Network Technician

The John R. Wald Company, a leader in providing industrial solutions since 1924, has an immediate opening for a Network Technician. We are looking for a dedicated and self-motivated individual to manage our computer network, communication systems, security and remote connectivity. The successful candidate will join a highly skilled team of professionals and will be responsible for various aspects of installation, maintenance, and support of custom software packages, web applications, and the company web site. They shall also provide both customer service and internal support for other employees. Strong analytical, organizational, and troubleshooting skills for both hardware and software issues are required. Some travel is required. Must be able to pass state and federal background security checks.

General Requirements:

- Technical or bachelor’s degree in information technology or computer science or equivalent experience.
- Selection, installation, and maintenance of network systems and workstations.
- Familiar with Computer programming languages such as Visual Basic .NET, Active Server Pages, VBScript, JavaScript, Microsoft SQL, HTML

General Responsibilities

Train end users in database functionality and develop and maintain appropriate documentation. Maintain network function, backup, security and virus protection programs. Provide support to user requests for assistance for approved Company software and hardware. Troubleshoot hardware and software issues and provide support digital for product lines. Assist in the development of special projects as appropriate.

We offer a competitive salary, benefits, 401K, profit sharing and a casual work atmosphere.
