

Parking and Ticketing Policy (new)

It is expected all who attend a Juniata event follow the directions given to them as to where they are able to park. Such areas will be reserved in advanced so any faculty, students, or community members can clear the area and know ahead of time the area will be occupied by people in attendance of a college event. These areas will have signs pointing in the direction of the area. If the lot is full accommodations will be made for more parking. We ask that you refrain from parking in residential parking areas due to the parking constraints on the students. If there is a problem with the parking area designated please contact a person from The Office of Conferences and Events.

If you receive a ticket/warning from security, let a person in The Office of Conferences and Events know and the charge/warning will be taken care of. If you are staying for longer than the event, please let a person in The Office of Conferences and Events know so a parking pass can be issued as to avoid ticketing.
