

Australia - University of Newcastle

City: Newcastle

Language: English

UON works with world-class researchers in biochemistry, specifically on medicine to treat epilepsy. Students in the Bachelor programs work with these researchers and may be able to participate in research. The campus is also surrounded by the natural beauty of the Australian bush and beach, with access to great outdoor activities.

Sample Classes:

- Environmental Chemistry
- Analytical Chemistry
- Medicinal and Biological Chemistry
- Organic Chemistry

Lorikeet Lunch, by Megan Lemmo '16

Fjordlands National Park, taken by Andrew Slear '21

New Zealand - University of Waikato

City: Hamilton

Language: English

International students can take classes from all departments. Their School of Sciences provides well-equipped facilities to support chemistry courses which emphasize analysis, problem solving, and practical laboratory experience. Around Hamilton, students enjoy close proximity to outdoor recreation activities, friendly local businesses and restaurants, and some of NZ's greatest tourist destinations.

Sample Classes:

- Inorganic Chemistry
- Advanced Organic Chemistry
- Environmental Chem and Geochem
- Biochemistry

England - University of Leeds

City: Leeds

Language: English

Around 30,000 students attend the university, which specializes in physical sciences and languages. Chemistry students can expect classes influenced by the university's research, such as chemical biology, atmospheric chemistry, and color science. Leeds is a welcoming city, with an active nightlife and plenty of cultural activities.

Sample Classes:

- Practical Skills in Chemistry
- Intro to Organic Chemistry
- Fundamentals of Physical Chemistry
- Intro to Modern Chemistry

Roundhay Park, taken by Trey Mathews '16

Mexico- Universidad de Guanajuato

City: Guanajuato

Language: Spanish, English

It is an independent university that offers a focus on the arts. This is reflected in the student life, which has an active cinema club and art scene. Guanajuato is centered around the university, but has a past as a center for silver mining. The town has ties to Mexico's War of Independence, with the site of the first Mexican victory.

Sample Classes:

- Organic Chemistry
- Inorganic Chemistry
- Analytical Chemistry
- Biochemistry

Tomb of José Alfredo Jiménez , taken by Annie Oldenbrook '18

Münster Bahnhof Fahrräder, taken by Cori Timney

Germany - Münster University of Applied Sciences

City: Steinfurt

Language: German

Over the years, Münster University of Applied Sciences has evolved into a practice-oriented, international and interdisciplinary university of applied sciences. Teaching staff and students contribute equally to the successful transfer of scientific findings to practice. This pays off: our establishment is now one of Germany's largest and most successful universities of applied sciences.

Sample Classes:

- Organic Chemistry
- Physical Chemistry
- Macromolecular Chemistry
- Inorganic Chemistry

France - L'Université Catholique de Lille

City: Lille

Language: French

Even though L'Université Catholique de Lille the largest private university in France, the professors emphasize a group based, interactive classroom. Students in Chemistry study in French at the Hautes Études D'Ingenieur (HEI).

Sample Classes:

- Chemistry of Activated Systems and Radicals
- Organic Synthesis
- Biological Chemistry

Lille Catholic University campus

Study Abroad 101 Info Sessions are held Wednesdays at 4pm @ the Oller Center Patio
