- All dates and times are local.
- Every effort is made to distribute final exam times equitably based on class meeting days and times to avoid exam conflicts. If your class meeting time is not listed, check with your instructor.
- Students with more than two exams in a single day or a conflict with a common exam should confer with their instructor for an alternate final exam time.
- Final examinations are NOT rescheduled to accommodate travel plans. If you must make travel arrangements before the examination schedule is published, do not plan to leave until after exam week.
