. Students will learn to integrate knowledge and skills from multiple disciplinary perspectives to examine an issue through different

ways of knowing. The Connections requirement may be met through a single course or through a planned sequence of courses totaling at least three credits.

The following policies govern Connections courses:

1. Students must complete Ways of Knowing courses in at least two categories before taking a Connections course.
2. A Connections course may not carry any other general education designation.
3. Any Connections course may simultaneously satisfy the Connections general education requirement and count toward a Program of Emphasis, a Secondary Emphasis, or a Certificate.

Connections courses are capped at 16 students per instructor.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively through written and oral expression
- address a challenging problem or question
- integrate knowledge and skills from different disciplinary approaches and ways of knowing to address a common topic

D. Self and the World

How should we engage with the world? What responsibilities do we have to our local and global communities? Self and the World courses foster the capacities necessary for wellbeing and responsible citizenship. These capacities include ethical reflection and a sense of purpose, knowledge of how diversity shapes the American experience, and knowledge about global challenges and cultural diversity. Together, these courses encourage us to engage with human diversity, contemplate questions about a just society, and consider the conditions that foster individual and collective wellbeing.

Self and the World course designations can be applied to any course in which one of the major course goals is to address a Self and World category. That is, Self and World courses need not focus exclusively on a given Self and the World category, but must include this content as one of the major course goals and the focus of a portfolio contribution. Self and the World instructors will demonstrate expertise in their Self and the World category.

Because dialogue, debate, and active learning are central to the liberal arts tradition, Self and the World courses will emphasize seminar formats or active learning or projects involving collaboration with community partners. Self and the World courses are capped at 28 students (lower caps are permissible if requested by instructor and approved by the department chair

and the Provost's Office). Self and the World courses should strive to involve students in activities and reciprocal partnerships that extend outside of the classroom as they are designed to promote engagement with the world.

The following policies govern Self and the World courses:

1. A course may have only one Self and the World designation and may not carry any other general education designation.
2. Each Self and the World course, except foreign language courses, will have First Year Composition as a prerequisite or will have First Year Composition as a corequisite, determined by the instructor of the course.
3. Other than foreign language and local engagement courses, Self and the World courses may have no prerequisites other than First Year Composition.

Students will complete each of the following requirements: U.S. Experience, Ethical Responsibility, Global Engagement, and Local Engagement.

1. U.S. Experience

In what ways are U.S. experiences shaped by intersectional characteristics such as race, gender, and socioeconomic status? U.S. Experience courses focus on understanding the current or historical experiences of

different groups within the U.S. (identified by, for example, gender, race, ethnicity, sexual orientation, geographic origin, immigration status, age, ability, or religion). Classes will address intersectionality, which refers to how identity-based systems of oppression and privilege overlap, connect, and influence one another. Students will critically examine systems such as racism and colonialism and their use of power, privilege, oppression, marginalization, and structural inequity and how these systems are challenged by cultural resilience and resistance. Coverage of such issues outside the U.S., such as through comparative methods, is optional.

In order to create a holding environment for difficult conversations and discourse, instructors of these courses are required to be engaged in sustained diversity training.

Students who complete this course will demonstrate their ability to meet the following learning outcomes:

- critically describe and respectfully discuss dimensions of diversity and intersectionality within U.S. social, cultural, political, or historical contexts critically examine lived experiences of participation in, and resistance and resilience to, systems of power, privilege, oppression, marginalization, and structural inequity within the U.S.

2. Ethical Responsibility

What do we owe ourselves, our neighbors, and the world? Ethical Responsibility courses foster students' senses of empathy and social and ethical responsibility. Students will learn to engage in ethical reasoning and take the perspectives of different participants in situations requiring ethical judgment. Students will assess their own ethical values, explore the social contexts of problems, recognize and understand ethical issues in different settings and traditions, and consider ramifications of alternative actions.

The Ethical Responsibility requirement may be met through a single course or through a planned sequence of courses totaling at least three credits.

Students will demonstrate their ability to meet the following learning outcomes:

- communicate effectively as appropriate for the audience (e.g., through written, oral, visual, or artistic expression)
- engage in ethical reasoning using different ethical traditions or perspectives

3. Global Engagement

What challenges do we face as an increasingly diverse and interconnected world? How are our cultural values similar or different? Global Engagement courses help students develop the knowledge and skills they need to

engage effectively with and adapt to a changing world.

Students will demonstrate their ability to meet the following learning outcomes:

- articulate and contrast the values, beliefs, or practices of different cultures
- acquire skills (e.g. language, cultural humility) to effectively communicate and interact with other cultures and culturally diverse groups

To fulfill the Global Engagement requirement, students must complete at least two courses totaling at least six credits with a Global Engagement designation. Semester- or year-long study abroad at a Juniata-approved site fulfills this requirement. Courses with a Global Engagement designation may be in one of three categories:

World Language Study. These courses focus on communication in a world language.

Short-Term Study Abroad. These courses focus on a study abroad experience, a portion of which includes a pre-departure component and a portion of which must be completed after study abroad to promote reflection on the learning experience. The study abroad experience must be linked to a Juniata course that together with the travel portion totals at least three credits.

Human Cultures & Challenges. These courses focus on a people and culture outside of the U.S. or a global challenge.

4. Local Engagement

What challenges do we face in our local communities, the places where we live out most of our lives with people of diverse lived experiences and varieties of perspectives? How are our values similar or different from those of our local neighbors? What are our opportunities to be agents of ethical change in meeting the needs of the people we live within our local communities? Local Engagement experiences help students develop the knowledge and skills they need to engage effectively with the local communities they will inhabit throughout their lives. Local engagement options address specific learning outcomes designed to help students contribute their knowledge and skills to their local communities through meaningful engagement.

Students will demonstrate their ability to meet the following learning outcomes:

- work collaboratively in local cultural settings
- engage in citizenship through respectful interactions
- articulate how local engagement fosters individual and collective wellbeing

To fulfill the Local Engagement requirement, students must complete a

Local Engagement course of at least one credit that includes at least 15 hours of approved community engagement. Students must include documentation of the community engagement activity and reflection on the experience in their Juniata Portfolio (Section 3.1.1.III). Because Local Engagement courses require some basic knowledge about community engagement and may require special knowledge or skills, additional prerequisites may be required at the instructor's discretion.

E. General Education for Transfer, Partner Degree, English for Academic Purposes, and Transition Students

The general education graduation requirements and their corresponding portfolio contributions can be waived or adapted by the General Education Committee for transfer students, partner degree students, English for Academic Purposes students, students studying abroad, and those students enrolled during the three-year transition to the new general education curriculum starting in August 2019.

PROGRAM OF EMPHASIS REQUIREMENT

All Juniata students will complete a POE, including a POE Capstone. The Program of Emphasis (POE) is Juniata's unique approach to focused education in an academic area of a student's choosing. The POE is an opportunity for students to explore in depth a particular

discipline (through a designated POE) or to craft an individualized plan to study an area (through an individualized POE).

A. Types of Programs of Emphasis

1. Designated

Designated POEs are designed by departments or programs and approved by the Department and Program Committee.

2. Individualized

Every student entering Juniata College has the opportunity to design their program of study. Students will be assisted in this effort by their advisors.

B. Program of Emphasis Requirements

1. Requirements for All Programs of Emphasis

- a. All POEs must contain at least 36 credit hours and no more than 63 credit hours, except as otherwise authorized by the Faculty Handbook or as authorized by the Department and Program Committee for POEs that require external accreditation.
- b. With advisors' help, students draft a POE goal statement and identify the appropriate classes.
- c. All POEs must contain at least 18 credits at the 300- or 400-level.
- d. No more than two courses in the POE can be research or independent study courses.

e. All courses which are required, including prerequisites, must be in the POE.

f. All POEs must include depth of knowledge in an academic field.

g. All POEs must include analytical and creative thinking, critical questioning, and examination of evidence.

h. All POEs must include oral and written communication.

i. All POEs must include critical reflection on ethics as appropriate to the discipline.

j. All POEs must include information and technological literacy as applied to the discipline.

k. All POEs will have a capstone suitable to their academic fields. The POE Capstone is further described below.

2. POE Capstone Requirement for All Programs of Emphasis

a. Description of the POE Capstone

Each POE must require a capstone experience to be completed as part of a student's final 30 credits. The Capstone must be at least one credit and is considered both part of the POE and part of the student's general education.

The POE capstone represents the summation of a student's Juniata experience as well as a bridge to their

future goals. The capstone experience is an expression of the totality of a student's growth, development, and learning as an undergraduate.

Capstones include connections from the POE to general education and support some of the Institutional Learning Outcomes. Research projects, internships, creative works, independent learning, community-engaged learning, and other disciplinary and interdisciplinary experiences are suitable capstones. POEs may offer different capstone experiences for different students.

b. Capstone Portfolio Requirements

All capstone courses require two contributions to the student's Juniata portfolio. One contribution will demonstrate the student's analytic and/or creative thinking and depth of knowledge in an academic field. The second will demonstrate reflection on the totality of their Juniata experience.

c. Capstone Learning Outcomes

Students will demonstrate their ability to meet the following learning outcomes:

- think analytically and/or creatively
- express depth of knowledge in an academic field
- substantively reflect on how their Juniata experience has shaped their own values and future goals
- describe how a holistic and intentional approach to life fosters personal wellbeing

3. Additional Requirements for Designated Programs of Emphasis

A student may follow an already designed program of study selected from a list of approved POEs. Depending on the area of study, some of the programs are made up of fully prescribed courses while others contain a variety of options and electives. No student rationale is required.

These designated POEs will be designed by departments or groups of departments and presented to the Department and Program Committee with supporting rationale. The Department and Program Committee will be responsible for authorization of POEs which become part of the official list kept in the Registrar's Office. The Department and Program Committee will use the following criteria to determine acceptance or rejection of proposed designated POEs:

- a. Coherence of the program
- b. Evidence of study in-depth
- c. If interdisciplinary, relationship of the courses to a specific objective

Within the POE, a minimum of ten courses will be prescribed, either by a department or a group of departments according to one of three rules:

- d. The prescribed courses are specifically named.

e. The prescribed courses are made up of some which are specifically named and some which are taken from a list.

f. All prescribed courses are chosen from a list.

4. Additional Requirements for Individualized Programs of Emphasis

Students who do not adopt a Designated Program of Emphasis may design an Individualized Program of Emphasis of their own. This option is for students with particular interests not addressed in designated POEs to make appropriate combinations of courses to precisely address those interests.

Students wishing to pursue this option must:

a. Select an advisor in each department named in the title of the POE. In the unlikely event that an Individualized POE title named three academic departments, three advisors would be required.

b. Create, in consultation with the advisor, a collection of courses to constitute the POE. If a course listed in the POE has prerequisites, these prerequisites must also be included in the POE.

c. Create, in consultation with the advisors, a goal statement and a rationale, which explains how the courses included in the POE enable the student to fulfill the goals for the POE. Ultimately, the acceptance of an

individualized POE will depend on the student's ability to justify that a particular combination of courses will allow them to reach the stated academic goals. Special attention should be devoted to the description of those goals and the rationale connecting them to the courses selected.

d. Solicit from all of their advisors supporting comments attesting to the acceptability of the student's academic goals, the appropriateness of the course selections and rationale, and the overall coherence of the POE. Advisors' signatures without comments will not be sufficient.

e. Submit the completed POE and the advisors' comments to the Registrar for approval. The Registrar, following policies established by the Department and Program Committee, will evaluate the appropriateness of the POE title, course selections, goal statement, and rationale.

Any POE that does not satisfy the requirements of a Designated POE is by definition an Individualized POE and must therefore be accompanied by a goal statement and rationale. Advisors should pay particular attention to attempts which effectively weaken a Designated POE without contributing sufficient complementary breadth or depth.

All individualized Programs of Emphasis must be approved by the student's faculty advisors and the chair(s) of the appropriate department(s). Approval requires students to write a rationale that describes how the courses they have listed help them reach the academic goals of the individualized POE.

The POE Capstone for those with an individualized POE may be in a related designated POE or may be another appropriate experience in consultation with the student's advisors.

5. Exceptions to POE Credit Requirements

The following are exceptions to the requirement that POEs contain at least 36 credits and no more than 63 credits:

a. Education POEs

Designated POEs in Education may exceed the 63-credit-hour limit if doing so is necessary for Pennsylvania state certification to teach in the public schools; in such cases, Education designated POEs may have no more than the number of credit hours required for certification by the Pennsylvania Department of Education.

b. Foreign Language POEs

A designated or individualized Program of Emphasis in French, German, Russian, or Spanish and Hispanic Cultures may be approved with fewer than 36 credit hours provided that

students have placed beyond the WL 110 level by completing the department's designated placement exam. The POE must contain at least 33 credits in the target language beyond SP, GR, FR, or RU 210 and one credit hour of Language in Motion.

c. External Certification

Programs requiring more than 63 credits to obtain external certification as approved by the Department and Program Committee.

C. Program of Emphasis Home Department

A home department or program is any recognized academic unit which sponsors designated and/or individualized POEs. In order to ensure quality and integrity of the POE, the responsibility of the home department is to review the sophomore and final POE submissions. In consultation with advisors, all students must choose a home department or program at the time of the submission of the sophomore POE. The home department is especially important for students with Individualized POEs. It allows these students the flexibility and creativity of self-design while ensuring that they are housed within an academic unit that can provide accountability and support.

D. Program of Emphasis Dates

Sophomores must choose a designated POE or design an individualized POE and

submit an appropriate POE statement to the Registrar by the second semester of the sophomore year.

Seniors must submit a faculty approved, final version of the POE to the Registrar

Undergraduate Programs of Study

PROGRAMS OF EMPHASIS (MAJORS)

Accounting (B.S.)

ACCOUNTING CORE

Take the following courses:

- EB-100 Introduction to Management
- EB-131 Financial Accounting
- EB-202 Behavioral Analysis of Organizations
- EB-203 Introduction to Business Law
- EB-204 Legal Regulation of Business
- EB-211 Business Statistics
- EB-222 Principles of Macroeconomics
- EB-223 Principles of Microeconomics
- EB-232 Intermediate Accounting I
- EB-233 Intermediate Accounting II
- EB-236 Managerial Accounting
- EB-332 Corporate Taxation
- EB-333 Governmental and Nonprofit Accounting
- EB-337 Cost Accounting
- EB-335 Auditing
- EB-342 Management Information Systems
- EB-351 Marketing Management
- EB-361 Financial Management I

ETHICS REQUIREMENT

Take one of the following courses:

- PL-106 Introduction to Ethics
- PL-230 Business Ethics

All students must meet the graduation requirement for quantitative literacy. We recommend that students take one of the following two courses. (Neither is to be included in the POE). Please note that most graduate programs in accounting require a college course in calculus.

- MA-130 Calculus I

on or prior to the preregistration period for the spring semester. No POE changes, other than those caused by scheduling conflicts, will be permitted after this period.

EB-210 Quantitative Business Analysis

Note: Students who plan to sit for the CPA exam should be aware that the rules are changing. Most states now require 150 hours of college. Students should keep abreast of changes in PA law, as well as the rules of the state they may be interested in. Most of this information is available on-line. Students can also consult the Digest of State Accountancy Laws and State Board Regulations in Beeghly Library.

CAPSTONE

Take the following course:

- EB-480 Senior Seminar

POE Credit Total = 61

Students must complete at least 18 credits at the 300/400 level. Any course exception must be approved by the advisor and/or department chair.

Art History & Museum Studies (B.A.)

MUSEUM STUDIES CORE

Take the following courses:

- AH-108 Cross Cultural Art 1
- MM-390 Museum Studies
- MM-392 Museum Education
- MM-394 Curatorial Studies
- MM-480 Museum Practicum I
- MM-481 Museum Practicum II

ASSOCIATED COURSES

Take the following courses:

- AR-104 Design and Color
- EN-272 Introduction to Professional Writing

ART HISTORY COURSES

Take the following course:

AH-113 Cross-Cultural Art 2

Take five of the following courses:

AH-301 African-American Art: Slavery to Social Justice
 AH-303 Reframing American Art to 1876
 AH-304 Reframing American Art from 1876
 AH-309 Expanding the Renaissance
 AH-310 Global Baroque Art & Architecture
 AH-311 Art of Ancient Peoples
 AH-312 Medieval Art: Really a Dark Age?
 AH-316 Art & Revolution: 19th Century Europe
 AH-329 Impressionism to Abstract Expressionism
 AH-330 Why Is That Art? 1945-Present

INTERNSHIP

Choose one of the following options below:

Option 1: Take AH-490 and AH-495 for 1-5 credits.

AH-490 Internship
 AH-495 Internship Research Seminar

Option 2: Take AH-001 or HS-001 as a non-credit transcript notation. NOTE: A second internship is strongly recommended.

AH-001 Non-Credit Art History Internship
 HS-001 Non-Credit History Internship

CAPSTONE

Take the following courses below:

AH-492 Senior Thesis in Art History
 HS-493 The Historian's Craft

POE Credit Total = 55-60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Biochemistry (B.S.)

CHEMISTRY COURSES

Take the following courses:

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab
 CH-210 Chemistry and Biochemistry Seminar
 CH-232 Organic Chemistry I
 CH-233 Organic Chemistry I Lab
 CH-247 Bioanalytical Chemistry

CH-312 Biochemistry
 CH-352 Physical Chemistry I
 CH-353 Physical Chemistry Laboratory

BIOLOGY COURSES

Take the following courses:

BI-101 General Biology I
 BI-102 General Biology II
 BI-316 Molecular & Cellular Biology

MATHEMATICS COURSES

Take one of the following courses:

MA-130 Calculus I
 BI-305 Biostatistics

PHYSICS COURSES

Take one of the following combinations:

Option 1:

PC-200 General Physics I
 PC-200L General Physics Lab I

Option 2:

PC-202 Intro Physics I
 PC-202L Intro Physics Lab I

IN-DEPTH COURSES

Complete at least seven elective credits (one of which must have a laboratory component) from the CH - Chemistry, BI - Biology, ESS - Environmental Science/Studies, PC - Physics or MA - Mathematics departments at the 300-level or above. NOTE: Some elective courses may have a prerequisite outside the core Biochemistry coursework.

CAPSTONE

Take the following course:

CH-489 Chemistry & Biochemistry Capstone

POE Credit Total = 50

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Biology (B.S.)

All POEs using the words Biology, Biological Science(s) or Zoology must meet the course requirements of this Biology designated POE.

BIOLOGY CORE

Take the following courses:

BI-101 General Biology I
 BI-102 General Biology II
 BI-289 Frontiers of Biology

CHEMISTRY CORE

Take the following courses:

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab
 CH-232 Organic Chemistry I
 CH-233 Organic Chemistry I Lab

PHYSICS CORE

Complete one of the following options below (8 credits):

Option 1:

PC-200 General Physics I
 PC-200L General Physics Lab I
 PC-201 General Physics II
 PC-201L General Physics Lab II

Option 2:

PC-202 Intro Physics I
 PC-202L Intro Physics Lab I
 PC-203 Intro Physics II
 PC-203L Intro Physics Lab II

STATISTICS CORE

Take one of the following courses:

MA-130 Calculus I
 BI-305 Biostatistics
 BI-305CW Biostatistics

UPPER-LEVEL BIOLOGY REQUIREMENT

Students must complete a minimum of 18 credits of 300/400 level courses. At least one course must be taken from each core group below. Of these four courses, two must have an associated laboratory. Three credits of research (BI 489) on the same project may count as a core laboratory course. The core classification will be determined by the research advisor. BI-380CW and special topics courses at the 300 level or higher can also count towards the Biology distribution requirements; classification will be determined by the Biology advisor or Chair of the Biology Department.

Evolution/Ecology:

BI-300 General Ecology
 BI-301 General Ecology Lab
 BI-325 Plant Ecology
 BI-326 Plant Ecology Lab
 BI-339 Organic Evolution
 ESS-325 Conservation Biology
 ESS-320 Environmental Monitoring
 PY-402 Evolutionary Psychology
 PY-401 Comparative Psychology
 ESS-328 Limnology
 BI-362 Animal Behavior

Cellular & Molecular:

BI-460 Genetic Analysis
 BI-331 Molecular Microbiology
 BI-332 Molecular Microbiology Lab
 CH-418 Advanced Biochemistry
 BI-316 Molecular & Cellular Biology
 BI-318 Developmental Biology
 BI-340 Medical Microbiology
 CH-312 Biochemistry

Organismal:

BI-360 Vertebrate Zoology
 BI-361 Vertebrate Zoology Lab
 BI-350 Invertebrate Zoology
 BI-351 Invertebrate Zoology Lab
 BI-367 Comparative Anatomy
 BI-368 Comp Anatomy Laboratory
 BI-327 Botany
 BI-333 Plant Diversity
 BI-324 Ornithology
 BI-323 Mammalogy
 BI-370 Herpetology

Biological Interactions:

BI-310 Physiology
 BI-305 Biostatistics
 BI-405 Bioinformatics Fundamentals
 BI-450 Neurobiology
 BI-432 Environmental Toxicology
 BI-417 Reproductive Biology
 BI-334 Immunology

CAPSTONE

ND-498 Natural Sciences Capstone

NOTE: The student must have an advisor who is a member of the Biology Department Faculty.

POE Credit Total = 52

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Biology and Secondary Education (B.S.)

This POE accurately reflects the requirements for a full Biology degree and also fulfills the requirements of the PA Department of Education for Secondary Certification in Biology.

BIOLOGY CORE

Take the following courses:

- BI-101 General Biology I
- BI-102 General Biology II
- BI-289 Frontiers of Biology

CHEMISTRY CORE

Take the following courses:

- CH-142 Integrated Chemistry Principles I
- CH-143 Integrated Chem Principles I Lab
- CH-144 Integrated Chemistry Principles II
- CH-145 Integrated Chemistry Principles II Lab
- CH-232 Organic Chemistry I
- CH-233 Organic Chemistry I Lab

STATISTICS CORE

Take one of the following courses:

- MA-130 Calculus I
- BI-305 Biostatistics
- BI-305CW Biostatistics

PHYSICS CORE

Complete one of the following options below (8 credits):

Option 1:

- PC-200 General Physics I
- PC-200L General Physics Lab I
- PC-201 General Physics II
- PC-201L General Physics Lab II

Option 2:

- PC-202 Intro Physics I
- PC-202L Intro Physics Lab I
- PC-203 Intro Physics II
- PC-203L Intro Physics Lab II

UPPER-LEVEL BIOLOGY

Take 18 credits of 300-400 Biology credits. Approved courses from Chemistry, ESS & Psychology are

permitted. *Consult with POE advisor to make certain courses selected are correct.

- BI-300 General Ecology
- BI-301 General Ecology Lab
- BI-325 Plant Ecology
- BI-326 Plant Ecology Lab
- BI-339 Organic Evolution
- ESS-325 Conservation Biology
- ESS-320 Environmental Monitoring
- PY-402 Evolutionary Psychology
- PY-401 Comparative Psychology
- ESS-328 Limnology
- BI-460 Genetic Analysis
- BI-331 Molecular Microbiology
- BI-332 Molecular Microbiology Lab
- CH-418 Advanced Biochemistry
- BI-316 Molecular & Cellular Biology
- BI-318 Developmental Biology
- BI-340 Medical Microbiology
- CH-312 Biochemistry
- BI-360 Vertebrate Zoology
- BI-361 Vertebrate Zoology Lab
- BI-350 Invertebrate Zoology
- BI-351 Invertebrate Zoology Lab
- BI-367 Comparative Anatomy
- BI-368 Comp Anatomy Laboratory
- BI-327 Botany
- BI-324 Ornithology
- BI-323 Mammalogy
- BI-370 Herpetology
- BI-310 Physiology
- BI-305 Biostatistics
- BI-399 Special Topics
- BI-450 Neurobiology
- BI-432 Environmental Toxicology
- BI-432CW Environmental Toxicology
- BI-417 Reproductive Biology
- BI-334 Immunology

EDUCATION CORE

Take the following courses:

- ED-110 Foundations of Education
- ED-111 Foundations of Education Field Experience
- ED-130 Adolescent Development
- ED-240 Introduction to Students With Exceptionalities
- ED-314 English Language Learners
- ED-341 Adaptations for Students With Exceptionalities
- ED-419 Pre-Student Teaching Field Experience
- ED-420 General Secondary Methods

ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

ED-450 Student Teaching

ED-451 Student Teaching Seminar

**ED 450 & ED 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & ED 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisor's approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have an advisor who is a member of the Biology Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 85-88

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Business Analytics (B.S.)

BUSINESS ANALYTICS CORE

Take the following courses:

EB-100 Introduction to Management

EB-131 Financial Accounting

EB-202 Behavioral Analysis of Organizations

EB-222 Principles of Macroeconomics

EB-236 Managerial Accounting

EB-351 Marketing Management

ESS-230 Environmetrics

CS-110 Computer Science I

CS-370 Database Management Systems

DS-110 Intro to Data Science

IM-242 Info Visualization

INTRODUCTORY STATISTICS

Take one of the following courses below:

EB-211 Business Statistics

MA-205 Elementary Statistics

MA-220 Introduction to Probability & Statistics

ELECTIVES

Take four of the following courses below:

CM-200 Art of Public Speaking

MA-116 Discrete Structures

MA-321 Multivariate Statistics

MA-325 Statistical Consulting

DS-210 Data Acquisition

DS-352 Machine Learning

DS-375 Big Data

UPPER-LEVEL CORE

Take an additional course from the EB Department at the 300/400 level.

CAPSTONE

Take the following course:

EB-480 Senior Seminar

POE Credit Total = 56-58

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Business Information Technology (B.S.)

BUSINESS INFORMATION TECHNOLOGY CORE

Take the following courses:

EB-100 Introduction to Management

EB-105 International Economic Issues

IT-110 Principles of Information Technology

CS-110 Computer Science I

EB-131 Financial Accounting

CM-200 Art of Public Speaking

EB-202 Behavioral Analysis of Organizations

IT-210 Information Technology Systems

EB-236 Managerial Accounting

IT-307 Project Management

IT-308 Innovations for Industry I

IT-341 Web Design

EB-480 Senior Seminar

Take one of the following courses:

EB-210 Quantitative Business Analysis

MA-130 Calculus I

Take one of the following courses:

EB-211 Business Statistics
 MA-220 Introduction to Probability & Statistics

Take one of the following courses:

CS-370 Database Management Systems
 EB-342 Management Information Systems

Take one of the following courses:

EB-203 Introduction to Business Law
 EB-204 Legal Regulation of Business

Take one of the following courses:

IT-290 The Metaverse
 CM-290 The Metaverse

UPPER-LEVEL ELECTIVES

Complete one 300/400 level course from the IT or CS Department (AND) one 300/400 level course from the EB Department.

CAPSTONE

Take one of the following options below:

Option 1:

IT-307 Project Management
 IT-308 Innovations for Industry I

Option 2:

EB-480 Senior Seminar

NOTE: Although not required, an internship may be taken. In some instances, a student (in consultation with his or her advisor) may substitute a course.

POE Credit Total = 60-62

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Chemistry (B.S.)

INTRODUCTORY COURSES

Take the following courses:

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab

FOUNDATIONAL COURSES

Take the following courses:

CH-222 Inorganic Chemistry

CH-232 Organic Chemistry I
 CH-233 Organic Chemistry I Lab
 CH-247 Bioanalytical Chemistry
 CH-252 Analytical Chemistry
 CH-312 Biochemistry
 CH-352 Physical Chemistry I
 CH-353 Physical Chemistry Laboratory

IN-DEPTH COURSES

Take nine credits from the following courses:

CH-332 Organic Chemistry II
 CH-354 Physical Chemistry II
 CH-372 Instrumental Methods
 CH-401 Advanced Organic Chemistry
 CH-406 Advanced Inorganic Chemistry
 CH-418 Advanced Biochemistry
 CH-399 Special Topics
 CH-499 Chemistry Special Topics

**Requirements for ACS-certified degree: Take one additional in-depth course

and a minimum of 400 total laboratory hours.**

ADVANCED LABORATORY EXPERIENCE

Take the following course:

CH-385 Advanced Chemistry Lab

OTHER CHEMISTRY COURSES

Take the following courses:

CH-210 Chemistry and Biochemistry Seminar
 CH-489 Chemistry & Biochemistry Capstone II

SUPPORT COURSES

Take the following course:

MA-130 Calculus I

Take one of the following options below:

Option 1:

PC-200 General Physics I
 PC-200L General Physics Lab I

Option 2:

PC-202 Intro Physics I
 PC-202L Intro Physics Lab I

CAPSTONE

Take the following course:

CH-489 Chemistry & Biochemistry Capstone II

POE Credit Total = 51

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Chemistry and Secondary Education (B.S.)

INTRODUCTORY COURSES

Take the following courses:

- CH-142 Integrated Chemistry Principles I
- CH-143 Integrated Chem Principles I Lab
- CH-144 Integrated Chemistry Principles II
- CH-145 Integrated Chemistry Principles II Lab

FOUNDATIONAL COURSES

Take the following courses:

- CH-222 Inorganic Chemistry
- CH-232 Organic Chemistry I
- CH-233 Organic Chemistry I Lab
- CH-247 Bioanalytical Chemistry
- CH-252 Analytical Chemistry
- CH-312 Biochemistry
- CH-352 Physical Chemistry I
- CH-353 Physical Chemistry Laboratory

IN-DEPTH COURSES

Take 9 credits from the following courses:

- CH-332 Organic Chemistry II
- CH-354 Physical Chemistry II
- CH-372 Instrumental Methods
- CH-401 Advanced Organic Chemistry
- CH-406 Advanced Inorganic Chemistry
- CH-418 Advanced Biochemistry
- CH-399 Special Topics
- CH-499 Chemistry Special Topics

Requirements for ACS-certified degree: Take one additional in-depth course and a minimum of 400 total laboratory hours.

ADVANCED LABORATORY EXPERIENCE

Take the following course:

- CH-385 Advanced Chemistry Lab

OTHER CHEMISTRY COURSES

Take the following course:

- CH-210 Chemistry and Biochemistry Seminar

SUPPORT COURSES

Take the following course:

MA-130 Calculus I

Complete one of the following options below:

Option 1:

- PC-200 General Physics I
- PC-200L General Physics Lab I

Option 2:

- PC-202 Intro Physics I
- PC-202L Intro Physics Lab I

EDUCATION CORE

Take the following courses:

- ED-110 Foundations of Education
- ED-111 Foundations of Education Field Experience
- ED-130 Adolescent Development
- ED-240 Introduction to Students With Exceptionalities
- ED-314 English Language Learners
- ED-341 Adaptations for Students With Exceptionalities
- ED-419 Pre-Student Teaching Field Experience
- ED-420 General Secondary Methods
- ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

- ED-450 Student Teaching
- ED-451 Student Teaching Seminar

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisor's approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Other requirements: Students should see Dr. Jones in the education department as soon as possible for information on requirements other than coursework that must be met for certification. Your chemistry advisor and Dr. Jones in the education department

maintain the closest watch on the Pennsylvania requirements for teacher certification, and are thus the most appropriate choices to serve as the two academic advisors for students pursuing certification to teach chemistry in secondary school.

NOTE: Students with scheduling difficulties (or who wish to spend the junior year abroad) might wish to consider postponing the professional semester (usually the first semester of the senior year) until after graduation. (Juniata graduates are charged only half tuition).

POE Credit Total = 93

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Communication and Conflict Resolution (B.A.)

CORE COURSES

Take the following courses:

- CM-130 Introduction to Human Communication
- PACS-105 Introduction to Conflict Resolution
- PACS-108 Mediation
- PACS-110 Introduction to Peace & Conflict Studies
- PACS-205 Conflict Intervention
- CM-230 Interpersonal Communication

UPPER-LEVEL CORE

Take five of the following courses:

- PACS-305 Gender and Conflict
- PACS-308 Nonviolence: Theory & Practice
- PACS-405 Conflict Transformation
- CM-340 Intercultural Communication
- CM-365 Organizational Communication
- CM-400B Storytelling
- CM-405A Women, Work & Identity
- CM-497 Senior Thesis Seminar
- CM-498 Senior Thesis Research
- PACS-455 PACS Honors Thesis I

COMMUNICATION MEDIA CORE

Take one of the following courses:

- CM-420A Hollywood Films
- CM-420B Media Violence
- CM-420C Digital Media Studies
- CM-420D Truth and Lying
- CM-132 Message Analysis
- CM-133 Mass Media and Society

SKILLS CORE

Take two of the following courses:

- CM-200 Art of Public Speaking
- CM-230 Interpersonal Communication
- EN-311 Professional News and Feature Writing
- EN-315 Technical Writing

METHODS CORE

Complete one of the following options below:

Option 1:

- CM-330 Media Analysis

Option 2:

- PY-366 Research Methods & Statistics

Option 3:

- SW-214 Integrated Research Methods & Stats I

- SW-215 Integrated Research Methods & Stats II

CAPSTONE/INTERNSHIP

Complete one of the following options below (at least 3-4 credits). A capstone in History, Economics or Politics may be substituted in consultation with POE advisor.

Option 1:

- PACS-455 PACS Honors Thesis I

Option 2:

- PACS-495 PACS Intern. Res. Sem.
- PACS-490 Peace & Conflict Studies Internship

In addition we recommend that students choose a secondary emphasis developing greater depth in a particular area of interest. For example students interested in group dynamics would focus in sociology or social work, students with an interest in individual behaviors and choices would add psychology, an interest in political change would suggest politics courses.

POE Credit Total = 50-61

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Communication Advocacy (B.A.)

CORE COURSES

Take the following courses:

CM-130 Introduction to Human Communication
 CM-132 Message Analysis
 CM-133 Mass Media and Society
 CM-200 Art of Public Speaking
 CM-401 Senior Seminar

SKILLS & METHODS COURSES

Take 12 credits from the following courses:

CM-210 Race and Language in the United States
 CM-220 Group Communication
 CM-230 Interpersonal Communication
 CM-250 LEAD: Listen & Empath Advocacy Diversity
 CM-261 CM Studies in Germany I
 CM-262 CM Studies in Germany II
 CM-289 Communication Practicum
 CM-300 Professional Presentations
 CM-330 Media Analysis
 CM-310 Understanding Health Inequity

SEMINAR COURSES

Take 12 credits from the following courses:

CM-340 Intercultural Communication
 CM-400A Health Communication
 CM-365 Organizational Communication
 CM-405A Women, Work & Identity
 CONN-350 Community Health Advocacy
 CM-420D Truth and Lying
 HS-400 Crimes Against Humanity
 EN-302 The Literature of Social Protest

ELECTIVE COURSES

Take 12 credits from the following courses:

EN-193 Immigrant Voices
 EN-271 Public Health Writing
 EN-299 Special Topics
 PL-235 Ethics of Health Care
 PACS-105 Introduction to Conflict Resolution
 PACS-305 Gender and Conflict
 CM-290 The Metaverse
 HS-221 Gender and Sexuality
 HS-367 Women in Africa
 HS-324 Gendering the Raj
 SO-203 Minority Experiences
 SO-242 Aging & Society
 SO-305 Gender and Society

CAPSTONE

Complete one of the following options below (a minimum of 6 credits):

Option 1:

CM-490 Communication Internship
 CM-495 Communication Internship Research

Option 2:

CM-497 Senior Thesis Seminar
 CM-498 Senior Thesis Research

POE Credit Total = 55

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Computer Science (B.S.)

COMPUTER SCIENCE CORE COURSES

Take the following courses:

CS-110 Computer Science I
 CS-220 Computer Organization
 CS-240 Computer Science II
 CS-255C C++ Programming
 CS-255U Unix Programming
 CS-300 Software Engineering
 CS-315 Algorithms and Analysis
 CS-305 Software Models
 CS-320 Operating Systems
 CS-362 Languages and Translation
 CS-370 Database Management Systems
 CS-480 Computer Science Seminar I
 IT-210 Information Technology Systems
 MA-116 Discrete Structures
 MA-130 Calculus I

Take one of the following courses:

MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics

ELECTIVE COURSES

Complete 6 credits from the following courses:

CS-255A Android Programming
 CS-255B COBOL Programming
 CS-255C C++ Programming
 CS-255F FORTRAN Programming
 CS-255P Perl Programming
 CS-255R Ruby Programming
 CS-255U Unix Programming
 CS-255Y Python Programming
 CS-330 Computer Graphics
 CS-341 Scientific Computing
 CS-390 Computer Science in Germany Seminar
 CS-391 Computer Science in Germany
 CS-485 Computer Science Research

DS-110 Intro to Data Science
 DS-210 Data Acquisition
 DS-352 Machine Learning
 DS-375 Big Data
 IT-110 Principles of Information Technology
 IT-260 Human Computer Interaction
 IT-325 Network Design & Management.
 IT-341 Web Design
 IT-342 Web Programming
 IT-350 Security Engineering
 IT-351 Security Engineering Lab
 IT-380 Innovations for Industry II
 IT-480 Innovations for Industry III
 IM-242 Info Visualization
 MA-160 Linear Algebra
 MA-210 Foundations of Mathematics
 MA-230 Calculus II
 MA-233 Integrals Series & Differential Equations
 MA-235 Calculus III
 MA-341 Scientific Computing
 PC-209 Electronics

CAPSTONE

Take the following courses:

IT-307 Project Management
 IT-308 Innovations for Industry I

POE Credit Total = 62-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Criminal Justice (B.S.)

REQUIRED COURSES

Take the following courses:

SO-101 Introduction to Sociology
 PS-101 Introduction to American Government
 PL-106 Introduction to Ethics
 SO-203 Minority Experiences
 SO-260 Introduction to Criminal Justice
 SO-302 Social Deviance and Criminology

METHODS REQUIREMENT

Complete one of the following sequences below:

SOCIAL WORK RESEARCH SEQUENCE:

SW-214 Integrated Research Methods & Stats I
 SW-215 Integrated Research Methods & Stats II

PSYCHOLOGY RESEARCH SEQUENCE:

PY-366 Research Methods & Statistics

EXPERIENTIAL REQUIREMENT

Take 3-6 credits of experiential courses (Inside-Out, Mock Trial, approved internship, mentored research, and/or community-engaged learning must be approved by department chair).

PS-190A Mock Trial
 PS-190B Mock Trial
 PS-490 Legal & Public Affairs Internship
 PS-495 Politics Internship Seminar
 PY-490 Psychology Internship
 PY-495 Psychology Int. Sem.
 SO-492 Sociology Internship
 SW-330 Social Work Practice: Individual, Family & Small Groups Laboratory
 SW-331 Social Work Practice: Individual, Family & Small Groups

ELECTIVES

Take 15-18 credits from the following courses:

EN-239 Bloody Murder
 HS-400 Crimes Against Humanity
 PACS-105 Introduction to Conflict Resolution
 PACS-110 Introduction to Peace & Conflict Studies
 PS-218 Public Policy & Admin.
 PS-312 Constitutional Interpretation: Civil Rights
 PS-334 Human Rights
 PY-203 Abnormal Psychology
 PY-205 Social Psychology
 PY-410 Aggression and Prejudice
 SO-203 Minority Experiences
 SO-244 Drugs and Society
 SO-320 Wealth, Power, & Society
 SO-362 Juvenile Justice

CAPSTONE

Take one of the following options below:

Option 1:

SO-401 Sociology Senior Seminar

Option 2:

SO-492 Sociology Internship
 SO-495 Sociology Research/Seminar

POE Credit Total = 48-54

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Data Science (B.S.)

DATA SCIENCE CORE

Take the following courses:

CS-110 Computer Science I
 DS-110 Intro to Data Science
 MA-130 Calculus I
 MA-116 Discrete Structures
 MA-160 Linear Algebra

STATISTICS CORE

Take one of the following courses:

MA-220 Introduction to Probability & Statistics
 MA-205 Elementary Statistics
 EB-211 Business Statistics
 BI-305 Biostatistics
 ESS-230 Environmetrics
 ESS-309 Econometrics
 PY-366 Research Methods & Statistics
 SW-215 Integrated Research Methods & Stats II

SECOND-LEVEL

Take the following courses:

CS-370 Database Management Systems
 DS-210 Data Acquisition
 DS-352 Machine Learning
 IM-242 Info Visualization
 MA-321 Multivariate Statistics
 DS-375 Big Data

CAPSTONE

Take the following course:

MA-325 Statistical Consulting

COGNATE AREA

Take 12 credits, 3 of which must be at the 300 level or higher. Cognate area should be a coherent set of courses outside the areas of Data Science, Math and Computer Science.

POE Credit Total = 54

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Early Childhood Education (B.S.)

CORE COURSES

Take the following courses:

ED-110 Foundations of Education
 ED-111 Foundations of Education Field Experience
 ED-120 Child Development
 ED-240 Introduction to Students With Exceptionalities
 ED-260 Families, Schools, and Communities
 ED-304 Teaching for Social Justice
 ED-312 Language and the Brain
 ED-313 Language and Brain Lab
 ED-314 English Language Learners
 ED-342 Assessment Learners
 ED-343 Differentiated Instruction
 ED-350 Science Methods: Stem III
 ED-401 Junior Field Experience
 ED-403 Math Methods: PreK-6
 ED-411 Reading Difficulties
 ED-412 Reading Difficulties Lab
 ED-430 Language and Literacy
 ED-433 Pre-Student Teaching Seminar

MATH REQUIREMENT

Take 6 credits from the MA - Mathematics Department.

ENGLISH REQUIREMENT

English Composition:

Take the following course:

FYC-101 First Year Composition

English Literature:

Take 3 credits from the following courses:

EN-120 Forms of Literature
 EN-122 Interpreting Pop Literature
 EN-162 Women and Literature
 EN-170 World Literatures
 EN-188 Bad Literature
 EN-207 Heaven or Hell on Earth
 EN-212 Sports Literature
 EN-213 Zombie Nation
 EN-215 Boys Will Be Boys
 EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-239 Bloody Murder
 EN-250 African American Literature
 EN-251 Slave Narratives
 EN-262 Unhappily Ever After
 EN-301 Young Adult Literature
 EN-302 The Literature of Social Protest
 EN-307 Mythology in Film

EN-312 Literature of Revenge
 EN-313 Firing the Canon
 EN-341 Shakespearean Drama
 EN-385 Queer Literature
 EN-388 Heroes and Villains
 EN-392 Crossing the Border

CAPSTONE

Take the following courses:

ED-450 Student Teaching
 ED-451 Student Teaching Seminar

NOTE: Students in this program must have an advisor in the Education Department. Teacher certification programs are subject to changes in state and federal regulations. Formal acceptance to a certification program may include requirements over and above those of the college. Title II of the Higher Education Act enacted in 1998 requires that institutions publicize the pass-rate of PRAXIS tests taken by students who complete a certification program. See the Education Department's Student Handbook and website www.juniata.edu/education for specific information and current certification requirements. Title II information is available from the Education Department Certification Officer or the Dean of Enrollment.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

POE Credit Total = 59

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Early Childhood Education and Special Education (B.S.)

CORE COURSES

Take the following courses:

ED-110 Foundations of Education
 ED-111 Foundations of Education Field Experience
 ED-120 Child Development
 ED-130 Adolescent Development

ED-240 Introduction to Students With Exceptionalities
 ED-260 Families, Schools, and Communities
 ED-304 Teaching for Social Justice
 ED-309 Intro to Autism Spectrum Disorders
 ED-312 Language and the Brain
 ED-313 Language and Brain Lab
 ED-314 English Language Learners
 ED-342 Assessment Learners
 ED-343 Differentiated Instruction
 ED-350 Science Methods: Stem III
 ED-401 Junior Field Experience
 ED-403 Math Methods: PreK-6
 ED-411 Reading Difficulties
 ED-412 Reading Difficulties Lab
 ED-430 Language and Literacy
 ED-433 Pre-Student Teaching Seminar
 ED-440 High Incidence Disabilities
 ED-441 Low Incidence Disabilities
 ED-442 Social, Emotional, Behavior

MATH REQUIREMENT

Take 6 credits from the MA - Mathematics Department.

ENGLISH REQUIREMENT

English Composition:

Take one of the following courses:

FYC-101 First Year Composition

English Literature:

Take 3 credits from the following courses:

EN-120 Forms of Literature
 EN-122 Interpreting Pop Literature
 EN-162 Women and Literature
 EN-170 World Literatures
 EN-188 Bad Literature
 EN-207 Heaven or Hell on Earth
 EN-212 Sports Literature
 EN-213 Zombie Nation
 EN-215 Boys Will Be Boys
 EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-239 Bloody Murder
 EN-250 African American Literature
 EN-251 Slave Narratives
 EN-262 Unhappily Ever After
 EN-301 Young Adult Literature
 EN-302 The Literature of Social Protest

EN-307 Mythology in Film
 EN-312 Literature of Revenge
 EN-313 Firing the Canon
 EN-341 Shakespearean Drama
 EN-385 Queer Literature
 EN-388 Heroes and Villains
 EN-392 Crossing the Border

CAPSTONE

Take the following courses:

ED-450 Student Teaching
 ED-451 Student Teaching Seminar

Note: Teacher certification programs are subject to changes in state and federal regulations. Formal acceptance into, retention in, and completion of a certification program may include requirements over and above those of the college. See the Education Department's Student Handbook for additional information on certification.

POE Credit Total = 85

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Earth and Space Secondary Education (B.S.)

REQUIRED CORE COURSES

Take the following courses:

GL-100A Environmental Geology
 PC-120 Astronomy
 GL-204 History of Earth
 GL-210 Minerals
 GL-240 Geological Field Methods I
 GL-300 Petrography
 GL-310 Structural Geology
 GL-389 Geology Professional Seminar
 MA-130 Calculus I
 CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab

ADDITIONAL CORE

Complete one of the following options below:

Option 1:

GL-126 Environmental Geochemistry

Option 2:

CH-144 Integrated Chemistry Principles II

CH-145 Integrated Chemistry Principles II Lab

REQUIRED EDUCATION COURSES

Take the following courses:

ED-110 Foundations of Education
 ED-111 Foundations of Education Field Experience
 ED-130 Adolescent Development
 ED-240 Introduction to Students With Exceptionalities
 ED-314 English Language Learners
 ED-341 Adaptations for Students With Exceptionalities
 ED-419 Pre-Student Teaching Field Experience
 ED-420 General Secondary Methods
 ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

ED-450 Student Teaching
 ED-451 Student Teaching Seminar

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisors' approval. Students must have reliable transportation.

*There are field experiences in these courses. Students should take only one of these courses per semester. Allow a two-hour block of time for scheduled field experience twice a week.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

POE Credit Total = 76-77

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Economics (B.S.)

ECONOMICS CORE

Take the following courses:

EB-100 Introduction to Management
 EB-102 Introduction to Entrepreneurship
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations
 EB-236 Managerial Accounting
 MA-130 Calculus I
 MA-160 Linear Algebra
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics
 EB-320 Intermediate Microeconomics
 EB-321 Intermediate Macroeconomics
 EB-381 International Political Economy
 ESS-230 Environmetrics

Take one of the following courses:

EB-211 Business Statistics
 MA-220 Introduction to Probability & Statistics

ELECTIVES

Take one of the following courses:

MA-210 Foundations of Mathematics
 MA-230 Calculus II
 MA-235 Calculus III
 MA-303 Mathematical Modeling
 MA-370 Real Analysis
 ESS-305 Environmental Economics
 EB-463 Financial Markets & Institutions
 EB-465 Financial Theory and Analysis

UPPER LEVEL ELECTIVES

Take three upper level courses from the following:

MA-303 Mathematical Modeling
 ESS-305 Environmental Economics
 EB-463 Financial Markets & Institutions
 EB-465 Financial Theory and Analysis
 MA-370 Real Analysis

CAPSTONE

Take the following course:

EB-480 Senior Seminar

POE Credit Total = 61-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Engineering Physics (B.S.)

MATHEMATICS CORE

Take the following courses:

MA-130 Calculus I
 MA-160 Linear Algebra
 MA-230 Calculus II
 MA-235 Calculus III
 MA-335 Differential Equations

COMPUTER SCIENCE CORE

Take the following course:

CS-110 Computer Science I

Take one of the following courses:

CS-255F FORTRAN Programming
 CS-255C C++ Programming

CHEMISTRY CORE

Take the following courses:

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab

PHYSICS CORE

Take the following courses:

PC-189 Physics Seminar I
 PC-203 Intro Physics II
 PC-203L Intro Physics Lab II
 PC-289 Physics Seminar II
 PC-300 Modern Physics Lab
 PC-301 Theoretical Modern Physics
 PC-320 Engineering Mechanics I: Statics
 PC-321 Engineering Mechanics II: Dynamics
 PC-389 Physics Seminar III

Complete one of the following options below:

Option 1:

PC-202 Intro Physics I
 PC-202L Intro Physics Lab I

Option 2:

PC-204 University Physics

ADDITIONAL PHYSICS CORE

Take the following courses:

PC-307 Advanced Physics Lab

PC-489 Physics Seminar IV

UPPER-LEVEL COURSE

Take an additional 300/400 level Physics, Mathematics or Chemistry course at that 300/400 level.

CAPSTONE

Take one of the following courses:

PC-450 Physics Research I
AS-450 Astronomy Research II
ND-498 Natural Sciences Capstone

POE Credit Total = 63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

This Program of Emphasis includes two options:

3+2 engineering (two degrees) in cooperation with one of our affiliated engineering universities:

The 3+2 option is structured to prepare a student to go to engineering school in our 3+2 program. The physics, mathematics, chemistry and computer science consists of a broad introduction to the field, providing basic knowledge and initial analytical skill development for the engineering profession. Generally, this POE option is designed to meet the entrance requirements of the engineering schools with which we are affiliated: Penn State University, Columbia University, and Washington University in St. Louis. Since these requirements vary somewhat from school to school, advice from the Engineering Advisor is essential in the planning process. Columbia University requires a GPA of 3.3 and all required courses must have a grade of a B or higher. Washington University in St. Louis requires a minimum GPA of 3.25 overall and also in the science and mathematics courses. Many of Penn State's engineering programs also have "Enrollment control" which mean they do not participate in the 3+2 program at the current time. At present time, the following Penn State departments are under enrollment control: Aerospace Engineering, Bioengineering, Computer Engineering, Industrial Engineering, and Mechanical Engineering. None of our other 3+2 cooperating universities have enrollment controls in place. Penn State Harrisburg also offers

some engineering programs. Although we do not have a formal 3+2 program specifically with PSU-Harrisburg, students have completed a 3+2 program with them in the past and arrangements may be made on an individual basis.

4-year, engineering-oriented Juniata College degree:

This option provides a technical background for a person who wishes to seek general employment in a technical industrial situation which does not require specific engineering training. The mathematics sequence in these three options offers the necessary problem-solving techniques and discipline required for the upper-level physics courses at Juniata and the upper-level engineering courses at an engineering school. The first two years of physics consists of a broad introduction to the field, providing basic knowledge and initial analytical skill development. Substantial laboratory work is included in these options to ensure contact with concrete phenomena.

A 3+2 engineering student who decides to extend Juniata's education to four years, but who intends to go to an engineering school for either a BS or a graduate degree in engineering, may find this program to be useful.

Please note that this POE is not designed for those interested in Chemical Engineering. Please speak both with the Engineering Advisor in the physics department and with a chemistry advisor if you are interested in Chemical Engineering.

English (B.A.)

CORE COURSES

Take the following courses:

EN-120 Forms of Literature
EN-122 Interpreting Pop Literature
EN-204 English Colloquium
EN-308 English Research Methods
EN-313 Firing the Canon

200-LEVEL COURSES

Take 12 credits from the following courses:

EN-200 History of the Language
EN-207 Heaven or Hell on Earth
EN-211 Pennsylvania Literature
EN-212 Sports Literature
EN-213 Zombie Nation
EN-215 Boys Will Be Boys

EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-239 Bloody Murder
 EN-251 Slave Narratives
 EN-253 Literature of the Jazz Age
 EN-262 Unhappily Ever After
 EN-299 Special Topics

300-LEVEL COURSES

Take 12 credits from the following courses:

EN-300 Modern Theories of Grammar
 EN-301 Young Adult Literature
 EN-302 The Literature of Social Protest
 EN-307 Mythology in Film
 EN-312 Literature of Revenge
 EN-341 Shakespearean Drama
 EN-385 Queer Literature
 EN-392 Crossing the Border
 EN-399 Special Topics

WRITING COURSES

Take one of the following courses:

EN-272 Introduction to Professional Writing
 EN-273 Visual Literacy
 EN-299 Special Topics
 EN-305 Fiction Writing
 EN-306 Creative Nonfiction Writing
 EN-311 Professional News and Feature Writing
 EN-315 Technical Writing
 EN-374 Ethical Game Design
 EN-376 Writing Across Media
 EN-378 Video Production Writing
 EN-379 Professional Editing

INTERNSHIP/CAPSTONE

Complete one of the following options below: (NOTE: Instructor permission is required)

Option 1:

EN-490 English Internship
 EN-495 English Internship Research

Option 2:

EN-496 Senior Research Capstone

POE Credit Total = 45-46

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

English Secondary Education (B.A.)

ENGLISH CORE

CORE COURSES:

Take the following courses:

EN-120 Forms of Literature
 EN-122 Interpreting Pop Literature
 EN-170 World Literatures
 EN-200 History of the Language
 EN-204 English Colloquium
 EN-341 Shakespearean Drama

AMERICAN LITERATURE COURSES:

Take one of the following courses:

EN-211 Pennsylvania Literature
 EN-238 Unnatural Acts
 EN-239 Bloody Murder
 EN-250 African American Literature
 EN-251 Slave Narratives
 EN-253 Literature of the Jazz Age

BRITISH LITERATURE COURSES:

Take one of the following courses:

EN-258 Funny Pages
 EN-262 Unhappily Ever After

WRITING COURSES:

Take one of the following courses:

EN-272 Introduction to Professional Writing
 EN-273 Visual Literacy
 EN-305 Fiction Writing
 EN-306 Creative Nonfiction Writing
 EN-311 Professional News and Feature Writing
 EN-315 Technical Writing
 EN-378 Video Production Writing
 EN-379 Professional Editing

LITERATURE COURSES:

Take two of the following courses:

EN-162 Women and Literature
 EN-188 Bad Literature
 EN-207 Heaven or Hell on Earth
 EN-212 Sports Literature
 EN-213 Zombie Nation
 EN-215 Boys Will Be Boys
 EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-301 Young Adult Literature

EN-302 The Literature of Social Protest
 EN-307 Mythology in Film
 EN-312 Literature of Revenge
 EN-313 Firing the Canon
 EN-385 Queer Literature
 EN-388 Heroes and Villains
 EN-392 Crossing the Border

OTHER COURSES

Complete each category below:

Communication:

CM-200 Art of Public Speaking

Mathematics:

Complete six credits from the MA - Mathematics Department.

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
 ED-111 Foundations of Education Field Experience
 ED-130 Adolescent Development
 ED-240 Introduction to Students With Exceptionalities
 ED-314 English Language Learners
 ED-341 Adaptations for Students With Exceptionalities
 ED-419 Pre-Student Teaching Field Experience
 ED-420 General Secondary Methods

CAPSTONE

Take the following courses:

ED-450 Student Teaching
 ED-451 Student Teaching Seminar

**ED 450 & ED 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & ED 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisor's approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to met all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section

I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have an advisor who is a member of the English Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 79-85

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Entrepreneurship (B.S.)

ENTREPRENEURSHIP CORE

Take the following courses:

EB-100 Introduction to Management
 EB-102 Introduction to Entrepreneurship
 EB-105 International Economic Issues
 IT-110 Principles of Information Technology
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations
 EB-207 New Venture Creation
 EB-236 Managerial Accounting
 EB-307 New Venture Start-Ups
 EB-341 Product and Operations Management
 EB-351 Marketing Management
 EB-361 Financial Management I
 EB-371 Human Resource Management.
 EB-407 Entrepreneurship

Take one of the following courses:

EB-210 Quantitative Business Analysis
 MA-130 Calculus I

Take one of the following courses:

EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics

Take the following course:

EB-359 Advertising & Promo Mgmt

**The option of Junior Year or Semester Abroad is encouraged. Foreign exchange partner institutions are likely to offer equivalent courses for EB-105, EB-210, EB-211, EB-222, EB-223, EB-341, EB-351, EB-361 and EB-371.

Internships are also available:

EB-001 Non-Credit Business Internship
 EB-490 Business Internship
 EB-495 Business Internship Seminar

CAPSTONE

Take the following course:

EB-480 Senior Seminar

POE Credit Total = 62-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Environmental Economics (B.S.)**ESS CORE COURSES**

Take the following courses:

ESS-100 Environmental Systems I
 GL-100 Intro to Physical Geology
 ESS-305 Environmental Economics
 ESS-230 Environmetrics
 ESS-310 Water Resources I
 ESS-337 Environmental Law

Take one of the following courses:

ESS-224 Wildlife Mgmt
 ESS-324 Natural Resource Management

ECONOMICS COURSES

Take the following courses:

EB-105 International Economic Issues
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics
 EB-381 International Political Economy

Take one of the following courses:

EB-463 Financial Markets & Institutions
 EB-465 Financial Theory and Analysis

POLICY AND DECISION SCIENCE

Take the following courses:

PS-101 Introduction to American Government
 PY-101 Introduction to Psychology
 PY-304 Cognitive Psychology
 PY-403 Judgment & Decision Making

MATH CORE

Take three of the following courses:

MA-130 Calculus I
 MA-160 Linear Algebra
 MA-303 Mathematical Modeling
 ESS-309 Econometrics

CAPSTONE

Take one of the following courses:

ESS-400 Senior Capstone I
 ESS-401 Senior Capstone II

POE Credit Total = 61-62

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Environmental Geology (B.S.)**REQUIRED COURSES**

Take the following courses:

ESS-100 Environmental Systems I
 ESS-110 Environmental Systems II
 GL-100A Environmental Geology
 GL-204 History of Earth
 GL-310 Structural Geology
 GL-389 Geology Professional Seminar
 GL-240 Geological Field Methods I
 CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab

Complete one of the following options below:

Option 1:

GL-126 Environmental Geochemistry

Option 2:

CH-145 Integrated Chemistry Principles II Lab
 CH-144 Integrated Chemistry Principles II

SOCIETAL IMPACTS REQUIREMENT

Take two of the following courses:

GL-111 Oceanography
 GL-172 Geology of National Parks
 ESS-337 Environmental Law
 IC-231 Geoarchaeology
 IC-214 Global Climate Change

QUANTITATIVE REQUIREMENT

Take one of the following courses:

BI-305 Biostatistics
 ESS-230 Environmetrics
 MA-130 Calculus I
 MA-220 Introduction to Probability & Statistics

DEPTH REQUIREMENT

Take five of the following courses:

PC-202 Intro Physics I

PC-202L Intro Physics Lab I
 PC-211 Environmental Physics
 PC-211L Environmental Physics Lab
 GL-210 Minerals
 GL-304 Paleobiology of Invertebrates
 GL-305 Hydrogeology
 ESS-301 Environmental Methods
 ESS-310 Water Resources I
 ESS-324 Natural Resource Management
 ESS-330 Geographical Information Systems
 GL-401 Sedimentology
 GL-405 Principles of Stratigraphy
 GL-450 Geological Research

CAPSTONE EXPERIENCE

Take one of the following courses:

GL-405 Principles of Stratigraphy
 GL-440 Geological Field Methods II
 GL-450 Geological Research

POE Credit Total = 48-58

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Environmental Science (B.S.)

ENVIRONMENTAL SCIENCE CORE

Take the following courses:

ESS-100 Environmental Systems I
 ESS-110 Environmental Systems II
 ESS-310 Water Resources I

Take one of the following courses:

ESS-301 Environmental Methods
 ESS-410 Water Resources II

Take one of the following courses:

ESS-325 Conservation Biology
 ESS-324 Natural Resource Management
 ESS-445 Fishery Science & Management

CHEMISTRY REQUIREMENT

Take the following courses: (Two semesters of Chemistry with lab (8 credits) are required)

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab

BIOLOGY REQUIREMENT

Complete one of the following options below:

Option 1:

BI-101 General Biology I
 BI-300 General Ecology
 BI-301 General Ecology Lab

Option 2:

BI-101 General Biology I
 BI-325 Plant Ecology
 BI-326 Plant Ecology Lab

MATH - STATISTICS

Take the following course:

ESS-230 Environmetrics

Take one of the following courses:

BI-305 Biostatistics
 ESS-335 Quantitative Ecology
 MA-130 Calculus I
 MA-205 Elementary Statistics

ADVANCED ELECTIVES

Complete at least 16 credits from the following courses. NOTE: Some 200-level courses may be taken with advisor approval.

ESS-301 Environmental Methods
 ESS-305 Environmental Economics
 ESS-324 Natural Resource Management
 ESS-325 Conservation Biology
 ESS-328 Limnology
 ESS-330 Geographical Information Systems
 ESS-337 Environmental Law
 ESS-340 Forestry
 ESS-345 Ichthyology
 ESS-346 Freshwater Invertebrates
 ESS-361 Field Methods in Marine Systems
 ESS-362 Island Ecosystems
 ESS-363 Upland Process and Estuaries
 ESS-364 Culture, Class and Gender
 ESS-377 GIS Advanced Topic
 ESS-380 Sense of Place Seminar
 ESS-410 Water Resources II
 ESS-445 Fishery Science & Management
 BI-305 Biostatistics
 BI-324 Ornithology
 BI-327 Botany
 BI-350 Invertebrate Zoology
 BI-351 Invertebrate Zoology Lab
 BI-360 Vertebrate Zoology
 BI-361 Vertebrate Zoology Lab

BI-370 Herpetology
BI-432 Environmental Toxicology

CAPSTONE

Take one of the following courses:

ESS-400 Senior Capstone I
ESS-401 Senior Capstone II

POE Credit Total = 58-59

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Environmental Studies (B.S.)

ENVIRONMENTAL STUDIES CORE

Take the following courses:

ESS-100 Environmental Systems I
ESS-110 Environmental Systems II
ESS-206 Global Environmental Issues
ESS-224 Wildlife Mgmt
ESS-305 Environmental Economics
ESS-324 Natural Resource Management
ESS-337 Environmental Law

OTHER SCIENCE PREREQUISITES

Take one of the following courses:

BI-101 General Biology I
GL-100A Environmental Geology

ENVIRONMENTAL ANALYSIS

Take the following courses:

ESS-230 Environmetrics
ESS-310 Water Resources I
ESS-330 Geographical Information Systems

COURSES FROM ALLIED FIELD

Students must take one introductory course from two different allied fields: two elective courses in a focal area or concentration. NOTE: Allied fields include PACS, Politics, History, Business, Economics, Sociology, Gender Studies, IS, Psychology, or a language.

CAPSTONE

Take one of the following courses:

ESS-400 Senior Capstone I
ESS-401 Senior Capstone II

**Environmental Studies Students are strongly advised to take a Secondary Emphasis in an allied field.

The ESS Department also offers resident programs at the Raystown Field Station and a Marine Science Program in India. Courses taken in these programs as well as other programs may substitute directly into your POE. Students interested in these programs should work with their advisors to plan accordingly.

POE Credit Total = 46-48

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Exercise Science and Kinesiology (B.S.)

Requirements to be determined.

Finance (B.S.)

FINANCE CORE

Take the following courses:

EB-100 Introduction to Management
EB-105 International Economic Issues
EB-131 Financial Accounting
EB-202 Behavioral Analysis of Organizations
EB-232 Intermediate Accounting I
EB-233 Intermediate Accounting II
EB-236 Managerial Accounting
EB-211 Business Statistics
EB-222 Principles of Macroeconomics
EB-223 Principles of Microeconomics
EB-342 Management Information Systems
EB-351 Marketing Management
EB-361 Financial Management I
EB-362 Financial Management II

Take one of the following courses:

EB-463 Financial Markets & Institutions
EB-465 Financial Theory and Analysis

Take one of the following courses:

EB-210 Quantitative Business Analysis
MA-130 Calculus I

The option of Junior Year or Semester Abroad is encouraged. Foreign exchange partner institutions are likely to offer equivalent courses for EB-222, EB-223, EB-351, EB-361, and EB-362.

Internships are also available:

EB-001 Non-Credit Business Internship
 EB-490 Business Internship
 EB-495 Business Internship Seminar

CAPSTONE

Take the following course:

EB-480 Senior Seminar

POE Credit Total = 58-59

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Fisheries and Aquatic Sciences (B.S.)

CORE COURSES

Take the following courses:

ESS-100 Environmental Systems I
 ESS-110 Environmental Systems II
 BI-101 General Biology I
 CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 ESS-230 Environmetrics
 ESS-310 Water Resources I
 ESS-330 Geographical Information Systems
 ESS-337 Environmental Law
 ESS-345 Ichthyology
 ESS-445 Fishery Science & Management

FISHERIES AND AQUATIC SCIENCE

Take one of the following courses:

ESS-328 Limnology
 ESS-346 Freshwater Invertebrates

ADDITIONAL BIOLOGICAL SCIENCE

Take 4 credits from the following courses:

BI-102 General Biology II
 BI-300 General Ecology
 BI-301 General Ecology Lab
 BI-321 Ecological Genetics
 BI-360 Vertebrate Zoology
 BI-361 Vertebrate Zoology Lab
 BI-432 Environmental Toxicology
 ESS-325 Conservation Biology

PHYSICAL SCIENCES

Take 8 credits from the following courses:

GL-100A Environmental Geology
 GL-126 Environmental Geochemistry
 GL-305 Hydrogeology

ESS-410 Water Resources II
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab
 PC-200 General Physics I
 PC-200L General Physics Lab I

MATH AND STATISTICS

Take 3 credits from the following courses:

ESS-335 Quantitative Ecology
 BI-305 Biostatistics
 MA-130 Calculus I
 MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics

HUMAN DIMENSIONS AND POLICY

Take 3 credits from the following courses:

ESS-206 Global Environmental Issues
 ESS-305 Environmental Economics
 ESS-324 Natural Resource Management
 ESS-380 Sense of Place Seminar
 CONN-202 Science and Society

CAPSTONE

Take one of the following courses:

ESS-400 Senior Capstone I
 ESS-401 Senior Capstone II

POE Credit Total = 61

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

French (B.A.)

The French designated program of emphasis builds proficiency in the French language and provides a general knowledge of French and Francophone cultures. It also allows students to focus on a specific area of French literature or civilization. The program prepares students for graduate work in French or related fields, as well as a variety of international professions.

Requirements:

- A minimum of one semester of study in France or a French-speaking country or region.
- A minimum of 45 credit hours in French. Of these 45 hours, no more than 14 may be beginning or intermediate language courses (i.e. courses numbered below FR 230).

- After returning from the semester or year abroad, students will take at least one 300 or 400 level course in the target language.
- Prior to the second semester of the student's senior year, she/he must demonstrate at least intermediate-high oral proficiency in French on the ACTFL scale.

FRENCH CORE

Take the following courses:

FR-110 French I
 FR-120 French II
 FR-210 French III
 FR-230 Conversation
 FR-260 French Civilization and Culture
 FR-270 Francophone Civilization and Culture II
 FR-331 The Craft of Translation
 WL-201 Language in Motion

UPPER-LEVEL CORE

Take 18 credits of French or Francophone Studies at the 300 level or above.

STUDY ABROAD

Take a minimum of one semester of study abroad in France or a French speaking country or region.

ELECTIVES

Take 2 courses outside the French program that focus on European history or topics of French/Francophone concern. NOTE: Course exceptions must be approved.

HS-104 Medieval Europe
 IS-104 Ideas & Power in the Modern World
 PS-241 European Politics

CAPSTONE

Take one of the following courses:

FR-326 French Cinema
 FR-331 The Craft of Translation
 FR-345 Women in French Culture
 FR-399 Special Topics
 FR-499 Special Topics

POE Credit Total = 45

French Education (B.A.)

FRENCH CORE

Take 15 credits beyond the 210 level.

FRENCH UPPER-LEVEL CORE

Take 18 French credits at the 300 or 400 level.

STUDY ABROAD

Complete one year study abroad in a French speaking country.

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
 ED-111 Foundations of Education Field Experience
 ED-130 Adolescent Development
 ED-240 Introduction to Students With Exceptionalities
 ED-314 English Language Learners
 ED-341 Adaptations for Students With Exceptionalities
 ED-398 Methods for Foreign Language Education
 ED-419 Pre-Student Teaching Field Experience

CAPSTONE

Take the following courses:

ED-450 Student Teaching
 ED-451 Student Teaching Seminar

** ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisors' approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have advisor who is a member of the World Language Department faculty and Dr. Kathleen Jones in the Education Department.

Other POE Requirements: e.g internships, study abroad, certifications, etc.

- One academic year of study abroad in a French speaking country

- Students must enroll in FR 450, Research Project in French for 3 credit hours in the fall semester after returning from study abroad
- Prior to the second semester of the senior year, the student will demonstrate advanced low oral proficiency in French as measured by an ACTFL Oral Proficiency Interview (American Council on the Teaching of Foreign Languages)
- GPA of 3.0 for certification program and student teaching
- Grade of C or higher in all courses required for certification
- Satisfactory rating in all practica
- Passing scores on all required PRAXIS exams

POE Credit Total = 69

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

General Science (B.S.)

BIOLOGY CORE

Take the following courses:

BI-101 General Biology I
BI-300 General Ecology

CHEMISTRY CORE

Take the following courses:

CH-142 Integrated Chemistry Principles I
CH-143 Integrated Chem Principles I Lab
CH-144 Integrated Chemistry Principles II
CH-145 Integrated Chemistry Principles II Lab

ENVIRONMENTAL SCIENCE - GEOLOGY

Take the following courses:

ESS-100 Environmental Systems I
ESS-110 Environmental Systems II
GL-100A Environmental Geology
ESS-310 Water Resources I
ESS-261 Marine Biology I

MATHEMATICS CORE

Take one of the following courses:

MA-103 Quantitative Methods
ESS-230 Environmetrics
BI-305 Biostatistics

PHYSICS CORE

Take the following courses:

PC-120 Astronomy
PC-200 General Physics I
PC-200L General Physics Lab I

ADDITIONAL COURSES

Take four courses from the BI - Biology, CH - Chemistry, PC - Physics or ESS - Environmental Science/Studies departments at the 200, 300 or 400 level. NOTE: At least two courses must be at the 300/400 level.

CAPSTONE

Take the following course:

ND-498 Natural Sciences Capstone

POE Credit Total = 54-55

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Geology (B.S.)

GEOLOGY CORE COURSES

Take the following courses:

GL-100A Environmental Geology
GL-204 History of Earth
GL-210 Minerals
GL-300 Petrography
GL-310 Structural Geology
GL-389 Geology Professional Seminar
GL-240 Geological Field Methods I
MA-130 Calculus I

CHEMISTRY REQUIREMENT

Complete one of the following options below:

Option 1:

GL-126 Environmental Geochemistry
CH-142 Integrated Chemistry Principles I
CH-143 Integrated Chem Principles I Lab

Option 2:

CH-142 Integrated Chemistry Principles I
CH-143 Integrated Chem Principles I Lab
CH-144 Integrated Chemistry Principles II
CH-145 Integrated Chemistry Principles II Lab

ADVANCED ELECTIVES

Take 12 credits from the following courses: (Students cannot count more than 6 credits of GL-450 towards the Geology POE)

GL-305 Hydrogeology
 GL-304 Paleobiology of Invertebrates
 GL-307 Geophysics
 GL-401 Sedimentology
 GL-405 Principles of Stratigraphy
 GL-450 Geological Research
 MA-230 Calculus II
 PC-211 Environmental Physics
 PC-211L Environmental Physics Lab
 PC-200 General Physics I
 PC-200L General Physics Lab I
 PC-201 General Physics II
 PC-201L General Physics Lab II
 BI-305 Biostatistics
 MA-220 Introduction to Probability & Statistics

CAPSTONE

Students must complete GL-405, GL-440 or GL-450 as a capstone experience. Completion of a second capstone course may be applied towards the Advanced Electives requirement.

GL-405 Principles of Stratigraphy
 GL-450 Geological Research
 GL-440 Geological Field Methods II

NOTE: Students with Geology POEs must include at least 21 credit hours at the 300/400 level from the lists above. Curricular substitutions: PC 202/PC 203 may substitute for PC 200/PC 201

POE Credit Total = 49-50

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Health Communication (B.A.)

COMMUNICATION CORE

Take the following courses:

CM-130 Introduction to Human Communication
 CM-132 Message Analysis
 CM-133 Mass Media and Society
 CM-200 Art of Public Speaking
 CM-220 Group Communication
 CM-230 Interpersonal Communication
 CM-340 Intercultural Communication
 CM-365 Organizational Communication
 CM-400A Health Communication

BIOLOGY CORE

Take one of the following courses:

BI-190 Human Biology
 BI-290 Nutrition

INTERDISCIPLINARY CORE

Take the following courses:

BI-270 Infectious Disease & Society
 PL-235 Ethics of Health Care
 PY-101 Introduction to Psychology
 PY-321 Health Psychology

Take one of the following courses:

EN-306 Creative Nonfiction Writing
 EN-311 Professional News and Feature Writing
 EN-274 Beyond Grey's Anatomy

Take one of the following courses:

EN-315 Technical Writing
 EN-271 Public Health Writing

Take one of the following courses:

SO-101 Introduction to Sociology
 AN-151 Introduction to Anthropology

CAPSTONE

Complete one of the following options below:

Option 1:

CM-490 Communication Internship
 CM-495 Communication Internship Research

Option 2:

CM-497 Senior Thesis Seminar
 CM-498 Senior Thesis Research

Recommended Non-POE Courses:

BI-305 Biostatistics
 CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab

Study Abroad with courses that will strengthen your professional interests in such areas as Biology, Chemistry, Computer Science, Business and Economics, Sociology/Social Work, Peace and Conflict Studies, Political Science, Psychology, and /or Philosophy.

All students with this POE must choose an advisor from the Communication Department.

Most graduate assistants in this field require a 3.3 or higher GPA and GRE scores of at least 500 in each subcategory to be competitive for assistantships.

POE Credit Total = 63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Healthcare Administration (B.S.)

HEALTHCARE ADMINISTRATION CORE

Take the following courses:

- EB-131 Financial Accounting
- EB-100 Introduction to Management
- EB-202 Behavioral Analysis of Organizations
- EB-211 Business Statistics
- EB-223 Principles of Microeconomics
- EB-236 Managerial Accounting
- EB-325 Health Economics
- EB-351 Marketing Management
- EB-363 Health Care Financial Management
- EB-480 Senior Seminar
- EB-490 Business Internship
- EB-495 Business Internship Seminar
- PL-235 Ethics of Health Care
- PY-101 Introduction to Psychology
- BI-190 Human Biology

Take one of the following courses:

- EB-203 Introduction to Business Law
- EB-204 Legal Regulation of Business

Take one of the following courses:

- PY-321 Health Psychology
- PY-411 Psychology and the Law

Take two of the following courses:

- BI-270 Infectious Disease & Society
- HS-313 Disease, Medicine & Empire
- HS-314 Medieval Medicine
- RU-299 Special Topics
- PL-250 Science and Human Values
- PY-302 Moral Judgment

CAPSTONE

Take the following course:

- ND-498 Natural Sciences Capstone

POE Credit Total = 57

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

History (B.A.)

HISTORY CORE

Take five (4.00 credit) History courses at the 100-200 level:

- HS-104 Medieval Europe
- HS-109 China and Japan to 1800
- HS-115 United States to 1877
- HS-116 The U.S. Since 1877
- HS-152 World Civilizations From 1500
- HS-199 Special Topics
- HS-200 The Great War
- HS-201 Samurai Legends & Lives
- HS-204 Australia/New Zealand
- HS-213 History of Ireland
- HS-215 Rome: Republic to Empire
- HS-217 The Lowcountry and the Gullah Culture
- HS-221 Gender and Sexuality
- HS-262 North American Environmental History
- HS-266 History of South Africa
- HS-268 Sword & Scimitar: Islam & West 500-1300
- HS-272 Natives & Colonists in Early N. America
- HS-277 History of Food
- HS-280 Victorian Science, Sexuality & Medicine

HISTORY COLLOQUIUM

Take the following course:

- HS-293 Sophomore Colloquium

UPPER-LEVEL HISTORY ELECTIVES

Take five (4.00 credit) History courses at the 300-400 level:

- HS-305 The American Revolution
- HS-306 People's Republic of China
- HS-309 Civil War and Reconstruction
- HS-312 The New South: 1877-1990
- HS-313 Disease, Medicine & Empire
- HS-314 Medieval Medicine
- HS-316 WWII in Asia and Pacific
- HS-320 Interpreting Terrorism
- HS-322 Women's Lives-Medieval Europe
- HS-324 Gendering the Raj
- HS-325 The U.S. Since 1945
- HS-326 Modern China
- HS-327 Modern Japan
- HS-367 Women in Africa

HS-399 Special Topics
 HS-400 Crimes Against Humanity
 HS-490 History Internship
 HS-495 Senior History Research/Seminar
 HS-496 Senior History Research/Seminar II
 HS-499 Special Topics

CAPSTONE

Take the following courses:

HS-492 Sr History Research/Seminar I
 HS-493 The Historian's Craft

NOTE: Three courses in your POE must cover topics that are based outside the US and Europe. IC 202: The Shaping of the American Mind may be listed as part of the designated history POE: Other courses may be considered by petition to the history department.

At least 3 of the above courses must address history of a region that is neither Europe nor the United States. See the department for a complete list of courses that fulfill the non-western requirement. At least 2 of your history courses must be writing based, with one at the 300 level or above.

Because the History & Art History Department believes that all seniors should participate in a capstone experience, students who have history as part of their POEs should plan to participate either in HS 493, the history department's senior seminar, or in a similar experience in another department. Each student should consult his or her History Department advisor regarding what activities will fulfill this requirement.

POE Credit Total = 48-51

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

History & Museum Studies (B.A.)

HISTORY CORE

Take the following courses:

HS-115 United States to 1877
 HS-116 The U.S. Since 1877
 HS-293 Sophomore Colloquium
 HS-495 Senior History Research/Seminar

HISTORY ELECTIVES

Take two 300/400 level History electives.

MUSEUM STUDIES CORE

Take the following courses:

AH-108 Cross Cultural Art 1
 MM-390 Museum Studies
 MM-392 Museum Education
 MM-394 Curatorial Studies
 MM-480 Museum Practicum I
 MM-481 Museum Practicum II

ASSOCIATED COURSES

Take the following courses:

AR-104 Design and Color
 EN-272 Introduction to Professional Writing

INTERNSHIP

Complete one of the following options below:

Option 1:

Take AH-490 and AH-495 for 1-5 credits.

HS-490 History Internship
 HS-495 Senior History Research/Seminar

Option 2:

Take HS-001 as a non-credit transcript notation.
 NOTE: A second internship is strongly recommended.

HS-001 Non-Credit History Internship

CAPSTONE

Take the following courses:

HS-492 Sr History Research/Seminar I
 HS-493 The Historian's Craft

POE Credit Total = 51-56

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Human Resource Management (B.S.)

HUMAN RESOURCE MANAGEMENT CORE

Take the following courses:

EB-100 Introduction to Management
 EB-105 International Economic Issues
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations
 EB-204 Legal Regulation of Business
 EB-211 Business Statistics
 EB-223 Principles of Microeconomics
 EB-236 Managerial Accounting
 EB-341 Product and Operations Management

EB-351 Marketing Management
 EB-361 Financial Management I
 EB-371 Human Resource Management.
 EB-379 Bargaining and Conflict Management
 EB-480 Senior Seminar

Take one of the following courses:

EB-210 Quantitative Business Analysis
 MA-130 Calculus I

ADDITIONAL COURSES

Take 9 credits from one of the three categories listed below:

PSYCHOLOGY:

PY-101 Introduction to Psychology
 PY-205 Social Psychology
 PY-303 Learning & Conditioning
 PY-304 Cognitive Psychology

COMMUNICATION:

CM-130 Introduction to Human Communication
 CM-230 Interpersonal Communication
 CM-340 Intercultural Communication
 CM-405A Women, Work & Identity

PEACE & CONFLICT STUDIES:

PACS-105 Introduction to Conflict Resolution
 PACS-205 Conflict Intervention
 PACS-305 Gender and Conflict

CAPSTONE

Take the following course:

EB-480 Senior Seminar

NOTE: The option of Junior Year or Semester Abroad is encouraged. Foreign exchange partner institutions are likely to offer equivalent courses for EB-223, EB-341, EB-351, EB-361, and EB-371. Internships are also available.

EB-001 Non-Credit Business Internship
 EB-490 Business Internship
 EB-495 Business Internship Seminar

POE Credit Total = 60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Information Technology (B.S.)

INFORMATION TECHNOLOGY CORE I

Take one of the following courses:

IT-110 Principles of Information Technology
 IT-111 Principles of IT Science

Take the following courses:

MA-116 Discrete Structures
 CS-110 Computer Science I
 IT-210 Information Technology Systems
 CS-240 Computer Science II
 CS-300 Software Engineering
 IT-325 Network Design & Management.
 CS-370 Database Management Systems
 IT-350 Security Engineering
 CM-200 Art of Public Speaking
 EB-202 Behavioral Analysis of Organizations
 IT-380 Innovations for Industry II
 IT-480 Innovations for Industry III

Take one of the following courses:

CM-290 The Metaverse
 IT-290 The Metaverse

Take one of the following courses:

CM-300 Professional Presentations
 EN-315 Technical Writing

BUSINESS CORE

Take 3 credits from the EB - Accounting, Business & Economics Department.

INFORMATION TECHNOLOGY CORE II

Complete one of the following options below:

Option 1:

IT-341 Web Design
 IT-342 Web Programming

Option 2:

IT-260 Human Computer Interaction
 IM-242 Info Visualization
 UPPER-LEVEL IT/CS ELECTIVE

Complete one of the following options below:

Option 1:

ESS-330 Geographical Information Systems

Option 2:

Take an additional 300 or 400 level IT/CS course.

CAPSTONE

Take the following courses:

IT-307 Project Management
 IT-308 Innovations for Industry I

NOTE:

1. The department may approve up to 7 credits of substitute technology related courses
2. The department requires an internship, either for credit or summer non-credit
3. The department recommends pursuing a related secondary emphasis in another discipline, e.g. business

POE Credit Total = 60-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Integrated Media Arts (B.A.)

CORE COURSES

Take the following courses:

IM-100 Integrated Media Art Seminar
 IM-110 Principles of Digital Media
 AR-104 Design and Color
 CM-133 Mass Media and Society
 EN-376 Writing Across Media

Take one of the following courses:

IM-375 Community Design Lab
 IM-376 Business of Design

Take one of the following courses:

CS-110 Computer Science I
 IT-105 Principles of Programming

Take one of the following courses:

AH-108 Cross Cultural Art 1
 AH-113 Cross-Cultural Art 2
 EN-273 Visual Literacy

Take one of the following courses:

CM-290 The Metaverse
 IT-290 The Metaverse

IMA ELECTIVE COURSE SUGGESTIONS

Take 18 credits from the following courses: (3 credits must be at the 300 level or higher)

IM-242 Info Visualization
 IM-250 Digital Audio Production
 IM-295 Design Thinking
 IM-310 Social Media
 IM-360 Digital Video Production
 IM-361 Video Production II
 IM-375 Community Design Lab
 IM-376 Business of Design
 AR-203 Digital Photography I

AR-204 Digital Art I
 AR-211 The Art of Bookmaking
 AR-398 3D Computer Animation
 CM-200 Art of Public Speaking
 CM-220 Group Communication
 EN-273 Visual Literacy
 EN-374 Ethical Game Design
 EN-378 Video Production Writing
 IT-307 Project Management
 IT-341 Web Design

CAPSTONE/EXPERIENTIAL LEARNING

Complete one of the following categories below:

CAPSTONE:

Take the following courses:

IM-496 IMA Seminar
 IM-497 IMA Research

PRACTICUM:

Take the following course:

IM-398 Integrated Media Practicum

INTERNSHIP:

Take the following courses:

IM-490 IM Internship Need Paperwork
 IM-495 Internship Seminar

POE Credit Total = 45-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

International Business (B.S.)

INTERNATIONAL BUSINESS CORE

Take the following courses. (NOTE: Study abroad equivalents may be accepted for EB-351, EB-361 or EB-381):

EB-100 Introduction to Management
 EB-105 International Economic Issues
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations
 EB-211 Business Statistics
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics
 EB-236 Managerial Accounting
 EB-351 Marketing Management
 EB-361 Financial Management I
 EB-381 International Political Economy
 EB-463 Financial Markets & Institutions

Take one of the following courses below:

EB-203 Introduction to Business Law
 EB-204 Legal Regulation of Business
 ADDITIONAL COURSES

Take the following courses:

PS-102 Introduction to International Politics
 (AND)

An additional course from the EB Department at the 300/400 level.

SECOND LANGUAGE/GLOBAL ENGAGEMENT

Complete one of the following requirements below:
 (NOTE: Global Engagement or Second Language courses may be taken while studying abroad)

SECOND LANGUAGE:

Complete 3 foreign language courses (with prefix FR, GR, RU, SP, CN) at the 300 or 400 level.

GLOBAL ENGAGEMENT:

Complete 3 courses with a Global Engagement designation.

STUDY ABROAD

Students are required to spend at least one semester abroad (12-15 credits), but preferably a full academic year.

Students are encouraged to take any of the "immersion" courses offered at our exchange partner institutions.

Study abroad is waived for International Students studying at Juniata.

CAPSTONE

Take the following course:

EB-480 Senior Seminar
 POE Credit Total = 60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

International Politics (B.A.)

INTERNATIONAL POLITICS CORE

Take the following courses:

PS-101 Introduction to American Government
 PS-102 Introduction to International Politics

Take one of the following courses:

PS-221 American Political Thought

PS-222 Western Political Thought
 INTERNATIONAL POLITICS

Complete one of the following options below: (PS-389, PS-199, PS-299 or PS-399 may fulfill requirement depending on specific topic of course.)

Option 1:

Take one of the following courses:

PS-241 European Politics
 PS-243 U.S. Foreign Policy
 PS-291 Mexican Fulbright Special Topics
 PS-298 Gender and Health Care
 PS-334 Human Rights
 PS-335 Law of Nations
 PS-340 Topics in International Politics
 PS-346 African Politics

Option 2:

PS-249 Senegambia I
 PS-250 Senegambia II

Option 3:

PS-235 Migration
 PS-236 Eyewitness to Migration in Mexico

INTERPRETING DATA ELECTIVE

Take one of the following courses:

DS-110 Intro to Data Science
 EB-210 Quantitative Business Analysis
 EB-211 Business Statistics
 ESS-230 Environmetrics
 MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics
 MA-321 Multivariate Statistics
 PY-260 Research Methods & Statistics I
 SW-214 Integrated Research Methods & Stats I

ECONOMICS COURSES

Take two of the following courses:

EB-105 International Economic Issues
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics
 EB-381 International Political Economy
 ESS-305 Environmental Economics

POLITICS ELECTIVE

Take any 3 credits from the Politics Department (any course with a PS prefix). NOTE: Global Climate Change counts as a Politics Department Elective.

*Politics credits taken during your semester abroad can be used to fulfill this requirement but cannot also be used to fulfill your Study Abroad credits.

WORLD LANGUAGE AND CULTURE

Take any 3 credits from the World Language & Cultures Department.

*World Language & Culture credits taken during your semester abroad can be used to fulfill this requirement but cannot also be used to fulfill your Study Abroad credits.

STUDY ABROAD

International Politics students must take 12 credits of coursework during a semester or year-long study abroad experience. These 12 credits cannot count for any other POE requirement.

CAPSTONE

Complete one of the following categories below:

SENIOR SEMINAR:

PS-499 Senior Seminar

HONORS RESEARCH SERIES:

PS-497 Honors Research I

PS-498 Honors Research II

IMPORTANT: The same course cannot be used to satisfy more than one POE requirement.

POE Credit Total = 51

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

International Studies (B.A.)

REQUIRED CORE

Take the following courses:

PACS-105 Introduction to Conflict Resolution
 PACS-110 Introduction to Peace & Conflict Studies
 PS-102 Introduction to International Politics
 HS-320 Interpreting Terrorism
 EB-105 International Economic Issues
 EB-381 International Political Economy

SKILLS & METHODS COURSES

Take 3 credits from the following courses:

CM-310 Understanding Health Inequity
 ESS-100 Environmental Systems I
 ESS-206 Global Environmental Issues
 MA-205 Elementary Statistics

INTERNATIONAL STUDIES ELECTIVE COURSES

Take a minimum of 12 credits from the following courses. At least three departments must be

represented from the list below. At least 8 credits must be at the 300/400 level to reach the 18 credit upper-level POE requirement.

PEACE AND CONFLICT STUDIES COURSES:

PACS-305 Gender and Conflict
 PACS-308 Nonviolence and Social Justice
 PACS-310 Digital Peacebuilding

ACCOUNTING, BUSINESS AND ECONOMICS COURSES:

EB-202 Behavioral Analysis of Organizations
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics

ENVIRONMENTAL SCIENCE AND STUDIES COURSES:

ESS-206 Global Environmental Issues
 ESS-305 Environmental Economics
 ESS-337 Environmental Law

HISTORY COURSES:

HS-200 The Great War
 HS-204 Australia/New Zealand
 HS-213 History of Ireland
 HS-313 Disease, Medicine & Empire
 HS-367 Women in Africa
 HS-400 Crimes Against Humanity

PHILOSOPHY COURSES:

PL-101 Introduction to Philosophy
 PL-105 Introduction to Logic
 PL-310 Contemporary Political Philosophy

POLITICAL SCIENCE COURSES:

PS-222 Western Political Thought
 PS-235 Migration
 PS-236 Eyewitness to Migration in Mexico
 PS-241 European Politics
 PS-249 Senegambia I
 PS-250 Senegambia II
 PS-334 Human Rights
 PS-340 Topics in International Politics

RELIGIOUS STUDIES COURSES:

RL-123 Global Religions Today
 RL-341 Religion and War

WORLD LANGUAGE COURSES:

WL-201 Language in Motion

Take any World Language course above the 100 level.

STUDY ABROAD

Students are strongly recommended to study abroad for at least one semester (12-15 credits).

*Study abroad is waived for International Students. International Students or students opting not to study abroad will have to complete an additional 12 upper-level credits from the courses listed above.

CAPSTONE/INTERNSHIP

Complete one of the following options below (at least 3-4 credits). A capstone in History, Economics or Politics may be substituted in consultation with POE advisor.

Option 1:

PACS-455 PACS Honors Thesis I

Option 2:

PACS-490 Peace & Conflict Studies Internship

PACS-495 PACS Intern.Res.Sem.

POE Credit Total = 40-45

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Legal Studies (B.A.)

LEGAL STUDIES CORE

Take the following courses:

PS-101 Introduction to American Government

PS-110 Exploring the Law

PS-190A Mock Trial

PS-190B Mock Trial

EB-203 Introduction to Business Law

PL-105 Introduction to Logic

LEARNING ABOUT THE LAW

Complete at least 17 credits from the following courses:

EB-105 International Economic Issues

EB-204 Legal Regulation of Business

EB-379 Bargaining and Conflict Management

ESS-337 Environmental Law

EN-272 Introduction to Professional Writing

HS-400 Crimes Against Humanity

PS-102 Introduction to International Politics

PS-155 Lobbying

PS-311 Constitutional Interpretation: Powers of Government

PS-312 Constitutional Interpretation: Civil Rights

PS-313 Congress and Presidency

PS-320 Topics Political Philos & Jurisprudence

PS-334 Human Rights

PS-490 Legal & Public Affairs Internship

PS-495 Politics Internship Seminar

PACS-108 Mediation

CRITICAL THINKING SKILLS FOR LEGAL STUDIES

Complete at least 6 credits from the following courses:

EB-131 Financial Accounting

EB-223 Principles of Microeconomics

EN-236 Dirty Books

EN-392 Crossing the Border

EN-302 The Literature of Social Protest

PL-106 Introduction to Ethics

PL-205 Ancient Philosophy

PL-310 Contemporary Political Philosophy

PY-101 Introduction to Psychology

PY-203 Abnormal Psychology

PY-302 Moral Judgment

PS-222 Western Political Thought

RL-265 U.S. Religious Diversity

SO-260 Introduction to Criminal Justice

SO-302 Social Deviance and Criminology

INSIDE OUT COURSE

(Recommended, but not required) Take one Inside Out course that brings together campus-based students with incarcerated students and meets at the state correctional institution.

CAPSTONE

Complete one of the following Capstone Experiences (must include a thesis related to Legal Studies).

PS-497 Honors Research I

PS-498 Honors Research II

PS-499 Senior Seminar

HS-492 Sr History Research/Seminar I

POE Credit Total = 42-48

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Management (B.S.)

MANAGEMENT CORE

Take the following courses:

EB-100 Introduction to Management

EB-105 International Economic Issues

EB-131 Financial Accounting

EB-202 Behavioral Analysis of Organizations

EB-211 Business Statistics

EB-236 Managerial Accounting

EB-341 Product and Operations Management

EB-351 Marketing Management
 EB-361 Financial Management I
 EB-371 Human Resource Management.

Take one of the following courses:

EB-210 Quantitative Business Analysis
 MA-130 Calculus I

Take one of the following courses:

EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics

ADDITIONAL COURSES

Take 11 credits from the EB department at the 200/300/400/500 level or Study Abroad one semester (individualized POE):

EB-203 Introduction to Business Law
 EB-204 Legal Regulation of Business
 EB-207 New Venture Creation
 EB-307 New Venture Start-Ups
 EB-337 Cost Accounting
 EB-342 Management Information Systems
 EB-355 Marketing Strategies
 EB-359 Advertising & Promo Mgmt
 EB-362 Financial Management II
 EB-379 Bargaining and Conflict Management
 EB-381 International Political Economy
 EB-407 Entrepreneurship
 EB-463 Financial Markets & Institutions
 EB-222 Principles of Macroeconomics (If not taken above)
 EB-223 Principles of Microeconomics (If not taken above)
 EB-399 Special Topics
 EB-499 Special Topics

CAPSTONE

Take the following course:

EB-480 Senior Seminar

Internships also available:

EB-001 Non-Credit Business Internship
 EB-490 Business Internship
 EB-495 Business Internship Seminar

POE Credit Total = 44

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Marketing (B.S.)

MARKETING CORE

Take the following courses:

EB-100 Introduction to Management
 EB-105 International Economic Issues
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations
 EB-211 Business Statistics
 EB-223 Principles of Microeconomics
 EB-236 Managerial Accounting
 EB-341 Product and Operations Management
 EB-351 Marketing Management
 EB-355 Marketing Strategies
 EB-358 Marketing Research and Analytics
 EB-361 Financial Management I
 EB-371 Human Resource Management.
 CM-132 Message Analysis
 CM-330 Media Analysis

Take one of the following courses:

EB-210 Quantitative Business Analysis
 MA-130 Calculus I

Take the following course:

EB-359 Advertising & Promo Mgmt

The option of Semester Abroad is encouraged.

Foreign exchange partner institutions are likely to offer equivalent courses for EB-222, EB-223, EB-351, EB-355, EB-341, EB-361, or EB-371.

CAPSTONE

Take the following course:

EB-480 Senior Seminar

Internships are also available:

EB-001 Non-Credit Business Internship
 EB-490 Business Internship
 EB-495 Business Internship Seminar

POE Credit Total = 59-60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Mathematics (B.S.)

MATHEMATICS CORE

Take one of the following courses:

MA-116 Discrete Structures
 CS-116 Discrete Structures

Take the following courses:

MA-130 Calculus I
 MA-160 Linear Algebra
 MA-210 Foundations of Mathematics
 MA-230 Calculus II

MA-235 Calculus III
 CS-110 Computer Science I
 MA-480 Mathematics Seminar I

Take one of the following courses:

MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics

ADDITIONAL COURSES

APPLIED MATHEMATICS:

Take one of the following courses:

MA-303 Mathematical Modeling
 MA-321 Multivariate Statistics
 MA-322 Probability
 MA-325 Statistical Consulting
 MA-335 Differential Equations
 MA-341 Scientific Computing

THEORETICAL MATHEMATICS:

Take one of the following courses:

MA-316 Combinatorics
 MA-350 Topics in Geometry
 MA-360 Abstract Algebra
 MA-365 Number Theory
 MA-370 Real Analysis
 MA-375 Complex Analysis

Take six credits from the following courses:

MA-303 Mathematical Modeling
 MA-321 Multivariate Statistics
 MA-325 Statistical Consulting
 MA-335 Differential Equations
 MA-340 Numerical Analysis
 MA-316 Combinatorics
 MA-322 Probability
 MA-350 Topics in Geometry
 MA-355 Nature of Mathematics
 MA-360 Abstract Algebra
 MA-365 Number Theory
 MA-370 Real Analysis
 MA-375 Complex Analysis
 MA-399 Special Topics
 MA-485 Mathematics Research

COURSES FROM OTHER DEPARTMENTS

Take an additional six credits from the Mathematics, Computer Science, ABE or Physics departments.

MATHEMATICS:

MA-303 Mathematical Modeling
 MA-321 Multivariate Statistics

MA-325 Statistical Consulting
 MA-335 Differential Equations
 MA-340 Numerical Analysis
 MA-316 Combinatorics
 MA-322 Probability
 MA-350 Topics in Geometry
 MA-355 Nature of Mathematics
 MA-360 Abstract Algebra
 MA-365 Number Theory
 MA-370 Real Analysis
 MA-375 Complex Analysis
 MA-399 Special Topics
 MA-485 Mathematics Research

COMPUTER SCIENCE:

CS-300 Software Engineering
 CS-315 Algorithms and Analysis
 CS-330 Computer Graphics
 CS-362 Languages and Translation
 CS-370 Database Management Systems
 CS-399 Special Topics
 DS-352 Machine Learning

ACCOUNTING, BUSINESS AND ECONOMICS:

EB-320 Intermediate Microeconomics
 EB-321 Intermediate Macroeconomics
 EB-341 Product and Operations Management
 EB-463 Financial Markets & Institutions
 EB-465 Financial Theory and Analysis

PHYSICS:

PC-301 Theoretical Modern Physics
 PC-320 Engineering Mechanics I: Statics
 PC-321 Engineering Mechanics II: Dynamics
 PC-340 Mathematical Methods in Physics
 PC-350 Thermodynamics
 PC-402 Quantum Mechanics
 PC-410 Mechanics
 PC-491 Electricity & Magnetism
 PC-430 Optics

CAPSTONE

Take one of the following courses:

MA-480 Mathematics Seminar I
 MA-485 Mathematics Research

POE Credit Total = 48

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Mathematics and Secondary Education (B.S.)

MATHEMATICS CORE

Take the following courses:

MA-130 Calculus I
MA-160 Linear Algebra
MA-210 Foundations of Mathematics
MA-230 Calculus II
MA-235 Calculus III
MA-303 Mathematical Modeling
MA-350 Topics in Geometry
MA-355 Nature of Mathematics
MA-360 Abstract Algebra

Take one of the following courses:

MA-205 Elementary Statistics
MA-220 Introduction to Probability & Statistics

UPPER-LEVEL CORE

Take 8 credits at the 300 or 400 level from the MA - Mathematics Department (excludes MA-303, MA-350, MA-355, MA-360 and MA-480).

MATH RELATED COURSES

Take one of the following courses:

MA-116 Discrete Structures
CS-116 Discrete Structures

Take the following course:

CS-110 Computer Science I

ADDITIONAL COURSES

Take 2-5 additional credits from the DS - Data Science, CS - Computer Science or PC - Physics departments. (Also includes MA-208, PL-208, IT-105 and PL-105)

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
ED-111 Foundations of Education Field Experience
ED-130 Adolescent Development
ED-240 Introduction to Students With Exceptionalities
ED-314 English Language Learners
ED-341 Adaptations for Students With Exceptionalities
ED-419 Pre-Student Teaching Field Experience
ED-420 General Secondary Methods

ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

ED-450 Student Teaching
ED-451 Student Teaching Seminar

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & ED 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisors' approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students must meet a minimum GPA requirement and pass the PRAXIS I and II exams. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have advisor who is a member of the Mathematics Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 84-87

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Media Studies and Production (B.A.)

CORE COURSES

Take the following courses:

CM-130 Introduction to Human Communication
CM-132 Message Analysis
CM-133 Mass Media and Society
CM-200 Art of Public Speaking
CM-401 Senior Seminar

SKILLS & METHODS COURSES

Take 9 credits from the following courses:

CM-220 Group Communication
CM-230 Interpersonal Communication
CM-261 CM Studies in Germany I

CM-262 CM Studies in Germany II
 CM-300 Professional Presentations
 CM-289 Communication Practicum
 IM-250 Digital Audio Production
 IM-360 Digital Video Production
 IM-361 Video Production II

Take the following course:

CM-330 Media Analysis

SEMINAR COURSES

Take 12 credits from the following courses:

CM-245 Photojournalism: the Ethics of Seeing
 CM-290 The Metaverse
 CM-399 Special Topics
 CM-420A Hollywood Films
 CM-420B Media Violence
 CM-420D Truth and Lying
 CM-420E Digital Storytelling

ELECTIVE COURSES

Take 12 credits from the following courses:

PS-205 Politics in Film
 EN-307 Mythology in Film
 ESS-119 Environmental Film
 ESS-121 Environmental Film Lab
 RU-203 East European Film
 ESS-118 Global Justice Film
 FR-326 French Cinema
 EN-299 Special Topics
 EN-311 Professional News and Feature Writing
 EN-237 Constructing Identities
 EN-273 Visual Literacy
 EN-374 Ethical Game Design
 EN-376 Writing Across Media
 EN-378 Video Production Writing
 IM-110 Principles of Digital Media
 IM-310 Social Media
 AR-104 Design and Color
 AR-204 Digital Art I

CAPSTONE

Complete 3 credits from one of the following options below:

Option 1:

CM-490 Communication Internship
 CM-495 Communication Internship Research

Option 2:

CM-497 Senior Thesis Seminar

CM-498 Senior Thesis Research

POE Credit Total = 55

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Peace and Conflict Studies (B.A.)

PACS CORE

Take 24 credits from the following courses:

PACS-105 Introduction to Conflict Resolution
 PACS-108 Mediation
 PACS-110 Introduction to Peace & Conflict Studies
 PACS-299 Special Topics
 PACS-305 Gender and Conflict
 PACS-308 Nonviolence and Social Justice
 PACS-310 Digital Peacebuilding
 PACS-391 Scholar in Residence Special Topic
 PACS-399 Special Topics
 PACS-499 Special Topics

SKILLS/METHODS CORE

Take at least 3 credits from the following courses:

CM-310 Understanding Health Inequity
 ESS-100 Environmental Systems I
 ESS-206 Global Environmental Issues
 MA-205 Elementary Statistics

PEACE AND CONFLICT AFFILIATED COURSES

Take at least 17 credits from the following courses:

COMMUNICATION COURSES:

CM-230 Interpersonal Communication
 CM-365 Organizational Communication
 CM-420E Digital Storytelling
 CM-405A Women, Work & Identity
 CM-420B Media Violence

ACCOUNTING, BUSINESS AND ECONOMICS:

EB-202 Behavioral Analysis of Organizations
 EB-223 Principles of Microeconomics
 EB-222 Principles of Macroeconomics

ENVIRONMENTAL SCIENCE AND STUDIES COURSES:

ESS-305 Environmental Economics
 ESS-300 Environmental Problem Solving
 ESS-330 Geographical Information Systems
 ESS-337 Environmental Law

HISTORY COURSES:

HS-200 The Great War
 HS-204 Australia/New Zealand
 HS-213 History of Ireland
 HS-309 Civil War and Reconstruction
 HS-313 Disease, Medicine & Empire
 HS-367 Women in Africa
 HS-400 Crimes Against Humanity

POLITICS COURSES:

PS-222 Western Political Thought
 PS-235 Migration
 PS-236 Eyewitness to Migration in Mexico
 PS-318 Parties, Elections & Campaigns
 PS-334 Human Rights
 PS-340 Topics in International Politics

INTERDISCIPLINARY COURSES:

CONN-202 Science and Society
 EN-251 Slave Narratives
 EN-392 Crossing the Border
 PC-239 Nuclear Threat
 PL-265 Environmental Ethics
 PL-101 Introduction to Philosophy
 PL-105 Introduction to Logic
 PY-205 Social Psychology
 PY-312 Cultural Psychology
 RL-341 Religion and War
 SP-275 Art and Activism in Latin America
 SP-375 Art and Activism in Latin America
 SP-301 Voice for Voiceless-LA Testimonial Narr

CAPSTONE/INTERNSHIP

Complete one of the following options below (at least 3-4 credits). A capstone in History, Economics or Politics may be substituted in consultation with POE advisor.

Option 1:

PACS-455 PACS Honors Thesis I

Option 2:

PACS-495 PACS Intern.Res.Sem.
 PACS-490 Peace & Conflict Studies Internship

POE Credit Total = 45-60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Peace and Criminal Justice Studies (B.S.)

PEACE AND CRIMINAL JUSTICE STUDIES CORE

Take at least 24 credits from the following courses:

SO-101 Introduction to Sociology
 PACS-105 Introduction to Conflict Resolution
 PACS-108 Mediation
 PACS-110 Introduction to Peace & Conflict Studies
 SO-203 Minority Experiences
 SO-260 Introduction to Criminal Justice
 SO-302 Social Deviance and Criminology
 PACS-308 Nonviolence and Social Justice

SKILLS/METHODS COURSES

Take at least 3 credits from the following courses:

CM-310 Understanding Health Inequity
 SW-214 Integrated Research Methods & Stats I
 SW-215 Integrated Research Methods & Stats II
 SW-231 Social Problems & Social Welfare

AFFILIATED COURSES

Take 15-16 credits from the designated subject areas below. (Upper level courses, including those above, must total at least 18 credits):

SOCIOLOGY/SOCIAL WORK COURSES:

SW-230 Introduction to Social Work Practice
 SW-332 Social Work Practice: Large Groups, Organizations and Communities
 SW-333 Social Welfare Policies and Services
 SO-244 Drugs and Society
 SO-299 Special Topics
 SO-362 Juvenile Justice
 SO-399 Special Topics
 SO-499 Special Topics
 PACS-299 Special Topics
 PACS-399 Special Topics
 PACS-499 Special Topics

COMMUNICATION COURSES:

CM-230 Interpersonal Communication
 CM-365 Organizational Communication
 CM-420B Media Violence

ACCOUNTING, BUSINESS AND ECONOMICS COURSES:

EB-202 Behavioral Analysis of Organizations
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics

HISTORY COURSES:

HS-200 The Great War
 HS-309 Civil War and Reconstruction
 HS-313 Disease, Medicine & Empire
 HS-400 Crimes Against Humanity

POLITICS COURSES:

PS-101 Introduction to American Government
 PS-334 Human Rights

INTERDISCIPLINARY COURSES:

CONN-202 Science and Society
 EN-251 Slave Narratives
 EN-392 Crossing the Border
 PC-239 Nuclear Threat
 PL-101 Introduction to Philosophy
 PY-205 Social Psychology
 PY-312 Cultural Psychology
 SP-301 Voice for Voiceless-LA Testimonial Narr

CAPSTONE/INTERNSHIP

Take at least 6 credits from the following courses:

SO-401 Sociology Senior Seminar
 SO-492 Sociology Internship
 SO-495 Sociology Research/Seminar
 PACS-455 PACS Honors Thesis I
 PACS-490 Peace & Conflict Studies Internship
 PACS-495 PACS Intern.Res.Sem.

POE Credit Total = 48-49

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Philosophy (B.A.)

PHILOSOPHY CORE

Take one of the following courses:

PL-105 Introduction to Logic
 PL-208 Symbolic Logic

Take the following course:

PL-450 Senior Thesis

HISTORY COMPONENT

Take the following courses:

PL-205 Ancient Philosophy
 PL-275 Modern Philosophy

Take one of the following courses:

PL-245 Chinese Philosophy
 PL-304 Existentialism
 PL-308 End of History, Death of God

EPISTEMOLOGY & METAPHYSICS COMPONENT

Take two of the following courses:

PL-250 Science and Human Values
 PL-260 Philosophy of Science
 PL-255 Philosophy of Religion
 PL-318 Knowledge, Truth and Skepticism

VALUES STUDIES COMPONENT

Take one of the following courses:

PS-221 American Political Thought
 PS-222 Western Political Thought
 PL-241 Philosophy of Love
 PL-310 Contemporary Political Philosophy
 PS-320 Topics Political Philos & Jurisprudence
 RU-335 Tolstoy
 PL-340 Philosophy of Art
 RU-340 Dostoevsky
 RL-450 God, Evil & the Holocaust

ETHICS COMPONENT

Take one of the following courses:

PL-106 Introduction to Ethics
 PL-230 Business Ethics
 PL-235 Ethics of Health Care
 PL-265 Environmental Ethics
 PL-270 Ethical Theory

CAPSTONE

Take the following course:

PL-INS Philosophy Independent Study

POE Credit Total = 36-45

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Physics (B.S.)

MATHEMATICAL CORE

Take the following courses:

MA-130 Calculus I
 MA-160 Linear Algebra
 MA-230 Calculus II
 MA-235 Calculus III
 MA-335 Differential Equations

PHYSICS CORE

Complete one of the following options below:

Option 1:

PC-202 Intro Physics I
PC-202L Intro Physics Lab I

Option 2:

PC-204 University Physics

Take the following courses:

PC-203 Intro Physics II
PC-203L Intro Physics Lab II
PC-189 Physics Seminar I
PC-289 Physics Seminar II
PC-300 Modern Physics Lab
PC-301 Theoretical Modern Physics
PC-307 Advanced Physics Lab
PC-340 Mathematical Methods in Physics
PC-389 Physics Seminar III
PC-402 Quantum Mechanics
PC-410 Mechanics
PC-489 Physics Seminar IV
PC-491 Electricity & Magnetism

PHYSICS ELECTIVES

In addition to the required Physics and Mathematics courses, at least two of the following courses must be taken (graduate schools may expect additional courses):

PC-209 Electronics
PC-239 Nuclear Threat
PC-350 Thermodynamics
PC-430 Optics

CAPSTONE

Take one the following courses below:

ND-498 Natural Sciences Capstone
PC-450 Physics Research I
AS-450 Astronomy Research II

POE Credit Total = 60-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Physics and Secondary Education (B.S.)

STEM CORE

Take the following courses:

PC-189 Physics Seminar I
PC-209 Electronics

PC-289 Physics Seminar II
PC-300 Modern Physics Lab
PC-301 Theoretical Modern Physics
PC-307 Advanced Physics Lab
PC-320 Engineering Mechanics I: Statics
PC-321 Engineering Mechanics II: Dynamics
PC-389 Physics Seminar III
MA-130 Calculus I
MA-230 Calculus II
MA-235 Calculus III
CH-142 Integrated Chemistry Principles I
CH-143 Integrated Chem Principles I Lab
CH-144 Integrated Chemistry Principles II
CH-145 Integrated Chemistry Principles II Lab

ADDITIONAL STEM CORE

Complete one of the following options below:

Option 1:

PC-202 Intro Physics I
PC-202L Intro Physics Lab I

Option 2:

PC-204 University Physics

Take the following courses:

PC-203 Intro Physics II
PC-203L Intro Physics Lab II

PHYSICS/MATH ELECTIVE

Take one of the following courses:

PC-340 Mathematical Methods in Physics
PC-350 Thermodynamics
PC-430 Optics
PC-491 Electricity & Magnetism
MA-335 Differential Equations

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
ED-111 Foundations of Education Field Experience
ED-130 Adolescent Development
ED-240 Introduction to Students With Exceptionalities
ED-314 English Language Learners
ED-341 Adaptations for Students With Exceptionalities
ED-419 Pre-Student Teaching Field Experience
ED-420 General Secondary Methods
ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

ED-450 Student Teaching
ED-451 Student Teaching Seminar

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have advisor who is a member of the Physics Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 89

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Politics (B.A.)

POLITICS CORE

AMERICAN/INTERNATIONAL:

Take the following courses:

PS-101 Introduction to American Government
PS-102 Introduction to International Politics

POLITICAL PHILOSOPHY & JURISPRUDENCE:

Take one of the following courses:

PS-221 American Political Thought
PS-222 Western Political Thought

AMERICAN POLITICS

Take one of the following courses: (PS-389, PS-199, PS-299 or PS-399 may fulfill requirement depending on specific topic of course)

PS-125 Citizenship
PS-206 The Culture War
PS-208 Policy and Community

PS-218 Public Policy & Admin.
PS-289 Politics and the Media
PS-313 Congress and Presidency
PS-318 Parties, Elections & Campaigns
PS-330 TPP: Topics in Public Policy

INTERNATIONAL POLITICS

Complete one of the following options below: (NOTE: PS-389, PS-199, PS-299 or PS-399 may fulfill requirement depending on specific topic of course.)

Option 1:

Take one of the following courses:

PS-241 European Politics
PS-243 U.S. Foreign Policy
PS-298 Gender and Health Care
PS-334 Human Rights
PS-335 Law of Nations
PS-340 Topics in International Politics
PS-346 African Politics

Option 2:

Take the following courses:

PS-235 Migration
PS-236 Eyewitness to Migration in Mexico

Option 3:

Take the following courses:

PS-249 Senegambia I
PS-250 Senegambia II

POLITICAL PHILOSOPHY & JURISPRUDENCE

Take one of the following courses: (NOTE: PS-389, PS-199, PS-299 or PS-399 may fulfill requirement depending on specific topic of course.)

PS-205 Politics in Film
PS-209 Sexual Politics
PS-221 American Political Thought
PS-222 Western Political Thought
PS-311 Constitutional Interpretation: Powers of Government
PS-312 Constitutional Interpretation: Civil Rights
PS-320 Topics Political Philos & Jurisprudence
PS-322 Surveillance and the Constitution

COMPARATIVE SOCIETIES AND CULTURE

Complete one of the following options below: (NOTE: PS-389, PS-199, PS-299 or PS-399 may fulfill requirement depending on specific topic of course)

Option 1:

Take one of the following courses:

PS-241 European Politics
 PS-291 Mexican Fulbright Special Topics
 PS-298 Gender and Health Care
 PS-346 African Politics

Any short-term/long-term study abroad course or an appropriate course from departments such as History, PACS, Religion, or World Languages upon approval.

Option 2:

Take the following courses:

PS-235 Migration
 PS-236 Eyewitness to Migration in Mexico

Option 3:

Take the following courses:

PS-249 Senegambia I
 PS-250 Senegambia II

INTERPRETING DATA

Take one of the following courses:

DS-110 Intro to Data Science
 EB-210 Quantitative Business Analysis
 EB-211 Business Statistics
 ESS-230 Environmetrics
 MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics
 MA-321 Multivariate Statistics
 PY-360 Research Methods and Statistics for Psychology I
 SW-214 Integrated Research Methods & Stats I

ECONOMICS

Take one of the following courses:

EB-105 International Economic Issues
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics
 ESS-305 Environmental Economics

ELECTIVES

Take 12 credits from the Politics Department - any course with a PS prefix. (NOTE: Global Climate Change counts as a Politics Department elective)

CAPSTONE

Complete one of the following categories below:

SENIOR SEMINAR:

PS-499 Senior Seminar

HONORS RESEARCH SERIES:

PS-497 Honors Research I
 PS-498 Honors Research II

IMPORTANT: No more than six credits of Internship can be included in your POE. No more than six credits of Mock Trial can be included in your POE. The same course cannot be used to satisfy more than one POE requirement. A total of 18 credits must be at the 300-level or above.

POE Credit Total = 48

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Professional Writing (B.A.)

CORE COURSES

Take the following courses:

EN-204 English Colloquium
 EN-272 Introduction to Professional Writing
 EN-308 English Research Methods
 EN-376 Writing Across Media
 EN-379 Professional Editing
 CM-133 Mass Media and Society
 IM-110 Principles of Digital Media

WRITING TRACKS

Choose a specific writing track below (Track A or Track B):

A: Professional Writing Track

COMMUNICATION, ART & IMA COURSES:

Take three of the following courses:

CM-132 Message Analysis
 CM-200 Art of Public Speaking
 CM-220 Group Communication
 CM-290 The Metaverse
 CM-300 Professional Presentations
 CM-330 Media Analysis
 CM-420E Digital Storytelling
 AR-104 Design and Color
 AR-203 Digital Photography I
 AR-204 Digital Art I
 IM-360 Digital Video Production
 IM-375 Community Design Lab

PROFESSIONAL WRITING COURSES:

Take three of the following courses:

EN-273 Visual Literacy
 EN-299 Special Topics
 EN-311 Professional News and Feature Writing
 EN-315 Technical Writing
 EN-399 Special Topics

LITERATURE COURSES:

Take two of the following courses:

EN-120 Forms of Literature
 EN-122 Interpreting Pop Literature
 EN-162 Women and Literature
 EN-170 World Literatures
 EN-188 Bad Literature
 EN-207 Heaven or Hell on Earth
 EN-211 Pennsylvania Literature
 EN-212 Sports Literature
 EN-213 Zombie Nation
 EN-215 Boys Will Be Boys
 EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-239 Bloody Murder
 EN-250 African American Literature
 EN-251 Slave Narratives
 EN-262 Unhappily Ever After
 EN-301 Young Adult Literature
 EN-302 The Literature of Social Protest
 EN-307 Mythology in Film
 EN-312 Literature of Revenge
 EN-313 Firing the Canon
 EN-341 Shakespearean Drama
 EN-385 Queer Literature
 EN-388 Heroes and Villains
 EN-392 Crossing the Border

INTERNSHIP AND SEMINAR/SENIOR CAPSTONE:

Complete one of the following options below:

Option 1:

EN-490 English Internship
 EN-495 English Internship Research

Option 2:

EN-496 Senior Research Capstone

B: Creative Writing Track

CREATIVE WRITING COURSES:

Take three of the following courses:
 EN-303 Poetry Writing
 EN-305 Fiction Writing

EN-306 Creative Nonfiction Writing
 EN-378 Video Production Writing
 TH-263 Playwriting

PROFESSIONAL WRITING COURSES:

Take one of the following courses:

EN-273 Visual Literacy
 EN-299 Special Topics
 EN-311 Professional News and Feature Writing
 EN-315 Technical Writing
 EN-399 Special Topics

LITERATURE COURSES:

Take three of the following courses:

EN-120 Forms of Literature
 EN-122 Interpreting Pop Literature
 EN-162 Women and Literature
 EN-170 World Literatures
 EN-188 Bad Literature
 EN-207 Heaven or Hell on Earth
 EN-211 Pennsylvania Literature
 EN-212 Sports Literature
 EN-213 Zombie Nation
 EN-215 Boys Will Be Boys
 EN-217 Disability in Fiction
 EN-236 Dirty Books
 EN-237 Constructing Identities
 EN-239 Bloody Murder
 EN-250 African American Literature
 EN-251 Slave Narratives
 EN-262 Unhappily Ever After
 EN-301 Young Adult Literature
 EN-302 The Literature of Social Protest
 EN-307 Mythology in Film
 EN-312 Literature of Revenge
 EN-313 Firing the Canon
 EN-341 Shakespearean Drama
 EN-385 Queer Literature
 EN-388 Heroes and Villains
 EN-392 Crossing the Border

SENIOR CAPSTONE:

Take the following course:

EN-496 Senior Research Capstone

POE Credit Total = 51-53

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Psychology (B.S.)

PSYCHOLOGY CORE

Take the following courses:

- PY-101 Introduction to Psychology
- PY-366 Research Methods & Statistics

BREADTH COMPONENT

APPLIED & PROFESSIONAL:

Take two of the following courses:

- PY-203 Abnormal Psychology
- PY-210 Psych Professional Development Seminar
- PY-321 Health Psychology
- PY-322 Sport Psychology
- PY-370 Intro Counseling Theories & Techniques
- PY-404 School Psychology

BRAIN & BEHAVIOR:

Take two of the following courses:

- PY-238 Biopsychology
- PY-270 Cognitive Neuroscience
- PY-303 Learning & Conditioning
- PY-375 Psychology of Emotion
- PY-401 Comparative Psychology
- PY-402 Evolutionary Psychology
- PY-412 Expertise and Performance

SOCIAL, DEVELOPMENTAL & CULTURAL:

Take two of the following courses:

- PY-202 Personality
- PY-205 Social Psychology
- PY-211 Race, Ethnicity, and Identity Studies
- PY-302 Moral Judgment
- PY-350 Developmental Psychology
- PY-312 Cultural Psychology

ELECTIVES

Take two of the following courses:

- PY-190 Introduction to Poverty Studies
- PY-199 Special Topics
- PY-202 Personality
- PY-203 Abnormal Psychology
- PY-205 Social Psychology
- PY-210 Psych Professional Development Seminar
- PY-211 Race, Ethnicity, and Identity Studies
- PY-216 Public Health
- PY-238 Biopsychology
- PY-270 Cognitive Neuroscience
- PY-299 Special Topics

- PY-302 Moral Judgment
- PY-303 Learning & Conditioning
- PY-304 Cognitive Psychology
- PY-312 Cultural Psychology
- PY-321 Health Psychology
- PY-322 Sport Psychology
- PY-340 Research in Psychology
- PY-341 Research in Psychology
- PY-350 Developmental Psychology
- PY-370 Intro Counseling Theories & Techniques
- PY-375 Psychology of Emotion
- PY-399 Special Topics
- PY-401 Comparative Psychology
- PY-402 Evolutionary Psychology
- PY-404 School Psychology
- PY-412 Expertise and Performance
- PY-495 Psychology Int. Sem.

CAPSTONE

Take the following course below:

- PY-415 Capstone in Psychology

POE Credit Total = 36

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Public Health (B.S.)

BIOLOGY CORE

Complete one of the following options below:

Option 1:

- BI-190 Human Biology

Option 2:

- BI-101 General Biology I
- BI-102 General Biology II

PUBLIC HEALTH CORE

Take the following courses:

- PS-101 Introduction to American Government
- PS-325 Health Policy
- SO-101 Introduction to Sociology
- SW-221 The Life Cycle
- EB-223 Principles of Microeconomics
- EB-325 Health Economics
- PL-235 Ethics of Health Care
- PY-216 Public Health
- CM-310 Understanding Health Inequity

STATISTICS CORE

Take one of the following courses:

- BI-305 Biostatistics
- MA-205 Elementary Statistics
- MA-220 Introduction to Probability & Statistics
- EB-211 Business Statistics

WRITING CORE

Take one of the following courses:

- EN-271 Public Health Writing
- EN-272 Introduction to Professional Writing

PUBLIC HEALTH TRACKS

Complete one of the following tracks below:

HEALTH POLICY & ADMINISTRATION:

Students must complete 13-16 credits including at least one 300/400/500 level course from the selection below:

- PS-155 Lobbying
- PS-208 Policy and Community
- PS-298 Gender and Health Care
- PS-313 Congress and Presidency
- CONN-350 Community Health Advocacy
- EB-131 Financial Accounting
- EB-202 Behavioral Analysis of Organizations
- EB-363 Health Care Financial Management
- MBA-561 Healthcare Operations
- MBA-563 Healthcare Strategy

COMMUNITY HEALTH & HEALTH PROMOTION:

Students must complete 13-16 credits including at least one 300/400/500 level course from the selection below:

- BI-290 Nutrition
- PS-208 Policy and Community
- PS-298 Gender and Health Care
- PY-211 Race, Ethnicity, and Identity Studies
- PY-321 Health Psychology
- CM-130 Introduction to Human Communication
- CM-230 Interpersonal Communication
- CM-400A Health Communication
- CONN-303 Genomics, Ethics, and Society
- CONN-350 Community Health Advocacy
- PY-101 Introduction to Psychology

NOTE: Students choosing this track must complete a human subjects research experience.

Complete one of the following sequences below:

- PY-101 Introduction to Psychology
- PY-366 Research Methods & Statistics
- SW-214 Integrated Research Methods & Stats I
- SW-215 Integrated Research Methods & Stats II

PRACTICUM/CAPSTONE

Complete one of the following categories below:

PRACTICUM:

- HP-300 Health Navigator Practicum

INTERNSHIP:

- HP-490 Intern/Need Paperwork
- HP-495 Health Professions Internship Research

RESEARCH PROJECT:

Consult with your advisors.

COMMUNITY PROGRAM:

- HP-XXX Community Health Worker Program

POE Credit Total = 63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Social Studies Secondary Education (B.A.)

The following requirements lead to certification in Secondary Education in the state of Pennsylvania. You need an advisor in the History & Art History Department and an advisor in the Education Department.

SOCIAL STUDIES CORE

Take the following courses:

- HS-115 United States to 1877
- HS-116 The U.S. Since 1877
- HS-152 World Civilizations From 1500

Take one of the following courses:

- HS-109 China and Japan to 1800
- HS-201 Samurai Legends & Lives
- HS-367 Women in Africa

CIVICS & GOVERNMENT CORE

Take the following courses:

- PS-101 Introduction to American Government
- PS-102 Introduction to International Politics

Take one 200 or 300 level Politics course.

ECONOMICS CORE

Take the following course:

EB-105 International Economic Issues

PSYCHOLOGY CORE

Take the following course:

PY-101 Introduction to Psychology

SOCIOLOGY CORE

Take the following course:

SO-101 Introduction to Sociology

COLLOQUIUM CORE

Take the following course:

HS-293 Sophomore Colloquium

IN-DEPTH SOCIAL STUDIES CORE

Take three "Knowledge in depth courses" from the following list, for a total of 9 credits. One of these classes must be outside the United States.

HS-305 The American Revolution
 HS-309 Civil War and Reconstruction
 HS-272 Natives & Colonists in Early N. America
 HS-322 Women's Lives-Medieval Europe
 HS-305 The American Revolution
 HS-299 Special Topics
 HS-316 WWII in Asia and Pacific
 HS-262 North American Environmental History
 HS-312 The New South: 1877-1990
 HS-325 The U.S. Since 1945
 HS-306 People's Republic of China
 HS-326 Modern China
 HS-367 Women in Africa
 HS-327 Modern Japan
 HS-313 Disease, Medicine & Empire
 HS-324 Gendering the Raj
 HS-400 Crimes Against Humanity
 HS-314 Medieval Medicine
 PS-313 Congress and Presidency
 PS-318 Parties, Elections & Campaigns

MATH & ENGLISH CORE

Take 12 credits from Math & English Departments.

EDUCATION CORE

Take the following courses:

ED-111 Foundations of Education Field Experience
 ED-130 Adolescent Development
 ED-110 Foundations of Education

ED-240 Introduction to Students With Exceptionalities

ED-314 English Language Learners

ED-341 Adaptations for Students With Exceptionalities

ED-419 Pre-Student Teaching Field Experience

ED-420 General Secondary Methods

ED-423 Secondary Education Field Trip

CAPSTONE

Take the following courses:

ED-450 Student Teaching

ED-451 Student Teaching Seminar

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the FALL semester of the senior year. Secondary Foreign Language Education majors take ED 450 & ED 451 in the SPRING semester. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisors' approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students must meet a minimum GPA requirement and pass the PRAXIS I and II exams. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have advisor who is a member of the History & Art History Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 92

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Social Work (B.S.)**SOCIAL WORK CORE**

Take the following courses:

SO-101 Introduction to Sociology

PY-101 Introduction to Psychology

BI-190 Human Biology

SO-203 Minority Experiences

SW-214 Integrated Research Methods & Stats I
 SW-215 Integrated Research Methods & Stats II
 SW-221 The Life Cycle
 SW-230 Introduction to Social Work Practice
 SW-231 Social Problems & Social Welfare
 SW-330 Social Work Practice: Individual, Family & Small Groups Laboratory
 SW-331 Social Work Practice: Individual, Family & Small Groups
 SW-332 Social Work Practice: Large Groups, Organizations and Communities
 SW-333 Social Welfare Policies and Services

CAPSTONE

Take the following courses:

SW-490 Social Work: Professional Semester
 SW-495 Professional Semester: Research Seminar

NOTE: This POE is constructed under the guidelines established by the Council on Social Work Education. Students seeking the Bachelor of Social Work Credential (BSW) from Juniata College must complete all of this POE.

Social Work students must earn a C- or higher in every course in the POE. Students must have an overall GPA of at least 2.5 and a GPA of at least 2.5 in the Social Work POE in order to enroll in SW 490 and SW 495.

POE Credit Total = 56

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Spanish Education (B.A.)

SPANISH CORE

Take the following courses:

SP-110 Spanish I
 SP-120 Spanish II
 SP-210 Spanish III
 SP-230 Spanish Conversation & Composition
 SP-235 Intermediate Spanish Grammar

Take one of the following courses:

SP-245 Spanish Phonetics & Phonology
 SP-345 Spanish Phonetics & Phonology

Take one of the following courses:

SP-250 Introduction to Hispanic Literature
 SP-255 Contemporary Hispanic Short Fiction

Take the following course:

SP-271 Enrichment After-School for Youth-Spanish

OTHER REQUIREMENTS

SPANISH OR SPANISH AMERICAN CIVILIZATION, CULTURE OR HISTORY:

Take two courses; one of which must be at the 300/400 level:

SP-285 Introduction to Latin America
 SP-385 Intro to Latin America
 SP-260 Spanish Civilization
 SP-265 Contemporary Spain
 SP-365 Contemporary Spain
 SP-301 Voice for Voiceless-LA Testimonial Narr
 SP-275 Art and Activism in Latin America

SPANISH OR SPANISH AMERICAN LITERATURE:

Take two of the following courses:

SP-301 Voice for Voiceless-LA Testimonial Narr
 SP-355 Contemporary Hispanic Short Fiction
 SP-357 Hispanic Pop Culture in Poetry
 SP-375 Art and Activism in Latin America
 SP-399 Special Topics
 SP-400 Contemporary Spanish American Novel
 SP-401 Gender Fiction in Hispanic Literature
 SP-404 Hispanic Metafiction
 SP-405 Cont. Spanish Novel
 SP-420 Generation of 1898

ELECTIVES

Complete an additional 3 elective courses which focus on topics of Spanish Language or Hispanic Cultures at the 300/400 level.

STUDY ABROAD

Complete one year of study abroad in a Spanish speaking country.

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
 ED-130 Adolescent Development
 ED-240 Introduction to Students With Exceptionalities
 ED-314 English Language Learners
 ED-341 Adaptations for Students With Exceptionalities
 ED-398 Methods for Foreign Language Education
 ED-419 Pre-Student Teaching Field Experience

CAPSTONE

Take the following courses:

- ED-450 Student Teaching
- ED-451 Student Teaching Seminar

Spanish Requirements

One academic year of study abroad in a Spanish speaking country. Exceptions will be permitted only under special circumstances with the approval of the Department of World Languages and Cultures.

After returning from their year abroad, students will take a 300 or 400-level course at Juniata offered in Spanish.

Prior to the second semester of the student's senior year, she/he will demonstrate advanced-low oral proficiency in Spanish as measured by an Oral Proficiency Interview (American Council on the Teaching of Foreign Languages).

A minimum of 33 hours in Spanish and Hispanic Cultures beyond the 210 level, including the courses listed below. One course must be designated "CW" (communication). Alternative courses taken at a foreign exchange institution may be substituted for the required courses as long as they are deemed to be comparable to the Juniata offering by the Spanish faculty.

Additional Certification Requirements

- 2 math courses
- 1 English literature course
- 1 year of study abroad in the target language
- GPA of 3.0 for certification program and student teaching
- Grade of C or higher in all courses required for certification
- Satisfactory rating in all practica
- Passing scores on all required PRAXIS exams

**ED 450 & 451 (Student Teaching and Seminar) may be taken only in the SPRING semester of the senior year. ED 450 requires students' full-time participation and no other courses may be taken during this semester without the education advisors approval. Students must have reliable transportation.

NOTE: It is imperative that students work closely with their advisors to meet all current certification requirements. All students are required to take six credits of English composition (or equivalent) and literature (or the equivalent) and two college level

mathematics courses (or the equivalent) prior to being admitted to a certification program. See Section I of the Education Department Student Handbook for explanation of all certification requirements.

Students must have advisor who is a member of the World Language Department faculty and Dr. Kathleen Jones in the Education Department.

POE Credit Total = 69

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Spanish/Hispanic Cultures (B.A.)

SPANISH CORE

Take the following courses:

- SP-110 Spanish I
- SP-120 Spanish II
- SP-210 Spanish III
- SP-230 Spanish Conversation & Composition
- SP-235 Intermediate Spanish Grammar

Take one of the following courses:

- SP-245 Spanish Phonetics & Phonology
- SP-345 Spanish Phonetics & Phonology

Take one of the following courses:

- SP-250 Introduction to Hispanic Literature
- SP-255 Contemporary Hispanic Short Fiction

Take one of the following courses:

- WL-201 Language in Motion
- SP-271 Enrichment After-School for Youth-Spanish

**SP 110, 120, 210 are waived if students place out of them, but no academic credit will be awarded

OTHER REQUIREMENTS

SPANISH OR SPANISH AMERICAN CIVILIZATION, CULTURE OR HISTORY:

Take two courses; at least one of the courses must be at the 300/400 level.

- SP-285 Introduction to Latin America
- SP-385 Intro to Latin America
- SP-260 Spanish Civilization
- SP-265 Contemporary Spain
- SP-365 Contemporary Spain
- SP-301 Voice for Voiceless-LA Testimonial Narr
- SP-275 Art and Activism in Latin America

SPANISH OR SPANISH AMERICAN LITERATURE:

Take two of the following courses:

- SP-301 Voice for Voiceless-LA Testimonial Narr
- SP-355 Contemporary Hispanic Short Fiction
- SP-357 Hispanic Pop Culture in Poetry
- SP-375 Art and Activism in Latin America
- SP-399 Special Topics
- SP-400 Contemporary Spanish American Novel
- SP-401 Gender Fiction in Hispanic Literature
- SP-404 Hispanic Metafiction
- SP-405 Cont. Spanish Novel
- SP-420 Generation of 1898

ELECTIVES

Complete an additional 3 elective courses which focus on topics of Spanish Language or Hispanic Cultures at the 300/400 level.

CAPSTONE

Take one of the following courses below:

- SP-305 Advanced Spanish Conversation & Comp
- SP-355 Contemporary Hispanic Short Fiction
- SP-357 Hispanic Pop Culture in Poetry
- SP-365 Contemporary Spain
- SP-375 Art and Activism in Latin America
- SP-385 Intro to Latin America
- SP-399 Special Topics
- SP-400 Contemporary Spanish American Novel
- SP-401 Gender Fiction in Hispanic Literature
- SP-404 Hispanic Metafiction
- SP-405 Cont. Spanish Novel
- SP-420 Generation of 1898
- SP-499 Special Topics

IMPORTANT: Complete a minimum of one semester and preferably one year of study abroad in a Spanish speaking country.

By way of example only, courses taken on such topics as U.S. trade with Mexico, translation, business Spanish, social violence in Latin America, and Hispanic art and architecture would be considered acceptable electives provided that they were offered at the 300/400 level.

POE Credit Total = 45-63

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Requirements

A minimum of one semester and preferably one year of study abroad in a Spanish speaking country. Exceptions will be permitted only under special circumstances with the approval of the Department of World Languages and Culture.

After returning from their semester or year abroad, students will take a 300 or 400-level course at Juniata offered in Spanish.

Prior to the second semester of the student's senior year, she/he will demonstrate intermediate-high oral proficiency in Spanish as measured by an Oral Proficiency Interview (American Council on the Teaching of Foreign Languages).

A minimum of 33 hours in Spanish and Hispanic Cultures beyond the 210 level, including the courses listed below. Alternative courses taken at a foreign exchange institution may be substituted as long as they are deemed to be comparable to the Juniata offering by the Spanish faculty.

Strategic Communication (B.A.)

CORE COURSES

Take the following courses:

- CM-130 Introduction to Human Communication
- CM-132 Message Analysis
- CM-133 Mass Media and Society
- CM-200 Art of Public Speaking
- CM-401 Senior Seminar

SKILLS & METHODS COURSES

Take 12 credits from the following courses:

- CM-210 Race and Language in the United States
- CM-220 Group Communication
- CM-230 Interpersonal Communication
- CM-261 CM Studies in Germany I
- CM-262 CM Studies in Germany II
- CM-300 Professional Presentations
- CM-330 Media Analysis
- EB-351 Marketing Management
- PACS-105 Introduction to Conflict Resolution
- PACS-108 Mediation
- EN-273 Visual Literacy
- EN-315 Technical Writing

SEMINAR COURSES

Take 12 credits from the following courses:

- CM-340 Intercultural Communication
- CM-365 Organizational Communication

CM-499 Special Topics
 CM-400A Health Communication
 CM-420D Truth and Lying
 CM-420E Digital Storytelling
 EB-375 21st Century Leadership

ELECTIVE COURSES

Take 12 credits from the following courses:

CM-310 Understanding Health Inequity
 EN-271 Public Health Writing
 EN-306 Creative Nonfiction Writing
 EN-311 Professional News and Feature Writing
 EN-376 Writing Across Media
 IM-310 Social Media
 EB-355 Marketing Strategies
 EB-359 Advertising & Promo Mgmt
 EB-371 Human Resource Management.
 EB-379 Bargaining and Conflict Management

CAPSTONE

Complete one of the following options below
 (minimum six credits):

Option 1:

CM-490 Communication Internship
 CM-495 Communication Internship Research

Option 2:

CM-497 Senior Thesis Seminar
 CM-498 Senior Thesis Research

POE Credit Total = 55

Students must complete at least 18 credits at the
 300/400-level. Any course exception must be
 approved by the advisor and/or department chair.

Studio Arts (B.A.)

CORE COURSES

Take one of the following courses:

AR-103 Beginning Drawing
 AR-200 Beginning Painting

Take the following course:

AR-104 Design and Color

Take one of the following courses:

AR-203 Digital Photography I
 AR-204 Digital Art I

Take one of the following courses:

AR-215 Ceramic Sculpture
 AR-117 Intro to Sculpture

Take one of the following courses:

AH-108 Cross Cultural Art 1
 AH-113 Cross-Cultural Art 2

Take one of the following courses:

AH-329 Impressionism to Abstract Expressionism
 AH-330 Why Is That Art? 1945-Present

ADVANCED ART HISTORY

Take 3-9 credits from the following courses:

AH-295 Methods in Art History
 AH-301 African-American Art: Slavery to Social
 Justice
 AH-303 Reframing American Art to 1876
 AH-304 Reframing American Art from 1876
 AH-309 Expanding the Renaissance
 AH-310 Global Baroque Art & Architecture
 AH-311 Art of Ancient Peoples
 AH-312 Medieval Art: Really a Dark Age?
 AH-313 Northern Renaissance Art
 AR-315 Women in Art
 AH-316 Art & Revolution: 19th Century Europe
 AR-322 Modern Architecture
 AR-340 Philosophy of Art
 MM-390 Museum Studies
 MM-392 Museum Education
 MM-394 Curatorial Studies

CAPSTONE

Complete 4-8 credits from one of the following
 options below:

Option 1:

AR-451 Capstone in 2D Studio Art I
 AR-452 Capstone in 2D Studio Art II

Option 2:

AR-453 Capstone in 3D Studio Art I
 AR-454 Capstone in 3D Studio Art II

TRACK OPTIONS

Choose one of the following tracks below:

2-D TRACK:

Take 18-21 credits from the following courses:

AR-200 Beginning Painting
 AR-202 Water-Based Media Painting
 AR-203 Digital Photography I

AR-204 Digital Art I
 AR-208 Beginning Photography
 AR-299 Special Topic
 AR-300 Intermediate Painting
 AR-303 Intermediate Drawing
 AR-400 Advanced Painting

* 2D Studio Art Students are required to take 12 credits of 300-400 level courses in at least two of the following areas: Drawing, Painting, and/or Photography.

3-D TRACK:

Take 18-21 credits from the following courses:

AR-117 Intro to Sculpture
 AR-125 Explorations in Clay
 AR-211 The Art of Bookmaking
 AR-225 Wheel Throwing
 AR-235 Empty Bowls Practicum
 AR-305 Intermediate Ceramics
 AR-405 Advanced Ceramics

* 3D Studio Art Students are required to take 12 credits of 300-400 level courses.

MIXED MEDIA TRACK:

Take 18-21 credits from the following courses:

AR-117 Intro to Sculpture
 AR-125 Explorations in Clay
 AR-200 Beginning Painting
 AR-203 Digital Photography I
 AR-204 Digital Art I
 AR-208 Beginning Photography
 AR-211 The Art of Bookmaking
 AR-225 Wheel Throwing
 AR-235 Empty Bowls Practicum
 AR-299 Special Topic
 AR-300 Intermediate Painting
 AR-303 Intermediate Drawing
 AR-305 Intermediate Ceramics
 AR-400 Advanced Painting
 AR-405 Advanced Ceramics

*At least 12 of these must be advanced courses (at the 300-400 level).

POE Credit Total = 48-60

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Wildlife Conservation (B.S.)

REQUIRED COURSES

Take the following courses:

ESS-100 Environmental Systems I
 ESS-110 Environmental Systems II
 BI-101 General Biology I
 BI-300 General Ecology
 BI-301 General Ecology Lab
 BI-360 Vertebrate Zoology
 BI-361 Vertebrate Zoology Lab
 ESS-325 Conservation Biology
 ESS-224 Wildlife Mgmt
 ESS-330 Geographical Information Systems

PLANT BIOLOGY

Complete one of the following options below:

Option 1:

BI-327 Botany

Option 2:

ESS-340 Forestry

Option 3:

BI-325 Plant Ecology
 BI-326 Plant Ecology Lab

CHEMISTRY REQUIREMENT

Take the following courses:

CH-142 Integrated Chemistry Principles I
 CH-143 Integrated Chem Principles I Lab
 CH-144 Integrated Chemistry Principles II
 CH-145 Integrated Chemistry Principles II Lab

RESOURCE POLICY/MANAGEMENT

Take one of the following courses:

ESS-324 Natural Resource Management
 ESS-337 Environmental Law

MATHEMATICS/STATISTICS

Take the following course:

ESS-230 Environmetrics

Take one of the following courses:

BI-305 Biostatistics
 ESS-335 Quantitative Ecology
 MA-130 Calculus I
 MA-205 Elementary Statistics

CAPSTONE

Take one of the following courses:

- ESS-400 Senior Capstone I
- ESS-401 Senior Capstone II

POE Credit Total = 54-56

Students must complete at least 18 credits at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

SECONDARY EMPHASES (MINORS)

Accounting Secondary Emphasis

ACCOUNTING CORE

Take the following courses:

- EB-131 Financial Accounting
- EB-222 Principles of Macroeconomics
- EB-232 Intermediate Accounting I
- EB-236 Managerial Accounting

ADDITIONAL COURSES

Take one of the following courses:

- EB-334 Advanced Accounting
- EB-335 Auditing
- EB-336 Federal Taxation: Individuals
- EB-337 Cost Accounting

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Art History Secondary Emphasis

ART HISTORY CORE

Take five of the following courses:

- AR-110 Survey of Western Art
- AH-108 Cross Cultural Art 1
- AH-113 Cross-Cultural Art 2
- AH-301 African-American Art: Slavery to Social Justice
- AH-303 Reframing American Art to 1876
- AH-304 Reframing American Art from 1876
- AH-309 Expanding the Renaissance
- AH-310 Global Baroque Art & Architecture
- AH-311 Art of Ancient Peoples
- AH-312 Medieval Art: Really a Dark Age?
- AH-313 Northern Renaissance Art
- AH-316 Art & Revolution: 19th Century Europe
- AH-329 Impressionism to Abstract Expressionism

- AH-330 Why Is That Art? 1945-Present
- AH-492 Senior Thesis in Art History
- AR-315 Women in Art

Secondary Emphasis Credit Total = 18-20

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Astronomy Secondary Emphasis

INTRO PHYSICS I

Complete one of the following options below:

Option 1: (FALL TERM)

- PC-200 General Physics I
- PC-200L General Physics Lab I

Option 2: (FALL TERM)

- PC-201 General Physics II
- PC-201L General Physics Lab II

Option 3: (FALL TERM)

- PC-204 University Physics

INTRO PHYSICS II

Complete one of the following options below:

Option 1: (SPRING TERM)

- PC-201 General Physics II
- PC-201L General Physics Lab II

Option 2: (SPRING TERM)

- PC-203 Intro Physics II
- PC-203L Intro Physics Lab II

REQUIRED CORE

Complete the following courses:

- AS-160 Measuring the Universe
- AS-260 Observational Astronomy

ELECTIVES

Complete six additional credits from the courses listed below:

- AS-390 Astrophysics
- CA-227 Archaeoastronomy
- AS-350 Astronomy Research I
- AS-450 Astronomy Research II
- AS-300 Chile: Southern Stars I
- AS-301 Chile: Southern Stars II
- CONN-310A Revolution! Part 1

CONN-310B Revolution! Part 2

**Courses in Geology, Biology, Chemistry, Data Science, and possibly other disciplines may be approved as electives if they have a substantial astronomy content or are closely related to astronomy topics.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Bioethics Secondary Emphasis

REQUIRED CORE COURSES

Take one of the following courses:

PL-105 Introduction to Logic
PL-208 Symbolic Logic

Take one of the following courses:

PL-235 Ethics of Health Care
IC-292 Justice and Global Health

Take one of the following courses:

PL-250 Science and Human Values
PL-260 Philosophy of Science

ELECTIVES

Complete 7 credits from the following courses:

BI-270 Infectious Disease & Society
HS-313 Disease, Medicine & Empire
HS-314 Medieval Medicine
IC-203 Genomics, Ethics & Society
PL-205 Ancient Philosophy
PL-270 Ethical Theory
PL-304 Existentialism
RU-275 Medicine and Literature

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Biology Secondary Emphasis

CORE COURSES

Take the following courses:

BI-101 General Biology I
BI-102 General Biology II
CH-142 Integrated Chemistry Principles I

CH-143 Integrated Chem Principles I Lab
CH-144 Integrated Chemistry Principles II
CH-145 Integrated Chemistry Principles II Lab
CH-232 Organic Chemistry I
CH-233 Organic Chemistry I Lab

UPPER-LEVEL COURSES

Complete 2 courses from the BI - Biology department at the 300/400 level. One of the upper-level courses must have a lab. NOTE: These courses cannot be included in a student's POE.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Chemistry Secondary Emphasis

CHEMISTRY CORE

Complete a minimum of 22 credits with a CH-Chemistry designation.

At least three of the credits must be at the 300 or 400 level.

At least three of the credits cannot be counted towards another POE.

At least three out of five sub-disciplines of chemistry must be represented beyond the level of introductory ICP courses (CH 142, 143, 144, and 145). Areas include: Analytical, Inorganic, Organic and Physical Chemistry plus Biochemistry.

An example of Secondary Emphasis coursework for the Environmental Science POE (representative only - other combinations are possible)

CH-142 Integrated Chemistry Principles I
CH-143 Integrated Chem Principles I Lab
CH-144 Integrated Chemistry Principles II
CH-145 Integrated Chemistry Principles II Lab
CH-232 Organic Chemistry I
CH-233 Organic Chemistry I Lab
CH-252 Analytical Chemistry
CH-312 Biochemistry
CH-372 Instrumental Methods

Secondary Emphasis Credit Total = 22

At least three of the credits have to be at the 300 or 400 level. Any course exception must be approved by the advisor and/or department chair.

Communication Secondary Emphasis

COMMUNICATION CORE

Take any 12 credits of CM-Communication courses.

UPPER-LEVEL CORE

Take at least 6 credits of 300 or 400 level CM-Communication courses.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Computer Programming Secondary Emphasis

CORE COURSES

Take the following courses:

CS-110 Computer Science I
CS-220 Computer Organization
CS-240 Computer Science II
MA-116 Discrete Structures

PROGRAMMING COURSES

Take one of the following courses:

CS-255F FORTRAN Programming
CS-255B COBOL Programming
CS-255C C++ Programming
CS-255P Perl Programming
CS-255R Ruby Programming
CS-255Y Python Programming

UPPER-LEVEL COMPUTER SCIENCE COURSE

Take one 300 or 400 level CS - Computer Science course.

Secondary Emphasis Credit Total = 18

Three credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Computer Science Secondary Emphasis

CORE COURSES

Take the following courses:

CS-110 Computer Science I
CS-240 Computer Science II
CS-220 Computer Organization
CS-480 Computer Science Seminar I

MA-116 Discrete Structures

Take one of the following courses:

CS-315 Algorithms and Analysis
CS-330 Computer Graphics

Take one of the following courses:

CS-300 Software Engineering
CS-370 Database Management Systems

Take one upper-level CS-Computer Science elective.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Criminal Justice Secondary Emphasis

REQUIRED CORE

Take the following courses:

SO-101 Introduction to Sociology
SO-260 Introduction to Criminal Justice
SO-302 Social Deviance and Criminology

ELECTIVES

Take 9 credits from the following courses:

PS-190A Mock Trial
PS-190B Mock Trial
EN-239 Bloody Murder
HS-400 Crimes Against Humanity
PACS-105 Introduction to Conflict Resolution
PACS-110 Introduction to Peace & Conflict Studies
PL-106 Introduction to Ethics
PS-218 Public Policy & Admin.
PS-312 Constitutional Interpretation: Civil Rights
PS-334 Human Rights
PY-203 Abnormal Psychology
PY-205 Social Psychology
PY-410 Aggression and Prejudice
SO-203 Minority Experiences
SO-244 Drugs and Society
SO-320 Wealth, Power, & Society
SO-362 Juvenile Justice

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Data Science Secondary Emphasis

DATA SCIENCE CORE

Take the following courses:

DS-110 Intro to Data Science
CS-110 Computer Science I

STATISTICS

Take one of the following courses:

MA-220 Introduction to Probability & Statistics
MA-205 Elementary Statistics
EB-211 Business Statistics
ESS-230 Environmetrics
SW-215 Integrated Research Methods & Stats II
PY-366 Research Methods & Statistics
BI-305 Biostatistics
ESS-309 Econometrics

ADDITIONAL COURSES

Take twelve credits from the following courses:

CS-370 Database Management Systems
IM-242 Info Visualization
DS-210 Data Acquisition
DS-352 Machine Learning
DS-375 Big Data
MA-321 Multivariate Statistics
MA-325 Statistical Consulting

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Economics Secondary Emphasis

ECONOMICS CORE

Take the following courses:

EB-105 International Economic Issues
EB-222 Principles of Macroeconomics
EB-223 Principles of Microeconomics

INTRODUCTORY STATISTICS

Take one of the following courses:

EB-211 Business Statistics
MA-220 Introduction to Probability & Statistics
MA-205 Elementary Statistics

UPPER-LEVEL CORE

Take two of the following courses:

EB-320 Intermediate Microeconomics
EB-321 Intermediate Macroeconomics
EB-325 Health Economics
EB-381 International Political Economy
EB-463 Financial Markets & Institutions
EB-465 Financial Theory and Analysis

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Education Secondary Emphasis

EDUCATION CORE

Take the following courses:

ED-110 Foundations of Education
ED-111 Foundations of Education Field Experience
ED-240 Introduction to Students With Exceptionalities

Complete one of the following options below:

Option 1:

ED-120 Child Development

Option 2:

ED-130 Adolescent Development

Take 8 additional credits from the ED- Education Department.

*Faculty in the Education Department support students who may want to work with youth in some capacity but outside of the public school system. Students may want to pursue a Secondary Emphasis in Education to complement their Program of Emphasis. For example, students with a Program of Emphasis in Psychology could include a Secondary Emphasis in Education entitled Psychology with a Secondary Emphasis in Education.

*In addition to the core of Education courses listed above, students must select a number of other Education courses for a minimum of 18 credits total.

*Students must choose an advisor in the Education Department to serve as their general advisor to assist them in choosing appropriate courses to complete the requirements for a Secondary Emphasis in Education. Students must meet all course prerequisites or obtain permission by the instructor to register for Education courses.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

English Secondary Emphasis

ENGLISH REQUIREMENTS

In consultation with an English professor, complete 18 credits from the English Department.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Entrepreneurship Secondary Emphasis

ENTREPRENEURSHIP CORE

Take the following courses:

- EB-100 Introduction to Management
- EB-102 Introduction to Entrepreneurship
- EB-207 New Venture Creation
- EB-307 New Venture Start-Ups

ELECTIVES

Take two additional EB - Accounting, Business & Economics courses.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Environmental Studies Secondary Emphasis

ENVIRONMENTAL STUDIES CORE

Take 18 credits from the ESS Department (courses with an ESS prefix). Six credits must be at the 300/400 level.

Secondary Emphasis Credit Total = 18

Any course exception must be approved by the advisor and/or department chair.

Finance Secondary Emphasis

FINANCE CORE

Take the following courses:

- EB-100 Introduction to Management
- EB-131 Financial Accounting
- EB-222 Principles of Macroeconomics
- EB-236 Managerial Accounting

UPPER-LEVEL CORE

Take two of the following courses:

- EB-361 Financial Management I
- EB-362 Financial Management II
- EB-363 Health Care Financial Management
- EB-463 Financial Markets & Institutions
- EB-465 Financial Theory and Analysis

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Fine Arts Secondary Emphasis

CORE COURSES

Take a minimum of 18 credits of AR and AH courses.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

French Secondary Emphasis

FRENCH CORE

Take 15 credit hours beyond the 210 level in consultation with an advisor who teaches the target language. NOTE: Study abroad in a country or region where the target language is the primary language of instruction is recommended. Courses may include:

- FR-210 French III
- FR-230 Conversation
- FR-260 French Civilization and Culture
- FR-270 Francophone Civilization and Culture II
- FR-299 Special Topics
- FR-326 French Cinema
- FR-331 The Craft of Translation
- FR-399 Special Topics

Secondary Emphasis Credit Total = 18

Any course exception must be approved by the advisor and/or department chair.

Geology Secondary Emphasis

GEOLOGY CORE

Take the following courses:

- GL-100A Environmental Geology
- GL-204 History of Earth

Take an additional eleven Geology (GL) credits at the 200 level or higher.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

History Secondary Emphasis

HISTORY CORE

Take five courses from the History & Art History Department, two of which must be at the level 300: (NOTE: One of the five courses must cover history outside of the US and Europe)

- HS-104 Medieval Europe
- HS-109 China and Japan to 1800
- HS-115 United States to 1877
- HS-116 The U.S. Since 1877
- HS-152 World Civilizations From 1500
- HS-199 Special Topics
- HS-200 The Great War
- HS-201 Samurai Legends & Lives
- HS-204 Australia/New Zealand
- HS-213 History of Ireland
- HS-215 Rome: Republic to Empire
- HS-217 The Lowcountry and the Gullah Culture
- HS-221 Gender and Sexuality
- HS-262 North American Environmental History
- HS-266 History of South Africa
- HS-268 Sword & Scimitar: Islam & West 500-1300
- HS-272 Natives & Colonists in Early N. America
- HS-277 History of Food
- HS-293 Sophomore Colloquium
- HS-305 The American Revolution
- HS-306 People's Republic of China
- HS-309 Civil War and Reconstruction
- HS-312 The New South: 1877-1990
- HS-313 Disease, Medicine & Empire
- HS-314 Medieval Medicine
- HS-316 WWII in Asia and Pacific
- HS-320 Interpreting Terrorism
- HS-322 Women's Lives-Medieval Europe
- HS-324 Gendering the Raj

- HS-325 The U.S. Since 1945
- HS-326 Modern China
- HS-327 Modern Japan
- HS-367 Women in Africa

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Human Resource Management Secondary Emphasis

HUMAN RESOURCE MANAGEMENT CORE

Take the following courses:

- EB-100 Introduction to Management
- EB-131 Financial Accounting
- EB-202 Behavioral Analysis of Organizations
- EB-371 Human Resource Management.
- EB-379 Bargaining and Conflict Management

ADDITIONAL COURSES

Take one of the following courses:

- PY-101 Introduction to Psychology
- PY-205 Social Psychology
- PY-303 Learning & Conditioning
- PY-304 Cognitive Psychology
- CM-130 Introduction to Human Communication
- CM-230 Interpersonal Communication
- CM-340 Intercultural Communication
- CM-405A Women, Work & Identity
- PACS-105 Introduction to Conflict Resolution
- PACS-205 Conflict Intervention
- PACS-305 Gender and Conflict

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Information Technology Secondary Emphasis

CORE COURSES

Take the following courses:

- CM-200 Art of Public Speaking
- CS-110 Computer Science I
- IT-110 Principles of Information Technology
- IT-210 Information Technology Systems
- IT-307 Project Management

IT-308 Innovations for Industry I

THE METAVERSE

Take one of the following courses:

IT-290 The Metaverse
CM-290 The Metaverse

BUSINESS ELECTIVE

Take one course from the Business - EB Department.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Integrated Media Arts Secondary Emphasis

IMA COURSES

Take the following courses:

IM-110 Principles of Digital Media
CM-133 Mass Media and Society
AR-104 Design and Color

Take one of the following courses:

IM-375 Community Design Lab
IM-376 Business of Design

ELECTIVE

Take one of the following courses:

AR-103 Beginning Drawing
AR-200 Beginning Painting
AR-203 Digital Photography I
AR-204 Digital Art I
AR-117 Intro to Sculpture
AR-225 Wheel Throwing
CM-420E Digital Storytelling
CM-330 Media Analysis

UPPER-LEVEL ELECTIVE

Take one course at the 300 level or above:

CM-300 Professional Presentations
CM-330 Media Analysis
CM-420A Hollywood Films
CM-420E Digital Storytelling
CM-499 Special Topics
IM-310 Social Media
IT-341 Web Design
IT-342 Web Programming
IM-360 Digital Video Production

IM-361 Video Production II

IM-375 Community Design Lab

IM-376 Business of Design

EN-307 Mythology in Film

EN-399 Special Topics

EB-351 Marketing Management

EB-355 Marketing Strategies

EB-358 Marketing Research and Analytics

EB-359 Advertising & Promo Mgmt

EN-376 Writing Across Media

EN-378 Video Production Writing

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

International Business Secondary Emphasis

INTERNATIONAL BUSINESS CORE

Given the unique requirements built into the designated POE in International Business, a secondary emphasis should only be used in rare instances wherein the student has met most of the requirements for the designated, but somehow missed "something." For example, student did not go abroad. Please seek the advice of an ABE faculty member.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

International Studies Secondary Emphasis

CORE COURSES

Take the following courses:

EB-105 International Economic Issues
PS-102 Introduction to International Politics

Take one of the following courses:

IS-104 Ideas & Power in the Modern World
PACS-105 Introduction to Conflict Resolution

Take one of the following courses:

IS-200 Politics & Culture of Modernization
PACS-110 Introduction to Peace & Conflict Studies

Take one of the following courses:

HS-320 Interpreting Terrorism
 EB-381 International Political Economy
 PS-334 Human Rights

Take two foreign language courses at the 200, 300 or 400 level or Study Abroad for at least one semester.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Investing Secondary Emphasis

INVESTING CORE

Take the following courses:

EB-100 Introduction to Management
 EB-140 Investing: Your Future
 EB-222 Principles of Macroeconomics
 EB-131 Financial Accounting
 EB-340 Investing Analysis
 EB-361 Financial Management I
 EB-440 Portfolio Management I
 EB-463 Financial Markets & Institutions

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Linguistics Secondary Emphasis

LINGUISTICS CORE

Take 9 credits from the following courses:

EN-200 History of the Language
 EN-300 Modern Theories of Grammar
 WL-303 Sociolinguistics

ELECTIVE COURSES

Take 6 credits from the following courses:

BI-450 Neurobiology
 BI-450CW Neurobiology
 CM-130 Introduction to Human Communication
 CM-210 Race and Language in the United States
 CS-362 Languages and Translation
 MA-220 Introduction to Probability & Statistics
 PL-208 Symbolic Logic
 MA-208 Symbolic Logic
 PY-270 Cognitive Neuroscience

PY-304 Cognitive Psychology
 SP-245 Spanish Phonetics & Phonology
 SP-345 Spanish Phonetics & Phonology
 CS-110 Computer Science I
 CS-255P Perl Programming
 ED-312 Language and the Brain
 ED-313 Language and Brain Lab

LANGUAGE COURSES

Take 3 credits from the following courses:

CN-210 Chinese III
 FR-210 French III
 GR-210 German III
 RU-210 Intermediate Russian
 SP-210 Spanish III
 SP-235 Intermediate Spanish Grammar
 SP-430 Advanced Spanish Grammar

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Management Secondary Emphasis

MANAGEMENT CORE

Take the following courses:

EB-105 International Economic Issues
 EB-222 Principles of Macroeconomics
 EB-223 Principles of Microeconomics

ADDITIONAL COURSES

Take the following courses:

EB-100 Introduction to Management
 EB-131 Financial Accounting
 EB-202 Behavioral Analysis of Organizations

Take two EB courses at the 300/400 level: (except EB-490/EB-495)

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Marketing Secondary Emphasis

MARKETING CORE

Take the following courses:

EB-100 Introduction to Management

EB-131 Financial Accounting
 EB-351 Marketing Management
 EB-355 Marketing Strategies
 EB-358 Marketing Research and Analytics
 EB-359 Advertising & Promo Mgmt

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Mathematics Secondary Emphasis

MATHEMATICS COURSES

CORE COURSES:

Take the following courses:

MA-130 Calculus I
 MA-230 Calculus II
 MA-235 Calculus III
 MA-160 Linear Algebra

STATISTICS CORE:

Take one of the following courses:

MA-205 Elementary Statistics
 MA-220 Introduction to Probability & Statistics
 EB-211 Business Statistics
 PY-366 Research Methods & Statistics
 SW-215 Integrated Research Methods & Stats II
 BI-305 Biostatistics
 ESS-230 Environmetrics
 ESS-309 Econometrics

Complete one of the following options below:

Option 1:

MA-210 Foundations of Mathematics

(AND)

Take one 300 or 400 level Mathematics course
 (except MA-480 and MA-355)

Option 2:

Take two 300 or 400 level Mathematics courses
 (except MA-480 and MA-355)

Secondary Emphasis Credit Total = 25-26

Any course exception must be approved by the advisor and/or department chair.

Medical Humanities Secondary Emphasis

CORE COURSES

Take 20 credits from the following courses:

EN-217 Disability in Fiction
 HS-280 Victorian Science, Sexuality & Medicine
 HS-314 Medieval Medicine
 HS-313 Disease, Medicine & Empire
 BI-270 Infectious Disease & Society
 PL-106 Introduction to Ethics
 PL-235 Ethics of Health Care
 IC-203 Genomics, Ethics & Society
 CM-310 Understanding Health Inequity

Secondary Emphasis Credit Total = 20

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Museum Studies Secondary Emphasis

MUSEUM STUDIES CORE

Take one of the following courses:

AH-108 Cross Cultural Art 1
 AH-113 Cross-Cultural Art 2

Take the following courses:

MM-390 Museum Studies
 MM-392 Museum Education
 MM-394 Curatorial Studies
 MM-480 Museum Practicum I
 MM-481 Museum Practicum II

Secondary Emphasis Credit Total = 19

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Peace and Conflict Studies Secondary Emphasis

PEACE AND CONFLICT STUDIES CORE

Take the following courses:

PACS-105 Introduction to Conflict Resolution
 PACS-110 Introduction to Peace & Conflict Studies

ADDITIONAL COURSES

Complete 12 additional credits from PACS department; six of which must be at the 300/400 level.

NOTE: Students must be able to defend the coherence and logic of their choices. Students should have a PACS professor as an advisor.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Philosophy Secondary Emphasis

ADVANCED PHILOSOPHY

Take two of the following courses:

- PL-304 Existentialism
- PL-308 End of History, Death of God
- PL-310 Contemporary Political Philosophy
- PL-318 Knowledge, Truth and Skepticism
- PL-340 Philosophy of Art

PHILOSOPHY LOGIC

Take one of the following courses:

- PL-105 Introduction to Logic
- PL-208 Symbolic Logic

PHILOSOPHY HISTORY

Take one of the following courses:

- PL-205 Ancient Philosophy
- PL-308 End of History, Death of God

PHILOSOPHY ELECTIVES

Complete an additional 1-2 Philosophy courses to reach a minimum of 18 credits in the Secondary Emphasis.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Physics Secondary Emphasis

MATHEMATICS CORE

Take the following courses:

- MA-130 Calculus I
- MA-230 Calculus II
- MA-235 Calculus III

PHYSICS CORE I

Complete one of the following options below:

Option 1:

- PC-202 Intro Physics I
- PC-202L Intro Physics Lab I

Option 2:

- PC-204 University Physics

PHYSICS CORE II

Take the following courses:

- PC-203 Intro Physics II
- PC-203L Intro Physics Lab II
- PC-301 Theoretical Modern Physics

PHYSICS ELECTIVE

Take one additional course from the Physics Department at the 300/400 level.

Secondary Emphasis Credit Total = 26-27

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Politics Secondary Emphasis

POLITICS CORE

Take the following courses:

- PS-101 Introduction to American Government
- PS-102 Introduction to International Politics

Take one of the following courses:

- PS-221 American Political Thought
- PS-222 Western Political Thought

ADDITIONAL COURSES

Take 12 additional credits from the Politics Department; at least three of these credits must be at the 300-level or above.

NOTE: No more than six credits of Internship can be included in your secondary emphasis. No more than six credits of Mock Trial can be included in your secondary emphasis. Global Climate Change counts as a Politics Department course.

Secondary Emphasis Credit Total = 24

At least three credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Psychology Secondary Emphasis

PSYCHOLOGY COURSES

Take any 12 credits from the PY-Psychology Department.

UPPER-LEVEL COURSES

Take an additional 6 credits at the 300 or 400 level from the PY-Psychology Department.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Religious Studies Secondary Emphasis

RELIGIOUS STUDIES CORE

Take the following courses:

- RL-110 What Is Religion
- RL-123 Global Religions Today

Take one of the following courses:

- RL-131 Old Testament As History and Literature
- RL-132 New Testament As History and Literature

Take 9 credits from the Religion Department; 6 credits must be at the 300 or 400 level.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Rural Experience Secondary Emphasis

RURAL EXPERIENCE CORE

Take the following courses:

- PY-190 Introduction to Poverty Studies
- HS-222 Archives: Theory, Practice, and Use
- EN-203 Class/Status/Identity in US Literature
- CONN-390 Comparative Rural Experience I
- CONN-391 Comparative Rural Experience II

ELECTIVE COURSES

Take two of the following courses (a total of at least six credits):

- AH-301 African-American Art: Slavery to Social Justice
- BI-190 Human Biology
- CM-310 Understanding Health Inequity

- CONN-340 Environmental Justice
- CONN-350 Community Health Advocacy
- CONN-392 Justice and Global Health
- EN-211 Pennsylvania Literature
- EN-319 Writing for Social Change
- ESS-206 Global Environmental Issues
- HS-367 Women in Africa
- PS-208 Policy and Community
- SO-101 Introduction to Sociology
- SW-231 Social Problems & Social Welfare

NOTE: Other courses, such as special topics courses, may be chosen with advisor/department chair approval.

Secondary Emphasis Credit Total = 19-21

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Sociology Secondary Emphasis

SOCIOLOGY CORE

Take the following courses:

- SO-101 Introduction to Sociology
- SO-203 Minority Experiences
- SW-231 Social Problems & Social Welfare
- SW-214 Integrated Research Methods & Stats I
- SW-215 Integrated Research Methods & Stats II
- SW-333 Social Welfare Policies and Services
- SO-401 Sociology Senior Seminar

Secondary Emphasis Credit Total = 21

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Spanish Secondary Emphasis

SPANISH CORE

Take 15 credit hours beyond the 210 level in consultation with an advisor who teaches the target language. NOTE: Study abroad in a country or region where the target language is the primary language of instruction is recommended.

- SP-230 Spanish Conversation & Composition
- SP-235 Intermediate Spanish Grammar
- SP-245 Spanish Phonetics & Phonology
- SP-250 Introduction to Hispanic Literature
- SP-255 Contemporary Hispanic Short Fiction
- SP-257 Hispanic Pop Culture in Poetry

SP-260 Spanish Civilization
 SP-265 Contemporary Spain
 SP-271 Enrichment After-School for Youth-Spanish
 SP-275 Art and Activism in Latin America
 SP-285 Introduction to Latin America
 SP-299 Special Topics
 SP-301 Voice for Voiceless-LA Testimonial Narr
 SP-305 Advanced Spanish Conversation & Comp
 SP-345 Spanish Phonetics & Phonology
 SP-355 Contemporary Hispanic Short Fiction
 SP-357 Hispanic Pop Culture in Poetry
 SP-365 Contemporary Spain
 SP-375 Art and Activism in Latin America
 SP-385 Intro to Latin America
 SP-399 Special Topics
 SP-400 Contemporary Spanish American Novel
 SP-401 Gender Fiction in Hispanic Literature
 SP-404 Hispanic Metafiction
 SP-405 Cont. Spanish Novel
 SP-420 Generation of 1898
 SP-430 Advanced Spanish Grammar
 WL-303 Sociolinguistics
 WL-398 Methods for Foreign Language Education

Secondary Emphasis Credit Total = 18

Any course exception must be approved by the advisor and/or department chair.

Studio Arts Secondary Emphasis

CORE COURSES

Complete one of the following courses:

AH-108 Cross Cultural Art 1
 AH-113 Cross-Cultural Art 2

Take 15 credits from AR - Art Department. At least 6 credits must be at the 300 level or above.

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Theatre Arts Secondary Emphasis

CORE COURSES

Take the following courses:

TH-221 Acting I
 TH-263 Playwriting
 TH-325 Acting II
 TH-405 Directing

VISUAL AND PERFORMING ARTS COURSES

Take 6 credits from the following courses:

2-D TRACK:

AR-200 Beginning Painting
 AR-203 Digital Photography I
 AR-204 Digital Art I
 AR-208 Beginning Photography
 AR-298 Mixed Media Animation
 AR-300 Intermediate Painting
 AR-303 Intermediate Drawing
 AR-400 Advanced Painting

3-D TRACK:

AR-117 Intro to Sculpture
 AR-125 Explorations in Clay
 AR-211 The Art of Bookmaking
 AR-215 Ceramic Sculpture
 AR-225 Wheel Throwing
 AR-235 Empty Bowls Practicum
 AR-305 Intermediate Ceramics
 AR-398 3D Computer Animation
 AR-405 Advanced Ceramics

4-D TRACK:

Complete one of the following combinations below - (CONN-315F & CONN-315W or CONN-315S):

CONN-315F Ways of Well-Being (Fall)
 CONN-315W Ways of Well-Being (Winter)
 CONN-315S Ways of Well-Being (Spring)
 TH-161 Play/Making
 TH-123 Jedi Academy
 IC-225 Theatre of the Observed

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Visual and Material Culture Studies Secondary Emphasis

VISUAL AND MATERIAL CULTURE STUDIES CORE

Take one course from each of the following categories:

ART HISTORY:

AH-108 Cross Cultural Art 1
 AH-113 Cross-Cultural Art 2
 AH-303 Reframing American Art to 1876
 AH-311 Art of Ancient Peoples

ANTHROPOLOGY:

AN-151 Introduction to Anthropology
AN-255 Applied Archaeology

HISTORY:

HS-215 Rome: Republic to Empire
HS-217 The Lowcountry and the Gullah Culture
HS-277 History of Food
HS-280 Victorian Science, Sexuality & Medicine
HS-367 Women in Africa

UPPER-LEVEL COURSES

Take an additional 6 credits of AH, AN or HS courses at the 300 or 400 level.

Secondary Emphasis Credit Total = 18-24

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

Women and Gender Studies Secondary Emphasis

WOMEN AND GENDER STUDIES CORE

Take the following course:

PACS-305 Gender and Conflict

ADDITIONAL COURSES

Take five of the following courses:

HS-280 Victorian Science, Sexuality & Medicine
HS-322 Women's Lives-Medieval Europe
HS-367 Women in Africa
PS-209 Sexual Politics
PS-298 Gender and Health Care
CM-310 Understanding Health Inequity
CM-405A Women, Work & Identity
EN-162 Women and Literature
EN-215 Boys Will Be Boys
EN-385 Queer Literature
SW-241 Children, Youth, and Family Services
SO-203 Minority Experiences
PY-211 Race, Ethnicity, and Identity Studies
RL-250 Women in the Bible
RL-265 U.S. Religious Diversity
SP-401 Gender Fiction in Hispanic Literature

Secondary Emphasis Credit Total = 18

Six credits must be at the 300/400-level. Any course exception must be approved by the advisor and/or department chair.

CERTIFICATES

Certificates are credit-bearing programs that certify satisfactory completion of an organized program of study. New certificate programs must be approved by the Department and Program Committee. All new certificate program applications to the Department and Program Committee must be made after consultation with departments that house the certificate courses and the Provost.

All certificates will consist of a minimum of 18 credit hours. Certificates may be of different lengths, as defined by National Center for Education Statistics (NCES) standards:

- Short-term Certificates - Less than 1 academic year or Less than 30 semester credit hours.
- Moderate-term Certificates - At least 1 but less than 2 academic years or At least 30 but less than 60 semester credit hours.
- Long-term Certificates - At least 2 but less than 4 academic years or 60 or more semester credit hours.

All pre-requisite courses must be part of the credit count for the certificate.

The certificate degree will have a separate status, separate paperwork, and will be recorded separately on the student's transcript.

Sub-baccalaureate Certificate Degree Requirements

Students wishing to earn a certificate must have a 2.0 grade average or above in their certificate courses.

When students seeking a B.A. or B.S. degree at Juniata are also enrolled in a certificate program, the policies and procedures regarding matriculation requirements, course registration policies, and graduation application guidelines remain the same. Students seeking a certificate must submit a faculty-approved, final version of the certificate form to the Office of the Registrar. Certificates may overlap with POE coursework.

However, if a student wishes to get a certificate and a secondary emphasis, there must be a minimum of 15 credits in the certificate that do not overlap with the secondary emphasis.

For students who enroll in certificate programs as a standalone degree, policies and procedures will be determined administratively with the on-going consultation of the Executive Committee.

Digital Humanities Certificate

BREADTH REQUIREMENT:

Complete three courses from three different disciplines below:

AN-255 Applied Archaeology
 AR-104 Design and Color
 AR-203 Digital Photography I
 AR-204 Digital Art I
 AR-298 Mixed Media Animation
 EN-273 Visual Literacy
 EN-374 Ethical Game Design
 EN-376 Writing Across Media
 EN-378 Video Production Writing
 IM-110 Principles of Digital Media
 IM-242 Info Visualization
 IM-250 Digital Audio Production
 IM-360 Digital Video Production
 IM-361 Video Production II
 IM-375 Community Design Lab
 MU-111M Composition/Song Writing
 ND-271 3D Design, Scanning & Printing
 ND-311 Digital Ethics
 RL-210 Sacred Landscapes
 CM-420E Digital Storytelling
 HS-309 Civil War and Reconstruction
 HS-367 Women in Africa

DEPTH REQUIREMENT:

Complete three additional courses within a single humanities department from the list below: (When a desired Digital Humanities topic is not represented, an Independent Study may be substituted with approval of a Digital Humanities advisor)

AN-255 Applied Archaeology
 AR-104 Design and Color
 AR-203 Digital Photography I
 AR-204 Digital Art I
 AR-298 Mixed Media Animation
 EN-273 Visual Literacy
 EN-374 Ethical Game Design
 EN-376 Writing Across Media
 EN-378 Video Production Writing
 IM-110 Principles of Digital Media
 IM-242 Info Visualization

IM-250 Digital Audio Production

IM-360 Digital Video Production
 IM-361 Video Production II
 IM-375 Community Design Lab
 MU-111M Composition/Song Writing
 ND-271 3D Design, Scanning & Printing
 ND-311 Digital Ethics
 RL-210 Sacred Landscapes
 CM-420E Digital Storytelling
 HS-309 Civil War and Reconstruction
 HS-367 Women in Africa

CAPSTONE:

A self-designed Independent Study with a Digital Humanities instructor is required. The Independent Study must highlight the knowledge and skills of the certificate seeker.

Certificate Credit Total = 21 or more

Genomics, Ethics, and Society Certificate

CORE COURSES

GENOMICS, ETHICS & SOCIETY:

Complete one of the following courses:

IC-203 Genomics, Ethics & Society
 CONN-303 Genomics, Ethics, and Society

MOLECULAR BIOLOGY, GENETICS & GENOMICS:

Complete one of the following courses:

BI-101 General Biology I
 BI-106 Functions of Cells and Organisms
 BI-190 Human Biology

STATISTICS:

Complete 3 credits from the following courses:

BI-305 Biostatistics
 ESS-230 Environmetrics
 MA-220 Introduction to Probability & Statistics

ADDITIONAL CORE COURSES

Complete one of the following categories below:

INFORMATICS & ANALYSIS OF LARGE DATA SETS:

Complete one of the following courses:

CS-110 Computer Science I
 IM-241 Info. Discovery and Architecture
 BI-331 Molecular Microbiology

BI-332 Molecular Microbiology Lab
 BI-400 Environmental Genomics
 BI-405 Bioinformatics Fundamentals
 BI-489 Biology Research

ADDITIONAL CORE:

Complete one of the following groups below:

GROUP 1:

CS-255U Unix Programming
 CS-255P Perl Programming

GROUP 2:

CS-255U Unix Programming
 CS-255Y Python Programming

ELECTIVES:

ELSI GENOMIC THEMES:

Complete three of the following courses below:

HS-313 Disease, Medicine & Empire
 HS-314 Medieval Medicine
 PL-235 Ethics of Health Care
 PL-250 Science and Human Values
 PL-260 Philosophy of Science
 PY-302 Moral Judgment
 BI-270 Infectious Disease & Society
 ED-202 Science and Society
 CONN-202 Science and Society
 EB-375 21st Century Leadership

NOTE: Students enrolled in EB-375 must also complete EB-120.

Certificate Credit Total = 18-21

Geographical Information Systems Certificate

QUANTITATIVE FIELD INTRO

Complete one course from either track below:

ENVIRONMENTAL TRACK:

ESS-100 Environmental Systems I

IT TRACK:

IT-111 Principles of IT Science
 CS-110 Computer Science I

STATISTICS or DATA ANALYSIS CORE

Complete one course from either track below:

ENVIRONMENTAL TRACK:

ESS-230 Environmetrics
 BI-305 Biostatistics

IT TRACK:

IM-241 Info. Discovery and Architecture

GEOGRAPHICAL INFORMATION CORE

Take the following courses below:

ESS-330 Geographical Information Systems
 ESS-377 GIS Advanced Topic

FIELD DATA COLLECTION

Complete one course from either track below:

IT TRACK:

CS-370 Database Management Systems

ENVIRONMENTAL TRACK:

BI-300 General Ecology
 ESS-328 Limnology
 ESS-340 Forestry
 ESS-345 Ichthyology
 ESS-350 Field Research Methods
 GL-240 Geological Field Methods I

CAPSTONE OR PROJECT REQUIREMENT

Complete one of the following tracks below:

(OPTION 1) - IT TRACK:

IT-307 Project Management
 IT-308 Innovations for Industry I
 IT-380 Innovations for Industry II

(OPTION 2) - IT TRACK:

IT-307 Project Management
 IT-308 Innovations for Industry I
 IT-480 Innovations for Industry III

ENVIRONMENTAL TRACK:

ESS-410 Water Resources II

Certificate Credit Total = 18-21

Academic Honors

DEAN'S LIST

At the end of each semester, the Provost announces the Dean's List. Matriculated students are named to the Dean's List when:

1. they have taken at least 12 graded credits,
2. they achieve an average of 3.60 or better, and
3. they have no unsatisfactory grades.

A notation of Dean's List achievement appears on the transcript.

Juniata students studying abroad will not be eligible for the Dean's List. Students who are partner degree visiting students and visiting non degree students are also not eligible for this notation.

GRADUATION HONORS

Honors are conferred at commencement ceremonies according to the following grade point average scale:

summa cum laude	3.90 - 4.0
magna cum laude	3.75 - 3.89
cum laude	3.60 - 3.74

Students who are partner degree visiting students are not eligible for graduation honors.

HONOR SOCIETIES

The Juniata College Honor Society is a group of junior and senior students elected on the basis of outstanding academic achievement and leadership ability. Other honor and honorary societies on campus also recognize students for their accomplishments: Alpha Phi Sigma (criminal justice), Beta Beta Beta (biology), Lambda Pi Eta (speech communication), The Masque (theatre), Omicron Delta Kappa (leadership), Phi Alpha (social work), Phi Alpha Theta (history), Pi Lambda Theta (education), Pi Sigma Alpha (politics), Psi Chi (psychology), Rho Epsilon Chapter of Gamma Sigma Epsilon (chemistry), Sigma Gamma Epsilon (geology), Sigma Iota Rho (international studies), Sigma Pi Sigma (physics), Sigma Tau Delta (English) and Tau Pi Phi (accounting, business and economics).

DISTINCTION IN THE POE

To achieve distinction in the POE, a student must fulfill all graduation requirements and complete a senior experience that integrates several areas of their POE. This requirement can be fulfilled in many ways. Some possibilities might include: an original independent creative project that involves significant academic work, such as laboratory research resulting in a significant report; a major paper on a well-defined project; a body of artistic work equivalent to a major exhibition or performance; or field experience (e.g.,

student teaching or certain internships) culminating in a significant report. The project must be evaluated and judged worthy of distinction in the POE by two faculty members, at least one of whom must be from the home department. The project must also be presented in a forum open to all interested parties, either at Juniata or to an outside audience such as the National Conference on Undergraduate Research (NCUR).

Departments and programs will be free to establish further requirements for receiving distinction in the POE, including higher GPA requirements.

Departments shall forward the names and forms of successful candidates for distinction to the Registrar's Office.

Special Juniata Programs

COOPERATIVE PROGRAMS

Health Professions Affiliations

A distinctive feature of the Juniata College Health Professions Program is a broad array of formal affiliation agreements. These agreements enable qualified students to gain early acceptance or accelerated admission into professional school programs.

Several types of programs are included, designated below by the number of years a student spends at Juniata College, followed by the number of years spent at the affiliated institution. The 3 +

_ programs allow students who matriculate at Juniata for three years and complete all the Juniata College general degree requirements, to earn degrees from both Juniata College and the corresponding professional institution.

The "_" designation indicates a variable number of years at the professional school, depending on the specialty chosen.

See the specific career track on the Health Professions website for details.

Chiropractic

4 + 3 B.S./D.C. program or 3 + 3 B.S./D.C. program with the Northeast College of Health Sciences

Dentistry

4 + 4 B.S./D.M.D. Early Acceptance program with the LECOM School of Dental Medicine

Medicine

4 + 4 B.S./D.O. Early Assurance Program with Lake Erie College of Osteopathic Medicine

4-year Lawrence Johnson Scholarship at the University of Rochester School of Medicine and Dentistry

Occupational Therapy

3 + 2 B.S./M.S.O.T. program with Jefferson School of Health Professions

Optometry

Regular Progression (4 years at Juniata) or 3 + 4 B.S./O.D. program with the

Pennsylvania College of Optometry at Salus University

Pharmacy

Regular Progression (4 years at Juniata) or 3 + 3 or 3 + 4 Accelerated or 4 + 3 or 4 + 4 Early Acceptance B.S./Pharm.D. programs with Lake Erie College of Osteopathic Medicine School of Pharmacy

Physical Therapy

Guaranteed Interview at Thomas Jefferson University DPT Program

Engineering: 3+2 Programs

Advisor: Professor White

Juniata participates with Columbia University, The Pennsylvania State University, and Washington University in St. Louis, in cooperative programs for training in engineering. The purpose of such arrangements is to produce engineers who are educated in the fullest sense, as well as competent specialists in a particular field.

The student takes three years of undergraduate work at Juniata. Upon recommendations of the adviser and fulfillment of the transfer requirements, including the required GPA, he or she then transfers to the engineering institution for two additional years of engineering study. Upon successful completion of the five years, the student receives two degrees; a bachelor's of science degree from Juniata and an engineering degree from Columbia

University, The Pennsylvania State University, or Washington University in St Louis.

Law: 3+3 Program

Advisor: Professor Barlow

The pre-legal student should seek a broad undergraduate experience in the liberal arts. Students interested in law should have a thorough command of English, an extensive background in research methods, skill and experience in developing logical arguments, and a critical understanding of the human institutions and values with which the law deals. They are strongly encouraged to develop proficiency in another language and to study abroad. Juniata also offers courses in conflict resolution, a growing field in the legal profession. Although students may develop any Program of Emphasis which suits their particular talents and interests, the experience of others indicates that English, history, politics, American studies, and economics are the most common programs of students entering law schools.

In addition to helping students through the process of applying to law school, the prelaw adviser assists with course selections that will fulfill their POE goals while providing them with appropriate skills for the study of law. In addition, he helps to provide students with resources to prepare for the LSAT and helps to arrange internships that allow students to explore the legal field while they are

in college. Students should plan to take the LSAT in the fall of the senior year and apply to law school by mid-January.

A special arrangement with the Duquesne University School of Law allows students to apply for admission to the Law School after three years of undergraduate study, allowing them to complete their degrees in six rather than seven years. Students must have an LSAT score that puts them at or above the 75th percentile, and a GPA of 3.36 or better.

DEGREE COMPLETION PROGRAMS

The Degree Completion programs are designed for Juniata College students who are not GPA deficient and wish to complete the requirements to earn a Juniata degree.

How you can reapply:

The readmission process requires the students contact the Dean of Students Office for readmission for degree seeking status. These students do not enter through Enrollment admissions as they are not first time degree seeking students. Once they have been cleared by the Dean of Students records for any behavioral sanctions, they are forwarded to the Registrar's Office for re-admittance.

Walker Program:

Students who have not completed their Walker requirements and/or who are

returning full-time to complete their degree:

- Regular admissions will include a statement letter of intent sent to the Registrar's Office who reviews with the Dean of Students to determine space accommodations for on campus living, and with the Provost and Academic Support office to review academic record for feasibility for completion and advisor assignment. A \$300.00 administrative fee may be applied when accepted into the program.

Completion Program:

It is designed for those former students who need to earn 30 semester credits or less to meet their degree requirements.

- Typically these students cannot return full-time on campus to finish requirements.
- Students will register for a Degree Completion Planning Seminar to work out the details of their program. Following that, the program requires enrollment in at least one semester. The Fall or Spring enrollment need not be full-time or on campus.
- The POE must be approved by the Department Chair.
- Upon readmission, students are assigned a POE advisor to assist them in developing a program of

emphasis which meets the degree requirements. The remaining credits needed to graduate may be earned through:

- regular courses offered at the College;
- through independent studies with the College faculty (including emeritus faculty) or with practitioners or scholars recognized as qualified by the Provost;
- or through courses taken at other accredited institutions.

Students may transfer in credits if the student has not exhausted the current transfer credit policy. A \$300.00 administrative fee is applied when accepted into the program.

Deadlines to apply for readmission to Juniata in the Degree Completion program:

- July 1 for Fall semester
- November 1 for Spring semester

ACADEMIC AMNESTY PROGRAM

Broad Guidelines:

- The Academic Amnesty Program applies only to students that have been away from the college for at least 5 years and wish to complete their degrees.

- Under the Academic Amnesty policy, a maximum of 15 credits (with grades) may be forgiven from the student's GPA calculation when he or she re-enters the college. Alternatively a student's GPA may be reset if the student has over 55 credits remaining to graduate.
- No grades will be removed from a student's permanent record
- Academic Amnesty can be offered only once per student
- Final transcript will show GPA before and after Amnesty administered, and the new or adjusted GPA will be marked, "Academic Amnesty"
- Students under this program will not qualify for academic honors, and their class rank will not be calculated

- All requests for implementation of degree completion programs, including academic Amnesty, will be heard by SAD
- Recognizing that certain areas of study may have changed dramatically over the course of decades, a student's POE must

be approved by the relevant department chair as a condition of re-entry.

- Curriculum committee will address concerns over outdated distribution requirements.
- Students who graduate in these programs may take part in the May commencement ceremony
- A \$300.00 administrative fee is applied when accepted into the program.

Accelerated Dual Degrees

At Juniata, students can complete a 3-year bachelor's program in select areas, and then continue into a 1-year MBA or Org Leadership master's program. With this pathway, students complete both a bachelor's and a master's degree in just 4 years. To complete both a bachelor's degree and master's degree by the end of year 4, students would need to take 5 to 6 classes per semester with each

academic year consisting of three semesters.

Students must apply for this program during the senior year of High School by applying to Juniata via the Common Application or the Juniata Application. To qualify for this program, students must express an interest, have a GPA above a 3.5.

- Business + MBA
- Chemistry + MBA
- Communication + MBA
- Communications + Organizational Leadership
- Environmental Studies + MBA
- Integrated Media Arts + MBA
- Integrated Media Arts + Organizational Leadership
- Psychology + MBA
- Psychology + Organizational Leadership
- Spanish + MBA

Graduate Degrees and Certificates

Graduate Programs of Study

MASTER OF ACCOUNTING

CORE COURSES

Take the following courses:

- AC-532 Corporate Taxation
- AC-533 Government and Non-Profit Accounting

AC-534 Advanced Accounting
 AC-535 Auditing
 AC-536 Federal Taxation of Individuals
 AC-537 Cost Accounting
 AC-538 Forensic Accounting
 AC-539 Accounting Research

ECONOMICS ELECTIVE

Take one of the following courses below:

AC-563 Financial Markets & institutions
 AC-564 Financial Theory & Analysis
 MBA-521 Health Economics
 MBA-523 Managerial Economics

MBA or DATA SCIENCE ELECTIVE

Take one 500 level MBA or Data Science course.

Program Credit Total = 30

Any course exception must be approved by Dr. Dom Peruso.

MASTER OF BUSINESS ADMINISTRATION

CORE COURSES

Take the following courses:

MBA-511 Quantitative Analysis & Research
Methods
 MBA-512 Organizational Behavior
 MBA-520 Strategic Marketing Management
 MBA-523 Managerial Economics
 MBA-531 Professional Ethics & Social
Responsibility
 MBA-532 Financial Reporting
 MBA-580 Project Management and Cntg
 MBA-590 International Business Strategy

ELECTIVE OPTIONS

Complete one of the following concentrations below:

CONCENTRATION IN HEALTH ADMINISTRATION:

Take 12 credits from the following courses:

MBA-521 Health Economics
 MBA-561 Healthcare Operations
 MBA-562 Healthcare Financial Management
 MBA-563 Healthcare Strategy

CONCENTRATION IN ACCOUNTING:

Take 12 credits from the following courses:

AC-532 Corporate Taxation
 AC-533 Government and Non-Profit Accounting
 AC-534 Advanced Accounting
 AC-535 Auditing
 AC-536 Federal Taxation of Individuals
 AC-537 Cost Accounting
 AC-538 Forensic Accounting

CONCENTRATION IN DATA SCIENCE:

Take 12 credits from the following courses:

DS-500 Data Science Fundamentals
 DS-510 Computer Science Fundamentals
 DS-516 Mathematics Fundamentals
 DS-520 Statistics Fundamentals
 DS-525 Data Acquisition & Visualization
 DS-530 Multivariate Techniques
 DS-552 Data Mining
 DS-570 Database Systems
 DS-575 Big Data Techniques

CONCENTRATION IN BUSINESS ADMINISTRATION:

Take 12 credits from the following courses:

MBA-502 21st Century Leadership
 MBA-541 Operations & Information Management
 MBA-521 Health Economics
 MBA-542 Entrepreneurial Management
 MBA-561 Healthcare Operations
 MBA-562 Healthcare Financial Management
 MBA-563 Healthcare Strategy
 MBA-571 Strategic HR Management & People
Analytics
 DS-500 Data Science Fundamentals
 DS-510 Computer Science Fundamentals
 DS-516 Mathematics Fundamentals
 DS-520 Statistics Fundamentals
 DS-525 Data Acquisition & Visualization
 DS-530 Multivariate Techniques
 DS-552 Data Mining
 DS-570 Database Systems
 DS-575 Big Data Techniques
 AC-532 Corporate Taxation
 AC-533 Government and Non-Profit Accounting
 AC-534 Advanced Accounting
 AC-535 Auditing
 AC-536 Federal Taxation of Individuals
 AC-537 Cost Accounting
 AC-538 Forensic Accounting

Program Credit Total = 36

Any course exception must be approved by Dr. Dom Peruso.

MASTER OF EDUCATION

CORE COURSES

Take the following courses:

- ED-501 Foundations of Special Education
- ED-502 Special Education Law
- ED-503 Understanding the Research in Special Ed

ELECTIVE COURSES

Take the following courses:

- ED-504 Supporting Students w/Behavioral Needs
- ED-505 Assessment: Using Data to Drive Decisions
- ED-506 Effective Instruction for All
- ED-507 Science of Reading
- ED-508 Culturally Responsive Teaching
- ED-509 Low Incidence Disabilities
- ED-510 Capstone in Special Education

Program Credit Total = 30

Any course exception must be approved by Dr. Katie Hoffman.

MASTER OF ORGANIZATIONAL LEADERSHIP

CORE COURSES

Complete 27 credits from the following courses below:

- ORG-501 Organizational Psychology
- ORG-502 21st Century Leadership
- ORG-510 Organizational Communication and Culture
- ORG-511 Quantitative Analysis & Research Methods
- ORG-512 Organizational Behavior
- ORG-520 Strategic Marketing Management
- ORG-530 Conflict and Change
- ORG-531 Profsnl Ethics & Social Respsnbly
- ORG-542 Entrepreneurial Management
- ORG-571 Strategic HR Mgmt & People Analytics

CAPSTONE

Take the following course:

- ORG-595 Capstone

Program Credit Total = 30

Any course exception must be approved by Dr. Dom Peruso.

MASTER OF SCIENCE IN BIOINFORMATICS

CORE COURSES

Take the following courses:

- BIN-500 Bioinformatics Fundamentals
- DS-510 Computer Science Fundamentals
- BIN-516 Molecular and Cellular Biology
- DS-520 Statistics Fundamentals

ELECTIVES

Complete 11 credits from the following courses below:

COMPUTATIONAL:

- DS-500 Data Science Fundamentals
- DS-516 Mathematics Fundamentals
- DS-525 Data Acquisition & Visualization
- DS-530 Multivariate Techniques
- DS-552 Data Mining
- DS-570 Database Systems
- DS-575 Big Data Techniques

BIOTECHNOLOGY:

- BIN-560 Genetic Analysis
- BIN-580 Advanced Research Methods
- BIN-600 Environmental Genomics

CAPSTONE EXPERIENCE

Take one of the following courses below:

- BIN-581 Bioinformatics Capstone
- DS-580 Data Science Capstone

Program Credit Total = 30-32

Any course exception must be approved by Dr. Regina Lamendella.

MASTER OF SCIENCE IN DATA SCIENCE

CORE COURSES

Take the following courses:

- DS-500 Data Science Fundamentals
- DS-510 Computer Science Fundamentals
- DS-516 Mathematics Fundamentals
- DS-520 Statistics Fundamentals
- DS-525 Data Acquisition & Visualization

DS-570 Database Systems
DS-580 Data Science Capstone

ELECTIVE COURSES

Complete 9 elective credits from the following courses:

DS-530 Multivariate Techniques
DS-552 Data Mining
DS-575 Big Data Techniques

MBA-511 Quantitative Analysis & Research Methods
BIN-500 Bioinformatics Fundamentals
BIN-580 Advanced Research Methods
BIN-600 Environmental Genomics

Program Credit Total = 30-32

Any course exception must be approved by Dr. Kim Roth.

Courses of Instruction

Undergraduate Courses

ART HISTORY

AH-001 Non-Credit Art History Internship (Variable; Variable; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the students' area of concentration. Note: See the chapter "Special Programs" under Internships; listed as Internship (Title); must be 6 weeks long. Prerequisite: Permission.

AH-108 Cross-Cultural Art 1 (Variable; Yearly; 4.00 Credits; F, I, SW-GE) This course will examine art from around the world produced between the prehistoric era and the 14th century. We will consider perspectives for understanding cross-cultural encounters, examine the impact of cultural exchange on the development of art, and emphasize the historical and global context of various artistic movements and artists. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

AH-113 Cross-Cultural Art 2 (Variable; Yearly; 4.00 Credits; F, I, SW-GE) This course will examine art from around the world produced between the 14th century and the present. We will 1) consider perspectives for understanding cross-cultural encounters in an increasingly diverse and interconnected world and 2) emphasize the historical and global context of various artistic movements & artists. Pre-Req or Co-Req: FYC-

101 or EN-110 or EN-109 (NOTE: AR-108 Cross-Cultural Art 1 is NOT a prerequisite for this course.)

AH-199 Special Topics in Art History (Variable; Variable; 1.00-4.00 Credits) Offers supplemental courses to the regular departmental course catalog, exploring topics and areas not regularly scheduled. Note: Students may take each special topics course for credit.

AH-295 Methods in Art History (Variable; Variable; 4.00 Credits; F, I) This course provides an introduction to the discipline of art history through an exploration of the many methodologies employed by art historians to understand works of art from the classical to the contemporary. Students will engage with the questions and debates that have shaped the field of art history through an examination of the discipline's rich and varied theoretical literature.

AH-299 Special Topics in Art History (Variable; Variable; 1.00-4.00 Credits) Offers supplemental courses to the regular departmental course catalog, exploring topics and areas not regularly scheduled. Note: Students may take each special topics course for credit.

AH-301 Afr-Amer Art: Slavery to Social Justice (Either semester; Variable; 4.00 Credits; F, I, CA, CW, SW-US) Considers the work of African-American artists from the American colonial period to the present, seeking

to understand the works of painting, sculpture and other media as the products of major cultural movements such as the New Negro Movement, Harlem Renaissance, and Civil Rights Movement, but also as the unique expressions of individual artists. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-303 Reframing American Art to 1876 (Either semester; Variable; 4.00 Credits; F, H, SW-US) This course will introduce you to the ways in which American visual arts articulate cross-cultural encounters, from times of diverse Native groups, through later engagements with European colonizers, American slaves, and immigrants. We will look at how the historical experience of different groups is shaped and how those experiences are translated into art produced by artists of varied backgrounds. Pre- or Co-requisite: FYC-101 or EN-110 or EN-109.

AH-304 Reframing American Art from 1876 (Either semester; Variable; 4.00 Credits; F, H, SW-US) This course will introduce you to painting, sculpture, photography, and architecture produced in the United States after 1876. We will consider the ways in which American artists negotiated questions of international influence, training, gender and race as the country began rebuilding its infrastructure and asserting a new international presence in the years following the Civil War. Prerequisite: FYC-101 or EN-110 or EN-109.

AH-309 Expanding the Renaissance (Variable; Yearly; 4.00 Credits; F, I, CW, WK-HT) This course will provide an understanding of Renaissance-era art by examining paintings, sculpture, and architecture. We will explore the sense of continuity among the works and discover how each work is uniquely individual; attempt to decenter Italy as the area with the most important artists of the period; and invite conversations that account for cultural interactions. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-310 Global Baroque Art & Architecture (Variable; Yearly; 4.00 Credits; F, I, CW, WK-HT) The Baroque is a global style that appeared in various parts of the world in the 17th and 18th centuries. In this course, you will learn how styles developed/changed as a reaction to/against social, political, religious, economic, and aesthetic issues. You will compare monuments from different parts of the world to gain an understanding of local meaning and cross-cultural connections. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-311 Art of Ancient Peoples (Either semester; Variable; 4.00 Credits; F, I, WK-HT) Studies art and architecture from Prehistory through Ancient Rome, with particular emphasis on architecture and sculpture and their purpose in cultural and political activities. Course will draw from art historical and archaeological approaches. Pre-req: FYC-101 or EN-110 or EN-109. (Previously titled as Ancient Art & Architecture.)

AH-312 Medieval Art: Really a Dark Age? (Variable; Variable; 4.00 Credits; F, WK-HT) This course concentrates on the arts and architecture of Europe from 300 to 1250. Works are drawn from the late Antique, Byzantine, Migratory, Carolingian, Ottonian, Romanesque, and Gothic periods. Special emphasis on the relationship between religious, economic, social, and political forces and how they affected the arts of this era. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-313 Northern Renaissance Art (Variable; Variable; 4.00 Credits; F, I) Study of the arts in Northern Europe (mainly Germany and the Netherlands) in the 15th and 16th centuries with a particular focus on the patronage of mercantile centers and courts. Artists to be considered include Campin, Van Eyck, Van der Weden, Durer, Grunewald, Bosch, and Bruegel.

AH-316 Art & Revolution: 19th Century Europe (Variable; Yearly; 4.00 Credits; F, I, CS, WK-HT) This course introduces major themes in 19th century European art, with an emphasis on French painting. We will consider revolutionary impacts on art; the Napoleonic presence abroad; the shift from history painting to realism; issues related to class and gender. Students will gain an understanding of the stylistic principles and historical contexts in which 19th-century art was created. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-329 Impressionism to Abstract Expressionism (Variable; Yearly; 4.00 Credits; F, I, CW, WK-HT) This course investigates artistic developments that shaped the rise of Modernism in Europe and the U.S. from the late 19th-mid 20th century. We will discuss various media and consider the ways in which artists responded to changing cultural conditions. Students will develop a critical understanding of the discipline of art history and acquire the skills necessary to interpret/analyze visual imagery. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-330 Why Is That Art? 1945-Present (Variable; Yearly; 4.00 Credits; F, I, WK-HT) What makes something a work of art? Why do certain objects end up in museums? This course will answer those questions by surveying major artists and global movements from World War II through the present day. The impact of globalization on art and the predominance of socially engaged art in the 21st century will be considered. Pre-Req: FYC-101 or EN-110 or EN-109.

AH-399 Special Topics in Art History (Variable; Variable; 1.00-4.00 Credits; F, H, I, WK-HT) Offers supplemental courses to the regular departmental course catalog, exploring topics and areas not regularly scheduled. Note: Students may take each special topics course for credit. Prerequisite or corequisite: FYC-101 or EN-110 or EN-109.

AH-399A ST: Art and Dictatorships (Variable; Variable; 4.00 Credits; F, I, SW-GE) This course explores the relationship between art and power in Modern non-democratic regimes. While the focus is on the Soviet, Fascist, and Nazi regimes, other dictatorships throughout the world and to our present-day are considered as well. A wide range of works will be discussed, from painting and sculpture to large-scale architecture, from cinema and photography to music and literature. Pre- or Co-Req: FYC-101 or EN-110 or EN-109

AH-490 Intern/Need Paperwork (Variable; Variable; 2.00-9.00 Credits) Students will work under the supervision and guidance of a faculty member or internship sponsor.

AH-492 Senior Thesis in Art History (Variable; Yearly; 3.00 Credits; F, CW) Involves one full semester of research and writing. A thesis statement, bibliography, and outline are to be followed by a rough draft which is expected by mid-term. After revisions, the completed paper is due by the end of the semester. Students may choose to write about a specific work (or several works) of art, and relevant artists, styles, influences, etc. The thesis may be comparative, but it must be analytical. Instructor permission required.

AH-495 Internship Research Seminar (Variable; Variable; 4.00-6.00 Credits) See Internships in the catalog.

AH-499 Special Topics in Art History (Variable; Variable; 1.00-4.00 Credits) Offers supplemental

courses to the regular departmental course catalog, exploring topics and areas not regularly scheduled. Note: Students may take each special topics course for credit.

AH-INS Art History Independent Study (Irregular/On Demand; Irregular/On Demand; 1.00-4.00 Credits) See catalog.

ANTHROPOLOGY

AN-001 Non-Credit Sociology Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs under Internships; listed as Intern ship: (Title); must be 6 weeks long. Prerequisite: permission.

AN-151 Introduction to Anthropology (Fall and Spring; Yearly; 3.00 Credits; S, I) Dedicated to the proposition that there are many ways of being human, all of which are adaptations to particular sets of environmental and historical conditions. Trends and highlights of the human experience, both physical and cultural, are studied from a sociocultural perspective.

AN-254 Archaeology & Human Prehistory (Fall only; Yearly; 3.00 Credits; S, I) Through readings, lectures, films, and discussions about a variety of archaeological sites, from Alaska to Zimbabwe, students are introduced to our earliest ancestors, to the diversity of prehistoric cultures, and to the origins of Western civilization.

AN-255 Applied Archaeology (Either semester; Yearly; 3.00 Credits; SW-LE, CTDH, H) Applied Archaeology follows a seminar format combined with active learning involving collaboration with community partners on historic preservation projects. This course introduces students to the study of the physical traces left by people in the past, emphasizing methods of identifying, documenting, curating, and analyzing historical sites and artifacts. Students study archaeological collections through an anthropological lens via laboratory and historical research techniques, including new technologies of the digital humanities. Pre- or Co-req: FYC-101 or EN-110 or EN-109.

AN-299 Anthropology Special Topics (Variable; Variable; 1.00-4.00 Credits) Special topics course

AN-300 Anthropology of War & Peace (Either semester; Variable; 3.00 Credits; S, I) A study of the incidence and nature of cooperation, competition, and conflict in human cultures. Evidence will be drawn from archaeological, ethnological and ethological data. Prerequisite: AN151 or PACS110.

AN-310 American Indians (Variable; Variable; 3.00 Credits; S) An examination of the social, economic and political lives of reservation and non-reservation American Indians set in the historical context of their minority treatment. Prerequisites; SO101 or AN151 or AN254.

AN-311 Topics in Anthropology (Spring only; Variable; 3.00 Credits; S) Occasional offerings in which students and a professor explore an area of specialized interest. Some themes include religion, gender, culture change, cultural ecology, frontiers and insider/outsider. Prerequisites: AN151 or AN254.

AN-316 North American Prehistory (Variable; Variable; 3.00 Credits; S) A survey of the archaeological evidence in North America before 1492. Students learn about the diversity of groups, ranging in size from small bands of hunter-gatherers to highly complex societies, and how they exploited various ecological niches.

AN-351 Cultures of the World (Variable; Variable; 3.00 Credits; S, I) An introduction to the variation in human cultural systems. A cultural perspective is used to examine diversity in band, tribal, chiefdom, and state level societies. Prerequisites: AN151 or AN254 or permission.

AN-353 Archaeological Fieldwork (Summer only; Irregular/On Demand; 2.00-4.00 Credits; S) An introduction to the ethics, principles and techniques of archaeological field research that includes a practicum with actual excavations on both prehistoric and historic sites.

AN-355 Evolution, Medicine and Health (Variable; Yearly; 3.00 Credits; S, N) This course focuses on the relationships among human ecology, population change, health and disease, social inequity, and adaptation in modern and prehistoric societies. Explores the origins of and pathways toward risk for infectious and chronic diseases, emphasizing the principles of epidemiology and the evolutionary history of both humans and pathogens. Prerequisites: AN151, and BI105 or BI190

AN-399 Special Topics (Spring only; Yearly; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

AN-411 History of Anthropological Thought (Variable; Variable; 3.00 Credits; S, CW) Explores the major theoretical orientations of American and European Anthropology, including: functionalism, structuralism, social evolutionism, symbolic anthropology, as well as a consideration of Marxist, feminist and indigenous critiques. A capstone integrative experience for all upper level anthropology POEs. Prerequisites: AN151 or AN234.

AN-451 Cultural Ecology (Spring only; Even Years; 3.00 Credits; S) An examination of the relationships between man and his environment, particularly noting how ecological variables influence such cultural patterns as subsistence, settlement, social relationships and stress behaviors. Some consideration is given to problems of the future. Prerequisite: AN151 or AN254.

AN-452 Archaeology Lab (Either semester; Variable; 3.00 Credits; S) Provides instruction in all of the processes involved in preservation, conservation, cataloging, illustrating and analyzing artifacts and other materials from archaeological excavation. In addition to general experience, students specialize in an analytical technique of their choice. Prerequisites: AN151 and SO353.

AN-453 Archaeology (Variable; Variable; 3.00 Credits; S) An advanced introduction to archaeological method and theory. Students use a computer-simulated excavation to develop research problems, design research strategies, and collect, analyze, and interpret data. Prerequisite: AN254 and ND.SS214.

AN-454 Ethnology (Variable; Variable; 3.00 Credits; S, I) An introduction to cross-cultural research. Using statistical methods and data from ethnographic sources, students examine patterns of cultural continuity and discontinuity, and test hypotheses about human cultural systems. Prerequisites: AN151 & ND.SS214.

AN-490 Internship/Need Paperwork (Variable; Variable; 2.00-9.00 Credits) See catalog.

AN-495 Internship Seminar (Variable; Variable; 2.00-6.00 Credits) See catalog.

AN-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally offered. Prerequisites vary by topic.

AN-INS AN Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog under Independent Studies.

ART

AR-001 Non-Credit Art Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter under "Special Programs" under Internships. Internship must be at least 6 weeks long. Prerequisite: permission.

AR-103 Beginning Drawing (Variable; Yearly; 4.00 Credits; F, WK-CE) This course will explore the fundamental concerns as well as representational methods and concepts. Using line, shape, form, volumetexture, and the effective spatial organization of these elements, students will develop perceptual and technical skills to interpret form and space. Students will work with graphite and charcoal, pencil, ink, and other media. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

AR-104 Design and Color (Variable; Yearly; 3.00 Credits; F, CTDH) The discipline of design is basic to all forms of visual art, including painting, drawing, photography, ceramics, and illustration. This course is designed to acquaint the student with the basic elements of picture structure: composition, line, shape, value, texture, color, scale, proportion, tension, and balance.

AR-117 Intro to Sculpture (Variable; Yearly; 3.00 Credits; F, WK-CE) This course is an introduction to the foundational concepts and creation of sculpture. We will explore various techniques related to wood working, metal working, fiber arts, and glass casting; along with aesthetic, historical, and cultural considerations associated with 3-dimensional art. Through this course, students will begin developing their artistic voice by experimenting with and apply these concerns in their work.

AR-125 Explorations in Clay (Variable; Yearly; 3.00 Credits; F, WK-CE) This course introduces students to the basic techniques of hand-built ceramics. The

fabrication techniques of pinching, coiling, and slabbing are combined with conceptual concerns of creating art pottery. Throughout the course of the semester students will develop their skills and understanding of Art both as a maker and as an audience. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

AR-175 Introduction to Nature Photography (Variable; Variable; 3.00 Credits; F, WK-CE) This course is an introduction to nature photography. Students will learn to capture a balanced composition that represents elements of nature through digital photography. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

AR-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of art not currently included in the regular course offerings. Prerequisites will vary based on the course being offered. Special fees may apply.

AR-200 Beginning Painting (Variable; Yearly; 4.00 Credits; F, WK-CE) Introductory course which investigates perceptual and technical aspects of painting which build off of Drawing, 2D Design and Art History. Students work in oil paint, learn various support construction, mediums, traditional methods (including making and altering paint chemistry) and color theory. Demonstration, reading, lectures and slide presentations supplement studio sessions and outside projects. Materials are ordered for the student. Taking an introductory level drawing course prior to enrollment in Basic Painting is highly encouraged (but not mandatory). Note: Drawing courses from high school may provide adequate preparation. Please contact the course instructor for more information. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

AR-202 Water-Based Media Painting (Variable; Yearly; 4.00 Credits; F, WK-CE) An introductory course that investigates perceptual and technical aspects of painting which build off of drawing, 2D design, and art history. Students work in water-based paint, learn various support construction, mediums, traditional methods (including making and altering paint chemistry), and color theory. Demonstration, reading, lectures, and slide presentations supplement studio sessions and outside projects. Materials are ordered for the student. Taking an introductory level drawing course prior to enrollment in painting class is highly encouraged (but not mandatory). Note: Drawing

courses from high school may provide adequate preparation. Please contact the course instructor for more information. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

AR-203 Digital Photography I (Variable; Yearly; 4.00 Credits; F, WK-CE) This course focuses on photography and the creation of digital imagery. Students will learn to operate a DSLR camera and complete projects utilizing a variety of photographic techniques and genres. Students will learn to express visual concepts through photography while utilizing specific techniques unique to the creation of digital photographic artwork. Final works will be exhibited electronically and in print. Students will also look at the work of contemporary photographers and prepare a presentation on one photographer. The course utilizes primarily Adobe Photoshop on a Mac platform. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

AR-204 Digital Art I (Variable; Yearly; 4.00 Credits; F, CTDH, WK-CE) This course focuses on the creation of art through electronic processes. Adobe Creative Cloud and other apps will be utilized along with scanners, cameras, and printers. Final works will be exhibited electronically and in print.

AR-208 Beginning Photography (Variable; Yearly; 4.00 Credits; F, WK-CE) This foundational photography course does not assume any prior knowledge of black and white materials or 35mm camera operation. It is designed to introduce students to basic principles of camera and darkroom equipment operation. Students will seek a fine balance between technical acquisition of the photographic skills (such as correct film exposure, film development, and paper processing) and the ability to implement them to communicate a personal vision. Emphasis will be placed on learning basic principles of photography and an ability to express this knowledge creatively through high quality black and white photographs. Students will be exposed to aspects of the history of photography and visual language in photography today. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

AR-211 The Art of Bookmaking (Variable; Yearly; 3.00 Credits; F, WK-CE) This course will introduce fiber to students at its most sophisticated and expressive, mode: Book Arts. Students will be taught basic book-making techniques as well as a brief history of visual communication (both functionally and aesthetically). Students will create projects that challenge traditional

notions of the book within the visual arts. Students will participate in such activities as papermaking, sewing, stitching, and other techniques used to alter the idea of published material and written communication. Note: Additional lab fees apply. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

AR-215 Ceramic Sculpture (Variable; Yearly; 3.00 Credits; F, WK-CE) Ceramic Sculpture introduces students to the basic methods and techniques of creating three-dimensional objects in clay. Students will learn various hand-building techniques as well as the technical, historical, and cultural considerations associated with 3-dimensional art. Through this course, students will develop their own artistic voice by experimenting with and apply these concerns in their ceramic work. Pre-requisite or co-requisite: FYC-101 or EN-110 or EN-109

AR-220 Formulating Beauty: Ceramic Chemistry (Variable; Yearly; 3.00 Credits; WK-SP) This course is an introduction to ceramic chemistry as related to the formulation of glaze for ceramic wares. Students will engage in experimentation with various materials to gain an understanding of how they contribute to and affect the fired glaze. Along with formulation, health hazards and food safety will be addressed and investigated throughout the course. Pre-requisite: FYC-101

AR-225 Wheel Throwing (Variable; Yearly; 4.00 Credits; F, WK-CE) This course will introduce students to the techniques of the potter's wheel and expressive qualities of clay as an artistic medium as well as an essential commodity. Students will learn wheel-throwing techniques to incorporate form, function, and design with each project. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

AR-235 Empty Bowls Practicum (Variable; Yearly; 4.00 Credits; F, SW-LE) Students will learn to create functional bowls to be donated to the annual Empty Bowls fundraising event that supports Huntingdon County food banks. Additional and complementary topics will include philanthropy, altruism, and empathy-building activities. Students will develop the knowledge and skills needed to engage effectively with the local communities they will inhabit throughout their lives. Creative thought and discourse will occur throughout the semester.

AR-298 Mixed Media Animation (Alternate Years ; Variable; 4.00 Credits; F) Introduces students to

animation through stop motion techniques and 2D computer animation. An emphasis is placed on storytelling and examining the physics of movement. Adobe Creative Cloud apps will be used in addition to Dragon Frame and traditional stop motion techniques. Projects will start by exploring the history of animation techniques and principles and culminate in independent projects.

AR-299 Special Topic (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of art not currently included in the regular course offerings. Prerequisites vary based on the course offering. Special fees may apply.

AR-300 Intermediate Painting (Variable; Yearly; 4.00 Credits; F) This course is designed for advanced students to broaden their understanding of painting, refine techniques, visualize sophistication of concepts, and begin building a personal portfolio that reveals an attempt at a search for meaning/content, personal style, and individual expression. Students will build upon foundational painting skills acquired in introductory level painting by exploring color and tonal relationship through a variety of applications and techniques of the oil media. Students will also investigate descriptive and expressive possibilities in painting introduced through technical and conceptual painting problems designed to develop observational and conceptual awareness. Prerequisites: AR200 and Art POE or permission of the instructor. Note: A special fee for art supplies is applied.

AR-305 Intermediate Ceramics (Variable; Yearly; 4.00 Credits; F) This course will investigate advanced ceramic techniques and concepts to strengthen students' abilities to utilize clay as a creative medium. Sophisticated and expansive projects will merge personal investigation, aesthetic sensibilities, and technical skills as a means of expression. Students will participate in other areas of ceramics, such as loading and unloading kilns and making clay. Prerequisites - Take ONE of the following: AR-125, AR-215, AR-225, AR-235, or by permission.

AR-308 Intermediate Photography (Variable; Variable; 3.00 Credits; F) Building upon the experiences of Basic Photography, this course will concentrate on black and white photography; however, students will be encouraged to go beyond the boundaries of a conventional black and white print by incorporating a range of techniques, paper sizes, and alternative processes. Students will be exposed to the work of

early and contemporary photographers through thematically structured lectures based upon significant historical and contemporary themes, concepts, and ideas. Students will be expected to produce work with deeper content and individual expression. Prerequisite: AR208. Note: A special fee for art supplies is assessed.

AR-323 Wheel Throwing II (Either semester; Variable; 3.00 Credits; F) This course is designed to investigate more complex theories and techniques of wheel-thrown ceramics. Sophisticated and expansive projects will fuse personal investigation, aesthetic sensibilities, and technical skills as a means of expression. Students are encouraged to challenge constraints of the material as well as their comfort level - it is only through the process of trying that one can never truly fail. Prerequisites: AR225. Note: A special supply fee is assessed on this course.

AR-335 Empty Bowls Practicum (Variable; Yearly; 4.00 Credits; F) Students enrolled in AR335 will create functional bowls to be donated to the annual Empty Bowls event in order to raise money for Huntingdon County food banks. Reflection on philanthropy and national hunger will be the secondary focus of the course. Prerequisite: AR225

AR-392 Museum Education (Fall only; Variable; 3.00 Credits; F) This course will study the history, theory, and practice of museum education. The class combines lectures, round table discussions, and design strategies for successful museum education programs for a variety of audiences. Students implement their learned skills through a series of programs that they design and implement for pre-selected groups. Prerequisites: AR-110 or AR-130.

AR-395 Advanced Photography Topics (Variable; Variable; 3.00 Credits; F) This course will expand upon students' understanding of photography and digital art. The class is structured around modules that dive into different genres, like documentary, still life, or fashion, and will end with an ambitious self-directed project. Advanced shooting, editing, and printing techniques will be covered. PRE-REQ (either/or): Digital Art (AR204), Digital Photo (AR203), BW Photo (AR208) Course Fee

AR-398 3D Computer Animation (Variable; Yearly; 4.00 Credits; F) Introduction to 3D animation using Autodesk Maya, though other programs will be used. Emphasis is placed on improving time-based design

and story-telling by studies that explore movement, cinematography, editing, sound, and lighting.
Prerequisite: AR-104 or AR-204 or IM-110 or AR-298.

AR-399 Special Topics in Art (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of art not offered. Prerequisites vary based on the course offering. Special fees may apply.

AR-400 Advanced Painting (Variable; Yearly; 4.00 Credits; F) This course is designed for advanced students to broaden their understanding of painting, and their refine techniques. This course will help students build a personal portfolio that conveys a search for meaning/content, personal style, and individual expression. Students will build upon painting skills acquired in introductory and intermediate level painting courses by investigating descriptive and expressive possibilities in painting. Painting abilities and techniques should be refined this semester, as well as sophistication of concepts. An emphasis will be placed on solving conceptual problems in painting in a context relevant to contemporary art. Prerequisites: AR200 and AR300 and Art POE or permission of the instructor. Note: A special fee for art supplies is assessed.

AR-405 Advanced Ceramics (Variable; Yearly; 4.00 Credits; F) Students will propose individually-designed, sophisticated and expansive projects that display dedication to a cumulative sense of aesthetic sensibilities, technique(s), visual vocabulary, and concept utilizing clay as the primary medium. Creative thought and discourse will occur throughout the semester. Interaction will be expected during open forum sessions of AR405. Prerequisites - AR305 or by permission. Additional lab fees apply.

AR-451 Capstone in 2D Studio Art I (Variable; Yearly; 4.00 Credits; F) This course provides students with the time, focus, and experience to develop an art portfolio in preparation for entrance to graduate art programs or a career in visual arts. Students must have twelve credits of advanced courses (300 and 400 level) in one or more of the following art disciplines: Drawing, Painting, Photography, Ceramics, Sculpture (3-D arts), and Art History.

AR-452 Capstone in 2D Studio Art II (Spring only; Yearly; 3.00 Credits; F) This course provides students with the time, focus, and experience to develop an art portfolio in preparation for entrance to graduate art programs or a career in visual arts. Students must

have twelve credits of advanced courses (300 and 400 level) in one or more of the following art disciplines: Drawing, Painting, Photography, Ceramics, Sculpture (3-D arts) and Art history.

AR-453 Capstone in 3D Studio Art I (Variable; Yearly; 4.00 Credits; F) This course provides students with the time, focus, and experience to develop an art portfolio in preparation for entrance to graduate art programs or a career in visual arts. Students must have twelve credits of advanced courses (300 and 400 level) in one or more of the following art disciplines: Drawing, Painting, Photography, Ceramics, Sculpture (3-D arts) and Art history.

AR-454 Capstone in 3D Studio Art II (Spring only; Yearly; 4.00 Credits; F) Students will create a body of work to display in the spring Capstone exhibition. Independent investigations may vary in medium; capstones are offered to students who have displayed advanced talent and comprehension of material(s). Sophisticated and expansive projects will be individually designed by each student that displays dedication to a cumulative sense of aesthetic sensibilities, technique(s), visual vocabulary, and concept. Creative thought and discourse will occur throughout the semester. Interaction will be expected during open forum sessions of AR-454. Prerequisite: AR-405 or by permission. Additional lab fees apply.

AR-490 Art Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; F) Students will work under the supervision and guidance of a faculty member or internship sponsor. Internships may be in the fields of the fine arts, art history, or museum studies. Students may work as fine arts apprentices, museum interns, curatorial assistants, etc. Note: May be repeated to a total of 9 credit hours. Prerequisites: Permission and Jr. or Sr. standing. Corequisites: AR495.

AR-495 Art Research Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; F) Requires student to reflect on the experience and/or pursue relevant research. Corequisites: AR 490. Prerequisites: permission.

AR-498 Digital Photography II (Spring only; Variable; 3.00 Credits; F) This course expands upon the skills learned in Art 203 or Art 208 and exposes students to more advanced skills in fine arts digital photography. Students will work on advanced projects, skills and the creation of a final portfolio. There will be a field trip. Note: a special fee for supplies, equipment and

field trip will be applied. Prerequisites: Any ONE of the following courses: AR203 or AR208.

AR-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer topics not normally offered. Prerequisites and fees vary by title.

AR-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits)

AR-TUT Art Teaching Assistant (Variable; Variable; 1.00-4.00 Credits)

ASTRONOMY

AS-160 Measuring the Universe (Variable; Yearly; 4.00 Credits; N, WK-SP) This course explores what astronomers know about the size and scale of our Solar System, the Milky Way Galaxy, and the Universe as a whole. Hands-on exercises introduce students to the tools and techniques used to measure such immense distances. Pre- or Co-req: FYC-101 or EN-110 or EN-109.

AS-227 Archaeoastronomy (Variable; Yearly; 4.00 Credits; N, CA) An exploration of the role of astronomy and astronomers in early human cultures through an analysis of the scientific, historical, and social contexts in which these cultures existed. After a review of the principles of celestial mechanics as applied to the motion of the sun, moon, planets, and stars through the sky, we will study in-depth the practice of astronomy in three ancient cultures, including their calendars, architecture, religion, and myths. Pre-req: FYC-101 or EN-110 or EN-109.

AS-260 Observational Astronomy (Variable; Yearly; 4.00 Credits; N, WK-SP) An introduction to the instruments and techniques used by astronomers to measure the properties of celestial objects. Students will use the college's observatories to acquire and analyze astrometric, photometric, and spectroscopic data. No prior knowledge of astronomy or experience with telescopes is required. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

AS-300 Chile: Southern Stars I (Variable; Irregular/On Demand; 2.00 Credits; I, N, SW-GE) This Global Engagement course sequence (2-credit predeparture course in fall or spring semester plus a 2-credit short-term study abroad course in winter or summer term) is designed to provide students with a multidisciplinary exploration of astronomy and nature,

the human experience, and literary expression in Chile. Students will study astronomy, the history of Chile, and expressions of Chilean culture in film, essay, and poetry with a focus on the relationship to the night sky. During two weeks in Chile, students will engage in astronomical observations, literary discussions, and cultural activities. Travels to international observatories, pre-Columbian archaeoastronomy sites, natural wonders such as the Humboldt Penguin Reserve and the Tatio Geysers, historical landmarks, and cultural events will expose students to diverse aspects of Chile's natural environment and cultural production. (Must complete both AS-300 and AS-301 to fulfill one of the Global Engagement requirements.) The total fee is split between the two courses, AS-300 and AS-301.) Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

AS-301 Chile: Southern Stars II (Variable; Irregular/On Demand; 2.00 Credits; I, N, SW-GE) This Global Engagement course sequence (2-credit predeparture course in fall or spring semester plus a 2-credit short-term study abroad course in winter or summer term) is designed to provide students with a multidisciplinary exploration of astronomy and nature, the human experience, and literary expression in Chile. Students will study astronomy, the history of Chile, and expressions of Chilean culture in film, essay, and poetry with a focus on the relationship to the night sky. During two weeks in Chile, students will engage in astronomical observations, literary discussions, and cultural activities. Travels to international observatories, pre-Columbian archaeoastronomy sites, natural wonders such as the Humboldt Penguin Reserve and the Tatio Geysers, historical landmarks, and cultural events will expose students to diverse aspects of Chile's natural environment and cultural production. PreReq: FYC-101 or EN-110 or EN-109. (Must complete both AS-300 and AS-301 to fulfill one of the Global Engagement requirements.) The total program fee is \$3800, which is split between the two courses, AS-300 and AS-301.)

AS-350 Astronomy Research I (Variable; Yearly; 2.00-4.00 Credits) Observational, computational, or theoretical research into a topic in astronomy or astrophysics, under the guidance of a faculty member. May be taken multiple times for credit. Instructor permission required.

AS-390 Astrophysics (Variable; Variable; 4.00 Credits; N) This course explores the applications of physics to fundamental processes that occur in celestial objects. Topics may include celestial mechanics, radiation laws and spectra, stellar formation and evolution, the solar system, compact objects, extragalactic astronomy and galaxies, and cosmology. Pre-reqs: PC-300 and MA-235.

AS-450 Astronomy Research II (Variable; Yearly; 2.00-4.00 Credits) Observational, computational, or theoretical research into a topic in astronomy or astrophysics, under the guidance of a faculty member. A formal written report and public presentation of research results are required. May be taken multiple times for credit. Pre-requisites: AS-350 and permission of instructor.

AS-INS Astronomy Independent Study (Variable; Variable; 1.00-4.00 Credits) Independent study courses in Astronomy. Instructor permission required.

BIOLOGY

BI-001 Non-Credit Biology Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as Internship: (Title); must be 6 weeks long. Prerequisite: permission.

BI-002 Non-Credit Biology Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as Internship: (Title); must be 6 weeks long. Prerequisite: permission.

BI-101 General Biology I (Variable; Yearly; 4.00 Credits) General Biology I is the first course in the Biology POE core curriculum. This course will be structured around four primary case studies on the opioid crisis, climate change, environmental toxicology and the evolution of speed in animals. The cases will outline foundational concepts in molecular biology and evolution.

BI-102 General Biology II (Variable; Yearly; 4.00 Credits) This class will emphasize student

engagement in the research process along with basic research skills. Students will engage in research projects with their professors. The course will include hands-on laboratory technique development, experimental design, hypothesis testing, and scientific writing. Prerequisite: BI-101 or BI-105

BI-106 Functions of Cells and Organisms (Fall only; Yearly; 3.00 Credits; N, CTGES) The second course in the introductory biology series. This course is divided into two half semester modules: cell and molecular biology and the physiology and systems of plants and animals. Prerequisites: CH142.

BI-159 Natural History of Florida (Spring only; Variable; 1.00 Credit) This course examines the diverse, unique ecosystems of Florida. A combination of lectures and discussions are supplemented by a week-long trip to Florida. We will explore Florida's ecosystems through first-hand experiences.

BI-190 Human Biology (Either semester; Yearly; 3.00 Credits; N, WK-SP, CTGES) Course is a non-majors approach to the basic chemistry and biology of the human body, as well as how humans fit into society and environment. Emphasis will be on applying scientific process to current health topics. Course required for the Social Work POE and included in the Genomics Certificate and Rural Poverty Studies secondary.

BI-199 BI Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally taught. Prerequisites and Corequisites vary by title.

BI-231 Microbiology I (Variable; Yearly; 3.00 Credits; N) Focuses on the structure, function, growth, genetics and ecology of viral, bacterial, and fungal microorganisms. Basic concepts are emphasized and topics important to the quality of human life are examined. Corequisite: BI 232. Prerequisite: BI106 and CH144.

BI-232 Microbiology Laboratory I (Fall only; Yearly; 1.00 Credit; N) Presents procedures and experiments which demonstrate basic micro-biological concepts and techniques. Illustrates and augments the content of the lecture. Note: A special fee is assessed. Corequisite: BI231.

BI-270 Infectious Disease & Society (Variable; Variable; 3.00 Credits; CA, N, WK-SP, CTGES) This

course focuses primarily on the impact of human infectious diseases that have changed the world. Each disease is analyzed from five distinct perspectives: Clinical, Historical, Economic, Artistic, and Public Health. We also discuss genomics aspects of the infective organisms and of their human hosts. Pre- or co-requisite: FYC-101 or EN-110 or EN-109

BI-289 Frontiers of Biology (Fall only; Yearly; 1.00 Credit) Seminar series, required in all Biology POE's in the Sophomore year, consisting of research seminars given by invited speakers and members of the department, both faculty and students. Descriptions of independent research, internship and study abroad opportunities as well as reports by students and faculty on experiences in these programs will be presented. .

BI-290 Nutrition (Variable; Yearly; 3.00 Credits; N, WK-SP) This course covers basic principles and facts about nutrition, explores the role of nutrition in human health, and considers a range of societal and political issues surrounding food and nutrition in the U.S. and abroad. Prerequisite: FYC-101 or EN-110 or EN-109.

BI-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the Biology department to offer topics not on the regular schedule. Prerequisites will vary based on topic.

BI-300 General Ecology (Spring only; Yearly; 3.00 Credits; N) Examines the interactions of living organisms with their physical, chemical, and biotic environments. Special attention is given to the environmental, biological, and historical factors affecting the distribution, abundance, adaptation, and diversity of species in natural communities. This course deals with "ecological principles", and as such complements the Introduction to Environmental Science course, which deals with environmental issues. Prerequisite: BI-101 or BI-105. Corequisite: BI-301 or BI-301CW.

BI-301 General Ecology Lab (Spring only; Yearly; 1.00 Credit; N) Students work together as research teams to carry out original investigations on the ecology of local species and natural communities. Emphasis on ecological research design, data collection and analysis, and oral and written presentation of results. Field trips are included. Prerequisite: BI-101 or BI-105. Corequisite: BI-300.

BI-301CW General Ecology Lab (Spring only; Yearly; 2.00 Credits; N, CW) Students work together as research teams to carry out original investigations on the ecology of local species and natural communities. Emphasis on ecological research design, data collection and analysis, and oral and written presentation of results. Frequent field trips are included. Note: a special fee is assessed and one optional field trip requires an additional fee. This section of general ecology lab contains added emphasis on writing to fulfill college writing requirements. Frequent field trips are included. Note: a special lab fee is assessed and one field trip may require an additional fee. Corequisite: BI300.

BI-305 Biostatistics (Either semester; Yearly; 4.00 Credits; N, QS, CTGES) This course deals centrally with quantitative and statistical methodology in the biological sciences. It includes experimental design and the conventions of generating, analyzing, interpreting and presenting biological data. Counts as a math course for graduate and professional school requirements. Prerequisites: BI-102 or BI-106 or ESS-100.

BI-305CW Biostatistics (Fall only; Yearly; 5.00 Credits; N, QS, CW, CTGES) This course deals centrally with quantitative and statistical methodology in the biological sciences. It includes experimental design and the conventions of generating, analyzing, interpreting and presenting biological data. Counts as a math course for graduate and professional school requirements. This writing intensive section requires the writing of an individual research report and one additional hour of class time to discuss writing in biology. Prerequisites: BI-102 or BI-106 or ESS-100.

BI-310 Physiology (Fall only; Yearly; 4.00 Credits; N) A combined laboratory and lecture course which examines the function of cells, tissues, organs, and systems. Physical, Mathematical, chemical, and anatomical concepts are integrated to gain a comprehensive appreciation of the dynamics of living organisms. Students are introduced to the use of physiological instrumentation, experimental design, collection and statistical analysis of data, and preparation of scientific manuscripts. Laboratory experiments amplify and complement the lectures. Pre-Reqs: BI-102 or BI-106; CH-232 or CH-242.

BI-310CW Physiology (Fall only; Yearly; 5.00 Credits; N, CW) A combined laboratory and lecture course which examines the function of cells, tissues, organs,

and systems. Physical, Mathematical, chemical, and anatomical concepts are integrated to gain a comprehensive appreciation of the dynamics of living organisms. Students are introduced to the use of physiological instrumentation, experimental design, collection and statistical analysis of data, and preparation of scientific manuscripts. Laboratory experiments amplify and complement the lectures. In addition, students taking this Writing version of BI310 receive additional instruction regarding writing in Biology and produce a well-researched paper on a topic in Physiology. Pre-Reqs: BI-102 or BI-106; CH-232 or CH-242.

BI-312 Altered Ecosystems (Either semester; Yearly; 4.00 Credits) This course explores the ecological implications of abrupt natural and anthropogenic changes to ecosystems. A major focus will be on how ecosystems respond to these changes over time. Topics covered in this course will include concepts in classical ecology, ecosystem ecology, as well as contemporary theories on restoration ecology. Focus on local altered ecosystem case studies will aid to reinforce principles of ecosystem ecology and field trips to local sites will be used for student projects.

BI-314 Talk Nerdy to Me (Variable; Variable; 3.00 Credits) Talk Nerdy To Me is a course designed for anyone interested in more effectively communicating scientific ideas to non-specialists. Students will write short popular science articles, illustrate comics, create video explanations, and refine oral presentation skills to present recent research advances or their own research data. All student output will be produced for public consumption and outreach online and in public formats. There will be a strong emphasis on peer evaluation and review.

BI-316 Molecular & Cellular Biology. (Spring only; Yearly; 3.00 Credits; N) A comprehensive approach to the study of cells, with emphasis on molecular techniques and understanding the primary literature. Analysis of the cell at the molecular level emphasizes a unity in the principles by which cells function.

BI-318 Developmental Biology (Fall only; Yearly; 3.00 Credits; N) This course offers comprehensive investigation of the concepts and mechanisms of development, including gametogenesis, fertilization, pattern formation and organogenesis. The course examines classical and molecular approaches examining problems of development. Students are expected to present research from current literature in

the field. Prerequisites: BI-106 or BI-102; CH-232 or CH-242.

BI-318CW Developmental Biology (Fall only; Yearly; 4.00 Credits; N, CW) This course offers comprehensive investigation of the concepts and mechanisms of development, including gametogenesis, fertilization, pattern formation and organogenesis. The course examines classical and molecular approaches examining problems of development. Students are expected to present research from current literature in the field. This course is the CW version of BI318. In addition to the topic of Developmental Biology, students will receive instruction related to writing in the biological sciences and will be required to produce a well-researched paper on a topic in developmental biology. Prerequisites: BI-106 or BI-102; CH-232 or CH-242.

BI-321 Ecological Genetics (Spring only; Variable; 3.00 Credits; N, QS) Ecological genetics is concerned with the genetics of ecologically and evolutionarily important traits, that is, traits related to fitness such as survival, growth, and reproduction. It is the study of the process of phenotypic evolution occurring in present-day natural populations. Basic and advanced concepts in population and quantitative genetics are covered, including measuring selection on phenotypic characters, with a focus on methods applicable to field studies of ecologically important traits. Mathematical and conceptual material are fully integrated and explained. Application to conservation, spread of invasive species, evolution of pesticide, herbicide, and antibiotic resistance, and environmental effects of genetically modified organisms used in agriculture will be covered. Lab period will be devoted to problem solving, discussion group, experimental manipulation and simulation studies, and independent student research projects. Prerequisites: BI105 and BI106 and BI305 or MA220.

BI-323 Mammalogy (Variable; Variable; 3.00 Credits; N) Examines the comparative biology of living mammals, including taxonomy, evolution, biogeography, ecology, morphology, physiology and behavior. Special attention is given to conservation issues, the relevance of mammals in modern biological research, and field techniques for studying mammals. Prerequisites: BI105 or permission of the instructor.

BI-324 Ornithology (Variable; Yearly; 3.00 Credits; N) This course provides a comprehensive survey of the

comparative biology, ecology, and behavior of birds with a special focus on issues pertaining to conservation and management. Laboratory activities focus on field identification of birds and research and monitoring techniques. Several field trips are possible with one possible 3 day trip to Assateague Island. Prerequisite: BI105.

BI-325 Plant Ecology (Either semester; Yearly; 3.00 Credits; N) Primarily an ecology course, but also included is a significant amount of plant identification and/classification and plant ecology. The ecology portion will cover the whole spectrum of this fast-growing field; from communities and ecosystems to theory and adaptation. Corequisite: BI-326. Prerequisites: BI-101 or BI-105 and Junior or Senior standing.

BI-326 Plant Ecology Lab (Variable; Yearly; 1.00 Credit; N) The first 10 weeks are devoted to laboratory work on the identification of the local entophyte flora. Students are required to make a personal collection representing a minimum of 8 families and are expected to become proficient in using a scientific manual. During the 5th and 6th week there is a mandatory all day field trip to collect forest data. An extensive paper on forest succession will be due by semester's end. Corequisite: BI-325. Prerequisite: BI-101 or BI-105.

BI-327 Botany (Spring only; Yearly; 4.00 Credits; N) This course will provide an in-depth examination of the biology of plants. In lecture and lab we will examine plant reproduction and development, morphology and physiology, evolution and biodiversity, and ecology and conservation. Particular attention will be paid to the aspects of plant biology that are unique to this branch of life and/or are of critical importance to human or other biotic interactions (e.g. photosynthesis, pollination, agriculture, etc.). Prerequisites: BI105. Note: A special course fee is applied.

BI-331 Molecular Microbiology (Fall only; Yearly; 3.00 Credits; N, CTGES) Focuses on the structure, function, growth, genetics and ecology of viral, bacterial, and fungal microorganisms. Basic concepts are emphasized and topics important to the quality of human life are examined. Corequisite: BI332. Prerequisites: BI207 and Jr. or Sr. standing.

BI-331CW Microbiology II (Fall only; Yearly; 4.00 Credits; N, CW) Focuses on the structure, function,

growth, genetics and ecology of viral, bacterial, and fungal microorganisms. Basic concepts are emphasized and topics important to the quality of human life are examined. Corequisite: BI332. Prerequisites: BI207 and Jr. or Sr. standing.

BI-332 Molecular Microbiology Lab (Fall only; Yearly; 1.00 Credit; N) Presents procedures and experiments which demonstrate basic micro-biological concepts and techniques. Illustrates and augments the content of the lecture. Note: A special fee is assessed. Corequisite: BI331.

BI-333 Plant Diversity (Fall only; Even Years; 4.00 Credits; N) This course explores the diversity of plants through the scientific field of plant systematics, and in particular, through the the practice of plant taxonomy: the description, identification, naming, and classification of plants. We will focus our attention on studying and identifying the regional flora as well as the major vascular plant families. This will be done through a combination of field and literature study. Pre-Req: BI-101 or BI-105.

BI-337 Comparative & Evolutionary Psych (Spring only; Yearly; 3.00 Credits; CS, N, S) (see PY 337)

BI-339 Organic Evolution (Spring only; Variable; 3.00 Credits; N) Presents the theory and facts of organic evolution through a review of modern and historical research on the subject. Major topics include population genetics, adaptations, evolutionary ecology, systematics, the fossil record, molecular evolution, ontogeny and phylogeny, macroevolution, co-evolution, human evolution, and sociobiology. Prerequisite: BI-101 or BI-105.

BI-340 Medical Microbiology (Fall only; Yearly; 4.00 Credits; N) A lecture and lab course focusing on the biology of microorganisms and microbial interactions with humans. Foundational concepts of microbial cell structure, diversity, metabolism, genetics and impacts on humans are discussed along with medical, biotechnical, and environmental aspects of microbiology. Lab provides hands-on experiences with microbiological techniques and handling microorganisms safely and aseptically. Note: A special fee is assessed. Prerequisite: BI-102 or BI-106, and CH-144.

BI-344 Winter Dendrology (Variable; Variable; 4.00 Credits) We will explore the woody plants of Central Pennsylvania with an eye towards species

identification and forest ecology. In addition to identification, will spend time trying to understand: morphological variation and its causes, the causes and consequences of species global and local distribution patterns, as well as species life-history traits and their roles in forest community ecology.

BI-350 Invertebrate Zoology (Fall only; Odd Years; 3.00 Credits; N) Focuses on the organizational plan, behavioral and ecological adaptation, diversity and economic importance of representative members of the major invertebrate phyla. Corequisite: BI-351. Prerequisite: BI-101.

BI-351 Invertebrate Zoology Lab (Fall only; Odd Years; 1.00 Credit; N) Illustrates and augments the content and concepts of the lecture through direct observation and/or dissection of selected representative organisms. Corequisite: BI350.

BI-360 Vertebrate Zoology (Fall only; Yearly; 3.00 Credits; N) Focuses on the vertebrate animals of the Eastern United States. Collection, taxonomic identification and natural history are emphasized. Prerequisite: BI-101 or BI-105.

BI-361 Vertebrate Zoology Lab (Fall only; Yearly; 2.00 Credits; N) Frequent field trips, for observation and specimen collection are followed by exercises in identification, specimen preparation, and museum techniques to illustrate and augment the concepts and content of the lecture. Corequisite: BI-360.

BI-362 Animal Behavior (Fall only; Variable; 4.00 Credits; N) Behavior is a result of the nervous system interacting with the environment. Animal Behavior will explore the proximate and ultimate causes of behavior. Special attention will be paid to the role and function of the nervous system in behavior as well as the interplay between genetics and the environment. The lab portion of the course is a co-requisite and will explore basic experimental design for studying animal behavior in the lab and in the field. Pre-Req: BI-101 or BI-105.

BI-367 Comparative Anatomy (Fall only; Yearly; 3.00 Credits; N) A study of the structural organization of the human body organized around the major body systems with an emphasis on structure function relationships. To gain deeper understanding of structure function relationships, we will study human anatomy in relation to our position within the vertebrate lineage, comparing human anatomical

features with those of other vertebrates.

Prerequisites: BI-101 or BI-105 and BI-102 or BI-106. Corequisite: BI-368.

BI-368 Comp Anatomy Laboratory (Fall only; Yearly; 1.00 Credit; N) Provides additional content to support the lecture using human models, online resources and dissection of selected representative vertebrates with an emphasis on amniote, mammalian and human anatomy. Note: A special fee is assessed. Corequisite: BI367.

BI-370 Herpetology (Variable; Variable; 3.00 Credits; N) This course presents the biology of amphibians and reptiles from an evolutionary, anatomical and ecological perspective. Phylogenetic diversity of modern taxa will be presented, focusing on North American groups. Instruction will be in the form of lectures, discussions, laboratory activities and field trips to observe local herpetological species. Prerequisites: BI105. Note: A special course fee will be applied.

BI-380 Biology Research Methods (Fall and Spring; Yearly; 2.00-4.00 Credits; N, CW, CTGES) Offered by faculty members in the Biology department for students interested in learning to conduct meaningful and responsible research. Students enroll in a section aligned with their research interest to generate novel data, while mastering the important components of research common to each of the diverse areas of Biology. Pre-Reqs: BI-101 or BI-105; sophomore, junior, or senior standing; instructor permission.

BI-389 Biology Research Seminar (Fall only; Yearly; 1.00 Credit) Lectures, discussions and student exercises covering such topics as ethics in research, writing effective research proposals and the effective written and oral communication of research results. Professional research and educational societies, government and private funding of research in the United States and other countries and career opportunities will also be discussed. Prerequisites: BI289. Corequisites: BI489. Graded S (satisfactory) or U (unsatisfactory).

BI-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offered at the discretion of the department to qualified students. Topic titles may vary from semester to semester and more than one may be offered per semester. Note: Students may take each ST: course for credit and a special fee is assessed.

Prerequisite: permission of the instructor, or as indicated.

BI-400 Environmental Genomics (Variable; Yearly; 4.00 Credits; N) This course will utilize Microbial Community Analysis leveraging high-throughput sequencing technology to identify the microbes present in naturally occurring or human-made ecosystems. Students will learn both molecular and bioinformatics skill sets, as well as microbial ecology principles throughout this course. Pre-Reqs: BI-102 or BI-106, CH-144, CH-145.

BI-405 Bioinformatics Fundamentals (Variable; Variable; 4.00 Credits; N, CTGES) Bioinformatics is the science of collecting and analyzing complex biological data. It is an interdisciplinary field that develops and applies methods and software tools for understanding biological data. Prerequisites: BI-101 or BI-105, BI-102 or BI-121, CH-142, CH-143, CH-144, and CH-145.

BI-417 Reproductive Biology (Fall only; Even Years; 3.00 Credits; N) This course examines reproductive biology by integrating aspects of development, anatomy, cell biology, and hormone physiology with the behavior and ecology of vertebrates. Pre-Req: BI-101 or BI-105.

BI-417CW Reproductive Biology (Fall only; Even Years; 4.00 Credits; N, CW) This course examines reproductive biology by integrating aspects of development, anatomy, cell biology, and hormone physiology with the behavior and ecology of vertebrates. Prerequisites: BI06.

BI-432 Environmental Toxicology (Spring only; Even Years; 3.00 Credits; N) Broadly integrative in nature, this class compounds in environmental systems and focuses on the potential for deleterious consequences in wildlife species and humans. Examines aspects of chemistry, cell biology, and ecology in considering environmental contamination. Instruction includes lectures and student presentations/writing exercises. Prerequisites: Take 2 courses from BI-101 or BI-105 or CH-142 or ESS-100, or have permission from the instructor.

BI-432CW Environmental Toxicology (Spring only; Even Years; 4.00 Credits; N, CW) Broadly integrative in nature, this class examines the fate and actions of xenobiotic compounds in environmental systems and focuses on the potential for deleterious

consequences in wildlife species and humans. Examines aspects of chemistry, cell biology and ecology in considering environmental contamination. Instruction includes lectures and student presentations/writing exercises. Prerequisites: Take 2 courses from BI-105 or CH-142 or ESS-100 and permission of the instructor.

BI-444 Immunology (Variable; Yearly; 4.00 Credits; N) Covers the properties of antigens, antibodies and complement, humoral and cell-mediated immunological systems, antigen-antibody interactions and hypersensitivity reactions. Pre-Req: BI-102 or BI-106; CH-312 or CH-342.

BI-450 Neurobiology (Spring only; Yearly; 3.00 Credits; N) Neurobiology is a lecture course that addresses concepts ranging from the molecular biology of ion channels to signal integration and behavior. This course is experimentally based and will focus on the biophysics, chemistry, and mechanisms of signal production and integration in the nervous system. Particular attention will be paid to sensory systems and memory consolidation. In addition to lecture exams, students will gain valuable experience in scientific writing through the preparation of a review paper on a neurobiological topic of their choosing. Pre-Req: Take one of the following courses: BI-101 or BI-105 or CH-142 or PY-101 or PC-200 or PC-202 or PC-204.

BI-450CW Neurobiology (Spring only; Yearly; 4.00 Credits; N, CW) Neurobiology (W) is a lecture course that addresses concepts ranging from the molecular biology of ion channels to signal integration and behavior combined with a supplemental series of lectures to develop the students writing skills in Biology. This course is experimentally based and will focus on the biophysics, chemistry, and mechanisms of signal production and integration in the nervous system. Particular attention will be paid to sensory systems and memory consolidation. In addition to lecture exams, students will gain valuable experience in scientific writing through the preparation of a review paper on a neurobiological topic of their choosing. Pre-Req: Take one of the following courses: Take BI-101, BI-105, CH-142, PY-101, PC-200, PC-202, or PC-204.

BI-460 Genetic Analysis (Spring only; Variable; 3.00 Credits; N) Topics covered will include basic and advanced topics in transmission, quantitative and population genetics, with emphasis on analysis. the

methods that modern researchers use to discover the molecular basis of adaptive or disease traits and how they are transmitted over generations in model and non-model species. Case studies will be used to challenge students' understanding of conceptual material in context. Students will present an article from the primary literature and present on a topic of their choice. This class assumes students enter with a basic understanding of Molecular and Mendelian Genetics. Prereqs: BI-101 or 105, and BI-102 or 106.

BI-461 The Art & Science of Brewing (Spring only; Yearly; 4.00 Credits; N, WK-CE) This course examines all aspects of brewing, integrating science, technology, and history while considering all steps of the brewing process including, barley and malting, yeast biology, brewing herbs, mashing, fermentation, conditioning and beer styles. Additionally, students consider the creative artistry of brewing. NOTE: Students must be 21 years of age by the course start date. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

BI-481 Medical Genomics Research Methods (Variable; Yearly; 4.00 Credits; N) This class will provide training in advanced statistical and/or informatics tools. Bioinformatics skills will be related to variant characterization and/or comparison of eukaryotic genomes and populations. The research project will involve working with scientist/MD Dr. Holmes Morton on medical research problems affecting marginalized Amish and Mennonite populations in Kish Valley. Pre-Req: BI-305 or BI-400 or BI-460 or permission of instructor.

BI-489 Biology Research (Fall and Spring; Yearly; 1.00-6.00 Credits; N) Individual research projects directed by faculty members based on proposals submitted in BI 389, Biology Research Seminar. Attendance at a departmental journal club is expected. Presentation at a professional meeting is encouraged. May be repeated for up to 15 credits. Prerequisite: Permission of the instructor.

BI-489CS Biology Research (Fall and Spring; Yearly; 1.00-6.00 Credits; N, CS) Individual research projects directed by faculty members based on proposals submitted in BI 389, Biology Research Seminar. Attendance at a departmental journal club is expected. Presentation at a professional meeting is encouraged. May be repeated for up to 15 credits. Prerequisite: Permission of the instructor.

BI-490 Biology Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) Note: May be repeated up to a total of 9 hours of credit. Corequisite: BI 495. Prerequisite: permission and Jr. or Sr. standing.

BI-495 Internship Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on the experience and/or pursue relevant research. Corequisite: BI 490. Prerequisite: Permission

BI-499 Senior Thesis (Either semester; Yearly; 3.00 Credits; N, CW) This course is the culmination of an individual research project initiated in BI 489. Students will complete their projects by writing a paper describing their research. These papers will be of significant length and contain full documentation of the student's original research. The thesis will be presented orally to faculty and students at the yearly campus wide Juniata Student Research Symposium. Prerequisite: Permission of the instructor.

BI-INS Independent Study (Variable; Variable; 1.00-6.00 Credits) See catalog.

BI-TUT Biology Teaching Assistant (Variable; Variable; 1.00-4.00 Credits)

CHEMISTRY

CH-001 Non-Credit Chemistry Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as an providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as Internship (title); must be 6 weeks long. Prerequisites: Permission.

CH-142 Integrated Chemistry Principles I (Variable; Yearly; 3.00 Credits; N) An introduction to the principles of chemistry, this course begins a two semester sequence that integrates information from all aspects of chemistry while focusing on the core principles of the relationships between energy, the structure of atoms and molecules, and atomic and molecular properties and reactivity. Topics include energy, reactions, atomic structure, elemental properties, bonding, and molecular properties. Corequisite CH143.

CH-143 Integrated Chem Principles I Lab (Either semester; Yearly; 1.00 Credit; N, QS) This semester will focus on learning good laboratory practices,

primarily through the quantitative analysis of compounds. The quantitative analysis of materials and an understanding of reproducibility and bias are relevant to many fields, including medical analysis or the analysis of contaminants in the environment. This course will also teach you how to keep an excellent laboratory notebook, identify safety hazards in the lab, and complete data analysis and graphing in Excel. All of these tools will serve you well in a variety of careers. CH142 is a corequisite of this course. A lab fee is associated with this course.

CH-144 Integrated Chemistry Principles II (Either semester; Yearly; 3.00 Credits; N) An introduction to the principles of chemistry, this course completes a two semester sequence that integrates information from all aspects of chemistry while focusing on the core principles of the relationships between energy, the structure of atoms and molecules, and atomic and molecular properties and reactivity. Topics include thermodynamics, equilibrium reactions, acid/base and redox reactions, kinetics and nuclear reactions. Prerequisite: CH-142.

CH-145 Integrated Chemistry Principles II Lab (Either semester; Yearly; 1.00 Credit; N, QS) This semester will focus on learning good laboratory practices, primarily through the quantitative analysis of compounds. The quantitative analysis of materials and an understanding of reproducibility and bias are relevant to many fields, including medical analysis or the analysis of contaminants in the environment. This course will also teach you how to keep an excellent laboratory notebook, identify safety hazards in the lab, and complete data analysis and graphing in Excel. All of these tools will serve you well in a variety of careers. Prerequisite: CH-143. A lab fee is associated with this course.

CH-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary with topic.

CH-210 Chemistry and Biochemistry Seminar (Variable; Yearly; 1.00 Credit) This course is designed to begin the journey for from students of science to citizens of the scientific community. During the semester speakers will present topics which will help inform the students about the opportunities for research and collaboration. Additionally, an emphasis will be made on post-graduation career opportunities and planning. Must have at least sophomore standing

and have a POE in Chemistry, Biochemistry or Chemistry Secondary Education.

CH-222 Inorganic Chemistry (Spring only; All Years; 4.00 Credits; N) CH 222 is a one-semester course of Inorganic Chemistry that builds on chemistry knowledge acquired in CH-142 (Integrated Chemistry Principles I). The Inorganic Chemistry course is designed for all students having "chemistry" in their POE title but it will serve any student who wants to learn about "chemistry of elements" because it covers chemistry of all elements from the periodic table with exception of organic carbon chemistry. The class also introduces students to theoretical concepts such as molecular symmetry, molecular spectroscopy, and theory of complexes. Part of the class is a 4-hour laboratory session which introduces students into synthetic inorganic chemistry and characterization of inorganic compounds. Syntheses, reactivity, and characterization of main group element compounds and transition metals will be practiced. Pre-Req: CH-142 and CH-143. Pre-Req or Co-Req: CH-144 and CH-145. Must have Freshman, Sophomore, or Junior class standing or instructor permission.

CH-232 Organic Chemistry I (Variable; Yearly; 3.00 Credits; N) Students enrolled in CH-242 will become familiar with the fundamental concepts and nomenclature needed to understand and communicate organic chemistry. The course is further designed to teach the structure-function relationships that exist across many classes of organic and bio-organic systems, and therefore provide a foundation for further study in chemistry, biochemistry, biology, and medicine. Prerequisite: CH-144; Corequisite: CH-233.

CH-233 Organic Chemistry I Lab (Variable; Yearly; 1.00 Credit; N) This course will utilize techniques learned in CH-145 and carry out experiments illustrative of concepts learned in CH-232. The course will focus on spectroscopy, organic laboratory techniques and reactions, and compound characterization. This course will also reinforce good record-keeping skills continue to stress safe lab practices. A lab fee is associated with this course. Pre-Req: CH-145. Pre- or Co-Req: CH-232.

CH-247 Bioanalytical Chemistry (Variable; Yearly; 1.00 Credit; N, QS) Exploration of experimental techniques and topics that are pertinent to the careful analytical evaluation of biologically relevant chemistry. Pre-Req: Junior or senior class standing.

CH-252 Analytical Chemistry (Spring only; Odd Years; 4.00 Credits; N, QS) This course focuses on the methods that chemists use to identify and quantify compounds of interest and measure their physical properties. Classroom and laboratory time will be spent considering experimental design, measurement techniques, and validation of results in a variety of chemical contexts. Prerequisites: CH-144 and CH-145. Note: A special lab fee is assessed.

CH-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to teach special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary with topic.

CH-312 Biochemistry (Variable; Yearly; 3.00 Credits; N) The fourth semester of the introductory Chemistry series, this course pulls content from chemistry, biology, mathematics, and history to provide an integrated view of biochemistry. Topics include the use of thermodynamics, equilibrium, non-covalent interactions, kinetics, separations, biomolecular structure, and genetics to probe and explain biological phenomenon. Prerequisites: Take BI-102 or BI-106 (or have instructor's permission) and take CH-232 or CH-242.

CH-322 Scientific Glassblowing (Spring only; Yearly; 1.00 Credit) Course introduces the construction and repair of glassware for scientific purposes. The course starts with a discussion of the properties of glass relevant to glass working. Students then obtain practice in fundamental manipulations; straight, tee, and ring seals. This is followed by more complicated projects utilizing several seals such as condensers. Finally, students choose among a number of advanced topics such as lathe use, vacuum rack construction, and artistic creations. Note: A special course fee is assessed. Prerequisites: Junior or Senior standing or permission of the instructor.

CH-332 Organic Chemistry II (Variable; Yearly; 4.00 Credits; N) A continuation of the study of organic chemistry begun in CH-232 and CH-233. Special emphasis is placed on advanced aspects of structure and reactivity, with careful attention to the methodology and tools of synthesis. Topics include aromatic chemistry, enolate chemistry, pericyclic reactions, retrosynthetic analysis and various aspects of stereoselectivity. Prerequisites: Take CH-232/233 or CH-242/243.

CH-340 Wine Chemistry (Variable; Variable; 2.00 Credits; N) This is a 2-credit course dealing with the theoretical study (1 credit) of chemical processes that are involved in wine formation and that influence appearance, flavor, and aroma of different wines including such topics as barrel aging and corkage, wine and health, wine faults, and wine laboratory practices and procedures associated with vineyard to bottling lifecycle of wine. An intensive hands-on component (4 hours a week) enabling authentic experience of wine-grapes growing, wine making and wine tasting is part of the course (second credit). Prerequisites: 2 semesters of college Chemistry or permission of the instructor. Must be 21 years of age or older.

CH-352 Physical Chemistry I (Fall only; Yearly; 3.00 Credits; N) In this course students will investigate the physical characteristics and interactions of matter. Topics covered will include thermodynamics, kinetics, quantum mechanics, and molecular spectroscopy within the contexts of chemistry and biochemistry. In addition, molecular modeling techniques will be briefly introduced. Prerequisites: Take CH-144, MA-130, and either PC-200 or PC-202.

CH-353 Physical Chemistry Laboratory (Variable; Yearly; 1.00 Credit; N, Q, CW) In this course, students will gain hands-on practice at obtaining data pertinent to physical chemistry through laboratory experiments. Experiments will be performed that highlight material from Physical Chemistry I (CH-352). A significant component of each lab will involve molecular modeling. Co-requisite: CH-352.

CH-354 Physical Chemistry II (Spring only; Yearly; 3.00 Credits; N) In this course students will advance their understanding of physical chemistry concepts through primary literature sources and discussion. The course will focus on literature from the beginnings of thermodynamics and quantum mechanics as well as more modern research. Prerequisites: Take CH-352, MA-230, and either PC-201 or PC-203.

CH-362 Chemical Synthesis (Fall only; Yearly; 2.00 Credits; N, CW) CH-362 is an advanced laboratory-based organic and organometallic synthesis class. Through the completion of two to three multi-component projects, students will gain a better understanding of the requirements of advanced laboratory research and will learn how to communicate as organic chemists. Overall, the

course is designed to help students mature into skilled citizens of the scientific community.

Prerequisite: CH-232.

CH-372 Instrumental Methods (Fall only; Odd Years; 3.00 Credits; N) The primary tools that chemists use to characterize chemical species involve increasingly complex instrumentation. We will explore the principles and methodology of various types of instrumental methods and will analyze data resulting from these techniques. Prerequisite: CH-232 or CH-242.

CH-385 Advanced Chemistry Lab (Variable; Yearly; 2.00 Credits) This course is a culmination or capstone of your laboratory experiences. You will draw upon your knowledge and experience from previous classes to identify a chemistry related question, design experimental work, and report your findings. The focus of each semester will vary depending on the specific instructors. Prereqs: CH-222, CH-232, CH-252, CH-312, and CH-352, plus junior or senior standing.

CH-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Advanced specialized topics in chemistry and related areas. Topic titles may vary from semester to semester. Note: abbreviated ST: (title); students may take more than one "ST:" course for credit. Offered at the discretion of the department to qualified students.

CH-401 Advanced Organic Chemistry (Either semester; Variable; 3.00 Credits; N) Discusses selected topics in organic chemistry with emphasis on general principles, including chemical bonding. Recent literature is used. Prerequisite: CH-332 or CH-262.

CH-406 Advanced Inorganic Chemistry (Either semester; Variable; 3.00 Credits; N) Completes an introductory study of inorganic chemistry at an undergraduate level. Theoretical topics, like electronic structure (molecular orbital theory), molecular symmetry, theories about complexes, reaction mechanisms of complexes, catalysis, introduction to solid state chemistry, and a role of metals in life processes are covered. Students will become familiar with inorganic chemistry journals, SciFinder and the Cambridge Structural Database. Prerequisites: CH-222 and CH-352.

CH-418 Advanced Biochemistry (Fall only; Yearly; 3.00 Credits; N) Advanced Biochemistry is the third

semester of the Biochemistry and Molecular Biology (BMB) curriculum for Biochemistry POEs, expanding the content of the previous two semesters. Stressing techniques and instrumentation, the course is comprised of student-led learning modules, which are created around the primary literature with the help of the instructor. Topics may include metabolism, systems biology, or genomics. Prerequisite: CH-312 or CH-342.

CH-488 Chemistry & Biochemistry Capstone I (Variable; Yearly; 0.00 Credits) This course is a partner course to CH-489 Chemistry and Biochemistry Capstone II. This course is a non-credit-bearing course to mark the submission of Capstone Portfolio Contribution #1, which demonstrates a student's analytic and/or creative thinking and depth of knowledge in an academic field. Requires senior standing.

CH-489 Chemistry & Biochemistry Capstone II (Variable; Yearly; 1.00 Credit) This course is a partner course to CH-488 Chemistry and Biochemistry Capstone I. In this course, students will reflect on the totality of their chemistry or biochemistry education and relate it to their broader Juniata education. Co-Req: CH-488 and senior standing.

CH-490 Chemistry Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) See the chapter, "Special Programs" under Internships in the catalog. Note: May be repeated up to a total of 9 hours of credit. Corequisite: CH495. Prerequisite: Permission and Jr. or Sr. standing.

CH-493 Senior Thesis (Spring only; Yearly; 2.00 Credits; CW) Designed for students who are carrying out senior research; students will write a senior thesis describing their work, part of the requirements for graduating with a distinction in chemistry, and prepare an oral presentation of their work. Corequisite: CH-494

CH-494 Chemistry Research (Fall and Spring; Yearly; 1.00-4.00 Credits; N) Individual research projects directed by faculty members. Prerequisite: Permission of the instructor.

CH-495 Chemistry Research/Sem. (Fall and Spring; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on the internship experience and /or pursue research related to the placement. Corequisite: CH 490. Prerequisite: permission.

CH-499 Chemistry Special Topics (Variable; Variable; 1.00-4.00 Credits; N) Allows departments to offer topics not normally taught. Prerequisites and corequisites vary by title.

CH-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits)

CH-TUT Chemistry Teaching Assistant (Variable; Variable; 0.00-4.00 Credits) See catalog.

COMMUNICATION

CM-001 Non-Credit Communication Internship (Summer only; Irregular/On Demand; 0.00 Credits) An opportunity to gain transcript recognition for summer employment in the communications field. Employment should be 10 weeks long. Arrangement must be made with Internship Director in advance of employment. Note: See the chapter "Special Programs" under Internships; listed as Internship: (title). Prerequisite: Permission.

CM-130 Introduction to Human Communication (Either semester; Yearly; 3.00 Credits; S) Surveys the fundamental tenets of human communication through application. This course is concerned with how and why we speak, listen, respond, and strategize through the uses of verbal and nonverbal symbol systems.

CM-132 Message Analysis (Variable; Yearly; 3.00 Credits; H, CS, WK-HT) The study of rhetoric investigates the art of persuasion. The course introduces the basic rhetorical concepts and language we need to make sense of the sea of messages we swim in. The course aims to sharpen your ability to reason, reflect, send, perceive and discern messages in a variety of contexts. Upon completion of this course, students understand several humanistic perspectives toward communication and are able to apply the basic tools of rhetorical analysis. Students have an increased awareness of the ways in which our symbolic behaviors shape our social lives. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

CM-133 Mass Media and Society (Either semester; Yearly; 3.00 Credits; H, CS, WK-HT) This course provides an orientation to media industries, the academic field of media research, and the influence of media on our politics, society, and everyday lives. Through a broad survey of media technology, theory,

issues, and policy, it offers a media literacy framework for critically evaluating media use and content, and positions you as a critical consumer, scholar, and citizen. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

CM-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by topic.

CM-200 Art of Public Speaking (Either semester; Yearly; 3.00 Credits; CS, H) Seeks to develop and improve fundamental principles and methods of selecting, organizing, developing, and communicating a line of reasoning and evidence for constructive influence in speaking situations. Students make three formal presentations, analyze messages, and improve their listening skills. Prerequisites: Sophomore, Junior, or Senior standing.

CM-210 Race and Language in the United States (Variable; Yearly; 3.00 Credits; SW-US) This class examines racism as a cultural system observed through our beliefs and practices about spoken English. The goal of the course is to develop an understanding of how linguistic prejudice contributes to the cultural programs of racism in the US.

CM-214 Cinderella (Fall only; Yearly; 3.00 Credits; CA, H) Surveys the historical and cultural origins and pathways of the Cinderella story. Students use folk-tale research to identify the thematic content of the Cinderella story, explore its reach, and understand its ubiquity in American popular culture. The course includes a major project for which students conduct library research in order to write an original Cinderella based in a culture for which we do not have an extant copy. Prerequisites: FYC101, EN110, or EN109.

CM-220 Group Communication (Variable; Yearly; 4.00 Credits; H, CS, SW-LE) This course is designed to improve communication in small-group task and problem-solving situations. We will explore ways of developing communication strategies for effective participation in groups. Students will gain practical experience using these skills and theories by working as a group to address the needs of a community partner. Pre-Req: CM-130 or CM-132 or CM-133. Pre- or Co-Req: Take FYC-101 or EN-110 or EN-109.

CM-230 Interpersonal Communication (Either semester; Yearly; 3.00 Credits; H, CS) Introduces

students to the various theories and styles of one-on-one communication. It emphasizes the transactional approach in the study of the communication process as it occurs in interpersonal relationships. It explores interaction as a way by which we come to know ourselves and each other. Pre-Reqs: CM-130 is recommended to be taken prior to this course, but not required.

CM-245 Photojournalism: the Ethics of Seeing (Variable; Yearly; 3.00 Credits; F, H, SW-ER) This introductory course explores the ethical responsibility in photojournalism. We all take pictures and know of photos that have changed us and changed the world. What are the ethics of seeing - a technical term which questions point of view and the understanding of the cultures and social issues portrayed. Pre-req or co-Req: FYC-101 or EN-110 or EN-109

CM-250 LEAD: Listen & Empath Advocacy Diversity (Variable; Yearly; 3.00 Credits; H) Through the creative sharing of stories, the ontology of listening, reflective readings, writings and conversation we will explore diversity and multicultural communication as unfolding dimensions of our intersectionality, especially as it relates to leadership.

CM-261 Communication Studies Abroad I (Spring only; Variable; 2.00 Credits; I, H, SW-GE) Students will spend the spring semester preparing for a trip abroad to visit a partner institution. Students will cover topics in the field of Communication such as intercultural and group communication and learn about the target country/culture through film, guest speakers, news, and readings. During the summer term, we will travel to the country for two weeks. Students must take both CM-261 and CM-262. NOTE: The total fee for the experience is split between the two courses, with half on the spring semester billing and the other half on the summer term billing.

CM-262 Communication Studies Abroad II (Summer only; Variable; 1.00 Credit; I, H, SW-GE) Students will spend the spring semester preparing for a trip abroad to visit a partner institution. Students will cover topics in the field of Communication such as intercultural and group communication, and learn about the target country/culture through film, guest speakers, news, and readings. During Summer Term, we will travel to the country for two weeks. Prereq: CM-261. NOTE: The total fee for the experience is split between CM-261 and CM-262, with half on the spring semester billing and the other half on the summer term billing.

CM-289 Communication Practicum (Fall and Spring; Yearly; 1.00-2.00 Credits; F, H) A Practicum in Communication encourage students to: (1) develop skills in analyzing and delivering public presentations; (2) assess, interpret and analyze messages data among diverse audiences; (3) understand speech communication in a variety of contexts; (4) appreciate public address from a historic perspective; and (5) participate actively in the communication field. This course is repeatable up to 4 credits.

CM-290 The Metaverse (Fall only; Yearly; 3.00 Credits; H, CW, CS) This introductory course focuses on how information technologies shape the way we think and organize ourselves. In studying the technology of the book, social media and the metaverse, students explore change and technology as central to the decision making of leaders. Prerequisites: CM133 or IT110 or IT111.

CM-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by topic.

CM-300 Professional Presentations (Spring only; Yearly; 3.00 Credits; CS, H) Designed for students to improve and polish their speaking skills for effective presentations in professional settings. It is a performance course with emphasis placed on speech structure, audience adaptation, style of presentation (oral report and manuscript reading), with the use of PowerPoint and/or Prez1. Video is used to help speakers understand the relationship between their speaking behaviors and responses of listeners. Prerequisites: CM200.

CM-310 Understanding Health Inequity (Variable; Yearly; 3.00 Credits; S, WK-SI) In this class, students will learn how to read, understand, and conduct social research about individuals and systems that create disparity in health care and outcomes. The research that we will read and learn to conduct will rely on texts and stories rather than numbers and statistics. The class will address questions such as: what conditions are present that allow some populations greater access to health care than others? What social problems underlie the disparities in health outcomes for women, people of color, and people from low-income backgrounds. Students will gather and analyze their own research data. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

CM-330 Media Analysis (Spring only; Yearly; 3.00 Credits; H, CW, CS) Designed to explore analytical approaches applied to a variety of media, including advertising, television sitcoms, new shows, propaganda, film, music and architecture, in order to ascertain the persuasive messages inherent in each artifact. By examining the rhetorical choices revealed by each method of criticism, we can better understand the structure of message design, the medium and in a larger sense the cultural values that shape both. Prerequisites: CM132 or CM133.

CM-340 Intercultural Communication (Either semester; Variable; 3.00 Credits; H, I) This course examines symbolic patterns of communication as they relate to issues of diversity. Interactive skills needed to open channels of communication between and among people of diverse backgrounds are analyzed and developed. A multi-cultural approach to the study of human communication serves as a basis for exploring issues of diversity that include but are not limited to race, gender, class, ability, orientation, religion and ethnicity. Prerequisite: Take one course from the following options: CM-130 or CM-132 or CM-133 or CM-200 or CM-230.

CM-365 Organizational Communication (Either semester; Variable; 3.00 Credits; H, S, CW) Examines the strategic uses of communication by individuals in organizations and by organizations as a whole in the pursuit of organizational goals. Provides students with a theoretical vocabulary to analyze communication in organizational settings in order to understand processes such as social networks, leadership, and power. Focuses on personal and organizational ethics in work place communication. Prerequisites: CM130 and CM230 and CM220.

CM-399 Special Topics (Variable; Variable; 1.00-4.00 Credits; H) Allows departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by topic.

CM-400 Communication Philosophy (Variable; Variable; 3.00 Credits; H, CS) Topics in communication philosophy examine the relationship between thoughts, words, and actions. The study of rhetoric will be the basis for each course as it applies to specific contexts: health care, public discourse, diversity, conflicts and debates, political campaigns, and family dynamics. Prerequisites: CM130 and CM230.

CM-400A Health Communication (Spring only; Odd Years; 3.00 Credits; H) Explores how communication functions to promote health, the important role of information in health care, the development of communication campaigns to promote health awareness, alternative and multicultural approaches to health care, the promotion of ethical health communication, and the use of new health communication technologies. Prerequisites: CM130 and CM230.

CM-400B Storytelling (Variable; Variable; 3.00 Credits; H, CS) This performance course gives students the opportunity to examine the oral traditions of the language through the art of reading, writing, listening, watching and telling stories. Stories are at the heart of the human experience. They form the foundation for many academic disciplines. Stories help us to understand our own beliefs, values traditions and civilities. This course aims to strengthen our appreciation and understanding of storytelling, old and new.

CM-400C Advanced Interpersonal Communication (Fall only; Variable; 3.00 Credits; H, CS) This course develops the theories and applications of interpersonal communication by focusing on various perspectives of communication with creativity, conflict in interpersonal relationships, listening and language appreciation. Students are expected to analyze and discuss specific conversational patterns that are both experienced and observed. How these patterns form and transform the conversational dynamic of an interpersonal relationship is explored. Prerequisites: CM130 and CM230.

CM-400D Rhetoric of Coming Out (Variable; Variable; 3.00 Credits; H) This course aims to explore diverse uses of rhetoric applicable to the coming out process. Cultural, social, political, physical, institutional, and financial constructs of the closet are studied in an effort to understand and appreciate the coming out process. Rhetorical constraints, functions, and strategies involved in the construction and deconstruction of the closet, both perceived and real, and of coming out the closet are illuminated. While various perspectives of rhetoric are covered, a classical perspective is most closely examined and applied.

CM-400F Rhetoric of Spirituality (Variable; Variable; 3.00 Credits; H) This course invites students to discover value and meaning in the rhetoric used to

describe and define God. Who is and what is God? How do we come to learn about and experience divinity? What role does language play relevant to divinity? Specifically, we will be illuminating epideictic rhetoric and how it functions to establish and sustain faith-based communities. Rhetorical analyses and discussions will guide our efforts to question foundational assumptions embedded in religious values. Such questioning helps to strengthen understandings of spirituality and of the divine.

CM-401 Senior Seminar (Fall only; Yearly; 1.00 Credit; H) Senior Seminar in Communication is an opportunity to refine your understanding of your communication POE and experiences and their application to the professional world of business or graduate school. Students will reflect on their communication expertise, prepare resumes and interviewing techniques, network with alums in communication, and communicate their expertise. This course intends to make explicit the strong knowledge base acquired in a Communication POE and to explore the opportunities available in the field of communication. Prerequisites: Senior standing.

CM-405A Women, Work & Identity (Fall only; Variable; 3.00 Credits; S) Women. Work. Identity. These three words are related in a complex web that many of us struggle to untangle for our entire working lives. In this course, we identify and name the components of the relationships among these words—all in the context of the unique perspective that the communication discipline offers. Prerequisites: CM130 or CM230 or CM220 or CM365 or permission of the instructor.

CM-420A Hollywood Films (Variable; Variable; 3.00 Credits; H, CW) In this course we explore one visual medium: film. Hollywood film is understood as mainstream media which is meant for a general audience and with strong box office constraints. A rhetorical perspective insists on the presence of an audience which is not necessarily of interest in all types of film study but will be crucial in our discussions. We relate theories, methods of production, and criticism to our work but it is not limited to them. This course is an opportunity for students to explore what mainstream films mean and why they are such an important cultural phenomenon. Prerequisites: CM132 or CM133.

CM-420B Media Violence (Variable; Variable; 3.00 Credits; H, CW) This media studies course introduces

students to basic issues and research surrounding media violence. We take a hard look at media violence and its scholarly research in order to understand the intricacies of both our fascination and repulsion for all of the media's manifestations of violence. Cross-listed in Communication and Peace and Conflicts Studies, this course asks students to critically analyze media violence while integrating current media research into our understanding of violence as a presence in our lives and what we can or should do about it. Prerequisites: CM132 or CM133.

CM-420C Digital Media Studies (Variable; Variable; 3.00 Credits; H) We know we can connect with a friend studying abroad on a 24/7 basis and when we do research on the WWW, the materials, location, time and distance are irrelevant. This course lets us extend our vision to a serious study of how global business, politics and social relations are changing by these various processes of instant connection and perpetual contact. Digital Media are at the heart of this revolution in communication. Necessarily we want to pay attention to the digital divide and the continuities of our lives as these communication changes occur. In looking at the big picture, the scope of these changes is necessarily global, challenging, complex and fast. Hang on to your seats!! Prerequisites: CM132 or CM133.

CM-420D Truth and Lying (Variable; Variable; 3.00 Credits; H, CW) This media studies course introduces students to the theories of rhetoric to understand the question, who can we trust? We pay special attention to the classical period of Rhetoric and the Rhetoric of the 20th century. Rhetoric has been transformed through media. Despite these transformations, rhetoric has always been considered of first importance for the ethical practical conduct of our everyday lives. How we present or lives our beliefs, attitudes, and commitments is indeed the concern of when we lie and who we can trust in our personal and public lives. Prerequisites: CM132 or CM133.

CM-420E Digital Storytelling (Variable; Variable; 3.00 Credits; H, F, CTDH) Digital stories derive their power in weaving images, music, narrative and voice together, and thereby giving deep dimension and vivid color to characters, situations, experiences, and insights. This course offers students the opportunity to experiment with narratives and their visualization using digital media technologies as a vehicle to tell stories creatively with a clear point of view and

audience awareness. Prerequisites: CM133 or 1 of the following courses, CM290 or IT110 or AR404.

CM-490 Communication Internship (Variable; Variable; 2.00-9.00 Credits; H) Communication students may apply their acquired skills and knowledge to on-the-job internships for a semester during their junior or senior year for a total of 9 credit hours. Television stations, radio stations, newspapers, magazines, public relations, advertising agencies and human relations in health organizations are all possible placements. You not only work as full-time members of a business team, but also evaluate and document your growth in a work journal and prepare a portfolio of presentations or publications. Corequisite: CM495. Prerequisite: Communication core and Jr. or Sr. standing.

CM-495 Communication Internship Research (Variable; Variable; 2.00-6.00 Credits; H) In addition to the on-the-job experience provided by the internship, students are required to pursue research related to their placement. An in-depth research paper or presentation is completed during the semester. Corequisite: CM490. Prerequisite: Communication core and Jr. or Sr. standing.

CM-497 Senior Research Seminar (Variable; Variable; 3.00-6.00 Credits; H, CS) Designed to serve as a capstone course for students who emphasize Communication in their POE. The students will be expected to examine communication theories and research methods relevant to a topic, theme, issue, or problem that has served as an area of special interest throughout the previous years of study. Students must have Senior standing and have a POE in Communication. (Formerly titled Honors Seminar).

CM-498 Senior Thesis Research (Either semester; Yearly; 3.00-6.00 Credits; H, CS) Designed to serve as a capstone course for students who emphasize Communication in their POE. The students will be expected to examine communication theories and research methods relevant to a topic, theme, issue, or problem that has served as an area of special interest throughout the previous two years of study. Students must have Senior standing and have a POE in Communication. Prerequisite: CM-497. (Formerly titled Honors Research.)

CM-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer special topics

not normally offered. Departments may offer more than one special topic. Prerequisites vary by topic.

CM-INS Independent Study (Either semester; Yearly; 1.00-4.00 Credits) See catalog. Permission required.

CM-TUT Communication Teaching Assistant (Variable; Variable; 1.00-4.00 Credits) This tutorial provides a structure for the experience of teaching in Communication and reflection on classroom dynamics.

CHINESE

CN-110 Chinese I (Fall only; Yearly; 4.00 Credits; H, I, SW-GE) Begins the introductory phase of acquiring a functional proficiency in modern Chinese. Special attention is paid to spoken Chinese.

CN-120 Chinese II (Spring only; Yearly; 4.00 Credits; H, I, CS, SW-GE) CHINESE 120, A CONTINUATION OF 110, IS THE SECOND HALF OF A YEAR-LONG BEGINNING LEVEL COURSE IN MODERN STANDARD (MANDARIN) CHINESE. THIS COURSE IS DESIGNED FOR STUDENTS WHO HAVE COMPLETED ONE SEMESTER OF COLLEGE-LEVEL CHINESE OR EQUIVALENT. ITS GOAL IS TO LAY A GOOD FOUNDATION FOR FURTHER STUDY, AND TO STRIVE FOR AN ALL-ROUND DEVELOPMENT OF COMMUNICATIVE COMPETENCE IN LISTENING, SPEAKING, READING AND WRITING IN MANDARIN CHINESE IN THE CONTEXT OF CHINESE CULTURE. PREREQ: CN110 or LANGUAGE PLACEMENT RESULTS.

CN-199 Chinese Special Topics (Variable; Variable; 1.00-4.00 Credits) For 100-level special topics courses in Chinese.

CN-210 Chinese III (Fall only; Yearly; 3.00 Credits; H, I, CS, SW-GE) Chinese 210 is the third part of a four-semester introductory sequence. This course is designed to further develop listening, speaking, reading and writing skills in Chinese. It will continue to train students in pronunciation and tone accuracy, to help them review and strengthen the basic syntax and grammar, build a working vocabulary around various daily situations, and further enhance their understanding of Chinese life and culture. Pre-req: CN110 and 120, or placement test results.

CN-220 Chinese IV (Spring only; Yearly; 3.00 Credits; H, I, CS, SW-GE) Chinese 220 is the second part of the

Intermediate Standard Mandarin Chinese course. To attend this course, successful completion of Chinese 110, 120, and 210 or equivalent are required. This course will continue to focus on oral proficiency as well as on the further development of reading, writing, and listening skills in the context of Chinese Culture. Students will attain approximately the Intermediate-low level on the ACTFL-ETS (American Council on the Teaching of Foreign Languages) proficiency scale. Prerequisites: CN110 and CN120 and CN210.

CN-299 Chinese Special Topics (Variable; Variable; 1.00-4.00 Credits) For 200-level special topics courses in Chinese.

CN-330 Advanced Chinese (Fall only; Variable; 3.00 Credits; I, H, CS, SW-GE) This is a high-intermediate to advanced Chinese language conversation course that also integrates Chinese reading and writing skills. The course uses videos, audio clips and textbook readings to present different cultural, social, linguistic, and economics topics in Chinese language. Students will gain a deeper understanding of both Chinese language and modern Chinese society. Prerequisites: CN110 and CN120 and CN210 and CN220.

CN-399 Special Topics (Variable; Variable; 3.00 Credits; H, I) Allows departments to offer topics not normally taught. Fees and prerequisites change by topic.

CN-INS Independent Study (Fall and Spring; Yearly; 1.00-3.00 Credits)

CONNECTIONS

CONN-202 Science and Society (Variable; Yearly; 3.00 Credits; CONN, CA, CW, IC) This course on Science and Society is intended to review historical issues in science and the debate that surrounds societal decision-making. Thus, students will examine this topic from the perspective of scientific process and social inquiry. In addition, we will also review current "hot topics" in science, research these topics from various aspects including societal impacts and scientific advancements. They will also discuss potential resolutions, moving toward becoming more scientifically literate. We will also be discussing current "popular" books on related science. Ultimately, we will compare what the scientists are saying in professional journals versus the interpretation presented to the general public. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-211 Barbados: Plants, Plants, Creole Ctr I (Variable; Yearly; 2.00 Credits; CONN, IC, I) Barbados: Plants, Plantations & Creole Culture - This Connections course intends that you understand the living landscape - human and botanical - as a result of historical processes, decisions, and accidents. Combining historical methods utilizing primary sources along with biological field methods, the natural and anthropogenic dynamics of West Indian botany are at the heart of the inquiry. Students will earn two credits in fall or spring semester with on-campus meetings and two credits in winter or summer term for the trip to Barbados. The total fee for the experience is split between the two courses. Students are expected to be in their third or fourth year when taking a Connections course. (NOTE: While this course includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement.)

CONN-212 Barbados: Plants, Plants, Creole Ctr II (Variable; Variable; 2.00 Credits; CONN, IC, I) Barbados: Plants, Plantations & Creole Culture - This Connections course intends that you understand the living landscape - human and botanical - as a result of historical processes, decisions, and accidents. Combining historical methods utilizing primary sources along with biological field methods, the natural and anthropogenic dynamics of West Indian botany are at the heart of the inquiry. Students will earn two credits in fall or spring semester with on-campus meetings and two credits in winter or summer term for the trip to Barbados. The total fee for the experience is split between the two courses. Students are expected to be in their third or fourth year when taking a Connections course. (NOTE: While this course includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement.)

CONN-225 Musical Acoustics (Variable; Yearly; 4.00 Credits; F, N, IC, CONN) This course covers concepts of physics as applied to music. Topics include sound and resonance, pitch and tuning systems, psychoacoustics, anatomy of the ear, workings of musical instruments, electronic music fundamentals and literature, a review of musical notation, aural recognition of intervals and pitches, instrument design/construction, and performance. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-300 Firing the Frontier (Variable; Yearly; 3.00 Credits; CONN, IC) From cooking hearths to space exploration, ceramic technology is one of the most enduring human inventions. This course explores how artists and archeologists utilize our knowledge of the techniques used by Native People of the Juniata watershed and early colonial potters in contemporary practices. We will engage in research and production of ceramic wares through the lens of history. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-301 Living With Artificial Intelligence (Variable; Yearly; 4.00 Credits; CONN, IC) The field of Artificial Intelligence (AI) has experienced unprecedented growth and is being applied in every industry. At the same time, it is poorly understood, easy to misuse, and often a source of bias and discrimination. This course will cover the history, ethics, and current application of AI with hands-on projects such as AI art and writing, image recognition, and autonomous robots. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-302 Yoga Theory and Practice (Either semester; Yearly; 4.00 Credits; CONN, IC) In the past fifty years, Yoga has become one of India's best-known exports, primarily in the form of physical (Hatha) Yoga. Through a concentrated study of asana, meditation techniques, pranayama, philosophical texts, and scientific reasoning, students will engage with the system of yoga through questioning and analysis as we explore how yoga and meditation became popular in the West. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-303 Genomics, Ethics, and Society (Variable; Variable; 4.00 Credits; CONN, IC, CTGES) The purpose of this course will be to gain an understanding of the science behind the genome project and develop an understanding how ethical norms are established and challenged. Students will discuss and debate the potential implications of this new technology for them as individuals and for society in general. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-304 Travel Writing 1 (Spring only; Variable; 1.00 Credit; CONN, IC) How can travel writers experience a place and write in a way that respects all of the aspects of a place and the people? In this course, students will explore travel writing in multiple ways -

through reading and analysis of contemporary and classic travel writing, learning and practicing travel writing techniques, researching the place and people of Iceland, traveling and journaling for two weeks in Iceland, and using written and oral communication to create and distribute their own travel writing about Iceland after they return. Scientific and journalistic ethics will infuse every aspect of this course as students learn to represent travel in an ethical way. NOTES: This is a three-course series, with students earning 1 credit in the spring semester for the predeparture course, 1 credit in the summer term for the trip to Iceland in August, and 1 credit in either summer term or fall semester for the post-travel reflective course. The total fee for the experience is split between the first two courses in the series. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-305 Travel Writing 2 (Summer only; Variable; 1.00 Credit; CONN, IC) How can travel writers experience a place and write in a way that respects all of the aspects of a place and the people? In this course, students will explore travel writing in multiple ways - through reading and analysis of contemporary and classic travel writing, learning and practicing travel writing techniques, researching the place and people of Iceland, traveling and journaling for two weeks in Iceland, and using written and oral communication to create and distribute their own travel writing about Iceland after they return. Scientific and journalistic ethics will infuse every aspect of this course as students learn to represent travel in an ethical way. NOTES: This is a three-course series, with students earning 1 credit in the spring semester for the predeparture course, 1 credit in the summer term for the trip to Iceland in August, and 1 credit in either summer term or fall semester for the post-travel reflective course. The total fee for the experience is split between the first two courses in the series. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-306 Travel Writing 3 (Variable; Variable; 1.00 Credit; CONN, IC) How can travel writers experience a place and write in a way that respects all of the aspects of a place and the people? In this course, students will explore travel writing in multiple ways - through reading and analysis of contemporary and classic travel writing, learning and practicing travel writing techniques, researching the place and people of Iceland, traveling and journaling for two weeks in

Iceland, and using written and oral communication to create and distribute their own travel writing about Iceland after they return. Scientific and journalistic ethics will infuse every aspect of this course as students learn to represent travel in an ethical way. NOTES: This is a three-course series, with students earning 1 credit in the spring semester for the predeparture course, 1 credit in the summer term for the trip to Iceland in August, and 1 credit in either summer term or fall semester for the post-travel reflective course. The total fee for the experience is split between the first two courses in the series. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-310 Revolution! Part 1 (Spring only; Yearly; 1.00 Credit; H, N, CW, IC, CONN) Revolution! will look at the structure of revolutions, broadly construed. The course will focus on four specific revolutions in the natural and life sciences, followed by a short-term study abroad experience in Eastern Europe, including Vienna, Brno, Prague, and Budapest, during summer term. Students will produce a script and podcast focusing on a specific revolution. NOTES: Students will earn one credit in spring semester with on-campus meetings and two credits in summer term for the trip that will occur during the summer session. The total fee for the experience is split between the two courses. Students are expected to be in their third or fourth year when taking a Connections course. (NOTE: While this course includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement.)

CONN-311 Revolution! Part 2 (Summer only; Yearly; 2.00 Credits; H, N, CW, IC, CONN) Revolution! Part 2 is the follow-up course to CONN-310 and is a short-term study abroad experience in Eastern Europe (including Vienna, Brno, Prague, and Budapest) during summer term. NOTES: Students will earn one credit in spring semester with on-campus meetings and two credits in summer term for the trip that will occur during the summer session. The total fee for the experience is split between the two courses. Students are expected to be in their third or fourth year when taking a Connections course. (NOTE: While this course includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement.)

CONN-313 Science Policy (Variable; Yearly; 3.00 Credits; CONN, IC) In this course, we will explore how science and technology influence, and are in turn influenced by, U.S. public policy. We will also discuss how a scientific "consensus" is built and challenged. We will analyze scientific policies, while working to understand the impact of these policies on the development of science as well as that of the nation. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-314 Global Climate Change (Variable; Variable; 4.00 Credits; CONN, IC) This course examines the science and politics of global climate change, including data and analyses in the assessment reports of the UN Intergovernmental Panel on Climate Change. The course also examines how governments and other political actors craft and shape policies related to climate change. Special attention will be placed on the extent to which public policy is influenced by scientific evidence and political considerations. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-315F Ways of Well-Being (Fall) (Fall only; Variable; 3.00 Credits; CONN, IC, I) Mindfulness, Surfing, and Taijiquan (Tai Chi) are hobbies, sports, lifestyles, and pathways to well-being. Principally, this course is aimed at helping you to cultivate a path towards enhanced personal and collective well-being. The course includes a week-long trip to Costa Rica, where students will enjoy surfing, practicing meditation and Tai Chi, and exploring one of the most beautiful places on Earth. NOTES: 1) CONN-315F is the first course in a two-course series, with students earning 3 credits in the fall semester for the predeparture course and 1 credit in the winter term for the trip to Costa Rica. The total fee for the experience is split between the two courses in the series. 2) While this course series includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement. 3) Students are expected to be in their third or fourth year when taking a Connections course.

CONN-315S Ways of Well-Being (Spring) (Spring only; Variable; 4.00 Credits; CONN, IC, I) Mindfulness, Surfing, and Taijiquan (Tai Chi) are hobbies, sports, lifestyles, and pathways to well-being. Principally, this course is aimed at helping you to cultivate a path

towards enhanced personal and collective well-being. The course includes a spring break trip to Costa Rica, where students will enjoy surfing, practicing meditation and Tai Chi, and exploring one of the most beautiful places on Earth. NOTES: 1) While this course includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement. 2) Students are expected to be in their third or fourth year when taking a Connections course.

CONN-315W Ways of Well-Being (Winter) (Winter Term Only; Variable; 1.00 Credit; CONN, IC, I) Mindfulness, Surfing, and Taijiquan (Tai Chi) are hobbies, sports, lifestyles, and pathways to well-being. Principally, this course is aimed at helping you to cultivate a path towards enhanced personal and collective well-being. The course includes a week-long trip to Costa Rica, where students will enjoy surfing, practicing meditation and Tai Chi, and exploring one of the most beautiful places on Earth. NOTES: 1) CONN-315W is the second course in a two-course series, with students earning 3 credits in the fall semester for the predeparture course and 1 credit in the winter term for the trip to Costa Rica. The total fee for the experience is split between the two courses in the series. 2) While this course series includes a study abroad component, it counts towards the Connections requirement, not the Self & The World Global Engagement requirement. 3) Students are expected to be in their third or fourth year when taking a Connections course.

CONN-320 The Politics and Cultures of Migration (Variable; Yearly; 3.00 Credits; CONN, IC) In this course, you will gain an understanding of many aspects of migration, such as the motivations, obstacles, and dangers of migration; the evolution of US immigration laws; the economic, political, and cultural impact of migration on US, Mexican, and Central American societies. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-324 Origins & Destiny of the World (Variable; Variable; 4.00 Credits; CONN, IC) This course studies scientific and religious accounts of the origin of the world and predictions about its destiny. Topics include the Big Bang, formation of Earth, evolution of humans, biblical and other ancient stories of creation and the worldwide flood, and scientific theories and religious visions of the end of the world. We will pay

special attention to how scientific and religious perspectives on these topics interact and relate to one another. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-325 Theatre of the Observed (Variable; Variable; 3.00 Credits; CONN, IC) Is empathy a thought or an action? Is it something we have, give, enact, or embody? How is empathy communicated? In this course, we examine the nuances of empathy through reading, speaking, observing, and embodied action. The course brings together methods of social inquiry and creative expression in order to produce an original verbatim theatrical performances and reflection on the human experience known as empathy. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-331 Geoarchaeology (Variable; Yearly; 4.00 Credits; IC, CONN) The course will introduce the cultural, historical, and geological aspects of the field of geoarchaeology. We focus on how different people interacted and behaved in the past through analysis of the items preserved in the geological record. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-340 Environmental Justice (Variable; Yearly; 4.00 Credits; CONN, IC) This course will use case studies to explore issues of environmental justice and will emphasize the ways in which environmental justice issues disproportionately impact marginalized individuals and communities. Students will work collaboratively with peers and faculty with different perspectives than their own in order to explore multi-faceted problems from many directions and to propose solutions that address these problems. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-350 Community Health Advocacy (Variable; Yearly; 3.00 Credits; CONN, IC) In this course, students learn to recognize health disparities within communities and identify ways to intervene and advocate to promote better health outcomes for community members. Students will explore how poor health outcomes for individuals and communities are linked to social determinants of health. This course uses the competencies for community health workers established by the Pennsylvania Certification Board.

NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CONN-390 Comparative Rural Experience I (Spring only; Yearly; 2.00 Credits; CONN, IC) What does rural life look like in different places? What structural factors shape rural life? How do rural communities respond to their particular histories and social contexts? In this course, you will use methods from the humanities and the social sciences to compare how people experience rural life in different areas of the United States. Specificity of place and attention to the voices of the rural poor are central to our study. We will conclude the semester-based course with a two-week study-away experience in the Black Belt region of Alabama during summer session. NOTES: Students must complete both CONN-390 and CONN-391 to fulfill the Connections or IC requirement. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-391 Comparative Rural Experience II (Summer only; Yearly; 2.00 Credits; CONN, IC) What does rural life look like in different places? What structural factors shape rural life? How do rural communities respond to their particular histories and social contexts? In this course, you will use methods from the humanities and the social sciences to compare how people experience rural life in different areas of the United States. Specificity of place and attention to the voices of the rural poor are central to our study. We will conclude the semester-based course with a two-week study-away experience in the Black Belt region of Alabama during summer session. NOTES: Students must complete both CONN-390 and CONN-391 to fulfill the Connections or IC requirement. Students are expected to be in their third or fourth year when taking a Connections course.

CONN-392 Justice and Global Health (Variable; Variable; 4.00 Credits; CONN, IC) This course will introduce students to important contemporary debates about the nature of justice and global health from a variety of disciplinary perspectives. Topics covered include philosophical approaches to justice, prominent debates within global health around disparate health outcomes, and the impact of neoliberalism on public health systems. NOTE: Students are expected to be in their third or fourth year when taking a Connections course.

CS-001 Non-Credit Computer Science Internship (Summer only; Yearly; 0.00 Credits) Provides students

an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as internship: (Title); must be 6 weeks long. Prerequisite: Permission.

COMPUTER SCIENCE

CS-110 Computer Science I (Variable; Yearly; 3.00 Credits; N, CTGES, CTGIS) An introductory study of computer science software development concepts. Python is used to introduce a disciplined approach to problem solving methods, algorithm development, software design, coding, debugging, testing, and documentation in the object oriented paradigm. This is the first course in the study of computer science. Recommended programming experience or IT110 or IT100, IT111 or IM110 or MA103 but not necessary.

CS-110G Computer Sci I (Genomics) (Spring only; Variable; 3.00 Credits; N) The CS 110 course project and topic emphasis is focused on genomics applications and big data management. This course will be specifically available for the Genomics Leadership Initiative Certificate.

CS-116 Discrete Structures (Variable; Yearly; 4.00 Credits; Q, N) Discrete Structures (Fall; Yearly; 4.00 Credits; N, Q) Introduces mathematical structures and concepts such as functions, relations, logic, induction, counting, and graph theory. Their application to Computer Science is emphasized. Pre-requisite: high school algebra.

CS-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites will vary by topic.

CS-220 Computer Organization (Fall only; Yearly; 4.00 Credits; N) An introduction to digital computer systems including a treatment of logic and digital circuits, data representation, device characteristics and register transfer notation covered in a manner that stresses application of basic problem solving techniques to both hardware and software design. Students gain experience programming in an assembly language to reinforce these systems and design concepts. Prerequisites: CS110.

CS-240 Computer Science II (Spring only; Yearly; 4.00 Credits; N) A continued study of computer science

foundations as begun in Computer Science I. An object-oriented language such as JAVA is used to develop and implement large programs involving various data structures and data abstraction as exemplified by packages and modules. Search, sorting, advanced data structures, programming methodology and analysis are emphasized.

Prerequisites: CS110 and MA116 or MA210.

CS-255A Android Programming (Spring only; Yearly; 1.00 Credit; N) This course will take your existing Java skills learned in Computer Science I and turn them into Android programming experience. Students will learn the skills in order to develop a fully functional application. Programming in the Android Studio environment, activity and fragment lifecycles, basic user interface design, and application distribution are emphasized. Prerequisites: CS240 and Instructor Permission.

CS-255B COBOL Programming (Spring only; Yearly; 2.00 Credits; N) The students will prepare a portfolio of computer programs written in the language. The programs are reviewed, critiqued, and then the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110 and Sophomore standing and permission.

CS-255C C++ Programming (Spring only; Yearly; 2.00 Credits; N) The students will prepare a portfolio of computer programs written in the language. The programs are reviewed, critiqued, and then the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS-110 and Sophomore standing or higher.

CS-255F FORTRAN Programming (Spring only; Yearly; 2.00 Credits; N) The students will prepare a portfolio of computer programs written in the FORTRAN language. The programs are reviewed, critiqued, and the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110 and Sophomore standing and permission of instructor.

CS-255P Perl Programming (Spring only; Yearly; 2.00 Credits; N, CTGES) The students will prepare a portfolio of computer programs written in the Perl language. The programs are reviewed, critiqued, and then the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110 and Sophomore standing and permission.

CS-255R Ruby Programming (Spring only; Yearly; 2.00 Credits; N) The students will prepare a portfolio of computer programs written in the Ruby language. The programs are reviewed, critiqued, and then the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110 and Sophomore standing and permission.

CS-255U Unix Programming (Fall and Spring; Yearly; 1.00 Credit; N, CTGES) The students will prepare a portfolio of basic Unix programs and scripts. The course covers basic Unix commands, editing techniques, regular expression usage, and script building. The programs are reviewed, critiqued, and the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110.

CS-255Y Python Programming (Spring only; Yearly; 2.00 Credits; N, CTGES) The students will prepare a portfolio of computer programs written in the Python language. The programs are reviewed, critiqued, and then the student has an opportunity to revise them as needed for final inclusion in the portfolio. Prerequisites: CS110 and Sophomore standing and permission.

CS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

CS-300 Software Engineering (Spring only; Yearly; 3.00 Credits; N) An introduction to the issues of software design. Topics include software engineering, software project management and development of projects in a modern design environment. The focus of the course is on the process used to develop quality software. The students work in teams to develop, implement and fully document a computer project to apply these concepts. Prerequisite: CS240.

CS-305 Software Models (Fall only; Even Years; 3.00 Credits; N) A study of current software implementation models. Models of procedural based control for both batch and interactive settings, event driven control, real time control and exception handling are considered within representative interactive development environments such as .NET Design of graphical user interfaces for web-based and windows-based applications are integrated into the team projects. Prerequisites: IT240 or CS240.

CS-315 Algorithms and Analysis (Either semester; Odd Years; 4.00 Credits; CW, N) The study and analysis of algorithms, their complexity and supporting data structures. Topics include searching, sorting, mathematical algorithms, tree and graph algorithms, the classes of P and NP, NP-complete and intractable problems, and parallel algorithms. Prerequisites: CS240 and MA116.

CS-320 Operating Systems (Spring only; Even Years; 4.00 Credits; N) An introduction to the theory, evaluation, and implementation of computer operating systems. Topics include memory, process and resource management, elementary Queuing and network models, and scheduling. Prerequisites: CS220 & CS240.

CS-330 Computer Graphics (Variable; Variable; 3.00 Credits; N) An introduction to both the hardware and software utilized in computer graphics. The emphasis is on a top-down, programming approach, using a standard application programmer's interface. Students will create three-dimensional and interactive applications, in addition to studying several of the classic, low-level, rendering algorithms. Prereq: CS-240.

CS-341 Scientific Computing (Variable; Yearly; 3.00 Credits; N) This course begins with an introduction to fundamental concepts in Scientific Computing and concludes with domain-specific projects in areas like Bioinformatics, Data Science, Physical Systems, and Numerical Analysis. The common content will include command-line interfaces (Linux), programming languages (Jupyter/Python), numerical and graphical libraries (NumPy and Matplotlib), version-control (Git/Github), and relational databases (SQL). Pre-Req: CS-110.

CS-360 Programming Languages (Variable; Variable; 3.00 Credits; N) A systematic approach to the study and analysis of computer programming languages. The underlying concepts of these languages are emphasized. Prerequisites: CS-220 and CS-240.

CS-362 Languages and Translation (Either semester; Odd Years; 4.00 Credits; N) A systematic approach to the study and analysis of computer programming languages. The procedural, functional, object-oriented and logical language paradigms are examined through the use of representative languages. Syntax and semantics issues are emphasized through the study of translation

techniques in formal labs and group projects. Prerequisites: CS220 and CS240. Must have Junior or Senior standing.

CS-370 Database Management Systems (Fall only; Yearly; 3.00 Credits; N, CTGIS) Focuses on concepts and structures necessary to design and implement a database management system. Various modern data models, data security and integrity, and concurrency are discussed. An SQL database system is designed and implemented as a group project. Prerequisites: CS110.

CS-390 Computer Science in Germany Seminar (Spring only; Yearly; 1.00 Credit; I, SW-GE) This course will introduce the student to studying computer science in Germany. During the spring semester at Juniata, students will prepare for their travel to Germany by (1) studying the functional German required for travel, (2) reading about the culture and history of the country (and the state of North Rhine-Westfalia in particular), and (3) configuring the technology required for that year's selected topic in CS or IT. (The course content will vary each year.) This course is followed by CS-391, which is given at the Muenster University of Applied Sciences, for between two and three weeks each May or June. The instructor at MUAS will be a Juniata College faculty member. Pre-requisites: CS-240 and instructor permission. A fee of \$1,200 is applied that is split between the spring and summer terms and covers instructional costs, tuition, and Juniata College credit. Students will need to purchase their own plane and train fares. The host institution will facilitate housing for the students.

CS-391 Computer Science in Germany (Summer only; Variable; 2.00 Credits; I, SW-GE) This course is given at the Muenster University of Applied Sciences, for between two and three weeks each May or June. The instructor at MUAS will be a Juniata College faculty member. Pre-requisites: CS-240 and instructor permission. A fee of \$1,200 is applied that is split between the spring and summer terms and covers instructional costs, tuition, and Juniata College credit. Students will need to purchase their own plane and train fares. The host institution will facilitate housing for the students.

CS-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of computer science not currently included in the regular course offerings, such as Theory of Computation,

Artificial Intelligence, Parallel processing, computer architecture, etc. Prerequisites: Variable depending upon the course. Note: Students may take each ST course for credit.

CS-480 Computer Science Seminar I (Fall and Spring; Yearly; 1.00 Credit; N) Discusses current advances in computer science and information technology not otherwise covered in our program such as, but not limited to, networking, artificial intelligence, societal issues. In addition this course allows senior students to plan an individual research project to be completed in CS485. This course, taken by a junior may be repeated as a senior as CS481. Prerequisites: Junior or senior standing and CS220 or CS240 or IT210.

CS-481 Computer Science Seminar II (Fall and Spring; Yearly; 1.00 Credit; N) See CS480. Prerequisite: CS480.

CS-485 Computer Science Research (Fall and Spring; Yearly; 3.00-5.00 Credits; N, CW) Allows students to carry out the independent computer science research project as designed in CS480 or CS481. Prerequisite: CS480 or CS481.

CS-490 Computer Science Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) A placement with an organization having a data processing department. An in-depth exposure to the practice of computer science in a computer processing environment is provided. Note: may be repeated up to a total of 9 hours credit. Corequisite: CS495. Prerequisites: POE in Computer Science & permission and Jr. or Sr. standing.

CS-495 Computer Science Internship Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on the internship experience and/or pursue research related to the placement. Note: may be repeated up to a total of 9 hours credit. Corequisite: CS490. Prerequisite: POE in Computer Science, permission and Senior standing.

CS-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

CS-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits)

DATA SCIENCE

DS-001 Non-Credit Data Science Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization including its structure, strategies and principal lines of activity as well as providing an opportunity for practical application of the skills developed in students' areas of concentration. Note: see the chapter "Academic Programs" under Internships: listed as Internship (title) must be at least 9 weeks long. Prerequisites: The EB Core or Foundation Courses, sophomore standing and permission.

DS-110 Intro to Data Science (Fall only; Yearly; 3.00 Credits; N) This course introduces the student to the emerging field of data science through the presentation of basic math and statistics principles, an introduction to the computer tools and software commonly used to perform the data analytics, and a general overview of the machine learning techniques commonly applied to datasets for knowledge discovery. The students will identify a dataset for a final project that will require them to perform preparation, cleaning, simple visualization and analysis of the data with such tools as Excel and R. Understanding the varied nature of data, their acquisition and preliminary analysis provides the requisite skills to succeed in further study and application of the data science field. Prerequisite: comfort with pre-calculus topics and use of computers.

DS-210 Data Acquisition (Fall & Spring; All Years; 3.00 Credits; N) Students will understand how to access various data types and sources, from flat file formats to databases to big storage data architecture. Students will perform transformations, cleaning, and merging of datasets in preparation for data mining and analysis. PRE-REQ: CS 110 and DS 110.

DS-352 Machine Learning (Fall only; Variable; 3.00 Credits; N) This course considers the use of machine learning (ML) and data mining (DM) algorithms for the data scientist to discover information embedded in datasets from simple tables through complex and big data sets. Topics include ML and DM techniques such as classification, clustering, and predictive and statistical modeling using tools such as R, Matlab, Weka, and others. Simple visualization and data exploration will be covered in support of the DM. Software techniques implemented in the emerging storage and hardware structures are introduced for

handling big data. Prerequisite: CS-110, DS-110, and an approved statistics course: MA-205, MA-220, BI-305, PY-260, or EB-211.

DS-375 Big Data (Variable; Yearly; 3.00 Credits; N)
This course considers the management and processing of large data sets, structured, semi-structured, and unstructured. The course focuses on modern, big data platforms such as Hadoop and NoSQL frameworks. Students will gain experience using a variety of programming tools and paradigms for manipulating big data sets on local servers and cloud platforms. Prerequisites: DS 110 Intro to Data Science and CS 370 Database Management Systems

DS-420 Data Science Capstone (Fall only; Yearly; 1.00 Credit) This course is a capstone experience for Data Science POE students and must be completed as part of a student's final 30 credits. It represents the summation of a student's Juniata experience and serves as a bridge to their future goals. Students will have the opportunity to both apply their previous data science skills and develop new skills through a data analysis project. Prerequisites: DS-110, CS-110, and one course from the following list: MA-220 or MA-205 or EB-211 or BI-305 or ESS-230 or ESS-309 or PY-361 or SW-215.

DS-490 Data Science Internship (Variable; Yearly; 2.00-9.00 Credits) See Internship in the catalog. Requires instructor permission. Corequisite: DS-495

DS-495 Internship Seminar (Variable; Yearly; 2.00-6.00 Credits) See Internship in the catalog. Requires instructor permission. Corequisite: DS-490

ECONOMICS AND BUSINESS

EB-001 Non-Credit Business Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization including its structure, strategies and principal lines of activity as well as providing an opportunity for practical application of the skills developed in students' areas of concentration. Note: see the chapter "Academic Programs" under Internships: listed as Internship (title) must be at least 9 weeks long. Prerequisites: The EB Core or Foundation Courses, sophomore standing and permission.

EB-100 Introduction to Management (Variable; All Years; 3.00 Credits; S) This course develops an understanding of management principles in the areas

of planning, organizing, staffing and control, including but not limited to the aspects of strategy, legal environment, operation/supply chain management.

EB-102 Introduction to Entrepreneurship (Spring only; Yearly; 3.00 Credits; S) Students will explore the personal ramification of becoming an entrepreneur. They will generate ideas for new business start-ups and learn how to determine whether an idea represents a viable business opportunity. Students will develop their concepts as far as possible toward the actual startup venture. Prerequisite: EB101 or permission of the instructor.

EB-105 International Economic Issues (Fall and Spring; Variable; 3.00 Credits; S, I) Understanding international economics is increasingly important for private and public decision-makers. In a world of growing economic interdependence, the ability of policy makers to provide a stable environment for business is a key issue. Accordingly, this course develops the principle topics of international economics, including trade theory, the balance of payments, the cause and consequences of exchange rate movements, the flow of capital, currency crises and regional trade issues. The applied topics emphasized will be based on the most pressing current issues.

EB-120 Executive Leadership (Spring only; Yearly; 1.00 Credit; S) Students will study leadership styles and effective leadership practices in various settings, including entrepreneurship, private business, corporations, not-for-profit organizations and social movements.

EB-131 Financial Accounting (Fall and Spring; Yearly; 3.00 Credits; S) Introduces fundamental principles and assumptions of accounting as they relate to transaction analysis and basic financial statements.

EB-140 Investing: Your Future (Fall and Spring; Yearly; 1.00 Credit; S) Saving too little can cost you a secure future. In this course you will learn to make informed judgments about how to save, how much to save, how to invest, what to believe, who to ask for advice, and how to choose among investments. Students with no investing knowledge but who are interested are especially encouraged to take this course.

EB-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics

not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

EB-202 Behavioral Analysis of Organizations (Variable; Yearly; 4.00 Credits; CW, S, WK-SI) The broad focus of the course is to examine how individuals come together to form a successful organization. The course is broken into three major sections: people, organizations, and leadership. The course emphasizes student involvement and engages students in a variety of in-class exercises, case analysis role-playing exercises, small group exercises, and an off-campus class experience or two. One or more off-campus experiences are required for the course. Must be at sophomore standing or above. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

EB-203 Introduction to Business Law (Variable; Variable; 3.00 Credits; S) An introduction to the American legal system as it applies to the business community. Emphasis is on basic legal concepts in contracts, real and personal property, agency and employment, and transaction of business through partnerships and corporations.

EB-204 Legal Regulation of Business (Spring only; Variable; 3.00 Credits; S) Examines the areas in which by statute the legislative branch of government regulates business. Topics include anti-trust law, bankruptcy, consumer protection, securities laws and the uniform commercial code. Prerequisite: Sophomore standing.

EB-206A Fashion Marketing, Part 1 (Variable; Variable; 2.00 Credits; SW-GE) This Global Engagement course sequence (2-credit predeparture course in fall or spring semester plus a 2-credit short-term study abroad course in winter or summer term) is designed to provide students with a multidisciplinary exploration of fashion production and marketing in France and Morocco. This course provides classroom instruction along with practical experiences in France and Morocco to explore the cultural and economic impact of the fashion industry. Pre- or Co-Req: FYC-101 or EN-110 or EN-109. Total fees for the experience are split between the two courses, EB-206A and EB-206B.

EB-206B Fashion Marketing, Part 2 (Variable; Variable; 2.00 Credits; SW-GE) This Global Engagement course sequence (2-credit predeparture course in fall or spring semester plus a 2-credit short-term study abroad course in winter or summer term) is designed

to provide students with a multidisciplinary exploration of fashion production and marketing in France and Morocco. This course provides classroom instruction along with practical experiences in France and Morocco to explore the cultural and economic impact of the fashion industry. Pre-Req: EB-206A. Total fee for the experience are split between the two courses, EB-206A and EB-206B.

EB-207 New Venture Creation (Fall and Spring; Yearly; 3.00 Credits; S) Students will analyze business start-up successes and failures, develop their own new ideas for new ventures and learn how to determine when an idea represents a viable business opportunity. Students will pursue those opportunities as far as possible toward actual startup of the venture. Prerequisites: EB102.

EB-210 Quantitative Business Analysis (Fall only; Yearly; 3.00 Credits; QM, S) This course introduces quantitative techniques for solving business problems and works to establish a link between data analysis and business decision-making. The course presents algebra, graphical methods, applied calculus, and descriptive statistics as tools to aid business decision makers. Prerequisites: High school algebra or pre-calculus.

EB-211 Business Statistics (Either semester; Yearly; 3.00 Credits; QS, S) This course covers basic descriptive and inferential statistics, normal curve and z-score computations, and addresses hypothesis testing using Chi-Square, T-Test, ANOVA, and linear regression modelling.

EB-222 Principles of Macroeconomics (Fall and Spring; Yearly; 3.00 Credits; S) Macroeconomic conditions affect individuals and businesses in numerous ways: employment opportunities, the purchasing power of wages and salaries, the cost of borrowing money, sales, profits, and competitiveness against foreign businesses. This course develops the theories relevant to understanding the business cycle, inflation, unemployment, deflation, exchange rates and balance of payments problems. It also examines the options and tradeoffs governments face as they seek to provide a stable macroeconomic environment through monetary and fiscal policies. Case studies of the macroeconomic performance and policies of diverse countries provide a comparative orientation. Prerequisites: Sophomore, Junior, or Senior standing

EB-223 Principles of Microeconomics (Fall and Spring; Yearly; 3.00 Credits; S) The optimizing behavior of households and firms serves as the focal point in this study of market-based resource allocation. Supply and demand analysis, spending and saving decisions of households, production and employment decisions of firms, alternative market structures, and environmental economics are among the topics covered. Prerequisite: Sophomore, Junior, or Senior standing.

EB-232 Intermediate Accounting I (Fall only; Yearly; 4.00 Credits; S) A comprehensive study and application of generally accepted accounting principles for asset valuation, income measurement, and financial statement presentation for business organizations. Prerequisites: EB131.

EB-233 Intermediate Accounting II (Spring only; Yearly; 4.00 Credits; S) A continuation of the comprehensive study and application of generally accepted accounting principles for asset valuation, income measurement, and financial statement presentation for business organizations begun in Intermediate Accounting I. Prerequisite: EB232.

EB-236 Managerial Accounting (Fall and Spring; Yearly; 4.00 Credits; S, QM, CW) Emphasizes accounting concepts for the internal use of management in planning and control. Course focuses on spreadsheet applications to analyze management policies. Prerequisite: EB131.

EB-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

EB-300 Business in China I (Spring only; Yearly; 2.00 Credits; I, CA, SW-GE) This course will examine 1) the history of the Economic Reform that triggered the economic growth in 1988 in China; 2) the role that international trade has played that promoted the economic growth in China; 3) the civic life of China, particularly from the business perspective; and 4) the basic conversational Mandarin Chinese and Chinese business etiquette that help students get by in China. We will review basic economics concepts and introduce students to the fundamentals of economic theory. We will apply economic reasoning to think critically about the public policies, business decisions, and general tradeoffs that help explain the recent economic growth in China. Another objective of the

course is to connect students with internship opportunities by physically visiting multinational enterprises in China and connecting with Juniata alumni in China. Students will gain a better understanding of China and better prepare those who want to start their careers in China. This course adds important value to the ABE department and the business curriculum as the course design is consistent with the college strategic plan with respect to China. Corequisite: EB301. Note: There are no refunds after drop/add ends.

EB-301 Business in China II (Summer only; Yearly; 2.00 Credits; CA, I, SW-GE) This course will examine 1) the history of the Economic Reform that triggered the economic growth in 1988 in China; 2) the role that international trade has played that promoted the economic growth in China; 3) the civic life of China, particularly from the business perspective; and 4) the basic conversational Mandarin Chinese and Chinese business etiquette that help students get by in China. We will review basic economics concepts and introduce students to the fundamentals of economic theory. We will apply economic reasoning to think critically about the public policies, business decisions, and general tradeoffs that help explain the recent economic growth in China. Another objective of the course is to connect students with internship opportunities by physically visiting multinational enterprises in China and connecting with Juniata alumni in China. Students will gain a better understanding of China and better prepare those who want to start their careers in China. Corequisite: EB300.

EB-307 New Venture Start-Ups (Fall and Spring; Yearly; 3.00 Credits; S) Students will develop their new ventures beyond the conceptual and planning stages by establishing actual operations-purchasing, manufacturing, marketing, etc. to generate revenue. They will implement whatever support systems (accounting, human resources, inventory management, etc.) are needed. Prerequisite: EB207.

EB-320 Intermediate Microeconomics (Fall only; Variable; 3.00 Credits; S) Microeconomics analyzes the behavior of individual economic units such as consumers and firms. Intermediate microeconomics builds on the topics covered in principles of microeconomics and principles of macroeconomics. While those courses were more intuitive, this course explores microeconomics with a deeper degree of

rigor using mathematical models to predict economic behavior. Prerequisites include EB223 and EB222.

EB-321 Intermediate Macroeconomics (Fall only; Variable; 3.00 Credits; S) Intermediate Macroeconomics builds upon the concepts developed in principles of microeconomics and principles of macroeconomics. Macroeconomics in general tries to understand the aggregate behavior of economies rather than that of individual economic actors, and in this course we will study and use models that help explain what has happened in the past and predict what will occur. Prerequisites: EB222 and EB223.

EB-325 Health Economics (Variable; Yearly; 3.00 Credits; S) Health Economics applies economic analysis to better understand the functioning of the healthcare industry. Topics will include demand for healthcare and health insurance, information problems, healthcare costs, comparative healthcare systems and healthcare policy. Prerequisite: EB223 Principles of Microeconomics

EB-332 Corporate Taxation (Variable; Variable; 3.00 Credits; S) This course is intended for undergraduates who desire to learn how the IRS code applies to corporations. Prerequisites: Junior or Senior standing.

EB-333 Governmental and Nonprofit Accounting (Spring only; Yearly; 3.00 Credits; S) Governmental and Nonprofit Accounting is designed to provide an overview of fundamental concepts and practices used in accounting for activities of governmental and non-business organizations. After successfully completing the course, students will be familiar with recording financial transactions, preparing financial reports, budgeting, auditing, and analyzing the results for federal, state and local governments, colleges and universities, healthcare organizations and other nonprofits. Prerequisite: EB 233 Intermediate Accounting II.

EB-335 Auditing (Fall only; Variable; 3.00 Credits; S) Emphasizes current auditing principles and the objectives of independent accounting firms. Particular attention is placed on auditing procedures and the ethical and legal responsibilities of the auditor. Prerequisite: EB233.

EB-337 Cost Accounting (Either semester; Yearly; 3.00 Credits; S) An analysis of the use of cost accounting systems to accumulate and allocate manufacturing costs. In order to support inventory valuation and

emphasis is on solving real business problems. Prerequisite: EB236 and Junior or Senior standing.

EB-340 Investing Analysis (Fall and Spring; Yearly; 1.00 Credit; S) The course is meant to train portfolio managers. Students will maintain an online trading account and learn about fiduciary responsibility. They will assist portfolio managers by analyzing investments and with other tasks. This course prepares students to become portfolio managers. Prerequisites: EB140

EB-341 Production and Operations Management (Either semester; Yearly; 3.00 Credits; S) Examines the necessary things business firms must do to efficiently convert inputs to outputs. The course is about equally divided between qualitative operations management theory and quantitative tools that have been developed to solve typically occurring problems in production/ operations. Prerequisites: EB201.

EB-342 Management Information Systems (Spring only; Yearly; 3.00 Credits; S) The study of how computer technology is used to gather, store, organize, retrieve, and transmit information within and between organizations. Topics include the organizational and technical foundations of information systems, the contemporary tools and techniques for building systems, and the management of information system resources. Emphasizes current computer platform applications and techniques used in business. Prerequisites: EB201 (EB201 can be taken concurrently) and Junior or Senior standing.

EB-351 Marketing Management (Fall and Spring; Yearly; 3.00 Credits; S) Analyzes consumer behavior leading to the selection of products as well as pricing, promotion, and distribution strategies. Research projects help students apply concepts to the complexities of decision-making in marketing. Prerequisite: EB-100 or EB-101.

EB-355 Marketing Strategies (Spring only; Yearly; 3.00 Credits; S) Examines in depth the development and implementation of marketing strategies, for businesses and not-for-profits, for domestic and international businesses. Prerequisite: EB351.

EB-358 Marketing Research and Analytics (Variable; Yearly; 3.00 Credits; S) This course covers the three core pillars of analytics: Descriptive Analytics, Predictive Analytics, and Prescriptive Analytics, which

helps students understand, conduct, interpret and evaluate basic statistics that are widely used in marketing research and in the process being able to critique research reports. Students will be trained to utilize computer software in conducting statistical analyses. Prerequisite: EB-351

EB-359 Advertising & Promo Mgmt (Variable; Yearly; 3.00 Credits; S) This promotion management course is designed to give students an in-depth examination of integrated marketing communication and how it relates to handling promoting an organization, a campaign, a product and (or) service, or any other specific cause. The course will look at various promotional techniques such as public relations, various sources of advertising and marketing, and the utilization of direct sales approaches, with the focus on the marketing mix to the various aspects of communications that take place between the firm and its customers. At the same time, this course lends itself to studying both applied and theoretical issues to give students both a real-world view of advertising and promotions, as well as frameworks for understanding such real-world decisions. The course will offer an insight into strategies that can be developed and implemented to manage promotional activities. Pre-Req: EB-351

EB-361 Financial Management I (Fall only; Yearly; 3.00 Credits; S) The management of business assets and liabilities and the concurrent creation of sources and the use of funds. Special attention is given to financial statement analysis and decisions involving working capital management. Prerequisite: EB131 and Junior or Senior standing.

EB-362 Financial Management II (Spring only; Yearly; 3.00 Credits; QM, S) Special attention to long-term external sources of funds. Capital budgeting under uncertainty, security market processes, strategies for debt/ equity mix, and portfolio theory are covered. Prerequisite: Junior or Senior standing.

EB-363 Health Care Financial Management (Variable; Yearly; 3.00 Credits; S) Emphasizes health care decision making using financial information. The course focuses on unique financial characteristics in the health care industry, such as the mix of government and non-government providers and payers, complex payment systems, and the interactions between providers, insurance companies and consumers. Prerequisite: EB131.

EB-371 Human Resource Management. (Fall only; Yearly; 3.00 Credits; S) The early part of the course takes an in-depth look at the fundamental nature of the employer- employee relationship. The fundamental framework is then used to evaluate traditional aspects of Human Resource Management practice: Selection, training, recruitment, performance appraisals, and compensation. Class time involves some lecture, in-class exercises, guest speakers from industry, and case analyses. Prerequisites: EB202 or PACS202.

EB-375 21st Century Leadership (Either semester; Yearly; 3.00 Credits; S, CTGES) This course examines the challenges of providing leadership in the information age of global and cultural contexts. Leadership as manifested in today's workplace provides both opportunity and a great responsibility. The role and function of leaders look very different today than years ago. Change is the norm. Leaders must understand today's challenges and be able to function effectively given a borderless, multicultural, virtual, and diverse group of followers. No prerequisites.

EB-377 Sports Management (Spring only; Variable; 3.00 Credits; S, CS) Sports Management will explore the many business and socio-cultural aspects of the business of sports. Sport plays an increasingly significant role in our world as professional and collegiate sports attract more and more of our entertainment spending and sports personalities become more central and idolized in society. This exploration of the sports industry will connect well with other areas of business study: organizational behavior, strategy, human resource management, and marketing. Prerequisite: Junior standing.

EB-379 Bargaining and Conflict Management (Variable; Yearly; 3.00 Credits; S, CS) Bargaining and Conflict Management provides students with an opportunity to learn about bargaining and conflict-management theory. Students will have the opportunity to explore and apply this theory, and to examine aspects of bargaining style, in a variety of bargaining simulations. The course will also have an international component by utilizing international bargaining simulations as an instructional tool. Prerequisite: EB202 or PACS202.

EB-381 International Political Economy (Spring only; Yearly; 3.00 Credits; S, I) The pursuit of wealth and power, profit and privilege, corporate growth and

national security occurs in a global context. This course examines the business agendas and political priorities that find expression in the policy agreements and institutional agreements of the contemporary global economy. The course is conducted as a seminar and requires a substantial research project. Prerequisite: EB105.

EB-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offers special studies to meet the interest and demands of Students. Note: Students may take each ST: course for credit.

EB-407 Entrepreneurship (Fall only; Yearly; 3.00 Credits; S) Examines the application of administrative and functional fields to small business situations. Special attention is given to the problems typical of the small business. Projects and local businesses may be used as cases. Prerequisites: EB307 or permission of the instructor.

EB-440 Portfolio Management I (Fall and Spring; Yearly; 1.00 Credit; S) Students manage the Juniata College student portfolio, making all investment decisions about policy, trading, and long term goals. They present a progress report to the public, benchmark and account for the investments, and defend their choices. Prerequisites: EB-340 or EB-362.

EB-441 Portfolio Management II (Fall and Spring; Yearly; 1.00 Credit; S) Students manage the Juniata College student portfolio, making all investment decisions about policy, trading, and long term goals. They present a progress report to the public, benchmark and account for the investments, and defend their choices. Prerequisite: EB-440.

EB-442 Portfolio Management III (Fall and Spring; Yearly; 1.00 Credit; S) Students manage the Juniata College student portfolio, making all investment decisions about policy, trading, and long term goals. They present a progress report to the public, benchmark and account for the investments, and defend their choices. Prerequisite: EB-441.

EB-443 Portfolio Management IV (Fall and Spring; Yearly; 1.00 Credit; S) Students manage the Juniata College student portfolio, making all investment decisions about policy, trading, and long term goals. They present a progress report to the public, benchmark and account for the investments, and defend their choices. Prerequisite: EB-442.

EB-463 Financial Markets & Institutions (Spring only; Variable; 3.00 Credits; S, I) The role of credit and capital and the function of dollar and Euro bonds in today's internationalized financial markets are investigated empirically and assessed analytically in this course. Numerous economic theories relevant to understanding the behavior of various asset markets are developed, including portfolio and asset models of exchange rate determination and currency speculation. The costs and benefits of alternative government policies such as financial regulation and capital and foreign exchange controls are weighed. Prerequisite: EB222.

EB-464 Investments (Fall only; Yearly; 3.00 Credits; S) The study of the basic concepts, analysis techniques and strategies for investing in portfolios of securities. Stocks, bonds, options and futures are examined as well as fundamental, technical and efficient market strategies. Prerequisites: EB 362.

EB-465 Financial Theory and Analysis (Spring only; Variable; 3.00 Credits; S) Financial Theory & Analysis will be a finance elective aimed at juniors and seniors. EB465's purpose is to develop an understanding of traditional modern portfolio theory, recent challenges to this orthodoxy, empirical knowledge of asset performance and how to apply this knowledge to specific contexts, i.e. creating an appropriate portfolio. Prerequisites: EB211 and EB362. MA220 may be used as a replacement for EB211 only.

EB-470 Distinction Seminar (Fall and Spring; Yearly; 1.00-4.00 Credits; S)

EB-480 Senior Seminar (Fall and Spring; Yearly; 3.00 Credits; S) A capstone course for POE in Business. Through the use of readings, case studies and simulations, students in the course will formulate corporate strategy and implement it in a competitive environment. How firms may gain and sustain competitive advantage with the formulated strategy will be examined. In addition, students will also be trained to craft business reports on corporate strategies. The evaluation of performance will mainly depend on the content and the quality of the business reports.

EB-490 Business Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; S) Develops students' skills, through practical experiences or field projects which require proposals for problem analysis and solution. The experiences and projects are provided by local

businesses or other organizations and use technical and decision skills developed in students' areas of concentration. Note: Limited availability. May be repeated up to a total of 9 hours credit. Corequisite: EB495. Prerequisites: Permission and Jr. or Sr. standing.

EB-495 Business Internship Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; S) Requires students to reflect on the experience and/or pursue relevant research. Note: Limited availability. May be repeated up to a total of 6 hours credit. Corequisite: EB490. Prerequisites: Permission.

EB-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) This course allows departments to offer topics not normally taught to be offered. Prerequisites and title vary by section.

EB-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits)

EB-TUT Business Teaching Assistant (Variable; Variable; 3.00 Credits; S)

EDUCATION

ED-001 Non-Credit Education Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as internship: (Title); must be 6 weeks long. Prerequisite: Permission.

ED-110 Foundations of Education (Fall and Spring; Yearly; 3.00 Credits; S, WK-SI) Discusses the historical and contemporary bases of major political, economic, legal, sociological, and psychological issues affecting public school systems. Students review current issues in education and write a personal philosophy statement. Co-Req: ED-111. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

ED-111 Foundations of Education Field: : Experience (Variable; Yearly; 1.00 Credit; S) Provides a classroom experience for students who are interested in education to explore teaching as a career and observe the application of multiple philosophies, theories, and teaching strategies. Corequisite: ED-110

ED-120 Child Development (Fall and Spring; Yearly; 3.00 Credits; S) Provides an in-depth introduction to

child development, cognition, behavior, and learning from conception through middle childhood. Using an ecological approach, students examine characteristics of physical, social, emotional, cognitive, and language development at each age; identify typical and atypical development; compare and contrast major theories of development and learning; and explore diverse issues in child development and early education, including gender, culture, language, ability, family, social policy, educational setting, and the influence of heredity and environment. Assignments include readings, research, presentations, and direct observation of young children.

ED-130 Adolescent Development (Fall and Spring; Yearly; 3.00 Credits; S) Examines human physical, cognitive, and social-emotional development from preadolescence through emerging adulthood. Topics include: identity, sexuality, and gender issues; emotional and behavioral challenges of adolescence, the impact of culture, language, and disability on adolescents, and the role of family, schools, and peers on development. Enrollment priority in this course is given to Education POEs.

ED-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Special topics provides students, particularly those not seeking certification, with experience organizing and communicating knowledge in their fields of study. This may be accomplished in public schools or other areas of social/community work, e.g., community health programs or family planning agencies. Note: titles may vary each semester; students may take each course for credit.

ED-240 Introduction to Students With : Exceptionalities (Either semester; Yearly; 3.00 Credits; S) Introduces the culture of exceptionalities within the public special education system. Historical, philosophical, educational, and legal perspectives will be presented. Students will learn the categories of exceptionalities, general characteristics of individuals with exceptionalities eligibility criteria, and the referral process for special education services. Professional and community resources, inclusion and other current issues will be discussed. Prerequisites: ED110 and ED111 and ED120 and ED121 or ED130.

ED-260 Families, Schools, and Communities (Either semester; Yearly; 3.00 Credits) This course provides an in-depth view of the relationship between families, schools, and communities. While exploring their own

beliefs and values, students examine family diversity and the impact of socioeconomic status, culture, language, lifestyle, and ethnicity on child development. Discussion will focus on building effective partnerships with families, schools, and community members through development of strategies that establish culturally sensitive and nurturing relationships. In addition, best practices related to trauma informed instruction will be integrated throughout course content.

ED-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer courses not normally taught.

ED-304 Teaching for Social Justice (Either semester; Yearly; 3.00 Credits) Teaching for social justice will focus on competencies, current issues, and best teaching practices used in early childhood social studies curriculum. Emphasis will be placed on social justice and an interdisciplinary approach to learning for PreK-4 learners. Discussion will focus on marginalized groups to raise awareness for diverse perspectives. Students will engage in building critical cultural awareness for social change in early childhood classrooms.

ED-309 Intro to Autism Spectrum Disorders (Either semester; Yearly; 3.00 Credits) This course examines the etiology, characteristics, and issues related to individuals with Autism Spectrum Disorders. Topics include diagnosis, evidence-based teaching strategies, and techniques to address strengths and areas of development over the life span.

ED-312 Language and the Brain (Spring only; Yearly; 3.00 Credits; S) Provides an overview of research-based models of language acquisition, both typical and atypical in children. Topics include theories of language acquisition, neurological bases of speech and language, cognitive, perceptual and motor bases of early language and speech, social and communicative bases of early language and speech, language learning and teaching, relationship of language to literacy acquisition, language differences in diverse learners. Prerequisites: ED120, ED121.

ED-313 Language and Brain Lab (Spring only; Yearly; 1.00 Credit; S) Extends and enhances learning in ED312 Language and the Developing Brain. Through participation in classroom settings, students will be able to observe and interact with young children in Kindergarten through Grade 2 and public education

professionals, apply knowledge and understanding of language development and theory, analyze and assess language development using formal and informal assessment tools, monitor student performance, and adapt instruction and interactions to meet individual needs, scaffold learning, and guide behavior. Prerequisites: ED120 and ED121. Corequisite: ED312.

ED-314 English Language Learners (Either semester; Yearly; 3.00 Credits; S) Focuses on the historical, legal, and cultural issues pertaining to meeting the educational needs of English language learners. Students are be introduced to research-based best practices in instruction and assessment strategies for working with English language learners in the general education classroom setting. Prerequisite: ED-120 or ED-130.

ED-330 Language and Literature I : K-1st (Fall and Spring; Yearly; 3.00 Credits; CW, S) Emphasizes methodologies of teaching the language arts (listening, speaking, reading, writing, viewing, and visually representing), including the development of these abilities and the provision for ELL students and students with special needs in language learning. The primary purpose of this course is to bring each student to an understanding of communication as the complex, rich, and primary form of human interaction. Prerequisites: ED311 and ED312 or permission of the instructor.

ED-341 Adaptations for Students With : Exceptionalities (Spring only; Yearly; 4.00 Credits; S, CW) The purpose of this course is to learn how to develop and manage effective inclusive learning environments for students with disabilities at the secondary level. Content will focus on the knowledge and skills necessary to create an instructional environment that communicates challenging expectations to students while utilizing and modifying research based instructional strategies/resources/technologies. Students will learn the critical components of effective collaboration with parents and professionals. Successful completion of a field experience in an educational setting is also a requirement. Prerequisites: ED110, ED111 and ED240.

ED-342 Assessment: : Learners (Spring only; Yearly; 3.00 Credits; S) This course provide in depth knowledge of and skills in assessment as it pertains to students with disabilities, the special education

system, and Pre-K through grade 4 education. Historical perspectives as they relate to contemporary assessment practices are highlighted. Focus is placed on selection and administration of assessment tools, scoring, and interpretation of data for early intervention and special education eligibility. Students will be required to write an Individual Family Service Plan (IFSP) and an Individual Education Plan (IEP). Prerequisites: ED110 and ED111 and ED120 and ED240 and ED121 or ED130.

ED-343 Differentiated Instruction (Fall only; Yearly; 3.00 Credits; S) The purpose of this course is to develop skills for the development and management of effective inclusive learning environments at the Pre-K through Grade 4 level. Content will focus on the strategies necessary to create an instructional and social environment that communicates challenging expectations to students while utilizing and modifying research based instructional strategies/resources/technologies to address individual learning needs. Focus is placed on strategies for establishing positive relationships with students, parents, and professionals. Prerequisites: Take ED-120, ED-121, and ED-240. Corequisite: ED-401.

ED-350 Science Methods (Spring only; Yearly; 3.00 Credits; S) This course is for Education students seeking certification in the Pre-K-Grade 4 program and is intended to address the learning needs and best practices for teaching math, science, and technology to Pre-K-4th grade students in the 21st-century classroom. The primary focus of this course will be in the sciences but will include the integration of math, technology, and engineering. We explore science and the process of teaching science to elementary students using students' natural curiosity. The main vehicle of exploration will be an inquiry approach as we discover STEM learning the way we want our students to experience it. Prerequisites: ED-110/111, and ED-120/121 or ED-130. ED-130 may be taken as an alternate prerequisite for ED120/121 only.

ED-370 Practicum in EC Education (Fall and Spring; Yearly; 1.00-3.00 Credits; S) A field experience designed for students seeking early childhood certification. This course is especially desirable for students who have done or will do practicums at the elementary level. Requires sophomore standing and instructor permission.

ED-392 Field Experience in Secondary Education (Fall and Spring; Yearly; 1.00-3.00 Credits; S) A field experience in which students apply theory they have learned in a middle or high school setting. This practicum is not the normal student teaching that is required for certification. Available by permission only. May be repeated up to a maximum of 9 credits.

ED-395 Field Experience in Early Childhood : Education (Fall & Spring; Yearly; 1.00-3.00 Credits; S) A field experience designed for students seeking Pre K-4 certification. This course is especially desirable for students who have done or will do field experiences at the elementary level. Prerequisites: ED120 and ED121. Course may be repeated up to a total of 3 credits. Available by permission only.

ED-396 Practicum in Special Education (Fall and Spring; Yearly; 1.00-3.00 Credits; S) A field experience primarily designed for students seeking special education certification or interest in education studies. This course provides students with opportunities to gain more experience working with students with special needs in a variety of educational settings. Prerequisites: ED341 Available by permission only.

ED-398 Methods for Foreign Language Education (Fall only; Yearly; 4.00 Credits; S, CS) This course is for students interested in teaching foreign languages or English as a foreign language or second language (ESL). This course provides a thorough introduction to contemporary theories and methods of language pedagogy. Students seeking K-12 certification in foreign languages may take this course instead of ED420 after completing study abroad. It may also be taken by those students who have an interest in teaching English abroad. International students who are here for a semester or a year should also consider taking this course. Prerequisites: ED110 and ED111 and ED130 and ED240 and ED341.

ED-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer courses not normally taught. Note: Titles vary each semester; students may take each special topics course for credit.

ED-401 Junior Field Experience (Fall only; Yearly; 1.00 Credit; S) ED-401 is a comprehensive field experience. Students complete at least 4 hours/week of field experience, Prerequisites: ED-120, ED-121, and ED-240. Corequisite: ED-343.

ED-403 Math Methods: PreK-6 (Fall & Spring; Yearly; 3.00 Credits; S) Math is all around us and an early start in conceptual mathematics will promote understanding and problem solving for young learners. This course is designed to introduce appropriate teaching strategies that highlight both NAEYC and NCTM standards for the mathematical development of the child (Prek-6). Prerequisites: ED120 and ED121.

ED-411 Reading Difficulties (Fall only; Yearly; 2.00 Credits; S) This course provides an in-depth review of the literature concerning language-based learning disabilities. The course will address assessment and intervention strategies for struggling readers and writers in early and middle childhood. Formative, summative, benchmark, and diagnostic measures will be addressed as they relate to classroom intervention. Research-based intervention strategies will be analyzed within the perspective of meeting the needs of learners with diverse learning profiles and etiologies for their language-based academic difficulties. Topics included are early identification, research-based assessment and intervention, authentic assessment strategies for diverse learners and ELL's, technology to support instruction. Prerequisites: ED120 and ED121 or ED130 and ED212. Corequisites: ED412.

ED-412 Reading Difficulties Lab (Fall only; Yearly; 1.00 Credit; S) This formal experience requires pre-service teachers to participate in an after school reading clinic for children in grades K through five who are identified as at-risk or struggling readers. Formal and informal assessment tools will be applied and used in decision making for research-based interventions. Communication with in-service teacher mentors and parents will be emphasized. Pre and post measures of achievement will be applied. A formal case report will be completed. Prerequisites: ED120 and ED121 or ED130 and ED212. Corequisites: ED411.

ED-413 Rural Outreach & Reading (Fall and Spring; Yearly; 1.00 Credit) The Rural Outreach and Reading course offers an opportunity for education students to provide data driven reading interventions for primary school children who are struggling in reading and related language skills. Juniata students provide research-based interventions in small group and one-to-one settings two afternoons each week. Juniata Students complete readings related to the

intervention, submit reflections, and provide reports of assessment and response to intervention.

ED-419 Pre-Student Teaching Field Experience (Either semester; Yearly; 1.00 Credit; S) Secondary pre-student-teaching practicum is a required 80-hour minimum practicum in the linked placement where you will be going for student teaching. Students should plan to spend four consecutive hours in their placement each week. Reliable transportation is REQUIRED. Co-Requisite: ED-420.

ED-420 General Secondary Methods (Spring only; Yearly; 3.00 Credits; S, SW-ER) General Secondary Methods & Ethics in Education: This teacher education course is an overview of general methods for teaching secondary students. It also includes Disciplinary Literacy to help students meet the PA Core Standards. It will also address ethics in education and force students to rethink and challenge the current educational systems. Pre-Req: FYC-101 or EN-110 or EN-109; Co-Req: ED-419.

ED-423 Secondary Education Field Trip (Spring only; Yearly; 1.00 Credit; S) Secondary Education Field Trip (1 credit): Join in an interdisciplinary course that will design and execute a field trip for local secondary students. This is a practical application course that will highlight the importance of field trips and provide an opportunity for designing and executing a successful field trip.

ED-430 Language and Literacy (Fall only; Yearly; 3.00 Credits; S, CW) Three themes are woven throughout the course: helping students develop as strategic readers and writers; research-based best practices in teaching; and managing the classroom and curriculum for literacy instruction. The course will begin with a review of the reading and writing process and the principles of effective teaching of reading, based on the IRA/NCTE Standards for the English Language Arts. Emphasis is placed on meeting the individual learning needs of all the children and on application of the PA Academic Standards for Reading, Writing, Speaking, and Listening standards. Pre-Requisite: ED-310 (optional).

ED-433 Pre-Student Teaching Seminar (Either semester; Yearly; 2.00 Credits; S) Students complete two half-day practicum visits each week in their upcoming spring semester student teaching placements and meet for a one-hour seminar each week to discuss current issues. Assignments include

but are not limited to a weekly reflection journal, orientation to your school packet, observation reports, attendance, and participation. Prerequisites: ED-310 (optional). Corequisites: ED-430.

ED-440 High Incidence Disabilities (Fall only; Yearly; 3.00 Credits; S) This course focuses on academic instruction for students with learning disabilities, attention deficit hyperactivity disorder, specific language impairment and mild intellectual disabilities. Topics include systematic teaching, co-teaching, language arts and mathematics instruction, content area instruction and strategy instruction. Prerequisites: ED240.

ED-441 Low Incidence Disabilities (Variable; Yearly; 4.00 Credits; S) Examines research-based practices for instruction and behavior management for students with low incidence disabilities, specifically severe cognitive impairments, low vision and blindness, autism, spectrum disorder, physical or health disabilities, and traumatic brain injury. Students complete a practicum in a low incidence classroom setting allowing them to apply concepts and techniques discussed in class. Students complete a series of assignments in the practicum setting. Case studies, guest speakers, and field trips are included in this seminar format course. Prerequisites: Senior standing or permission of the instructor.

ED-442 Social, Emotional, Behavior (Fall only; Yearly; 3.00 Credits; S) This course focuses on specific instructional and behavioral research based strategies for students with social, emotional, and behavioral disabilities. Emphasis is placed on school-wide behavior and classroom management systems designed to prevent inappropriate behaviors and promote appropriate and desirable behaviors. Students will learn empirical strategies and procedures for making the general curriculum accessible to students and the role of general and special education teachers in effectively addressing student needs. A major component of this course is the importance of promoting self-determination to facilitate independent learners. Prerequisites: ED240 and ED343.

ED-450 Student Teaching (Fall and Spring; Yearly; 14.00 Credits; S, SW-LE) Student teaching is the capstone experience for students preparing for certification to teach in their content area(s). Students synthesize and apply knowledge of developmental theory, content, and teaching methodology as they

design, implement, and evaluate learning experiences in an intensive internship in the classroom. Co-requisite: ED-451. NOTE: Must have completed all clearances and requirements and have access to reliable transportation. Secondary level student teaching is in the fall semester; PreK-4th grade level and language education student teaching are in the spring semester.

ED-451 Student Teaching Seminar (Fall and Spring; Yearly; 1.00 Credit; S) In conjunction with student teaching, students attend weekly seminars that are led by the college supervisors. These meetings focus on professional topics and allow students to reflect upon and share their student teaching experience. In addition, students develop interviewing techniques, become familiar with employment seeking strategies, and develop a portfolio that includes but is not limited to a resume, a philosophy of education statement, lesson plans, and documentation of professional experiences. Corequisite: ED450.

ED-452 Dual Certification Student Teaching (Summer only; Yearly; 6.00 Credits; S) The purpose of this course is to provide an additional student teaching experience for individuals who are seeking certification in more than one certification area. In order to enroll the student must have successfully completed all requirements including student teaching in another certification area or who hold Pennsylvania certification in another area. Prerequisite: ED450. Note: Students must enroll in summer school and pay for 6 credits.

ED-494 Internship/Need Paperwork (Variable; Variable; 2.00-9.00 Credits; S) See catalog.

ED-495 Internship Seminar (Variable; Variable; 2.00-6.00 Credits; S) See catalog.

ED-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer subjects not normally taught. Prerequisites vary by title.

ED-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

ED-TUT Education Teaching Assistant (Variable; Variable; 1.00-4.00 Credits) Teaching Assistant

ENGLISH

EN-001 Non-Credit English Internship (Summer only; Yearly; 0.00 Credits) An opportunity to gain transcript

recognition for summer employment in the communications field. Employment should be 10 weeks long. Arrangement must be made with Internship Director in advance of employment. Note: See the chapter on "Special Programs" under Internships; listed as Internship: (title). Prerequisite: permission and EN110.

EN-120 Forms of Literature (Fall only; Yearly; 3.00 Credits; H) An introduction to the study of literary forms, including poetry, drama, short story, novel, novella, and essay. Students will read texts from a wide variety of genres and historical periods, to examine how literary forms developed and gain/lost popularity over time. Students will learn the vocabulary and technique of literary analysis.

EN-122 Interpreting Pop Literature (Variable; Yearly; 4.00 Credits; H) Utilizing Harry Potter, The Hunger Games, World War Z, and other popular works of fiction for class, this introductory course will engage students in the fundamental terms and approaches needed to analyze, appreciate and discuss works of fiction at the college level. Students will study introductory elements of literary theory, emphasizing using various social and theoretical perspectives, as a means of learning how to identify cultural and literary meaning within texts.

EN-145 Peer Tutor Training (Fall and Spring; Yearly; 1.00 Credit; H) Peer tutor training is designed to provide an academic experience that will prepare students to serve as tutors. Students will focus on communication skills, learning styles, need analysis, and tutoring strategies. Prerequisite: EN110.

EN-146 WA Pedagogy and Practice (Fall only; Yearly; 1.00 Credit) This course will provide an academic foundation for students who are serving as Writing Associates for first-year classes. Students will focus on how to provide formative feedback to students and maintain clear communication with professors. Coursework will include exploration of writing theory and learning modalities. This course will be required in order to serve as a Writing Associate.

EN-162 Women and Literature (Variable; Yearly; 4.00 Credits; H, WK-HT) Hostility directed at women's reading and writing often serves as an indicator of a society's anxiety about the social impact of women's artistic and intellectual development. To read is to expand your knowledge of the world and your place in

it. To write is to assert that your ideas, opinions, and voice are worthy of attention. This course presents selections from literature by women beginning with 18th century works before moving into contemporary writing. We will pay special attention to the historical and cultural contexts of our readings. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-170 World Literatures (Spring only; Yearly; 3.00 Credits; H, I) Studies works of African, Asian, Latin American, South American, Caribbean, and Native American literature. Discussions focus on ways literature reveals cultural perspectives and philosophies.

EN-191A Unlock Your Voice (Fall only; Even Years; 1.00 Credit; H) A Coffeehouse to Celebrate Literature by Women Writers. Students who participate in this practicum will head teams of volunteers to produce all aspects of the program.

EN-191B Lift Ev'ry Voice (Fall only; Odd Years; 1.00 Credit) A Coffee house to Celebrate Black History Month. Students in this practicum will head teams of volunteers to produce all aspects of the program.

EN-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topics. Prerequisites vary by title.

EN-200 History of the Language (Spring only; Odd Years; 3.00 Credits; H, I) Like other languages, English is not monolithic, and it is always on the move. This course examines how English functions now, both in its Standard form and in many of its varieties around the world; how its sounds and structures have changed from its Proto-Indo-European beginnings; and what major factors have influenced those changes. Prerequisites: FYC101, EN110, or EN109.

EN-203 Class/Status/Identity in US Literature (Variable; Yearly; 4.00 Credits; SW-LE) This class will focus on representations of social and economic class in U.S. literature. These texts illustrate how social class can define identity and shape perceptions of the American Dream. The class will collect and distribute oral histories about work experiences in collaboration with the local Huntingdon community members. Pre-Req: FYC-101 or EN-110 or EN-109.

EN-204 English Colloquium (Fall only; Yearly; 1.00 Credit; H) The English Colloquium prepares students

for academic expectations in the English department and introduces them to professional opportunities within the discipline. This colloquium is intended for students with English, Secondary Education/English or Professional Writing POEs, individualized POEs with foundation in literature or writing, or students with secondary emphases in English. Pre-requisites: sophomore standing, one EN course beyond EN110, or instructor's permission.

EN-207 Heaven or Hell on Earth (Spring only; Even Years; 4.00 Credits; H) In this course we will examine the ways in which specific novels, short stories and films explore various perspectives on nightmarish or ideal societies through alternative political and social ideologies. The class will introduce various literary theories (including Marxism, approaches to feminism and New Historicism) as well as the genre and history of utopian and dystopian literature. V for Vendetta, Sir Thomas More's Utopia, Plato's Atlantis writings, Children of Men and other works will be covered during the semester. Prerequisites: EN110 or EN109.

EN-211 Pennsylvania Literature (Variable; Yearly; 4.00 Credits; H, SW-US) Pennsylvania is a rich and storied landscape featuring a large rural area bookended by two historic cities, all serving as the backdrop for this course. Using literature and film, as well as articles, musical selections, and local engagement activities, this course will examine stories portraying various cultures, lifestyles, and people in Pennsylvania. This course will also consider how many of the different communities and peoples that make up the Keystone State have been represented historically and in fiction. Students will also explore some of the complex social, political, and economic contexts that have shaped the state's history as well as the lived experiences of its people. Pre-Req: FYC-101 or EN-110 or EN-109.

EN-212 Sports Literature (Spring only; Odd Years; 3.00 Credits; H) Students will consider ways in which sports literature written over the last eighty years reveals the developing and shifting American ideologies concerning subjects such as race, gender, sexuality, and justice, over that same time period. Students will also develop an understanding of the genres and purposes in various forms of sports literature, including newspaper articles, magazine feature articles, short stories, and novels. Prerequisite: EN110 or EN109.

EN-213 Zombie Nation (Either semester; Variable; 4.00 Credits; CA, H, SW-ER) Students will explore media that reflect our cultural fixation with zombies. Through analysis and discussion, students will explore the intersections between fictional zombies and actual cultural practices that reflect the mindlessness of a zombie culture. Students will explore the ethical implications of the creation and destruction of zombies. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-215 Boys Will Be Boys (Spring only; Odd Years; 3.00 Credits; H) This course explores the experiences of men and boys as represented through works of fiction and analyzed via cultural, economic and social contexts. The course considers "maleness" as a social construct and how perceptions within American society influence men's actions and the ways in which they perceive themselves, other men, women, and social situations.

EN-217 Disability in Fiction (Variable; Yearly; 4.00 Credits; H, SW-ER) This course considers how various texts portray individuals with disabilities. Via short stories, novels, theoretical articles, films, and memoirs we will explore ways that stereotypical portrayals can stigmatize and discriminate against people with disabilities. The class will also examine narratives and voices that question the definition of 'normal' as well as reinterpret traditional representations of disability. We will consider key concepts such as ableism, justice, access, and the medical and social models of disability. The course will also introduce some of the ways that disability intersects with other aspects of identity such as gender, sexuality, race, and class. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-236 Dirty Books (Variable; Yearly; 3.00 Credits; H, CW, SW-ER) In this course, students will explore the ethical questions surrounding the practices of challenging, censoring, and banning books from American public schools and libraries based on objections to various texts' inclusion of sex, homosexuality, vulgarity, violence, and religion/atheism. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-237 Constructing Identities (Either semester; Variable; 4.00 Credits; CA) Applying various cultural and theoretical perspectives, students will view and read works from Quentin Tarantino, Christopher Nolan, Kurt Vonnegut, Salman Rushdie, David Foster

Wallace and others to examine ways that consumerism, technology, social institutions and other facets of modern culture and society shape identities and influence the human condition.

Prerequisite: FYC-101 or EN-110 or EN-109.

EN-238 Unnatural Acts (Fall only; Yearly; 3.00 Credits; H) From the Puritans to tree-huggers, America has been divided between those who see Nature as moral and liberating, and those who see society as the taming of savage, godless wilderness. This course will examine that tension in writers from Hawthorne and Melville to Faulkner.

EN-239 Bloody Murder (Spring only; Yearly; 4.00 Credits; H) The United States has always been a violent nation, and American writers have used that violence to explore questions of justice, truth, and human nature. This course will examine the portrayal of violence in writers from Poe to Cormac McCarthy.

EN-251 Narratives of Slavery (Variable; Yearly; 4.00 Credits; H, CW, SW-US) The personal narratives of people enslaved in the United States are the foundational works of the African American literary tradition, and they have influenced generations of American authors. Originally written as a means of promoting the abolition of slavery, contemporary writers have taken this historical form and transformed it to reflect upon the past and engage with problems of the present. In this course, we will read a variety of original narratives of slavery and put them in dialogue with contemporary fictionalized narratives depicting the experience of slavery. In doing so, we will explore topics such as the boundaries between fact and fiction, the political uses of literature, the afterlife of slavery, cultural authenticity, and many others. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-253 Literature of the Jazz Age (Spring only; Even Years; 3.00 Credits; H) Called the "Jazz Age" by F. Scott Fitzgerald, the 1920s were marked by great cultural change. In response to the trauma of the First World War, the "lost generation" broke traditional social barriers while embracing radically new forms of art. Beginning in 1920 (the year both women's suffrage and prohibition were passed as constitutional amendments) and concluding with the 1929 stock market crash that signaled the start of the Great Depression, we will examine the role of the Harlem Renaissance in inspiring and sustaining domestic and expatriate American modernism. With

special emphasis on the interplay of art, music, and literature, this class will examine the literature of the Jazz Age across genre and racial boundaries, concluding with two contemporary works that evaluate the lasting significance of this era on American culture. Prerequisite: EN110 or EN109.

EN-255 Passing Narratives (Variable; Yearly; 4.00 Credits; CA, H) Passing narratives investigate how the boundaries of identity can be reimagined. Most often depicting racial passing (when a person "passes for" someone of another race), these narratives also can be about performing another gender or sexual identity. In this course, we will trace the evolution of this trope through American literature and film. Prerequisites: FYC-101 or EN-110 or EN-109.

EN-262 Unhappily Ever After (Spring only; Odd Years; 3.00 Credits; H) Deaths. Betrayals. Loves lost. Falls from grace. These calamities, and those that suffer them, have captivated dramatists, novelists, philosophers, and theoreticians since the first tragedy was staged in ancient Athens over 2,500 years ago. This course will explore how literary cultures have understood and expressed notions of tragedy in different historical periods. By examining the ways in which we inflict and endure suffering, we will consider how literary tragedy informs our understanding of the human condition.

EN-271 Public Health Writing (Spring only; Variable; 3.00 Credits; H, CW) Focuses on health and medical writing for public audiences. The course will familiarize students with health literacy, plain language, and visual communication skills. Students will analyze and compose common genres of public health writing, including reports about health in the media, advocacy documents, science journalism articles, and public health posters. Prerequisites: EN110 or EN109.

EN-272 Introduction to Professional Writing (Variable; Yearly; 4.00 Credits; H, CW, SW-ER) What are we talking about when we talk about professionalism? What characterizes professional communication? In today's world, what does it mean to use professional writing ethically? To answer these questions, this course focuses on the study, practice, and revision of writing in professional settings. Examining and producing memos, proposals, and reports, students take concrete steps towards exploring potential future careers. Prerequisite or Corequisite: FYC-101 or EN-110 or EN-109.

EN-273 Visual Literacy (Variable; Yearly; 4.00 Credits; H, WK-HT) In today's multimedia world, images communicate meaning and advance arguments in numerous ways, and new technologies of the visual demand new forms of literacy to understand, interpret, and create visual communication. Through comics and graphic novels, maps, visual arguments, and theories of seeing, this course immerses students into the theory and practices of visual literacy. Prereq: FYC-101 or EN-110 or EN-109.

EN-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

EN-301 Young Adult Literature (Fall only; Even Years; 4.00 Credits; H) Students will read & analyze a variety of literature from the Young Adult Lit category. Students will engage in class discussions and make presentations based on individual research.

EN-302 The Literature of Social Protest (Variable; Yearly; 4.00 Credits; SW-US) In this course, we will explore the use of literature as a means of protesting social injustice throughout U.S. history. How have American authors used novels, poems, stories, and essays to illustrate social problems, create empathy, and advocate for social change? What are the boundaries between art and politics? How might literary aesthetics inspire social action? How has literature shaped social progress and vice versa? Questions of literary form, merit, and content will guide our search, as will questions of representation, politics, and economics. Though topics will range widely (but often intersect), we will ask how each literary work engages with the foundational statement of American dissent, "The Declaration of Independence."

EN-305 Fiction Writing (Spring only; All Years; 3.00 Credits; F, H, WK-CE) In this course, we will work to develop skills in the art of writing fiction. Students will study fiction as a craft, read and discuss fiction by major writers, critique each other's work, and write and revise extensively. Prerequisite: FYC 101 or sophomore standing.

EN-306 Creative Nonfiction Writing (Variable; Yearly; 4.00 Credits; H, CW, WK-CE) The course introduces the art of the creative nonfiction essay-types of essays, variety of forms, and purposes of the essay. Students will write essays, revise extensively, and

critique each other's work throughout the course. Through this process, students become familiar with the formal elements of prose style. Prerequisite: FYC-101 or EN-110 or EN-109. Also must have sophomore class standing or above.

EN-307 Mythology in Film (Variable; Yearly; 4.00 Credits; H, WK-HT) This course will explore how film communicates the myths of a various societies to its members. By combining theoretical approaches to myth with film analysis, we will explore the ways in which cinema both influences and reflects the way we think, what we value, fear, and aspire to achieve. Focusing on some of the most prevalent themes in this genre, students will be introduced to Classical and contemporary adaptations of myths and their historical and cultural contexts, examining how those narratives provide meaning today via cinema. Prerequisites: EN110 or EN108 and EN109.

EN-308 English Research Methods (Variable; Yearly; 2.00 Credits) This course is an introduction to English research methods taken in the junior year. Students will learn and negotiate the research process, applying the skills learned to their analysis of literary works or writing research. Writing, ethics, and constructing effective research questions and arguments will be covered to prepare students for completing their senior research thesis, paper, or creative project. Pre-req: EN-204 English Colloquium and Junior Standing

EN-311 Professional News and Feature Writing (Variable; Variable; 4.00 Credits; H, CW) This advanced writing course introduces students to the genres and techniques of journalism. Students will write a number of news and feature stories. The writing process involves interviewing, note-taking and other forms of data gathering on campus and at local news events, creating multiple story drafts, and participating in peer-editing workshops. Work culminates in a portfolio of stories written throughout the semester. Students need not plan to become professional media writers to benefit from the course. Prerequisite: FYC-101, EN-110, or EN-109.

EN-312 Literature of Revenge (Variable; Variable; 4.00 Credits; H, SW-ER) Students will examine the various functions revenge plays in human culture while tracing its role as a literary device from the bloodbaths of Greek tragedies to the psychological retaliation of contemporary works. Studying historical and cultural influences that have shaped notions of

revenge over centuries, students will contemplate the complicated distinctions humans make between perceptions of retribution and justice. PreReq: FYC-101 or EN-110 or EN-109.

EN-313 Firing the Canon (Spring only; Odd Years; 4.00 Credits; H) When talking about the canon in literature, we are usually gesturing towards the classics-works of art that have stood the test of time as culturally significant. How did those books become classic in the first place? We will study the histories of canon formation before debating what works to include in a self-designed literary anthology.

EN-315 Technical Writing (Variable; Yearly; 4.00 Credits; H, CW) An examination of writing for the real world: as such it concentrates equally on content and practice. The course builds around various document designs and ways to present those designs in expressions appropriate to audience and purpose. While sophomores are allowed to register they may be removed from the course if the demand by upperclassmen is high. Prerequisites: EN110 or EN109 and Sophomore, Junior or Senior standing.

EN-319 Writing for Social Change (Variable; Yearly; 4.00 Credits; H) This course immerses students into the study and practice of writing that strives to bring about social change. Students explore the argumentative tactics of writing in the service of advocacy, activism, and non-profit organizations, as well as its circulation across audiences and platforms. Students create op-eds, persuasive articles, posters, grants, and media campaigns.

EN-341 Shakespearean Drama (Spring only; Yearly; 4.00 Credits; H) Examines historical moments, cultural perspectives, and theatrical constructs that shaped the writing, acting, and reception of Shakespeare's comedies, tragedies, and history plays. Prerequisite: EN110 or EN109.

EN-372 Contemporary Poetry (Fall only; Even Years; 3.00 Credits; CA, H) Contemporary poetry speaks to us right there and now, whether in a personal cry of emotion or in a piercing cultural commentary. This course studies representative poets from our own age, with emphasis on the social context of the times. Different poets are discussed each time the course is taught, but every year you'll actually get to meet one of them up close and personal, as part of our Pennsylvania Poet series. Prerequisite: EN110 or EN109.

EN-374 Ethical Game Design (Variable; Variable; 4.00 Credits; SW-ER, H, CW, CTDH) This course focuses on both the use of ethical principles to design games and the critical study of ethical games, which position players to make ethical decisions throughout the game. After learning about ethical principles through play and analysis, students design a text-based game where players make ethical choices shaping the narrative and experience of the game. Prerequisite: FYC-101

EN-376 Writing Across Media (Variable; Yearly; 4.00 Credits; H, CW, WK-CE, CTDH) Contemporary life asks us to be agile interpreters of images, texts, and sounds. In response, this course immerses students into the theory and practice of how and why we choose the media in which we communicate. Through an assignment sequence that includes text, webtext, image, sound, and video, students gain strength and versatility as writers by honing their awareness of genre, audience, and rhetorical situation. Pre-Req: FYC-101 or EN-110 or EN-109

EN-378 Video Production Writing (Fall only; Odd Years; 4.00 Credits; H, CW, CTDH, WK-CE) Writing for Video Production is a course that combines contemporary rhetoric, creative inquiry, design thinking, media authorship, self-reflection, and social engagement. Students complete directed writing such as journal entries, scripts, storyboards, and shotlists in concert with video production, facilitating an integrated process of thinking, creating, and problem-solving. Take FYC-101 or EN-110 or EN-109

EN-379 Professional Editing (Fall only; Yearly; 4.00 Credits; H, SW-LE) This course provides a broad understanding of editing and its role in document development, publication, and use. Students will learn to edit effectively on a range of editing tasks and documents and edit documents for a community partner project. These skills will prepare students for a variety of professional editing positions. Prerequisite: FYC-101 or EN-110 or EN-109.

EN-385 Queer Literature (Variable; Variable; 4.00 Credits; CA, H) By applying queer theory frameworks to a variety of texts, we will examine literary representations of LGBTQ identity. Readings will include works by James Baldwin, John Rechy, Audre Lorde, Leslie Feinberg, Tony Kushner, and others. Topics will include: biological essentialism vs. the social construction of gender and sexual identity; authenticity and performance; social and legal forms

of identity categorization and boundary maintenance; the role of literature in social reform; and more.
Prerequisites: EN110 or EN109.

EN-388 Heroes and Villains (Fall only; Variable; 3.00 Credits; H) Heroes-yay! Villains-hiss! All our lives we've learned to think in terms of good guys and bad guys. But why do we think in those categories? And what exactly do we mean by good guys and bad guys? And should we even be in the business of separating good guys from bad guys? This course will take a detailed look at heroes and villains in literature, movies, and television, and ask you to think about the whole duality, and what it means for the stories we tell. Prerequisites: EN110 or EN109.

EN-392 Crossing the Border (Variable; Yearly; 4.00 Credits; H, CW, SW-US) This class will examine the many meanings of "border crossing" in 20th- and 21st-century literature about immigration to the United States. Using critical race theory, this class will put works of fiction and autobiography in historical context to better investigate the influence of immigration law on U.S. national literature. Beginning with short texts from the turn of the twentieth century, we will focus primarily on contemporary works dealing with the post-1965 (or "new wave") immigrant experience. Topics will include: "American Dream" mythology, social mobility, generational conflict, acculturation and assimilation, hyphenated identity, nativism, barriers to full citizenship, and more. Pre-Req: FYC-101 or EN-110 or EN-109

EN-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offers special studies to meet the interests and demands of students. past examples include "Terry Pratchett" and "Renaissance Drama". Note: Students may take each ST: course for credit.

EN-490 English Internship (Variable; Variable; 2.00-9.00 Credits; H) English students may apply their acquired skills and knowledge in on-the-job internships of a semester during their junior or senior year for a total of 9 credit hours. Television stations, radio stations, newspapers, magazines, public relations and advertising agencies are all possible placements for the Juniata interns, who not only work as full-time members of the business's team but also evaluate and document their growth in a journal and prepare a portfolio of presentations or publications. Prerequisites: Permission of the instructor and Junior or Senior standing. Corequisite: EN495.

EN-493 English Research Seminar (Fall and Spring; Yearly; 2.00-3.00 Credits; H) This course is a seminar-style introduction to advanced research methodology in literature and linguistics for senior English POEs. Students will work simultaneously with the course instructor and a thesis advisor from within the English department to develop a thesis plan and to begin its execution. Prerequisites: EN120, EN122 and EN204; Senior standing; instructor permission only.

EN-495 English Internship Research (Variable; Variable; 2.00-6.00 Credits; H) In addition to the on-the-job experience provided by the internship, the student is required to pursue research related to the placement. An in-depth research paper or presentation is completed during the semester and turned in for a possible 3 credit hours. Prerequisites: Permission of instructor and Junior or Senior standing. Corequisite: EN490.

EN-496 Senior Research Capstone (Variable; Yearly; 2.00-4.00 Credits; H) This course serves as a capstone experience in English that culminates in a substantial written thesis. The individual research project is conducted under the guidance of an English department faculty member. When completed, the thesis is presented in a public forum such as Liberal Arts Symposium, an oral defense, or a conference. Prerequisites: EN120, EN122, EN204 and EN493; Senior standing.

EN-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer subjects not normally taught. Requisites vary by title.

EN-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

EXERCISE SCIENCE

ESK-101 Introduction to Exercise Science (Variable; Yearly; 1.00 Credit) Introduction to Exercise Science will cover the history and development of Exercise Science and its relative components within sports, physical education, health, fitness, and kinesiology professions. Students will be introduced to current trends, characteristics, and content areas of exercise science, along with career and practice settings and opportunities.

ESK-105 Intro to Human Anatomy & Physiology 1 (Fall only; Yearly; 4.00 Credits) Anatomy and Physiology I is the first of a two-course sequence that will explore

the human body from the simplest level of atoms to the most complex level as an organism. It is primarily designed for Exercise Science and Kinesiology students, as well as students pursuing majors in Health Sciences. Students will learn about some of the major organ systems (i.e., skeletal, muscular), which will be supported by laboratory experiences.

ESK-106 Intro Human Anatomy & Physiology 2 (Spring only; Yearly; 4.00 Credits) This is the second of a two-course sequence that will continue exploring the human organism. It is primarily designed for Exercise Science and Kinesiology students, as well as students pursuing Health Sciences. Students will learn about some of the major organ systems (i.e., cardiovascular, respiratory) not covered in A&P I. Prerequisite: ESK-105.

ESK-206 Functional Musculoskeletal Anatomy (Fall only; Yearly; 3.00 Credits) This course introduces principles, terminology, and function of the musculoskeletal system. Specific topics will include joint movements, muscle action, and basic function associated with the neuromuscular system. Laboratory experiences will allow the student to visualize and demonstrate movement patterns associated with basic functional movement. Prerequisite: ESK-106.

ESK-303 Motor Learning, Control & Development (Variable; Yearly; 3.00 Credits) This course will introduce students to basic knowledge of the development of fundamental motor patterns and perceptual motor skills for a more effective understanding as to why and how children and adults learn and perform motor skills. In addition, students will learn assessment and evaluation of motor skills, and methods and activities for developing these skills. Prerequisite: ESK-206.

ESK-310 Exercise Physiology (Variable; Yearly; 3.00 Credits) Exercise Physiology will introduce and investigate physiological responses and adaptations of the human body to exercise, as well as adaptations necessary to sustain and/or develop exercise tolerance. Concepts of cardiovascular and respiratory responses to exercise, energy production, metabolism, neuromuscular, will be investigated in laboratory settings. Prerequisite: ESK-106.

ESK-312 Strength & Conditioning (Variable; Yearly; 3.00 Credits) Strength & Conditioning will introduce students to the knowledge, skills, and abilities

required of a strength and conditioning professional and to prepare them for the Certified Strength and Conditioning Specialist (CSCS) exam. Such an experience and certification will facilitate recognition as a unique professional in Exercise and Sport Science programs, including the fitness industry. Prerequisite: ESK-206.

ESK-340 Biomechanics (Variable; Yearly; 3.00 Credits) Biomechanics will introduce and investigate the principles of mechanics and how they apply to human movement, including sports, injuries, and rehabilitation. Students will learn about the basic principles of mechanics, including kinematics, kinetics, and the laws of motion. Certain concepts will be investigated in laboratory settings. Prerequisites: ESK-206, PC-200, and PC-200L.

ESK-430 Exercise Testing & Prescription (Variable; Yearly; 3.00 Credits) Exercise Testing & Prescription will prepare students to understand the principles and practices of exercise testing and prescription. Students will learn how to engage in exercise prescription aimed to improve fitness and health outcomes, how to administer health and fitness assessments, and how to problem solve and make decisions. Prerequisites: ESK-303 and ESK-340.

ESK-498 Exercise Science & Kinesiology Capstone (Variable; Yearly; 3.00 Credits) The Capstone will provide students with supervised experiences in Exercise Science or related discipline. The student will have the opportunity to apply their accrued skills and knowledge in an environment that requires hands-on professional practices by participating in a research opportunity or internship in exercise science. This course must be taken within the students last 30 credits at Juniata. Requires senior standing and instructor permission.

ENGLISH AS A SECOND LANGUAGE

ESL-150 Academic Writing (Either semester; Yearly; 3.00 Credits) The focus of this course is developing writing fluency, as well as helping students find their own writing styles. Students will explore and apply the writing process, including brainstorming, organizing, writing drafts, proofreading, and revising. In and out of class activities will include reviewing and analyzing their own writing as well as that of their classmates, organizing a portfolio, and writing three main essays exploring different academic writing forms.

ESL-151 Conversation and Discussion (Fall and Spring; Yearly; 3.00 Credits) The focus of this course is learning and strengthening the skills of conversation and discussion often used on the campuses of North American colleges and universities. Students will more fully develop awareness of different academic and social situations which will require different levels of politeness and personal attention. Activities will include a reflective listening journal, note taking, and in-class presentations/speeches.

ESL-152 Reading and Vocabulary Development (Fall and Spring; Yearly; 3.00 Credits) The focus of this course is developing specific strategies for improving reading comprehension and rate by using authentic materials: media and college-related texts. Vocabulary development will be an important component of the class, so that the students are better able to understand complex written information. Through on-campus interviews and discussion groups, students will understand the norms and expectations of the U.S. academic environment.

ESL-153 Grammar in Use-Level II (Either semester; Yearly; 3.00 Credits) The focus of this course is improving knowledge and use of written grammar as it applies to North American colleges and universities. Through the student's writings various grammatical structures will be explicitly examined, practiced, and applied. Although the focus of the course is grammar in writing, spoken grammar will also be covered through class discussions.

ESL-170 Academic Writing II (Fall & Spring; All Years; 3.00 Credits) The focus of this course is on improving academic writing skills needed to write more structured and complex essays in English. This course will guide students from more formulaic writing to more comprehensive writing by developing skills to express arguments clearly and with strong support. Timed-writings and peer-evaluations are strong components of the course as well.

ESL-179 Academic Writing II: Lab (Fall & Spring; Yearly; 1.00 Credit) This course, in combination with ESL 170, will develop your academic writing skills through a focus on writing process. You will focus on the stages of brainstorming, topic selection, outlining, sourcing, composing and editing. Through close interaction with the teacher and assistants, you will

learn the skills to be able to write more complex and expressive essays in English.

ESL-199 Special Topics (Either semester; Variable; 1.00-4.00 Credits) The IEP can offer special courses based on student and program needs.

ESL-202 Advanced ESL Reading (Fall and Spring; Yearly; 3.00 Credits; SW-GE) ESL 202: Advanced ESL Reading is designed to strengthen college level reading skills and help students learn to analyze readings from multiple points of view. Novels and other texts will provide the context for us to articulate and contrast the values, beliefs, or practices of different cultures and describe global challenges and ways different cultures address them.

ESL-211 Advanced Listening and Speaking Seminar (Either semester; Yearly; 3.00 Credits; CS, SW-GE) High-level listening and speaking skills are needed to participate in North American college classrooms. This course is linked with a 3-credit, 100-level course and students earn credits for both courses. Through group discussion, oral presentations, video and an off-campus lab with Language in Motion, students improve their language skills and gain an understanding of content. Requisites: Take a linked 100-level course (speak to instructor).

ESL-250 College Writing (Either semester; Yearly; 3.00 Credits; CW) The focus of this course is to enable students to write proficiently and confidently at a high level equal to American college students. Students will complete four essays which represent those most frequently written by college students. They will learn specific organizational strategies and elements of style which match North American academic expectations. Multiple revisions will be complemented by conferences with the instructor, Writing Center tutors, and peer-editing.

ESL-259 College Writing: Lab (Fall & Spring; All Years; 1.00 Credit) This course will improve your academic writing skills by developing your written process. In collaboration with the teachers and assistants, you will work on essays from ESL 250 focusing on the many stages of writing, including brainstorming, outlining, sourcing, composing, editing, re-writing, and peer-review. You will learn the process to write more complex and expressive essays in English.

ESL-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) The IEP can offer special courses based on student and program needs.

ESL-INS English as Second Language Ind Stdy (Fall & Spring; All Years; 1.00-4.00 Credits) See Catalog.

ESL-TUT ESL Teaching Assistant (Variable; Variable; 1.00-4.00 Credits)

ENVIRONMENTAL SCIENCE AND STUDIES

ESS-001 Non-credit ESS Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as internship: (Title); must be 6 weeks long. Prerequisite: Permission.

ESS-100 Environmental Systems I (Variable; Yearly; 4.00 Credits; N, WK-SP, CTGIS) This course introduces students to the concept of systems, reviews ecological systems, and then goes on to human systems as these impact the environment. The course will explore the two forces that are at the core of most environmental impacts (climate change, ozone depletion, air and water pollution, and a loss of biodiversity) will be explored as will the fundamental attributes of agriculture, food, soil, and water. Throughout, the influence of culture, society, ethics, and science on the environmental problems will be discussed. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

ESS-110 Environmental Systems II (Variable; All Years; 3.00 Credits; N, SW-LE) This course introduces students to the concepts of environmental systems and sustainability, review of ecological systems, and human impact on the environment. Students will work on a restoration/conservation project with a community partner to improve soil/water resource quality in the community. Students will be introduced to scientific writing and write a scientific paper. Pre-req or co-req: FYC-101 or EN-110 or EN-109. (NOTE: ESS-100 is not a prereq for ESS-110.)

ESS-118 Global Justice Film (Variable; Yearly; 1.00 Credit) Through the medium of film, this one-credit course showcases environmental and sustainability issues within a global context. The themes and

documentaries presented in the course will focus on intersecting elements of the environment, culture, access, class, gender, sustainability, and innovation. Based on the documentaries and discussion in the course, opportunities to engage in local sustainable measures will be possible.

ESS-119 Environmental Film (Variable; Yearly; 1.00 Credit; F) This course explores classic and current environmental and nature films and documentaries as both art and information. Students will watch and discuss 10 films.

ESS-121 Environmental Film Lab (Variable; Yearly; 2.00 Credits; F) Create a short nature or environmental film. The course will cover filming, sound interviewing experts, and post-production. Students will use Adobe Premier and Audition.

ESS-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer topics not normally scheduled. Prerequisites, corequisites, and fees vary by title.

ESS-206 Global Environmental Issues (Variable; Yearly; 4.00 Credits; N, WK-SI) Global Environmental Issues is a global public health course. Environmental problems create some of the most pressing public health issues of our time. This course seeks to train the participants to identify the public health challenges created by environmental problems in various parts of the world and exploring practical solutions for those problems.

ESS-212 Kenyan Cultures & Natural Resources I (Spring only; Variable; 2.00 Credits; SW-GE) This short-term study abroad course series provides an interdisciplinary and intercultural introduction to Kenya through a wide range of experiences. Kenya is a diverse country with many different ecosystems, languages, and cultural traditions, making it a dynamic and vibrant place. Apart from visiting national parks, the students will examine wildlife management as a tool to build economic resilience in communities. NOTE: This is a two-course sequence that includes a predeparture course (ESS-212) on campus in spring semester and a two-week travel course in summer term (ESS-213). The total fee for the experience is split between the two courses. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

ESS-213 Kenyan Cultures and Natural Resources II (Summer only; Variable; 2.00 Credits; SW-GE) This

short-term study abroad course series provides an interdisciplinary and intercultural introduction to Kenya through a wide range of experiences. Kenya is a diverse country with many different ecosystems, languages, and cultural traditions, making it a dynamic and vibrant place. Apart from visiting national parks, the students will examine wildlife management as a tool to build economic resilience in communities. NOTE: This is a two-course sequence that includes a predeparture course (ESS-212) on campus in spring semester and a two-week travel course in summer term (ESS-213). The total fee for the experience is split between the two courses. Pre-Req: ESS-212.

ESS-219 Agroecology (Fall and Spring; Yearly; 1.00 Credit; N) This course will explore alternate production systems in agriculture as ecological systems.

ESS-224 Wildlife Mgmt (Spring only; Variable; 3.00 Credits; N) Wildlife management incorporates the science and management of wild animals, both rare and common species. Threatened species may require particular knowledge of population structure and processes for effective management, while common species may need control or might be exploited as novel production products. Prerequisites: ESS-100 or BI-101 or BI-105.

ESS-225 Wildlife Management Techniques (Variable; Yearly; 2.00 Credits; N) Course will provide students with knowledge of common field research techniques employed by wildlife biologists.

ESS-230 Environmetrics (Fall and Spring; Yearly; 3.00 Credits; N, QS, CTGES, CTGIS) This course is a survey of the various visual, statistical, and modeling approaches commonly used in the analysis of environmental data. The course covers: (1) visual literacy from exploratory data inquiry to poster creation; (2) elementary group comparisons such as t-test and ANOVA and their non-parametric analogs; (3) basic systems modeling; and (4) regression modeling techniques based on the generalized linear model framework.

ESS-235 Environmental Reading (Variable; Variable; 1.00 Credit; N, CW) This class will explore 2-3 classic and/or modern works in environmental studies and natural history. The writers list includes: Aldo Leopold, Annie Dillard, Dan Daggett, Saul Alinsky, Wangari Maathai, Gifford Pinchot, Bill McKibben, Mary

Kingsley, Ian McHarg, Wendel Berry, Andrew Lytle, Ester Boserup, Roderick Nash, Vandana Shiva, Rose Reuter, Barry Lopez, Bernd Heinrich and others.

ESS-261 Marine Biology I (Fall only; Variable; 3.00 Credits; N) This course takes a biological, physiological, and ecological approach to studying life in the oceans. We start with a basic review of the ocean. We will then provide an overview of the oceans as the course has a global focus. We then take a biological tour up the food chain.

ESS-262 Fluid Mechanics (Variable; Yearly; 3.00 Credits; N) An introductory course in the basic principles of fluid properties and fluid flow. The course will cover fluid system/control volume relationship analysis for continuum, energy, and momentum study

ESS-265 Food Fermentation (Variable; Variable; 1.00 Credit; N) Salt, pH, bacteria, fungi, heat, and evaporation have been used by cultures around the world to preserve and enhance food. We will explore these processes by reading about the processes and then producing some of the simpler products from these traditions including jerky (drying and salting), cheese (bacterial and enzymatic fermentation), artisanal bread (fungal and bacterial fermentation), kimchi (bacterial fermentation), kombucha (Fungal and Bacterial fermentation), essential oils (evaporation and precipitation), and fermented but non-alcoholic ciders (fungal fermentation and pH reduction).

ESS-297 Fire Ecology & Management (Variable; Variable; 2.00 Credits) This course provides students with an understanding of wildland fire fighting and controlled burns as tools for forest management. The successful student will have satisfied the minimum training requirements to participate in controlled burns and fight wildland fires.

ESS-298 Animal Care, Training, and Education (Variable; Variable; 4.00 Credits; N) The Animal Care, Training, and Education course covers all aspects of operating an educational wildlife center. Topics include permitting, housing, husbandry, training, and conservation outreach with native wildlife. The course will provide the scientific foundations of animal husbandry, behavioral science, and educational methodology. A strong hands-on component, utilizing Shaver's Creek Environmental Center's Animal Care Facilities, provides students with an immersive

experience to develop these skills under the guidance of the centers' staff. Select field sessions will enhance conservation connections to Shaver's Creek's live animal exhibits.

ESS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits; N) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites, corequisites, and fees vary by title.

ESS-301 Environmental Methods (Either semester; Yearly; 3.00 Credits; N) This course deals with a variety of environmental issues and problems. This includes the causes and the scientific and social backgrounds needed to understand them. It also introduces the student to the roles of scientists and engineers in dealing with them. The course involves both quantitative and qualitative assessments. Prerequisites: ESS100 and 1 year of chemistry or permission of the instructor.

ESS-305 Environmental Economics (Spring only; Yearly; 3.00 Credits; S) This course will cover the basics of microeconomic analysis as it applies to the environmental decision making and environmental policy with respect to pollution abatement, resource harvesting, and sustainability analysis. The course will also explore the strengths and weaknesses of economic models of human behavior. Finally, the course explores the growing concern of sustainable and resilient economies. Prerequisites: Sophomore standing or permission of the instructor.

ESS-309 Econometrics (Spring only; Yearly; 2.00 Credits; N, Q) A first course in econometrics with forays into regression, optimization, and modeling. Prerequisites: Introductory economics course.

ESS-310 Water Resources I (Fall only; Yearly; 3.00 Credits; QM, N) This course provides the student with a working overview of the hydrologic cycle, providing the student with the basic concepts of all aspects of hydrology. Particular emphasis is placed on the integrative nature of ecosystems within the watershed, including the interdependencies and driving forces of energy, the atmosphere, the hydrosphere, and the land, and the biosphere. Prerequisites: ESS100.

ESS-315 Environmental Chemistry (Variable; Yearly; 4.00 Credits) Environmental Chemistry is an application of chemical principles to the study of the

environment. It includes natural processes and pollution problems related to air, water, and soil.

ESS-318 Environmental Water Quality (Either semester; Yearly; 4.00 Credits; N) The objective of this course is to provide an overview of surface and groundwater quality and the impacts of human and natural influences on both human and environmental health. Analytical methods for water quality assessment. Physical, chemical, and biological factors of water quality. Introduction to water/wastewater treatment processes. Prereqs: CH-142 and BI-101.

ESS-320 Environmental Monitoring (Spring only; Yearly; 4.00 Credits; N) This course develops skills in monitoring the environment, with a strong focus on water quality monitoring (both chemical and biological) in a variety of habitats. Environmental site assessment will also be conducted. A weekend-long field trip is required. Prerequisite: ESS100 and ESS200 or permission.

ESS-321 Water & Wastewater Treatment (Variable; Yearly; 4.00 Credits) Theory and design of water and waste treatment systems for industrial, municipal, and hazardous pollutants and natural biotransformation of pollutants in the environment. Laboratory experience in startup, operation, and analysis of systems that biodegrade pollutants and produce useful forms of energy.

ESS-323 Aquatic Ecology (Variable; Variable; 4.00 Credits; N) A study of the physical, chemical, and biological aspects of streams, rivers, ponds, and lakes. Emphasis on the role of water chemistry, pollution, and biotic interactions on the distribution of aquatic life. Laboratory includes field sampling and identification of aquatic organisms.

ESS-324 Natural Resource Management (Either semester; Variable; 3.00 Credits; N) This course provides a comprehensive coverage of local, regional, national, and global resource and environmental issues from population growth to wetlands to sustainable agriculture and natural resource policies and legislation. It considers renewable and non-renewable resources such as water, land, soil, air, wildlife, and their associated habitats. Prerequisites: ESS-100 and either BI-101 or BI-105.

ESS-325 Conservation Biology (Fall only; Yearly; 3.00 Credits; S, N) Conservation Biology encompasses

biology, politics, ethics, economics and anthropology. The major course objective is the exploration of conservation complexities—important for successful conservation efforts. Other objectives are to gain an understanding of extinction, community conservation, population genetics and demography. This course has a required weekend field trip with a fee added for the trip. Prerequisites: ESS-100 or BI-101 or BI-105.

ESS-328 Limnology (Fall only; Yearly; 4.00 Credits; N) An ecology/environmental science course covering inland aquatic environments (lakes and streams). A balanced study of both physical-chemical and biological aspects, it is an appropriate upper-level addition to a variety of POEs in natural sciences. Pre-Reqs: ESS-100 and either BI-101 or BI-105.

ESS-330 Geographical Information Systems (Fall and Spring; Yearly; 4.00 Credits; CTGIS) This course is an introduction to a Geographical Information System (GIS), and the course objective is that students gain a basic, partial understanding of GIS concepts, technical issues, and applications using Arc View GIS. It encourages thinking in spatial context. A diverse array of hands-on computer applications and projects are used to understand how geographical data can be analyzed spatially. Students explore analysis techniques in a problem basis learning approach using small team projects. Note: A special course fee is assessed. Prerequisite: ESS100.

ESS-335 Quantitative Ecology (Spring only; Yearly; 4.00 Credits; QS) The goal of the course is to advance student understanding of a broad range of numerical and graphical techniques used to analyze complex data sets encountered in the environmental sciences. Students will learn the context to properly apply these techniques to address research questions. The purview is ecological, but is applicable to all other quantitative endeavors. The course emphasizes conceptual understanding, relevant applications, and proper interpretation rather than gory, though interesting, statistical theory. Students will apply the R language and environment for statistical computing to tailor analyses to specific circumstances. Pre-reqs: ESS-110 and ESS 230.

ESS-337 Environmental Law (Spring only; Yearly; 3.00 Credits; S, CTGIS) This course will examine the major environmental laws in the United States and major Supreme Court cases covering these statutes. The status covered will be National Environmental Policy Act (NEPA), The Clean Water Act (CWA), Clean Air Act

(CAA), Endangered Species Act (ESA), Federal Insecticide Fungicide and Rodenticide Act (FIFRA), Toxic Substances Control Act (TOSCA), Forest Land Policy and Management Act (FLPMA), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), and the Superfund Amendment and Reauthorization Act (SARA). Prerequisites: ESS-100 and sophomore standing or above.

ESS-340 Forestry (Fall only; Variable; 3.00 Credits; N, CTGIS) This course provides a comprehensive survey of the discipline of forestry and forest ecology with special emphasis on tree identification, timber mensuration, and forest management issues in central Pennsylvania. Prerequisites: ESS100.

ESS-345 Ichthyology (Spring only; Variable; 4.00 Credits; N, QS, CTGIS) This course provides an in-depth and active hands-on study of fishes within an evolutionary framework. Lecture explores fish ecology, evolution, diversity, systematics, zoogeography, and conservation. Laboratory focuses on fish classification, fish biology and morphology, and skills needed to identify fishes of the central Appalachians. Prerequisites: BI-101 or BI-105.

ESS-346 Freshwater Invertebrates (Spring only; Even Years; 4.00 Credits; N, QS) This course provides an applied experience studying aquatic invertebrates that occupy freshwater ecosystems of North America. Lecture focuses on invertebrate ecology, sampling, monitoring, and analysis strategies for bioassessment, conservation, and description of taxa. Laboratory focuses on taxonomy, classification, and identification of families of invertebrates of the local central Appalachians. Prerequisites: BI-101 or BI-105 and junior standing.

ESS-350 Field Research Methods (Fall only; Yearly; 3.00 Credits; N, CTGIS) Field Methodologies is intended for students interested in gaining experience in conducting field based ecological or environmental research. Students will be lead through the process of investigation, including the generation of research questions, research planning and design, analysis of data, and presentation methods, while giving them the opportunity to conduct independent projects. This is not a techniques/equipment training course; it will fulfill the independent study requirement of the ESS POE. This course will be particularly useful to students considering a field based senior research

project. A course in statistics or ecology is highly recommended. Prerequisites: ESS100.

ESS-352 Restoration Ecology (Variable; Variable; 4.00 Credits; N) This course provides an overview of how ecological knowledge can be used to guide the recovery or restoration of degraded ecosystems. Although many restoration projects are constrained logistically (money, people power, statutes, etc.), we focus largely on ecological processes, biological and landscape constraints, and what the science of ecology can bring to the field of ecological restoration.

ESS-355 Ornithology (Summer only; Yearly; 3.00 Credits; N) This course provides a comprehensive survey of the comparative biology, ecology, and behavior of birds with a special focus on issues pertaining to conservation management. Laboratory activities focus on field identification of birds and research and monitoring techniques. Prerequisite: BI-101 or BI-105.

ESS-361 Field Methods in Marine Systems (Spring only; Yearly; 4.00 Credits; N, Q) Taught in India. This is the methods portion of the course including field techniques, quantitative methods, and a scientific writing seminar. The student requirements will be a short paper, four section quizzes and a final exam. Prerequisites: GL111 and ESS100. Permission of instructor required.

ESS-362 Island Ecosystems (Spring only; Yearly; 3.00 Credits; N) Taught in India. This course will introduce the students to island ecosystems from both applied and theoretical viewpoint. The course will run in the Andaman Islands in India. The topics covered will include island fauna, island flora, reef ecosystems, and a ridge to reef view of these complex biotas. Prerequisites: GL111 and ESS100.

ESS-363 Upland Process and Estuaries (Spring only; Yearly; 3.00 Credits; N) Taught in India. This course will introduce students to estuaries and upland processes. About 50% of the course will be on site with the discussion and activities intended to give a very close view of the processes, ecology, and issues in coastal watersheds and estuaries. Prerequisites: GL111 and ESS100 and permission of instructor.

ESS-364 Culture, Class and Gender (Spring only; Yearly; 3.00 Credits; CA, S, I, CW) Taught in India. This course will cover issues of gender and other

disadvantaged groups in coastal management. Fishing villages are often composed of people who are ethnically, religiously, or class-wise distinct from upland populations. Women also have culturally distinct roles in the harvesting, production, and processing of natural resources. Prerequisites: ESS100 and permission of the instructor and the Center for International Education. A trip fee is applied.

ESS-365 Sustainable Development (Either semester; Variable; 2.00 Credits; I, N, SW-ER) This course explores the cultural, ethical, ecological and engineering complexities of sustainable development. Water, agriculture, and wildlife conservation will play a central role in the topics. Distributive justice will play a central role in the ethical considerations. The material will focus on India and Nepal. NOTE: ESS-365 is the first course in a two-course series, with students earning 2 credits in the fall or spring semester for the predeparture course and 1 credit in the summer or winter term for the trip to India and Nepal. The total fee for the experience is split between the two courses in the series. (While this course series includes a study abroad component, please note that it counts towards the Ethical Responsibility requirement, not the Global Engagement requirement.)

ESS-366 Sustainable Develop Practicum (Summer only; Variable; 1.00 Credit; SW-ER) This course is the practicum component of the Sustainable Development series that explores the cultural, ethical, ecological and engineering complexities of sustainable development. The course includes preparatory meetings in the preceding semester and 16 days in Nepal and India. NOTE: ESS-366 is the second course in a two-course series, with students earning 2 credits in the fall or spring semester for the predeparture course and 1 credit in the summer or winter term for the trip to India and Nepal. The total fee for the experience is split between the two courses in the series. (While this course series includes a study abroad component, please note that it counts towards the Ethical Responsibility requirement, not the Global Engagement requirement.) Prerequisite: ESS-365.

ESS-377 GIS Advanced Topic (Fall only; Variable; 4.00 Credits; N, QS) This course explores spatial decision support systems, hot spot modeling for home range, disease and crime, intermediate image analysis,

habitat classification from multispectral and hyperspectral imagery. Prerequisites: ESS310 or ESS330 or permission of the instructor.

ESS-380 Sense of Place Seminar (Fall only; Yearly; 3.00 Credits; CA, CW) Taught at Raystown Field Station. This is the "cornerstone" of the Sense of Place semester, managed by one faculty, but comprised of a series of modules taught by various faculty and guest speakers. Module topics cover a range of environmental, ecological, and societal issues connecting to the region. Students will be expected to journal their experiences at RFS as well as complete other writing assignments. Note: There is a course fee assessed. Prerequisites: ESS100 or permission of the instructor.

ESS-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Topics vary from year to year. They will focus one or more special environmental skills, methods, approaches or technologies. A laboratory fee will be assessed.

ESS-399L Special Topics Lab (Variable; Variable; 1.00 Credit)

ESS-400 Senior Capstone I (Fall only; Yearly; 1.00-3.00 Credits; S, CTGIS) The Senior Capstone course is intended to provide a real-world, project-based experience working on an advanced-level project. The student teams utilize skills they have acquired in their academic career to evaluate and provide potential solutions to realistic environmental tasks. The project will be chosen each semester based on needs and opportunities in local agencies to provide an advanced project that can be done in one semester. Prerequisite: Senior standing or permission of the instructor.

ESS-401 Senior Capstone II (Spring only; Yearly; 3.00 Credits; N, S, CTGIS) This course is the spring semester Senior Capstone option. It is intended to provide a real-world, project-based experience working on an advanced-level project. The student teams utilize skills they have acquired in their academic career to evaluate and provide potential solutions to realistic environmental tasks. The project will be chosen each year based on needs and opportunities in local agencies to provide an advanced project that can be done in one year. Prerequisite: ESS-100 and Senior standing or instructor permission.

ESS-410 Water Resources II (Spring only; Odd Years; 3.00 Credits; QS, N, CTGIS) This is an advanced hydrology course aimed at furthering the students understanding of the complex interactions of the hydrologic cycle. Particular emphasis will be placed on mathematically modeling the process including precipitation, runoff, infiltration, soil moisture and stream flow. Prerequisites: ESS310 and MA130

ESS-415 Fate & Transport of Pollutants (Variable; Yearly; 4.00 Credits) The course is designed to provide an understanding of the physical, chemical, and biological processes that govern the distribution of contaminants through the environment, as well as the processes that are involved in the transformation or degradation of a contaminant. Knowledge of these processes is essential for designing pollution prevention, control, monitoring, and remediation strategies, and for risk assessment. We will cover the distribution of pollutants in air, water, soil, and biological tissues, with particular emphasis on toxic organic pollutants.

ESS-445 Fishery Science & Management (Variable; Variable; 4.00 Credits; H, N, QS) This course is a survey of the elements of fisheries science and management including the biology, ecology, management, and conservation of fisheries and aquatic resources. Emphasis is on whole ecosystem approaches to ecology and management of inland freshwater fisheries of North America and associated habitats. Prerequisites: BI-101 or BI-105.

ESS-450 Environmental Research (Fall and Spring; Yearly; 1.00-6.00 Credits; S) An independent research experience that includes the preparation of a research proposal. Students present research results during weekly meetings with instructor. A research paper is the end point of the research experience. Presentation of results at national meetings is encouraged. May be repeated for up to 15 credits. Prerequisite: ESS100 and ESS300 and permission of the instructor.

ESS-460 Coastal Zone Management (Spring only; Yearly; 3.00 Credits; S) Taught in India. This course will cover the current legal status, international treaties, state and central government coastal zone management regulations, and the history and current status of conflict and the attempts to overcome that conflict in India. This includes shrimp farming, over fishing, pollution, shipping, oil spills changes in beach morphology and coastal topography from weirs dams, etc. Prerequisites: GL111 and ESS100.

ESS-490 Environmental Science and Studies: : Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) Note: May be repeated up to a total of 9 hours of credit. Prerequisite: Permission and Jr. or Sr. Standing. Corequisite: ESS495.

ESS-495 ESS Research Seminar (Either semester; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on experience and/or pursue relevant research. Corequisite: ESS490. Prerequisite: Permission and Jr. Sr. standing.

ESS-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

ESS-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits)

ESS-TUT ESS Teaching Assistant (Variable; Variable; 1.00-3.00 Credits; N)

FRENCH

FR-110 French I (Either semester; Yearly; 4.00 Credits; H, I, SW-GE) Emphasizes the four communicative skills (speaking, reading, writing, and listening) focusing on the context of everyday life.

FR-120 French II (Either semester; Yearly; 4.00 Credits; H, I, CS, SW-GE) In addition to learning and practicing basic communication skills in French, students will study some of the cultural foundations and practices of the French-speaking world. Instruction is entirely in French. Pre-Req: FR-110 or equivalent.

FR-210 French III (Fall and Spring; Yearly; 3.00 Credits; H, I, CS, SW-GE) This is the third course in a the three-semester sequence of beginning and intermediate French. Students will learn and practice more advanced grammatical structures and vocabulary to communicate more spontaneously and fluently with other speakers of French. PRE-REQ: French 120 or equivalent.

FR-230 Conversation (Spring only; Yearly; 3.00 Credits; H, I, CS, SW-GE) This course focuses on developing the speaking and listening skills of students of French. Students will acquire the language structures and vocabulary to interact with fluent or native speakers of French on a variety of topics without strain for either party. PRE-REQ: FR 210 or equivalent.

FR-237 Intermediate French Grammar (Either semester; Variable; 3.00 Credits; WK-FR) This course, which is instructed in French, serves to reinforce the fundamental grammar that students have studied previously, to introduce new grammar content, and to delve more deeply into grammar topics. Students will study grammar rules and guidelines and will also contextualize and understand them through a look at real-world use of language structures. As they study a formal language system, students will use deductive and inductive reasoning to predict which forms are correct. They will also work to improve their ability to communicate and interact effectively in French. Intermediate French proficiency strongly recommended.

FR-260 French Civilization and Culture (Either semester; Variable; 3.00 Credits; H, I, CS, SW-GE) An overview of the French culture and civilization in language, art, literature, history, and ideas. Prerequisites: FR210 or equivalent.

FR-270 Francophone Civilization and Culture II (Either semester; Odd Years; 3.00 Credits; H, I, CS, SW-GE) An in-depth introduction to the history and influence of French culture outside Europe. Students will gain a general knowledge of contemporary Francophone cultures that exist throughout the world. Prerequisite: FR210 or equivalent.

FR-279 Sexuality and Literature (Variable; Variable; 3.00 Credits; I, H, CA, SW-ER) This course uses literary texts as a critical lens to analyze and critique sexual ethics in different cultural and historical contexts or situations. The course is conducted as a seminar with entertaining, thought-provoking reading assignments and lively classroom discussions. No knowledge of the French language is required to enroll in this course.

FR-299 Special Topics (Variable; Variable; 1.00-3.00 Credits) Allows departments to offer subjects not normally taught. Prerequisites and fees vary by topic.

FR-326 French Cinema (Either semester; Yearly; 4.00 Credits; F, I, H, CW, CA) An overview of the history of French Cinema and various schools of film analysis. Participants in this course view and analyze major examples of French cinema from its origins to today. Discussions are in English. Papers may be written in English or French.

FR-331 The Craft of Translation (Variable; Variable; 3.00 Credits; H, I, CW, SW-GE) This course introduces high-intermediate and advanced students of French to the formal technics and art of written translation. Students must have completed two 200 level courses taught in French or have instructor permission prior to enrollment.

FR-345 Women in French Culture (Fall and Spring; Yearly; 3.00 Credits; CA, I, H, CW) An introduction to the major currents of contemporary French feminism. All readings are in the translation and discussions are in English.

FR-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides courses not covered by the regular offerings. These are developed to meet the needs of students of advanced standing and included themes in Medieval & Renaissance Literature and French Women Writers.

FR-450 Research Project in French (Fall and Spring; Yearly; 3.00 Credits; H, I, CS) An independent research project or thesis which will be designed by the student with the assistance of the instructor. Throughout the semester, the student will research his/her topic and submit a final paper or thesis to be defended at the end of the semester Prerequisites: three 300 level French courses and permission, or a year of study abroad and permission.

FR-490 French Internship (Variable; Variable; 2.00-9.00 Credits) See catalog. Corequisite: FR495

FR-495 FR Internship Seminar (Variable; Variable; 2.00-6.00 Credits) See catalog. Corequisite: FR490

FR-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer subjects not on the normal schedule. Prerequisites vary by title.

FR-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See description in catalog.

FR-TUT French Teaching Assistant (Variable; Variable; 1.00-4.00 Credits; H, I) See catalog for description.

FIRST YEAR COMPOSITION

FYC-101 First-Year Composition (Variable; Variable; 4.00 Credits) First-Year Composition focuses on developing critical reading, writing, and analytical skills. Course themes will be chosen by individual instructors. FYC courses follow a process-oriented

approach to college work and include peer review, individual conferences with the instructor, and revision cycles. FYC courses will introduce students to different types of reading and writing using varied models, genres, and forms (such as popular, scholarly, digital, and print). The courses build students' information literacy skills, rhetorical knowledge, critical thinking, and knowledge of appropriate genre and style conventions. FYC courses focus on developing these skills to prepare students for future academic work.

FYC-199 FYC Special Topics (Variable; Variable; 1.00-4.00 Credits) Special topics course in First-Year Composition.

FIRST YEAR FOUNDATIONS

FYF-001 Non-Credit Fyf Internship (Variable; Variable; 0.00 Credits) Provides students an overview of an organization including its structure, strategies and principal lines of activity as well as providing an opportunity for practical application of the skills developed in students' areas of concentration. Note: see the chapter "Academic Programs" under Internships: listed as Internship (title) must be at least 9 weeks long. Prerequisites: The EB Core or Foundation Courses, sophomore standing and permission.

FYF-101 First-Year Foundations (Variable; Yearly; 1.00 Credit) First-Year Foundations is a one-credit course that provides students with the resources, skills, and information that will assist them in mastery of academic and social life at Juniata College. Students will "think about who you are": What does it mean for students to be in college, at this place, at this time? What are their goals for the future?

FYF-105 First-Year Foundations-Transfer Students (Variable; Variable; 1.00 Credit) First-Year Foundations for Transfer Students is a one-credit course that provides transfer students with the resources, skills, and information that will assist them in mastery of academic and social life at Juniata College. Students will "think about who you are" individually (What does it mean for students to be in college, at this place, at this time?) and collectively (locally and globally).

FYF-199 First-Year Foundation Special Topic (Variable; Variable; 1.00-4.00 Credits) For FYF special topics courses

FYF-TUT First-Year Foundations Facilitator (Variable; Variable; 1.00-4.00 Credits)

FIRST YEAR SEMINAR

FYS-102 First-Year Seminar (Variable; All Years; 3.00 Credits) FYS is an introduction-by-immersion to college-level learning. Seminar topics are chosen by individual instructors. Students develop the intellectual skills of analyzing evidence and arguments by examining issues such as what counts as evidence, what makes arguments strong or weak, and common errors in reasoning.

GENERAL EDUCATION

GE-101 Local Engagement Seminar (Variable; Yearly; 1.00 Credit; SW-LE) This course should be taken with a co-curricular community-engaged learning (CEL) experience that has been registered and approved in advance. During the seminar, we will examine theory related to understanding citizenship and civic life in the 21st century and discuss challenging questions related to social change, as well as principles and strategies for responsible and ethical engagement with communities.

GE-INS General Education Independent Study (Variable; Variable; 1.00-4.00 Credits) Independent study course in General Education

GEOLOGY

GL-001 Non-Credit Geology Internship (Variable; Variable; 0.00 Credits) Provides student an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: See the chapter on "Special Programs" under Internships; listed as Internship: (Title); must be 6 weeks long. Prerequisite: Permission.

GL-100 Intro to Physical Geology (Fall and Spring; Yearly; 3.00 Credits; N) An introduction to the principles and methods of geology. Emphasis is placed on the geologic forces at work in our physical environment. Topics covered include internal processes such as volcanism, earthquakes, mountain

building and the flow of groundwater as well as external processes such as landslides, flooding, erosion and landscape formation. Emphasis is given to the interaction of human activities with these physical processes as well as the processes themselves.

GL-100A Environmental Geology (Fall and Spring; Yearly; 3.00 Credits; N) Student perceptions of what constitutes geology have shifted. Contemporary students need to be made aware that geology IS the study of the physical environment of the earth and that a central part of what geologists do entails an exploration of how humans and the built environment both affect and are affected by the earth's physical/environmental system. While our previous title and description for this course, Introduction to Physical Geology, carried these implicit understandings, we find it important now to draw students' attention explicitly to the environmental character of our study of Earth.

GL-101 Physical Geology Lab (Fall and Spring; Yearly; 1.00 Credit; N) This course provides opportunities to study geology in the laboratory and field. Concepts and methods covered in the lecture are reinforced. Specifically covered are mineral and rock identification, map interpretation and study of examples of earth processes from maps and in the field. Some field trips are required and a special fee is assessed. Corequisite or Prerequisite: GL100A.

GL-105 World Regional Geography (Variable; Variable; 3.00 Credits; N, I) A survey of the world's major cultural realms. Included are geographic setting, resources, environmental restrictions, historical and cultural traditions, industrial and agricultural development, economic base and trends, population distribution and political subdivisions.

GL-111 Oceanography (Fall only; Yearly; 3.00 Credits; N) A survey of the physical, chemical, biological and geological environments of the ocean. Included are sea floor topography, composition and circulation of sea water and the life existing in the oceanic environments. Field experience is offered and a special fee is assessed.

GL-114 Catastrophe (Variable; Yearly; 3.00 Credits; N, WK-SP) This Scientific Process course explores the geological processes and hazards that lead to large and destructive natural disasters. Students will explore and work with interdisciplinary scientific data

to understand the importance and societal relevance of earth processes in everyday decision making. Pre-req: FYC-101 or EN-110 or EN-109.

GL-123 Expedition: Earth (Variable; Yearly; 3.00 Credits) This course explores the full range of geologic studies through weekly meetings in the spring semester to prepare for a two to three-week field expedition in May-June. The field trip is supported by the Geology Alumni Field Trip fund. Each year, the class will travel to a different region in the US or internationally.

GL-126 Environmental Geochemistry (Variable; Variable; 3.00 Credits; N) This course will introduce fundamental geologic process through a geochemical lens. Basic geochemical reactions involving water-rock interactions at both high and low temperatures will be considered. The class will focus on the environmental problems in atmosphere and continents. Prereq: CH-142.

GL-130 Introduction to Soils (Fall only; Variable; 4.00 Credits; N) Introduction to Soils is an experience-driven overview of the most important distinctions among soils and to the factors that contribute to agricultural productivity of soils. Through in-class activities students will learn to be observers of soil characteristics, and will come to understand soil as the interface between the worlds of rocks, plant and animal life, the water cycle and the atmosphere. Attention will be drawn to natural and disturbed soils, and soils' role in global health. No prerequisites.

GL-172 Geology of National Parks (Either semester; Yearly; 3.00 Credits; N, WK-SP) A Scientific Process course that explores geological processes that formed the landscape of the United States through the lens of our national parks. Students will learn how to read, use, interpret, and collect earth science data to approach scientific problems and public policy decisions. Field trip to National Park required unless course is taken online; special fee assessed for field trip. PRE-REQ: FYC 101.

GL-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) An examination of an area not regularly studied in the departmental offerings. Examples have been Geomorphology, Petroleum Geology, and Case Studies in Environmental Geology. Note: abbreviate ST: (title) students may take each ST: Course for credit.

GL-204 History of Earth (Variable; Yearly; 4.00 Credits; N, WK-SP) This course examines the history of the planet Earth since its origin to the present day and the methods that geologists use to uncover that history. The course includes specific consideration of the social context of geosciences, and ways that art and science have contributed to human understanding of Earth. Pre-req: FYC-101 or EN-110 or EN-109

GL-210 Minerals (Variable; Yearly; 4.00 Credits; N, WK-SP) This course explores the building blocks of the Earth: minerals. Students will master mineral identification in hand-specimen and by optical microscope methods to conduct scientific inquiry. Emphasis is placed on mineral classification, crystal structure, chemical composition, physical properties, and stability. We also investigate the role of minerals in society and public policy. A lab fee is assessed. Pre-req: FYC-101 or EN-110 or EN-109.

GL-213 Minerals, Economics, Politics and Law (Either semester; Odd Years; 3.00 Credits; I) Introduces mineral deposits and examines the distribution and exploitation. Explores historical patterns in mineral resource utilization and considers the extractive industries in the context of economic patterns and government policies. Emphasizes the potential for conflict resulting from the uneven distribution and exploitation of mineral wealth. Note: some field trips are required. (A Peace and Conflict Studies course.) Note: this course does not fulfill the distribution requirement in science.

GL-215 Energy, Minerals & Society (Fall only; Variable; 3.00 Credits; N) Twenty-first century societies run on the twin nutrients of abundant energy and the mineral resources needed to fashion technological devices. While both energy and mineral commodities are subject to wildly oscillating demand as economies alternately flourish and falter, the global demand for all such commodities has shown inexorable growth since the onset of the industrial era. Globalization has increased this rate of growth. But, extraction and use of resources invariably alters landscapes and releases pollutants into the environment. How adequate are supplies? How can they be used with minimal adverse impact? To what extent can impacts be managed by use of alternative energies, by recycling, by conservation? These topics are the focus of this course.

GL-240 Geological Field Methods I (Fall only; Yearly; 4.00 Credits; N, CW, CTGIS) This course is an

introduction to the geology of the Appalachians through teaching geologic methods in the field. The course will focus on developing field practice and using the information collected in the field to construct a scientific document. The course is composed of 8 local field trips and 1 extended field trip as well as many classroom exercises.

GL-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) An examination of an area not regularly studied in the departmental offerings. Examples have been Geomorphology, Petroleum Geology, and Case Studies in Environmental Geology. Note: abbreviate ST: (title). Students may take each ST: course for credit.

GL-300 Petrography (Fall only; Yearly; 4.00 Credits; N) The petrographic examination of rocks in hand specimen and under the microscope. Identification of the principal types of igneous and metamorphic rocks and discussion of their chemical and mineralogical characteristics and tectonic setting is emphasized. Note: one laboratory per week, one or two major field trips are required, and a special fee is assessed. Prerequisite: GL210.

GL-304 Paleobiology of Invertebrates (Fall only; Odd Years; 4.00 Credits; N) Basic principles of paleontology and functional morphology of extant and extinct invertebrates are covered. These include identifying fossils and understanding their morphology and preservation in order to interpret ancient environments. Note: One laboratory per week and field trips are required and a special fee is assessed. Prerequisites: GL202 or BI105.

GL-305 Hydrogeology (Variable; Variable; 3.00 Credits; N) The study of the natural occurrence of water. Topics include: the hydrologic cycle, precipitation, stream flow, soil moisture, ground water occurrence, aquifer flow and testing chemical characteristics, contamination, development and management of ground-water resources.

GL-307 Geophysics (Fall only; Even Years; 3.00 Credits; N) This course is an introduction to how geophysical data can be used to address academic and applied problems in geology. Emphasis is placed on the concepts behind acquiring geophysical data and use of the information for interpretation. Seismology, magnetism, heat and gravity are the main concepts covered. Prerequisites: GL202. MA130 may be taken as prerequisite or corequisite. There are two

field trips run over the weekend where students get to use the equipment in the field and reduce the data. A special fee is assessed.

GL-310 Structural Geology (Variable; Yearly; 3.00 Credits; N) The study of the deformation of the earth's crust. Field relationships, form, symmetry, and geometry of earth structures are stressed. Concepts of kinematic and dynamic analysis are presented so students are better prepared to interpret the origin of earth structures. Note: one laboratory per week, one or two extended field trips are required, and a special fee is assessed. Prerequisite: GL-202 or GL-204.

GL-325 Intro to Soil Science (Spring only; Variable; 4.00 Credits; N) Introduction to Soil Science is a comprehensive overview of soils, their characteristics, their origins, their importance to agriculture, construction and waste disposal, and of the factors that contribute to maintenance of soil quality or to its degradation in use. Theoretical concepts will be supported by laboratory and field study of soils, soil forming processes, and soil-water-rock-biotic interactions; training will be provided in techniques of field sampling and characterization of soils. A special lab fee is assessed. Prerequisites: GL100 & GL101 & CH105.

GL-350 Geol. Research Methodologies (Spring only; Yearly; 2.00 Credits) Aims to elucidate the science research process and the science infrastructure to the student. The course introduces students to research practice, analysis and writing. The course also requires students to prepare a research proposal. Students will also discuss more theoretical aspects of research: epistemology, the scientific method, multiple working hypotheses, erecting and testing hypotheses, and the scientific infrastructure. This course is designed for junior level geology students. Prerequisites: Permission of the instructor.

GL-389 Geology Professional Seminar (Spring only; Yearly; 1.00 Credit) Provides guidance and preparation to Junior class level Geology students in relation to their post-Juniata plans. Topics include resume writing, strategies involved in a job or graduate school search, preparation for credentialing exams, preparation for interviews, and networking. Prerequisite: Junior or Senior standing.

GL-399 Special Topics (Either semester; Variable; 1.00-4.00 Credits) An examination of an area not regularly studied in the departmental offerings.

Examples have been Geomorphology, Petroleum Geology, and Case Studies in Environmental Geology. Note: abbreviate ST: (title). Students may take each ST: course for credit.

GL-400 Petrology of Igneous and Metamorphic: : Rocks (Spring only; Even Years; 4.00 Credits; N) Analyzes the processes of magma generation and crystallization under equilibrium and disequilibrium conditions in the context of igneous phase equilibria and geologic setting. Considers the re-crystallization of pre-existing mineral assemblages in the metamorphic environments and examines metamorphic conditions by interpretation of facies assemblages and petrogenetic grids. Note: one laboratory per week; a major field trip is required and a special fee is assessed. Prerequisite: GL 300.

GL-401 Sedimentology (Fall only; Even Years; 4.00 Credits; N) Focuses on the origin of sediments and sedimentary rocks. Included are sedimentary processes, depositional environments, post-depositional influences and sedimentary rock classification. Principles and methods of study including petrographic analysis are emphasized. Note: one laboratory per week, field trips are required, including a weekend trip, and a special fee is assessed. Prerequisite: GL202.

GL-405 Principles of Stratigraphy (Either semester; Odd Years; 4.00 Credits; CW, N) Includes the description of sedimentary rocks in the stratigraphic column, methods of correlation, interpretation of the origin of rock units and the historical and philosophical development of the geologic time scale. Note: one laboratory per week, field trips are required and a special fee is assessed. Prerequisite: GL-204.

GL-414 Geologic Research Method (Fall and Spring; Variable; 3.00 Credits) The course focuses on exploring geologic research method development, data collection and management, data interpretation and professional presentation of scientific information.

GL-440 Geological Field Methods II (Spring only; Variable; 4.00 Credits; N) The course covers advanced geologic mapping of the Appalachians. It will focus on constructing geologic maps and cross-sections to develop an understanding of the rock record, geologic time, and the processes by which geologists reconstruct ancient tectonic and sedimentary events.

The course is field based. Prerequisites: GL 240. Note: A special course fee will be applied.

GL-450 Geological Research (Fall and Spring; Yearly; 1.00-6.00 Credits; N) The field or laboratory investigation of a specific geologic problem. Methodology and principles of interpretation are necessary for the successful completion of the course and a final report must be submitted. Student's specific research topic will be the title of the course on the student's transcript. May be completed multiple times for credit. Prerequisite: permission of Geology faculty member.

GL-490 Geology Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) See the chapter, "Special Programs" under Internships. Prerequisite: Permission and Jr. or Sr. standing. Corequisite: GL495.

GL-495 Internship Research/Seminar (Fall and Spring; Yearly; 1.00-6.00 Credits; N) Requires students to reflect on the internship experience and/or pursue research related to the placement. Corequisite: GL 490. Prerequisite: permission.

GL-INS Independent Study (Variable; Yearly; 1.00-6.00 Credits)

GERMAN

GR-01 Non-Credit German Internship (Variable; Variable; 2.00-9.00 Credits) See catalog.

GR-108B Vienna Intensive German (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This BCA-operated course provides four weeks of intensive language instruction by native speakers at the Internationale Kulturinstitut Wien (iki) language school in Vienna, Austria. No prior knowledge of German is required. All levels of German are available, from beginning to advanced. Corequisite: Participants must concurrently enroll in GR208A, "Vienna: Crossroads of Europe," a cultural studies course taught in German and English.

GR-109 Intensive German Program I (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This program provides four or five weeks of intensive language instruction by native speakers at the KAPITO language school in Muenster, Germany. All levels of German are available, from beginning to advanced. In addition, all students participate in three to four extra-

curricular activities with a cultural focus per week.

Note: A special course fee is applied.

GR-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer courses not normally taught. Prerequisites and fees vary by course.

GR-199A German Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer courses not normally taught. Prerequisites and fees vary by course.

GR-199B German Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer courses not normally taught. Prerequisites and fees vary by course.

GR-208A Vienna: Crossroads of Europe (Summer only; Yearly; 3.00 Credits; I, H, SW-GE) This course will introduce students to the history and culture of Vienna, Austria. It focuses on the city as a geographical, political, cultural, and artistic crossroads at the heart of Europe. The course will help students understand how Vienna has been and remains a perpetually emerging and evolving modernity in politics, culture and the arts since the late 19th century. Corequisite: Participants must concurrently enroll in either GR108B, GR208B, or GR308B (based on their German proficiency level).

GR-208B Vienna Intensive German (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This BCA-operated course provides four weeks of intensive language instruction by native speakers at the Internationale Kulturinstitut Wien (iki) language school in Vienna, Austria. No prior knowledge of German is required. All levels of German are available, from beginning to advanced. Corequisite: Participants must concurrently enroll in GR208A, "Vienna: Crossroads of Europe," a cultural studies course taught in German and English.

GR-209 Intensive German Program II (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This program provides four or five weeks of intensive language instruction by native speakers at the KAPITO language school in Munster, Germany. All levels of German are available, from beginning to advanced. In addition, all students participate in three to four extra-curricular activities with a cultural focus per week. Note: A special course fee is applied.

GR-210 German III (Fall and Spring; Yearly; 3.00 Credits; H, I, CS, SW-GE) German III is the third part of the four-semester introductory sequence. Its primary goals are to enable students to continue building their proficiency and attain a broader understanding of German culture. Emphasis is placed on the use of the target language in the classroom and the study of culturally authentic materials. Students will achieve greater accuracy with basic language structures. Pre-req: GR120, placement test, or program head's permission. This course is part of the Global Engagement element of the General Education Curriculum, "3. Language Study": Complete at least a 200-level world language course in the target language if continuing previous language study.

GR-220 German IV (Fall & Spring; All Years; 3.00 Credits; CS, H, I, SW-GE) Final part of the four-semester introductory sequence. German IV will expand upon students' existing listening, speaking, reading, and writing skills and further their understanding of contemporary Germanic cultures. Pre-requisite: GR 210, department placement test, or program head's permission. This course is part of the Global Engagement element of the General Education Curriculum, "3. Language Study": Complete at least a 200-level world language course in the target language if continuing previous language study.

GR-232 German Conversation & Composition (Spring only; Yearly; 3.00 Credits; I, H, CW, SW-GE) German Composition & Conversation is an intermediate-level course that will expand upon students' existing listening, speaking, reading, and writing skills and further their understanding of contemporary culture of German-speaking countries. Building on skills and vocabulary previously acquired, this course focuses on growing vocabulary, exploring communicative strategies, and increasing oral proficiency via active participation and self-expression in and outside of class. Pre-requisites: GR 210, departmental placement test, or program head's permission.

GR-299 Special Topics (Either semester; Variable; 3.00-4.00 Credits) Provides courses not covered by the regular offerings. These are developed to meet the needs of students of advanced standing.

GR-299A Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally taught. Fees and prerequisites vary by section.

GR-299B Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer courses not normally taught. Fees and prerequisites vary by title.

GR-308B Vienna Intensive German (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This BCA-operated course provides four weeks of intensive language instruction by native speakers at the Internationale Kulturinstitut Wien (iki) language school in Vienna, Austria. No prior knowledge of German is required. All levels of German are available, from beginning to advanced. Corequisite: Participants must concurrently enroll in GR208A, "Vienna: Crossroads of Europe," a cultural studies course taught in German and English.

GR-309 Intensive German Program III (Summer only; Yearly; 4.00 Credits; I, H, SW-GE) This program provides four or five weeks of intensive language instruction by native speakers at the KAPITO language school in Muenster, Germany. All levels of German are available, from beginning to advanced. In addition, all students participate in three to four extra-curricular activities with a cultural focus per week. Note: A special course fee is applied.

GR-320 Early 20th Century German Literature (Either semester; Variable; 3.00 Credits; H, I, CS, SW-GE) Examines readings from the works of such authors as B. Brecht, H. Hesse, H. von Hofmannsthal, F. Kafka, T. Mann, F. Wedekind and F. Werfel. Discussion focuses on the complex problems and issues facing modern man in an ever changing world.

GR-399 Special Topics (Either semester; Variable; 3.00 Credits) Provides courses not covered by the regular offerings. These are developed to meet the needs of students of advanced standing.

GR-399A Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally taught. Fees and prerequisites vary by section.

GR-399B Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer topics not normally taught. Fees and prerequisites vary by title.

GR-490 Internship-Need Paperwork (Variable; Variable; 2.00-9.00 Credits) See Catalog.

GR-495 Internship Seminar (Variable; Variable; 2.00-9.00 Credits) See catalog.

GR-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog for description.

HEALTH PROFESSIONS

HP-001 Health Professions Non-Credit Internship (Variable; Variable; 0.00 Credits)

HP-175 Healthcare Career Exploration (Either semester; Yearly; 1.00 Credit) This course aims to help students learn about careers in healthcare. Students will develop an appreciation for the healthcare industry and an understanding of the skills, education, and experience required for various healthcare careers. Students will have the opportunity to refine their interests through conversations with professionals and to discern what healthcare career may suit them.

HP-199 Health Professions Special Topics (Variable; Yearly; 1.00-4.00 Credits) 100-level special topics courses in the Health Professions program.

HP-235 Medical Terminology (Spring only; Even Years; 3.00 Credits) Medical terminology is the study of the principles of medical word building to help the student develop the extensive medical vocabulary used in health care occupations. Students receive a thorough grounding in basic medical terminology through a study of root words, prefixes, and suffixes. Upon successful completion of the course, students will be able to comprehend a medical record report, communicate among medical professionals, and have a high-level overview of medical terms. This course will serve as a prerequisite to medical programs such as nursing, therapy, occupational therapy, physician assistant, etc.

HP-255 Veterinary Medical Technology (Spring only; Odd Years; 3.00 Credits) HP-255 guides students through the process of reading, writing, and comprehending medical terminology used in the veterinary medical field. This course includes word construction (roots, prefixes, suffixes, and combining forms), definitions, and use of words related to body systems. Diseases and diagnostic pharmacology, and common species of domestic animals, including the dog, cat, horse, ruminant, pig, bird, and laboratory animals are emphasized.

HP-299 Health Professions Special Topic (Fall and Spring; All Years; 1.00-4.00 Credits)

HP-300 Health Navigator Practicum (Variable; Variable; 2.00-3.00 Credits; SW-LE) The Health Navigation Practicum combines both lecture and experiential learning to expose students to health care delivery, social determinants of health and patient navigation. This course is open to juniors and seniors only. An interview with the instructor is required before admission.

HP-370 Health Career Preparation Seminar (Either semester; Yearly; 1.00 Credit) This seminar is recommended for students aspiring to a career in health professions and starting application preparation for professional school. Recommended to be taken in the junior year or one full year prior to professional school application. Must be junior or senior class level. Students who are not health professions students need instructor consent.

HP-490 Intern/Need Paperwork (Variable; Variable; 2.00-9.00 Credits) Health Professions students may apply their acquired skills and knowledge to on-the-job internships for a semester during their junior or senior years.

HP-495 Health Professions Internship Seminar (Variable; Variable; 2.00-6.00 Credits) In addition to the on-the-job experience provided by the internship, students are required to pursue research related to their placement. An in-depth research paper or presentation is completed during the semester. Corequisite: HP 490. Prerequisite: Jr. or Sr. standing.

HISTORY

HS-001 Non-Credit History Internship (Variable; Variable; 0.00 Credits) Provides students an overview of an organization as well as providing and opportunity for practical application of the students' area of concentration. Note: See the chapter "Special Programs" under Internships; listed as Internship (Title); must be 6 weeks long. Prerequisite: Permission.

HS-104 Medieval Europe (Variable; Yearly; 4.00 Credits; H, I, WK-HT) This course will examine the history of Western Europe from the Roman Empire to approximately 1450. This 1000-year period was the setting for both large and small changes in the way people in Europe thought about themselves, governed each other, and lived everyday lives. During the course, we will follow a chronological timeline, but we will frequently stop, look, and enjoy the scenery. Pre-

or Co-Req: FYC-101 or EN-110 or EN-109. (Formerly titled: European History to 1550)

HS-109 China, Japan, and Korea to 1800 (Variable; Variable; 4.00 Credits; H, I, SW-GE) This course surveys the main political, social, economic, philosophical, and religious themes in China, Japan, and Korea from antiquity to about 1800. Beginning with an introduction to China's classical philosophical tradition, this course examines the manner in which Chinese institutions and ideas were adapted and altered in Japan and Korea. Attention is given to the development of Japan's and Korea's unique socio-political features, as well as to the contemporaneous but often dissimilar development of Chinese society and institutions. Pre- or Co-Requisite: FYC-101 or EN-110 or EN-109.

HS-115 United States to 1877 (Fall only; Yearly; 4.00 Credits; H) Concentrates on the broad sweep of U.S. history from colonial beginnings through Reconstruction using a variety of perspectives and sources. The ideas and realities of freedom shape nearly every part of our lives. How did this develop in the United States from its earliest European settlements to the aftermath of the Civil War? HS-115 focuses on this central theme of freedom - how people have defined and pursued it, as well as expanded and restricted it, in different places. You will also learn how to analyze primary sources (those created during the time period under study) and apply a historical perspective to issues that shape your life today.

HS-116 The U.S. Since 1877 (Spring only; Yearly; 4.00 Credits; H) This course uses original documents, novels, and other sources to explore the interrelationships between domestic and foreign affairs and to examine the consequences of actions taken at the national and local level.

HS-152 World Civilizations From 1500 (Variable; Yearly; 4.00 Credits; H, I) This course will trace the development of world civilizations from the 16th century to the present.

HS-199 Special Topics (Fall only; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

HS-200 The Great War (Variable; Variable; 4.00 Credits; I, H, CW, WK-HT) This class is a social,

cultural, and political history of a global conflict that reshaped the twentieth century. Throughout the semester we will seek to understand what it was like for soldiers and civilians from many parts of the world to live through this war. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

HS-201 Samurai Legends & Lives (Either semester; Variable; 4.00 Credits; CA, H, I, SW-GE) This class will introduce you to the legends and lives of the samurai of pre-modern Japan. Samurai have traditionally been known as swashbuckling, martial heroes of film and fiction. Samurai did not just wield swords, however. They composed poetry, served as scribes and bureaucrats, and engaged in business. In this course, we will first discuss the legends of the samurai that were conveyed in the popular war tales. Samurai legends present to us certain cultural ideals that persisted even as the samurai themselves changed. Pre- or Co-Requisite: FYC-101 or EN-110 or EN-109.

HS-204 Australia/New Zealand (Either semester; Variable; 4.00 Credits; I, H) This course is a comparative introduction to the history of New Zealand and Australia. We will begin the course by studying the indigenous people of the region: Australian Aborigines in Australia and Maoris in New Zealand, before moving to think about the arrival of white settlers. During the semester, we will pay particular attention to the process of colonization and dispossession, race and gender relations, the search for national identity, popular culture, and politics in the two countries.

HS-208 Engineering, Empire, and the Environment (Either semester; Variable; 3.00 Credits; WK-HT) This course will challenge students to consider how engineering projects undertaken across the British empire shaped ecosystems on land, in the air, and on water. The class will also reflect on the social and health consequences to local populations and the legacy of imperial British engineering. Pre- or Co-Requisite: FYC-101 or EN-110 or EN-109

HS-213 History of Ireland (Variable; Variable; 4.00 Credits; H, WK-HT) This course is an introduction to the history of Ireland, beginning with an overview of the early history. We will explore the Tudor revolutions, English colonialism, the question of identity in the island, Irish Republicanism, home rule movements, the partition of Ireland, and the "troubles" in the North of the island of Ireland. Pre-Req: FYC-101 or EN-110 or EN-109

HS-215 Rome: Republic to Empire (Variable; Variable; 4.00 Credits; H, WK-HT) People through history have imagined Rome in different ways, and it conjures up lots of different images for us: civilization; barbarism; conquest; freedom; slavery; technology; virtue and vice. In this course, we will explore the period between the founding of Roman civilization and the year 325 A.D., examining what the Romans thought and said about themselves and what they mean to us today.

HS-217 The Lowcountry and the Gullah Culture (Variable; Yearly; 3.00 Credits; H, CA, SW-US) The course examines the origins and development of the Gullah Geechee cultures of the Lowcountry. How did these members of the African diaspora develop a creole culture within the profound and brutal limitations of slavery, and how did they sustain it and change under Jim Crow and into the climate and development challenges of the present?

HS-222 Archives: Theory, Practice, and Use (Variable; Variable; 2.00 Credits) This team-taught course provides an introduction to archives by covering their different types and purposes, archival practices, and the use of archives by researchers. The course will involve readings, discussion, hands-on experiences, and a field trip. This course also serves a crucial role in the orientation to, and skill development for, the larger Secondary Emphasis and certificate in Rural Poverty Studies.

HS-262 North American Environmental History (Spring only; Variable; 3.00 Credits; H) Our troubling relationship with the natural world might well be the most important issue human societies will face in your lifetime. HS-262 examines one root of this relationship: how and why we have shaped, and been shaped by, different North American environments over time. Through discussion, lectures, readings, and films, we will examine the social, cultural, economic, and political spheres of these human activities since the fifteenth century.

HS-266 History of South Africa (Variable; Variable; 4.00 Credits; I, H) This course covers the history of South Africa from the 17th century to the present. We will focus our attention on specific themes, including imperialism, race and ethnicity, crime and punishment, resistance to apartheid, and the limits of forgiveness. The class will be taught inside SCI Smithfield. This Inside-Out Course is an opportunity for a group of students from Juniata College and an equal number of students from SCI Smithfield to learn

together and to exchange ideas and perceptions about the history of South Africa. Bringing incarcerated and non-incarcerated students together for engaged and informed dialogue allows for transformative learning experiences that facilitates an exchange of ideas in a dialogic format. Instructor permission required for all students.

HS-268 Sword & Scimitar: Islam & West 500-1300 (Variable; Yearly; 3.00 Credits; SW-GE) When discussing culture in a historical context, we must be careful to avoid the stereotypes that may leap to mind. In the twenty-first-century United States, the mention of Islam or the Near East provokes stereotypes that are inaccurate and misleading. In this course, we will learn about the early history of Islam and its intersection with western Christianity and the society of the European Middle Ages. In doing so we will discover the similarities and differences between the cultures and learn (modern prejudices notwithstanding) how they depended on one another both culturally and economically.

HS-272 Natives & Colonists in Early N. America (Variable; Variable; 4.00 Credits; H, CW, SW-US) Love, hate, fear, confusion, respect, admiration, wonder: these are just some of the powerful feelings that infused the relationships between Native Americans and European colonists, and that shaped the history of North America from about 1500 to the eve of the American Revolution. Through extensive discussion, reading, writing, and a role-playing game, HS-272 will help you understand relationships that still affect American society today.

HS-277 History of Food (Variable; Yearly; 4.00 Credits; H) This course will take a transnational view of the history of food from the Middle Ages to the twenty-first century. We will examine food as a part of human experience including its roles as sustenance, commodity, cultural artifact, signifier of identity, and art. While the early emphasis of the course will be on the Atlantic World and the global exchange of foods and cooking techniques, particular attention will be on the United States' regional cuisines and food movements. The course will use scholarly texts, films, field-trips and will require some cooking and tasting of food on some evenings. Prerequisites: Sophomore Standing. Note: There is a fee assessed on this course.

HS-280 Victorian Science, Sexuality & Medicine (Variable; Yearly; 4.00 Credits; WK-HT, H) This class

investigates the changing meanings and entanglements of Victorian science and medical practice through the lens of class, gender, and race. We will examine ideas about the body and disease, the changing role of medicine and the social construction of scientific knowledge. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

HS-293 Sophomore Colloquium (Variable; Yearly; 4.00 Credits; H, CW) This colloquium exposes students to employment opportunities available to them through the study of history. It focuses upon the development of the skills necessary for success in the history classroom. The Sophomore Colloquium is designed for students with strong interest in history, including education students and students with secondary emphases in history. Pre-requisites: sophomore standing and two courses in History or permission of the instructor.

HS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offers supplements to the regular departmental program, exploring topics and areas not regularly scheduled. Note: Students may take each ST: course for credit.

HS-305 The American Revolution (Spring only; Variable; 4.00 Credits; H, CW, WK-HT) The American Revolution reshaped the world by spreading the idea of independence, and it continues to influence our lives in every way, from debating the rights of citizenship to including Hamilton on your playlist. HS-305 examines the origins and consequences of the American Revolution. The central questions include: What caused the American Revolution? How did the United States win the War of Independence? What resulted from the American Revolution? Class activities include extensive discussion, reading, and a role-playing game.

HS-306 People's Republic of China (Spring only; Yearly; 4.00 Credits; I, H, CW) This course is an upper-level seminar on the history of the Chinese Communist Party and the People's Republic of China. This is a College Writing course (CW), so a principle aim of the course is to instruct students in the techniques of writing papers in history. Work in the course will culminate in a term paper on a topic in 20th-century Chinese History. To that end, considerable effort will be spent in introducing students to tools and strategies for understanding the English-language historiography of Modern China.

Some prior knowledge of Chinese history and civilization is recommended.

HS-309 Civil War and Reconstruction (Variable; Variable; 4.00 Credits; H, CW, CTDH) Examines the political, social, military, economic and ideological origins and consequences of the Civil War and Reconstruction. The course looks deeply into several important questions. What caused the Civil War? Why was the Union victorious? Why did the war proceed as it did? What was the nature and legacy of reconstruction? What does this period in our history mean to us now? Prerequisites: HS115 or HS116 and SO, JR, or SR standing.

HS-312 The New South: 1877-1990 (Variable; Variable; 4.00 Credits; H) This seminar will cover the years 1877-1900 and explore the themes on the cultural, political, economic and social history of the U.S. South. Among the important questions covered in the class are: What is the South? How did the South change through significant events such as the Populist movement, the rise of Jim Crow, the Great Depression, the second World War, economic development, and the Civil Rights movement. We will ask how the South's arts, especially music, reflect its history and culture. Prerequisites: HS116 or permission of the instructor.

HS-313 Disease, Medicine, and Empire (Either semester; Yearly; 4.00 Credits; CA, I, H, SW-GE, CTGES) What can the study of the history of medicine tell us about the nature of rule and the politics of race in European empires? How did medical theories of disease and healing shape ideas about colonial environments, populations, bodies, and racial differences in the imaginations of European colonizers? How did medicine and science function as tools of colonial domination and as part of broader "civilizing" projects, and what were the limits of such efforts at social control? Can the study of medical reforms and everyday life shed light on how colonial subjects conceptualized, challenged, and defined their own positions in the social order? Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

HS-314 Medieval Medicine (Variable; Yearly; 4.00 Credits; H, CW, SW-GE, CTGES) Despite our popular understanding of the European middle ages as a dirty, disease-ridden, hopelessly backward period, the sources show us quite a different picture. Although a lack of understanding of the means of genetic change and the cause of viral and bacterial disease caused

medieval people to understand the human body very differently than we do, that system was not without its logic and efficacy. This course will explore the human body and its diseases in the middle ages through a series of connected readings that introduce the body as a conceptual system and medieval science's attempts to understand it. We will then look at the growing field of genomic research as a way of understanding and comparing our modern systems of understanding the body. Pre- or Co-Requisite: FYC-101 or EN-110 or EN-109.

HS-316 WWII in Asia and Pacific (Variable; Variable; 3.00 Credits; I, H) Students will study Japan's war in Asia & the Pacific (1937-45), China's War to Resist Japanese Aggression (1937-45) and the US in the Pacific War (1941-45), all part of the larger world-historical conflict. The war will be examined from the perspectives of the main combatants, but also from the perspective of colonial subjects, and from the points of view of elites and commoners. Much attention will be paid to roles of race and culture in (mis-)understandings of "the enemy."

HS-320 Interpreting Terrorism (Variable; Yearly; 4.00 Credits; SW-ER) You have grown up in a world shaped by terrorism. How did this happen? What is terrorism, how has it developed, and how have people responded to it? In this course, we will analyze (interpret) terrorism from different directions: its many definitions, its general history beginning with the French Revolution, and the many ways in which people have responded to it. You will also dive into specific topics and present (interpret) your research for a non-academic audience. It is important for us historians to communicate effectively. If we can broaden and deepen the public's understanding of, and appreciation for, the past, we enrich our society. You will learn how to convey your knowledge in a way that the public will find accessible, and even enjoyable or exciting. Course requirements include a field trip.

HS-322 Women's Lives-Medieval Europe (Variable; Variable; 4.00 Credits; H, CW) What could medieval women do? What was it like to be a nun? Who were witches? There are many interesting questions to ask about women in the middle ages, their choices, and their experiences. In this course, we will address them through firsthand accounts from biographies, personal diaries, and literature.

HS-325 The U.S. Since 1945 (Either semester; Variable; 4.00 Credits; H) Covers the social, political

and economic history since the Second World War. Themes include: the Cold War, suburbanization, the rise of consumer society, and more. Prerequisite: HS116.

HS-326 Modern China (Variable; Yearly; 4.00 Credits; H, I) China over the past hundred years has played a major role in global affairs and is positioned to remain a dominant presence well into the 21st century. This course examines the rise of modern China focusing on its transition from a traditional Confucian state to a potent economic and political power.

HS-327 Modern Japan (Variable; Variable; 3.00 Credits; H, I) This course traces the history of Japan's rise as a modern nation state beginning with the Meiji Restoration of 1868 up to the present with an emphasis on the cultural, economic and political factors which aided the rapid industrialization in the nineteenth century, Japanese imperialism in the first half of the twentieth century, and Japan's economic "miracle" in postwar Japan.

HS-367 Women in Africa (Variable; Variable; 4.00 Credits; CA, H, I, CTDH) This course will provide students with an understanding of women in sub-Saharan African cultures, their history, traditions, diversity, resilience and adaptability. To do this we will be looking at social structure, kinship networks, economic systems, gender relations, ethnicity and ethnic conflicts, traditional religion, the HIV/AIDS epidemic and other health issues.

HS-399 Special Topics (Either semester; Variable; 1.00-4.00 Credits) Provides supplements to the regular departmental program, exploring topics and areas not regularly scheduled. Note: Students may take each ST: course for credit.

HS-400 Crimes Against Humanity (Spring only; Variable; 4.00 Credits; I, H) This course explores the emergence, evolution, varieties, underlying causes, and means of confronting and coming to terms with genocide and other crimes against humanity. During the course of the semester, we will examine a range of historical contexts and we will also confront tough questions about ethics, resistance, and responsibility. Prerequisites: Junior or Senior standing. Sophomores require permission.

HS-490 History Internship (Variable; Yearly; 2.00-9.00 Credits; H) Prerequisite: Instructor permission and Junior or Senior standing. Co-requisite: HS-495.

HS-492 Sr History Research/Seminar I (Fall only; Yearly; 3.00 Credits; H) Serves as a capstone experience that synthesizes materials from history and other disciplines into a substantial written thesis. The senior seminar can be done as an independent study or in conjunction with an internship. When completed the thesis is presented at a public oral defense. Prerequisite: Completion of all core courses and/or permission of instructor.

HS-493 The Historian's Craft (Fall only; Variable; 1.00 Credit; H, CW) This course is a seminar-style introduction to historiography and a forum in which senior history students complete part or all of their senior thesis. Students taking the course are expected to work simultaneously with the course instructor, as well as a thesis advisor from within the history department. Students may select a member of the faculty outside the department as a secondary advisor if that complements their thesis topic. Students who elect to write a year-long thesis take HS496 in the Spring semester after taking HS493. Students from other departments who take the course will be expected to complete a paper of comparable length to a senior thesis under the supervision of the course instructor. Prerequisites: One 300 level history course and Senior status.

HS-495 History Internship Seminar (Variable; Yearly; 2.00-6.00 Credits; H) Requires students to reflect on the internship experience and/or pursue relevant research. Instructor permission required. Corequisite: HS-490.

HS-496 Senior History Research/Seminar II (Spring only; Yearly; 3.00 Credits; H) If a student needs to work further on the senior thesis, this will allow three further hours of study. Prerequisites: HS493 and Senior standing.

HS-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer topics not normally taught. Prerequisites and corequisites vary by topic.

HS-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See catalog for description.

HS-TUT History Teaching Assistant (Variable; Variable; 1.00-3.00 Credits)

INTEGRATED MEDIA ARTS

IM-001 Non-Credit Integrated Media Arts Intern (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization including its structure, strategies and principal lines of activity as well as providing an opportunity for practical application of the skills developed in students' areas of concentration. Note: see the chapter "Academic Programs" under Internships: listed as Internship Programs" (title) must be at least 9 weeks long. Prerequisites: The IM Core or Foundation Courses, sophomore standing and permission.

IM-100 Integrated Media Art Seminar (Spring only; Yearly; 1.00 Credit; H) This one credit course is an introduction to the Integrated Media Arts program and its offerings in terms of areas of study, practicum, internships, on campus projects and programs abroad. Meeting the faculty and learning of their interests and research goals is essential to finding your place in the department. Opportunities for Study Abroad, Internships and networking with Alumni are all part of this practical course with opportunities for written reflection and presentations. Together we explore your best options in professional and graduate school opportunities to inform your choice of POE and plan your course of study.

IM-110 Principles of Digital Media (Fall & Spring; Yearly; 3.00 Credits; CTDH) An introduction to the concepts of digital media. Students will develop an understanding of the basics of digital media, the technology surrounding the creation and use of digital media, and its association with art, communication, and information technology. Through a laboratory context of experimentation and discussion, the course explores the use of various creative software programs used to create artistic and expressive media content. The course provides an overview of media formats, media creation, the fundamental properties of the tools required for media manipulation, and insight into the artistic, social, psychological, and legal aspects of digital media. Restrictions: IMA or Art POE or secondary emphasis, or by instructor permission.

IM-199 IM Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally scheduled.

IM-242 Info Visualization (Fall only; Variable; 3.00 Credits; N, CTDH, CTGES) This course considers the

various aspects of presenting digital information for public consumption visually. Data formats from binary, text, various file types, to relational databases and web sites are covered to understand the framework of information retrieval for use in visualization tools. Visualization and graphical analyses of data are considered in the context of the human visual system for appropriate information presentation. Various open-source and commercial digital tools are considered for development of visualization projects. Prerequisite: IT 110, IT 111, IM 110, DS 110, or CS 110 or permission.

IM-250 Digital Audio Production (Spring only; Yearly; 3.00 Credits; F, CTDH) Digital Audio Production introduces the student to the fundamentals of capturing, editing and reproducing sound, using digital tools. Hands on studio work combines with basic acoustic theory to help conceptualize the bridge between the analogue and digital worlds. The final project for the course puts the student in teams to record, edit, mix and do simple mastering on a full length CD.

IM-295 Design Thinking (Variable; Yearly; 3.00 Credits; F, WK-CE) This course is an introduction to design thinking as a powerful tool to approach real-world problems. Although design has traditionally been used to describe the process of creating visually appealing and communicative materials, in this course we will discuss how design can approach system thinking to solve the world's most challenging problems in a creative and innovative way. We will focus on changing the way we see a problem through a design thinking lens, learn to listen, engage in the design process, share our ideas in a team setting, identify ways to structure a group of key stakeholders, and find creative ways to apply design thinking methodologies to any problem. The student will learn the concepts that drive design thinking and ways to present your ideas in a persuasive way. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

IM-310 Social Media (Variable; Variable; 3.00 Credits; F) This course will introduce students to the context and forms of social media. We will explore the theories and practices of narrative expression in online context, explore social media as culture and study the impact of "the sharing economy." What is social media, who uses it, who gains from it, and how is it transforming new media as well as traditional media. One of the outcomes of social media is that

everything is connected, creating massive amounts of user generated content and data. Students will learn to analyze, design and visualize this data. We will also focus on the social norms of user communities and how we can leverage it to better understand emerging technologies. Students will have the opportunity to explore both theory and practice of social media through writing assignments, presentations, curating and creating creative content, and participating on both online and offline discussions. Prerequisites: IM110 or IT110 or IT111 or CS110.

IM-360 Digital Video Production (Spring only; Yearly; 3.00 Credits; F, CTDH) Video Production I is a practical hands-on experience with cinematography, audio production, and lighting. Students learn the necessary skills to tell an well produced digital story with appropriate technical knowledge to enhance the narrative and audience engagement. This course will teach students how to work as a professional videographer by expanding digital media knowledge and techniques. Students will learn the technical foundations of video production, camera operation, lighting, audio acquisition and editing. Students will be encouraged to investigate the impact of video content based on the viewer in addition to artistic potential through digital storytelling. Prerequisites: IM110 or permission by permission of instructor with prior video experience.

IM-361 Video Production II (Spring only; Yearly; 3.00 Credits; F, CTDH) Digital Video Production II allows students to work from ideas to a final video production that is ready to showcase at a film premiere, enter into film competitions, or share with a client as a professional commercial for their business. From preproduction planning all the way to post production editing, students will work on a series of videos with full creative rights. Students will be required to oversee planning, storyboarding, shooting, editing, and final exporting. Students with prior video production experience are preferred. Prerequisite: IM360 or by instructor permission.

IM-375 Community Design Lab (Fall only; Yearly; 4.00 Credits; SW-LE, CTDH) Community Design Lab (formerly Integrated Media Arts Lab I) is a laboratory context of experimentation and discussion for students in the IMA Program. Students are given the opportunity to engage in a reciprocal partnership with a local community partner. Working in a team-driven environment with a local community partner students

propose, plan, and complete a real-world design project. The course includes reflection, design deliverables, and client presentations throughout the semester. Prerequisite: IM-110, sophomore standing or higher.

IM-376 Business of Design (Spring only; Yearly; 3.00 Credits) Business of Design (formerly Integrated Media Arts Lab II) is a laboratory context of experimentation and discussion for students in the IMA Program. The course explores the methods and practices of creative industry standards and professional business practices of being a creative entrepreneur in a competitive world. Students will work on multiple individually driven creative projects to find their personal brand including the development of their online presence as a self promotion tool. By the end of the semester students will understand the business side of creativity including ethical obligations, intellectual property, contracts, negotiation techniques, time tracking, and pricing in a business setting. Pre-Req: sophomore standing or higher.

IM-398 Integrated Media Practicum (Either semester; Yearly; 3.00 Credits; SW-LE) Credit option for students who are applying their classroom theory by working on IMA projects on- or off-campus. Prerequisite: IM-375 or IM-376. Must have sophomore, junior, or senior class standing.

IM-399 Special Topics (Variable; Variable; 1.00-4.00 Credits)

IM-490 IMA Internship (Variable; Variable; 2.00-6.00 Credits) Internship in Integrated Media Arts

IM-495 Internship Seminar (Variable; Yearly; 2.00-9.00 Credits) See Catalog.

IM-496 IMA Seminar (Fall only; All Years; 3.00 Credits) This course is designed to serve as a capstone course for seniors who emphasize Integrated Media Arts in their POE. Students are expected to examine design theory and research methods relevant to a topic, theme, issue, or problem that has served as an area of special interest. This course is intended to allow students to develop, compose, organize, revise, and edit their own writing. Through written assignments students will have the opportunity to produce a thesis or creative project. Students must have senior standing and have a POE in IMA (designated or individualized). Distinction may be

achieved if the candidate meets the IMA Distinction requirements.

IM-497 IMA Research (Spring only; Yearly; 3.00 Credits) This course is designed to serve as a capstone course for seniors who emphasize Integrated Media Arts in their POE. Students are expected to examine design theory and research methods relevant to a topic, theme, issue, or problem that has served as an area of special interest. This course is intended to allow students to develop, compose, organize, revise, and edit their own writing. Through written assignments students will have the opportunity to produce a thesis or creative project. Students must have senior standing and have a POE in IMA (designated or individualized). Distinction may be achieved if the candidate meets the IMA Distinction requirements.

IM-INS Independent Study (Variable; Variable; 1.00-6.00 Credits) See Catalog.

IM-TUT IMA Teaching Assistant (Variable; Variable; 1.00-4.00 Credits)

INFORMATION TECHNOLOGY

IT-001 Non-Credit IT Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as internship (Title); must be 6 weeks long. Prerequisites: Permission.

IT-105 Principles of Programming (Variable; Yearly; 3.00 Credits; N, WK-FR) This course introduces the fundamental principles of programming. Initially, a visual programming language will be used to provide an introduction to algorithmic problem-solving. Then a web-based programming language will be used to illustrate programming language constructs. In addition, the ethical concerns of algorithmic bias will be explored, from the frame of Social Inquiry. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

IT-110 Principles of Information Technology (Fall and Spring; Yearly; 3.00 Credits; S) This course provides a context for further study in information technology. Topics include an overview of the fundamentals of information systems, current and emerging technologies, business applications, communications

and decision making, and the impact of these systems on business, government, and society. This course will also emphasize the development of both writing and speaking skills through application of the concepts that define the course.

IT-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

IT-210 Information Technology Systems (Fall only; Yearly; 4.00 Credits; N) This course introduces students to three core areas in Information Technology: networks, database and web. The course progresses through two phases during its study of modern IT environments. Initial study includes all the necessary components of today's IT system environment and its use in business. Secondly, students use a server based database development environment to create an IT system. Prerequisites: CS110. MA116 strongly recommended.

IT-260 Human-Computer Interaction (Variable; Yearly; 3.00 Credits; S, WK-SI) Human-Computer Interaction is a multidisciplinary field with the goal of bringing usability into the design process and to develop interactive products that are easy, effective, and enjoyable to use from a user's perspective. Human interaction with interfaces can be studied, designed, and evaluated. While HCI focuses on technology design, the user-centered design techniques can be used in the creation of any product in all fields of study. Pre- or Co-Req: FYC-101 or EN-110 or EN-109

IT-298 Information Technology Practicum I (Fall and Spring; Yearly; 1.00-4.00 Credits; S) Credit option for students who are applying their classroom theory from the department by working on information technology or digital media projects on campus or off-campus. Credit hours and level (298, 398 or 498) are dependent upon the extent of the project and will be determined by the professor. Available by permission only.

IT-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

IT-304 Project Management Techniques (Variable; Yearly; 3.00 Credits) This course provides project management skills to manage projects regardless of

discipline. Through lectures, discussions, and hands-on exercises, students will learn state-of-the-art project management techniques as well as historical managing styles. In addition, there will be a focus on defining ethics and intercultural understanding in project management. NOTE: Students with POEs in Computer Science, Information Technology, or Business Information Technology may not take this course.

IT-306 Software Engineering (Spring only; Yearly; 3.00 Credits; N) See CS300. Prerequisite: CS240.

IT-307 Project Management (Variable; Yearly; 3.00 Credits; S, CW, CS, SW-LE) This course reviews and applies project management processes and techniques such as project life cycle, project selection methods, work breakdown instructions, network diagrams, cost estimates, and more. Prerequisites: IT210 and Jr or Sr standing or permission of the instructor. Corequisite: IT308.

IT-308 Innovations for Industry I (Fall and Spring; Yearly; 1.00 Credit; S) This lab will require a team of students to function as a project development team for an IT-related business. The students will be exposed to many aspects of systems analysis, design, development and implementation, as well as project management tools and techniques. Students will be required to learn in a just-in-time mode using on-demand educational resources. Prerequisites: IT210 and Jr or Sr standing or by permission of the instructor. Corequisite: IT307. Note: This course will have appointed class times for projects other than the times listed on the schedule.

IT-310 Social Media (Variable; Variable; 3.00 Credits; F) This course will introduce students to the context and forms of social media. We will explore the theories and practices of narrative expression in online context, explore social media as culture and study the impact of "the sharing economy." What is social media, who uses it, who gains from it, and how is it transforming new media as well as traditional media. One of the outcomes of social media is that everything is connected, creating massive amounts of user generated content and data. Students will learn to analyze, design and visualize this data. We will also focus on the social norms of user communities and how we can leverage it to better understand emerging technologies. Students will have the opportunity to explore both theory and practice of social media through writing assignments, presentations, curating

and creating creative content, and participating on both online and offline discussions. Prerequisites: IT110 or IT111 or IM110.

IT-325 Network Design & Management. (Spring only; Yearly; 4.00 Credits; N) Focuses on the concept of the foundations of a network in both design and support. The OSI reference model will be examined along with techniques for supporting current technologies that align with each other. Emphasis will be placed on protocols, topologies and traffic analysis. Prerequisites: CS240 or IT210.

IT-341 Web Design (Fall only; Yearly; 2.00 Credits) A study of modern web design along with an examination of markup and scripting languages (e.g., HTML, JavaScript), page, image and multimedia formats, and the techniques in developing and managing a web site. Page design, graphical user interfaces, interactive techniques and the importance of e-commerce are also emphasized. Prerequisites: CS110 or permission.

IT-342 Web Programming (Fall only; Yearly; 2.00 Credits) A study of the modern web programming environment, including introduction to Web 2.0 and Web 3.0, HTML, XHTML, and JavaScript. The class will address client-side scripting as well as server-side technology, and accessing a database. These technologies will be combined to create an active, dynamic web page. Prerequisite: CS-240. Corequisite: IT-341.

IT-350 Security Engineering (Spring only; Variable; 3.00 Credits; N) This course will focus on the area of computer security. Included will be information on attacks, prevention, as well as protection from non-malicious threats. It will look at network as well as web based security. A focus will be on creating secure computer environments from the ground up, not as an afterthought. Prerequisites: IT-210 and junior standing or permission of the instructor.

IT-351 Security Engineering Lab (Spring only; Yearly; 1.00 Credit) This course is a laboratory course with hands-on activities to supplement the instruction given in the IT350, Security Engineering course. The lab activities will center on digital forensics, hacker exploits and protection techniques, penetration testing and vulnerability analysis. Co-requisite IT350.

IT-380 Innovations for Industry II (Fall and Spring; Yearly; 4.00 Credits; S, CTGIS) See IT308. This course

will have appointed class times for projects other than those listed on the schedule. A continuation of IT308. Prerequisites: IT307 & IT308 and senior standing.

IT-398 Information Technology Practicum II (Fall and Spring; Yearly; 1.00-4.00 Credits; S) Credit option for students who are applying their classroom theory from the department by working on information technology or digital media projects on campus or off-campus. Credit hours and level (298, 398 or 498) are dependent upon the extent of the project and will be determined by the professor. Available by permission only.

IT-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

IT-480 Innovations for Industry III (Fall & Spring; Yearly; 4.00 Credits; S, CTGIS) See IT380. This course will have appointed class times for projects other than those listed on the schedule. A continuation of IT380. Prerequisites: IT380 and senior standing.

IT-490 Information Technology Internship (Fall & Spring; Yearly; 2.00-9.00 Credits) See Internship in the catalog. Corequisite: IT495. Prerequisite: Jr. or Sr. standing.

IT-495 IT Internship Seminar (Fall & Spring; Yearly; 2.00-6.00 Credits) See Internship in the catalog. Corequisite: IT490.

IT-496 Information Technology Seminar (Fall and Spring; Yearly; 1.00 Credit; S) Discusses current advances in information technology not otherwise covered in our program such as, but not limited to, networking, artificial intelligence, societal issues. In addition, this course allows senior students to plan an individual research project to be completed in IT497. Prerequisites: Junior or Senior standing and IT210 or CS240.

IT-497 Information Technology Research (Fall and Spring; Yearly; 3.00-5.00 Credits; S, CW) Allows students to carry out the independent technology research project as designed in IT496. Prerequisites: IT496.

IT-498 Information Technology Practicum III (Fall and Spring; Yearly; 1.00-4.00 Credits; S) Credit option for

students who are applying their classroom theory from the department by working on information technology or digital media projects on campus or off-campus. Credit hours and level (298, 398 or 498) are dependent upon the extent of the project and will be determined by the professor. Available by permission only.

IT-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally taught. Prerequisites vary by title.

IT-INS Independent Study (Either semester; Yearly; 1.00-4.00 Credits) See catalog.

IT-TUT IT Teaching Assistant (Variable; Variable; 1.00-4.00 Credits) Teachers Assistant

MATHEMATICS

MA-001 Non-Credit Mathematics Internship (Variable; Variable; 0.00 Credits) Provides student an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: See the chapter "Special Programs" under Internships listed as Internship (Title); must be 6 weeks long. Prerequisite: permission.

MA-100 Precalculus (Fall only; Yearly; 3.00 Credits; N, QM) This course is designed for students who need a structured review of precalculus mathematics. Topics covered include solving equations and inequalities, graphing, and analysis of functions, including polynomial and rational functions, exponential and logarithmic functions and trigonometric functions. Integrates the use of the software package Maple in classroom demonstrations and homework assignments. This course cannot be included in a mathematics POE. Prerequisites: High school algebra and trigonometry.

MA-103 Quantitative Methods (Fall and Spring; Yearly; 3.00 Credits; Q) This course prepares students to be quantitatively literate citizens in today's world. By learning to think critically about quantitative issues, students will be able to make responsible decisions in their daily lives. Problems are analyzed and solved using numerical, graphical, statistical, and algebraic reasoning. Technology is used to help visualize data and facilitate calculations, as well as to present quantitative output and verbal arguments.

MA-109 Mathematical Problem Solving (Variable; Yearly; 3.00 Credits; QM, WK-FR) In this course, students use unsophisticated math to find solutions to problems. Many of the math concepts will be familiar but there are some that will be new. The focus will be on using math creatively to answer questions of interest. Unlike standard math exercises that ask students to apply techniques to come up with a numerical answer or an expression, the questions require students to use the mathematics they know to come up with a strategy to accomplish a task or make meaningful decisions. Prereq or Coreq: FYC-101 or EN-110 or EN-109.

MA-116 Discrete Structures (Fall only; Yearly; 4.00 Credits; N, Q) Introduces mathematical structures and concepts such as functions, relations, logic, induction, counting, and graph theory. Their application to Computer Science is emphasized. Pre-requisite high school algebra.

MA-130 Calculus I (Fall and Spring; Yearly; 4.00 Credits; N, QM) An introduction to calculus including differentiation and integration of elementary functions of a single variable, limits, tangents, rates of change, maxima and minima, area, volume, and other applications. Integrates the use of computer algebra systems, and graphical, algebraic and numerical thinking. NOTE: Every week, a 50-minute meeting will be set aside for supplemental instruction. Students who score below the threshold in the assessment exam administered at the beginning of the semester or are earning below 80 percent in the course are required to attend these sessions.

MA-138 Mathematics and Democracy (Variable; Yearly; 4.00 Credits; N, QM, WK-FR) Introduction to topics in mathematics related to democracy including voting theory, gerrymandering, and apportionment. We will discuss the comparison between these topics mathematically versus politically. Prerequisite or Corequisite: FYC-101 or EN-110 or EN-109.

MA-155 The Heart of Mathematics (Either semester; Yearly; 3.00 Credits; N, WK-FR) The goal of this course is to give a broad range of students the hands-on experience of doing mathematics. Topics may include infinity, higher dimensions, chaos, and graph theory. The emphasis will be on the process of doing mathematics: generating examples, looking for patterns, making conjectures, and proving these conjectures. Prerequisites: FYC 101.

MA-160 Linear Algebra (Fall and Spring; Variable; 3.00 Credits; N, QM) An introduction to systems of linear equations, matrices, determinants, vector spaces, linear transformations, eigenvalues, and applications. Prerequisites: MA130.

MA-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of mathematics not currently included in the regular course offerings.

MA-205 Elementary Statistics (Variable; Yearly; 4.00 Credits; N, QS, WK-SP) Introduction to traditional statistical concepts including descriptive statistics, binomial and normal probability models, confidence intervals, tests of hypotheses, linear correlation and regression, two-way contingency tables, and one-way analysis of variance. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

MA-208 Symbolic Logic (Variable; Yearly; 4.00 Credits; N, H, WK-FR) An introduction to the basics of first-order logic: the concept of artificial language, techniques for symbolizing ordinary languages and arguments, formal inference systems (either truth-free method or natural deduction), and other advanced topics in first-order logic. It has no prerequisites beyond high school algebra.

MA-210 Foundations of Mathematics (Fall only; Yearly; 3.00 Credits; CW) An introduction to the logical and set-theoretic basis of modern mathematics. Topics covered include propositional and predicate logic; induction; naive and axiomatic set theory, binary relations, mappings, infinite sets and cardinality; finite sets and combinatorics; and an introduction to the theory of computability. Students will learn to read and to express mathematical ideas in the set-theoretic idiom. Prerequisites: MA160 or MA116 or PL208 or MA208 or permission of the instructor.

MA-220 Introduction to Probability & Statistics (Fall & Spring; Variable; 4.00 Credits; N, QS, CTGES) An introduction to the basic ideas and techniques of probability theory and to selected topics in statistics, such as sampling theory, confidence intervals, and linear regression. Prerequisite: MA130.

MA-230 Calculus II (Fall and Spring; Yearly; 4.00 Credits; N, QM) Expands the treatment of two-space using polar and parametric equations. Emphasizes multivariable calculus, including vectors in three dimensions, curves and surfaces in space, functions

of several variables, partial differentiation, multiple integration, and applications. Prerequisite: MA130.

MA-233 Integrals Series & Differential Equations (Fall only; Yearly; 2.00 Credits; N) Integration, Taylor and Fourier series, and an introduction to differential equations, with applications and the use of the software package Maple. (Course meets four times per week and concludes at midterm.) Note: A student may receive credit for MA233 or MA235, but not for both. Prerequisite: MA130.

MA-235 Calculus III (Fall only; Yearly; 4.00 Credits; N, QM) A continuation of the calculus sequence. Topics include methods of integration by Simpson's Rule, applications, Taylor and Fourier series; introduction to ordinary differential equations; integration in polar, cylindrical, and spherical coordinates; differential and integral vector calculus. Prerequisites: MA230.

MA-285 Math Research Seminar (Spring only; Variable; 1.00 Credit) This course will introduce students to the experience of mathematics research. Each student will be part of a team working on an open problem selected by the instructor. Prerequisite: MA-116 or MA-210.

MA-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of mathematics not currently in the regular course offerings. Prerequisites: Vary depending on course offering.

MA-303 Mathematical Modeling (Fall only; Yearly; 3.00 Credits; N, QM, CW) How to use mathematics to model "real-world" problems. Modeling topics range from population dynamics to economics to the nuclear arms race. Mathematical tools range from calculus to curve fitting to computer simulation. How to make a little bit of mathematics go a long way. Note: MA160 is recommended. Prerequisite: MA130 and experience with programming and Minitab.

MA-316 Combinatorics (Fall only; Even Years; 3.00 Credits; QM, N) Advanced counting: what they didn't teach you on Sesame Street. An introduction to graphs, trees, and enumeration techniques with applications to computer science and biology. Prerequisites: MA116 or MA210 or MA220 or permission of the instructor.

MA-321 Multivariate Statistics (Spring only; Variable; 3.00 Credits; N, QS) A class in multivariate statistical

techniques including non-parametric methods, multiple regression, logistic regression, multiple testing, principle analysis. Prerequisites: An introductory statistics course (MA220 or BI305 or PY214 or EB211) and linear algebra (MA 160) or Calculus 1 (MA 130).

MA-322 Probability (Spring only; Even Years; 3.00 Credits; N, QM) Topics in probability including discrete and continuous random variables, expectations, mean, variance, moment generating functions, multivariate distributions, correlation, and independence, all leading to an efficient study of the binomial, Poisson, gamma, chi-square, and normal distributions. Prerequisites: MA220 and MA230; MA235 is recommended.

MA-325 Statistical Consulting (Variable; Yearly; 3.00 Credits; N, QS, CW, SW-LE) The participating students will receive training during the semester in consulting on statistical problems and to assist in collaborative efforts with faculty and/or staff on client-partnered projects that are pre-determined. The semester-long project provides the student with both real work experience in the field of statistics and a project-based learning experience in partnership with the client. May be taken multiple times for credit. Pre-Req: FYC-101 or EN-110 or EN-109; any one course from the following list: BI-305, EB-211, ESS-230, ESS-309, MA-205, MA-220, PY-361, or SW-215.

MA-335 Differential Equations (Spring only; Yearly; 4.00 Credits; N, QM) Theory and application of ordinary differential equations. Emphasis on modern qualitative techniques, with numerical and analytical approaches used when appropriate. Contains a brief introduction to partial differential equations. Prerequisites: MA130 and MA230 and MA235 or MA233.

MA-341 Scientific Computing (Variable; Yearly; 3.00 Credits; N) This course begins with an introduction to fundamental concepts in Scientific Computing and concludes with domain-specific projects in areas like Bioinformatics, Data Science, Physical Systems, and Numerical Analysis. The common content will include command-line interfaces (Linux), programming languages (Jupyter/Python), numerical and graphical libraries (NumPy and Matplotlib), version-control (Git/Github), and relational databases (SQL). Pre-Req: CS-110.

MA-350 Topics in Geometry (Spring only; Odd Years; 3.00 Credits; N) Examines the history and development of geometry with an axiomatic development of Euclidean geometry leading to an investigation of hyperbolic and elliptical non-Euclidean geometries. The roles of these discoveries in the history of mathematics are emphasized. Prerequisites: MA210 or PL208 or MA208.

MA-355 Nature of Mathematics (Spring only; Odd Years; 1.00 Credit) An introduction to the history and philosophy of mathematics. Briefly traces the historical development of mathematics from its Oriental and Greek origins to modern times. Surveys the different philosophies of mathematics and provides some insight into the current crisis in the foundations of mathematics. Corequisite: MA350. Prerequisite: MA210 or PL208 or MA208.

MA-360 Abstract Algebra (Spring only; Even Years; 3.00 Credits) Investigates the algebraic properties of the real numbers and their generalizations. Emphasis on group theory, with introductions to integral domains, rings, fields and vector spaces. Prerequisites: MA160 and MA210.

MA-365 Number Theory (Fall only; Odd Years; 3.00 Credits; N) An investigation of topics in Elementary Number Theory including divisibility, primes, congruence, congruence equations, quadratic residues and quadratic reciprocity, arithmetic and multiplicative functions, Diophantine equations, and other topics selected according to interest. Prerequisites: MA210 or permission of the instructor.

MA-370 Real Analysis (Spring only; Odd Years; 3.00 Credits; N) Focuses on functions of a real variable, sequences, limits, continuity, differentiation and the derivation of standard theorems of the differential calculus. Prerequisites: MA210 and MA230 and MA235.

MA-375 Complex Analysis (Fall only; Even Years; 3.00 Credits; N) Algebra and geometry of the complex numbers, analytic functions, complex integration, Taylor and Laurent series, residue theory, physical applications, and other topics as time allows. Prerequisites: MA235.

MA-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) An introduction to one of the branches of mathematics not currently included in the regular course offerings, such as number theory, history of

mathematics, chaos and fractals, topology, graph theory, mathematical logic. Prerequisites: Vary depending on course offering. Note: abbreviated ST: Students may take each ST: course for credit.

MA-480 Mathematics Seminar I (Fall only; Yearly; 1.00 Credit; N) A discussion-based study of current mathematical literature and modeling problems. Students will both apply their previous mathematical knowledge and explore new topics. In addition, students may use this course as preparation for an individual research project to be completed in MA485. A junior taking this course may repeat it as a senior as MA481. Prerequisites: junior or senior standing, MA160, MA210 and MA235 or permission of the instructor.

MA-481 Mathematics Seminar II (Fall only; Yearly; 1.00 Credit; N) See MA480. Prerequisite: MA480.

MA-485 Mathematics Research (Fall and Spring; Yearly; 3.00-5.00 Credits; N) Allows students to pursue a program of directed original research in pure or applied mathematics. Required of candidates for distinction in mathematics POE. Prerequisites: MA480.

MA-490 Mathematics Internship/Needs Paperwork (Fall and Spring; Yearly; 2.00-9.00 Credits; N) Placement with an organization applying mathematical techniques such as statistical analysis, operations research, actuarial mathematics, or systems analysis. Designed to afford the student an opportunity to apply analytical and technical skills developed in the POE. Prerequisites: POE in Mathematics, permission and Jr. or Sr. Standing. Corequisite: MA495.

MA-495 Internship Research/Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on the internship experience and/or pursue research related to the placement. Corequisite: MA490. Prerequisite: permission.

MA-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See catalog.

MA-TUT Mathematics Teaching Assistant (Variable; Variable; 1.00-3.00 Credits; N)

MUSEUM STUDIES

MM-290 Czech Castle Collections I (Spring only; Variable; 1.00 Credit; IC, SW-GE) This spring semester

course provides a basic introduction to the art, music, history, and culture of the Czech Republic and Lobkowitz Collections. MM-290 provides orientation and preparation for MM-291, the two-week experiential learning trip to the Czech Republic that occurs in the summer term. NOTES: Students will earn one credit in spring semester with on-campus meetings and two credits in summer term for the trip that will occur during the summer session. The total fee for the experience is split between the two courses, with half on the spring semester billing and the other half on the summer term billing.

MM-291 Czech Castle Collections II (Summer only; Variable; 2.00 Credits; IC, SW-GE) This course is a two-week experiential learning trip to the Czech Republic that occurs in the summer term. Prereq: IC-290. NOTE: Students will earn one credit in spring semester with on-campus meetings and two credits in summer term for the trip that will occur during the summer session. The total fee for the experience is split between the two courses, with half on the spring semester billing and the other half on the summer term billing. Pre-requisite: MM-290.

MM-390 Museum Studies (Spring only; Variable; 3.00 Credits; F, S) This course will provide a broad introduction to the field of museum work. Students will be introduced to the field of museum studies by looking at the history, philosophy, role, operation and multiple functions of museums in American society. Students will examine the political, social, business, legal and ethical issues that confront museum professionals. By the end of the semester students should be able to identify and apply a range of techniques, tools and material used in museum work, and critically discuss issues related to exhibitions, education, collections management, and conservation, among other topics.

MM-392 Museum Education (Fall only; Variable; 3.00 Credits; F) This course will study the history, theory, and practice of museum education. The class combines lectures, round table discussions, and design strategies for successful museum education programs for a variety of audiences. Students implement their learned skills through a series of programs that they design and implement for pre-selected groups.

MM-394 Curatorial Studies (Fall and Spring; Variable; 3.00 Credits; F) In this seminar-style course, students will examine the history & theory of the curatorial

discipline and the role of the work of a contemporary curator. We will consider the ways in which curators work as researchers, collaborators, artists, and social activists while developing and implementing exhibitions, and we will discuss issues of ethics, collecting, documentation, communication, scholarly research, and presentation.

MM-480 Museum Practicum I (Fall and Spring; Yearly; 3.00 Credits; F) Provides a select number of students with an opportunity to organize, design, handle, and install exhibitions hosted by the Juniata College Museum of Art. Students will learn the mechanics of curatorial work, as well as exhibition preparation documentation, promotion, and shipping. In addition to the hands-on aspect of the course, students will gain theoretical knowledge about curatorial work through a variety of reading and writing assignments. The course is designed to prepare students for internships at regional and national museums and for entrance into graduate programs in Museum Studies. Prerequisites: MM-390 or AR-390 and instructor permission.

MM-481 Museum Practicum II (Fall and Spring; Yearly; 3.00 Credits; F) Builds on skills acquired in Museum Practicum I. Provides further work experience and refines the student's curatorial skills. Students may be assigned independent projects as they relate to various aspects of scheduled exhibitions and will be responsible for helping instruct and assist the Museum Practicum I students. In addition to the hands-on aspect of the course, students will build on the theoretical knowledge gained in Practicum I through a variety of reading and writing assignments. Prerequisite: MM-480 or AR-480 and instructor permission.

MM-INS Museum Studies Independent Study (Variable; Variable; 1.00-4.00 Credits) Independent study course in Museum Studies

MUSIC

MS-101 Music Fundamentals (Variable; Yearly; 3.00 Credits; F, WK-CE) The course is designed to teach students the basic tools and elements of music and its notation. Students learn to become literate in the fundamentals of music (reading and writing music notes, intervals, scales, chords, rhythms, structure) and apply that knowledge to composition (e.g. a group project composing a brief percussion ensemble piece) and basic piano proficiency. The course

includes discussions of the importance of music in society and in education. Listening skills are developed over the course of the semester. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

MS-110 Survey of Western Music (Fall only; Yearly; 3.00 Credits; F) Uses the historical development of "Western" music literature as the basis for forming a better understanding of the art of music. Listening skills are developed over the course of the semester.

MS-116 World Musics and Cultures (Spring only; Yearly; 3.00 Credits; F, I, SW-GE) World Musics and Cultures is a survey class intended to educate students about a variety of different cultures and how music functions in human society. Cultures covered will include South Asia (India and Pakistan), East Asia (China, Japan, and Korea), the Caribbean (Jamaica, Trinidad, and Cuba), and Sub-Saharan Africa, along with other possibilities.

MS-120 Architectural & Musical Forms (Either semester; Yearly; 3.00 Credits; WK-FR) This course explores concepts of form -- the use and organization of aesthetic space -- through studies of how "building and bridge architects" and "musical architects" (composers and producers) structure artforms. Artifacts include everything from Ellis Hall and Brumbaugh Academic Center to large-scale bridges and the works of Frank Gehry, and from simple A-B-A forms to advanced classical and "art rock" musical forms.

MS-130 History of American Popular Musics (Variable; Yearly; 4.00 Credits; F, WK-CE) This course explores popular musics throughout American history, from Revolutionary War era through 20th century. Units on mainstream pop/rock, jazz and its ancestors, early town bands, musical theatre, country, fragmentation of the market in the 1960's, and other topics are included. Students complete various presentations and readings on topics affecting the development of mainstream pop music. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

MS-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

MS-200 Music Literacy (Fall & Spring; Yearly; 1.00 Credit; WK-CE) Music Literacy provides student

musicians an opportunity to complete the Ways of Knowing Creative Expression requirement by learning to speak and write knowledgeably about an instrument, the music they are performing, and music's cultural context, as well as music history and theory. Develops active listening skills. To enroll in this course and to earn the Creative Expression requirement, students must have taken prior to and/or concurrently with this course, 3 credits of MU courses, taken in the same instrument.

MS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

MS-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides supplements to the regular departmental program, exploring topics and areas not regularly scheduled. Note: abbreviated ST: (title). Students may take each ST course for credit.

MS-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

MU-111A Woodwind Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for 1 credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111B Violin/Viola Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students typically supply their own instruments. Violins and violas may be available for rental. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111C Brass Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students usually provide their own instruments, although some instruments may be available for sign-out. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111D Percussion Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. No previous experience necessary. All instruments are supplied by the College, but purchase of music, sticks, or mallets may be required. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111E Piano Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Pianos are available for practice in the music building. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them. You must complete all semesters in order. (ex: MU111E, MU112E, MU211E, MU212E, etc.)

MU-111F Voice Studio (Fall and Spring; Yearly; 1.00-3.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If

you haven't heard from them by the 4th day of classes, you may email them.

MU-111G Guitar Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students supply their own instruments. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111H Flute Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students supply their own instruments. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111I Cello Studio (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students typically supply their own instruments although instruments may be available for sign-out on a limited basis. No previous experience necessary. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111K Studio Jazz Improvisation Lessons (Fall and Spring; Yearly; 1.00-2.00 Credits; F) Private improvisation instruction, primarily in jazz styles. Individualized curriculum, based on needs and abilities of each student, will include scales, chords, and real-time usage of those elements in improvising. Also, basic instruction in one or more of these areas may be added by instructor if deemed necessary and only as directly related to student's development as an improviser: biographies and styles of famed

improvisers, ear training, transcribing, and jazz styles/history. Studio music fees are not refunded after drop/add. Enrollment for one credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. Students provide their own instruments. No previous experience necessary. Private lessons carry additional fees. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111L Bass Studio (Fall and Spring; All Years; 1.00-2.00 Credits; F) Private studio lessons help improve musicians' sound quality, intellectual understanding, technique, expression and creativity. Enrollment for 1 credit provides a weekly 30 minute private lesson; two credits provide a weekly 60 minute private lesson. No previous experience necessary. Students must supply their own instrument. Private lessons carry additional fees. Studio music fees are not refunded after drop/add. Instructor will contact you. If you haven't heard from them by the 4th day of classes, you may email them.

MU-111M Composition/Song Writing (Fall and Spring; Yearly; 1.00-2.00 Credits; F, CTDH) This course is one-on-one studio instruction in the craft of composition and/or songwriting. Instruction focuses on traditional classical/concert music, but also includes other genres as needed including, pop, folk, rock, and jazz. Topics include notation, orchestration, idiomatic writing for instruments and voices, musical form, and score study. Short term assignments are given throughout the semester, culminating in a more substantial work.

MU-113 Guitar Class I (Fall and Spring; Yearly; 1.00 Credit; F) The fundamentals of guitar playing are taught in small groups one hour per week. Beginning through intermediate classes emphasize songs, movable chords, blues and standardized forms in the plectrum and finger picking styles. Students must supply their own instruments.

MU-114 Guitar Class II (Fall and Spring; Yearly; 1.00 Credit; F) (see MU113).

MU-115 Practicum: JC Percussion (Fall and Spring; Yearly; 1.00 Credit; F) Students study and perform a wide variety of ensemble music on percussion instruments, in various percussion-only pieces as well as wind band, orchestral, and/or jazz ensemble settings. Music assignments are based on student interest and ability, and are individually assigned to

further develop ensemble playing abilities and musicianship. Rehearsals and concert emphasize the communicative aspects of music, culturally correct practices and techniques in percussion, and the development of the tools that are necessary to produce a high quality ensemble experience. Individual practice outside of full rehearsals is expected. NOTE: Percussion ensemble students enroll in MU115 their first semester of membership, then MU116, then MU117, etc.

MU-131 Voice Class I (Fall and Spring; Yearly; 2.00 Credits; F) For students with no previous formal training in voice. Two fifty minute class sessions per week plus individual work with instructor as needed.

MU-132 Voice Class II (Fall and Spring; Yearly; 2.00 Credits; F) (see MU131).

MU-133 JC Concert Band (Fall and Spring; Yearly; 1.00 Credit; F) One of two wind bands at Juniata. This ensemble performs a variety of level III-IV concert band literature as well as occasional woodwinds-only and brasses-only pieces, to develop ensemble playing abilities, explore significant and newer quality wind literature, improve members' musicianship, and experience the communicative aspects of music.

MU-141 Orchestra (Fall and Spring; Yearly; 1.00 Credit; F) Orchestra performs a wide variety of music for both string ensembles and full orchestra chosen to develop musicianship and ensemble. Rehearsals and concerts emphasize the development of musical skills necessary to create a high quality performance experience for both players and audience. Requirements include attendance at a weekly sectional rehearsal and the full ensemble rehearsal in addition to individual preparation. Field trips to hear excellent performances by professional string artists may be offered. Note: Students enroll in MU141 their first semester, MU142 their second, etc.

MU-153 Guitar Class III (Fall and Spring; Yearly; 1.00 Credit; F) (see MU113).

MU-154 Guitar Class IV (Fall and Spring; Yearly; 1.00 Credit; F) (see MU113).

MU-163 Jazz Ensemble (Fall and Spring; Yearly; 1.00 Credit; F) Performs a wide variety of Jazz ensemble music chosen to develop ensemble playing abilities and musicianship. Rehearsal and concert emphasize the communicative aspects of music and the

development of the tools that are necessary to produce a high quality ensemble experience. Practice outside of full rehearsals is required. NOTE: Jazz ensemble students enroll in MU163 their first semester of membership, then MU164, then MU165, etc. Winds must also be enrolled in MU 133-140 or MU 191-198.

MU-171 Choral Union (Fall and Spring; Yearly; 1.00 Credit; F) Performs larger choral works to develop vocal ability, sight reading, diction skills, and musicianship. One major on-campus performance per semester.

MU-181 Juniata Concert Choir (Fall and Spring; Yearly; 1.00 Credit; F) Performs a variety of choral music chosen to develop vocal ability, sight-reading, multi-lingual diction skills, and musicianship. Performances and projects include on-campus programs, spring tour(s), recording, and weekend tour. Members selected through audition.

MU-189 Instructional Lesson (Ensemble Members) (Fall and Spring; Yearly; 1.00 Credit) MU-189 enables students in one of our three major instrumental ensembles to also enroll in lessons with the appropriate studio instructor. 30-minute private lesson every other week or two students per lesson weekly. Corequisite: Enrollment in Wind Symphony, Percussion Ensemble, or Orchestra. Lessons are not a requirement for membership in an ensemble, but you must be in an ensemble to register for MU-189. If the ensemble course is dropped, this course must be dropped, too.

MU-191 J.C. Wind Symphony (Fall and Spring; Yearly; 1.00 Credit; F) Our wind symphony is the premier instrumental ensemble for winds at Juniata. The ensemble performs a variety of wind band literature chosen to develop ensemble-playing abilities and musicianship, as well as occasional chamber pieces for sections or heterogeneous groups. Rehearsals and concerts emphasize the communicative aspects of music and the development of the tools that are necessary to produce a high-quality ensemble experience. NOTE: Wind symphony members enroll in MU191 their first semester of membership, then MU192, MU193 etc.

MU-199 MU Special Topics (Variable; Variable; 1.00 Credit) Allows departments to offer topics not normally taught. Prerequisites, corequisites, and fees vary by title.

MU-210 Musical Improvisation (Variable; Variable; 1.00 Credit; F) This course will present the basics of musical improvisation technique. Basic jazz music theory (scales, chords) and brief historical coverage of famed improvisers (Ella, Bird, Trane, Miles, et al.) will also be included. Extensive in-class student demonstrations of improvisation skills will be expected. Practice/goal oriented jam session time outside of class is expected, 5 hours per week is recommended.

MU-241 A Cappella Ensembles (Variable; Yearly; 2.00 Credits; F) Students hone their musicianship through a variety of a cappella ensemble works specifically designed to build one-on-a-part skills. Multiple ensemble combination opportunities are created within the class. Emphasis is placed on individual preparation. Prerequisites: MU171 or MU181 or MU281.

MU-299 MU Special Topics (Variable; Variable; 1.00 Credit) Allows departments to offer topics not normally taught. Prerequisites, corequisites, and fees vary by title.

MU-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See catalog.

NON-DEPARTMENTAL

ND-001 Non-Credit Non-Departmental Internship (Spring only; Yearly; 0.00 Credits) Provides students an overview of an organization.

ND-102 Introduction to Library Research (Fall & Spring; Yearly; 1.00 Credit; H) This one hour, one semester course is designed to teach students the fundamentals of library research, from the basic organization of materials through the analytical process of determining useful and appropriate research materials. This course will be taught every semester by the library staff, and there is no pre-requisite.

ND-110 Career Planning (Variable; Variable; 1.00 Credit; S) Examines theories of occupational choice and career development and provides the learner with the opportunity to become more aware of their interests, values, and capacities as they relate to the career decision-making process.

ND-198 Solving the Covid-19 Crisis (Variable; Variable; 1.00 Credit) Learn how Juniata students and faculty

are using the COVID-19 crisis to make a difference in the world, and explore ways that you can make a difference, too. This one-credit course describes how different disciplinary lenses help us understand and address the challenges presented by the coronavirus pandemic. NOTE: Registration in this course is restricted to only incoming new students.

ND-199 ND Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows departments to offer courses not normally taught. Prerequisites and fees vary by course titles.

ND-203C Cultural Learning Tour (Spring only; Yearly; 1.00 Credit) Students enrolled in this course will participate in a service-learning trip to explore social, cultural, political and/or environmental issues through various service and educational experiences. Involvement in trip activities will help students develop a foundation of knowledge about the importance of civic and community engagement. Biweekly meetings in spring semester will facilitate development of learning objectives and provide background information related to the region in which the group will serve. The service experience will be complemented by discussion and reflection before, during, and after the trip. Applications are accepted in fall. Associated fees vary by trip. Note: This course requires 25 hours of out of class time per semester.

ND-206 Remote Field Course Seminar (Spring only; Yearly; 2.00 Credits; IC, CW, SW-US) Join us in learning about the U.S. Southwest (New Mexico, Arizona, Utah, and Colorado) and plan on visiting the sites discussed in class and examining the impact on the indigenous people. The course uses an interdisciplinary approach, pulling from the expertise of physics, biology, psychology, and education. The RFC seminar course (ND-206) is scheduled during the spring semester and is paired with ND-207 during the summer term, during which students and instructors travel to the various locations studied during the seminar. Students must take both courses to fulfill the IC or the U.S. Experience general education requirement. The total fee for the experience is split between the two courses, with half on the spring semester billing and the other half on the summer term billing. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

ND-207 Remote Field Course (Summer only; Yearly; 2.00 Credits; IC, CW, SW-US) This course builds on the introduction to the Southwest the students began in

ND-206, by taking them to the field to explore the biology, geology, anthropology, and history of the Southwest desert region from a variety of perspectives. Students explore how humans have historically interacted in this arid environment and how modern culture has placed environmental burdens on the region's resources. This course is a field trip to Arizona, Colorado, New Mexico, and Utah. Half of the total fee is charged with ND-206 in the spring and the other half with ND-207 in the summer. Students must take both courses to fulfill the IC or the U.S. Experience general education requirement. Prerequisite: ND-206 or IC-206.

ND-271 3D Design, Scanning & Printing (Fall & Spring; Yearly; 4.00 Credits; CTDH, WK-CE) The course introduces non-specialist students to the current techniques of 3D design, scanning, and printing. It harnesses technology to creative art opportunities and artistic appreciation to technological processes. No pre-existing skill sets are assumed so the course is suitable to beginners and novices. Pre-requisite: FYC-101

ND-291 Frontiers in STEM (Either semester; Yearly; 1.00 Credit) This course provides students studying in a STEM field with the tools needed to gain experiences as a developing scientist. The course will provide guidance and support for preparing applications and seeking research opportunities in preparation for employment or graduate study. This course is most appropriate for second-year students, but first- and third-year students will benefit as well.

ND-292 Fulbright Special Topics Course (Variable; Variable; 1.00-3.00 Credits; I, SW-GE) This course will focus on a people and culture outside of the U.S. or on a global challenge. The course will often relate to Mexico or to U.S.-Mexico relations. The specific topic of this course will be determined based on the interests of the Mexico Studies Chair and the needs of the College.

ND-298 Transitions (Spring only; Yearly; 1.00 Credit) Faculty, staff, alumni, and guests will provide expertise and advice designed to help students understand and prepare for successful transitions. The process of transition (loss of what is familiar and known) will be discussed utilizing models of behavior within social systems and personal experiences. Case studies will examine: changing career goals; adjusting to cultural differences; the transition from life as an undergraduate to life as a graduate student; work life

unreadiness; lifestyle adjustments such as financial independence, rural to urban, and changing relationships.

ND-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer courses not normally taught. Prerequisites vary by title.

ND-308 Science Outreach Leadership (Variable; Variable; 1.00-3.00 Credits) Offers the opportunity for active participation in the planning, design, and implementation of the PA Junior Science & Humanities Symposium and the PA Special Olympics events that are hosted at Juniata College.

ND-311 Digital Ethics (Variable; Yearly; 4.00 Credits; SW-ER, CTDH) The digital revolution has forced upon humanity a new set of ethical challenges. Many of these challenges continue to confound us. In a seminar setting, students investigate the most pressing questions of digital life and formulate their own views and moral stances. Pre- or co-req: FYC-101 or EN-110 or EN-109.

ND-399 Special Topics (Variable; Variable; 2.00-9.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

ND-490 ND Intern/Needs Paperwork (Spring only; Yearly; 2.00-9.00 Credits) See the chapter, "Special Programs" under "Internships" in the catalog. Corequisite: ND495. Prerequisite: Permission and Jr. or Sr. Standing.

ND-495 Internship Seminar (Variable; Variable; 2.00-6.00 Credits) Required of all students doing an internship. Emphasis is on readings and discussions of materials relevant to the internship experience. Corequisite: ND490.

ND-498 Natural Sciences Capstone (Either semester; Yearly; 1.00 Credit) The natural sciences capstone course is appropriate for any student in the natural sciences needing to fulfill the capstone requirement of the Juniata Curriculum. The course may be taken by any student with a natural sciences POE in their last 30 credits at Juniata. Offered asynchronously online, the course will be graded satisfactory/unsatisfactory. Guided by a series of tutorial videos, students are required to submit an up-to-date resume and two portfolio contributions.

Through these assignments, students will reflect on how their Juniata experience has shaped their intellectual and personal growth.

ND-499 ND Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows department to offer topics not normally taught.

ND-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See Catalog.

ND-TUT ND Teaching Assistant (Variable; Variable; 1.00-3.00 Credits) See catalog.

NEUROSCIENCE

NEU-001 Non-Credit Neuroscience Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization including its structure, strategies and principal lines of activity as well as providing an opportunity for practical application of the skills developed in students' areas of concentration. Note: see the chapter "Academic Programs" under Internships: listed as Internship (title) must be at least 9 weeks long. Prerequisites: The EB Core or Foundation Courses, sophomore standing and permission.

NEU-120 Fundamentals Undergraduate Neuroscience (Variable; Yearly; 1.00 Credit) This course explores the many subfields of neuroscience, such as behavioral neuroscience, cognitive neuroscience, neurophysiology, and molecular neuroscience. Students work with faculty partners to lead a discussion on a paper one week, followed by a research seminar given by the paper's author the second week. The course culminates in capstone projects by senior Neuroscience POEs.

NEU-494 Neuroscience Senior Capstone (Variable; Yearly; 2.00 Credits) This course serves as a reflection and utilization of a student's learning and skills gained throughout their tenure at Juniata College. Students will practice effectively communicating neuroscientific knowledge in a variety of formats intended for various audiences. Activities will be tailored to the student's interests and future career goals. This course also includes mentorship of Neuroscience students in NEU-120. NOTE: Must be taken in the final 30 credits of a student's undergraduate program.

PEACE AND CONFLICT STUDIES

PACS-001 Non-Credit Peace and Conflict Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter under "Special Programs" under Internships. Internship must be at least 6 weeks long. Prerequisite: permission.

PACS-105 Introduction to Conflict Resolution (Variable; Yearly; 3.00 Credits; S, WK-SI) A survey of the field of conflict, this course explores the causes and consequences of social conflict. Theory and case studies are used to understand interpersonal disputes, the intricacies of groups in conflict and international issues and crisis. Emphasis is given to understanding the basic theoretical concepts of the field and developing basic conflict resolving skills. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

PACS-108 Mediation (Either semester; Yearly; 3.00 Credits; S, SW-ER) This course is an introduction to the theory and skills that constitute the practice of interest-based mediation. Students will learn the fundamentals of mediation, become familiar with their own conflict resolution styles, and consider some cultural and ethical issues relevant to the practice of mediation. Weekly readings will provide a theoretical framework, but this course's emphasis will be on skill development. Through small-group role-play and simulation, students will work toward proficiency in the mediation process and provide constructive peer evaluations in a collaborative, spirited atmosphere. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

PACS-110 Introduction to Peace & Conflict Studies (Either semester; Yearly; 3.00 Credits; I, SW-GE) This course explores war and deep-rooted conflict as human problems and peace as a human potential. Students collaborate in small groups to explore a range of different approaches to peace around the world. Prerequisite or corequisite: FYC or CWS

PACS-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer topics not normally taught. Prerequisites vary by title.

PACS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) An examination of an area of study not

regularly included in departmental offerings. Prerequisites vary with topics.

PACS-305 Gender and Conflict (Variable; Yearly; 3.00 Credits; S, I, CW, SW-ER) This course looks at the intersection of gender and conflict to understand what it means to say that a conflict is gendered. It uses gender as an organizing concept to study issues of gender equality, justice, and peace, challenging and interrogating dichotomous, oppositional constructions of masculinity and femininity to understand how they contribute to direct, structural, and cultural violence. Pre- or Co-requisite: FYC-101 or EN-110 or EN-109.

PACS-308 Nonviolence and Social Justice (Either semester; Variable; 3.00 Credits; S, H, CW, SW-US) A study of the theory and practice of non-violence, this course explores both the theoretical development of nonviolence and the use of nonviolence as a means for waging and resolving conflict. The course explores nonviolence theory as it applies to issues of social change, alternative defense, and personal transformation, using writings from political, sociological, feminist, religious and philosophical perspectives. Prerequisite: FYC-101 or EN-110 or EN-109. (Formerly titled Nonviolence: Theory and Practice)

PACS-310 Digital Peacebuilding (Variable; Yearly; 3.00 Credits) This course will examine how tech entrepreneurs, programmers, peacebuilders, NGOs, and civil society groups leverage smartphones, Information Communication Technologies (ICTs), crowd-mapping platforms, SMS-based mass texting tools, and Geographic Information Systems (GIS) for coordinating natural disaster and humanitarian crisis responses, countering election violence, and raising public awareness against corruption and gender-based violence across the world.

PACS-391 Scholar in Residence Special Topic (Variable; Variable; 3.00 Credits; WK-SI) This course will be offered by the PACS Scholar-in-Residence and section topics will vary depending upon the expertise of the visiting scholar. Topics will help students explore theories and frameworks for understanding negotiation within the field of peace and conflict studies as well as links to related fields such as psychology, communications, anthropology, international relations, and political science. Students will then apply their skills by conducting negotiations through simulation, role play, and practical exercises.

PACS-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PACS-455 PACS Honors Thesis I (Fall only; Yearly; 3.00-6.00 Credits; H) Designed to serve as a course for students who emphasize PACS in their POE. The student will produce a major research paper that examines in depth a topic, theme, issue, or problem that has served as an area of special interest for the student throughout the previous two years of study. Prerequisite: Senior standing, PACS105 and PACS110 and a minimum of 4 200+ level PACS courses.

PACS-455B PACS Honors Thesis II (Spring only; Yearly; 3.00-6.00 Credits; S) Designed to serve as a capstone for students who emphasize PACS in their POE. The student will be expected to produce a major research paper that examines in depth a topic, theme, issue, or problem that has served as an area of special interest for the student throughout the previous two years of study. Prerequisite is Senior standing. PACS105 and PACS110 and a minimum of 4 200+ level PACS courses.

PACS-490 Peace & Conflict Studies Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; I) An opportunity which requires students to relate theory and practice to a working environment and to reflect upon that experience. Corequisite: PACS 495. Prerequisite: Permission and Jr. or Sr. Standing.

PACS-495 PACS Intern.Res.Sem. (Fall and Spring; Yearly; 2.00-6.00 Credits; I) Requires students to reflect on the internship experience and/or pursue research related to the placement. Prerequisite: PACS110 and permission. Corequisite: PACS490.

PACS-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PACS-INS Independent Study (Variable; Variable; 1.00-4.00 Credits)

PACS-TUT PACS Teaching Assistant (Variable; Variable; 1.00-4.00 Credits; S) See catalog

PHYSICS

PC-001 Non-Credit Physics Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter " Special Programs " under Internships; listed as Internship (Title); must be 6 weeks long. Prerequisite: Permission.

PC-170 Physics Engagement (Either semester; Variable; 1.00 Credit; SW-LE) The ability to effectively distill explanations of complex scientific concepts to the level on an audience is an invaluable, and oft overlooked, skill for scientists. In this course students will learn how to better communicate and convey scientific ideas to the general public through local engagements via science outreach opportunities with local schools and community partners. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

PC-189 Physics Seminar I (Fall only; Yearly; 1.00 Credit) Seminar series, required of all freshmen Physics/Physics-Engineering POEs, consisting of research seminars given by invited speakers and members of the department, both faculty and students. Discussions regarding specific career opportunities and preparation for graduate studies will also be an integral part of the seminar series.

PC-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Entry level treatment of a variety of academic/practical experiences in physics such as Microcontroller Electronics and Physics Phun Night Practicum. Note: Students may take each ST: course for credit.

PC-200 General Physics I (Fall only; Yearly; 3.00 Credits; N, QM) An algebra-based introduction to the basic principles of mechanics (including periodic motion, fluid static's and dynamics), heat and thermodynamics, molecular theory and wave motion (including acoustics). Note: a working knowledge of algebra and trigonometry is required. Corequisite: PC200L.

PC-200L General Physics Lab I (Fall only; Yearly; 1.00 Credit; N) An introductory algebra-based laboratory experience designed to accompany PC200. The individual experiments will involve topics in mechanics, energy, sound, and waves. Labs Involve

computer acquisition of data for some experiments. Note: A special fee is assessed. Corequisites: PC200.

PC-201 General Physics II (Spring only; Yearly; 3.00 Credits; N, QM) An algebra-based introduction to basic principles of electricity, magnetism, electromagnetic waves, and optics. Additional topics may include atoms and molecules, nuclear physics, relativity and solid state physics. Note: A working knowledge of algebra and trigonometry is required. Corequisite: PC-201L. Prerequisite: PC-200.

PC-201L General Physics Lab II (Spring only; Yearly; 1.00 Credit; N) An algebra-based introductory laboratory experience designed to accompany PC201. The individual experiments will involve topics in circuits, light and optics, and nuclear physics. Involves computer acquisition of data for some experiments. Note: A special fee is assessed. Corequisite: PC201.

PC-202 Intro Physics I (Fall only; Yearly; 3.00 Credits; N, QM, WK-FR) A calculus-based introduction to the basic principles of mechanics (including periodic motion and dynamics), heat and thermodynamics, and special relativity. Corequisite: PC-202L. Corequisite or Prerequisite: MA-130.

PC-202L Intro Physics Lab I (Fall and Spring; Yearly; 1.00 Credit; N) This lab is a calculus-based introductory laboratory experience that is designed to accompany PC202. Individual experiments will correlate with the course, including kinematics, Newton's Laws, energy, and momentum. Note: A special fee is assessed. Corequisite: PC202.

PC-203 Intro Physics II (Spring only; Yearly; 3.00 Credits; N, QM) A calculus-based introduction to basic principles of electricity, magnetism, electromagnetic waves and optics. Additional topics may include atoms and molecules, nuclear physics, relativity and solid state physics. Corequisite: PC-203L. Prerequisite: PC-202 or PC-204.

PC-203L Intro Physics Lab II (Spring only; Yearly; 1.00 Credit; N) An algebra-based introductory laboratory experience designed to accompany PC203. The individual experiments will involve topics in circuits, light and optics, and nuclear physics. Prerequisite: PC-202 or PC-204. Corequisite: PC-203.

PC-204 University Physics (Variable; Yearly; 4.00 Credits; N, QM, WK-FR) A calculus-based introduction to the basic principles of mechanics (including

periodic motion, statics, and dynamics), heat and thermodynamics, and special relativity. This course includes an integrated introductory laboratory experience. This course is designed to be taken by students interested in a POE in Physics or Engineering Physics. Note: a special fee is assessed. Pre- or Co-Reqs: MA-130; FYC-101 or EN-110 or EN-109.

PC-209 Electronics (Spring only; Variable; 3.00 Credits; N) An introduction to the theory and application of analog and digital electronics, starting with basic AC and DC circuits. The unit explains the principles of operation of the power supply, amplifier, oscillator, logic circuits, micro controllers, and other basic circuits. An associated laboratory component allows construction of and measurements on the circuits under consideration. Note: a special fee is assessed.

PC-211 Environmental Physics (Spring only; Yearly; 3.00 Credits; N, QM) A standalone course in physics focusing on natural processes and environmental technologies using physical concepts from mechanics, energy, thermodynamics, electromagnetic radiation, atomic spectra, fluid flow, atmospheric processes, sound waves and radioactivity. Designed for environmental science and geology students, those taking this course cannot take other algebra-based (PC200/201) or calculus-based (PC202/203) introductory physics courses. A working knowledge of algebra and trigonometry is required. Corequisite: PC211L.

PC-211L Environmental Physics Lab (Spring only; Yearly; 1.00 Credit; N) An introductory laboratory experience designed to accompany PC211. Individual experiment will focus on natural processes and environmental technologies using physical concepts from mechanics, energy, thermodynamics, electromagnetic radiation, atomic spectra, fluid flow, atmospheric processes, sound waves and radioactivity. Note: A special fee is assessed. Corequisites: PC211.

PC-239 Nuclear Threat (Variable; Yearly; 4.00 Credits; CA, N, H, CW, WK-SP) This course examines the development and ramifications of nuclear weapons. Students will learn the basic physics upon which these devices operate, and explore moral issues that arose in the interactions of communities impacted by their construction, use, and testing, including the perspectives of scientists, government officials, and

affected citizenry. Current issues and concerns regarding nuclear weapons will be studied as well.

PC-289 Physics Seminar II (Fall only; Yearly; 1.00 Credit) Seminar series, required of all sophomore Physics/Physics-Engineering POEs, consisting of research seminars given by invited speakers and members of the department, both faculty and students. Discussions regarding specific career opportunities and preparation for graduate studies will also be an integral part of the seminar series. Prerequisites: PC189.

PC-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Entry level treatment of a variety of academic/practical experiences in physics such as Musical Acoustics and Physics Phun Night Practicum. Note: Students may take each ST: course for credit.

PC-300 Intermediate Physics Lab (Fall only; Yearly; 3.00 Credits; N, CW) The origin and progress of physics in the 20th century, including relativity and quantum theory with applications in atomic and molecular physics, nuclear physics, elementary particles and possibly some solid state physics. Prerequisites: MA-230 and PC-203. Corequisite: PC-301. (Previously titled Modern Physics Lab)

PC-301 Modern Physics (Fall only; Yearly; 3.00 Credits; N) The origins and progress of Physics in the 20th century, including relativity and quantum theory with applications in atomic and molecular physics, nuclear physics, elementary particles and possibly some solid state physics. Prerequisites: MA-230 or PC-203. Corequisite: MA-235. (Previously titled as Theoretical Modern Physics)

PC-307 Advanced Physics Lab (Spring only; Yearly; 3.00 Credits; N, QS, CW) Provides laboratory projects at the intermediate level. A series of projects is offered which best meet the educational needs of the student. Prerequisite: PC300. Special fee assessed.

PC-320 Engineering Mechanics I: Statics (Fall only; Variable; 3.00 Credits; N) A problem-solving approach to applied mechanics involving equilibrium of coplanar and non-coplanar force systems, analysis of frames and trusses, friction, centroids and moments of inertia. Prerequisite: PC202 or PC204.

PC-321 Engineering Mechanics II: Dynamics (Spring only; Variable; 3.00 Credits; N) A problem-solving

approach to applied mechanics involving the kinematics and kinetics of particles and rigid bodies. Techniques involving Newton's laws, work-energy and impulse momentum are presented and used extensively. Prerequisite: PC320.

PC-340 Mathematical Methods in Physics (Variable; Yearly; 3.00 Credits; N) An introduction to the mathematics used in advanced physical science courses. The emphasis is on early exposure to mathematical techniques and their applications rather than on rigorous derivation. Topics include series analysis, complex variables, theory, matrix mechanics, ordinary and partial differential equations, vector and tensor analysis, and Fourier series. Prerequisites: PC203 and MA230.

PC-350 Thermodynamics (Spring only; Yearly; 3.00 Credits; N) An intermediate level course treating the concept of temperature and its measurement, the concepts of heat and work, the laws of thermodynamics, applications of these concepts to physical systems, the elements of statistical mechanics and as many topics of current concern as time allows. Prerequisites: MA235 and PC301.

PC-389 Physics Seminar III (Fall only; Yearly; 1.00 Credit) Seminar series, required of all junior Physics/Physics-Engineering POEs, consisting of research seminars given by invited speakers and members of the department, both faculty and students. Discussions regarding specific career opportunities and preparation for graduate studies will also be an integral part of the seminar series. Prerequisite: PC289.

PC-395 Integrated Physics (Spring only; Yearly; 1.00 Credit) This course is a problem-oriented integrative review of physics using a calculus-based introductory physics text and selected advanced texts used in follow-on courses. The course consists of student self-study, weekly questions and exams, and assigned material to study. Students prepare short write-ups of answers to questions and make class presentations of these questions and topics. Junior or senior class level is required.

PC-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Intermediate to advanced level treatment of a variety of areas within physics such as solid state physics, astrophysics, general relativity, and medical physics. Note: Students may take each ST: course for credit.

PC-402 Quantum Mechanics (Fall only; Odd Years; 4.00 Credits; N) This course continues the discussion of the Schrodinger Equation, the particle-in-a-box, the harmonic oscillator, angular momentum, the hydrogen atom, and electron spin started in PC300 and/or CH305, but at a level that is mathematically much more detailed and proceeds from the postulates of quantum mechanics in a logical manner. With this beginning, the course then focuses on more complex problems such as the behavior of multi-electron atoms and molecules. Issues of the meaning of measurement such as embodied in the EPR paradox, the Bell Inequality, and the interpretation of associated experiments are also discussed. The course is heavily problem oriented requiring a strong mathematical background. Additional mathematics background such as PC340 and/or MA335 is suggested in addition to the formal prerequisites of MA235 and PC300 or CH305.

PC-410 Mechanics (Fall only; Odd Years; 4.00 Credits; N) A study of classical mechanics including Newtonian, Lagrangian and Hamiltonian approaches. Emphasis is placed on developing the student's ability to analyze physical problems involving particles, systems of particles and rigid bodies. Insight is provided into a variety of techniques for solving such problems. Prerequisites: PC-203 and MA-335.

PC-430 Optics (Spring only; Variable; 3.00 Credits; N) The wave theory of light as applied to interference, diffraction, polarization, and image formation. Major emphasis on Fourier techniques. Study of geometrical optics, quantum optics, and radiometry as time permits. Prerequisites: PC300 or PC301.

PC-450 Physics Research I (Fall and Spring; Yearly; 1.00-4.00 Credits; N) An opportunity for the student to do an independent research project under the guidance of a faculty member. Note: listed as Research: (title); may be taken multiple times for credit. Prerequisite: permission.

PC-451 Physics Research II (Fall and Spring; Yearly; 1.00-4.00 Credits; N) An opportunity for students to do a more advanced independent research project under the guidance of a faculty member. Prerequisite: by permission.

PC-489 Physics Seminar IV (Fall only; Yearly; 1.00 Credit) Seminar series, required of all senior Physics/Physics-Engineering POEs, consisting of research seminars given by invited speakers and

members of the department, both faculty and students. Discussions regarding specific career opportunities and preparation for graduate studies will also be an integral part of the seminar series. Prerequisite: PC389, and restricted to Seniors with POE of Physics or Engineering Physics.

PC-490 Physics Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; N) See chapter, "Special Programs " under internships. Note: may be repeated up to a total of 9 hours of credit. Corequisite: PC495. Prerequisite: permission and Junior or Senior standing.

PC-491 Electricity & Magnetism (Fall only; Even Years; 4.00 Credits; N) A study of electromagnetic phenomena, including electrostatics, electric fields in matter, magnetostatics, magnetic fields in matter, introductory electrodynamics including Maxwell's equations, and electromagnetic waves, potentials, and fields. Corequisite: PC340. Prerequisite: PC203.

PC-495 Internship Seminar/Research (Fall and Spring; Yearly; 2.00-6.00 Credits; N) Requires students to reflect on the internship experience and/or pursue research related to the placement. Corequisite: PC490. Prerequisite: permission.

PC-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer titles not normally offered. Prerequisites vary by course.

PC-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

PC-TUT PC Teaching Assistant (Variable; Variable; 1.00-6.00 Credits) See Catalog.

PHILOSOPHY

PL-101 Introduction to Philosophy (Variable; Yearly; 4.00 Credits; H, WK-HT) This course provides students with the background and conceptual tools that are required for more advanced study in the subject. At the discretion of the instructor, the course will either examine fundamental philosophical problems or provide a survey of important thinkers. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

PL-103 Life, Death, and Meaning (Variable; Variable; 3.00 Credits; H, WK-HT) The course will explore the meaning of life and death. Our primary concern will be with death, one's own inevitable personal death as it figures in human life and in contributing, or perhaps even detracting from, the meaningfulness of such a

life. It will give you a deeper philosophical understanding of the meaning of death, and consequently the meaning of life, which will ultimately bring you into true being and authentic existence.

PL-105 Introduction to Logic (Variable; Yearly; 4.00 Credits; H, WK-FR) An analysis of practical reasoning skills, including a systematic approach to informal arguments and the meaning of everyday claims. Aristotelian logic, Venn Diagrams, propositional logic and symbolic logic are included.

PL-106 Introduction to Ethics (Either semester; Yearly; 4.00 Credits; H, SW-ER) Examines the historically valid ethical approaches to problems, i.e., pragmatic, relativistic and absolute and the application of such methods to contemporary ethical dilemmas, e.g., abortion, terrorism, euthanasia, and capital punishment.

PL-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PL-205 Ancient Philosophy (Variable; Yearly; 4.00 Credits; H, CW, WK-HT) This course is a historical survey of ancient Greek philosophy which will cover representative figures (including the major pre-Socratics, Plato, Aristotle and important authors/movements from the Hellenistic period, such as Epicurus, Stoicism and Skepticism). Prerequisite or corequisite: FYC-101 or EN-110 or EN-109.

PL-208 Symbolic Logic (Variable; Yearly; 4.00 Credits; N, H, WK-FR) An introduction to the basics of first-order logic: the concept of artificial language, techniques for symbolizing ordinary languages and arguments, formal inference systems (either truth-free method or natural deduction), and other advanced topics in first-order logic. It has no prerequisites beyond high school algebra.

PL-230 Business Ethics (Variable; Yearly; 3.00 Credits; H, SW-ER) Asks the student to examine his/her personal values relative to those professional values of the business world. In particular, students will examine the claims of society, government, labor, management as they impact upon the individual who contemplates a career in the business world. Issues such as safety in the workplace, the right to privacy, and the obligations of the corporation to its

employees, its customers, and to society itself will be covered. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

PL-235 Ethics of Health Care (Variable; Yearly; 4.00 Credits; H, SW-ER) This course is a seminar-style course in 'professional ethics'. It will explore the various codes, value assumptions, and dilemmas faced by those who practice the health care professions. Specific topics (or dilemmas) will be determined by each class, based upon the specific POEs of the enrolled students. Pre-req or co-req: FYC-101 or EN-110 or EN-109

PL-250 Science and Human Values (Variable; Yearly; 4.00 Credits; H, WK-HT, CTGES) This course examines the reciprocal influence between science and social values, from the perspective of the humanities. It asks, "What good is science?" Through selected readings and discussion, students consider how everyday life is shaped by scientific innovation and technology, just as society provides a framework of cultural values for science. Prereq or coreq: FYC-101 or EN-110 or EN-109

PL-260 Philosophy of Science (Variable; Variable; 4.00 Credits; H, WK-HT, CTGES) Lays out some central philosophical problems raised by natural sciences. The possible topics to be discussed: Is science rational and objective? Does science really make progress? If so, in what sense? How to distinguish science from pseudoscience. Is science superior knowledge to other types? What is a good scientific explanation? Could we ever know about unobservable physical entities and events? Is it ever legitimate to regard a scientific theory as true? Prereq or coreq: FYC-101 or EN-110 or EN-109

PL-265 Environmental Ethics (Variable; Yearly; 4.00 Credits; H, SW-ER) As the life-support system for everyone, the environment is unquestionably of high value. Yet decisions about its care and its uses evoke controversy. This course explores contrasting viewpoints and practices that impact the earth and its plant and animal life. Through readings, projects, and critical discussion of cases, students apply ethical theories to selected contemporary issues. Prereq or coreq: FYC-101 or EN-110 or EN-109

PL-270 Ethical Theory (Variable; Yearly; 4.00 Credits; H, SW-ER) This course will provide students with an introduction to important debates in contemporary ethical theory (including debates about the epistemic

status of moral claims and moral relativism). It will also introduce students to important normative frameworks within contemporary ethics (such as virtue ethics, utilitarianism, deontology, Confucian ethics, feminist ethics, etc.). Prerequisite: FYC-101 or EN-110 or EN-109

PL-275 Modern Philosophy (Variable; Yearly; 4.00 Credits; H, CA, CW, WK-HT) Selections from the founders of the twin pillars of modernity, i.e., Modern Philosophy (F. Bacon, Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant) and Modern Science (Copernicus, Spinoza, Galileo, Pascal, Newton, and Boyle) are studied with an emphasis on the philosophical origins of modern psychology and the epistemic foundations of contemporary scientific methodology. Prereq or coreq: FYC-101 or EN-110 or EN-109

PL-299 Special Topics (Either semester; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PL-304 Existentialism (Variable; Yearly; 4.00 Credits; H, CW, WK-HT) This course provides students with an introduction to the major philosophers and themes associated with existentialist thought. Through a critical engagement with authors such as Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus (among others), we will explore questions concerning human freedom, alienation, authenticity, and mortality. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

PL-308 End of History, Death of God (Either semester; Yearly; 4.00 Credits; H, CW, WK-HT) Formerly titled "Hegel to Nietzsche." This course provides an introduction to important philosophical discussions in nineteenth-century philosophy and political thought centered around the Hegelian/Marxist themes of history's end and Nietzsche's attempt to grapple with the implications of what he called "the death of God." Prerequisite or corequisite: FYC-101 or EN-110 or EN-109.

PL-310 Contemporary Political Philosophy (Either semester; Variable; 4.00 Credits; S, H, CW) This course will focus on important political orientations and figures in the twentieth/early twenty-first century. Instructors may also focus on specific topics which have driven recent debates in contemporary political

philosophy, including distributive justice, the normative foundations of liberalism/democracy or the tension between state sovereignty and international law (among others). Prerequisites: Take 1 course from the PL department or permission of the instructor.

PL-318 Knowledge, Truth and Skepticism (Either semester; Variable; 4.00 Credits; H) The course is a study of the nature of human knowledge and justification of beliefs with special attention to three conceptually related topics: the nature and value of knowledge and the nature and structure of epistemic justification, the nature of truth, and the challenges from skepticism and influential responses to it. Prerequisites: Take any 1 Philosophy course, or by instructor consent.

PL-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PL-450 Senior Thesis (Variable; Variable; 3.00 Credits; H) Students will engage in independent research and write a substantial final paper which evidences sustained engagement with the secondary literature on a topic selected in consultation with faculty members. This course is designed as a capstone experience. Prerequisite: Senior standing.

PL-490 Internship/Need Paperwork (Irregular/On Demand; Irregular/On Demand; 2.00-9.00 Credits) See catalog.

PL-495 Internship Seminar (Irregular/On Demand; Irregular/On Demand; 2.00-6.00 Credits) See catalog

PL-INS Independent Study (Variable; Irregular/On Demand; 1.00-4.00 Credits)

POLITICS

PS-001 Non-Credit Political Science Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: See the chapter "Special Programs" under Internships listed as Internship: (Title); must be 6 weeks long. Prerequisite: permission.

PS-101 Introduction to U.S. Government (Variable; Yearly; 4.00 Credits; S, WK-SI) An introduction to the

theory and practice of U.S. government. The course surveys the underlying structure of American politics, its economic, cultural and legal foundations and the daily practice of politics, e.g. groups, parties, and the mass media. Requisite: FYC-101, EN-110, or EN-109 must be taken prior to or concurrently with this course.

PS-102 Introduction to International Politics (Variable; Yearly; 4.00 Credits; S, I, SW-GE) In this course we examine some of the dominant theoretical frameworks in international relations. We examine the most powerful international organizations. We assess these from the perspective of non-Western cultural frameworks. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

PS-110 Exploring the Law (Variable; Yearly; 1.00 Credit) An introduction to the legal profession, exploring the process of applying to law school, the variety of jobs in law, and how an undergraduate program can best prepare students for success.

PS-125 Citizenship (Variable; Variable; 4.00 Credits; SW-ER) What do citizens owe to fellow citizens at the local, national, and global levels? This course contemplates this question by examining the role of citizens in civil society. It examines citizens' social responsibility to others. It fosters each citizen's sense of empathy toward other citizens (including toward citizens living in different circumstances or having different worldviews) by exploring the social contexts of public policy problems. Using ethical reasoning, citizens will understand the ethics of citizenship in different settings and traditions. Citizens will consider the ramifications of enacting alternative public policies on the well-being of fellow citizens and of civil society. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

PS-155 Lobbying (Spring only; Variable; 1.00 Credit; S) Students learn about lobbying in the United States and Pennsylvania, including the national and state constitutional provisions that permit and restrain lobbying. Students study and discuss lobbying techniques and ethics and the place of lobbying in the broader context of American and Pennsylvanian politics. Students will practice their lobbying skills both in class and in Harrisburg.

PS-190A Mock Trial (Fall only; Yearly; 3.00 Credits; CS) A study of elements related to the preparation of a trial through the Mock Trial setting governed by the

American Mock Trial Association. Students will learn the preparation of pleadings, applicable case law to the case presented, and obtain knowledge of the Rules of Evidence. Each year, Mock Trial is offered as PS-190A during the fall semester for 3 credits and PS-190B during the spring semester for 1 credit.

PS-190B Mock Trial (Spring only; Yearly; 1.00 Credit; CS) A study of elements related to the preparation of a trial through the Mock Trial setting governed by the American Mock Trial Association. Students will learn the preparation of pleadings, applicable case law to the case presented, and obtain knowledge of the Rules of Evidence. Each year, Mock Trial is offered as PS-190A during the fall semester for 3 credits and PS-190B during the spring semester for 1 credit. Pre-Req: PS-190A

PS-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the departments to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PS-205 Politics in Film (Either semester; Yearly; 4.00 Credits; H, F, SW-ER) This course is designed as an introduction to the study of ethical ideas as presented in motion pictures. We will look both at the direct representation of political ideas or points of view (especially through satire), and at the way Hollywood has shaped our ideas about the process of ethical decision-making. Pre-Req: FYC-101 or EN-110 or EN-109. (Formerly numbered as PS-305.)

PS-206 The Culture War (Variable; Variable; 4.00 Credits; CA, S, SW-US) Is the U.S. at war with itself over core political and cultural values? This culture war is waged over hot-button policy issues including abortion, school prayer, gay rights, religion in politics, marijuana, immigration, and diversity. Students explore the complex political contexts that shape the lived experiences of traditionally marginalized groups and examine how power, privilege, and marginalization influence policy outcomes. Pre- or Co-Requisite: FYC-101 or EN-110 or EN-109.

PS-208 Policy and Community (Variable; Yearly; 4.00 Credits; SW-LE) In this course, students will engage in the policymaking process in Huntingdon. In conjunction with local policymakers, students will research a community problem and make policy recommendations based on that research. Class discussions will focus on common community issues

in America (such as environmental and healthcare problems) in addition to research methods and local policymaking processes. Prerequisite or corequisite: FYC or CWS

PS-209 Sexual Politics (Variable; Variable; 3.00 Credits; S, WK-SI) In this course, we will discuss sex and gender in political theory and practice. In part one, we will discuss key concepts needed to understand sex and gender politics in the United States. In part two, we will build on this knowledge by exploring sex/gender/sexuality issues in our current political environment. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

PS-218 Public Policy & Admin. (Variable; Variable; 3.00 Credits; S) An introduction to the study of public policy and its administration. The course explores the ways which power, knowledge and institutions shape adoption and evolution of public policies in western democracies. Focusing on various policy areas, the course also surveys the public bureaucracies that administer these policies, examining what government agencies do and why they do it, and assesses alternatives to public bureaucracies. Prerequisite: PS101.

PS-221 American Political Thought (Variable; Variable; 4.00 Credits; H, CW, SW-US) Covers development of American Political Thought from the Revolution to the modern-day. Special attention is given to the tension between liberty and equality in our system, especially as those tensions are revealed in writings of women and African-American writers.

PS-222 Western Political Thought (Variable; Variable; 4.00 Credits; H, WK-HT) Surveys selected works of philosophers from Plato to Nietzsche. The course will focus on enduring questions – what is the good, the nature of the best regime, how do freedom and authority intersect, and so on. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

PS-230A Political Party Conventions (Variable; Irregular/On Demand; 1.00-2.00 Credits; S) This course is an experiential education opportunity that takes place in the city that hosts either the Democratic National Convention or the Republican National Convention. It takes place every four years during presidential election years in the late summer or early fall. Each student decides whether he or she wishes to attend the program associated with the Democratic Party or the Republican Party. It is an

intense, two-week seminar that features presentations by leading academics and practitioners about the presidential election, including the nomination campaign, the national party conventions, and the general election. The seminar also features site visits, fieldwork assignments, and small group discussions focused on these experiences and the course readings. The seminar culminates in the public events that comprise the Democratic National Convention or the Republican National Convention. Requires consent of the instructor and pre-payment of required course fees.

PS-230B Presidential Inauguration (Variable; Variable; 1.00-2.00 Credits; S) This course is an experiential education opportunity that takes place in Washington, D.C. every four years during the inauguration of the president. It is an intense, 10-day seminar that features presentations by leading academics and practitioners about the presidency and presidential elections; site visits to embassies, government agencies, think tanks, media outlets, etc.; and small group discussions focused on these experiences and the course readings. The seminar culminates in the public events that comprise the presidential inauguration. Requires consent of the instructor and pre-payment of required course fees.

PS-230C Inside Washington, D.C. (Variable; Variable; 1.00-2.00 Credits; S) This course is an experiential education opportunity that takes place in Washington, D.C. It is an intense seminar that features presentations by leading academics and practitioners about politics and the media, congressional elections, and presidential/congressional relations. The seminar includes site visits to embassies, government agencies, think tanks, media outlets, etc. with the aim of providing first-hand opportunities to witness government decision-making in action, as well as the efforts others on The Hill who try to influence government outcomes. Requires consent of the instructor and pre-payment of required course fees.

PS-230E National Security (Summer only; Variable; 1.00 Credit; S) This course is an experiential education opportunity that takes place in Washington, D.C. It is an intense, week-long academic seminar. Students explore the inner workings of the U.S. national security landscape with nationally recognized journalists, politicians, political analysts, and scholars as your guides. The course expands knowledge of American and international politics through on-site

visits to such places as Capitol Hill, executive agencies, embassies, think tanks, and media organizations. Students engage in and network with nationally and internationally recognized public officials and business professionals to develop a sense of civic engagement and enhance leadership skills. Requires consent of the instructor and may require pre-payment of required course fees.

PS-235 Migration (Fall & Spring; Variable; 2.00 Credits; I, S, SW-GE) This is a two-course series (PS-235/236). The pre-departure course (PS-235) examines the full range of policy issues related to migration in North America. The summer or winter term course (PS-236) includes travels to southern Mexico, where professors and students from the Autonomous University of Chiapas (UNACH) will help students to gain first-hand insight into Mexico's migration policies through lectures, discussions, and visits to government migration detention centers. In addition to learning from the UNACH scholars, students will learn about Mexican culture from their homestay families. Students must complete both courses in the series to fulfill a Global Engagement course requirement. The total course fee is divided equally between PS-235 and PS-236.

PS-236 Eyewitness to Migration in Mexico (Variable; Variable; 1.00 Credit; I, S, SW-GE) This two-course series (PS-235/236) The fall semester pre-departure course examines the full range of policy issues related to migration in North America. The winter course/trip travels to southern Mexico, where professors and students from the Autonomous University of Chiapas (UNACH) will help students to gain first-hand insight into Mexico's migration policies through lectures, discussions, and visits to government migration detention centers. In addition to learning from the UNACH scholars, students will learn about Mexican culture from their homestay families. Students must complete both courses in the series to fulfill a Global Engagement course requirement. The total course fee is divided equally between PS-235 and PS-236. Pre-Req: PS-235.

PS-241 European Politics (Variable; Variable; 3.00 Credits; S, I) Examines the modern history, political culture, institutions and policies of the major West European states. Britain, France, West Germany and the European Communities are compared along with selected other countries. The major problems

confronting these are highlighted. Prerequisite: PS101 or PS102.

PS-243 U.S. Foreign Policy (Variable; Variable; 3.00 Credits; S, I) Examines U.S. Foreign Policy from the Monroe Doctrine to the New World Order. Special emphasis is given to the tension between isolationism and globalism in this century. The course will focus on contemporary issues such as: the relationship with the UN, the U.S. as a global policeman, and the role of human rights as an American priority. Prerequisite: PS102.

PS-249 Senegambia I (Variable; Variable; 2.00 Credits; I, S, CA, SW-GE) In the pre-departure course (PS-249) on campus, we study and discuss Gambia's history and contemporary politics and culture. This is followed by a short-term study abroad course (PS-25), during which we spend three weeks exploring the political culture and society of The Gambia. Students must complete both PS-249 and PS-250 to fulfill the Cultural Analysis or Global Engagement requirements.

PS-250 Senegambia II (Variable; Yearly; 2.00 Credits; CA, I, S, SW-GE) These courses (PS249 and PS250) are co-requisites. In the fall semester, we study and discuss Gambia's history and contemporary politics and culture. During the winter break, we spend three weeks exploring the political culture and society of The Gambia. Corequisite: PS250. Students must complete both PS249 and PS250 to receive CA credit. If you want to get Global Engagement credit, after returning from the trip you must complete a 1-credit course that has been approved by the Global Education Committee.

PS-289 Politics and the Media (Variable; Variable; 4.00 Credits; S, CW) This course has two components. First, it looks at the interaction of politics and the media in the context of the United States. Students will learn about how politicians use the media and about how the media covers politics. Second, it is designed to help students hone their research and writing skills. The class involves extensive class discussion, applications of course materials to contemporary coverage of American politics in the media, and instruction about research and writing. Students will be required to pay close attention to the interaction of politics and the media during the course of the semester. Prerequisites: PS101.

PS-291 Mexican Fulbright Special Topics (Variable; Variable; 1.00-3.00 Credits; I, S, SW-GE) This comparative politics course will provide a significant degree of attention to the operation of society and government in a country other than the United States. It will focus on a people and culture outside of the U.S. or on a global challenge. The course will often relate to Mexico or to U.S.-Mexico relations. The specific topic of this course will be determined based on the interests of the Mexico Studies Chair and the needs of the Politics Department. This course is taught by the Fulbright professor from Mexico.

PS-298 Gender and Health Care (Variable; Yearly; 3.00 Credits; SW-ER) In this course, we will discuss gender and healthcare policy around the world, focusing on the ethical responsibilities of healthcare policymakers and providers. We consider how gender affects policy and health outcomes in various ways, depending on the cultural context. Class discussions will address topics such as reproductive rights and LGBTQ healthcare access. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

PS-299 Special Topics (Variable; Variable; 1.00-4.00 Credits; I, S) Offers supplements to the regular departmental program, exploring topics and areas not regularly scheduled. Note: Students may take each ST: course for credit.

PS-311 Constitutional Interp: Powers of Govt: : Government (Variable; Variable; 4.00 Credits; H) An examination of the three branches of government, their constitutional powers, and the limitations on those powers as interpreted by Supreme Court. Special attention is given to the areas of delegated and concurrent powers. The operation of the Supreme Court and the Federal court system are also reviewed. Prerequisite: PS-101.

PS-312 Constitutional Interp.: Civil Rights: : Rights (Variable; Variable; 4.00 Credits; H, CW) Examines citizen's rights and liberties which the Constitution protects against infringement by the government. Those freedoms enumerated in the Bill of Rights are reviewed as well as the right to privacy, due process, and equal protection. Prerequisites: PS101 or permission.

PS-313 Congress and Presidency (Variable; Variable; 4.00 Credits; S, CW) Examines the intellectual and constitutional foundations of Congress and the Presidency, and the evolution of their powers and

responsibilities. The course also explores how, through cooperation and confrontation, the institutions make decisions about war and peace, spending, and taxation. Prerequisite: It is recommended that students take PS-101 prior to this course, but not required.

PS-318 Parties, Elections & Campaigns (Variable; Variable; 3.00 Credits; S) Examines the role political parties and elections play in democratic theory and practice in the U.S. Topics include party systems in the U.S., history, party organization, comparisons with parties in other countries, electoral competition, and elite mass linkages. Contemporary issues such as campaign finance, campaign strategy, and the role of the mass media are also explored. Prerequisite: PS101.

PS-320 Topics Political Philos & Jurisprudence (Variable; Variable; 3.00 Credits; H) Examines specific topics in the area of political philosophy and law. Topics will include "Foundations of American Constitutionalism," "African-American Social and Political Thought," "Liberalism," and "Shakespeare's Politics." Students may take each course for credit.

PS-325 Health Policy (Either semester; Yearly; 3.00 Credits; WK-SI) In this seminar course, we will discuss health policy, focusing on issues in the United States. We will discuss how health policy is made at the federal and state level. We will look at major health care-related programs in the United States, federal agencies that affect the health of Americans, and state-level health policy. Pre- or co-requisite: FYC-101 or EN-110 or EN-109.

PS-330 TPP: Topics in Public Policy (Variable; Variable; 3.00 Credits; S) Examines the formation and implementation of public policy by an in-depth focus on a single policy area. The course will investigate a particular policy area for the semester, such as environmental policy or health care policy. Policy study will include analysis of interest groups, public opinion, congressional committees and federal agencies. Research and analytical exercise will be emphasized. Prerequisite: PS101.

PS-334 Human Rights (Variable; Variable; 3.00 Credits; I, S) This class focuses on some of the debates concerning human rights: realism versus idealism; individualism versus communitarianism; universalism versus relativism; religious fundamentalism versus secularism; women's rights

as human rights; liberalism versus socialism. We review the historical evolution of human rights. We devote part of the semester to the role of literature and the arts in creating and promoting human rights. Prerequisite: PS102.

PS-335 Law of Nations (Variable; Variable; 3.00 Credits; I, S) This course explores the substance of modern international law. Course topics may include the Vienna Convention, the UN Charter, the Law of the Sea Convention, the Rome Statute, the International Court of Justice, and the International Criminal Court. The course also explores how nation states interact with these bodies under their internal laws and customary international law. Prerequisite: PS 102.

PS-340 Topics in International Politics (Variable; Variable; 1.00-4.00 Credits; S, I) Examines international politics in light of a specific topic or issue. The topics include themes such as: Global Environmental Politics, Nationalism, and Competing World Ideologies.

PS-346 African Politics (Variable; Variable; 3.00 Credits; I, S, CW) This course examines some of the factors that explain the political problems that plague Africa. Topics include: colonialism, human rights, corruption, ethnicity and pan-Africanism. Prerequisite: PS102.

PS-349 Senegambia III (Variable; Variable; 1.00 Credit; I, S, SW-GE) This course will meet 1 hour per week in spring semester. A requirement of the course is to participate in a three week summer trip to West Africa. During the spring semester we will examine the history and contemporary politics and economics of the Senegambia region. At the conclusion of the spring semester we will spend 3 weeks exploring the political culture and society of the Gambia and Senegal in West Africa. There is a fee for the trip to Africa. Corequisite: PS250. If PS249 and PS250 are completed they will count as CA. PS349/350 will not.

PS-350 Senegambia IV (Variable; Variable; 3.00 Credits; I, S, SW-GE) See PS249. Corequisite: PS349. Students must complete PS249 and PS250 to receive CA credit. A course fee is applied.

PS-389 TWC: Washington Special Topics (Fall and Spring; Yearly; 1.00-4.00 Credits) This course is for students participating in the Washington Center's internship program in Washington, D.C. Each student will select one of several courses offered by the

Washington Center upon acceptance into the program. The title of this Special Topics course will vary according to the course the student enrolls in through the Washington Center.

PS-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offers supplements to the regular departmental program, exploring topics and areas not regularly scheduled. Examples include Religious Revivalism in the Third World, Race, Religion and Gender in American politics and Nationalism in Europe. Note: abbreviated ST: (Title); students may take each ST: course for credit.

PS-490 Legal & Public Affairs Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; S) An opportunity to apply concepts and theories learned in class and readings to a practical situation. Selected students work with chief administrative officers in State College and Huntingdon, police departments, environmental departments, legal offices or in the Court House. Note: may be repeated up to a total of 9 hours credit. Corequisite: PS495. Prerequisite: permission and Jr. or Sr. Standing.

PS-491 Washington Center Internship (Variable; Variable; 2.00-9.00 Credits; S) Internship at The Washington Center in Washington, DC. Requires instructor permission. Corequisite: PS495.

PS-492 Harrisburg Legislative Interns (Fall & Spring; Yearly; 2.00-9.00 Credits; S) A unique opportunity to experience the legislative process. Placements are made to the research staffs of various committees (e.g., Banking and Commerce, Education, Judiciary, Local Government and Urban Affairs) of the Pennsylvania House of Representatives. Committees are selected on the basis of student interests and needs in the Legislature. Corequisite: PS495. Prerequisite: Permission and Sophomore, Junior or Senior standing.

PS-495 Politics Internship Seminar (Irregular/On Demand; Irregular/On Demand; 2.00-6.00 Credits; S, SW-LE) The emphasis is on connecting the internship experience with student's Juniata coursework. Students will develop the knowledge, skills, and ethical perspectives they need to engage effectively with the local communities through meaningful contributions and reflection. Co-Requisite: PS-490 or PS-491, or PS-492.

PS-497 Honors Research I (Fall only; Yearly; 3.00 Credits; S) Designed to offer exceptional students the opportunity to engage in an extensive undergraduate thesis or research project. Selected students will be invited by the faculty of the department to propose a subject of special interest to the students; working closely with at least one member of the department, students will develop and complete a research project in the first semester and present the results as a publishable paper in the second. Available by permission.

PS-498 Honors Research II (Spring only; Yearly; 3.00 Credits; S) Designed to offer exceptional students the opportunity to complete the research paper started in PS497. Prerequisite: PS497.

PS-499 Senior Seminar (Spring only; Yearly; 3.00 Credits; S) Intended as a capstone experience in the discipline and designed to engage students in their final year in the comprehensive study of a major question or issue confronting the discipline of political science. Prerequisites: PS101 or PS102 or PS222 and senior standing and three additional Political Science courses or departmental permission.

PS-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See catalog.

PS-TUT Political Science Teaching Assistant (Variable; Variable; 1.00-3.00 Credits; S) See Tutorial in the catalog.

PSYCHOLOGY

PY-001 Non-Credit Psychology Intern (Summer only; Yearly; 0.00 Credits) Provides student and overview of an organization as well as providing an opportunity for practical application of the skill developed in student's area of concentration. Note: see the chapter "Special programs" under Internships; listed as Internship: (Title); must be 6 weeks long. Prerequisites: Permission.

PY-101 Introduction to Psychology (Variable; Yearly; 3.00 Credits; S) An overview of the content and methodology in the field. Topics such as the history of psychology, physiological psychology, learning and memory, perception, motivation, child development, personality and social foundations are considered

PY-190 Introduction to Poverty Studies (Variable; Yearly; 3.00 Credits) The Introduction to Poverty

Studies course will offer students an interdisciplinary exposure to the study of poverty, challenging them to explore the ways in which factors such as class, culture, race, gender, and geographic place operate to form an interrelated system that produces poverty and alters the trajectory of many important life outcomes. Among other course objectives, students will gain an evidence-based understanding of theoretical models of poverty and the ways in which poverty manifests differently within this country and across the globe.

PY-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites and fees vary by title.

PY-202 Personality (Fall only; Yearly; 3.00 Credits; S) A consideration of representative approaches to the study of human personality, beginning with standard theoretical approaches and their applications. This is followed by a consideration of selected topics within the field of personality, e.g. aggression, sexuality, dependency, and competence. Prerequisite: PY 101

PY-203 Abnormal Psychology (Spring only; Yearly; 3.00 Credits; S) A brief consideration is given to the historical approaches to "mental illness," followed by a consideration of present day classification, diagnostic measures, and therapy. Emphasis throughout is upon experimental data as applied to the various disorders. Prerequisite: PY101.

PY-205 Social Psychology (Spring only; Yearly; 3.00 Credits; S) The study of human interaction and interpersonal relationships, including selected areas of current research and theory such as social perception, interpersonal communication, attitude formation and change, conformity, aggression, and interpersonal attraction.

PY-210 Psych Professional Development Seminar (Variable; Yearly; 1.00 Credit; S) This course explores professional opportunities in the field of psychology and related fields. You will assess your professional skills and interests and create materials needed for a successful internship, job, or graduate school search. We also will explore how professional knowledge and skills can be shared as future engaged and effective members of communities.

PY-211 Race, Ethnicity, and Identity Studies (Variable; Yearly; 3.00 Credits; S, WK-SI) This course explores the constructs of race, ethnicity, and identity with a focus on how they help us understand ourselves, societies, and the relationship between self and society. The course explores race, racism, antiracism, equality, and hierarchy. As a Social Inquiry course, this course emphasizes social scientific methodologies to address these topics. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

PY-216 Public Health (Variable; Yearly; 4.00 Credits; S, N, WK-SP) This seminar serves as an introduction to evidence-based public health. The course will utilize public health methodologies to investigate historical and current public health issues. Pre-req or co-req: FYC-101 or EN-110 or EN-109.

PY-238 Biopsychology (Fall and Spring; Yearly; 3.00 Credits; S, N) Focuses on neurobiology and neuroanatomy as they relate to sensory processes, motivation, reinforcement, learning, and memory. Prerequisite: PY-101 or BI-101 or BI-105.

PY-270 Cognitive Neuroscience (Either semester; Yearly; 3.00 Credits; S, N) Focuses on the neural mechanisms of mental processes including sensation and perception, attention, memory, reasoning, and decision making. Topics include basic neuroanatomy, functional imaging techniques, and evidence from neurotypical and clinical populations. Prerequisites: PY101.

PY-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PY-302 Moral Judgment (Variable; Variable; 3.00 Credits; S, SW-ER, CTGES) This course will cover basic issues relevant to understanding and evaluating moral judgment. We will compare philosophical models of human judgment with psychological models of human judgment. You will apply both philosophical and psychological models to contemporary ethical issues and reflect on your own beliefs and social responsibilities.

PY-303 Learning & Conditioning (Fall only; Yearly; 3.00 Credits; S) Explores the issue of how we are changed by experience, using primarily a behaviorist perspective, applied to animal and human data. Both

theory and applied applications of theory will be considered. Prerequisite: PY101.

PY-304 Cognitive Psychology (Fall only; Yearly; 3.00 Credits; S) Explores an array of issues in human memory, primarily from a cognitive/information processing point of view. Major emphasis is on using research data to formulate answers to both theoretical and applied questions. Prerequisite: PY101.

PY-312 Cultural Psychology (Variable; Yearly; 3.00 Credits; S) Cultural psychology is the scientific study of how cultural norms influence how individuals think, feel, and behave. Cultural psychologists study the ultimate social situation: culture. Questions from this field are relevant to our everyday lives and are important in shaping our understanding of ourselves and views of others.

PY-321 Health Psychology (Spring only; Yearly; 3.00 Credits; S) Course will examine empirical findings from disciplines of psychology, medicine, and public health. Course topics include research methods, stress and social support, health behavior and primary prevention, management of chronic/terminal illnesses, gender and cultural issues in health, and psychoneuroimmunology. An underlying theme will be to dispel health-related myths and fads that are so prevalent in the popular media. Prerequisites: PY101.

PY-322 Sport Psychology (Variable; Yearly; 3.00 Credits; S) This course provides an overview of sport psychology. Students will gain insight into the psychological processes involved in sport and other fields involving human performance. Topics such as motivation, arousal and stress, burnout, skill acquisition, team dynamics, and psychological skills training will be explored as they relate to maximizing our ability to perform at a high level. Pre-Req: PY-101

PY-340 Research in Psychology (Fall only; Yearly; 2.00 Credits; S) Allows students to become involved in an ongoing research program. Students will be required to read primary literature from the specific field of investigation and become involved in execution of an ongoing experiment. Students will be expected to perform the activities relevant to the experiment, assist in the analysis of the data, and write an APA style paper based on the results of the experiment. Prerequisites: PY101 and permission. Repeatable up to 3 times.

PY-341 Research in Psychology (Spring only; Yearly; 2.00 Credits; S) Allows students to become involved in an ongoing research program. Students will be required to read primary literature from the specific field of investigation and become involved in execution of an ongoing experiment. Students will be expected to perform the activities relevant to the experiment, assist in the analysis of the data, and write an APA style paper based on the results of the experiment. Prerequisites: PY101 and permission. Repeatable up to 3 times.

PY-350 Developmental Psychology (Fall only; Yearly; 3.00 Credits; S) This course is designed to integrate core topics in the discipline of developmental psychology with current key issues in society. Consequently, students will have the opportunity to analyze scientific literature and make connections to current, everyday life issues. Additionally, students will have the opportunity to explore developmental theory and its connection to public policy, known as "best practices" in parenting and education and consider developmental theory's influence on current trends in our broader society. Prerequisites: PY101 or ED120 or ED130.

PY-366 Research Methods & Statistics (Either semester; Yearly; 4.00 Credits) Introduces the methodological skills necessary for conducting research and for becoming a better consumer of psychological science. Students will learn to think critically about claims and accurately summarize primary source articles about behavior. Students will learn statistical concepts commonly used to evaluate data, how to effectively communicate research, and make ethical judgments informed by APA ethical standards. Prerequisite: PY-101

PY-370 Intro Counseling Theories & Techniques (Variable; Yearly; 3.00 Credits; S) This course is an introduction to major theoretical perspectives and practice techniques employed in contemporary counseling and therapeutic environments, with an emphasis on individual and group processes. In addition to practical application activities (e.g., motivational interviewing), students will also be introduced to techniques and requirements necessary for establishing an appropriate therapeutic relationship and becoming a skilled helper, including ethical/legal considerations, consultation, referral, crisis counseling, and counseling research. By the end of the course, students should have a broad

knowledge of counseling theories/theoretical orientations, basic counseling skills, and philosophies that support the building and maintenance of therapeutic relationships.

PY-375 Psychology of Emotion (Variable; Yearly; 3.00 Credits; S) This course introduces the scientific study of emotion (Affective Science). It examines the historical and philosophical origins of emotion but focuses on contemporary theories, concepts, and methods of study in emotion science; the relationship between emotion, cognition, and the brain; and variation in emotion phenomena related to gender, culture, and group processes. Pre- or Co-Requisite: PY-101 or SO-101

PY-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Variable: 1-4 credits. Occasional offerings in which a group of students and a professor explore an area of specialized interest in a seminar format. Recent offerings have been "Multicultural Psychology" and "Psychology of Gender." Students may take each ST: course for credit.

PY-401 Comparative Psychology (Spring only; Odd Years; 3.00 Credits; S, N, CS) Comparative Psychology examines the continuity of behavioral and psychological mechanisms between nonhuman animals and humans suggested by evolutionary theory. Attention is paid to the comparison between human and nonhuman animals on traditionally human characteristics, including self-recognition, language, culture, tool use, and several other characteristics. Prerequisites: PY-101 or BI-105 or BI-101 plus Junior or Senior class standing.

PY-402 Evolutionary Psychology (Spring only; Even Years; 3.00 Credits; S, N, CS) This course uses the lens of modern evolutionary theory to understand human behavior. We will look for the influence of human evolutionary history on several modern human behaviors including, among others, dating and marriage, aggression, altruism, child-rearing, and behavioral differences between the sexes. Prerequisites: PY101 or BI105 and Junior or Senior standing or permission of the instructor.

PY-404 School Psychology (Variable; Yearly; 4.00 Credits; S, SW-LE) This course explores a scientist-practitioner model for improving learning and educational outcomes for all students. Focus is on the application of psychological principles and research-based models of prevention and intervention

to improve outcomes. As a community-engaged learning course, coursework will be applied to a project identified by a community partner as meeting a community need. Pre-req: PY-101. Pre-req or co-req: FYC-101 or EN-110 or EN-109.

PY-412 Expertise and Performance (Variable; Yearly; 3.00 Credits; N, S, CS) What makes a great performer great? This course addresses this basic question by exploring various processes underlying skill learning and performance from a psychophysiological and neuroscientific perspective. Throughout the course, a model of effective learning and performance will be developed, discussed, and critiqued, guided by the unifying principle of efficiency. Pre-Reqs: PY-101.

PY-415 Capstone in Psychology (Variable; Yearly; 3.00 Credits; S, CS) The purpose of this course is to assess the skills students acquire during their undergraduate career in the Psychology Department. Students will be expected to produce a written professional work. Pre-Req: PY-101 and senior class standing.

PY-490 Psychology Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; S) See the chapter, "Special Programs" under Internships in the catalog. Corequisite: PY495. Prerequisite: permission and Jr. or Sr. standing.

PY-495 Psychology Internship Seminar (Variable; Variable; 2.00-6.00 Credits; S, SW-LE) This seminar will help you apply concepts from your academic work to your internship experience. It also is designed to enhance your professional, social, cultural, communication, reflective, and critical-thinking skills. We will explore the concept of community, strategies, and skills necessary for engaged community work, and benefits and limits of engagement with others within and across communities. Corequisite: PY-490. Requires instructor permission.

PY-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

PY-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See catalog.

PY-TUT Psychology Teaching Assistant (Variable; Variable; 1.00-5.00 Credits) See catalog.

RELIGIOUS STUDIES

RL-001 Non-Credit Religion Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: See the chapter "Special Programs" under Internships listed as Internship: (Title); must be 6 weeks long. Prerequisite: permission.

RL-110 What Is Religion (Fall only; Yearly; 4.00 Credits; H, CW) This course serves as an introduction to religious studies. It engages some of the most important questions which preoccupy students of world religions. How do religions work? What kinds of issues does religion address?

RL-115 Viking Religion (Variable; Variable; 4.00 Credits; H, WK-HT) This course surveys the history, literature, religion, and culture of the Viking Age. We read the major mythologies of the Vikings, Sagas, and archeological evidence on practical aspects of Viking religious behaviors. We study cultural features such as housing, politics, blacksmithing, and shipbuilding. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

RL-123 World Religions (Variable; Yearly; 4.00 Credits; H, I, CS, SW-GE) This class looks at how global religions engage with contemporary challenges and issues. We will discuss scriptures, rituals, and current events primarily based on sources within each tradition. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109. (Formerly titled Global Religions Today)

RL-131 Old Testament As History and Literature (Variable; Yearly; 4.00 Credits; H, I) An introduction to the historical-critical reading of the Old Testament against the background of the history, politics, religion, literature, and culture of the ancient Middle East. This course studies how these Israelites texts were written and how their literary qualities shape their religious meanings.

RL-132 New Testament As History and Literature (Variable; Yearly; 4.00 Credits; H) An introduction to the historical-critical reading of the New Testament against the background of the history, politics, religion, literature, and culture of the ancient Mediterranean world. This course studies how these early Christian texts were written and how their literary qualities shape their religious meanings.

RL-199 RL Special Topics (Variable; Variable; 1.00-4.00 Credits) An examination of an area of study not regularly included in the departmental offerings. Titles will vary. Students may take each special topics course for credit.

RL-210 Sacred Landscapes (Either semester; Variable; 3.00 Credits; H, CTDH) This course explores the relationship between the experience of geography and religious ideology. We take various environments—mountainous, oceanic, desert, forest, plains—and try to connect the religious thoughts of their inhabitants to the geography.

RL-230 Religions of India (Either semester; Yearly; 4.00 Credits; H, I, CW, SW-GE) An introduction to religions originating in or having a major impact on contemporary India, including Hinduism, Sikhism, and Islam. We will engage with rituals, mythology, and sacred texts from each tradition. The emphasis in this class is on what makes these traditions compelling to the people who practice them. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

RL-235 Religion and Nature (Variable; Yearly; 4.00 Credits; H, I, CA, CW, WK-HT) What is the relationship between religious/ spiritual worldviews and the ways humans interact with the natural world? We will examine religious views of nature, wilderness, pollution, and climate change, as well as ways in which these worldviews have led to harm to environmental systems. Students will also spend time examining their own relationships with the natural world. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

RL-250 Women in the Bible (Variable; Variable; 4.00 Credits; CA, H, WK-HT) This course focuses on the female characters in the Bible and on its teachings about the social and religious roles specific to women. The course studies those texts in both their ancient and modern contexts, with special attention to how they interact with culture and explores what meanings those biblical passages can have for women (and men) today. Prerequisite: FYC-101 or EN-110 or EN-109

RL-265 U.S. Religious Diversity (Variable; Yearly; 4.00 Credits; CA, H, CW, SW-US) The United States has become an increasingly religiously diverse nation, especially since the end of the Asian Exclusion Act in 1965. This course looks at the history of conflict, cooperation, and power dynamics between different

religious groups in the United States, as well as how religious diversity has impacted, and been impacted by, American politics. A particular focus of the class is the intersection of the categories of race and religion. Prerequisite or corequisite: FYC-101 or EN-110 or EN-109.

RL-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

RL-301 The Afterlife (Variable; Yearly; 4.00 Credits; H, CW, WK-HT) This upper-level seminar explores questions like these: What do major world religions teach about afterlife? How did the Bible's afterlife beliefs develop historically? Can the soul survive without the body? If so, what would a non-bodily life be like? What do near-death experiences prove about the afterlife? What is the meaning of life if there is (or is not) an afterlife? Pre-Req: FYC-101 or EN-110 or EN-109

RL-302 Atheism (Variable; Yearly; 4.00 Credits; H, WK-HT) This upper-level seminar explores questions like these: What are the arguments both for and against the existence of God? What motivates atheists to live morally? What is the meaning of life for atheists? How and why do some atheists practice religion, and how does a religion function without belief in God? How does atheism affect the well-being of individuals and societies? Prerequisite: FYC-101 or EN-110 or EN-109

RL-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

RL-440 Yoga Studies (Variable; Yearly; 4.00 Credits; CA, H, I, CW, WK-HT) Yoga has become one of India's best-known exports, primarily in the form of physical (Hatha) Yoga. We will examine many of the numerous varieties of Yoga philosophy and explore how yoga and meditation became popular in the West. Students will learn basic meditation. Must have junior or senior class standing.

RL-450 God, Evil & the Holocaust (Either semester; Variable; 4.00 Credits; H, CW, WK-HT) If God is so powerful and so good, why is there so much Evil in the world? This course examines this problem from Jewish, Christian, and agnostic perspectives, with special attention to the Holocaust, and studies

ancient and modern attempts to confront this problem, including readings from the Bible, philosophers, theologians, Holocaust survivors, modern fiction, and contemporary films. Pre-Req: FYC-101 or EN-110 or EN-109, and junior or senior standing.

RL-490 Religion Internship (Irregular/On Demand; Irregular/On Demand; 2.00-9.00 Credits; H) See "Internship" in catalog. Corequisite: RL495. Prerequisites: Jr. or Sr. Standing.

RL-495 Religion Internship Seminar (Irregular/On Demand; Irregular/On Demand; 2.00-6.00 Credits; H) See "Internship" in catalog. Corequisite: RL490.

RL-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

RL-INS Independent Study (Irregular/On Demand; Irregular/On Demand; 1.00-4.00 Credits) See catalog.

RL-TUT Religion Teaching Assistant (Irregular/On Demand; Irregular/On Demand; 1.00-3.00 Credits; H)

RU-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides individualized instruction in topics not covered by the regular offerings. These are developed to meet the needs of students.

RU-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides individualized instruction in topics not covered by the regular offerings. These are developed to meet the needs of students.

RU-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides individualized instruction in topics not covered by the regular offerings. These are developed to meet the needs of students.

RU-INS Independent Study (Variable; Variable; 1.00-4.00 Credits; H, I) See catalog

SOCIOLOGY

SO-001 Non-Credit Sociology Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs under Internships;

listed as Intern ship: (Title); must be 6 weeks long. Prerequisite: permission.

SO-101 Introduction to Sociology (Variable; Yearly; 3.00 Credits; S, SW-US) The study of human social groups and the social processes that lead to both structural and cultural integration and differentiation primarily within contemporary American society. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109.

SO-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offered at the discretion of the department to qualified students Topic titles may vary from semester to semester and more than one may be offered per semester. Note: Students may take each ST: course for credit.

SO-203 Minority Experiences (Fall only; Yearly; 3.00 Credits; S) An exploration of the factors that shape the experiences of minority group members in both domestic and global contexts. The social processes that functions to construct minority identity among racial, ethnic, gender, and ability groups are studied. Prerequisites: SO101 or AN151.

SO-204 American Families (Variable; Variable; 3.00 Credits; S) Examines the structure and functions of the family as a vital social institution. Particular emphasis is placed on emerging trends within the family including dual careers, non-traditional families, divorce, and conflict management. Prerequisite: SO101 or AN151.

SO-243 Understanding Death, Dying, and Grieving (Variable; Yearly; 3.00 Credits; S, SW-ER) This course introduces and explores cross-cultural attitudes, ethical dilemmas and the existential challenges of death and dying. Topics of the course include: self-examination of death attitudes, exploration of death customs and rituals, an overview of the dying process, exploration of difficult topics surrounding death and grief and bereavement. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109. (Previously titled Death & Dying.)

SO-244 Drugs and Society (Either semester; Variable; 3.00 Credits; S) This course explores the history of substance abuse, models of addiction, physiological effects of commonly abused substances and treatment effectiveness. Some of the programs that will be examined include the 12-step program. Prerequisites: SO-101.

SO-245 Cross-Cultural Perspectives Family Dev (Variable; Yearly; 3.00 Credits; S, WK-SI) Cross-Cultural Perspectives on Family Development: This course provides a theoretical, functional, and research-informed approach to studying family life from a cross-cultural perspective. Issues related to marital relationships, parenting styles, work-family life balance, family communication, sexuality and gender, domestic violence, family stress and coping, and aging are addressed using cross-cultural comparison, including comparisons between indigenous and non-indigenous cultures. Pre- or Co-Req: FYC-101 or EN-110 or EN-109.

SO-260 Introduction to Criminal Justice (Either semester; Yearly; 3.00 Credits; S) Explores the nature of crime, the history of criminal justice, and the process of the modern justice system.

SO-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Offered at the discretion of the department to qualified students Topic titles may vary from semester to semester and more than one may be offered per semester. Note: Students may take each ST: course for credit.

SO-302 Social Deviance and Criminology (Spring only; Yearly; 3.00 Credits; S) Examines contemporary psychological and sociological theories of behavior deviation, including crime, delinquency, substance abuse and selected other categories. Typologies for classifying and studying crime are developed and evaluated. Trends in behavior deviation, including the characteristics of offenders and victims, are critically explored. Informal and formal, as well as proactive and reactive, social control systems aimed at managing behavior deviation are described and analyzed. Prerequisites: SO101 or AN151.

SO-305 Gender and Society (Variable; Variable; 3.00 Credits; S) This course is designed to explore the history and discourse related to the experiences and sociological definitions of gender roles across global and domestic contexts. Students will participate in critical analysis of the scholarship of gender roles using classical and contemporary works. The course will explore domestic and international experiences of men and women in biological, cultural, economic, environmental and political contexts. Prerequisites: SO101 or PY101.

SO-362 Juvenile Justice (Variable; Yearly; 3.00 Credits; CW, S, SW-ER) The issues, trends, and

challenges facing juvenile justice professionals are explored in this course. The history and philosophy of juvenile justice, processing, detention, and diversion of juvenile offenders are topics of the course. Pre-Req: FYC-101 or EN-110 or EN-109.

SO-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

SO-401 Sociology Senior Seminar (Spring only; Yearly; 3.00 Credits; S) Sociology Senior Seminar is the capstone course for students who have focused their academic work in the sociological discipline. The course provides an opportunity for students to apply key curricular components previously explored during their undergraduate sociology coursework. The course is a designated service learning and experiential learning course. Students will assume substantial responsibility for the exploration of materials and presentation of those materials to their student colleagues. Students will also interact with campus and community partners during the semester. The course uses a student-led seminar format, coupled with community engagement and service learning components. Prerequisite: Senior standing.

SO-492 Sociology Internship (Fall and Spring; Yearly; 2.00-9.00 Credits; S) Minimum GPA of 2.50 and good academic standing required for internship eligibility. Development of internship proposal must occur a minimum of six weeks prior to start of internship. Corequisite: SO495. Prerequisite: 2.50 GPA, Permission and Junior or Senior standing.

SO-495 Sociology Internship Seminar (Fall and Spring; Yearly; 2.00-6.00 Credits; S) Requires students to reflect on the internship experience and pursue research related to the placement. Corequisite: SO492. Prerequisite: by permission.

SO-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer subjects not on the normal schedule. Prerequisites vary by title.

SO-INS Independent Study (Variable; Yearly; 1.00-4.00 Credits) See Catalog.

SO-TUT Sociology Teaching Assistant (Variable; Yearly; 3.00 Credits) Individualized study wherein the instructor designs the course in consultation with the

student and is responsible for its administration. In the Tutorial, the instructor and student work closely on a regularly scheduled basis involving discussions, demonstrations, explanations and evaluations.

SPANISH

SP-001 Non-Credit Spanish Internship (Summer only; Yearly; 0.00 Credits) See Catalog

SP-110 Spanish I (Fall and Spring; Yearly; 4.00 Credits; H, I, SW-GE) Emphasizes fundamentals of grammar, pronunciation, and language production. The development of skills in oral comprehension, speaking, writing and reading are stressed. Note: Students receive H or I credit provided that they have not taken more than two years of the language at the secondary school level.

SP-110E Spanish I Summer (Summer only; Yearly; 3.00 Credits) This immersion course is offered for high school students (ages 16-18) in Granada, Spain, in conjunction with Global Works summer service programs. Students achieve a proficiency level in Spanish comparable to Spanish I (SP110).

SP-120 Spanish II (Either semester; Yearly; 4.00 Credits; H, I, CS, SW-GE) Spanish 120 is the second part of a three-semester introductory sequence. Its primary goals are to enable students to build their proficiency and attain a broader understanding of Hispanic cultures. Emphasis is placed on the use of the target language in the classroom and the study of culturally authentic materials. Students will achieve greater accuracy with basic language structures. Pre-req: SP110 or placement test.

SP-120E Spanish II Summer (Summer only; Yearly; 3.00 Credits) This immersion course is offered for high school students (ages 16-18) in Granada, Spain, in conjunction with Global Works summer service programs. Students achieve a proficiency level in Spanish comparable to Spanish II (SP120).

SP-125 Spanish Immersion 1-Orizaba (Summer only; Variable; 3.00 Credits; H, I, SW-GE) This course is part of a 4-week summer intensive language program in Orizaba (Mexico) and is the continued study of the fundamentals of Spanish grammar, pronunciation, and language production, with particular focus on listening comprehension and speaking. Prerequisites: SP-120.

SP-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

SP-210 Spanish III (Fall and Spring; Yearly; 3.00 Credits; H, I, CS, SW-GE) Spanish 210 is the third part of a three-semester introductory sequence. Its primary goals are to enable students to build their proficiency and attain a broader understanding of Hispanic cultures. Emphasis is on the use of the target language and the study of culturally authentic materials. Students will achieve greater accuracy with basic language structures. Pre-req: SP-120 or placement results.

SP-215 Mexican Culture (Summer only; Variable; 1.00 Credit; H, I, SW-GE) This course, which is part of a 4-week summer intensive language program in Orizaba (Mexico), will introduce students to the origin, antecedents, and development of present-day Mexico and will expose them to the diversity of its inhabitants and of their cultural practices and production. Prerequisite: SP-120. Corequisite: SP-125, SP-225 or SP-325.

SP-225 Spanish Immersion 2-Orizaba (Summer only; Variable; 3.00 Credits; H, I, SW-GE) An intermediate Spanish language course, which is part of a 4-week summer intensive language program in Orizaba (Mexico), that reviews the fundamentals of Spanish grammar, pronunciation, and language production, while providing intensive practice that will enable students to achieve mastery of these basic linguistic elements and to further develop their language proficiency. Special emphasis is placed on listening comprehension and speaking. Prerequisite: SP-210.

SP-230 Spanish Conversation & Composition (Spring only; Yearly; 3.00 Credits; H, I, CW, CS, SW-GE) SP230 focuses on continued learning of Spanish through the practice of speaking and writing. Students discuss short films, readings, and topics of interest from the Hispanic world. Through practice in and outside of class and study of grammatical structures and vocabulary, students will improve their reading and listening comprehension and their speaking and writing competence. Prerequisite: SP210 or placement test results.

SP-235 Intermediate Spanish Grammar (Fall only; Variable; 3.00 Credits; H, I, WK-FR) This course, which is instructed in Spanish, serves to reinforce the

fundamental grammar that students have studied previously and to delve more deeply into grammar topics. Students will study grammar rules and guidelines and will also contextualize and understand them through a look at real-world use of language structures. As they study a formal language system, students will use deductive reasoning to predict which forms are correct. They will also work to improve their ability to communicate and interact effectively in Spanish. Intermediate Spanish proficiency is strongly recommended. (Previously titled Intensive Spanish Grammar.)

SP-245 Spanish Phonetics & Phonology (Fall only; Yearly; 3.00 Credits; H, I, CS, SW-GE) This course serves as an introduction to the phonetics and phonology of Spanish. The goals of the course include providing students with a theoretical and practical understanding of the system of Spanish sounds, including dialectal variations, as well as strengthening students' Spanish speech in the direction of more native like pronunciation. Prerequisite: SP210.

SP-250 Introduction to Hispanic Literature (Spring only; Yearly; 3.00 Credits; H, I, CS, SW-GE) Emphasizes the development of skill in reading Spanish and in literary analysis of selected stories, plays, poems, and essays from Spain and Latin America. Prerequisite: SP210.

SP-255 Contemporary Hispanic Short Fiction (Fall only; Variable; 3.00 Credits; H, I, CS, SW-GE) An intensive introduction to reading and analyzing twentieth-century Spanish and Spanish American short narrative. Study of the literary texts enables students to develop a better understanding of and appreciation for Hispanic cultures while continuing to build their Spanish language proficiency. Prerequisite: SP210.

SP-257 Hispanic Pop Culture in Poetry (Variable; Yearly; 3.00 Credits; I, H, SW-GE) Students will explore poetic expression in popular culture music genres, including the corrido, tango, nueva cancion, and reggaeton, as well as works of iconic poets. They will reflect critically on the practice of categorizing art according to dichotomies such high and low-brow, poetic or vulgar, crap or canon. Pre-reqs: SP-230 or equivalent.

SP-260 Spanish Civilization (Either semester; Variable; 3.00 Credits; CS, H, I, SW-GE) An introduction to the

many facets of Spanish civilization: art, music, history, literature, philosophy and everyday life. Prerequisite: SP210.

SP-265 Contemporary Spain (Spring only; Variable; 3.00 Credits; H, I, CS, SW-GE) An intensive introduction to twentieth and twenty-first century Spain. Topics to be studied include: Spain's peaceful transition from dictatorship to democracy, economic development, and social change. Spain's role in the European Union, mass and elite cultural movements and the challenges facing Spain's younger generation. Prerequisites: SP210.

SP-271 Enrichment After-School for Youth-Spanish (Variable; Yearly; 3.00 Credits; SW-LE) Through this Local Engagement course, Juniata students will partner with the Huntingdon Area School District to offer language and culture classes to elementary and middle school students. They will design and deliver after-school course content in a dynamic, fun, after-school program designed to introduce students in grades 3-6 to Spanish and the cultures of Spain and Latin America. The course introduces students to best practices in local engagement, our local community, and the opportunities presented by our community partners. During seven weeks of the class, Juniata Students will teach the twice-a-week lessons at the nearby Standing Stone Elementary School. Must have clearances.

SP-272 Spanish for the Healthcare Professions (Variable; Variable; 4.00 Credits; I, SW-GE) This is a course for students who are interested in further developing their Spanish for practice in a healthcare setting. In the course, students will learn colloquial and formal medical vocabulary. They will review intermediate-level grammatical structures and practice how to properly apply these in a healthcare setting. Videos and interviews with Spanish speakers, a Mexican telenovela, and simulated medical situations are just some of the materials used in this intensive course. Students entering the course should have intermediate-level Spanish. It is recommended that they have completed two previous 200-level Spanish courses.

SP-275 Art and Activism in Latin America (Fall only; Variable; 3.00 Credits; I, H, F, CS, SW-GE) Studies art – literature, film, music, plastic arts, etc.–that denounces social injustice and seeks to trigger fundamental reforms in Latin American societies. Known as arte comprometido or committed art in

Latin America, selected violence, economic exploitation, racism, and machismo. The course is conducted in Spanish. Prerequisites: SP210 or by permission of the instructor.

SP-285 Introduction to Latin America (Variable; Variable; 3.00 Credits; H, I, CS, SW-GE) This course offers students an overview of Latin American cultures through the study of their history, geography, literature, and art from the pre-Columbian period to the present. The course is conducted in Spanish. Prerequisite: SP-210.

SP-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

SP-300 Myth and Magic Realism (Spring only; Variable; 3.00 Credits; CA, I, H, SW-GE) Explores the richness and diversity of Hispanic cultures through the study of texts that range from pre-Columbian myths to recent Latin American films. Emphasis will be placed on the analysis of the mytho-magical elements which are used to represent and often times critique aspects of various socio-cultural realities. The course is taught in English, and all course materials will be available in English. Prerequisites: Sophomore, Junior, or Senior standing.

SP-301 Voice for Voiceless-LA Testimonial Narr (Variable; Yearly; 3.00 Credits; CA, I, H, WK-HT) The testimonial genre developed in Latin America during the 1960s to give voice to the voiceless and bear witness to the world of the marginalized and oppressed. A representative sample of testimonial narratives will be read to examine topics such as the testimonial pact established with readers, social realities represented, processes of textual production, and narrative forms incorporated. Text will be read in English translation and the class will be conducted in English. Prereq: FYC-101 or EN-110 or EN-109. (Previous course title: Latin American Testimonio)

SP-305 Advanced Spanish Conversation & Comp (Spring and Summer; Yearly; 3.00 Credits; I, CW, CS, SW-GE) This course is designed to give students opportunities to develop and practice their Spanish at the intermediate-high and advanced levels of the ACTFL Proficiency Guidelines available at www.actfl.org. At the advanced level, speakers can: (a) narrate and describe in all major time frames (present, past and future), (b) handle a situation with a

complication, (c) use connective devices and a variety of subordinate clauses, (d) use circumlocution, and (e) address topics of personal and general interest. At the advanced level, one may also demonstrate conceptual awareness or even partial control of superior level functions from the ACTFL Proficiency Guidelines (e.g., support opinion, hypothesize, discuss topics concretely and abstractly, and handle a linguistically unfamiliar situation). Prerequisite: SP 230.

SP-306 Ecuador: Language, Culture, and Justice (Variable; Variable; 3.00 Credits; SW-GE) This intensive three-week orientation course offered in Ecuador prior to an academic semester of study abroad has two distinct components: 1) A survey of Ecuadorian history, culture, and society and how those relate to issues of conflict and social justice. 2) General Spanish classes that include grammar, writing, conversation, and cultural topics. Instructor permission is required.

SP-325 Spanish Immersion 3-Orizaba (Summer only; Variable; 3.00 Credits; H, I, SW-GE) A second intermediate Spanish language course, which is part of a 4-week summer intensive language program in Orizaba (Mexico), that reviews the fundamentals of Spanish grammar, pronunciation, and language production, exploring the subtleties of features such as preterit-imperfect aspect and the subjunctive mood. Intensive immersion practice will enable students to achieve greater mastery of these elements and to further develop their language proficiency. Prerequisite: SP-230 or SP-235 or SP-245 or SP-250 or SP-255 or SP-260 SP-265 or SP-275 or SP-285.

SP-345 Spanish Phonetics & Phonology (Fall only; Variable; 3.00 Credits; H, I, CS, SW-GE) This course serves as an introduction to the phonetics and phonology of Spanish. The goals of the course include providing students with a theoretical and practical understanding of the system of Spanish sounds, including dialectal variations, as well as strengthening students' Spanish speech in the direction of more native like pronunciation. Prerequisite: Study abroad experience or permission of the instructor.

SP-355 Contemporary Hispanic Short Fiction (Either semester; Variable; 3.00 Credits; H, I, CS, SW-GE) Note: Meets with SP255. Additional work is assigned.

Prerequisites: SP250 or equivalent and study abroad experience or approval of the instructor.

SP-357 Hispanic Pop Culture in Poetry (Variable; Yearly; 3.00 Credits; I, H, SW-GE) Students will explore poetic expression in popular culture music genres, including the corrido, tango, nueva cancion, and reggaeton, as well as works of iconic poets. They will reflect critically on the practice of categorizing art according to dichotomies such high and low-brow, poetic or vulgar, crap or canon. Pre-reqs: Two 200-level Spanish courses.

SP-365 Contemporary Spain (Spring only; Variable; 3.00 Credits; H, I, CS, SW-GE) Note: Meets with SP265. Additional work is assigned. Prerequisites: SP250 or SP255 or or SP260 or approval of the instructor.

SP-375 Art and Activism in Latin America (Fall only; Variable; 3.00 Credits; I, H, F, CS, SW-GE) Studies art – literature, film, music, plastic arts, etc.–that denounces social injustice and seeks to trigger fundamental reforms in Latin American societies. Known as arte comprometido or committed art in Latin America, selected artistic texts treat topics such as political violence, economic exploitation, racism, and machismo. The course is conducted in Spanish. Prerequisites: SP250 or SP255 or by permission of the instructor.

SP-385 Intro to Latin America (Spring only; Variable; 3.00 Credits; I, H, CS, SW-GE) This course focuses on the historical, political, intellectual, artistic, and social aspects of Latin America in order to familiarize students with the main trends in the development of the region. After a review of major historical events, students will explore trends and differences among regions of Latin America. The study focuses on textual readings, but also examines some representative examples of cultural production in the fields of art, literature, music and film. Prerequisite: SP230 or equivalent. Students should not take this course if they already took SP285.

SP-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Provides courses not covered by the regular offerings. These are developed to meet the needs of students of advanced standing.

SP-400 Contemporary Spanish American Novel (Fall only; Variable; 3.00 Credits; H, I, CW, CS, SW-GE) Students continue to develop advanced Spanish language and Hispanic cultural proficiency as well as

critical thinking skills through the study of contemporary Spanish American novels. Prerequisite: SP250 or SP255 or permission of the instructor.

SP-401 Gender Fiction in Hispanic Literature (Variable; Variable; 3.00 Credits; I, H, CW, SW-GE) This course, formerly titled Women in Hispanic Fiction, examines gender constructs in works by Latin American and Spanish authors. Among the topics that will be examined are the construction of gender and identity roles, historical spheres of participation for men and women, and the changing definition of such identity markers and roles. The course will focus on a broad historical range of literary works, examining how gender identities are presented in these works through their intersectionality with sexuality, class, race, age, and politics. In addition to the primary texts, students read critical essays on gender and discuss films and podcasts that develop topics parallel to those in the texts. Prerequisites: SP-250 or SP-255.(Previous Course Title: Women in Hispanic Fiction)

SP-404 Hispanic Metafiction (Alternate Years ; Irregular/On Demand; 3.00 Credits; I, H, SW-GE) Metafiction is fiction that, rather than transparent, is opaque. In the metafictional moment, the reader looks at rather than through the fictional illusion. As Patricia Waugh writes in *Metafiction: The Theory and Practice of Self-Conscious Fiction*, Metafictional novels tend to be constructed on the principle of a fundamental and sustained opposition: the construction of a fictional illusion (as in traditional realism) and the laying bare of that illusion. In this course, students engage with the theory of metafiction and study examples from Hispanic fiction, which include works by Allende, Borges, Cortazar, Cervantes, and Garcia Marquez. Prerequisite: SP210 or permission.

SP-405 Cont. Spanish Novel (Either semester; Variable; 3.00 Credits; H, I, CS, CW, SW-GE) Students continue to develop advanced Spanish language and Hispanic cultural proficiency as well as critical thinking skills through study of contemporary Spanish novels. Prerequisites: SP250 or SP255 or approval of the instructor.

SP-420 Generation of 1898 (Spring only; Variable; 3.00 Credits; H, I, CS, SW-GE) In this course. students analyze selected essays, fiction, drama, and poetry of this key group of writers who accomplish a major renovation of Spanish thought and literary forms

during the early decades of the twentieth century.
Prerequisite: SP250 or SP255 or permission of the instructor.

SP-430 Advanced Spanish Grammar (Spring only; Variable; 3.00 Credits; H, I, CS, SW-GE) This course serves to help advanced students gain a better understanding of the meaning of certain grammatical constructions in Spanish by systematically observing and analyzing their use in a variety of communicative contexts. Prerequisite: SP235.

SP-499 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer subjects not on the normal schedule. Prerequisites vary by title.

SP-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

SOCIAL WORK

SW-001 Non-Credit SW Internship (Summer only; Yearly; 0.00 Credits) See catalog

SW-214 Integrated Research Methods & Stats I (Variable; Yearly; 3.00 Credits; S) An integrated course sequence applying processes of social inquiry to the assessment of historically oppressed and vulnerable populations, and of the interventions used to help those populations. This course integrates key research concepts and commonly used quantitative and qualitative methods in the social sciences, with the ability to communicate effectively about research with written and verbal skills. The course teaches students not only to conduct social science research but also to consume and utilize social science research in a critical way, including in practice as a helping professional.

SW-215 Integrtd Research Methods & Stats II (Variable; Yearly; 3.00 Credits; S) The second part of an integrated course sequence applying the scientific process to the fields of Social Work and Sociology, emphasizing key research concepts, commonly used quantitative and qualitative methods, and the ability to communicate effectively about research with written and verbal skills. The course teaches students not only to conduct research but also to consume and utilize research.

SW-221 The Life Cycle (Variable; Yearly; 3.00 Credits; S, WK-SI) This course provides an introduction to lifespan development from conception, through birth,

infancy, childhood, adolescence, and various stages of adulthood. Explores perspectives on the biological, psychological, and socio-cultural aspects of development over time. Examines human diversity as well as similarities in growth and development, utilizing theory and research. Discusses implications for prevention and intervention related to common developmental challenges and adversities. Pre-Req or Co-Req: FYC-101 or EN-110 or EN-109

SW-230 Introduction to Social Work Practice (Spring only; Yearly; 4.00 Credits; S) Examines the generalist knowledge, values and skills of the social work profession. Emphasizes interviewing and communication skills, the development of a helping relationship, the strengths perspective and problem solving strategies. Prerequisites: SO101 or permission of instructor.

SW-231 Social Problems & Social Welfare (Variable; Yearly; 3.00 Credits; S, WK-SI) This course explores persistent social problems including poverty, inequality, unemployment, homelessness, family violence, substance abuse, and lack of healthcare access, using historical, philosophical, and social science perspectives. The development of social policies and services as institutional responses to these problems are described and analyzed. Over the course of the term, students will review a significant body of literature related to a social problem/policy of choice, and conduct a case study with a community member who has experienced consequences of that same problem/policy. Prerequisites: FYC-101, EN-110, or EN-109.

SW-241 Children, Youth, and Family Services (Variable; Yearly; 3.00 Credits; CW, S, WK-SI) This course involves a critical analysis of child and family services, practices, and policies, while exposing students to the challenging risks and needs, traumatic and institutional experiences of high-risk youth and families, as well as sources of strength, protection, and resilience. Students will participate in analyzing and interpreting research using needs assessment data provided by the instructor, and complete a scaffolded research paper assignment to analyze a specific issue of interest.

SW-330 Social Work Practice: Individual, Family: : & Small Groups Laboratory (Fall only; Yearly; 2.00 Credits; S, SW-LE) This concurrent laboratory for SW-331 allows students to gain further experience working in a social service agency through

participation in volunteer work, which is supervised and evaluated by a human service professional within the agency. Through this work, students have an opportunity to apply the skills needed to work with vulnerable client populations, including engaging, assessing, and intervening. Co-Req: SW-331. Pre-Req: SW-230.

SW-331 Social Work Practice: Individual, Family: : & Small Groups (Fall only; Yearly; 4.00 Credits; S) Explores the problem solving process used in social work practice with individuals, families and small groups. Interviewing and problem solving skills, family systems analysis and group process are refined in preparation for beginning practice with individuals, families, and small groups. Corequisite: SW330. Prerequisite: SW230.

SW-332 Social Work Practice: Large Groups,: : Organizations and Communities (Fall only; Yearly; 4.00 Credits; S, CW) Focuses on the problem solving processes employed in the delivery of social work services at the agency, institutional and community level. Primary consideration is given to the systems approach to communities and the techniques, strategies, and roles utilized by the worker in assisting communities and groups to attain satisfying and developmental levels of social functioning. Prerequisite: SW230.

SW-333 Social Welfare Policies and Services (Variable; Yearly; 3.00 Credits; S, CW) A conceptual study of the meanings, nature, scope, implementation and evaluation of social policy as it relates to issues of social welfare. Prerequisite: SW-231.

SW-399 Special Topics (Either semester; Variable; 1.00-4.00 Credits) Allows the department to offer topics not on the regular course offerings. Prerequisites and corequisites may vary by title.

SW-490 Social Work: Professional Semester (Spring only; Yearly; 12.00 Credits; S) Full time supervised senior capstone field experience in an approved social work agency. Students integrate the knowledge, values and skills of the social work profession with experiential learning in preparation for assuming the responsibilities of an entry-level social work professional upon graduation. Corequisite: SW495 Prerequisite: Permission.

SW-495 Professional Semester: Research Seminar (Spring only; Yearly; 3.00 Credits; S) Involves research

and discussion of practice issues of importance to the generalist social worker focusing on the impact these issues have on student's own practice experience. Corequisite: SW490. Prerequisite: Permission.

SW-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

SW-TUT Social Work Teaching Assistant/Tutorial (Variable; Variable; 1.00-4.00 Credits)

THEATRE

TH-001 Non-credit TH Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter "Special Programs" under Internships; listed as internship: (Title); must be 6 weeks long. Prerequisite: Permission.

TH-120 Tai Chi, Level I (Variable; Yearly; 1.00 Credit) This course provides an introduction to Tai Chi movement, history, and philosophy. Students will be able to explain the history of Tai Chi, perform a solo Tai Chi sequence, and engage in push-hands with a partner. Tai Chi is useful to the performing artist both in its philosophy and also in cultivation of kinesthetic and energetic awareness of the body. It also promotes mindfulness and wellbeing.

TH-121 Tai Chi, Level 2 (Variable; Variable; 1.00 Credit) This course deepens your understanding of Tai Chi movement, history, and philosophy. Students will deepen their understanding of Tai Chi history, perform a solo Tai Chi sequence, and engage in push-hands with a partner at a much deeper level than Tai Chi 1. Tai Chi is useful to the performing artist both in its philosophy and also in cultivation of kinesthetic and energetic awareness of the body. It also promotes mindfulness and wellbeing. Prerequisite: TH-120 or CONN-234. Note: This course is repeatable for credit up to three times.

TH-123 Jedi Academy (Variable; Yearly; 3.00 Credits; F, WK-CE) In Jedi Academy, we will examine the nine major Star Wars films but also some of their historical, philosophical, neurobiology, and creative influences and intersections. We will also train our own bodies, minds, and spirits and search for our own personal definition of health, happiness, and

wellbeing. NOTE: This course involves a significant physical strength and condition component.

Everything we do in class is scalable and modifiable for all abilities and fitness levels. However, student-athletes must get permission from the Head Coach as activities in this class could lead to over-training. Pre-Req: FYC-101 or EN-110 or EN-109

TH-160 Tai Chi (Fall and Spring; Yearly; 2.00 Credits)

This course provides an introduction to Tai Chi movement, history, and philosophy. Students will be able to explain the history of Tai Chi, perform a solo Tai Chi sequence, and engage in push-hands with a partner. Tai Chi is useful to the performing artist both in its philosophy and also in cultivation of kinesthetic and energetic awareness of the body.

TH-161 Play/Making (Variable; Yearly; 3.00 Credits; WK-CE, H, F) Compositions are a collaborative way to rehearse a play, build a play, and nurture ensemble.

Built off an idea or theme, book or novel, or an existing play, these short theatre pieces can be woven together into a full-length production or simply stand-alone exercises to deepen an artists' understanding of work. We will be building all of our work off of a central idea with multiple source documents with the goal of creating a final, full-length performance piece.

TH-199 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

TH-221 Acting I (Fall only; Yearly; 3.00 Credits; F, WK-CE) A study of the discipline of acting, including development of concentration methods, creative energy, fine tuning of the vocal and physical instrument and character analysis.

TH-262 Solos (Variable; Yearly; 3.00 Credits; F, CW, WK-CE) This course uses playwriting and performance techniques to move from page-to-stage as students create original one-person shows. We will explore a number of different playwriting techniques from self-exploration, interview, and narrative forms. Then we will rehearse and perform the pieces at the end of the semester in a new play festival.

TH-299 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

TH-325 Acting II (Spring only; Yearly; 3.00 Credits; F, CS) Upon successful completion of this course, the student should be able to: Meisner-based Practical Aesthetics through script analysis and application to scene work. Develop a deeper confidence in the strength and flexibility of the breath and voice. Collaborate on scene rehearsals with partner in a professional manner Nurture a deeper understanding of her meta-cognition. Integrate strategies for mitigating stress through self-talk, imagery, and meditation. Engender a life-long pursuit of self-improvement and psychophysical mastery. Prerequisite: TH221.

TH-351 Integrated Experience (Fall only; Yearly; 1.00 Credit; F) The goal of the integrated experience is to create a space where the student may reflect on her entire curricular and co-curricular experience at Juniata. In discerning how the myriad experiences have impacted and influenced her over the past several years, she will begin to form a narrative of how those experiences have added up to the artist-student she is today and hopes to be tomorrow. She will use this narrative to form a strategic plan for post-graduation activity and, more immediately, a capstone experience that is directly linked to this Integrated Experience. Upon successful completion of this course, the student should be able to: Research possible future opportunities such as grad school, internships, and career paths Map the curricular and co-curricular experiences you have had thus far into a cohesive narrative of a professional self Write a formal grant proposal Create an e-portfolio for professional marketing purposes Develop a comprehensive capstone experience predicated on the totality of your experience thus far Prerequisites: Permission of the instructor.

TH-399 Special Topics (Variable; Variable; 1.00-4.00 Credits) Allows the department to offer special topics not normally offered. Departments may offer more than one special topic. Prerequisites vary by title.

TH-405 Directing (Variable; Variable; 3.00 Credits; F, H, CS) The basic principles of stage directing are offered with areas of inquiry and practical application in: script selection and analysis, audition/casting techniques/considerations, rehearsal preparation, the prompt script, working with designers, decision making, working with actors, being a director/guide(vision, focus, note- taking, and giving), and bringing a script/actors/designers to performance. Each student

will select and work on a one-act script which, will be presented to the public in a spring semester festival. Prerequisites: Junior or Senior standing, TH206 and TH243, and permission of the instructor.

TH-421 Acting III: Styles (Fall only; Yearly; 3.00 Credits; F, CS) In this course we will investigate the historical and cultural origins of a variety of acting styles, including Greek, Elizabethan, and 20th century non-realistic forms. We will encounter playwrights and theatre makers as wide-ranging as Shakespeare, Beckett, Brecht, and Pina Bausch. At the end of the semester we will perform a public performance of final scenes from a multitude of styles. Prerequisite: TH221.

TH-490 Theatre Internship (Variable; Variable; 2.00-9.00 Credits; H) See Internships in the catalog. Corequisite: TH495. Prerequisite: Permission of the instructor and Jr. or Sr. standing.

TH-494 Senior Capstone (Fall only; Yearly; 1.00-3.00 Credits; F) The Theatre Capstone provides an opportunity for senior theatre students to demonstrate excellence in acting, movement, vocal technique, and either writing or interpretation of existing text of their choosing. Seniors gain hands-on directing experience through the completion of their piece, and will be working with a professional designer. Student projects are based on proposals and may include live performances or film projects. Capstones will be presented to a public audience and mentored by faculty. Seniors may register for this course at between one and three credits, depending on credit needs. Prerequisites: Senior status and Theatre Performance POE.

TH-495 Internship Research Seminar (Variable; Variable; 2.00-6.00 Credits; H) See Internships in the catalog. Corequisite: TH490. Prerequisite: Permission of instructor .

TH-INS Independent Study (Variable; Variable; 1.00-4.00 Credits) See catalog.

TH-TUT Theatre Tutorial (Variable; Variable; 1.00-4.00 Credits) See Catalog.

WORLD LANGUAGES

WL-001 Non-Credit World Languages Internship (Summer only; Yearly; 0.00 Credits) Provides students an overview of an organization as well as providing an

opportunity for practical application of the skill developed in students' area of concentration. Note: see the chapter under "Special Programs" under Internships. Internship must be at least 6 weeks long. Prerequisite: permission.

WL-201 Language in Motion (Fall and Spring; Yearly; 1.00 Credit; H, I, CS, SW-LE) In this course, international students, study-abroad returnees, students with other international experiences, heritage speakers, and/or upper-level language students expand their knowledge of language and culture, process their own intercultural and language-learning experiences, and enrich local school classrooms. In addition to learning about teaching language and culture and the school context, students develop individual projects for presentation in school classrooms.

WL-202 Language in Motion (Fall and Spring; Yearly; 1.00 Credit; H, I, CS) See WL201 Prerequisites: WL201. The course provides service-learning opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers and attending a Special Topics workshop, students will conference with the instructor and host teachers to develop individual projects for presentation in school classrooms. The course is graded pass-fail. Section 02. The course provides service-learning opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers and attending a Special Topics workshop, students will conference with the instructor and host teachers to develop individual projects for presentation in school classrooms. Students receive letter grades. Prerequisite: Permission.

WL-203 Language in Motion (Fall and Spring; Yearly; 1.00 Credit; H, I, CS) See WL201. Prerequisites: WL201 and WL202. The course provides opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers, students will conference with the instructor and two host teachers to develop individual projects for presentation in school

classrooms. The course is graded pass-fail. Section 02. The course provides opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers, students will conference with the instructor and two host teachers to develop individual projects for presentation in school classrooms. Students receive letter grades. Prerequisite: Permission.

WL-204 Language in Motion (Fall and Spring; Yearly; 1.00 Credit; H, I, CS) See WL201. The pass-fail course provides opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers, students will conference with the instructor and the selected host teacher to develop individual projects for presentation in school classrooms. The course is graded pass-fail. Section 02. The course provides opportunities for international students, study-abroad returnees, heritage speakers, and upper-level language students to expand their knowledge of language and culture and to enrich local public school classrooms. After meeting with teachers, students will conference with the instructor and the selected host teacher to develop individual projects for presentation in school classrooms. Students receive letter grades. Prerequisites: WL201 and WL202 and WL203.

WL-303 Sociolinguistics (Spring only; Even Years; 3.00 Credits; CA, H, I) This undergraduate course is meant to encourage you to reflect on how language functions in society. We will consider a subset of topics relevant to sociolinguistics, among them dialect variation (e.g., regional, social, ethnic); language ideology and language prejudice; and linguistic debates in education. We will consider linguistic communities across the United States. Prerequisite: EN110 or EN109 and Junior or Senior standing.

WL-398 Methods for Foreign Language Education (Fall only; Yearly; 4.00 Credits; S, CS) This course is for students interested in teaching foreign languages or English as a foreign language or second language (ESL). This course provides a thorough introduction to contemporary theories and methods of language

pedagogy. Students seeking K-12 certification in foreign languages may take this course instead of ED420 after studying abroad. It may also be taken by those students who have an interest in teaching English abroad. International students who are here a semester or a year should also consider taking this course. Prerequisites: ED110 and ED111 and ED130 and ED240.

WL-490 World Language Internship (Variable; Variable; 2.00-9.00 Credits; H, I) See "Internships" in the catalog.

WL-495 Internship Seminar (Variable; Variable; 2.00-6.00 Credits; H, I) See "Internships" in catalog.

WL-INS Independent Study (Fall and Spring; Yearly; 1.00-6.00 Credits) See catalog.

Graduate Courses

ACCOUNTING

AC-532 Corporate Taxation (Variable; Variable; 3.00 Credits) This course is intended for graduate students who desire to learn how the IRS code applies to corporations, estates, and trusts. Tax research is emphasized. Prerequisite: The student must have been admitted to the graduate program in accounting at Juniata College.

AC-533 Government and Nonprofit Accounting (Spring only; Yearly; 3.00 Credits) Governmental and Nonprofit Accounting is designed to provide an overview of fundamental concepts and practices used in accounting for activities of governmental and non-business organizations. Students will be familiar with recording financial transactions, preparing financial reports, budgeting, auditing, and analyzing the results for federal, state and local governments, colleges and universities, healthcare organizations and other nonprofits.

AC-534 Advanced Accounting (Fall only; Yearly; 3.00 Credits) This course focuses on accounting theory and problems regarding complex transactions such as consolidations, reporting requirements and international standards. Also, the course will include examination of topics currently under review by the authoritative boards. Prerequisite: Bachelor degree and admission to the Master of Accounting program

AC-535 Auditing (Fall only; Yearly; 3.00 Credits) This course provides an in-depth understanding of auditing theory and authoritative guidance. This course will include current auditing issues, including specific requirements for public companies.

AC-536 Federal Taxation of Individuals (Spring only; Yearly; 3.00 Credits) Examines the federal income tax structure and its relationship to individuals and sole proprietorships. The course will explore the social, legal, economic, philosophical, and political considerations relevant when designing a tax system.

AC-537 Cost Accounting (Fall only; Yearly; 3.00 Credits) An analysis of the use of cost accounting systems to accumulate and allocate costs to support decision-making and managerial control. Emphasis is on solving real business problems. We will also explore socio-economic theories of the firm so that you may better understand the reasons/rationale for the many cost management techniques and procedures used to aid in making business decisions.

AC-538 Forensic Accounting (Spring only; Yearly; 3.00 Credits) This course provides an in-depth understanding of auditing theory and authoritative guidance. This course will include current auditing issues, including specific requirements for public companies. (Prerequisite: Bachelor degree and admission to the Master of Accounting program).

AC-539 Accounting Research (Fall and Spring; Yearly; 3.00 Credits) Under the guidance of his/her advisor, all MAC students are required to prepare and present a research paper on a relevant Accounting topic. Although this paper is not a master's thesis, it does encompass significant library research and data collection and may include reports on field research or case studies. Students should work with their primary faculty advisor in the development of the paper and presentation.

AC-563 Financial Markets&institutions (Spring only; Odd Years; 3.00 Credits) financial Markets and Institutions is a graduate level economics course. Students develop a deeper understanding of the purpose of financial markets, what is required for them to operate well and why they sometimes fail, and also the important role of monetary policy in the economy. Prerequisites: EB222 and graduate status.

AC-564 Financial Theory & Analysis (Spring only; Variable; 3.00 Credits) AC564 Financial Theory &

Analysis develops the skills and knowledge you need to effectively evaluate investment choices and put together an appropriate investment portfolio for an individual or an institution. Prerequisites: EB361 and EB211 or ND.SS214.

AC-599 Special Topics (Variable; Variable; 1.00-6.00 Credits) Allows department to offer topics not normally taught. Requisites and fees vary by title.

AC-INS Independent Study (Variable; Variable; 1.00-6.00 Credits) See catalog. covered.

BIOINFORMATICS

BIN-500 Bioinformatics Fundamentals (Fall and Spring; All Years; 4.00 Credits; N) Bioinformatics is the science of collecting and analyzing complex biological data. It is an interdisciplinary field that develops and applies methods and software tools for understanding biological data. Pre-req: BI-105, BI-106, BI-121, BI-122, CH-142,CH-143, CH-242, CH-243

BIN-516 Molecular and Cellular Biology (Variable; Variable; 4.00 Credits) A comprehensive approach to the study of cells, with emphasis on molecular techniques and understanding the primary literature. Analysis of the cell at the molecular level emphasizes a unity in the principles by which cells function. PRE-REQ: BS degree in molecular biology, biochemistry or the permission of the instructor.

BIN-560 Genetic Analysis (Variable; Yearly; 4.00 Credits) Topics covered will include basic and advanced topics in transmission, quantitative and population genetics, with emphasis on analysis. the methods that modern researchers use to discover gene function and molecular basis of adaptive or disease traits and how they are transmitted over generations in model and non-model species. Prereqs: BI 105/BI 106 or BI 101/102 or one year of college Biology.

BIN-580 Advanced Research Methods (Variable; Yearly; 4.00 Credits) This class will provide training in advanced modern molecular wet lab, statistical and/or informatics tools. Bioinformatics skills will be related to assembly, annotation, variant characterization, and/or comparison of eukaryotic genomes and populations. Statistical analyses will be performed in R. Molecular tools may include DNA and RNA isolation, electrophoresis, restriction digests, DNA isolation from gels, PCR, sequencing, next

generation sequencing and equipment maintenance. Core bioinformatics learning objectives will receive special attention. General skills include training students in the process and procedures of conducting meaningful and responsible research in Biology, including: deriving research objectives, experimental design, problem solving skills, responsible conduct.

BIN-581 Bioinformatics Capstone (Variable; Yearly; 4.00 Credits) This culminating experience provides graduate students with the opportunity to engage in an independent, hands-on research experience for an entire semester. The research experience can be with private industry, academia, or the government and must be approved first by Dr. Lamendella. The experience must be immersive in bioinformatics and/or biotechnology, must have a data analysis component and the research project will be disseminated via both a written manuscript and oral presentation.

BIN-600 Environmental Genomics (Variable; Yearly; 4.00 Credits) This course will utilize Microbial Community Analysis leveraging high-throughput sequencing technology to identify the microbes present in naturally occurring our man-made ecosystems. Students will learn both molecular and bioinformatics skill sets, as well as microbial ecology principles throughout this course.

BIN-INS Bioinformatics Independent Research (Irregular/On Demand; Irregular/On Demand; 1.00-4.00 Credits) This independent study will support students pursuing capstone projects. The course will focus on advancement of writing and presentation skills to a computational audience.

DATA SCIENCE

DS-500 Data Science Fundamentals (Fall & Spring; Yearly; 4.00 Credits) A graduate level introduction to data science through a focus on the language R. Support tools and libraries such as Rstudio and the tidyverse will be emphasized. Students will complete the data science boot camp (a weekend in person intensive or online equivalent) at the start of this online course.

DS-510 Computer Science Fundamentals (Variable; Variable; 4.00 Credits) A graduate-level introduction to Computer Science Fundamentals through a focus on the Python language. Students will complete the data

science boot camp (a weekend in-person intensive or online equivalent) at the start of this online course.

DS-516 Mathematics Fundamentals (Variable; Yearly; 3.00 Credits) Selected topics of discrete mathematics and linear algebra related to data science analysis techniques and algorithms.

DS-520 Statistics Fundamentals (Variable; Yearly; 3.00 Credits) Overview of basic statistical techniques including descriptive statistics, hypothesis testing, and regression.

DS-525 Data Acquisition & Visualization (Variable; Yearly; 3.00 Credits) A graduate-level introduction to retrieving, cleaning, and visualizing data from widely varied sources and formats. The student will use common data science languages and tools for extraction, transformation, loading and visualizing data sets. Project presentations will have an emphasis on communication skills. Tableau visualization tools and Python libraries are used.

DS-530 Multivariate Techniques (Variable; Yearly; 3.00 Credits) Multivariate statistical techniques including multivariate regression, logistic regression, and dimension reduction techniques. Students will get hands-on experience applying the topics covered to real datasets using R, a powerful and popular open-source statistical computing language. Prereqs: DS-516 and DS-520.

DS-552 Data Mining (Variable; Yearly; 3.00 Credits) This course considers the use of machine learning (ML) and data mining (DM) algorithms for the data scientist to discover information embedded in wide-ranging datasets, from the simple tables to complex data sets and big data situations. Topics include ML and DM techniques such as classification, clustering, predictive and statistical modeling using tools such as R, Python, Matlab, Weka and others. Prerequisite: DS-500, DS-510, or by permission

DS-570 Database Systems (Variable; Yearly; 3.00 Credits) This course focuses on database design and relational structures, data warehousing and access through SQL. Students will use SQL to create and pull data from database systems. NoSQL and data warehousing are also covered to give students the necessary background in database systems. Pre-Req: DS-510

DS-575 Big Data Techniques (Variable; Yearly; 3.00 Credits) This course considers the management and processing of large data sets, structured, semi-structured, and unstructured. The course focuses on modern, big data platforms such as Hadoop and NoSQL frameworks. Students will gain experience using a variety of programming tools and paradigms for manipulating big data sets on local servers and cloud platforms. Prerequisite: DS-500 or DS-510

DS-580 Data Science Capstone (Variable; Yearly; 3.00 Credits) Data science practicum requiring completion of a large-scale analysis project of a given data set. Written and oral communication skills emphasized. Prerequisites: DS-500, DS-510, DS-516, and DS-520, or instructor permission.

EDUCATION

ED-501 Foundations of Special Education (Variable; Yearly; 3.00 Credits) Special education professionals apply knowledge of theories, evidence-based practices, and relevant laws to advocate for programs, supports, and services for individuals with exceptionalities. This course provides an overview of exceptionality in children/youth from birth to 21 years of age. Students will gain foundational knowledge of the field, professional ethical principles, and practice standards to inform special education practice.

ED-502 Special Education Law (Variable; Yearly; 3.00 Credits) This course provides a breadth and depth of information on special education law including: (1) a comprehensive overview of the history of special education, (2) pertinent court cases that impacted legislation, and (3) current legislation that secures access and rights for children and youth with exceptionalities and their families. IDEA (Individuals with Disabilities Education Act) and its principles will be a key focus.

ED-503 Understanding the Research in Special Ed (Variable; Yearly; 3.00 Credits) In this course students critically examine and interpret the current research in order to identify and subsequently utilize best practices in the classroom. Both qualitative and quantitative techniques are reviewed. Students review the professional literature and share findings with a learning community that embraces professional development.

ED-504 Supporting Students w/Behavioral Needs (Variable; Yearly; 3.00 Credits) This course provides

an overview of strategies that promote social, emotional, and behavioral growth of students while fostering a welcoming and safe classroom environment that encourages positive behavior through the use of responsive and preventative measures. Students will learn to conduct functional behavioral analyses and apply principles of PBIS (Positive Behavioral Interventions and Supports) to deliver evidence-based interventions that support positive behaviors.

ED-505 Assessment: Using Data to Drive Decisions (Variable; Yearly; 3.00 Credits) First, this course provides an overview of the special education process outlining how a child or youth is identified for services. Second, this course introduces students to a variety of assessment tools that are reliable, valid, and minimize bias. Students learn to create, administer, and score assessments and subsequently use this information to inform instruction, practices, and programming. Ethical practices and considerations are discussed.

ED-506 Effective Instruction for All (Variable; Yearly; 3.00 Credits) This course focuses on designing and delivering effective instructional strategies. Content will focus on understanding the unique needs and learning differences of all individuals and using this to inform practices and programming. In addition to an explicit and systematic approach, topics will include active student engagement, motivation, opportunities to respond, self-regulation, and grouping for instruction. Students will also learn to align standards to ensure access to the general education curriculum for all.

ED-507 Science of Reading (Variable; Yearly; 3.00 Credits) This course provides an in-depth review of the literature on structured literacy instruction that supports typical readers as well as students who struggle to acquire the literacy skills that are essential to success in school and life. Students will explore the body of work that exists on the Science of Reading (SOR) which is based upon an emerging consensus from multidisciplinary research that supports and explains the importance of explicit, systematic, and sequential instruction to support students' acquisition of literacy skills. The SOR framework for understanding reading development and disability will be utilized.

ED-508 Culturally Responsive Teaching (Variable; Yearly; 3.00 Credits)

ED-509 Low Incidence Disabilities (Variable; Yearly; 3.00 Credits) In this course students will learn evidence-based strategies to work with learners with low-incidence disabilities, severe/multiple disabilities, and/or complex communication needs. Instructional strategies focusing on functional academics, social skills, prosocial behaviors, communicative competence, among other areas will be discussed. Additional topics include positive behavior supports, assistive technologies, AAC (Augmentative and Alternative Communication), and collaborative partnerships with families.

ED-510 Capstone in Special Education (Variable; Yearly; 3.00 Credits) Students engage in a culminating project that demonstrates the content knowledge and skills they learned throughout their program. Students identify and implement a best or emerging evidence-based practice and then collect baseline and intervention data to determine intervention effectiveness. By the end of the course, students produce a capstone paper and share their research within a learning community via a presentation. This course should be taken toward the end of the program. Pre-req: ED-501, ED-502, and ED-503

MASTER OF BUSINESS ADMINISTRATION

MBA-502 21st Century Leadership (Fall & Spring; Yearly; 3.00 Credits) This graduate level course is designed to strengthen students' leadership abilities by exploring leadership concepts, theories and student's experiences of leading. The role and function of leaders looks very different today than years ago. Change is the norm. Leaders must understand today's challenges and be able to function effectively given a borderless, multicultural, virtual, and diverse group of partners, stakeholders and constituents.

MBA-511 Quantitative Analysis & Research Methods (Variable; Yearly; 3.00 Credits) Quantitative Analysis and Research Methods will examine some of the principle analytical tools for decision-making in business and investigation in the social sciences.

MBA-512 Organizational Behavior (Fall & Spring; Yearly; 3.00 Credits) In this graduate level course students will understand and interpret the theories and professional practices as related to organizational behavior. This will help students to acquire and use vital business knowledge and skills,

and will invite students to think critically. Students will be able to explain relevant business, organizational, and leadership terms, facts, and processes. This will help students to acquire and use business knowledge and skills, and will encourage students to identify and transform data into useful information for decision-making. Students will analyze information to inform organizational decisions. This will help students to acquire and use business knowledge and skills, will encourage students to identify and transform data into useful information for decision-making, will force students to think critically, and will help students to recognize and evaluate the broad effects of business decisions. Students will demonstrate professional communication skills. This will assist students, as they move forward into their lives and careers, to communicate professionally. Students, working in teams, will propose solutions to a business or organizational case. This will provide students with the benefit of learning to work as members of teams.

MBA-520 Strategic Marketing Management (Variable; Variable; 3.00 Credits) This course focuses on refining students' skills in comprehending marketing theories and measuring marketing strategies and seeing how the marketing tactics selected need to be in alignment with strategies, such as the selection of which businesses and segments to compete in, how to allocate resources across businesses, segments, and elements of the marketing mix in a dynamic competitive environment.

MBA-521 Health Economics (Variable; Yearly; 3.00 Credits) Health Economics uses microeconomic principles to better understand the history and current structure of America's healthcare system. Particular attention is paid to special interest group lobbying, ethical concerns, sources of inefficiency in the system and a historical analysis of how America's healthcare system got to its current state.

MBA-523 Managerial Economics (Variable; Yearly; 3.00 Credits) Microeconomics is crucial to understanding the environment in which a manager operates, and as such facilitates better decisions under uncertainty. The main goal of this graduate level course is to employ microeconomic models to guide business decisions and to analyze industries. Undergirding this goal is crystallizing one's understanding of the ethical tradition of the mainstream Neoclassical economic framework and

other ethical traditions that critique the Neoclassical tradition.

MBA-531 Profsnl Ethics & Social Respsnblyt (Variable; Variable; 3.00 Credits) This graduate level course examines the responsibilities of management and senior executives as they lead organizations. The course will focus on stakeholder management, corporate social responsibility, ethics and morality, sustainable development. Students will learn to analyze, question critically, challenge and change ethical and moral standards, priorities, points of trade-off and compromise to be applied to business and professional behavior.

MBA-532 Financial Reporting (Variable; Yearly; 3.00 Credits) The course examines current practices in corporate financial reporting and fundamental issues related to asset valuation and income determination. The emphasis is on financial statement analysis and interpretation of financial disclosures to help improve risk assessment, forecasting, and decision-making.

MBA-537 Strategic Cost Management (Fall only; Yearly; 3.00 Credits) An analysis of the use of cost accounting systems to accumulate and allocate costs to support decision-making and managerial control. Emphasis is on solving real business problems. We will also explore socio-economic theories of the firm so that you may better understand the reasons/rationale for the many cost management techniques and procedures used to aid in making business decisions.

MBA-541 Operations & Information Mgmt (Variable; Yearly; 3.00 Credits) Operations and Information Management is designed to expose you to many of the widely accepted quantitative and qualitative methods for solving a wide range of business problems.

MBA-542 Entrepreneurial Management (Variable; Yearly; 3.00 Credits) Entrepreneurial Management is intended for graduate students who are interested in exploring the world of entrepreneurship and innovation for the purposes of starting their own venture (venture creation) or helping existing organizations to develop new business opportunities (intrapreneurship). The course is designed to develop critical thinking and problem-solving concepts and promote self-exploration through the investigation and implementation of real business opportunities. The goal is to provide experiential and applied

learning opportunities that develop the mindset, skills and competencies that enable students to create their own opportunities and function as innovative leaders in entrepreneurial or high potential firms.

MBA-561 Healthcare Operations (Variable; Variable; 3.00 Credits) To understand operations' role in healthcare, it is important to appreciate the complexity of the healthcare industry and current trends that affect healthcare organizations from an operational perspective. Changes include new regulatory requirements, payment arrangements, technology, patient expectations, and provider recruitment challenges. Operations leadership must work to balance these shifting-and sometimes conflicting-priorities while 'keeping the lights on' and continuing to seek new efficiencies, while meeting increasingly competitive quality and performance metrics.

MBA-562 Healthcare Financial Management (Variable; Yearly; 3.00 Credits) In this course, students will examine the key factors impacting financial management of health care organizations. The course will discuss tools and techniques related to healthcare financial management. Students will learn to analyze financial data of these organizations, with particular emphasis on the budgeting process and cost controls.

MBA-563 Healthcare Strategy (Variable; Yearly; 3.00 Credits) This course is designed to enable an understanding of competitive strategy in a rapidly changing healthcare industry. The course focuses on understanding strategy and market structure, and discussing common business models and strategies for growth, integration, and alliance in a healthcare setting. Class members will discuss the development and selection of an organizational strategy and leadership of strategic planning and implementation processes. With successful completion of the course, students will be able to articulate the importance of identifying stakeholders, values, mission and vision for an organization, and to identify internal and external environmental factors and issues that impact strategic and business planning and performance.

MBA-571 Strategic HR Mgmt & People Analytics (Variable; Yearly; 3.00 Credits) This graduate level course examines the fundamental issues behind current theory, techniques and practices encountered in human resource management.

MBA-580 Project Mgmt and Cntg (Variable; Yearly; 3.00 Credits) MBA 580 examines the challenges of providing project management in the information age of global and cultural contexts. Project management as manifested in today's workplace provides both opportunity and great responsibility. The role and function of project managers looks very different today than years ago. Change is the norm. Project managers must understand today's challenges and be able to function effectively given a borderless, multicultural, virtual, and diverse group of team members.

MBA-590 International Business Strategy (Variable; Variable; 3.00 Credits) MBA 590 is an advanced level international business strategy course that focuses on the development of skills to understand a variety of business issues that professional managers face when managing organizations in international markets. Students will first develop an understanding of the conceptual frameworks that are the cornerstones for establishing global businesses. Specifically, the course will explore matters related to politics, laws, economics, cultures, ethics and norms that will affect how business professionals operate organizations in a global market. Students will be expected to learn tools relevant to international trade and investment that are critical to multinational enterprises (MNEs). Some of the key topics we will explore in this course includes entry mode choice, organizational architecture design, internal control and incentive mechanisms; and assessing the challenges of global citizenship, ethical behavior and corporate social responsibility for international business.

ORGANIZATIONAL LEADERSHIP

ORG-501 Organizational Psychology (Variable; Variable; 3.00 Credits) Organizational Psychology introduces some of the major concepts and theories used to describe and shape the behavior of individuals and groups in relation to their work environments. It addresses topics such as employee burnout, diversity and equity, engagement, leadership, motivation, performance, values, and wellbeing.

ORG-502 21st Century Leadership (Fall & Spring; Yearly; 3.00 Credits) This graduate level course is designed to strengthen students' leadership abilities by exploring leadership concepts, theories and student's experiences of leading. The role and function of leaders looks very different today than

years ago. Change is the norm. Leaders must understand today's challenges and be able to function effectively given a borderless, multicultural, virtual, and diverse group of partners, stakeholders and constituents.

ORG-510 Organizational Communication and Culture (Fall & Spring; Yearly; 3.00 Credits) This graduate level course blends the exploration of a critical, theoretical understanding of organizational culture with the theories and skills of leadership and change, equipping students with the knowledge and ability to develop a healthy, successful nonprofit organization. As part of this course, students will explore how values shape and define organizational culture, along with management structure, geographic scope, size, client groups and governance structures. Students will develop the theories and skills needed to lead organizational change processes.

ORG-511 Quantitative Analysis & Research Methods (Variable; Yearly; 3.00 Credits) Quantitative Analysis and Research Methods will examine some of the principle analytical tools for decision-making in business and investigation in the social sciences.

ORG-512 Organizational Behavior (Fall & Spring; Yearly; 3.00 Credits) In this graduate level course students will understand and interpret the theories and professional practices as related to organizational behavior. This will help students to acquire and use vital business knowledge and skills, and will invite students to think critically. Students will be able to explain relevant business, organizational, and leadership terms, facts, and processes. This will help students to acquire and use business knowledge and skills, and will encourage students to identify and transform data into useful information for decision-making. Students will analyze information to inform organizational decisions. This will help students to acquire and use business knowledge and skills, will encourage students to identify and transform data into useful information for decision-making, will force students to think critically, and will help students to recognize and evaluate the broad effects of business decisions. Students will demonstrate professional communication skills. This will assist students, as they move forward into their lives and careers, to communicate professionally. Students, working in teams, will propose solutions to a business or organizational case. This will provide students with the benefit of learning to work as members of teams.

ORG-520 Strategic Marketing Management (Variable; Variable; 3.00 Credits) This course focuses on refining students' skills in comprehending marketing theories and measuring marketing strategies and seeing how the marketing tactics selected need to be in alignment with strategies, such as the selection of which businesses and segments to compete in, how to allocate resources across businesses, segments, and elements of the marketing mix in a dynamic competitive environment.

ORG-530 Conflict and Change (Variable; Yearly; 3.00 Credits) This course provides the student with an introduction to the study and conflict and its resolution. We will explore the basic theoretical concepts of the field and apply this knowledge as we learn and practice skills for analyzing and resolving conflicts. The first section of the course examines the causes of conflict and explores methodologies for understanding, analyzing, and responding to them. The second section of the course focuses on skills for waging conflicts productively, and for resolving and transforming them. Throughout the course we will examine conflicts occurring within different contexts that stem from a variety of needs and interests.

ORG-531 Profsnl Ethics & Social Respnsblty (Variable; Variable; 3.00 Credits) This graduate level course examines the responsibilities of management and senior executives as they lead organizations. The course will focus on stakeholder management, corporate social responsibility, ethics and morality, sustainable development. Students will learn to analyze, question critically, challenge and change ethical and moral standards, priorities, points of trade-off and compromise to be applied to business and professional behavior.

ORG-542 Entrepreneurial Management (Variable; Yearly; 3.00 Credits) Entrepreneurial Management is intended for graduate students who are interested in exploring the world of entrepreneurship and innovation for the purposes of starting their own venture (venture creation) or helping existing organizations to develop new business opportunities (intrapreneurship). The course is designed to develop critical thinking and problem-solving concepts and promote self-exploration through the investigation and implementation of real business opportunities. The goal is to provide experiential and applied learning opportunities that develop the mindset, skills

and competencies that enable students to create their own opportunities and function as innovative leaders in entrepreneurial or high potential firms.

ORG-571 Strategic HR Mgmt & People Analytics (Variable; Yearly; 3.00 Credits) This graduate level course examines the fundamental issues behind current theory, techniques and practices encountered in human resource management.

ORG-590 International Business Strategy (Fall & Spring; Yearly; 3.00 Credits)

ORG-595 Capstone (Variable; Yearly; 3.00-6.00 Credits) The Organizational Leadership capstone is designed to provide students with the opportunity to synthesize the materials they have worked with over the course of the program. The capstone provides students with a critical learning opportunity either in the form of public service project where students work with a client organization on a specific challenge or task, or conduct original research. The capstone project provides students with the opportunity to pursue a specific body of knowledge within a particular context, thus honing their expertise in a specific knowledge area, while also developing research skills, gathering and analyzing data, and in the case of a project, the opportunity to apply their knowledge and skills to a real-time need. Students are encouraged to work in teams to complete the capstone project.

ORG-INS Organizational Leadership Indep. Study (Variable; Variable; 1.00-4.00 Credits) Independent study course for students in Organizational Leadership master's program.

PSYCHOLOGY

PY-501 Organizational Psychology (Variable; Variable; 3.00 Credits) Organizational Psychology introduces some of the major concepts and theories used to describe and shape the behavior of individuals and groups in relation to their work environments. It addresses topics such as employee burnout, diversity and equity, engagement, leadership, motivation, performance, values, and wellbeing.

Academic Policies

Incoming Credit

ADVANCED PLACEMENT CREDIT

Juniata encourages students to pursue additional credits through the Advanced Placement process. Incoming freshmen with scores of 4 or 5 on an Advanced Placement test may be offered Juniata credits. Selected Advanced Placement tests have been designated by the appropriate academic programs as equivalent to one or more Juniata courses. If the student accepts Advanced Placement credit for such a test, the student is then exempt from taking the equivalent course(s) and in fact may not take the course(s) for additional credit. If an Advanced Placement test is not designated equivalent to a Juniata course or courses, general credits in the appropriate division (Natural Sciences, Social Sciences, Arts and Humanities) may still be offered.

Test scores arrive at the end of July and are reviewed by the Registrar's Office. During the first week of school, students will receive a letter in their campus mailboxes with a form that directs them to department chairpersons for discussions about whether they will

accept their AP test scores for college credit and/or direct course equivalency. Such meetings should preferably happen during the drop/add period (the first 7 class days of the semester).

A student who receives a sufficient number of Advanced Placement credits will be granted sophomore status.

To have scores sent to Juniata: Go to www.collegeboard.org or call 1-877-274-6477.

INTERNATIONAL BACCALAUREATE

International Baccalaureate Diploma recipients are granted credit for one full year (30 credits) toward a degree at Juniata. Students who have an IB Diploma normally enter the College with sophomore standing. IB certificate recipients receive course credit for each higher level examination passed with a score of 5 or higher. To receive this credit the student will meet with the appropriate department chair or designee to consider the advantage or disadvantage of accepting credit. IB credits may be counted toward degree requirements.

TRANSFER POLICY

Juniata does not accept in transfer any coursework below a grade of "C-" nor coursework of a strictly technical or

remedial nature, nor physical education coursework, nor coursework from a non-regionally accredited institution. Special circumstances may affect the transferability of an individual student record. These cases will be handled on an individual basis and decisions will be based on Juniata's academic policy. An official credit evaluation will be completed by the Office of the Registrar after a student has been admitted to Juniata.

Transfer without a Degree Students transferring without an Associate Degree will have their work evaluated on a course-by-course basis. Courses equivalent to Juniata's curriculum course description will be granted direct course equivalence. Coursework accepted in transfer may be used to meet both liberal arts graduation requirements and Program of Emphasis requirements.

Transfer with an A.A. or an A.S. Degree Juniata currently has a formal transfer agreement with Harrisburg Area Community College (PA), Community College of Allegheny County (Pittsburgh, PA), Cambria County Area Community College (Johnstown, PA), and Keystone College (La Plume, PA).

Students who possess an "AA" or appropriate "AS" degree from an accredited institution and wish to transfer to Juniata will be granted junior standing. Students would be awarded a minimum of 56 semester hours, a

maximum of 60 semester hours, regardless of course equivalence. Courses will be granted direct course equivalence. All Juniata graduation requirements must be met. Coursework accepted in transfer may be used to meet both liberal arts and Program of Emphasis requirements; however, it may take the student more than the remaining 60-64 semester hours to complete all graduation requirements.

TRANSFER CREDIT

Transfer credit is granted only for academically-valid courses in which the student earns a grade of C- or higher. Transfer credit is granted in the form of a comparable course, distribution credit, or elective credit. Credit is only awarded for courses taken at a similarly accredited institution. Students who take courses at schools without a similar regional accreditation must provide syllabi for all courses for individual evaluation by the Registrar's office and departmental review. If the course is too focused or outside our curriculum delivery, no credit will be granted.

Current students wishing to transfer credit back to Juniata must obtain pre-approval by completing a "Request for Clearance of Transfer Credit" form available in the Registrar's Office. On this form, the appropriate department chair will note the comparable Juniata course(s) (consulting as needed with the most recent instructor of the

comparable course), and the student's advisors will indicate approval. For courses not deemed comparable with a Juniata offering, decisions will be made by the Registrar with advice from the appropriate department and the Student Academic Development Committee as appropriate. It is the student's responsibility to obtain information about the course and present this information to advisors and the department chair(s).

Students who enter Juniata with fewer than 24 credit hours may apply no more than 15 transfer credits toward a Juniata degree after their initial entry. No more than eight of these 15 credits can be included in the POE. Students who enter Juniata with 24 or more credit hours may transfer credit according to the following chart.

# of credits awarded upon entry	total # transfer credits allowed after entry	# transfer credits allowed in POE after entry
0 - 23.99	15	8
24 - 53.99	9	4
54 - 86.99	6	0
87 or more	0	0

Exceptions may be made for students participating in cooperative programs,

study abroad programs, and other Juniata-approved programs. Students who have earned an associate degree elsewhere are awarded credit as indicated in the Admission section of this catalog.

Students taking a leave of absence to study at another institution whether abroad or domestic, that is not a Juniata-approved program, must obtain pre-approval by completing a "Request for Clearance of Transfer Credit" form available in the Registrar's Office. These requests are subject to the guidelines listed above.

Students who have earned an associate degree elsewhere are awarded credit as indicated in the Admission section of this catalog. Students transferring to Juniata from an accredited institution without a degree (including those that previously attended Juniata) are awarded credit as indicated in the Admissions section of this catalog.

TRANSFER CREDIT RESIDENCY POLICY

Students are allowed to transfer credits during their last semester within the provisions of the transfer policy.

However, 30 of the last 36 credits must be taken in residence. There are degree requirements that are unique to Juniata and may not be completed elsewhere. Students participating in cooperative programs, study abroad programs, and other Juniata-approved programs are considered to be in residence. Any exceptions to the residency policy must

be approved by the Student Academic Development committee.

WORLD LANGUAGE PLACEMENT

In foreign languages, students are placed at the appropriate college level based on their years of high school language or a placement exam. If a student decides to decline the evaluated level assigned and prefer to take the introductory course, students will be advised that they can not count the course type of H or I for their FISHN requirements. It will be counted as basic general elective credit.

When students enroll in world language courses and plan to study for a semester in the target language and culture on an approved study abroad semester, students can have both requirements of IC/CA waived if they take one course beyond WL 210 in the target language. English speaking placements would not count for this waiver.

Registration

DEFINITION OF A SEMESTER HOUR OF CREDIT

Juniata's guidelines for defining the approximate amount of work required for one semester hour of credit is as follows: For a course composed of classroom instruction, a semester hour of credit would normally involve 14 to 15 meeting times each semester with each

lecture class meeting for 50 minutes. For one credit of a laboratory course the student should have three to four hours of laboratory instruction each week of the semester.

For each hour of classroom instruction the student is expected to do two hours of preparation. Therefore, a typical three semester hour credit course over a semester would include 43 to 44 hours of class meetings and 86 to 88 hours of student work out of the classroom

REGISTRATION AND DROP/ADD

Normally students preregister for classes online midway through the previous semester, but registration changes can be made during the first seven class days of each semester, known as the drop/add period. During this period students may adjust their schedule by adding and/or dropping classes, and latecomers can register for the semester. Students make changes to their schedules with advisors' approval. Failure to register during the scheduled preregistration may result in a late registration fee of \$50.

FULL-TIME STATUS

A student is regarded as full-time if he or she registers for 12 or more hours of credit in each academic semester. A student who in the course of the semester considers dropping his or her credit load below 12 credit hours should confer with advisors and/or Student

Financial Planning to discuss the consequences of this action.

NORMAL COURSE LOAD

The normal course load for freshmen and upper-class students is 30 semester hours of credit per academic year. Normally students who complete an average of 15 credits per semester graduate in four years. Freshmen often opt to take lighter loads during the first few semesters and heavier loads later. Any course load above 18 credits per semester is considered an overload and will have the overload fee applied to the student's account.

OVERLOAD POLICY

In special cases, an upper-class student may register for an overload. An overload charge is made for all credit hours attempted above 18 per academic semester. The upper-class student who wishes to take more than 19 hours of credit must have an outstanding academic record, including satisfactory completion of all courses attempted and must obtain by petition the consent of the Student Academic Development Committee. No student may take more than 21 credit hours per semester.

Excluding advanced placement credit, freshmen normally are not permitted to receive credit for more than 34 credit hours that academic year. A freshman may take more than 18 semester hours of credit only during the second semester and must fulfill two special

requirements: (a) satisfactory completion of all first semester courses attempted, and (b) approval by advisors and/or other appropriate faculty as determined by the Registrar.

If a student registers for an overload and then withdraws from the College, a refund will be made according to the refund policy explained under Student Finances. No refunds are given for course withdrawal from an overload after the drop/add period. Some courses extend over more than one term. All courses must be completed, however, within one academic year, not including the summer. All special arrangements for programs must be made in the Registrar's Office.

CLASS STANDING

Class standing and satisfactory progress are measured on the basis of a student's ability to complete their studies in four years by carrying a normal course load each semester. A student is making satisfactory progress and has achieved the class standing at the semester credit hour intervals as listed below:

- Freshman - up to 23.99 credit hours
- Sophomore - 24 up to 53.99 credit hours
- Junior - 54 up to 86.99 credit hours
- Senior - 87 and above credit hours

AUDITING COURSES

Persons who wish to audit classes may make arrangements with the Registrar

to attend one or more courses without receiving grades or credit. The decision to audit a course must be made by the end of the drop/add period. The transcript does carry notations of audited courses. Permission of the course instructor is necessary and an auditing fee must be paid in the Business Office. This fee is waived for students enrolled in a regular full-time College program, but occasional academic course fees remain in effect (lab and field trip fees, etc.).

REPEATING COURSES

Students who wish to repeat a course must consult with the Registrar. Although credit may not be granted twice for a particular course, there is no limit on the number of times a student can retake a course for an improved grade. Only the highest grade received will be reflected in the student's grade point average.

INDEPENDENT STUDY, CREDIT BY EXAMINATION, TUTORIAL, AND SPECIAL TOPICS COURSES

A student may wish to pursue studies not listed as course offerings. In such a case, independent study may be appropriate. Requests for independent study are handled by Registrar's Office according to policies established and maintained by the Department and Program Committee.

Independent Study

Students applying for an Independent Study must make arrangements with a faculty member and register for the course (using forms available in the Registrar's Office and on the Registrar's website) two weeks prior to the semester in which the credit will be earned. The instructor will designate a syllabus, text, or other materials required and will submit to the Registrar an explanation of course requirements (i.e., examinations, papers, and faculty-student conferences). A student may enroll for no more than two Independent Studies in a semester. An Independent Study is considered an upper-level course; no more than two Independent Studies are permitted in a POE. Independent studies will carry no General Education designations.

Credit by Exams

Students may be given credit for some courses without participation in class meetings but by meeting all other requirements of the courses. To determine if a course is available for Credit by Examination (CBE), the student should consult the faculty member who is currently teaching the course. If the course is not currently offered a faculty member who has taught the course at least once in the last three years may conduct the course on a CBE basis. A course may be offered CBE only to full-time Juniata students. CBE is intended to be used as an option when scheduling conflicts prevent a student from scheduling a course required for

graduation, which will not be available in any other semester prior to their graduation and cannot be fulfilled by any other course. The decision to offer a course CBE rests solely with the faculty member responsible for the course, since not all courses lend themselves to Credit by Examination (e.g., courses dependent on discussions and field trips and laboratory courses). The faculty member currently responsible for a course is NOT obligated to offer the course CBE in a given semester, as each faculty member must consider their own previously scheduled work load. The deadline for CBE registration is the end of the drop/add period during the semester in which the course is to be taken. Independent Study and CBE courses are considered part of the normal load of a student and, if taken as an overload, are subject to the usual overload fee.

Tutorial

In a tutorial, the faculty instructor and the student work closely on a regularly scheduled basis involving lectures, demonstrations, explanations, and evaluation. The purpose of the tutorial is to enable a student to pursue a study which is too complex either in nature or scope to address as an independent study. Through regular contact with the instructor, the student will benefit from the instructor's expertise on a highly individualized basis.

During the Summer Session, a student may register for one Independent Study, Credit by Examination, or Tutorial if enrolling concurrently in one regularly offered course.

All forms can be found here:

<http://www.juniata.edu/services/registrar/forms/>

Through regular contact with the instructor the student will benefit of his/her expertise on a highly individualized basis. Some tutorials are arranged to assist the faculty with classroom activities and for review sessions for large introductory classes. No pay is associated with students who are earning credit for the course.

Special Topics Courses

Faculty members may offer courses as a "special topic" with the approval of their departmental chair. Special topics courses are numbered as 199, 299, 399, or 499, where the course level is indicated by the first digit. Such courses provide a means for instructors to (1) teach topics which are of timely but ephemeral interest or (2) teach a course on a trial basis. They are expected to be as academically rigorous as designated courses. Special topic courses may be offered three times before a course must be formally approved. Special topics courses may be included in a student's POE, but they may not fulfill general education requirements (see

section 3.3.1, l) unless approved to do so by the General Education Committee.

SUMMER AND WINTER SESSIONS

Juniata conducts a Summer Session program designed for a wide variety of students. The course offerings are a subset of those offered during the regular year and are similarly rigorous. During Summer Session, the normal class load is three to six semester hours per four-week term.

It is the student's responsibility to be attentive to the course syllabus and successfully complete the course materials prior to the end date. *Any concerns about course completion should be communicated to the instructor as soon as possible.*

COURSE LIMIT: Summer and Winter Term courses are taught at an accelerated pace. Students may register for no more than one course during Winter Term 2021. Students wishing to enroll in an additional course should contact the Registrar's Office at registrar@juniata.edu.

COURSE DROP: Students may drop a course up to the published drop deadline and receive full reimbursement. Students must email the faculty instructor and the Registrar's Office at registrar@juniata.edu to drop a course. Dropped courses do not appear on a student's transcript.

COURSE WITHDRAWAL: Students may withdraw from the course from the day after the drop deadline until the course withdrawal deadline that is specified in the course syllabus. *NOTE: Each course's withdrawal deadline varies, so be sure to check the syllabus.* Students must email the faculty instructor and the Registrar's Office at registrar@juniata.edu to withdraw from the course. The course withdrawal will be noted on the student's transcript with a W, however the W does not impact the cumulative GPA. *Lack of participation/log-on is not considered course withdrawal and will result in a final grade of F.* Students will be refunded course tuition and fees on prorated basis.

AUDIT: Summer and Winter Term online courses may not be audited.

Course Offerings

Summer Session academic programs are supervised by the Provost and administered by the Registrar. The number of courses offered and the size of the teaching staff are determined by the Summer Sessions' instructional budget which, in turn, is built upon the expected enrollment.

The Registrar is responsible for developing the schedule for the academic program. Faculty suggestions are solicited when the program is in the planning stages. No faculty member is permitted to teach more than two

courses during the Summer unless the Registrar deems it necessary for a balanced academic program and no other qualified instructor is available.

The Academic Dean decides which courses are ultimately offered and will adjudicate difficulties not solved by negotiations with the Registrar.

Courses are expected to meet an average of 14 hours per session per semester hour of credit.

Compensation

The Summer Sessions' budget is established by the Registrar in consultation with the Provost. The salary schedule is approved by the Provost and the President, and the Office of Personnel Services prepares all contracts for the instructional staff.

Faculty who offer tutorials, independent studies, and Credit-by-Examinations during the Summer and those who supervise field work while not on regular academic year contract will be paid a stipend for the work involved in giving such courses. Field work courses may sometimes be offered as a regular part of the Summer program. In these circumstances, the faculty member supervising the field work will be offered a regular contract if there is sufficient student enrollment in the field work course.

UNDERGRADUATE ENROLLMENT IN GRADUATE COURSES

Undergraduate students pursuing a baccalaureate degree at Juniata College may take graduate courses at the 500-level or above, if the student meets all the following eligibility criteria:

- The student has completed a minimum of 90 credits (i.e. holds senior standing) at the undergraduate level
- The student has a minimum GPA of 3.0 overall, including transfer credits
- The student must obtain approval from their adviser and the Director of the Graduate Programs

Additionally,

- Up to nine graduate credits can be taken as an undergraduate student
- Only graduate credits that are in excess of the 120 undergraduate credit requirement can be counted toward an advanced degree
- Graduate courses may count as an elective in the student's undergraduate program if they are not being transferred to the Graduate program. Students may not double count credits toward a graduate and an undergraduate degree.

- Students must complete the course with a B- or better for the credits to be eligible for transfer at a later date to a Juniata College graduate degree program (non-Juniata programs may have their own criteria for accepting transfer credits). Internal transfer of credit is subject to specific graduate program transfer credit regulations. Graduate courses are not eligible for the pass/no pass option.

An undergraduate student who does not meet the above eligibility requirements may request special permission in writing from the Provost and the Graduate Studies Committee.

Course Policies

CLASS ATTENDANCE

Unless notice is given to the contrary by the course instructor, Juniata College expects every student to attend all classes without fail. Regular attendance of classes is necessary to reasonable progress for most students, and it is assumed that the faculty can stimulate attendance by the skill and imagination displayed in courses.

Faculty members have an obligation to make students aware, in writing, of their policy regarding absences from class, grading criteria, and examination policies. This information should be

available during the first four days of the term in order that students may recognize schedule conflicts or prerequisite problems in time to take advantage of the Drop/Add period.

The faculty member is expected at all times to be familiar with the attendance behavior of their students, and should maintain such records as are necessary to achieve this end.

If a student is absent and approaches the faculty member for assistance in making up the missed work, the faculty member is expected to assist in so far as possible if the absence was for one of the following reasons: the student's illness, the illness of an immediate member of the family, a college-approved activity, or some emergency. For other reasons assistance may be given to the student at the discretion of the faculty member. In special cases, the Dean of Students may certify the absence of a student for medical reasons on the request of a faculty member.

A college-approved activity is an educational field trip approved by the Dean, participation in an extracurricular activity approved by the Student Affairs Council, or, on occasion, a special event approved by the Provost.

Field Trips

Juniata recognizes that field trips are important experiential learning events, and encourages faculty whose courses

are affected to make every effort to accommodate students whose courses include planned trips.

Faculty wishing to schedule mandatory out-of-class field trips are required to include the field trip dates in the course syllabus prior to the end of the drop/add period.

Absences during Election Campaigns

The participation of students in November elections can be a valuable educational experience. The fourth paragraph of the above policy is adequate to cover absences for this purpose. A student may be excused by the faculty member with the privilege of making up missed work but the student must give prior notice to the faculty member of their intention to be absent for a stated period of time to engage in such activities. If the faculty member wishes to do so, they may require that on return, the student present bona fide evidence validating the reason for the absence.

Cancellation of Classes

Noting the very high number of canceled classes during the week prior to vacations, the faculty has gone on record as condemning the practice of canceling classes on the day before or the day after vacations. Any exceptions should be cleared with the Provost.

GRADING POLICY

For each course faculty members should develop a clear policy on attendance and grading which should be stated unambiguously to the student at the beginning of the course, preferably in the course syllabus. The policy should explain the relative value of class work, field trips, papers, and final examinations. Changes during the term in the system must be announced clearly to the students, preferably in writing.

Although the instructor sets the grading policy, they should not do it arbitrarily, for the policy should represent the best measure of the student's achievement. While setting the grading policy, the instructor should consider their expectations of students in terms of exams, papers, and other coursework. If attendance in the classroom is considered vital to the learning experience of the student, it may enter into the calculation of the grade, but if the course is conducted in such a manner that the student can progress equally well by completing their assignments whether they attend class or not, then classroom attendance is not a legitimate indicator of the student's progress and should not enter into the computation of the grade.

GRADE DEFINITIONS

Regular Grade Designations

“A” – indicates work of the highest excellence, showing a superior grasp of the content as well as independent and creative thinking in the subject.

“B” – signifies unusual achievement wherein the student reveals exceptional insight and ability.

“C” – is given for satisfactory achievement on the college level where the work of the course has been conscientious and shows no considerable deficiency in either quality or quantity.

“D” – indicates that the work of the course is of less than average or of marginal quality.

“F” – signifies work which is distinctly unsatisfactory at the college level.

The above grades may be qualified by the use of a plus (+) or minus (-). For the permanent record, a grade point average (GPA) is compiled and the GPA appears on the transcript. The following equivalents should be used for calculating the GPA:

A = 4.00

A- = 3.67

B+ = 3.33

B = 3.00

B- = 2.67

C+ = 2.33

C = 2.00

C- = 1.67

D+ = 1.33

D = 1.00

D- = 0.67

F = 0.00

S = Satisfactory

U = Unsatisfactory

Performance in a few courses is graded as S or U, but in the majority of courses, the grades listed above are given. Only grades of A(-), B(+,-), C(+,-), D(+,-), and S are given credit toward a degree.

AU (Audits)

Performance in audit classes is given a grade of AU. This is given regardless of the students' participation. Audits cannot be changed after the drop/add period and it is up to the faculty to determine at what level a student should participate in their class. There is no withdrawal from audit coursework, if a student stops attending, they will still receive an auditing with no grade or credit.

Irregular Grade Designations

In addition to the regular grade designations, the following irregular grades are used as occasion may demand. The following grades are for individual courses. Irregular grades as a result of leaves of absence are covered under *Leave of Absence*.

I (incomplete)

At the discretion of the faculty member involved, a grade of incomplete may be submitted. This option is to be used sparingly, however, and only when the student has given a satisfactory explanation (such as extended illness or accident) for failure to complete a required piece of work. Otherwise, a student receives an F for a course which is not completed. Simple preference on the part of the student for an extension of time is not regarded as sufficient cause for granting an incomplete. Upon the granting of an incomplete, the student must complete the work within three weeks of the beginning of the next semester of the academic year or an F automatically will be recorded. Any exceptions to this policy must be approved in writing by both the instructor and the Registrar.

P/NP (Pass/No Pass)

In consultation with their advisors, undergraduate students may elect to take up to 32 credits of coursework, not exceeding 8 courses, on a P/NP basis; however, only one of these courses (not exceeding 4 credits) can be in the student's POE. In order to receive a grade of P (Pass), a student must complete the course with a final grade of D- or better. A course grade below D- will result in zero credits for the course and a record of NP (No Pass) on the transcript. P/NP grades are not calculated into the GPA.

Students will have until noon on the last day of classes of the term during which they wish to take a course P/NP to elect the P/NP option. The instructor will not be apprised of the change in grading status. Students wishing to revert to a regular grade for any P/NP course taken at Juniata College can do so by the last day of classes of their graduating semester.

Individual departments and programs have the academic discretion to identify those courses that may not be taken P/NP. A list of courses that cannot be taken as P/NP will be maintained by the Registrar's office.

Students should consult with their POE advisor to determine whether specific POE classes may be taken P/NP. Students are also urged to discuss the implications of executing the P/NP option with academic advisors as admission to professional programs and/or eligibility for scholarships may be affected.

W (course withdrawal)

A withdrawal grade of W is recorded when a student drops a course after the official drop/add period at the beginning of the semester and before the withdrawal deadline. W grades are not calculated into the GPA.

A student may withdraw from a course, with documented consultation with the student's current advisors, up to the withdrawal date listed on the course

syllabus. If the instructor has not indicated a final withdrawal date on the syllabus, the default deadline reverts to noon on the last day of classes that semester.

Withdrawals will be considered complete when they are filed with the Office of the Registrar. A student who does not complete the withdrawal process will receive the grade currently earned at the time the course instructor submits final grades.

Withdrawal from courses may impact financial aid and/or inter-collegiate athletic eligibility. Students are encouraged to discuss these implications with family, academic advisors, coaches, and counselors from Financial Planning or the Dean of Students Office.

Exceptions to this policy may be made via appeal to the Student Academic Development Committee.

If a student withdraws from the College during a semester with the Dean of Student's approval, the Registrar will enter a grade of W for all registered but not completed courses. W grades are not calculated in the student's cumulative GPA, but may have other ramifications. Students who withdraw during a semester may still have financial obligations to the College. Students are encouraged to discuss these matters with family, faculty advisors, and counselors from Financial

Planning and the Dean of Students Office.

If students withdraw from all classes (withdrawal from the College), they must apply to the Student Academic Development Committee through the Registrar to be readmitted. Pass/No Pass

In consultation with their advisors, students may elect to take up to 16 credits on a P/NP basis with a limit of four credits per term. Up to one course, not exceeding 4 credits, in the student's POE and one course, not exceeding 4 credits, in general education may be taken as Pass/No Pass during the student's academic career at Juniata. However, First Year Experience courses described in Section 3.1.1.I.A of the Faculty Handbook cannot be taken Pass/No Pass. In order to receive a grade of P (Pass), a student must complete the course with a final grade of D- or better. A course grade below D- will result in zero credits for the course and a record of NP (No Pass) on the transcript. P/NP grades are not calculated into the GPA.

Students will have until the end of the drop/add period of the term during which they wish to take a course P/NP to elect the P/NP option. The instructor will not be apprised of the change in grading status. Students wishing to revert to a regular grade for any P/NP course taken at Juniata College can do so by the last day of classes of their

graduating semester. Any declaration of P/NP in effect at the end of drop/add will count towards the student's maximum of 16 overall credits allowed under the P/NP policy, even if the student chooses to revert to a regular grade or withdraw from the course.

Individual departments and programs have the academic discretion to identify those courses that may not be taken P/NP. A list of courses that cannot be taken as P/NP will be maintained by the Registrar's office. Students should consult with their POE advisor to determine whether specific POE classes may be taken P/NP. Students are also urged to discuss the implications of executing the P/NP option with academic advisors as admission to professional programs and/or eligibility for scholarships may be affected

GRADE REPORTS

Grade reports are available to the student through the ARCH at the conclusion of each semester. Students wanting to have a grade report sent to his/her permanent address or another third party must submit the request to the Registrar. The form is located in Founders Hall in the Registrar's Office.

NOTIFICATION OF GRADES

Mid-term Notices

Midway through the semester faculty will send a mid-term notice to each individual student who is doing less than C work in a particular course. This

notice is intended to make students aware of unsatisfactory performance in a course at a time when they have a chance to adjust to problems which could prevent them from achieving a passing grade.

Final Grades

Faculty members must report final grades to the Registrar within forty-eight hours of giving an exam. Prompt notification to students depends on prompt processing of submitted grades. Final Grades, once submitted, may not be changed except under unusual circumstances and then must be accompanied by rationale and approved by the Provost.

Grade reports will be posted by the Registrar's Office at the conclusion of each semester.

Performance in all courses should be reported to the Registrar by the faculty as A, B, C, D, or F (+ and -) with the exception of those courses specifically authorized by the Department and Program Committee for the S/U grading system. Grades of F should have an accompanying explanation.

The Transcript

The transcript is a complete record of a student's coursework (identified by course name, catalog number, and semester of registration), credit earned, grades (including W) and quality points assigned, and cumulative grade point

average based on all attempted courses graded A, B, C, D, or F (+ or -). In addition, the following academic actions are reported on the transcript: Deans' List, graduation honors, academic actions, military LOA, and some program certification notices.

A copy of the official transcript may be released by the Registrar's Office upon written request of a student.

The Registrar's Office maintains a complete record of a student's academic work. This record is available for inspection by the student and/or the parents of dependent students. For purposes of employment, transfer or further study, the student may request in writing that an official transcript of the record be sent to an individual or institution. Official transcripts are for the use of a third party and bear the College seal. Unofficial transcripts are for personal use by the student and bear no seal.

No transcript of a student's permanent record will be issued without written authorization from the student. No telephone or third-party requests will be honored. Members of the faculty or administration may have access to the records if they have a legitimate interest in and demonstrate a need for the information.

GRADE APPEAL

The assignment of grades for academic work is an important matter which falls

within the professional responsibility of each individual faculty member. Grades are determined in such a way as to reflect as accurately as possible student performance according to criteria available to the student and to protect the academic freedom both of the faculty member and the student. There is an inherently subjective element to grading, but it does not follow from this that grading is done in an arbitrary fashion.

A student may dispute a grade given in or for a course. When this occurs, the student should follow the appeal procedure outlined below. The faculty member issuing the grade has final authority and responsibility for determining that grade.

1. Within two weeks of the time the questioned grade is received, the student should talk to the faculty member who assigned the grade and attempt to resolve the issue.
2. If the course is team taught and no resolution is achieved, the student may request, where course policy permits, a second faculty opinion from another section leader in the course selected by the director of the course. If this is permissible and the opinion of the second leader differs from the opinion of the first in the disputed grade, the course syllabus or past practice in the course should specify how these different opinions are resolved. Where there are recognized past practices,

these should be included in the course syllabus.

3. If no resolution of the grade dispute is achieved after steps 1 or 2, the student should discuss the matter with the department chairperson or course director. In this case, the function of the chairperson or director is to attempt to determine the relevant facts and mediate the disagreement.

4. If no resolution is achieved at step 3, the matter may be referred by the student or the faculty member to the Provost, whose function it is to mediate the disagreement. The Provost will confer privately with the faculty member and the student and may call additional witnesses. Following this process, the faculty member communicates to the student the final decision. This step is the final step in the appeal process.

5. It is expected that a final decision will be made within four weeks of the time the questioned grade is received. All parties are requested to adhere to the deadlines.

FINAL EXAMINATIONS

Testing is basically an educational service to the student. When examinations are given, the primary purpose should be to provide an opportunity for the student to respond creatively and systematically to the instruction which they have had. Secondly, the results may be used as a basis of grading. The teacher has a

professional obligation to review tests seriously, pointing out for the benefit of the student both the strengths and inadequacies of the student's work. The tests should be returned promptly with grade and comment.

Written examinations are usually given in each course during the examination period at the end of the semester. Final examinations must be taken during the designated final examination period at the end of each semester. (This means faculty are not permitted to schedule final examinations during the last week of classes or during Reading Day.) The schedule is prepared by the Registrar, and students are expected to take examinations at the announced times. Exceptions to this rule may be granted by the Registrar in consultation with the Curriculum Committee if the Registrar deems it necessary.

Standing practice has set an unofficial guideline that final examinations, if given, are to be calculated at between one-third and one-half of the final grade. Final examinations may be repeated. In addition to final exams, faculty members are strongly urged to give frequent quizzes and tests throughout the semester, with or without advance notice.

COLLEGE ACADEMIC INTEGRITY POLICY

All members of the Juniata community share responsibility for establishing and maintaining appropriate standards of

academic honesty and integrity. Students oblige themselves to follow these standards and to encourage others to do so. Faculty members also have an obligation to comply with the principles and procedures of academic honesty and integrity. Academically dishonest acts include cheating, fabrication and falsification, multiple submission, plagiarism, unacceptable use of College computing systems or of electronic technology, abuse of materials, and complicity in academic dishonesty.

All offenses are reported to the Assistant Provost and all confirmed violations of the policy are kept on file until the student is separated from the College. If a student is accused a second time, the case can be automatically referred to the Judicial Board. Penalties may include, but are not limited to, the following: a formal warning; a reduced grade for the assignment; a reduced grade for the course; suspension from the College; dismissal from the College.

A more complete description of the College's policy on academic integrity and the procedures followed during a hearing of the Judicial Board can be found in the Pathfinder on the Juniata College intranet.

Judicial Board Membership

The Judicial Board conducts hearings in which students have been charged with

violating Juniata College policy. The Board is comprised of three faculty members, two students (appointed by the Student Government), one administrator from Student Affairs, and one administrator from Academic Affairs. The Judicial Board is chaired by a representative from the Provost's Office, typically either the Assistant Provost or the Dean of Students (or other appropriate appointee). A recording secretary appointed by the Judicial Board Chairperson is also present.

Each Judicial Board is selected from a pool of eight faculty members, five students designated by the Student Government and all members of the Academic Affairs and Student Affairs staff.

Procedures for Judicial Board Hearings

Major misconduct and/or repeat minor misconduct which violates the Student Code of Conduct or the Academic Integrity Policy, may result in referral to the Judicial Board.

If a student has been referred to the Judicial Board for a hearing, the accused student shall be informed in writing of the charges at least 48 hours in advance of any hearing. The notice shall include a copy of the hearing procedures. Students appearing before the Judicial Board may have an advisor from the college community and/or parents/guardian(s) attend the hearing.

The hearing is private (closed).

The student may call a reasonable number of witnesses on their own behalf. Witnesses are subject to questioning by members of the Judicial Board.

The student must inform the chairperson 24 hours in advance of the hearing if the student intends to have witnesses appear. The notification must include the names of any proposed witnesses and their relevance to the situation.

If the student does not appear, the hearing will be held in absentia and the student may be additionally charged with failure to comply.

When a student appears before the Judicial Board, the Chair reminds the student that he or she is expected to tell the truth. If it is later discovered that a student has been dishonest and/or misrepresented themselves to the Board, that student is eligible for suspension from the college.

On behalf of the college, the Chairperson of the Judicial Board presents the charge(s) against the student.

The student shall have an opportunity to make an opening statement.

In the specific case of a charge of academic integrity, the faculty member presents the evidence of the violation to the Board. The student is responsible

for presenting any evidence in defense of themselves. The burden of proof is on the faculty member. The student and the faculty member may question any witness and inspect any document offered as evidence and make whatever statement or argument appears to be appropriate.

After the student's opening statement (and presentation of evidence from the faculty member for academic integrity charges), the Board may address questions to any party or witness summoned, but shall limit the scope of the testimony to matters relevant to the charges. (The Board may request the presence of any witness deemed necessary for the hearing.)

The student and/or advisor may not directly question any witnesses. However, the student and/or advisor may suggest questions to the Judicial Board to ask of witnesses.

At the end of the question-and-answer period, the student and/or advisor(s) and parent(s)/guardian(s) have the opportunity to make closing statements.

Following the conclusion of the hearing, the Board shall deliberate in private.

The Board shall, by majority vote, make a determination as to whether there has been a violation of Juniata policy and recommend sanctions. The Board provides its recommendation to the hearing chairperson. The hearing chairperson will inform the student of

the recommendation(s). The chairperson of the hearing prepares a final report documenting the hearing and the final decision.

The Dean of Students will officially notify the student charged of the final decision and any sanction imposed.

Appeals

A student has 48 hours from the hearing conclusion to submit an appeal in writing to the hearing chairperson. Failure to submit the appeal within the time allotted renders the decision final.

The Chairperson refers the appeal to the Provost. A decision on the appeal will be made within 48 hours and is based on the letter of appeal and the case file. The Provost may remand the case to the Judicial Board only if the Provost specifies procedural errors that denied the student a fair hearing, or if additional significant evidence becomes available.

The Provost shall send a copy of the written decision on the appeal to the student, the faculty member, and the hearing chairperson.

The decision of the Provost shall be final.

Rights of Students Charged

Certain procedural rights are normally afforded a student charged with a disciplinary violation of college policy.

The right to have one's case processed without undue delay.

Written notice (including email) of the charges and the regulation upon which the charges are based no less than 48 hours before the scheduled hearing.

Written notice of the time, place and date of the hearing. (Students are responsible for checking their electronic Inbox and mailboxes daily.)

The right, but not the obligation, to be present at an Administrative Hearing.

The right to testify on one's own behalf or to remain silent.

The right to be presumed innocent.

The right to be assisted in one's defense by any member of the college community of one's own choosing.

The right of appeal.

Following an alleged act of student misconduct, and until final disposition of the charges, the status of a student shall not be altered or their right to be present on campus and to attend classes suspended, except for reasons relating to their own physical or emotional safety and the well-being of other students, faculty or college property, or for reasons relating to the protection of the normal functions of the college.

Case Records

Records of judicial proceedings shall be kept confidential in accordance with the Family Educational Rights and Privacy Act (FERPA). Case Records shall remain part of the student's files, but will not be noted on the official college transcript. Case Records will be expunged upon the student's graduation.

Standards of Progress

GOOD ACADEMIC STANDING

Students who meet the following criteria are in good academic standing.

Students who are not in good academic standing will be subject to an academic action and participate in the Academic Recovery process. All criteria will be assessed at the end of each semester, except the percentage of attempted credits, which will be assessed at the end of each academic year.

Grade Point Average (GPA)

Each student must meet both of the following requirements:

- maintain a grade point average of at least 1.66 each semester.
- maintain a cumulative grade point average of at least the minimums given in the table below.

Credit Hours Attempted	Grade Point Average
------------------------	---------------------

0-35.99	1.66
36-61.99	1.80
62-89.99	1.95
90 or more	2.00

Credit Completion

Each student must earn 67% of their attempted credits.

In addition, full-time, degree-seeking, undergraduate students must earn at least 12 credits per semester.

MONITORING OF GOOD ACADEMIC STANDING AND ACADEMIC ACTIONS

The Registrar is responsible for identifying and notifying students who are not in good academic standing. Notification is also sent to academic advisors and other college officials as appropriate.

Good academic standing is determined at the end of the fall and spring semesters.

Academic Alert, Academic Warning, Academic Suspension, and Dismissal constitute a progression of levels of warning and support. The Registrar may enact these academic actions without progressing through all previous levels.

Academic Alert and Academic Recovery

The first time a student is not in good academic standing, the student will be given an Academic Alert and participate

in Academic Recovery during their next semester of enrollment.

Students in Academic Recovery are expected to work with their academic advisors and other staff to design an academic improvement plan that describes how the student can regain good academic standing. The academic improvement plan must involve one or more individuals who will partner with the student for regular encouragement and accountability.

Academic Warning, Academic Suspension, and Dismissal

Students who do not return to good academic standing after participating in Academic Recovery may be given additional warning and support through the academic actions of Academic Warning, Academic Suspension, and Dismissal. Students who have received an Academic Warning or are returning from Academic Suspension will continue to participate in Academic Recovery with additional oversight.

- Academic Warning signals that a student may be at risk for Academic Suspension or Dismissal.
- Academic Suspension is a hiatus in enrollment during which a student is to reflect on their progress in order to make changes that will allow them to return and be academically successful. A student who has been suspended must work with the Dean

of Students Office to return from suspension.

- Dismissal is a separation from the College that signals that a student has consistently not demonstrated ability to succeed academically at the current time.

The Registrar will keep a record of criteria for the different levels.

Students have the right to appeal Academic Suspension and Dismissal. Appeals should be made through the Registrar's Office and are based on the procedures and criteria established by the Student Academic Development Committee.

Students who have been dismissed may reapply to the Dean of Students Office for readmission. The student and their advisors will be notified of the results of the appeal. Students who successfully appeal Academic Suspension or Dismissal will have Academic Warning noted on their transcript.

Financial Aid Probation

In accordance with federal regulations, students must be in good academic standing at the end of an academic year in order to receive continued financial aid unless the student successfully appeals based on the procedures and criteria established by the Office of Student Financial Planning.

If the student appeal is successful, the student will be placed on Financial Aid

Probation and will be reassessed to determine if they are in good academic standing at the end of their next semester of enrollment.

If a financial aid appeal is denied, the decision is final. A student may be able to re-establish eligibility on their own, for future semesters, by completing sufficient credit hours and/or improving their GPA such that they are in good academic standing. Students can consult with the Office of Student Financial Planning regarding questions about re-establishing eligibility.

LEAVES OF ABSENCE

Students who want to pursue a program of study at another institution, engage in other off-campus educational experiences, and/or address personal issues without severing their connection with Juniata may request a leave of absence. A leave of absence is granted only with written approval from the Dean of Students Office in consultation with the Registrar. A student requesting a leave of absence must be in good academic standing. Absent extraordinary circumstances, a leave of absence will not exceed one-year.

Any student who plans to take a leave of absence should consult the Registrar, Student Financial Planning, and The Dean of Students Office.

Voluntary Medical Leave of Absence:

When a student's health impedes normal academic progress and/or a situation requires a student to leave the College for one or more weeks, the student may seek a voluntary medical leave of absence. A medical leave of absence is granted through the Dean of Students Office in consultation with the Registrar. The student will be required to submit supporting documentation from his or her medical/health care provider to substantiate the need for the leave. A student on a medical leave of absence will be required to submit documentation from his or her medical/health care provider attesting to the student's ability to return from the leave of absence (and outlining any reasonable accommodations, if applicable) prior to expiration of the leave of absence.

Upon receiving notification of an approved medical leave of absence, the Registrar will enter a "W" grade for all registered but not completed courses in the current semester. "W" grades are not calculated into the student's cumulative GPA, but may impact progress towards the degree standards. A student who is granted a medical leave of absence may still have financial obligations to the college. The student should consult with Accounting Services and Student Financial Planning to clarify any outstanding financial obligations.

Involuntary Medical Leave of Absence:

A student may be required to take an involuntary medical leave of absence in situations where the student is a threat to his own health and safety or the health and safety of others, or where the student's illness or behavior interferes with the academic pursuits of the student or others or interferes with the regular activities of the College community. The student will be notified by the Dean of Students of the reasons for the involuntary leave and any conditions for the student's return. The student will be required to submit documentation from the student's medical/health care provider attesting to the student's ability to return from such a leave (and outlining any reasonable accommodations, if applicable). Supporting documentation, along with the student's written request to return to the College, must be received by the Dean of Students at least 30 days prior to the first day of the semester in which the student wishes to return. This is designed to provide the College with sufficient time to evaluate the documentation and the student's request to return as well as to ensure that the student no longer presents any potential threat.

A student on an Involuntary Medical Leave of Absence will receive a "W" grade for all registered but not completed courses in the current semester. "W" grades are not calculated into the student's cumulative GPA and will not be reviewed for academic

progress. Financial obligations to the College will be pro-rated based upon the date of involuntary medical leave.

Military Leave of Absence:

A student who receives orders to report for active military duty should contact the Dean of Students Office. The student should be prepared to present a copy of military orders (if timing does not permit an initial presentation of military orders, the student may begin the leave process by submitting, in writing, a personally signed request indicating times and dates of intended call-up). However, when available, a copy of the military orders must be provided in order for the leave process to be completed and any financial reimbursements made.

The Dean of Student Office will notify the Registrar's Office, Accounting Services, Student Financial Planning Office and if appropriate the Office of Residential Life to expedite the military leave of absence process. The Registrar will enter a grade of "W" for all registered but not completed courses in the current semester. If the leave occurs late in the semester, the student may arrange for a final graded evaluation of his/her course work or take Incompletes for all remaining coursework. The Registrar will add the notation of "Military Leave of Absence" to the student's transcript.

The Student Financial Planning Office will provide information on the status of the student's financial aid, including information on deferring any loan payments.

The College will refund complete tuition payments to a student who processes a military leave of absence for the current semester. Room and board charges will be prorated based upon the date of the military leave of absence (No refunds can be made until the College has received a copy of the military orders calling the student to active duty).

Upon completion of active military duty, the student will be automatically readmitted to the College by notifying the Registrar's Office in writing of his/her intent to resume academic study at Juniata . All rights, privileges, academic status and rank are resumed at the same level as prior to the Military Leave of Absence.

Medical Withdrawal:

A student may make a request for a medical withdrawal from a course, or withdrawal for other extraordinary circumstances, through the Dean of Students Office or the Student Academic Development Committee. A request for a medical withdrawal must be accompanied by supporting documentation from the student's medical/health care provider.

Upon receiving notification of an approved medical withdrawal, the

Registrar will enter a grade of "W" which will not be calculated in the student's cumulative GPA. Medical withdrawals may impact College progress- towards-the-degree standards. Students are encouraged to discuss these implications with family, faculty advisors and counselors from Financial Planning or the Dean of Students Office.

Withdrawal from College:

If a student is considering withdrawing from the College, an appointment should be arranged through the Dean of Students Office. A decision to withdraw from the College may have broad implications including as to the student's financial aid. A student should meet with the Dean of Students Office to discuss withdrawal procedures and to complete the appropriate clearance forms.

If a student withdraws from the College during a semester, the Registrar will enter a grade of "W" for all registered but not completed courses. "W" grades are not calculated in the student's cumulative GPA, but may have other ramifications. Students who withdraw during a semester may still have financial obligations to the College. Students are encouraged to discuss these matters with family, faculty advisors and counselors from Financial Planning and the Dean of Students Office.

Exceptions to Academic Policies

Most exceptions to academic policies are processed by the Student Academic Development Committee.

Exceptions to academic policies that involve Title IX of the Education

Amendments of 1972 are processed by the Title IX Coordinator or Deputy. Exceptions to academic policies that involve the Americans with Disabilities Act are processed by the Coordinator of Disability Services or the supervisor of the Coordinator of Disability Services, as chosen by the student. Final approval for either exception is provided by the Provost or the Provost's designee.

Academic Opportunities & Resources

Academic Opportunities

Pre-professional programs

HEALTH PROFESSIONS

[Health Professions Link for different programs](#)

Health Professions

Advisors: Professors Peter Baran, Kathy Baughman, Randy Bennett, James Borgardt, Dan Dries, Kathy Jones, Jill Keeney, Elizabeth Mansberger, Susan Radis, David Widman, and Ursula Williams.

We offer advising for entry into professional and graduate school training in such fields as Art Therapy, Audiology, Biotechnology, Chiropractic, Cytotechnology, Dentistry, Genetic Counseling, Health Administration, Health Communication, Social Work with a Focus in Medicine/Behavioral health, Medical Technology, Medicine, Naturopathic Medicine, Nursing, Occupational Therapy, Optometry, Pharmacy, Physical Therapy, Physician

Assistant, Podiatric Medicine, Public Health, Radiologic Sciences, and Veterinary Medicine. Students interested in a career in the health professions must meet the specific requirements for admission to a professional school. Since these vary from school to school, the students consult with a member of the Health Professions Committee as they prepare their courses so that students not only have an excellent chance of acceptance into professional schools, but also receive a breadth of knowledge that provides a firm foundation for their liberal arts education.

Students gain in-depth exposure to the health sciences through various types of opportunities that include internships at various health care facilities and universities, shadowing of local health professionals, health-related course work, participation in the Primary Care Scholars Program offered by The Pennsylvania State University College of Medicine at Hershey, and/or various research opportunities on and off campus.

Juniata offers exceptional preparation for students interested in rural medicine through opportunities for shadowing at

J.C. Blair Memorial Hospital in Huntingdon, a summer internship at Altoona Regional Health System and winter break programs at Altoona Regional and Geisinger Health Systems. To assist students for professional school applications we offer a Health Careers Seminar that provides an overview of the entire application process and an on-campus, faculty led Admission Exam Prep Course.

In addition, as a result of a bequest by a Juniata alumnus and physician, there is a four year Lawrence Johnson Scholarship at the University of Rochester School of Medicine and Dentistry for Juniata premedical students.

PRE-LAW

Advisor: Professor Barlow

The pre-legal student should seek a broad undergraduate experience in the liberal arts. Students interested in law should have a thorough command of English, an extensive background in research methods, skill and experience in developing logical arguments, and a critical understanding of the human institutions and values with which the law deals. They are strongly encouraged to develop proficiency in another language and to study abroad. Juniata also offers courses in conflict resolution, a growing field in the legal profession. Although students may develop any Program of Emphasis which suits their particular talents and

interests, the experience of others indicates that English, history, politics, American studies, and economics are the most common programs of students entering law schools.

In addition to helping students through the process of applying to law school, the pre-law advisor assists with course selections that will fulfill their POE goals while providing them with appropriate skills for the study of law. In addition, he helps to provide students with resources to prepare for the LSAT and helps to arrange internships that allow students to explore the legal field while they are in college. Students should plan to take the LSAT in the fall of the senior year and apply to law school by mid-January.

A special arrangement with the Duquesne University School of Law allows students to apply for admission to the Law School after three years of undergraduate study, allowing them to complete their degrees in six rather than seven years. Students must have a LSAT score that puts them at or above the 75th percentile, and a GPA of 3.36 or better.

SOCIAL WORK

Advisors: Professor Radis

The Dorothy Baker Johnson and Raymond R. Day Social Work Program, accredited by the Council on Social Work Education since 1982, is designed primarily to prepare students for

beginning professional practice in the field following successful completion of the undergraduate requirements. An important secondary objective of the program is preparation for graduate education in social work and related areas of study.

Students who seek professional competence in assisting individuals, families, groups, and communities in solving human problems develop Programs of Emphasis which reflect an interdisciplinary approach to undergraduate study. A foundation of courses from the natural and social sciences is combined with specific courses in social work practice and social welfare policy. Such a program also allows the student to focus on a particular area of inquiry (e.g., health care, criminal justice, families and children, developmental disabilities, etc.) that may complement the social work interest.

Of great importance to the social work student is Juniata's Social Work Professional Semester. In cooperation with social service agencies representing many areas of social work (e.g., medical, criminal justice, drug and alcohol, developmental disabilities, aging, family and children, etc.), the internship is organized to provide senior students with an educational opportunity to integrate and apply the skills, knowledge, and values mastered in the classroom with the daily tasks of the social worker in the field.

TEACHING

Advisors: Professors Biddle, DeHaas, Glosenger, Jones; Coordinator of Field Experience-Staff

Since 1876 Juniata College prepared individuals for careers in teaching, human development, and childcare. Currently, the Education Department is authorized by Pennsylvania's Department of Education to offer teacher certification programs in PreK-4th grade, Unified PreK-4th grade and Special Education PreK-8th grade; and 12 areas of secondary education; including Biology, Chemistry, English, Earth & Space Science, Environmental Education, Social Studies, Math, Physics, General Science, French, German and Spanish. In addition, the Education Department works closely with the Office of International Education to promote study abroad.

Although the Education Department's primary focus is on teacher preparation, department members also provide guidance and serve as advisors for individuals who create their own Programs of Emphasis. Other students do a secondary emphasis in education and combine studies in education with programs in social work, health professions, psychology, human development and child life.

Students who seek teacher certification must meet all of the certification requirements mandated by the Pennsylvania Department of Education

and Juniata College's Education Department. All certification requirements for admission to, retention in, and completion of a certification program are outlined in the *Education Department Student Handbook*.

International Opportunities

CENTER FOR INTERNATIONAL EDUCATION

"As a member of the international community, Juniata College extends each student's academic experience into the wider world, supporting the free exchange of thought among peoples from distinct cultures and languages." - Mission Statement

Kati Csoman, Dean, Center of International Programs

Since the inception of its faculty-generated exchange programs in 1962, Juniata has championed internationalism by welcoming students from partner institutions, enabling financial aid and scholarships to apply to overseas study, encouraging faculty to recommend international experiences for their qualified students, and allowing courses taken overseas to be incorporated into any academic curriculum. Juniata promotes international competencies through study abroad for students in every Program of Emphasis. Programs of Emphasis with strong international components may be found throughout

this catalog, particularly under International Studies, World Languages and Cultures, History, Political Science, and Accounting/Business/Economics. Juniata cultivates proficiency in a second language, offers an English for Academic Purposes (EAP) for international students, hosts exchange students from twelve partner institutions, and boasts degree-seeking international students and alumni from all over the globe.

The Center for International Education (CIE) is at the core of developing and nurturing Juniata's partnerships with secondary schools and universities abroad, and with infusing internationalism into campus life. The College's vibrant exchange programs facilitate international engagement by offering a framework for Juniata students abroad, and increasing the variety and number of international students on campus. Our programs also provide faculty members with opportunities to conduct visits and arrange overseas teaching opportunities, and enable faculty members from international partner institutions to speak with classes, hold public lectures, share in joint research projects, and participate in informal interaction with students. An active "International Education Committee" and the "American Council on Education's Internationalization Leadership Team" (composed of faculty,

administrators and students) advise the CIE, help to coordinate international activities at Juniata, and provide direction for future growth. The CIE maintains membership in several national and international organizations, including the National Association of International Educators (NAFSA); The Forum on Education Abroad; Teachers of English to Speakers of Other Languages (TESOL), the Institute for International Education (IIE); the Association of International Education Administrators (AIEA); the American Council on Education (ACE); and the Pennsylvania Council for International Education (PaCIE).

INTERNATIONAL STUDENTS

Kati Csoman, Dean, Center for International Education

Juniata welcomes students from around the world. The staff of the Center for International Education (CIE) provides support to students from around the world with visa issues, pre-arrival planning, orientation, academic advising, and adjustment to studying and living in the U.S. The CIE promotes academic and social programs incorporating language, international and intercultural subjects, and works closely with faculty members and departments to support the academic performance of international students. Requirements for admission and scholarship and financial aid information for

international students can be found in the Admission section of this catalog.

INTERCULTURAL ACTIVITIES

Juniata supports a number of student organizations and co-curricular activities that facilitate intercultural learning. Students may choose to live in the Global Village, which brings together diverse students with interests in world languages and intercultural exploration into common residences for intentional living and learning communities. The French, German, and Spanish Clubs sponsor cultural events and join faculty in hosting language tables in the Global Commons. . Other clubs like the Chinese Club, and Russian Club have grown out of student interest in world cultures and are instrumental in the success of such activities as the Chinese New Year dinner, film series, lectures, and other intercultural learning activities on the campus. The Juniata Chapter of "Sigma Iota Rho", a national honor society "to promote and reward scholarship and service among students and practitioners of international studies and global relations and to foster integrity and creative performance in the conduct of global affairs," honors successful students in International Studies

STUDY ABROAD

Juniata encourages study abroad as an integral component of a liberal arts education. A variety of study abroad programs is available, including offerings for the full academic year, one

semester, and short-term programs, many of which are led by Juniata professors. While year-long language immersion programs in which a student continues to study in the Program of Emphasis are the optimal, study abroad experiences offered at Juniata provide students opportunities for personal and academic growth.

Juniata students can study abroad on every continent (except Antarctica), in the following countries: Africa (the Gambia, Morocco, Rwanda), Asia (China, India, Japan, Taiwan), Europe (Austria, Belgium, Czech Republic, France, Germany, Greece, Ireland, Russia, Spain, United Kingdom), North America (Canada, Mexico), Oceania (Australia, New Zealand), and South America (Ecuador). Juniata supports Direct Enroll/ Exchange (EXC), and Brethren Colleges Abroad (BCA) programs; some of these are Limited Enrollment (LE). A complete list of programs and their requirements can be found at: <https://www.juniata.edu/academics/departments/international/study-abroad/programs/index.php>.

Students with Programs of Emphasis from all academic departments are eligible for approved study abroad programs, following the guidance of their faculty advisers to maintain academic progress. In Juniata approved programs, credits and grades will be indicated on the Juniata transcript. In all approved programs (except summer), Juniata financial aid is applicable,

including grants-in-aid and scholarships. Students pay the regular Juniata tuition and fees for the semester and year programs and all financial aid and scholarships apply (tuition benefit involves special tuition arrangements; students can obtain information from the Center for International Education. PAR rates are not applicable to study abroad). A number of scholarships are also available specifically for study abroad (see <https://www.juniata.edu/academics/departments/international/ea/scholarships.html> for complete list). The student is responsible for the passport, visa and airline tickets to program sites. Summer and short-term programs have specific fee structures; these are provided with the program information.

In each program, Juniata students are accepted into each host institution on a full-time basis and are treated as regular members of the student body, attending classes, writing papers, taking exams, etc., side-by-side with their counterparts in the host institution. In most programs, classes are conducted in the language of the host country; in others, (e.g., Czech Republic) classes are in English and the student also takes a class in the language of the host country to facilitate adjustment. Supervision for the student is provided by the host institution; in many BCA programs, there is a resident director whose sole responsibility is overseeing the program.

Occasionally, a student may desire to enroll in a non-Juniata program. Such programs must be offered by accredited U.S. colleges or universities or involve direct enrollment in an approved university outside the U.S. In either case, credit earned may be transferable to Juniata under the usual policies and requirements for the acceptance of transfer credit. To enter these programs, students need prior approval of the Dean of the Center for International Education, the Registrar, and the Dean of Students. Juniata grants-in-aid are not transferable to programs sponsored by other institutions. Procedures for receiving aid such as outside loans and grants are specific; students should consult the Director of Financial Planning. Credits from non-Juniata programs are entered on the Juniata transcript as transfer credits; grades are not indicated

Study Abroad Scholarships

Juniata offers a number of scholarships that are designated specifically for study abroad

<https://www.juniata.edu/admission/scholarships-and-aid/>

https://www.juniata.edu/services/catalog/section.html?s1=academic&s2=international_activities

ENGLISH FOR ACADEMIC PURPOSES

Juniata's English for Academic Purposes (EAP) is a unit of the Center for International Education (CIE) and

works in cooperation with the Department of World Languages and Cultures. Juniata's English for Academic Purposes's mission is to foster and support a diverse international body of students who are enabled to participate fully and successfully in an open and stimulating community of learners at Juniata College. The program offers English as a Second Language (ESL) courses at the High Intermediate and Advanced levels of English proficiency. Content-based courses are offered so that students may practice their language skills while learning about American society and other special topics.

The English for Academic Purposes is open to students who will matriculate at Juniata as degree students, to exchange/sponsored students, and to those students who come to the U.S. with the goal of improving their English. Degree students will be able to earn up to 15 credits for their ESL courses toward their graduation requirements. Also, degree students may take non-ESL courses as appropriate.

As there are no beginning or intermediate levels, all prospective students must have minimum test scores to be considered for admission (e.g., 52 Internet-based TOEFL).

Internships

INTERNSHIPS POLICY

Purpose

An internship is a structured learning situation where a student applies concepts learned in the classroom to the realities of an on-the-job experience. The primary purpose of an internship is to provide an educationally sound platform for the development of the student's human, social, and management skills through a field-based activity. Interns receive practical training and experience in a variety of settings through cooperatively arranged placements. Interns are placed in preprofessional positions and work side-by-side with other employees or as "management trainees."

Credit versus Non-Credit Internships

Credit for internships is not given for work per se. Students apply theoretical concepts to the workplace and reassess ideas. Hence, academic credit is given for placing the preprofessional work experience in a conceptual and comparative context. The primary distinction between credit and non-credit internships is the degree to which students are required to reflect on their experiences. This distinction is exhibited in the differences in the academic requirements, the degree of college supervision, the investment of college resources, and the student's payment for the receipt of credit.

With both credit and non-credit internships placement is a coordinated responsibility of the Career Services staff, faculty members, and the students. In credit internships, the academic department is expected to lead the placement effort, while in non-credit internships the Career Services staff takes the lead. When a department or a program cannot be assigned for a for-credit internship (non-departmental; ND) the POE advisor will lead the placement effort.

In the case of credit internships, students may be compensated for internship work as long as the department and/or faculty sponsor believes that the college can maintain enough control of the internship experience to ensure its academic validity.

Credit Internships

Application Procedure

A student pursuing a credit internship must have a minimum 2.00 cumulative grade point average, have junior or senior status, and be in good academic standing. Individual departments may set additional requirements, such as higher GPA requirements. All faculty sponsors must have faculty status.

In order to apply for a credit internship, the student obtains a Learning Agreement Plan from the Career Services Office, recruits a faculty sponsor from the department or

program most closely related to the internship, and secures a placement position. Then the student presents an internship proposal to the appropriate faculty members (the faculty sponsor, both advisors, and the department chair) for review. For non-departmental (ND) internships, a student's POE advisor will serve as the faculty sponsor or the student may suggest another faculty member who has expertise in the proposed internship field. A non-departmental internship proposal is reviewed by the POE advisor or the advisor-selected sponsor, and the ND chair. Upon approval of an internship application, the student next submits the proposal to the Director of Career Services and the Registrar for approval. Agency or placement contracts/agreements are developed as needed.

Course Designation and Evaluation

Students must register for an internship and an internship seminar. The seminar need not be a typical classroom experience but is intended to provide time for reflection, analysis, and feedback between the student and faculty sponsor. In both cases the student and faculty sponsor negotiate the amount of credit to be awarded, which in turn determines the intensity of the experience. A semester internship carries a minimum of 4 credits (2 internship credits + 2 seminar credits) and a maximum of 15 credits (normally 9 + 6, except in cases where an outside

accrediting agency requires otherwise, such as Social Work and Education in which the division of credits is decided by the appropriate department). Students can earn no more than 15 internship credits towards their graduation requirements during their four years at Juniata. Faculty sponsors should note that a minimum of 12 credits, including the internship credits, must be maintained for students to be eligible to receive their financial aid awards for the semester.

The faculty sponsor awards standard letter grades (A-F) for the internship and the internship seminar.

The internship is designated as course 490 in the appropriate department ("Internship") and carries 2 to 9 credits. Credit is awarded in proportion to time spent on the job according to the following figures:

2 credits	= 8 hours/week
3 credits	= 12 hours/week
4 credits	= 16 hours/week
5 credits	= 20 hours/week
6 credits	= 24 hours/week
7 credits	= 28 hours/week
8 credits	= 32 hours/week
9 credits	= 36 hours/week

Grading is based on the following criteria:

Successful completion of the Learning Agreement Plan

Contact with the faculty sponsor with one on-site visit preferred, but allowing alternative communication as appropriate substitutions where an on-site visit is not feasible

A final evaluation conducted by the student, the placement supervisor, and the Juniata faculty sponsor.

The internship seminar is designated as course 495 in the same department ("Internship Seminar") for 2 to 6 credits. Credit for this course is awarded in proportion to time spent with the faculty sponsor as follows:

2 credits = 6 contact or study hours/week

3 credits = 9 contact or study hours/week

4 credits = 12 contact or study hours/week

5 credits = 15 contact or study hours/week

6 credits = 18 contact or study hours/week

Grading for the seminar is based on

Contact with the faculty sponsor

An extensive project, paper, or program as arranged with and periodically reviewed by the faculty sponsor

Completion of other seminar components as designed.

A student presentation is strongly recommended for high credit experiences.

Examples of past seminar requirements are:

2 credits:

Journal of activities, outline of final paper, final paper, talk to student group;

Work journal, portfolio, annotated bibliography, oral presentation;

Journal, public presentation, short assignment, term paper;

Meet with sponsor, submit copies of projects, descriptive analysis of operations at placement.

3 credits:

Log and annotated bibliography, research project and report, self-evaluation of performance, weekly meeting with sponsor;

Read three books, daily journal, 15-20 page research paper.

Journal, abstracts, outline of final paper, final paper, talk to student group.

4 credits:

Daily journal, two book reviews, outline of research paper, major research paper, weekly consultations with sponsor.

5 credits:

Daily journal, weekly consultations with sponsor, book review, 2 major research projects.

6 credits:

Daily journal on significant events, weekly consultations with faculty sponsor, three major research projects.

The intern must fulfill any additional departmental requirements provided these requirements do not conflict with internship policies.

Non-credit Internships

Application

Individuals pursuing non-credit internships must have a minimum cumulative GPA of 2.00.

The student submits a registration card and the non-credit Learning Agreement Plan to the Career Services Office. Agency or placement contracts/agreements are developed as needed.

Course Designation and Evaluation

The Internship Committee oversees non-credit interns, awarding grades of satisfactory ("S") or unsatisfactory ("U"). Evaluation is based on the following elements:

A Learning Agreement Plan

Contact with the Career Services Office

Regular supervision and final evaluation by the placement supervisor;

Final evaluation by the intern

A presentation upon completion of the internship experience.

Upon successful completion of all necessary requirements, a non-credit internship unit appears on the academic transcript as course number XX1 ("Internship" followed by the title as approved by Career Services) in the appropriate department. Students may complete multiple non-credit internships and receive transcript notation each time (course XX2, XX3, etc.).

Interns must fulfill any additional departmental requirements provided these requirements do not conflict with internship policies.

NON-CREDIT SUMMER INTERNSHIPS

Exciting opportunities are available for Juniata students in virtually every academic area, and Career Services is available to assist students in finding academically-meaningful positions. Students must have a minimum GPA of 2.0 and have completed a minimum of 12 credits hours in courses directly related to the internship prior to applying for a transcript notation internship, and must submit a learning agreement plan. With few exceptions, summer internships are not for credit, but can be officially noted on the student's transcript as an academically-valid

experience. Approximately 150 students participate in this program each summer. Note: Transcript Notation internships can also take place during the academic year. There is a maximum of two notations in a single summer and one per academic semester.

The College encourages organizations to pay summer interns, and students have earned from minimum wage to \$21.50/hour. To qualify for transcript notation, an internship must last for a minimum of 240 hours and should be directly related to the student's P.O.E. Each intern is evaluated by his/her supervisor, and must make a presentation on the experience. If the Internship is deemed appropriate and successful, the experience will be noted on the student transcript; e.g., ABC Employer, BI XX1 Internship: Biomedical Technician, Harrisburg, PA or EB XX1 Internship: XYZ Employer, Retail Sales/Marketing, Seattle, WA. While most students live and work near home, many students have taken advantage of summer internships as a way to travel and live in other areas. Students have interned in locations ranging from Hawaii to California and in organizations such as: Abbott, African Wildlife Foundation, Brigham and Women's Hospital, Geisinger Medical Center, Hershey Entertainment & Resorts, Human Rights Campaign, Johns Hopkins University, Long Island Rough Riders, PA Lions Beacon Lodge Camp, Pennsylvania Department of

Environmental Protection, Philadelphia Zoo, Penn State College of Medicine, Secular Student Alliance, Tom Steel Clinic, UPMC, Yale School of Medicine.

URBAN SEMESTER EXPERIENCES

Juniata is affiliated with several urban semester internship experience programs including: the Philadelphia Center, the Washington Center, and the Washington Internship Institute. In all these experiences, students typically earn 15 academic credits, but only a limited number (2-3) of individuals may participate annually. Approval by the Internship Committee is on a competitive basis. Program costs vary and students may be responsible for any costs above and beyond tuition and room fees paid to Juniata. Students may plan to participate in these programs during their junior or senior year. One year international students (and other students not seeking a degree at Juniata and/or attending Juniata for one year or less) are not eligible to participate. The application deadline is December 1 of the academic year prior to planned participation and is made through the Director of Career Services. A faculty sponsor is required.

WASHINGTON INTERNSHIP INSTITUTE

Advisor: Director of Career Services

Students participating in WII's internship program work four days per week and attend the fifth day seminar to process their experiences. Students actively

create and shape personal and professional learning goals by utilizing the three experiential learning components which guide the program: knowledge, activity and reflection. Past internship placements include: CNN, FAA, American Red Cross, Amnesty International, and others. Housing (excluding board) is provided.

*Participation requires approval by the Internship Committee- Deadline to apply: December 1 of the academic year prior to planned participation.

PHILADELPHIA CENTER

Advisor: Director of Career Services

The Philadelphia Center program is open to students regardless of academic field. Through cooperation with the Great Lakes Colleges Association, students may spend a semester interning in Philadelphia, gaining firsthand insight into potential careers and exposure into the issues and problems confronting our cities. Blending theory and direct experience, each program includes a supervised internship for four days per week in business, industry, social service agencies, medical facilities, political offices, schools and other organizations. Seminars, academic classes and/or research projects provide academic complements. Assistance in locating housing is provided.

*Participation requires approval by the Internship Committee – Deadline to apply: December 1 of the academic year prior to planned participation.

WASHINGTON CENTER

Advisor: Director of Career Services

Under a cooperative arrangement with the Washington Center, Juniata students may participate in internships in Washington, D.C., in nearly every academic field. Internship placement assistance is available to help students secure meaningful, relevant placements. Interns work four days per week and attend seminars, political, and cultural events the fifth day. Internship placements include public administration, congressional offices, lobbying associations, and public interest organizations like Common Cause and the Environmental Policies Center. Housing (excluding board) is provided.

*Participation requires approval by the Internship Committee – Deadline to apply: December 1 of the academic year prior to planned participation.

Student Research and Scholarship

51

Undergraduate Research

In preparation for graduate work, students are encouraged to engage in independent research projects as part of an independent study or internship or as

a member of an upper level research-oriented course. All students conducting research are encouraged to present their work in a public forum such as the annual National Conference on Undergraduate Research (NCUR).

Funding for instruments, supplies, and travel is available through application to the Scholarship Committee. Interested students should contact any of the following Scholarship Committee members: Professors Beaky, Biddle, Buonaccorsi, Muth, J. Tuten and Kruse. For more information go to the website address:

<https://www.juniata.edu/academics/research/student.html>

Students with strong records of academic achievement are encouraged to consider competing for national fellowship awards such as the Rhodes, Fulbright, Goldwater, and Marshall Scholarships, and the Mellon Fellowship. Students with meritorious records are contacted by members of the Scholarship Committee and mentored through the application process. Most applications are due early in the senior year. Interested students should contact a member of the Scholarship Committee.

Liberal Arts Symposium

The faculty agree to set aside a class day in the spring semester for students to present their research and artistic work to the campus community. No

classes will be held on this day to encourage the full participation of faculty and students. The date will be selected, as far as possible, in such a way as to encourage students to apply and present at NCUR. The date of the spring event will be set prior to the end of the fall semester. Faculty agree to attend and to encourage students to participate in and attend these presentations of student work.

Community Engaged Learning

COMMUNITY SERVICE

Over 70% of Juniata students participate in Community Service. Students perform service in many ways: individually, through class, as part of their residence hall, or through the many student service organizations on campus such as Habitat for Humanity, Circle K, Health Occupations Students of America (HOSA), Colleges Against Cancer, and Big Brothers Big Sisters. Registered student organizations are supported with community contacts through the Community Service Office. Throughout the year, Juniata hosts many campus-wide service events including American Red Cross Blood Drives, Special Olympics, Relay for Life and numerous "service days". In addition, the Community Service Office offers service-learning alternative break trips to inspire global action and awareness. In order to recognize the

efforts of those students who consistently perform service, the Community Service Office coordinates transcript notation for those who perform at least 120 hours of non-paid, non-credit volunteer work over their college careers. Students can begin tracking their service hours for service notation the fall semester of freshman year and can count all service until graduation, including summer service. Information and materials to initiate the Community Service Notation are available in the Community Service Office.

COMMUNITY WORK STUDY

The Community Work Study Program places Federal Work Study-eligible students at community agencies across Huntingdon County for part-time employment in service to the community. Students earn minimum wage while aiding organizations. Tutoring programs such as the Huntingdon Community Center After-School Program, the Salvation Army ARC of Learning Program and the Bethel AME After-School program work with Huntingdon County youth. There are also positions available with other agencies. Information, position descriptions, and applications are available in the Community Service Office

Academic Resources

Academic Advising

Faculty advisors are an invaluable source of support for students. At the time of enrollment, first-year students are assigned a program advisor who assists in orienting new students to College academic policies and procedures. By the early part of February of their first year, students choose their second advisor. Students will have a program advisor to assist specifically with POE and career issues, and a liberal arts or general advisor to assist with general academic issues such as fulfilling graduation requirements. The liberal arts or general advisor teaches in a discipline outside of his or her student advisee's Program of Emphasis. Those students who do not choose a general advisor by the appointed deadline will have one assigned to them. For exploratory students, advisors can help identify potential areas of interest. At any time, students may change advisors, subject to approval of the Registrar, as long as one advisor is from the department most prominently represented in the Program of Emphasis (POE). Students pursuing dual fields of study should select one advisor from each area.

Advising is a crucial form of guidance for all students, especially for those individuals pursuing highly structured academic programs. During summer orientation, incoming freshmen work individually with faculty advisors in their area of academic interest to select and register for fall semester courses. Once the fall semester begins, first-year students meet with their Advisors to review course registration and make adjustments as needed.

Advising Planning Meetings and Program of Emphasis (POE)

During the spring semester, freshmen meet individually with both of their advisors to discuss course selection for the following year and to devise a four-year academic plan. The Advising Planning Sheet is available to assist the student and advisors as they map individual plans of study. The planning sheet contains areas to plan a POE and meet general education requirements, including: the liberal arts distribution (FISHN), Communication Skills (CW and CS), Quantitative Skills (Q), Interdisciplinary Colloquia (IC), Cultural Analysis (CA), College Writing Seminar (CWS), and Information Access (IA). The process of completing the document provides students with the opportunity to consider personal academic and career goals, and to begin to identify those courses that will provide the background, skills, and perspective needed to achieve those goals. In addition, it is an opportunity to consider

internships, study abroad and other experiential learning opportunities.

During the spring of the sophomore year, prior to selecting courses for the following year, students must complete the Sophomore POE, which guides in planning their coursework. In addition to enumerating academic and career objectives, students sketch out a complete set of courses totaling 45-63 credits, and to explain how each course or set of courses contributes to the overall goals listed. Advisor-approved POEs are submitted to the Registrar. Failure to submit a POE by the deadline posted by the Registrar will result in a hold for future registration and a late fee of \$50.

In the fall of the senior year, students are asked once again to review the POE they have on file. Again, changes can be made either by drafting an entirely new POE or by completing a minor POE change form. In some instances, the POE completed sophomore year will remain accurate and no changes are needed. The final document, due in the Registrar's Office on or prior to preregistration for the spring semester, is considered a contract between the student and the College; students who do not complete the courses they have listed or who do not have a POE on file, are considered to have failed to meet degree requirements and will not graduate. A \$50 late fee may be applied.

ACADEMIC ADVISING POLICY

Academic advising is vital at Juniata, as it helps students determine their academic interests, strengths, and weaknesses. Sound advice is essential to students as they elect courses that both develop Programs of Emphasis and explore the liberal arts curriculum. Advisors also play a crucial role in helping students consider options in careers and post-graduate education. Academic advising is often an important factor in aiding in retention and increasing students' satisfaction with their college experiences.

There are three types of academic advisors. Summer Orientation, General, and POE advisors each has their own eligibility requirements, responsibilities and functions.

Advisor Eligibility

Faculty ranked at the Assistant Professor level or higher must serve as academic advisors and may serve as both General and POE advisors. Other faculty ranks, administrators, and staff members of the College may be named General Advisors based on approval of the Provost's Office in conjunction with the Student Academic Development Committee. Their POE advisor status must be further approved by the POE's home department chair. Any active academic advisor is eligible to volunteer as a Summer Orientation Advisor.

Types and Responsibilities of Advisors

The three types of advisors differ by the timing and processes by which they are assigned or chosen, their training schedules, and by their different responsibilities.

Summer Orientation Advisors

Assigning Summer Orientation Advisors to incoming students is the responsibility of the Office of Academic Support. That office will assign students to advisors based on the students' areas of academic interest and/or pre-professional programs when possible.

Summer Orientation Advisors are required to be trained annually to address the needs of first-year and incoming students. Summer Orientation Advisors will be required to retrieve a file on each advisee from the Office of Academic Support to be used during the orientation session. Following the session, advisors will return the files, and any notes taken during those orientation meetings, to the Office of Academic Support. These files will be distributed to assigned academic advisors at the start of the fall semester.

During Summer Orientation meetings, advisors should cover the following topics with their advisees:

1. course selection for the fall semester
2. process of choosing Program and General Advisors
3. Liberal Arts curriculum

4. development of a POE
5. drop/add process
6. course withdrawal policy

General and Program of Emphasis Advisors

General Advisors are selected by students. Those students who have not chosen their General Advisor before the selection deadline during their second semester will be assigned one. Assigning those advisors is the responsibility of the Office of Academic Support in collaboration with department chairs. A General Advisor may not be from the same department as the advisee's Program of Emphasis advisor.

The initial assignment of Program of Emphasis (POE) Advisors is the shared responsibility of the Office of Academic Support, academic department chairs, and the Provost. Students may choose different POE advisors on their own throughout their academic careers.

Duties of General and POE Advisors include:

1. Maintaining a file of information on each student, which shall be passed on to the new advisor in event of an advisor change.
2. Advising students on course selection.
3. Electronically approving schedules during official registration periods.
4. Assessing how drop/add actions affect credit loads and academic progress.
5. Reviewing degree audits.
6. Referring students to other personnel who can further assist them on academic, career, financial, housing, and personal matters. Use the "Notice of Concern" form to share concerns with appropriate persons.
7. Discussing Mid-term Notices and other academic difficulties as they arise.
8. Consider writing letters of recommendation regarding internships, job placement, graduate schools, study abroad, scholarship applications, etc., when these letters are requested.
9. Meet with a student on Academic Recovery and approve the advisee's completed academic improvement plan. Monitor advisee's fulfillment of the improvement plan throughout the semester.
10. Knowing and explaining the Student Academic Development Committee's appeals process.
11. Informing students that they may or should change advisors when academic changes or personal factors so warrant. Students will use a "change of advisor" form available in the Registrar's Office for this purpose.

12. Participating in advisor training sessions as required.

Program of Emphasis advisors have the additional responsibilities of:

1. Assisting students in developing a designated or individualized Program of Emphasis.
2. Providing rationale for POE-specific course selections.
3. Monitoring student's progress through the POE over the academic career.
4. Assisting in formulation of plans for career, graduate school, and/or professional school.

Advising Students on Academic Probation

The College has an obligation to give students who receive an Academic Alert or Academic Warning additional assistance. As a College we should utilize available resources as part of the Academic Recovery process to help these students maximize their potential and increase our efforts to retain these students if doing so is mutually advantageous to both the student and the College.

As soon as advisors are notified that an advisee has received an Academic Alert or Academic Warning and been placed on Academic Recovery, they should review the relevant information about the student's poor academic performance. The advisors should meet

with the advisee as early as possible to discuss the student's plan for academic improvement in the current semester. After the student (in collaboration with both advisors and other staff) completes an academic improvement plan, the advisors should review the final document and note approval by signing the corresponding form. The student should share this plan with Learning Services and the Office of Student Financial Planning. Advisors are then expected to meet with the student periodically throughout the semester to ensure that the academic improvement plan is being implemented.

For assistance in finding resources for students on Academic Recovery, advisors should contact Learning Services.

Advisor Training

The Office of Academic Support and the Faculty Advising Committee coordinate training for the various types of academic advisors. All faculty who have advising as part of their job responsibilities shall receive both initial and on-going advisor training. Each year there will be one or more training sessions for Academic Advisors to cover the timetable and content of the advising program.

All new faculty and staff who have advising as part of their job responsibilities shall receive training on best advising practices, the Juniata

liberal arts curriculum, and the operation of Juniata's advising technology in the academic year before they begin advising.

Attendance at the Annual Advisor Training, offered each spring, is mandatory for all advisors for their first six years as an advisor. The Provost's Office will monitor attendance.

Advisors with more than six years of experience are required to attend the Annual Advisor Training once every three years. The Provost's Office will administer the tri-annual attendance rotation for this training.

All advisors participating in a summer orientation advising session are required to attend the annual Summer Orientation Advising Training.

Advisor Evaluation

All Academic Advisors are evaluated by their advisees during a three-week interval immediately following the close of the course registration periods in both the fall and spring semesters. For faculty being reviewed for contract renewal, tenure, or promotion, the Personnel Evaluation Committee uses these evaluations as outlined in section 2.5 Evaluation, 2.5.1.2 Advising.

Academic Support

Juniata students may receive assistance with academic coursework in a number of ways. Through QUEST,

students may receive general academic counseling and study skills guidance on topics such as note taking and exam preparation. The campus-wide peer tutoring system offers individualized or group tutoring assistance with material in a particular course. Similarly, by visiting the Writing Center students may receive individual help on written assignments for any class. Students may take advantage of the Baldrige Reading Program, at additional cost, during the fall or spring semester to improve their reading comprehension and rate.

Career Services

The Career Services staff is dedicated to providing students with the fundamental skills and experiential opportunities needed to prepare for the challenges in an ever-changing, global work force.

Career Services provides Juniata students with individual counseling, computerized guidance and information programs (FOCUS II), and workshops on career development and professionalism topics. The office supports a comprehensive website and library of up-to-date career resource materials and graduate/professional school information. Juniata offers a top Career Day, which annually attracts over 100 employers and over 500 students. Additionally, Juniata students are invited to participate with other Pennsylvania colleges in numerous

regional job fairs throughout the year. The largest of these include the Western PA Career Services Association (Pittsburgh area) job fair, the Central PA Employment Consortium (Harrisburg area) job fair, and the Pittsburgh Educational Recruiting Consortium.

Career Services also coordinates Student Internship Programs. Juniata encourages students to seek internship placements generally after completion of the freshman or sophomore years. Students receive assistance in the application process from Career Services and from Juniata faculty. Information regarding credit and non-credit internships is available online and from the Career Services staff in QUEST, located in Founder's Hall.

Student Accommodations

The College makes reasonable accommodations for students with respect to disabilities, which do not impose an undue hardship on the College. If a student believes he or she requires a reasonable accommodation or has a question regarding educational services, activities, programs, or facilities that are accessible to or usable by students with disabilities, please contact the Director of Student Accessibility Services who serves as the point person and advocate for students with learning challenges.

Documentation

Students requesting reasonable accommodations with respect to disabilities must obtain and provide to the College current (within three years prior to enrollment) documentation of their disability before the start of the session in which they are enrolling and requesting an academic adjustment or services. This documentation must support both that a student has a disability as well as the necessity of the requested academic adjustment or services. The primary purpose of this documentation is to determine a student's eligibility for accommodation and, if eligible, to help the College work interactively with a student to provide appropriate services. The College is not required, however, to provide accommodations that would result in a fundamental alteration to the nature of the program in which the student is enrolled or seeks to be enrolled, would create an undue financial burden on the College, or which would pose a threat to safety and security. General documentation requirements include, but are not limited to:

- Documentation is typically provided by a licensed or otherwise properly credentialed professional/medical specialist who has no personal relationship (i.e., family member or former school teacher or school counselor) with the individual but who is knowledgeable about the

individual's disability and/or condition.

- Documentation must be typed or printed, dated, signed and legible with the name, title, and professional credentials of the evaluator on official letterhead and define/explain:
 - The clear description of the disability
 - The description, name, and scores of the tests and assessments used, as appropriate
 - How the condition was diagnosed
 - The current existence of the disability and current need for an accommodation
 - Functionality of the individual in an educational setting
 - Expected progression or stability of the disability
 - Rule-out statement that describes which academic and other functions the disability does not affect
 - Recommended accommodations related to functional limitations and a rationale for how the requested accommodation

remedies the functional limitation

- Date of observation

The above criteria are general guidelines only; the type of documentation will vary according to the disability. For students with learning differences, it is preferable that the student provide a full and recent psycho-educational evaluation. In addition, in some instances, a student may be requested to provide updated or augmented documentation in order to be reviewed more fully before being considered for services. It is possible that in reviewing a student's specific accommodation request or the recommendations of an evaluator, the College may find that while the recommendation is clinically supported, it is not the most appropriate accommodation given the requirements of a particular student's academic program. In addition, the College may also propose accommodations that would be appropriate and useful to the student, but which neither the student nor the evaluator have requested. The College appreciates that student disability records contain personal and confidential information. Such documentation is maintained in a confidential file in the office of Student Accessibility Services and is considered part of a student's education record and will only be disclosed with a student's permission or as permitted by law (e.g., in the event of a health or safety risk). However, at times, in order to evaluate

and/or provide requested or recommended services and accommodations, it may be necessary for the College to disclose disability information provided by a student or a student's healthcare provider to appropriate College personnel participating in the accommodation process and who have a legitimate need to know more and review the file.

If documentation provided by a student does not support the existence of a disability or the need for an accommodation, the student will be advised and will be provided an opportunity to supplement the initial documentation with further information from a physician, psychologist, or other appropriate specialist. In the event a student's accommodation request is denied, the student may appeal that decision by utilizing the appeal/grievance process found below.

Supporting Students with Disabilities

In its commitment to ensuring that no otherwise qualified student with a disability is subjected to unlawful discrimination in the context of his/her educational experience, the College makes certain that students with disabilities are provided equal access to educational and career development programs and/or student activities. Consequently, as noted above, the College will make, on behalf of qualified students with learning and physical disabilities of which the College

is aware, reasonable accommodations that do not impose undue hardships on the College. Students and their families are strongly encouraged to disclose and discuss possible accommodations during the enrollment process.

If a student believes he/she requires a reasonable accommodation or has a question regarding educational services, activities, programs, or facilities that are accessible to or usable by students with disabilities, please contact the Director of Student Accessibility Services, who has responsibility for students with learning challenges. All information associated with a disclosure of this nature is confidential, and the College will communicate this information to others only on a need-to-know basis.

Appeal/Grievance Process

Scope and Application: This appeal/grievance process applies to any student allegedly aggrieved by a denial (in whole or in part) of his/her request for an accommodation/academic adjustment under the College's Policy Regarding Students with Disabilities or who otherwise has an unresolved complaint regarding his/her disability. The College commits that no retaliation will occur at any stage of this process.

Initial Time Period for Filing an Appeal/Grievance: A student alleging a disability and wishing to file an appeal/grievance hereunder, must initiate the procedure described below

within thirty (30) calendar days of when the student knew or should have known of the action of which the student complains or is otherwise aggrieved by, including a denial (in whole or in part) of a request for accommodation/academic adjustment.

(A) The student or, any person(s) acting on behalf of the student, may file an appeal/grievance with the Office of Student Accessibility Services. An academic counselor (or his/her designee from Student Accessibility Services) will discuss the student's complaint and attempt to resolve or adjust the dispute on an informal basis. The student may present any facts or circumstances he/she deems relevant to the complaint/dispute. The academic counselor may investigate the matter and gather any relevant facts and circumstances, including conducting interviews. The academic counselor shall render a determination within twenty (20) calendar days after being assigned to handle the student's appeal/grievance. Within seven (7) calendar days from the date of the determination by the academic counselor that the complaint/dispute could not be resolved, the student (or the person acting on his/her behalf) must submit a written request for a further review by the Dean of Students to the Office of Student Accessibility Services and must document the student's attempt to first resolve the appeal/grievance with the academic

counselor. The written request must explain the nature of the student's complaint/dispute and/or the accommodation/adjustment sought.

(B) The Dean of Students shall review all matters relating to the complaint/dispute as presented to the Office of Student Accessibility Services and may solicit additional facts and evidence as the Dean may deem necessary. The student may present any further facts or evidence he/she deems relevant. The Dean of Students shall complete the review and render a decision within twenty (20) calendar days after the appeal/grievance is submitted to the Dean of Students. If, after the Dean of Students has had an opportunity to render his/her decision, the student remains unsatisfied with the resolution of the appeal/grievance, the student, or person(s) acting on behalf of the student, may submit an appeal/grievance in writing, within seven (7) calendar days from the date of the decision by the Dean of Students, to the Provost. If no written request is submitted within the seven-day period, the decision of the Dean of Students shall be final.

(C) Upon the submission of the student's written request for a review of his or her appeal/grievance, the Provost will consider all facts and circumstances, including the investigatory file as developed by the Office of Student Accessibility Services and any medical evidence presented.

The Provost may also interview the student or such other witnesses as may be necessary. If, upon such inquiry, the Provost determines that a proper review of the matter was conducted, the decision of the Dean of Students shall be confirmed. The Provost may also amend, alter or revise the decision and, therefore, the Provost is responsible for the final decision. The Provost will render a decision within thirty (30) calendar days after the appeal/grievance has been submitted to the Provost as described above.

Peer Tutoring Program

Juniata offers a popular, campus-wide program of peer tutoring. Peer tutoring is available in any offered course to each student who desires additional help with subject material. Before requesting tutoring assistance for a course, students must discuss their academic performance with the course instructor and ask for his or her verbal permission; some faculty would prefer to work with a student during office hours before tutoring begins. In select courses, tutoring is offered in the form of group review sessions, and there are also small group tutoring opportunities in which two or more students work with a peer tutor.

A reasonable amount of tutoring is available at no charge to the student, but the number of hours of tutoring per week may not exceed the amount of

time spent in lecture each week (three to four hours/week would be the maximum).

Request for tutoring is seen as a commitment from the student asking for assistance and is an obligation that requires consideration and motivation. Tutees are expected to arrive at prearranged meetings appropriately prepared and to notify tutors when they are unable to make an appointment. A tutee who fails to show up for prearranged meetings more than two times will have his or her tutoring privileges revoked for the remainder of the semester.

Students/tutees understand that tutoring is a supplement to class preparation, class attendance, and faculty office hours assistance—it is not intended to replace any of these critical academic responsibilities. Students who are motivated to get the most out of tutoring find that the program is very successful for them.

All tutors have faculty recommendation, must make application for the position, and have an interview with a QUEST staff member. In addition, each tutor must attend one hour of training per semester to maintain the program's integrity and to help tutors maximize their tutoring skills.

Policy on Student Accommodations

Student Life

Student Life

Athletics and Recreation

The commitment of the Juniata College Athletic Department is explicitly linked to the educational mission of the institution. Juniata athletics emphasizes fair play and sportsmanship co-existing with a high degree of competitiveness in all varsity programs. Such competitiveness applies as well to the academic efforts of Juniata student-athletes. Care is taken to assure the overall health and well-being of students in and outside of the training and competitive arenas. The dynamics of equitable and fair treatment of men and women within Juniata athletics is thoroughly examined and pursued.

The College promotes recreation, physical activity, and athletic programs for all students. Intercollegiate varsity sports offered for men: baseball, basketball, cross country, football, golf, lacrosse, swimming, soccer, tennis, track (indoor and outdoor), and volleyball; for women: basketball, cross country, field hockey, golf, lacrosse, soccer, softball, swimming, tennis, track (indoor and outdoor), and volleyball. In

addition, clubs compete in a variety of sports largely determined by the interest of the student body. Active clubs include, or have included: esports, cheerleading, men's and women's rugby, ultimate frisbee, equestrian, and quidditch. A variety of recreational clubs ranging from skiing and snowboarding to dance and the martial arts are also available.

Intramural programs include: basketball, indoor soccer, and water polo, among others.

Juniata is a Division III member of the NCAA, the Eastern Collegiate Athletics Conference (ECAC), the Landmark Conference, the Centennial Conference (football only), and the Continental Volleyball Conference (men's volleyball only).

The Kennedy Sports + Recreation Center includes a 25 meter natatorium, a fully equipped 5,500 sq. ft. Fitness Center, two separate gymnasiums for volleyball and basketball, handball/racquetball courts, and an indoor walking track. Outdoor facilities feature playing fields for football, soccer, lacrosse, field hockey, baseball and softball as well as tennis courts and an eight-lane track.

Beyond the facilities explicitly provided by the College, the Huntingdon area is

rich with opportunities for fishing, hunting, hiking, biking, running, boating, canoeing, rafting, swimming, camping, downhill and cross-country skiing and golf.

Campus Ministry

Although Juniata is chartered as an independent college, it was founded by members of the Church of the Brethren and continues to value the importance of a spiritual dimension as a part of individual growth. Through the campus ministry office, located in the college's Unity House, students are encouraged to integrate their faith and vocational direction and offered opportunities to become involved in meaningful religious activities. Campus worship opportunities include weekly Catholic Mass and regular interdenominational services. In addition to worship, there are regular opportunities for students to engage in study of scripture, community service, prayer, observation of Holy days, interfaith dialogue, and informal fellowship. There are also several active religious and faith focused clubs that support the spiritual growth of our students. Juniata's religious programs are guided by the College Chaplains who serve concurrently as pastors of the Stone Church of the Brethren which is long associated with and adjacent to the College, the Coordinator of Campus Ministries, Ministry Affiliates representing local congregations or faith communities, and a variety of student

leaders. The Juniata student body reflects a diversity of religious faiths and the local community provides worship opportunities for Jewish, Protestant, Eastern Orthodox, and Roman Catholic students. The Stone Church of the Brethren, a prayer labyrinth outside the Statton Learning Commons, and an interfaith meditation room in the Unity House are available for private meditation and prayer.

Co-Curricular Transcript

Students are encouraged to utilize a Co-Curricular Transcript (CCT) to document and validate their out-of-class experience. The CCT process enables students to structure their personal development outside the classroom by matching individual needs and goals with available experiences to stimulate growth and learning in specific areas. The CCT documents a student's leadership and involvement in student programming and provides an opportunity for the student to reflect on his or her development outside the classroom. Information and materials to start a CCT are available in the Career Services Office.

This same document is used to recognize the efforts of those students who perform community service throughout their college career. Students who perform at least 120 hours of non-paid, non-credit volunteer work can receive transcript notation

through the Community Engagement Office.

Dining Services

Baker Refectory, located on the first floor of Ellis Hall, is the main dining hall choice for students on a College meal plan. All residential students are required to select from the meal plan options that correspond to year of enrollment or housing. The dining room is an “all-you-care-to-eat” facility open throughout the day in accordance with the College calendar. Students may select from assorted made-from-scratch entrees, including vegetarian and vegan selections at each meal, Clean Plate which prepares items to specifications in an allergen free service station, salad, grill, deli, and pizza lines, among others.

Jitters, BAC On the Go! Café, and the **Statton Learning Commons** (when completed) are available for beverages, à la carte items, or a quick snack between classes.

Monies from a spending account (called DCB) associated with all of the meal plan options may be used by students at any of the above dining facilities.

Students are required to bring their ID cards with them to all meals, admittance will not be granted to the Baker Refectory without an ID card. The DCB balance at the end of the fall semester carries over to the spring semester; the DCB balance associated with meal plans that is not used by the end of the

academic year is forfeited. Additional DCB dollars may be purchased throughout the semester.

Firearms and related items

Illegal and/or dangerous weapons, including but not limited to BB / air / gel / paintball / pellet guns, sling shots, and pneumatic weapons that resemble a real firearm, are not permitted on campus. Violators will be subject to disciplinary action and arrested if appropriate. Legal and approved firearms used for sport, target shooting, or hunting, ammunition, archery equipment, knives and other edged - weapons with blades exceeding three inches, and/or devices that can be considered a danger to the campus community must be registered and stored in the Public Safety Office. Firearms that are being stored at the Raystown Field Station must be registered with college staff designee and kept in the gun safe on site.

Handguns and assault weapon platforms are prohibited from being registered.

Students must complete an application/registration for each firearm.

All firearms being transported to or from campus must be secured and placed within an approved firearms carrying case.

Registered firearms and/or dangerous weapons are not permitted in administrative/ academic buildings or college residence halls. Failure to comply with this regulation may result in expulsion from the college and/or arrest.

Public Safety or college staff designee reserves the right to not sign out a firearm to a student if he/she appears to be in an altered mental state, under the Influence, or the request is not consistent with traditional hunting times.

With proper identification and registration card, students may sign-out their registered items by contacting the Public Safety Office or college staff designee.

Health and Wellbeing Center

Holistic wellbeing is important at Juniata. Students are encouraged to optimize their physical and emotional health. Although prevention is the primary focus of our efforts, intervention, response and care is also provided through the following services:

Medical Services:

Health Services is staffed by a nurse and administrative assistant Monday thru Friday and visiting physicians who are regularly scheduled on campus during daytime and evening hour

periods to accommodate the range of student availabilities and needs. Adjustments to the scheduling of doctors follows use patterns of students and can be made at any time. Treatment is provided for minor injuries and ailments and routine care of chronic illnesses for full-time students. A health fee is assessed each semester for medical and counseling services. The fee is for services and is not a supplemental form of health insurance. For comprehensive and specialized care, students are referred to the local hospital or to other medical facilities in the area. All full-time Juniata students are required to provide proof of insurance. If proof is not provided, full-time students will be charged a premium and enrolled in a student accident insurance program.

For additional information, please visit the Health and Wellness Center site at <https://www.juniata.edu/offices/health/>

Counseling Services:

The Glaeser Counseling Center also provides personal counseling for all students, and sessions are arranged under the care of clinicians as client needs and progress dictate. These services are provided by licensed therapists. All services are confidential and are not included on the student record. Counseling services also include assessments, screenings, prevention programming, appropriate referrals, workshops/presentations, support

groups, drug and alcohol education programs, and when appropriate, referral to the center's consulting psychiatrist.

Identification Cards

The College ID card, or "Gold Card", must be presented for admission to meals and to many of the activities at the College, including home athletic events and various college sponsored programs. It also is used for checking out materials at the Statton Learning Commons. Used primarily for identification, the card should be carried at all times. Identification cards are non-transferable. If lost or stolen, the ID card can be replaced by request at The Public Safety Office. A fee of \$25.00 is charged for replacement.

Failure to show an ID card in response to a request by a college official is a violation of the Student Code of Conduct.

Inbound Retreats

Inbound Retreats help incoming Juniata students become aware of and engaged in our academic and co-curricular community. New students arrive on campus early and participate in retreat options designed to provide a smooth transition into college.

Each retreat is led by Peer Leaders who are returning Juniata College students.

Goals:

Inbound is a social, transitional program for first-year students. Upon completion of the Inbound program through small and large group activities, students will:

- Establish new social relationships;
- Become acclimated to the campus and surrounding community;
- Experience less anxiety about starting college;
- Become acclimated to collegiate living;
- Learn ways in which to become engaged and involved on campus;
- Become more confident with oneself;
- Gain knowledge about collegiate interests; and
- Meet faculty, staff and/or community members which serve as additional resources to students.

To learn more:

<https://www.juniata.edu/offices/dean-of-students/inbound/>

Juniata Activities Board (JAB)

JAB plans and executes a broad range of social, cultural, educational, and recreational programs for Juniata College students and the Juniata community. Through various committees, JAB coordinates many of Juniata's traditions and late night

activities. JAB committees typically include: Welcome Week and Finals Blowout, Mountain Day, Tenting and Madrigal, Festifall and Springfest, marketing, and JAB special events.

Mail and Postal Services

The College receives US Postal mail and package deliveries through the Juniata Post Office, which is located on the ground floor of Ellis Hall. Students receive one assigned post office box for their entire stay at Juniata. Students should use their post office box number as part of their Juniata address. Stamps are available at the post office and parcels can be mailed there during open hours.

Orientation

The Summer Orientation program consists of parallel programs for new students and their families and supporters. The orientation program includes consultation on class registration, discussions on campus community and residential living, and sessions on various other adjustment concerns. Families and supporters meet in groups with college administrators and faculty to share concerns, discuss services available to both students and parents, and participate in question-and-answer sessions. Students participate in a variety of informational and social activities designed to help them become more familiar with college life and the

unique traditions and opportunities at Juniata.

Prior to the first day of classes, new students consult with advisors, confirm their course registration, meet with Residential Life Staff, and participate in planned college activities to inaugurate the new academic year.

The College also provides special orientation programs specifically designed for the following distinct student groups: dual enrolled high school students, and international students.

Parking and Vehicle Registration

All students and employees who bring motor vehicles to the college area, whether to the campus itself or not, must register their cars, motorcycles, motor scooters or motor bikes with Juniata College Public Safety. The online vehicle registration form can be accessed by following the link on the home page of the Public Safety website. Upon approval of the registration form, a display sticker is issued and should be placed on the left side of the rear bumper. Failure to register a vehicle by a student results in a fine. The registration decal is valid for the entire academic year and is non-transferable.

For additional information, go here: <https://www.juniata.edu/offices/security>

[y/policies/parking-traffic-regulations.php](https://www.juniata.edu/offices/security/policies/parking-traffic-regulations.php)

FEES FOR VEHICLE REGISTRATION

The vehicle registration fee is: \$125.00.

The vehicle registration is billed to the student's tuition account, during the processing procedure.

PARKING

A valid vehicle registration permit properly displayed entitles a student to park in student parking areas only; parking in unauthorized areas subjects students to a fine. Limited e-charging stations are available for students. Students should register and receive a charging card from the Office of Campus and Residential Life after registering their vehicle with the Office of Public Safety.

TRAFFIC REGULATIONS

In addition to the rules and regulations for operating a motor vehicle in the Commonwealth of Pennsylvania, there are several regulations peculiar to the Juniata campus:

1. Pedestrians shall at all times have the right of way.
2. All vehicles shall operate at a safe speeds.
3. All vehicles shall comply with all traffic devices, stop signs, etc.
4. No vehicles, including two wheel motorized vehicles shall be operated

or travel over, or park on, any grass area, concrete walkway.

5. Failure to comply with this regulation will result in a fine and may include loss of on- campus driving privileges.
6. Improper operation of any motor vehicle within the College jurisdiction will result in a citation or revoking of motor vehicle privileges on campus.

PUBLIC SAFETY OFFICE

The Public Safety Office is committed to providing a safe and secure environment as essential to the Juniata College community. The Public Safety Office focuses on the protection of college assets, but the primary goal is to assure a safe, secure, and comfortable living environment which promotes learning and personal development. Respect, consideration, and fairness to others are paramount in our daily operations.

For additional information, go here:

<https://www.juniata.edu/offices/security/>

REGISTERED STUDENT ORGANIZATIONS (RSO)

Juniata College offers students over 80+ Registered Student Organizations (RSO), which represent an array of student interests. Students can sign-up for RSOs at either our Fall involvement fair (Lobsterfest) or learn about upcoming RSO meetings/events through the Daily Announcements. If students would like to contact a specific

organization, a current list of active RSOs, officers and advisors is located online.

Residential Life

Juniata is a residential campus and, as such, residence hall experiences are designed to complement the formal instructional program. Guidelines for residence hall living are provided in detail through the campus computer network, EagleNet, in the student handbook, *The Pathfinder*, and in its periodic supplement, The Student Services Newsletter.

With a limited number of exceptions, students are expected to live in college-owned facilities.

RESIDENCE HALL STAFF

Juniata seeks to provide the best possible living experience in the residence halls. This begins with qualified, caring, and well-trained staff. Staff members in each building are carefully selected, and trained, and are willing to help students have a successful campus living experience. One of the first people students meet on check-in day is the Resident Assistant, better known as the RA. Resident Assistants are assigned to each residence hall floor to help with the adjustment to community life and are instrumental in planning activities to help students become acquainted with their living environment. In addition, RAs

are available throughout the year to assist with academic, personal, and community living concerns. Resident Assistants are specially trained upper-division students who are able to answer many questions about Juniata and the residence halls. Each residence hall also has a Community Advisor who is also an upper-division student who provides support and direction for a building's community, and supports the RAs residing there. Resident Assistants and Community Advisors report to live-in Residential Life Coordinators, known as RLCs. RLCs are professional staff members who manage a portfolio of residence halls. They supervise the hall staff, coordinate programs and activities, and work with the student conduct process. RLCs can answer many questions about policies and procedures and the campus in general.

RESIDENCE HALL PROGRAMS

The residential life staff offers a wide variety of activities in which students can participate. These programs are planned and organized by students and RAs. Everyone is encouraged to make their interests known, to become actively involved in planning events, and to participate. The staff assists on the floor to develop programs that enhance a sense of community. These programs have a social focus and support students' personal development, community engagement, authentic leadership, and/or becoming a global citizen.

LIVING OPTIONS

Juniata's residence halls are smoke-free living environments.

Eco House: The Eco House encourages students to develop and promote a sustainable and 'green' lifestyle. Living in this coed house provides an opportunity to live and work with other students who are committed to the campus community's goal of becoming more sustainable.

Global Village: the Global Village is a distinct globally-themed living and learning community designed to provide opportunities for intensive, in-depth cultural interaction and community development. The GV welcomes language learners and non-English speakers; non-native students who have lived, traveled extensively, or studied abroad; and students enrolled in language courses.

Lavender Floor: the Lavender Floor is a gender inclusive living-learning community focused on promoting support, awareness, allyship, and education for the LGBTQIA+ community.

2207 McClay House: is a living-learning community focused on developing and supporting social justice work.

Gender inclusive: A number of designated communities are available for students who choose to live in a community inclusive of all gender identities.

Female aligned: Cloister Hall is a residence hall for female identified students. Floors are available to upper-division and first-year students.

Suites: East Houses apartment style living, housing 8 students. There are 4 bedrooms, a common room and bathroom. Each room is air conditioned.

STUDENT GOVERNMENT

Elected by students, members of Student Government represent the interests and the concerns of the student body in a variety of ways. Student Government officers serve as student representatives on faculty and trustee committees and serve as the governing body for the 80+ Registered Student Organizations.

Student Conduct

ALCOHOL

The College maintains that the use of alcohol and other drugs is not necessary for the success of social occasions.

Although students are considered adults for most phases of community life, Pennsylvania State Law prohibits the purchase, possession, or consumption of alcoholic beverages by persons under 21 years of age. Persons who furnish alcoholic beverages to those under 21 are subject to civil liability and criminal prosecution. Local ordinances and state laws also prohibit open containers of

alcoholic beverages in public areas and in vehicles. College policy permits only students 21 years of age and older to possess or consume alcoholic beverages on campus.

DRUGS

Juniata considers the possession and/or use of illegal or dangerous drugs a serious violation of College policy.

Disciplinary action for involvement could lead to separation from the College. The College will assist the efforts of law enforcement officials who are investigating the involvement of persons with illegal or dangerous drugs.

Since the use of drugs, including alcohol, may be associated with medical and psychological problems, students may be referred, or refer themselves, to the counseling and medical resources of the College and/or the local community.

SEXUAL HARASSMENT

It is Juniata policy to promote and maintain a campus environment free of all forms of discrimination, intimidation,

and exploitation, including sexual harassment. The use of one's institutional position or authority to seek or solicit unwanted sexual relations with a member of the Juniata community is incompatible with the mutual trust and respect among members of the College community fundamental to the mission of Juniata. If a student has a supervisor, teacher or coach who has used his or her position to seek or solicit unwanted sexual relations, that student should report the matter to the Director of Human Resources (employment-related problem), the Provost (professor-student incidents), or the Dean of Students (student-student incidents). A copy of the sexual harassment policy is distributed to all students under separate cover. Additional copies are available from residence hall staff, the Dean of Student Office, and the Human Resources Office.

Admissions and Cost

Undergraduate

Guidelines for Entering Freshmen

The Admission Committee encourages students to apply to Juniata if they demonstrate the proper desire, motivation, and maturity needed to benefit from a four-year private college experience. Such qualities are evaluated through the application requirements listed below. The Admission Committee places the most emphasis on a student's high school transcript. In addition, standardized tests, activities, community involvement and all the things that make up the student's life are important in the review. Juniata seeks a broad student population base that includes a wide geographic and cultural representation from a variety of social and economic backgrounds.

The College reserves the right to determine which applicants will be admitted. The selection of candidates is made without regard to race, sex, religion, creed, national origin, and or handicap.

APPLICATION AND INFORMATION

Students may apply to Juniata using the Common Application any time after completion of their junior year in secondary school. The Common Application begins accepting applications August 1 of the senior year. A complete secondary school transcript indicating courses and grades (including senior year courses and grades to date) must be sent from the applicant's guidance office along with SAT-I and/or ACT scores, an essay, and a letter of recommendation.

Candidates for freshman admission can choose from three application options - Early Decision I, Early Decision II, and Regular Decision:

- **Early Decision – Application Deadline November 15.** The Early Decision option is available for those students who know that **Juniata is their number one choice.** Early Decision is a binding agreement; applicants agree to apply ED *only* to Juniata and to enroll if offered admission. ED students receive admission notification by December 15th. Accepted ED students will receive financial aid notification by late January. A

non-refundable \$400 deposit is required by February 15th. Please refer to the Early Decision Information section of the Common Application when deciding whether or not to apply as an ED candidate.

- Early Action – Application Deadline Dec. 1.
- **Early Action II - Application Deadline Jan. 15th.** The Early Action option is available for those students who decide that Juniata is one of their top choices and would like to submit and hear their admission decision earlier than Regular Decision. Once all required materials are received, EA applicants will typically receive an admission decision by February 15th. If applying for need-based aid, students must complete the FAFSA by February 15th. The EA option is non-binding agreement. Students accepted as an Early Action candidate must submit a non-refundable \$400 deposit by May 1 to reserve a space in the entering class.
- **Regular Decision – Application Deadline March 15***. Regular Decision Candidates are encouraged to apply in the fall. Decisions are released based on application round, and date of submission. Most Regular Decision candidates will hear

back by March 1st. Students who apply before November 1 *may* receive an admission decision in the fall. Students applying after January 1 will receive a decision 4 to 6 weeks after the application is complete. Students who wish to be considered for all additional competitive scholarships should have their application submitted no later than January 5. Students accepted as a Regular Decision candidate must submit a non-refundable \$400 deposit by May 1 to reserve a space in the entering class.

Note: Students who wish to be considered for all additional competitive scholarships should have their application submitted no later than January 1. Most merit scholarships are not determined based on date of submission, and admission preference is not given to those who apply earlier in the application period.

* - Please call the Enrollment Center (814-641-3420) to inquire whether applications are still being accepted beyond any application deadline.

CONTENTS OF APPLICATION

An application for admission consists of the components listed below.

Credentials that are reviewed include: high school academic record, SAT or ACT test results, completed application form including evidence of extracurricular involvement,

recommendation letter(s), and a personal essay.

High School Transcript A secondary school program including at least 16 college preparatory courses from an approved public, private, or parochial school must be completed or anticipated. These courses must include a minimum of four years of academic English, two years of a foreign language, and a combination of mathematics, laboratory science courses, social sciences and humanities.

A complete secondary school transcript must be sent from the applicant's guidance office, noting all courses taken and grades received from the freshman year through the junior year. A listing of courses to be taken in the senior year should accompany this transcript and grades from the first marking period and/or the first semester should be sent when they become available. Upon graduation, students must submit a final secondary school transcript noting graduation date and guidance counselor signature or raised seal.

Standardized Test Results Results of the Scholastic Assessment Tests (SAT-I) taken in the junior and/or senior year are required unless the student chooses to participate in Juniata's Optional Standardized Test Program. The American College Test (ACT), taken in either the junior or senior year, may be substituted for the SAT-I. Applicants whose native language is not English

also must provide results of a Test of English as a Foreign Language (TOEFL) or scores from an approved English language program. International applicants who have studied wholly in an English speaking high school are required to submit an SAT/ACT score. All other international students are not required to submit SAT or ACT scores but should still submit TOEFL (or similar) results. SAT-II: Subject Tests are not required but may be submitted for admission consideration. Contact the Admissions Office for more information.

Application Form Juniata uses the "Common Application" and the "Coalition Application". Application forms may be submitted at www.commonapp.org and <http://www.coalitionforcollegeaccess.org/>. Only one application is required. The application requires a listing of extracurricular activities in both school and community, guidance counselor or teacher letter(s) of recommendation, and an essay which answers one of the essay questions listed in the application for admission. The applicant should complete the form and submit it online.

CAMPUS VISITS

Although not generally required for admission, the College strongly recommends that each prospective student make a visit to campus. A campus visit serves as an opportunity to learn more about the College, its students, and faculty, and is a great way

for the admission team to meet interested students. During the academic year, the enrollment center has a variety of visit options. Students are encouraged to visit <https://www.juniata.edu/admission/campus-visit/> to select the appropriate visit program to serve their information needs. In general the Enrollment Center is open 9 a.m. to 3 p.m. Mondays through Fridays from September through April, and for selected Saturdays from 10 a.m. to 1PM. Appointments for the summer months can be scheduled for 9 a.m. to 2 p.m. weekdays. Please contact the Office of Admission at 814-641-3428 for more information or to schedule an appointment.

GUIDELINES FOR TRANSFER STUDENTS

Applicants are considered transfer students if they have graduated from an approved secondary school program and completed the equivalent of one full-time semester of coursework at a regionally accredited community college, junior college, or four-year institution. Student's work will be evaluated on a case-by-case basis. Notification of a transfer admission decision is given within one month upon receipt of all credentials.

Application deadlines for transfer students are July 1 for fall semester entry and December 1 for spring

semester entry, though earlier submission is highly encouraged.

First semester freshmen who transfer a semester worth of transfer credits may have to take CWS (College Writing Seminar) even if they have taken English credits. All students must complete the CWS intake essay, and will be evaluated on a case by case basis regarding whether or not they will be required to take CWS.

CONTENTS OF TRANSFER APPLICATION

An application for transfer admission consists of the following components:

Application Juniata uses the "Common Application" Transfer Application. Forms may be obtained at www.commonapp.org. The application requires transfer statement which explains why the student wishes to transfer. The applicant should complete the application and submit online.

High School Transcripts The Office of Admission requires an official, final high school transcript indicating final grades, class rank (if applicable) and date of graduation. The transcript should be sent directly from the school to the Juniata admission office. Students with more than 24 credits are not required to send their high school transcripts.

Standardized Test Scores SAT and or ACT scores should also be submitted. Scores can either be sent directly from

the testing agency, or may be indicated on the official high school transcript. Juniata's code number for the SAT is 2341, and for the ACT 3600. SAT/ACT results are often waived for qualified transfer students whose previous institution did not require scores for admission.

College Transcripts Transfer applicants must also submit an official transcript from each college previously attended and a college catalog or course descriptions of classes taken at previous institutions. The transcript must be sent directly to Juniata from the former institution(s). Catalogs and course descriptions are used to evaluate transfer credit.

Transfer College Report Form The Transfer College Report Form is a required document before your matriculation to Juniata College. It must be completed by a college official who has access to your academic and disciplinary records. The form can also be found at <https://www.juniata.edu/admission/student-info/transferring-credits.php>

FINANCIAL AID

All transfer students offered admission are eligible to apply for financial aid. The application procedure is the same as that for new freshman students and is found under the section "Student Finances." For further information, contact: Molly Thompson, Transfer

Coordinator, thompsm@juniata.edu, 814-641-3425.

TRANSFER CREDIT

Juniata does not accept in transfer any coursework below a grade of "C-" nor coursework of a strictly technical or remedial nature, nor physical education coursework. Credit is normally only awarded for courses taken at an accredited institution. Special circumstances may affect the transferability of an individual student record. These cases will be handled on an individual basis and decisions will be based on Juniata's academic policy. An official credit evaluation will be completed by the Office of the Registrar **after** a student has been admitted to Juniata.

Students will have their work evaluated on a course-by-course basis. Courses equivalent to Juniata's curriculum course description will be granted direct course equivalence. Coursework accepted in transfer may be used to meet both liberal arts graduation requirements and Program of Emphasis requirements.

While Juniata will accept credit from any regionally accredited college or university, the college has formal transfer agreements with Harrisburg Area Community College and Penn Highlands Community College. Articulation agreements are in place to facilitate the transfer of credit from one institution to another. Contact the

Transfer Coordinator at either institution for more information.

Other Admissions Programs

SUPPORTED ADMISSION

Students who are offered Supported Admission are admitted to Juniata with the belief that they have the potential to succeed in college, but would benefit from extra mentoring and assistance from QUEST staff.

During the fall semester, all freshmen enroll in the required four-credit foundation course - College Writing Seminar - designated to provide first year students with reading, writing, computer, library, time management, and study skills necessary for success in college. For a Supported Admission student, a specially designated Freshman Advisor is the student's CWS instructor or a professor during the first semester. Freshmen Advisors work closely with students to monitor their academic performance and address individual needs.

The program for Supported Admission students includes regularly scheduled, required appointments with an academic counselor (at least five such meetings) throughout the fall semester to monitor and assess progress in each class, discuss issues related to transitioning into college, discuss how to prepare for and take tests, give pre-

registration advice, assist with selection of a second adviser, and review many other topics appropriate to the individual circumstances of each student.

Supported Admission students also benefit from resources offered through or coordinated by QUEST. These include use of the Writing Center, how to best utilize the faculty and advisors, determining when referral to the counseling center is appropriate, how to build an academic schedule and design a Program of Emphasis, how to go about exploring possible careers, etc. There is a broad network of support and advisors available to all students.

While receiving the additional support described herein, Supported Admission students carry a typical course load of 12-16 credits during the first semester and are in no way distinguishable from their peers in the classroom. Upon completion of one semester in good academic standing, the student is no longer required to have regular appointments with QUEST staff, but is able to utilize the office's continued advocacy and resources.

DEFERRED ADMISSION

Deferred Admission is designed for students who wish to begin their college studies at a time other than the fall semester after graduation from secondary school. Application procedures and requirements are the same as for all other applicants. Candidates should note their interest to

be considered under the Deferred Admission Program by contacting the admission office. Students may defer admission for up to one year.

SPRING SEMESTER ADMISSION

Application procedures and requirements are the same as fall admission. The Spring semester application deadline is December 1, though earlier submission is encouraged. Interested persons may contact the Enrollment Center for further information.

EARLY ADMISSION

Juniata encourages applications from students who demonstrates the aptitude, desire and maturity to begin college level work prior to the completion of his/her secondary school program. Students may consider enrolling at Juniata the last year or the last semester of their senior year. A formal application for admission must be completed. In addition students must: 1) Have an admission interview on campus; 2) Provide a written recommendation from their guidance counselor supporting their application for early admission and indicating they will receive a diploma either at the end of their junior year or after they have successfully completed one year of college level work, which includes college level English; and 3) Provide a written statement from their parents indicating approval of early admission.

Applicants are expected to meet all other admission requirements.

HOME-SCHOOLED STUDENTS

Juniata welcomes applications from students who are home-schooled and have been approved by their local school district. Students must submit an application for admission and include standardized test results, an application essay, letter(s) of recommendation and portfolio of academic work. Students are also encouraged to interview and submit additional information to support their application. Please contact the Juniata Home School Coordinator in the Enrollment Center for further information.

INTERNATIONAL STUDENTS

International students are strongly encouraged to submit applications. The procedures for admission are the same as for other freshman or transfer applicants, In addition, for applicants whose native language is not English, a TOEFL score of 80 Internet-based (or equivalent IELTS or Pearson PTE Academic) or higher is required for unconditional admission to Juniata.

Minimum section scores are also required.

(<https://www.juniata.edu/academics/departments/international/english-for-academic-purposes/courses.php>)

All students who submit a TOEFL score, however may still be tested upon arrival to ensure appropriate course placement,

including ESL courses. If you have submitted a score lower than 80 iBT/550 PBT, or you test below that level on arrival, your status will be English-Conditional. Students who have studied in the US or have been taught in a curriculum where the language of instruction is English may be eligible for a TOEFL waiver. Please contact the Admission office for details.

A complete set of original or notarized educational credentials with certified English translations is also necessary for international applicants and is required before eligibility for admission can be determined. In addition, an affidavit of financial responsibility is required (by U.S. law) before an I-20 form (necessary for procuring a student visa from a U.S. Embassy or Consulate) can be issued.

Further information regarding international applications is available from:

Director of International Admission

Enrollment Center

Juniata College

Huntingdon, PA 16652-2196 USA

FAX: (814) 641-3100 E-mail:

usastudy@juniata.edu

ENGLISH-CONDITIONAL ADMISSION

International applicants with TOEFL test scores of 52 - 79 Internet-Based (iBT)*/470 – 549 Paper-Based (PBT)* may, if otherwise qualified academically, be granted English-Conditional (EC) Admission, provided they complete the appropriate English as a Second Language (ESL) coursework in Juniata's English for Academic Purposes (EAP).

The IEP follows all Juniata policies regarding advancement in its courses. Students may earn up to 15 credits in their ESL courses toward graduation requirements. While taking ESL courses the IEP faculty evaluates the students' English proficiency and they may enroll in academic coursework outside the IEP when appropriate.

*Equivalent IELTS and Pearson PTE scores are also accepted.

INTERNATIONAL BACCALAUREATE

International Baccalaureate Diploma recipients are granted credit for one full year (30 credits) toward a degree at Juniata. Students who have an IB Diploma normally enter the College with sophomore standing. IB certificate recipients receive course credit for each higher level examination passed with a score of 5 or higher. To receive this credit the student will meet with the appropriate department chair or designee to consider the advantage or disadvantage of accepting credit. IB

credits may be counted toward degree requirements.

NON-DEGREE STUDENTS

Any person who wants to take coursework at Juniata as a non-degree student need not apply for admission consideration, but must provide proof of academic ability. The Registrar enrolls and registers all non-degree candidates.

Non-degree students are required to fill out the registration form located at our Registrar's Office website under Class Schedules:

<http://services2.juniata.edu/registrar/jc>
sa/index.php Cost of course credit will be the tuition charge of part-time tuition.

Non-Traditional Student Admission Programs

RETURNING ADULT STUDENTS

Qualified students who have been away from the classroom are welcome to attend Juniata. Courses are offered for both degree and non-degree seeking students and may be taken on either a full-time or part-time basis. Students are enrolled in regular Juniata classes; there are currently no evening, weekend, or accelerated programs for returning adult students. Students must meet admission criteria. Degree-seeking students may apply either as transfer or freshman students. Consult the Enrollment Center for further details.

EDUCATION CERTIFICATION PROGRAM

Students with a B.A. or B.S. from an accredited four-year American college or university and who meet Education Department criteria may take courses at Juniata to receive their education certification. Students may take courses on a full-time or part-time basis. A minimum 3.0 cumulative GPA in the student's previous coursework is required. Consult the Enrollment Center or Education Department for further details.

SECOND BACCALAUREATE DEGREE PROGRAM

Students who have earned a bachelor's degree at an accredited, domestic American university or college and desire a second bachelor's degree reflecting in-depth study in a discipline other than that of their first degree may enroll upon completion of application requirements. Courses from a previous degree will be evaluated on a course by course basis and may be used to fulfill graduation requirements. Students must meet all Juniata graduation requirements, fulfill the department requirements within the new discipline, and observe the College residency requirement. International students who desire a second degree will be evaluated individually for their candidacy. For further information, contact the Enrollment Center.

SENIOR CITIZENS PROGRAM

Citizens who are 60 years of age or older may take courses on a part-time basis.

HIGH SCHOOL STUDENT PROGRAM

Juniata continues to support what was previously known as Dual Enrollment for high school students in our non-degree visiting student program for Huntingdon County and the surrounding area. In the interest of promoting a positive post secondary experience, eligible high school juniors and seniors may take one course per semester (maximum of 4) with approval from their high school guidance counselors or instructional supervisor. Student eligibility and readiness for college-level course work is determined by the high school guidance counselor or instructional supervisor.

Course availability and registration is based on open seats and prerequisite and co-requisite requirements. All College policies regarding registration, tuition and fees are applied. Tuition does not include fees for labs, field trips, supplies, books or other incidentals. High school students are not permitted to register for College Writing Seminar (CWS), Internship, Credit by Exam, or Independent Study. Registration is facilitated by submitting the Visiting Student Registration form to the high school guidance counselor, or the student's instructional supervisor, who will

forward the approved registration form to the Registrar's Office at Juniata College. Tuition for the High School Student Program is \$100 per credit. Tuition statements are sent directly to the student, not the high school. Students who are eligible for free or reduced lunch at their high school are eligible for free tuition in the High School Student Program.

Graduate

Please see

<https://www.juniata.edu/academics/graduate-programs/>.

Cost and Financial Aid

STUDENT FINANCIAL PLANNING

Juniata College offers a wide array of student financial planning services, ranging from deferred payment plans to scholarship programs. The Office of Student Financial Planning provides substantial, diverse funding and planning opportunities for all families regardless of means.

Families may have unique circumstances that affect their ability to meet college expenses. While some families may have little interest in traditional forms of financial assistance, others require support from the many

resources available from federal, state, and institutional programs. Student Financial Planning staff members are available to help identify sources of financial support, and to discuss funding resources and opportunities.

Sources of Aid

Generally, the resources available to provide assistance fall into three broad categories: scholarships and grants, loans, and work.

Scholarships and grants are commonly termed "gift" assistance and need not be repaid (unless so stipulated as a condition of the award).

GRANTS

Grants are usually provided to meet a student's financial need as established through the submission of the Free Application for Federal Student Aid (FAFSA). Please review the section titled, "APPLYING FOR FINANCIAL AID" for further information.

SCHOLARSHIPS

Scholarships are generally awarded in recognition of academic achievement, talent, or some other characteristic. Financial need may not necessarily be a selection requirement.

Competitive Scholarship programs:

Juniata offers an array of competitive scholarships that recognize the outstanding achievements of incoming

students without regard to financial need. Academic **Scholarships at Juniata reward students who do well academically, but also contribute to their school and community by getting involved.** For most scholarships at Juniata, all you have to do is apply to be considered!

The list of possible academic scholarships is listed below:

- **James Quinter Scholarships** – honors the College's first president
- **Calvert Ellis Scholarships** – honors the president who led Juniata in the post-World War II era
- **M.G. Brumbaugh Scholarships** – honors the College's third and fifth president
- **Elizabeth Baker Scholarships** – honors a philanthropist dedicated to the pursuit of peace
- **Phoebe Norris Scholarships** – honors a woman in the first graduating class of 1879
- **Juniata College Scholarships** – honors the College's learning philosophy, tradition and alumni
- **Phi Theta Kappa Transfer Scholarships** – Two scholarships are awarded annually to Phi Theta Kappa students who transfer to Juniata. Students who have active PTK

membership at their current community college and at least a 3.85 GPA are eligible for consideration

- **Scholarships in Science, Technology, Engineering and Math (S-STEM) for Transfer Students** – In conjunction with the National Science Foundation, Juniata will award six scholarships worth up to \$10,000 to students who transfer to Juniata in their junior year from a strong two-year college. The awards are competitive and are based on academic achievement, financial need, and commitment to students in STEM areas. As part of the scholarship, each student will also receive a paid and mentored summer undergraduate research experience at Juniata.

- Top Scholar's Award

Other academic scholarships that are not awarded every year include the W. Clay and Kathryn H. Burkholder Scholarship, Ronald L. Cherry Scholarship, Richard M. Simpson Scholarship and Larry Johnson Scholarship.

Juniata College also offers **Heritage and Ray Day Scholarships** to students who show commitment to academic excellence, leadership and community service that culminate in a level of understanding among diverse groups.

"External" Scholarships

Many students receive scholarships that are awarded by agencies other than Juniata (Lion's Club, PTA, Rotary, etc.). Students are encouraged to explore these opportunities that often reduce the family's cost of education.

LOANS

Loans permit students and parents to defer a portion of the cost of education over an extended period of time. The federal government, the College, and private agencies offer programs that seek to provide educational financing at reasonable rates. Further information is available from the Office of Student Financial Planning.

STUDENT EMPLOYMENT

Juniata provides both on and off-campus student employment opportunities to help defray educationally related expenses. While the College cannot guarantee that every eligible student will secure employment, there has been an even balance between available positions and students interested in work. Further information about available positions may be found on Handshake.

COMMUNITY WORK STUDY

The Community Work Study Program places Federal Work Study-eligible students at community agencies across Huntingdon County for part-time employment in service to the

community. Students earn minimum wage while aiding organizations, become more efficient with program/event planning and engage with the community. Tutoring programs such as the Huntingdon Community Center After-School Program, the Salvation Army ARC of Learning Program and the Bethel AME After-School program work with Huntingdon Co. youth and provide tutoring for K-12. There are also positions available with other agencies. Information, position descriptions, and applications will be available in the Office of Community Engagement.

Eligibility for Financial Aid

Students must meet the following conditions to be considered eligible for most aid programs.

ENROLLMENT STATUS

Normally students must be enrolled in a degree or certification program to be considered eligible for most College aid.

SEMESTER COURSE LOAD

Most institutional aid requires the student enroll for twelve or more credits per semester. Students who enroll for half-time (six or more) credits may receive federal and state resources.

CITIZENSHIP

Many aid programs require that recipients be citizens, permanent residents, or certain stipulated refugee

statuses. Exceptions include several institutional aid programs and student employment.

OFF-CAMPUS/ STUDY AWAY

Generally, students who participate in College affiliated programs (including internships, student teaching, and study abroad) are fully eligible for most forms of assistance. Participating students apply for aid in the usual manner.

MAXIMUM VALUE FOR INSTITUTIONAL SCHOLARSHIPS, GRANTS, AND BENEFITS

It is College policy that any combination of institutional aid cannot exceed the value of tuition, except in several unique scholarship categories.

Juniata's Conditional Guarantee

A student's commitment to attend Juniata is matched by a corresponding commitment from the College. The Conditional Guarantee assures you that College-sponsored aid will remain unchanged for the student's four year of attendance.* Because of this you can plan and budget for each year with the expectation that College aid will not be reduced.

The following conditions must be met to maintain the provisions of the Conditional Guarantee:

- Students must meet acceptable standards of academic progress (see Catalog).
- Students must file renewal applications for aid by April 1.
- Significant changes to family or financial circumstances may result in changes to financial assistance.

Cost of Education Budget

RESIDENT STUDENTS AND THOSE LIVING IN OFF-CAMPUS COLLEGE HOUSING (2023/24)

Tuition*	\$55,322
Room-Double	\$7,208
Room-Single	\$9,012
Food	\$6,338
Mandatory Fees	\$1,080
Personal Expenses	\$1,000
Transportation Expenses	\$ 250-900 (**varies by state)
Total (used to determine aid)	\$72,198
Total Direct Costs (paid to JC)	\$69,948

* Books are included in tuition and fees.

** Students from states other than Pennsylvania or Maryland will have their travel budgets increased in recognition of the additional transportation costs borne by students whose residence is geographically distant from Juniata. Contact the Office of Student Financial Planning for more information.

COMMUTING STUDENTS

Tuition*	\$55,322
Mandatory Fees	\$1,080
Personal Expenses	\$2,650
Transportation Expenses	\$600
Total (used to determine aid)	\$60,652
Total Direct Costs (paid to JC)	\$59,652

* Books are included in tuition and fees.

Applying for Financial Aid

Requirements and Timing

New students (freshmen and transfers) must be admitted to the College before financial aid can be awarded. New students should file applications for assistance by March 1 to ensure they are considered for all available funding. Non-degree students pursuing teacher certification should contact the Office of

Student Financial Planning for additional information.

Continuing need-based aid recipients must reapply each year by April 1. Students who fail to meet the deadline date cannot be guaranteed that their funding will remain at levels consistent with the previous years. Students seeking need-based financial aid must submit a Free Application for Federal Student Aid (FAFSA) annually.

Students may pursue aid adjustments at any time based on special (loss of a job, etc.) or unusual (refugee or asylum status, parental incarceration, etc.) circumstances.

Applications

Students and their families may have to complete several applications to receive consideration for various financial aid programs. Forms generally fall into two categories: applications used to determine eligibility for need-based aid and loan applications.

APPLICATIONS WHICH DETERMINE FINANCIAL NEED

Juniata College the Free Application for Federal Student Aid (FAFSA) to determine eligibility for need-based assistance. Families should carefully review the following information to decide which application(s) should be filed.

NEW FRESHMAN (NEVER ATTENDED POST-SECONDARY SCHOOLS)

The FAFSA must be submitted no later than Feb 15th. Electronic applications must be filed through the <https://studentaid.gov/> website. Families are strongly encouraged to secure a FSA User ID (username & password) to serve as your login to various U.S. Department of Education Systems, including the FAFSA. Your FSA ID confirms your identity when you access your financial aid information and electronically sign Federal Student Aid documents. You should never share your FSA ID with anyone. The FSA User ID can be created by going to <https://studentaid.gov/fsa-id/create-account/launch>.

Each student needs a FSA ID. For dependent students, the parent providing the income information on the Free Application for Federal Student Aid (FAFSA) will also need to register for a FSA ID.

NEW TRANSFER STUDENTS OR FRESHMEN WITH OTHER POST-SECONDARY ATTENDANCE

The FAFSA (Free Application for Federal Student Aid).

RETURNING JUNIATA STUDENTS

Renewal reminders for the FAFSA will be sent to each student's email address beginning in December.

LOAN APPLICATIONS

Students are required to complete the Master Promissory Note (MPN) and entrance counseling as the chief application for a Federal Direct Loan. These will be completed only once for the student's entire borrowing history. (In subsequent years the financial aid award letter from the College will serve as the document used to preserve or adjust the loan value). Parents interested in borrowing the Parent Loan for Undergraduate Students (PLUS) follow similar procedures.

Financial Aid Standards of Satisfactory Academic Progress

All students (including international students) enrolled at Juniata College are subject to the academic standards of the College, which are printed in the College catalog. In addition, students receiving financial aid, in order to continue to receive financial aid, must meet other requirements as described in detail in this statement of Satisfactory Academic Progress.

The Higher Education Act of 1965 (HEA), as amended, mandates institutions of higher education to establish minimum standards of Satisfactory Academic Progress (SAP) for students receiving financial aid. Program Integrity Regulations, modifying these requirements, were

issued October 29, 2010, with an effective date of July 1, 2011. In order to comply with these requirements, Juniata College has established the following definition or standard of Satisfactory Academic Progress for undergraduate students.

The federal programs governed by this regulation include Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Work Study, Federal Direct Student Loans and Federal Direct PLUS Loans. Specific guidelines for other financial aid programs, including Juniata funded awards are noted throughout the policy and summarized at the end of the document.

To be considered as maintaining Satisfactory Academic Progress, both full-time and less than full-time students must meet the following standards:

REQUIREMENTS

Pace

Students must successfully complete an average of 67% of their cumulative, attempted credit hours as transcribed by the Registrar's Office.

Qualitative Measure

All students must maintain a cumulative grade point average corresponding with the table below, as transcribed by the Registrar's Office.

Credits Attempted (Including Transfer Credits) Minimum Cumulative Grade Point Average

0-35.99 1.66

36-61.99 1.80

62-89.99 1.95

90 or more 2.00

Grade Level Progression

In order to advance to the next academic grade level for financial aid purposes, the following credit hours must be completed:

To advance to: You must complete:

Grade Level 2 – 24 credit hours

Grade Level 3 – 54 credit hours

Grade Level 4 – 87 credit hours

Special Notes

Generally, it takes 120 credit hours to obtain a Bachelor's Degree. To graduate in four years, a student must enroll for, and earn, an average of 15 credit hours per semester. Earning only 12 credit hours per semester (minimum for full-time) would extend graduation beyond the four year standard. Therefore, students who receive Juniata sponsored merit scholarships and need-based grants should average at least 15 credits per semester. Also, certain financial aid resources, such as the Pennsylvania Higher Education Assistance Agency and other state

grants, require a minimum of 12 credits earned per semester and are only available for 8 semesters.

Maximum Time Frame

Under Federal regulation, the maximum time frame that a student may have to complete an undergraduate program is 150% of the published length of the educational program for a full-time student. Juniata College has chosen to make this measurement on a credit hour basis. In most cases, a student must have earned 120 credit hours to complete an undergraduate degree. Therefore, it is expected that all students will complete all degree requirements by the time the student has earned 180 credit hours. Transfer credits reflected on a student's transcript count as attempted and earned credit hours. Students who do not complete their program within this time frame can continue to attend, but they will not be able to continue to receive financial aid. All Juniata sponsored Merit scholarships and need-based grants are limited to 8 semesters of eligibility, unless the student has experience unusual or mitigating circumstances that prevented degree completion within 8 semesters.

Additional Undergraduate Degrees

Students pursuing a second undergraduate, baccalaureate degree, including Teacher Certification, are limited to 90 attempted credit hours of work between receipt of the first degree

and completion of the second. Second degree students may not receive federal direct loans beyond 90 attempted credit hours of enrollment in the second undergraduate degree program.

Frequency of Progress Checks

The Office of Student Financial Planning will conduct the official check of Satisfactory Academic Progress at the conclusion of the academic year, following spring semester, regardless of whether the student received financial aid or not.

If a student fails to achieve Satisfactory Academic Progress, the student will be informed of this via letter or electronic mail from the Office of Student Financial Planning. Included in this communication will be information on the student's status, the effect of this status on the student's financial aid eligibility, and any actions the student must take. The notice will be sent to the student's most current addresses on file. It is the responsibility of the student to inform the College of a correct mailing address at all times. If sent by electronic mail, the student's Juniata College electronic mail address will be used for all such communications.

The Dean of Students Office will be notified of students who failed to achieve Satisfactory Academic Progress.

APPEAL PROCESS

Following the first semester in which the student does not meet the Satisfactory Academic Progress standard, the student will not be able to receive financial aid for the next period of enrollment unless the student successfully appeals.

The requirements of this Satisfactory Academic Progress policy can be appealed based on the following circumstances:

- Death or serious injury or illness of an immediate relative
- Student injury or illness which required medical intervention
- Significant, unanticipated family obligations
- Catastrophic loss (e.g. flood, fire, etc.)
- Other special circumstances.

The student's appeal must include:

- An explanation of why the student failed to make Satisfactory Academic Progress. In other words, explain how the circumstance prevented the student from performing up to his or her normal academic potential.
- A description of what has changed that will allow the student to achieve Satisfactory Academic Progress status in the coming semester.

To appeal the loss of Satisfactory Academic Progress status, the student

should submit the information to the Juniata College Office of Student Financial Planning, along with any supporting documentation (e.g. death certificate, doctor's note, letter from academic advisor or other 3rd party). The Director of Student Financial Planning reserves the right to request additional information on a case-by-case basis.

Approvals/Financial Aid Probation

Students who successfully appeal are granted Financial Aid Probation status for one semester. The student will be notified by letter or by electronic mail to their Juniata email account of the results of the SAP appeal.

The student should carefully review the SAP appeal notification, which will outline the unique, individualized SAP requirements the student must meet in order to maintain eligibility for federal financial aid. For example, a student who has failed to meet the 67% pace requirement, may be told in the appeal notification that s/he must maintain a higher minimum pace on a term by term basis, as well as earn a certain minimum GPA each semester, in order to maintain eligibility for federal financial aid. The student must keep the appeal notification for future reference.

Academic Plan/Statement of Intent

A part of the appeal process can be the establishment of an academic plan/statement of intent designed to

help the student regain Satisfactory Academic Progress standing. The Academic Plan/Statement of Intent can be part of the student's appeal. The academic plan/statement of intent is worked out between the student, his or her academic advisor, and/or the Registrars' Office.

The academic plan/statement of intent is not required at the start of the probationary semester. But, if the student fails to regain Satisfactory Academic Progress status at the end of the probationary semester, the student must be successfully following the academic plan/statement of intent in order to continue to receive financial aid.

The academic plan/statement of intent must define how the student can regain Satisfactory Academic Progress status by a specific point in time.

Denials

If a SAP appeal is denied, the decision is final for the enrollment term specified by the student on the appeal form. A student may be able to re-establish eligibility on his/her own, for future semesters, by completing sufficient credit hours and/or improving his/her GPA such that s/he then meets the SAP requirements. Please contact The Office of Student Financial Planning if you have questions about reestablishing eligibility.

Financial Aid Probation

A student is considered to be on Financial Aid Probation during the first semester s/he receives federal financial aid under an approved SAP appeal.

Important - Please Note: A successful appeal of academic suspension is unrelated to financial aid suspension and does not result in reinstatement of a student's financial aid eligibility.

Appealing one's financial aid suspension status is a separate process.

Financial Aid: The crediting of financial aid ceases for withdrawing students in the semester in which separation occurs. Federal regulations require that refunds be made in the same order as credited. Credits are applied to bills in the following order:

- Unsubsidized Federal Direct Loans (other than PLUS loans)
- Subsidized Federal Direct Loans
- Federal Direct PLUS Loans
- Federal Pell Grants for which a Return of funds is required
- Federal TEACH Grant for which a Return of funds is required
- Federal Supplemental Opportunity Grants for which a Return of funds is required
- Other assistance under this Title for which a Return of funds is required (e.g., LEAP)

- State Grants
- Juniata Grants and Scholarships
- Other payments

Procedures for Editing the Catalog
