#### Mail-order perks

- **Easy set-up.** And easy reordering, with no trips to the pharmacy.
- **Free standard shipping.** Get your medicine sent to your home, job or wherever you choose.
- **Complete privacy.** Your medicine will arrive in unmarked, secure packaging.

**Your safety comes first.** Registered pharmacists check each and every order. And if you have an emergency, you can call them anytime.

## Three steps to start mail order

### Step #1: Ask your doctor for two prescriptions.

- The first is for a supply of your regular medicine that you can fill at your local pharmacy.
- The second is for a supply of your regular medicine that you can fill through mail order.

Now you have the medicine you need today, and going forward.

### Step #2: Log in to your member website at [www.aetna.com](http://www.aetna.com).

Once there, you can print out an order form that you or your doctor can complete. Or with just a few clicks, you can request mail order online.

### Step #3: Get refills.

Now that you've received your first supply by mail, it's easy to get refills.

*You can reorder:*

- Online
- By phone
- By mail

You'll get more details in your member welcome packet. It's coming soon.

## What will I pay?

Depending on your plan, you may pay less for medicine you get through our mail-order pharmacy than at a retail pharmacy. To know for sure, just check your plan details.

## A courtesy service to get your first prescription

You can get your first mail-order prescription from your doctor. We can also contact your doctor *for* you.

But first — let your doctor know we'll be calling. He or she may still want to see you before giving us your prescription.

**Choose healthy without the hassle.** Get your regular medicine through Aetna Rx Home Delivery.

## Know the cost of your medicine *ahead of time*

How? Log in to your member website at [www.aetna.com](http://www.aetna.com). All you need to do is enter the first three letters of your medicine to see what it costs under your plan.

You can also do a lot more like order medicine, get drug details ... even ask a pharmacist a question.
